WARNING

Every effort has been made to ensure that the information contained in this *Guide* is correct. However, it will be clearly understood that this book is intended as a guide only, that the information cannot be *Guaranteed* correct and that final responsibility must (as always) rest with the Shipmaster.

At certain ports, items of navigational routeings and aids have been included as a means of general guidance only. Shipmasters should have in mind that full and due reference MUST ALWAYS be made to corrected charts of the area, to the appropriate Notices to Mariners, and all or any other navigational notices, warnings or amendments issued by proper Authorities and/or navigational aid services.

The sketch maps are included for general interest and must not be used for navigational purposes.

The entire contents of the *Guide to Port Entry* as issued are the copyright of the publishers, namely Shipping Guides Limited.

Any person wishing to make use of this *Guide* must first seek prior permission in writing from Shipping Guides Ltd. Proceedings will be taken against any person reproducing or copying any part of the contents of the *Guide* without permission.

FINLAND	Kotka	SYRIA	Tartous

Lebanon

BEIRUT (Beyrouth): 33.54 N. 35.30 E.

DOCUMENTS:

Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any of these *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.

5 Copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco. (See "Customs Allowances").

PILOTAGE: Agent arranges Pilot via Harbour Master. Agent therefore to be kept well informed of ETA, 48 hrs. and 24 hrs. prior arrival. Pilot boat white with red funnel. Sound signals, 2 long and 1 short or conctact can be made via VHF to Harbour Master. Pilot boards outside main breakwater. Assistance of Pilot outside daily normal hours, Sundays and official holidays, will be cost calculated at 100% more. Offical normal working hrs. for pilotage station as follows: from 1st October up to 30th April, 0700 till 1700 hrs.; from 1st May up to 30th September, 0700 till 1800 hrs., For tankers outside harbour, the pilotage dues will be 100% extra.

ANCHORAGE: In roads outside breakwater.

RESTRICTIONS: No particular restrictions. Pilot normally available between sunrise and sunset otherwise by special agreement.

MAX. SIZE: Max. draft in port 13 m. No limitation to breadth or length.

HEALTH: Health Authorities board in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates required for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for crew members.

RADIO: Cables via Beirut Radio to and from Agent.

VHF: VHF Channels 13 and 16, Frequency 156.6 and 156.7.

TUGS: Tugs of 1,000 h.p. join vessel inside port when necessary. Ship's lines to be used.

BERTHING: If port congested priority given to vessel already registered. Passenger-tourist vessel and cargo for army have priority. Harbour capable of berthing 24 ships simultaneously and 3 moored on buoys, discharging into barges. All discharging is by ship's gear.

Dock No. 1. Surrounded by quays Nos. 1,2,3. Depth of water varies between 3 and 8 m. Parts of quay No. 1 and quay No. 2 with 3 m. depth of water are reserved for floating units of port company and for launches of Harbour Master and pilotage service. Slipway of 1,000 tons capacity and workshops.

Dock No. 2. Surrounded by quays Nos. 4,5,6,7, with water depths varying between 8 and 10.5 m. On quay No. 5 berthing priority is given to passenger ships, while the other quays are for cargo vessels.

Dock No. 3. Surrounded by quays Nos. 8,9,10,11, with depths varying between 10.5 and 13 m. All these quays can berth ships bringing general cargo. At quay No. 8 of 13 m. depth, priority of berthing is given to grain ships.

Grain Silo At the present time bulk grain ships are unloaded by means of removable suction machines, which can be installed on the ships and deliver the grain to lorries for direct transport. There is a 60,000 metric tons capacity silo. Ships will be unloaded by means of 2 gantry type suction machines, mobile on rails with a capacity of 6×100 t.p.h. An eventual extension is already designed which would increase capacity of silo to 105,000 tons.

STEVEDORES: Ordered by Agent. No ETA to Stevedores necessary. Working hours, 0800-1200, 1300-1600. Otherwise overtime on Sundays and on official holidays.

MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.

DENSITY: 1025

FRESH WATER: The port company has equipped all quays with hydrants. Ships moored on buoys can also be supplied with water from cistern barge. By shore installation or by barge. Delivery rate 20/25 t.p.h. Outside harbour double price per barge.

FUEL: Fuel, gas oil, diesel obtainable. 48 hrs. notice required.

FIRE PRECAUTIONS: Special berths for tankers.

DEVELOPMENTS: Discussions about a fourth basin.

GANGWAY/DECK WATCHMEN: Available and recommended.

OPENING/CLOSING HATCHES: For liners, by stevedores, otherwise per agreement.

CUSTOMS ALLOWANCES: (Tobacco) 40 cigarettes per crew member. Customs very strict, and will search crew cabins. Regulations are as follows:

1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port, will be fixed on the basis of two packets per crew member, passenger per day and to be calculated on a max. period of 4 months, if the vessel emanates from an American, Asian or African port -not central Africa; and for 2 months if the vessel last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and, on the same basis the consumption by the crew members and passengers during their trip, and this to start from the last port of call, until arrival at a Lebanese port. That the number of passengers to be taken into account on a tourist vessel, will be the number of berths the vessel can accommodate and not the number of passengers actually on board. As to cargo vessels, the actual number to be accounted for will only be the crew members and the Master of the vessel.

2. In the event that it is the first call of the vessel at a Lebanese port and not aware of such regulations, and it was found onboard her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within 1 month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure on the vessel will be lifted when a Bank Guarantee equalling the amount of fine and dues is placed, or a personal guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled the usual penalties will be inflicted according to the Law.

3. In the event the vessel is aware of such restriction, and for one reason or another, she is carrying an excess quantity, this excess must be, as per offical regulations, shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut. Any excess found over and above such declaration will be considered as smuggling and the law will be applied.

Wine and/or Spirits: 1 bottle per crew member. Captain allowed 3/4 bottles.

CARGO GEAR: Ship's gear to be used but mobile cranes can be hired. Shore cranes except for mobile cranes only available at quay No. 9 and 11. Floating crane of 120 tons available.

IDENTIFICATION CARDS: Shore pass given to each crew member. Passport and seaman's book to remain in Captain's care.

CONSULS: Most countries have consulates.

REPAIRS: Most types of repairs carried out.

DRY DOCKS: None except for 500/1,000 tonner.

REPATRIATION: Very good facilities for repatriation.

AIRPORT: About 10km. distant, served by regular airlines.

TIME: GMT plus 2 hrs. Summertime, GMT plus 3 hrs.

HOLIDAYS:

Holidays	*Date*	*Days*
New Year's Day	January 1	1
Al-Adha (Kurban Bairam)	Varies	2
Ashoura	"	1
New Year (Islamic)	"	1
Arab League Day	March 22	1
Good Friday	Varies	1
Easter Monday	"	1
Good Friday (Orthodox)	"	1
Easter Monday (Orthodox)	"	1
Labour Day	May 1	1
Martyr's Day	May 6	1
Ascension Day	Varies	1
Mohamed's Birthday	"	1
Assumption Day	August 15	1
All Saints' Day	November 1	1
Independence Day	November 22	1
Ramadan	Varies	2
Christmas Day	December 25	1

Port closes completely: New Year's Day, Al-Adha, Easter Monday, Labour Day, Independence Day, 1st day of Ramadan and Christmas Day. On other holidays, day work in port carried out against overtime payment.

POLICE/AMBULANCE/FIRE: Telephone numbers: Police 16, Ambulance 18, Fire 17.

TELEPHONES: On request by shipping agency, berthed ships can be connected to telephonic network of city.

SERVICES: Tank-cleaning equipment. Facilities for discharge of tank-washings, compass adjusting, laundry, etc., available.

SHORE LEAVE Crew allowed onshore.

DELAYS: 1. Unavailability of berth or barges due congestion mainly during Winter months (December to April). 2. Vessel already registered will lose turn if not returned to port in time. 3. Barge ordered for bunkering might be occupied if vessel's arrival delayed.

AGENT: Gulf Agency Co. (Lebanon) Ltd., PO Box 4392, Beirut, Lebanon. Cable address: "Gacship". Telex 20906 (Answerback "GAC 20906 LE" or Athens 216344. Telephones, 296733, 256516 AO 453957. Office in El Arz Street, Modern Building.

CHEKAA: 34.20 N. 35.43 E.

Port is used for cement loading and discharge of sulphates.

ANCHORAGE: Safe anchorage in Chekaa Bay.

MAX. SIZE: Draft up to 26 ft. 6 ins. (in calm weather) alongside quay. In event of swell, vessel required to leave quay and anchor in bay.

LOAD/DISCHARGE: 800/1,000 metric tons per 24 hours.

AGENT: See "Beirut".

RAS SELAATA: 34.16 N. 35.39 E.

Port is used for discharge of sulphates and sulphuric acid.

MAX. SIZE: Up to 21 ft. draft (in calm weather) alongside pier which has 2 cranes.

AGENT: See "Beirut".

SIDON: 33.30.04 N. 35.20.31 E. (See Plan)

OPERATORS: Trans-Arabian Pipe-line Company, Sidon Terminal. The Company transports crude oil from Saudi Arabia via pipe-lines and exports from terminal South of Sidon (Saida). Terminal operates 24 hrs. a day, 7 days a week.

FLAG: All vessels required to fly Lebanese Ensign on foremast during daylight hours. Lebanese flags may be obtained from ship's Agent.

LOCATION: Sidon Terminal is open, unsheltered roadstead, situated immediately North of Zahrani River, about 5 miles South of city of Sidon (Saida), Lebanon. It is approximately 35 miles South of Beirut, and 17 miles North of Tyre.

DESCRIPTION: Terminal's Tank Farm consists of 23 storage tanks situated East of terminal at 360 ft. (average) above sea level. Marine and administrative offices, a laboratory for testing stocks, 3 large and 3 small storage tanks all located within area just above sea level. An "L"-shaped pier for harbouring Company's marine craft extends approximately 1,000 ft. from shore near Southern end of berthing area.

NAVIGATIONAL AIDS: Terminal sea buoy approximately 1 mile Westward of mooring berths in 98 ft. of water. Position 33° 32′ 02″ N.; 35° 19′ 16″ E. Buoy painted white and exhibits flashing white light every 4 seconds (flash 0.3 seconds, eclipse 3.7 seconds). Lantern 11 ft. above water and visible 8 miles. Mooring Master will board vessels within 2 miles to Westward of this buoy. Vessels should not enter inside restricted area described by a line joining South-west buoy and North-west buoy with terminal sea buoy unless so directed by Mooring Master.

Radio beacon tower located 1,200 ft. back from beach, South-east of moorings. Occulting red light (about 30 flashes per minute) mounted on top, elevation 184 ft. above sea level; position 33° 30′ 04″ N.; 35° 20′ 31″ E. Tower also marked with 2 sets fixed red lights located respectively 45 and 90 ft. below occulting red light. Radio beacon is automatic and operates on 24 hr. basis on frequency of 296.5 kc/s, with "SAD" as the identifying call sign. It will signal 2 times over a 10-second period and then give a constant 1,000 cycle tone for 72 seconds. Tower is of cage-type construction, painted red and white. About 2.5 miles South-west of terminal sea buoy and approximately 2 miles offshore is rocky shoal with approximately 32 ft. of water over it. Outside this shoal is a lighted buoy, painted red, in 51 ft. of water, showing flashing red light every 4 seconds (flash 0.3 seconds, eclipse 3.7 seconds). This buoy moored in 33° 30′ 21″ N.; 35° 18′ 04″ E. Lantern 11 ft. above water and visible 5 miles. Vessels approaching from Southward should keep offshore until radio beacon tower bears 100° true before hauling-in.

"Sailing Directions for the Mediterranean" (U.S. Navy Hydrographic Office Publication No. 154A Vol. IV) reads in part:

> "*Caution:* As the coast between Saida and Tyre, 20 miles South-South-westward, is bordered in places by rocks and shoal water extending as far as 1 mile offshore, it should not be approached closer than 1.5 miles, nor within depths of less than 16 fathoms."

Unlighted, white painted spar buoys mark North-west and South-west corners of restricted area. North-west buoy in 78 ft. of water and located approximately 33° 33′ 35″ N.; 35° 21′ 13″ E. South-west buoy in 57 ft. of water and located approximately 33° 30′ 20″ N.; 35° 19′ 36.5″ E. During darkness terminal range lights and mooring buoy marker lights may be visible. These lights are located inside the restricted area.

A conspicuous water tank (painted in black and white vertical bands) on a tower located 33° 29′ 27″ N.; 35° 21′ 10″ E., the top of which has elevation of 460 ft. above sea level. Location is seaward of centre oil storage tanks.

There are a number of smaller radio towers to North-west and South-west of beacon tower. South of terminal, at Medreco Refinery, is a conspicuous black stack located 33° 29′ 31″ N.; 35° 20′ 08″ E. A little further North-west from this stack is a tall pipe painted aluminium with a flare on top at 33° 29′ 35″ N.; 35° 20′ 03″ E.

DOCUMENTS:

Health Declaration: International Health Form to be filled out by Master on arrival.

Cargo Manifest: No cargo arrival manifest required, as same usually prepared by local Agent.

Clearance: No clearance required.

Crew List: 4 copies required on arrival.

Passenger Manifest: If any passengers on board.

Store List: 2 copies.

Bonded Store List: 2 copies. Present regulations at Sidon Terminal allow each seaman to retain in his possession a maximum of 40 cigarettes or the equivalent weight of tobacco or cigars. The balance of all smoking items must be collected and carefully listed prior arrival. This list will be checked by Customs before sealing lockers. If any discrepancies, vessel subject to a fine.

PILOTAGE: Vessels to be moored at Sidon will be boarded by Mooring Master of Company within 2 miles to seaward of terminal sea buoy. Mooring Master will advise Ship's Master on approaches to berth, mooring, unmooring, connecting and disconnecting submarine hoses and in all other operations within berthing area. All manoeuvring of ships within berthing area shall be done only in accordance with advice of a Tap-line Mooring Master, subject to the understanding that in all cases and circumstances Master of the vessel being manoeuvred shall remain solely responsible, on behalf of vessel's owner, for safety and proper manoeuvring of vessel. Ship's Master or qualified deck officer must be on bridge at all times while ship is manoeuvring.

Vessels must have a pilot ladder safely and securely rigged, and all vessels over 45,000 d.w.t. should have an accommodation ladder rigged in combination with pilot ladder for safe boarding of Mooring Master and Government officials. Pilot ladder should be abaft and close to accommodation ladder so that Mooring Master, after climbing a few steps, can use accommodation ladder for remaining climb. Since hoses handled on port side at Sidon, it is advisable to rig ladders on starboard side. If at night, adequate lighting must be rigged over-side for Mooring Master to approach side of ship and climb ladder safely.

Note: Vessels having special rigs, such as hoisting equipment on short sections of pilot ladder, are not required to rig pilot/accommodation ladders per the above.

ANCHORAGE: For vessels awaiting berth, good anchorage just W.S.W. of terminal sea buoy in 16 to 20 fathoms, sandy bottom. Vessels should under no circumstances anchor North of terminal sea buoy as depths are excessive for safe anchoring.

MAX. SIZE: Berths Nos. 1 and 4 depths 47 ft., and berths Nos. 2 and 3 depths approx. 67 ft. Tankers up to 150,000 d.w.t. or approx. 55 ft. draft are considered max. size which should be handled during Winter months at Sidon, and then only if vessel meets all of below recommended requirements. Otherwise, vessels of over 100,000 d.w.t. should not be nominated for liftings at Sidon during period November-March.

Based on previous experience, sudden and severe storms of long duration are not expected from April through October. Vessels over 150,000 d.w.t. may, therefore be accommodated during this period. However, prior to acceptance of nomination of vessels over 150,000 d.w.t. Tapline requires advance information regarding max. draft, vessel's equipment and location of manifold in reference to distance from stern of vessel which should not exceed 450 ft. Acceptance or rejection will be made after evaluation of above data by Sidon Marine personnel.

Summary of Recommendations for Vessels over 40,000 d.w.t.:

1. Capable, efficient and reliable anchor windlass(es).
2. Fifteen shots on starboard chain – thirteen shots on port chain are satisfactory.
3. Mooring wire winches, 1 on aft well deck, 3 on poop deck, 200 fathoms wire on each, with adequate number of manila or synthetic ropes to double up as needed.
4. Capability of lifting 16 in. hose string – 6.5 tons static weight.
5. Suitably located hang-off bits.
6. Capability of keeping vessel in a reasonable safe ballast condition (November-March) by permanent ballast or loading while deballasting, or a combination of both.
7. Ship's manifold located not more than 400 ft. from stern.

HEALTH: Rules governing quarantine of vessels are same as found in other ports.

RADIO: *(a) Facilities.* Tapline has own ship-to-shore radio telegraph, and VHF radio telephone station at terminal. This station is not open to commercial traffic. Services limited to traffic between Tapline and tankers within 3 days' sailing time from terminal. Messages to or from tanker agents classed as "Commercial" and must be routed via Radio Orient, a commercial radio station. Its call sign is ODR.

Sidon Radio, call sign ODA 3, transmits (CW) on 8502.5 kHz at 0700, 1100 GMT, the traffic list; 12840 kHz at 0730, 1130 GMT, the traffic list; 424 kHz for traffic upon request. Listens on 8534-8374 kHz for replies and calls and on 8374 for traffic. Will listen on 8476 kHz for traffic upon request; 12531-12561 kHz for replies and calls; 425, 454, 468 and 480 kHz upon request. Keeps watch only between 0500-1300 GMT on 500 kHz.

Radio Orient Beirut, call sign ODR, transmits (CW) on 8702 kHz and 13101 kHz simultaneously half-past each hour beginning at 0630 until 2130 hrs. GMT, the traffic list; 524 kHz each hour beginning at 0600 hrs. until 2100 hrs. GMT, the traffic list. Listens on 8534–8374 kHz and 12531–12561 kHz for replies and calls each hour from half-past the hour until the hour; 500 kHz 0600 to 2200 hrs. GMT and 425, 454, 468 and 480 kHz from the hour until half-past the hour for replies and calls. Keeps watch only between 0600–2200 hrs. GMT on 500 kHz.

(b) Advice of Arrival. It is important that ships establish radio contact with Tapline Station ODA3 when 3 days distant from Sidon and maintain this contact at regular intervals until just prior to arrival at the terminal. All ships should send a 72-hour ETA message to Tapline, giving the best estimate of ship's arrival time, a statement of bunker requirements and other relevant information. Shorter notice may result in berthing delay. Further ETA messages should be sent when vessel is 24 hours and 12 hours distant and to cover any other time changes occurring in the original ETA or those subsequent thereto. The 12-hour ETA should include a statement regarding "ship's readiness to load" on arrival, and time required to discharge clean ballast after ship is moored. A further contact when 4 hours away is desirable for exchange of weather data and mooring schedule. Vessels failing to give minimum of 12 hours arrival notice may be subject to delays in acceptance.

(c) Ship-to-Shore Communications. Ship-to-shore communications, while ships are in moorings, will be by portable VHF radio units used by the Mooring Master only. The use of the ship's radio station (except Channels 16-14) and/or battery charging equipment is prohibited for safety reasons during cargo transfer operations.

In the event of normal ship-to-shore communications failure, the (ship's) emergency whistle signal should be used.

(d) Radio Message. Upon first contact with inbound tanker, ODA3 will transmit a detailed message of advice.

It is important that a reply to this message be sent soonest after receipt. Also requested that all vessels forward their local weather observations to this station while approximately 100 miles and again 50 miles Westward of Sidon when approaching and also upon departure during period November 1 to March 31. This data is used to assist in preparation of terminal weather forecasts and radio contact may be useful in event Tapline needs to furnish any information to vessel after its departure.

VHF: Tapline VHF radio telephone system operates on international Channels 14 and 16, 156.7 mc/s and 156.8 mc/s respectively. Channel 16 used to establish contact while all traffic handled on Channel 14. Tapline guards these channels on a 24 hour basis, and contact can generally be made at distances up to 100 miles from terminal. Conversations on these channels will be carried out in English language only.

Mooring Master only will be in direct charge of portable VHF ship-to-shore radio communications.

BERTHING: 5 buoys in berth No. 1 and 7 buoys in each of berths No. 2, 3 and 4. During winter months vessels over 40,000 d.w.t. usually moored in berths No. 2 or No. 3. These berths approx. 1 mile to 1.5 miles from shore. Berths numbered 1 to 4 from South to North. Vessels moored on 1 heading (West) basis using both bow anchors with max. possible spread of anchors to increase ship's anchor beam holding components. Ship's stern moored to cylindrical buoys fitted with release hooks, using 7 ropes (or wires) to respective mooring buoys. Permanent moorings consist of 7 steel cylindrical buoys in each berth. (5 buoys in No. 1 berth.)

Certain mooring buoys in all berths fitted with 1.5 in. diameter preventer wires, one end of which is secured to mooring buoys. When required, other end is brought on board vessel by a messenger line after ship moored in position. Preventer wires supplemental to ship's regular moorings during adverse conditions. Ships should have chain stoppers for handling these wires.

BALLAST: Masters are warned that no dirty ballast or bilge water may be discharged within an area extending 100 nautical miles seaward of the Lebanese coastline. All pipe-lines, sea suctions, strainers and pumps that are to be used for the discharge of clean ballast must be flushed clean prior to entering the 100 mile zone. Except for oil retrieved under "load-on-top" procedures, Masters must assure themselves that all oil tanks, pipe-lines and pumps are free of all traces of oil.

The terminal has no facilities for receiving oily ballast. A vessel must have sufficient ballast for safe manoeuvring. However, by carefully watching the weather, especially in the Summer months, by frequent interchange of weather information and berthing instructions, and, by a knowledge of the behaviour of his own vessel, a Master may desire to arrive at the terminal with min. ballast thereby lessening any possibility of infringement of the pollution restrictions of this section, and also reducing time in berth.

As soon as practicable after arrival and prior to acceptance, all the vessel's tanks will be inspected for evidence of oil in ballast tanks. Inspection will continue during discharge of ballast. If evidence of oil appears at either of these inspections, the ship must return at once to a point not less than 100 miles from the coastline and there accomplish the necessary tank cleaning. Any vessel required to return to a position at least 100 miles offshore for the purpose of discharging dirty ballast, cleaning tanks or for any similar reason, automatically nullifies any Notice of Readiness already tendered, and at the same time loses any priority held for loading. On return from sea, vessel will be entered for loading at the time of the second arrival, when a new Notice of Readiness will be tendered.

Vessels discharging dirty ballast within the prohibited 100 mile zone may be subjected to action by the Lebanese Government. In addition, ship's owners and charterers will be promptly notified of any violation.

Masters are also warned that ship's garbage or trash should not be dumped within 50 miles from the Lebanese coast.

LOADING: *(a) Readiness:* Tenders to load will normally be accepted and berths assigned to vessels in order of arrival, provided vessels have nominations for cargo valid at the time, carry clean ballast and are in all respects equipped and ready to moor. In event berthing delayed on account weather, vessels will ordinarily keep their loading priority in order of arrival. Vessels required to leave port area on account of weather (port closed), should keep in contact with terminal via radio in order that they will be available when weather moderates. Company will make every effort to load vessels on arrival, or as promptly as berth is available, weather permitting. Notice of readiness will not be accepted unless vessel ready to load. Arrival time will be considered as time Mooring Master boards vessel underway or time vessel anchors, whichever occurs first.

(b) Connecting-up. Ships loaded by means of submarine pipe-lines. Weight of the 16 in. hose in No. 2 berth about 6.5 tons; weight of 12 in. hose in No. 3 berth about 5 tons; and weight of 12 in. hoses in No. 1 and No. 4 berths about 4 tons. Hoses lifted by ship's gear on port side. Detail of flange templates shown in drawings below. Ships should provide manifold fittings to allow connection of flanges shown.

Mooring Master advises ship's personnel in lifting, connecting, disconnecting and lowering of hoses. A ship's deck officer must be present, and must direct ship's crew in all hose handling. There must be sufficient crew on deck to perform this work.

(c) Rates: Loading is by gravity flow from tank farm which is approximately 360 ft. above sea level. Loading rates as follows (approximate maximum):

	Rates (BPH)	
Berth	*With 1 Hose*	*With 2 Hoses*
1	17,000	29,000 (12 in. hoses)
2	40,000	70,000 (16 in. hoses)
3	27,000	43,000 (12 in. hoses)
4	25,000	37,000 (12 in. hoses)

Order save ship's time and to ballast vessel as quickly as possible, as well as to make berth available for others, it is requested that ships receive oil as fast as it can be delivered, with due regard for safety. The removal of any restrictions, such as strainers, etc., is recommended.

MEDICAL: Neither medical nor hospital facilities provided by Tapline. Private doctors and hospital facilities available at Sidon and Beirut. Agents acquainted with situation and can make necessary arrangements.

If unable make radio contact, then vessels requiring emergency medical assistance should hoist International Code Flag "W" in daylight, and at night, send "W" (·– –) on blinker light to attract immediate attention, the same signal "W" (·– –) should be given on ship's whistle in either day or night hours. Signal should be repeated until acknowledged visually by either another ship in berth; from shore station or from Company launch. As soon as signal is received, terminal officials will advise ship's Agent as soon as possible of the emergency medical aid required.

DENSITY: Salinity of the sea is same as open Atlantic Ocean. Temperature ranges from 60°F. to 85°F. (15.6°C to 29.4°C.) depending on season.

FRESH WATER: Not available.

FUEL: Bunker fuel loaded at rate of 3,000–5,000 b.p.h. through 8 in. deck hose. Bunker connection should be located near ship's cargo manifold. Ships calling at Sidon to load crude oil should arrange for bunker fuel nominations through one of the offtaker companies well in advance of arrival. Bunker fuel will not be delivered until Tapline has received a firm nomination. Bunker fuel will be loaded as promptly as circumstances permit, but Tapline assumes no liability for any delays incurred by a vessel in berthing or loading bunker fuel. Maritime lubricants available, through marketing representatives in Beirut by arrangement through Agents.

PRECAUTIONS: *(a) Valve Control.* Ship's valves must not be closed against the oil stream.

(b) Emergency Signal. When, and if normal ship-to-shore communications fail, the emergency signal to stop oil flow will be a continuous blast on ship's whistle, until oil ceases to flow. Steam or air should never be shut off from the whistle during loading. Whenever emergency whistle is used, all loading operations in all berths will be shut down until communications can be established with vessel giving the signal. For this reason, it is requested that ships in the area refrain from using their whistles for other purposes.

(c) Readiness to Leave Berth. Port is considered an "open roadstead", and under no circumstances may engine be shut down

for repairs while ships moored in submarine berths. Vessels in submarine berths must be able to clear, and shall clear immediately upon advice of Mooring Master. Ship's engine and gear must therefore be ready at all times with full power for immediate use.

(d) Loading and Deballasting Simultaneously. Properly equipped vessels will be encouraged to discharge clean ballast and load oil simultaneously. This capability is especially necessary during unsettled weather order keep vessel reasonably ballasted.

REPAIRS: No facilities.

CONSULS: Two consulates at Sidon, one Italian and one Norwegian. Consular or diplomatic representatives for most nations maintain offices in Beirut.

OFFICIALS: Lebanese officials, such as Customs Director, Quarantine Officer, Immigration Officer, Captain of the Port and Police, stationed at Sidon. Should Customs guards be stationed on board while in berth, it is expected that ship will provide food for these guards and other officials.

SHORE LEAVE: Arranged between Agent and Lebanese Security Officer aboard vessel. Ship's personnel (other than emergency or medical cases) not allowed to disembark at terminal. All personnel going ashore must land at Sidon where small boats must cross a shallow and sometimes impassable bar. Delays have been caused to vessels whose personnel have been unable to rejoin their ship. Sufficient personnel must be aboard at all times for letting go lines so that vessel can clear berth whenever required.

GENERAL: *(a) Mooring Wires and Winches.* Use of mooring wires to powered drums for all vessels calling at Sidon is strongly recommended. Because there are no mooring tugs available, a ship's ability to moor during marginal weather conditions is dependent upon its ability to warp itself into position. Vessels with capable wire winches and deck mooring equipment that are able to place 1 or 2 mooring ropes on a windward mooring buoy, usually able to moor without difficulty. Vessels over 40,000 d.w.t. should have mooring wires to powered drums, 1 on aft well deck and 3 on poop deck. The wires should be 200 fathoms in length and so secured as to be easily let go from ship if necessary.

(b) Ropes. Vessels should have 2 suitable, best quality mooring ropes of 200 fathoms each located on aft part of after well deck for use on either port or starboard side, 3 (min.) suitable, best quality mooring ropes of 200 fathoms each and 3 additional ropes of 150 fathoms each on poop deck plus properly located warping winches and bitts. Vessels equipped with mooring wire winches on poop deck may reduce required "additional" ropes accordingly. Wires are not used on port side of aft well deck due to possible fouling of wire with hose or pipe-line underwater facilities. In this position a suitable, best quality mooring rope must be used. 2 ropes of 200 fathoms each recommended, to be used on either side while mooring, and used on port side only for securing ship in berth.

AUTHORITY: Trans-Arabian Pipe-line Company.

AGENTS: Gulf Agency Co. (Lebanon) Ltd., Sidon, Lebanon. Cables: "Gacship", Sidon. Tel. 720715. AO 453957. Telex: 20906 Beirut or Athens 216344.

For communication and operational reasons address all your correspondence and cables to head-office in Lebanon: Gulf Agency Co. (Lebanon) Ltd., POB 4392, Beirut, Lebanon. Telephones: 256516, 296733. Cables: "Gacship", Beirut. Telex: 20906 (answer back: GAC 20906 LE.) or Athens 216344.

TRIPOLI: 34.28 N. 35.49 E. (See Plan)

(a) DRY-CARGO PORT.

Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any ports *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.

DOCUMENTS:

1 Legalised copy of Cargo Manifests.
5 copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco (see "Customs allowances").

PILOTAGE: Agent arranges with Harbour Master, therefore keep Agent closely advised ETA. Harbour Master may also be contacted on VHF Channel 13 (frequency 156.6) and 16 (frequency 156.7).

ANCHORAGE: Good anchorage.

MAX. SIZE: Depth at entrance 22.5 ft. Max. draft alongside berth 22 ft. 6 in.

HEALTH: Health authorities board in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates required for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for Crew members.

RADIO: Cables via Beirut Radio to and from Agent.

BERTHING: New pier about 600 m. length. Two berths. 4 shore cranes suitable for vessels up to about 7,000 tons only. Two heavy-lift cranes, capacities 25 and 50 tons. Lighters available for discharging alongside vessel. Ship's gear often used for discharging.

STEVEDORES: Ordered by Agent. No ETA to stevedores necessary. Working hours, 0800–1200, 1300–1600, otherwise overtime included on Sundays and on official holidays.

MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.

DENSITY: 1025.

GANGWAY/DECK WATCHMEN: Available and recommended.

OPENING/CLOSING HATCHES: For liners by stevedores, otherwise per agreement.

CUSTOMS ALLOWANCES: Tobacco. 40 cigarettes per crew member. Customs very strict, checking crew cabins. Regulations are as follows:

1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port will be fixed on the basis of 2 packets per crew member, passenger per day, and to be calculated on a maximum period of 4 months, if the vessel emanates from an American, Asian or African port – not Central Africa; and for 2 months if the vessel's last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and on the same basis the consumption by the crew members and passengers during their trip, and this to start from the last port of call until arrival at a Lebanese port.

That the number of passengers to be taken into account on a tourist vessel will be the number of berths the vessel can accommodate and not the number of passengers on board. As to cargo vessels, the actual number to be accounted for will only be the crew members and the Master of the vessel.

2. In the event that it is the first call of the vessel, at a Lebanese port and not aware of such regulations, and it was found on board her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within one month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure of the vessel will be lifted when the Bank guarantee equalling the amount of fine and dues is placed, or a Personal Guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled, the usual penalties will be inflicted according to the law.

3. In the event the vessel is aware of such restriction, and for one reason or another she is carrying an excess quantity, this excess must be, as per official regulations, be shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut.

Any excess found over and above such declaration will be considered as smuggling and the law will be applied.

Wine and/or spirits: 1 bottle per crew member; Captain allowed 3/4 bottles.

CARGO GEAR: Ship's gear to be used. A floating crane maximum lift 50 tons is available.

IDENTIFICATION CARDS: Shore pass given to each crew member. Passport and seaman's book to remain in Captain's care.

CONSULS: Most countries have consulates in Beirut.

AIRPORT: Beirut.

TIME: GMT plus 2 hours. Summertime, GMT plus 3 hours.

HOLIDAYS:

Holidays	*Date*	*Days*
New Year's Day	January 1st	1
Al-Adha (Karban Bairam)	Varies	2
Ashoura	Varies	1

Christmas Day	December 25th	1

AGENT: Gulf Agency Co. (Lebanon) Ltd., Customs Street, Tripoli, Lebanon. Cables: "Gacship", Tripoli/Lebanon. Telephone: 625771 after hours 625930, 453957. Telex: 20906 Beirut or Athens 216344. Head Office: Beirut (which see).

(b) OIL TERMINAL.

OPERATORS: Iraq Petroleum Company.

DOCUMENTS: See "Section A – Dry-cargo Port".

PORT LIMITS: Iraq Petroleum Company Limited have placed three spar-buoys to indicate the limits of the Company's Sea Terminal boundaries.

The location of these buoys is as follows:

1st, Lat. 34° 30′ 03″ N. Long. 35° 52′ 30″ E.
2nd, Lat. 34° 29′ 42″ N. Long. 35° 52′ 26″ E.
3rd, Lat. 34° 29′ 03″ N. Long. 35° 51′ 04″ E.

PILOTAGE: The company's Mooring Masters will meet tankers two miles N.E. of Tripoli Breakwater Head. Tankers of 40,000 d.w.t. and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft. above water. This can be adjusted to suit conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable Pilot to ascend pilot ladder clear of launch and then step on to the lower platform of the accommodation ladder. United Kingdom Merchant Shipping (Pilot Ladders) Rules are relevant.

ANCHORAGE: Good anchorage immediately W.N.W. of No. 4 sea berth buoys.

MAX. SIZE: Least depth of water available in berth, and swinging circle, after deducting 6 ft. for the height above sea bed of the sea line and cradle is as follows: No. 1 Berth, 62 ft.; No. 2 Berth, 66 ft.; No. 3 Berth, 53 ft.; No. 4 Berth, 38 ft. The swinging circle is defined as 1.5 ship's lengths from dropping position of ship's inshore anchor. The approximate draft limits quoted are based on an under-keel clearance, in the berths, of 6 ft.

VLCC's will be handled in Berth No. 2 and loaded to a draft of 60 ft. During the period April to October, and subject to the Master and Mooring Master being satisfied that weather conditions permit loading to a reduced under-keel clearance of 4 ft., then the loaded draft may be increased to 62 ft.

HEALTH: See "Section A – Dry-cargo Port".

RADIO: The Iraq Petroleum Company Limited, must be informed 48 hours prior to arrival of a vessel's ETA, quantity of cargo required, maximum loading rate, SWL of derrick for lifting hoses and confirming that the ballast for discharge in port waters is clean. Communication with Iraq Petroleum Company, Limited, should be by cable addressed to "Petriraq, Tripoli, Lebanon", or direct to Tripoli Terminal Radio Station.

Tripoli Terminal Radio Station. Call Sign – ODC 8.

Waveband	*Hours (GMT)*	*Watch Details*
	0800–0830	ODC 8 Broadcast Traffic List and calls ships on 8514 kc/s. Listens on 8354–8374.
	1200–1230	Will transmit on 12831 kc/s. on request.
High Frequency	1600–1630	
	2230–2300	
	0000–2400	Monitor 500 kc/s. for calls and answers only.
	0730	Broadcast on 500 kc/s. QSW 442 kc/s.
	0730–0800	Transmit Traffic List on 442 kc/s., receives ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	1130	Broadcast call on 500 kc/s., QSW 442 kc/s.
	1132–1200	Transmit Traffic List on 442 kc/s., receives on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
Medium Frequency	1530	Broadcast call on 500 kc/s., QSW 442 kc/s.
	1532–1600	Transmit Traffic List on 442 kc/s., receive on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	2200	Broadcast call on 500 kc/s., QSW 442 kc/s.
	2202–2230	Transmit Traffic List on 442 kc/s., receive on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	2232	Broadcast call QSY QSX 500 kc/s.

Cables to Agents may be routed through Beirut radio.

VHF: Tripoli:

Equipment: Fixed Station sited in Terminal Building and used by Control Room.
Call sign: Tripoli Control
Range: Approximately 15 miles.
Frequency: Transmitting on 163.6 mc/s.
Receiving on 159.1 mc/s.
Watches: Continuous.

Mobile Station

Equipment: Portable, battery operated, carried aboard vessel with Mooring Master.
Call sign: Ship's name (before mooring), or Berth No. (after mooring).
Range: Approximately 8 miles.
Frequency: Transmitting on 159.1 mc/s.
Receiving on 163.6 mc/s.
Watches: Continuous, whilst Mooring Master on board.

Notes

1. Tripoli also keeps a continuous watch on the international calling frequency of 158.8 mc/s. This has a range of approximately 15 miles and its call sign is "Tripoli Control".
2. The VHF System is not connected to the main telephone switchboard and only selected shore stations have access to it.

TUGS: There is no tug at Tripoli.

BERTHING: *Sea Line Berths.* Four berths numbered from N.E. to S.W. specifications as follows:

Berth No.	*Max. t.p.h.*	*Fixed Sea Line*	*Strings of Flexible Hoses*	*Approximate Limits Draft*	*Deadweight*
1	5,000	Two 24"	Two 16"	56'	140,000
2	7,000	One 32"	Two 16"	50'	250,000
3	6,000	One 32"	Two 16"	47'	87,000
4	1,500	Two 12"	Two 12"	32'	25,000

As loading is by gravitation, the maximum rates are dependent upon availability of suitable shore tanks and loading lines.

LOADING:

1. *Readiness to Load,* will be received by the Mooring Master, who is the Company Representative on board. The advice from the vessel which states she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as possible after such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.

2. *Derricks*

(a) Two hoses are connected on the port side amidship.
(b) Derricks or cranes reaching over the hose connection should be capable of lifting the flexible hose from the sea-bed to a height of up to 30 ft. above the deck.
(c) A minimum SWL of 5 tons is required for 12 in. hoses.
(d) The faster loading berths equipped with 16 in. hoses are available only to vessels with derricks and tackle with a minimum "Safe Working Load of 7 tons". Such vessels will be given berthing priority when queuing occurs and these berths are free but other vessels have not the capacity to handle the larger hoses.

3. *Hose Hang-off Bitts* are required at about 10 ft. from the ship's rail at the loading manifold to secure the submarine hoses on the port side.

4. *Hose Connection/Disconnection.* Ship's crew with a responsible officer in charge to perform all operations as advised by the Mooring Master, to lift, connect, disconnect and lower hoses.

5. *Ship's manifold* – to be prepared for the connection of 12 in. or 16 in. hoses with flanges of 150 series, dependent on berth allocation.

6. *Loading – Supervision and Commencement*

(a) All operations in connection with starting of loading, discharging, switching of tanks on board and topping-off must be directly and personally supervised by a responsible ship's officer.
(b) The advice from the vessel that she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.
Caution: The oil loading stream to the ship is controlled on shore and it is extremely dangerous if a ship's valve is closed against the flow of oil.
To prevent excessive pressure from surge in ship and shore lines, ship's valves must not be shut-off against the stream, and when switching tanks, ship's valves must be closed slowly. Vessels will be held liable for damages resulting from any mal-operation of valves on board.

7. *Tank Dips.* During loading frequent checks should be made by the responsible ship's officer to ensure that cargo is entering the designated cargo tanks only and that there is no escape of oil into pump-rooms or through sea and overboard discharge valves. Particular care must be exercised by ship's personnel in "Topping-off" tanks and towards completion of loading to ensure that the terminal is given timely advice of any decrease in loading rate required. Adequate "standby" notice must be given before the final "stop".

8. *Loading Operations*

(a) The Mooring Master will not transmit any loading instructions to the shore until the responsible ship's officer is satisfied that the hoses are connected correctly and that all valves have been set for receiving cargo.
(b) Loading rates requested by the vessel or quoted by the terminal will be the peak or maximum rate at any time during the loading period.
(c) While in berth, ships should be ready to move under their own power in the event of their breaking adrift, catching fire, fire in adjacent berths or other emergency. No repair should be carried out while in berth which would immobilize the ship or impair her fire-fighting efficiency.
Failure to vacate the berth on completion of loading may result in delays to other vessels, demurrage, and loss of throughput which shall be accountable to the vessel.
(d) The Mooring Master will advise the Master of the ship as to any signals needed for local requirements.
(e) The Mooring Master brings a portable radio on board for ship to shore communication.

DENSITY: 1025.

FRESH WATER: May be available at anchorage before berthing, but it is expensive.

FUEL: Fuel oil is available at Berths 2 and 3. The 12 in. bunker hose is raised on the port side of the vessel. Bunkering rates are 300 to 400 t.p.h.

CUSTOMS ALLOWANCES: See "Section A – Dry-cargo Port".

GENERAL:

1. *Ballast*

(a) Vessels should arrive with sufficent clean ballast for safe handling of vessel under prevailing weather conditions.
(b) Ballast water must be clean and a declaration signed by the Master and delivered to the terminal to this effect. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard.
(c) *Pollution of the sea – warning.* It is an offence to discharge dirty ballast or pump out bilges. The authorities are very strict and your attention is drawn to the Lebanese Notice to Mariners No. 23/1 of 29th July 1965, and to the volume entitled "International Conference on Prevention of Pollution of the Sea by Oil", issued by IMCO London.
In the event of your vessel discharging dirty ballast or spilling oil, cost for cleaning the pollution, third party claims and port fines shall be borne by the vessel.

It is recommended that vessels carry an adequate amount of dispersants with means of application in case of oil spills.

2. *Gear to be provided by the ship*

(*a*) Anchor to be fitted with marker buoys and 20 fathoms line.

(*b*) Four good mooring lines of not less than 150 fathoms each and of suitable size for the vessel. Two additional 150 fathoms lines securely tailed to the first lines for cases where 150 fathoms may not reach to the stern buoys initially.

(*c*) For vessels of 50,000 d.w.t. and larger, powered mooring winches with 200 fathoms of wire rope.

(*d*) Four suitable rope stoppers to be available aft.

(*e*) Two good chain stoppers for use on 5.5 in. circumference wires (preferably carpenter's patent stoppers).

(*f*) Two good 4.5 in. circ. boat ropes 200 ft. long placed one on each side of the vessel.

(*g*) Two good ropes, 15 fathoms × 3.5 in. circ. and two heaving lines for lowering hoses.

3. *Lighting.* Manifold and poop mooring areas should be adquately lit to enable night mooring and loading operations to be carried out with safety. Sea area around the ship to be illuminated.

4. *Deck Watch.* A deck watch must be maintained at all times the vessel is in berth. In addition to its normal duties, the watch must inspect the hose connections and area around the ship against oil spillage, pollution, and prevent unauthorised persons from boarding your vessel.

5. *Boarding of vessel.* The control of persons boarding your vessel is the ship's responsibility. Boarding should be restricted to Company employees on duty and to persons authorised by the Port Authorities as advised by your Agents.

6. *Stores/Provisions* or other items should not be received or discharged whilst loading is in progress. Launches other than the Company's mooring launch, should not lie alongside the vessel.

7. *Tanker Safety.* Masters are at all times responsible for the application of all safety precautions as prescribed in the International Oil Tanker and Terminal Safety Guide.

8. *IOTTSG Safety Check List.* The Tanker Safety check list must be completed after inspection of each item prior to commencement of and during loading. The Mooring Master is authorised to stop all loading operations should he consider that the safety of lives and property is endangered by the infringement of safety rules.

9. *Action in case of Emergency.* In the event of a fire, oil spillage or other emergency on the vessel,

The Emergency Signal is:—

Three or more blasts of not less than ten seconds duration each on whistle or siren supplemented by a continuous ringing of the general alarm bells.

AGENT: Gulf Agency Co. (Lebanon) Ltd., Customs Street, Tripoli, Lebanon. Cables: "Gacship", Tripoli/Lebanon. Telephone: 625771 after hours 625930, 453957. Telex: 20906 Beirut or Athens 216344. Head Office: Beirut (which see).

NOTES

Please also advise Shipping Guides (Services) Ltd.

Leeward Islands

BASSETERRE, St. Kitts: 17.18 N. 62.43 W.

DOCUMENTS:
3 copies of Crew List.
3 copies of Passenger List.
1 copy High Duty Cargo List.
1 copy Crews' Personal Effects List.
1 copy Clearance from last port.
1 copy Ship's Stores List.
7 copies Manifest.
2 copies Bills of Lading.

PILOTAGE: No pilotage required.

ANCHORAGE: Harbour at Basseterre is an open roadstead and safe anchorage will be found at a distance of 0.25 to 0.5 mile from the shore opposite the piers in the centre of the town.

RESTRICTIONS: None.

MAX. SIZE: A vessel of any size may be admitted. Anchorage position will depend on the draught of the ship.

HEALTH: The Harbour Master boards all vessels on arrival at port and inspects the clearance from the last port. If there are no health problems the vessel is immediately granted pratique. If there is suspected disease or fever on board pre-notification is recommended. If this is done the Harbour Master will have a Medical Officer with him when he boards the ship on arrival.

RADIO: Contact is through Barbados Radio, call sign 8PO.

TUGS: Not needed.

BERTHING: Ships anchor off shore.

STEVEDORES: ETA should be advised 24 hours before arrival of vessel, also tonnage to be discharged and number of gangs required. Discharging rate: 15 tons per gang per hour on bags. 6 tons per gang per hour on general cargo.

MEDICAL: Advance notice if possible – hospital facilities available. Valid Vaccination Certificate for passengers disembarking but not for intransit or cruise ship passengers.

DENSITY: No tides. Density normal for a West Indian Island.

FRESH WATER: Not available.

FUEL: No bunkering facilities.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Done by stevedores.

CUSTOMS ALLOWANCES: Tobacco, 1 carton of cigarettes. Wine and/or Spirit, 1 bottle.

IDENTIFICATION CARDS: Not needed.

CONSULS: Netherlands, France, Dominican Republic.

REPAIRS: The sugar factory has a well-equipped shop for machine, welding and maintenance work. They can assist with most engine repairs.

DRY DOCKS: None.

REPATRIATION: Crew changes and repatriation can be arranged.

AIRPORT: 2 miles from town with regular daily connections to Antigua and Puerto Rico where onward passages to Canada, the U.S.A., Great Britain and Europe can be arranged.

TIME: GMT minus 4; no alteration.

HOLIDAYS: New Year's Day (January 1st); Statehood Day (February 27th); Good Friday; Easter Monday; Whit Monday; Queen's Birthday (date fixed by announcement annually); August Monday; Prince Charles' Birthday (November 14th); Christmas Day (December 25th); Boxing Day (December 26th).

POLICE/AMBULANCE/FIRE: Police 999; Fire 999; Ambulance (Hospital) 2551.

TELEPHONES: None available.

DEVELOPMENTS: A deep-water harbour and improved cargo handling facilities are being planned.

AUTHORITY: Comptroller of Customs.

AGENT: S. L. Horsford & Co. Ltd., PO Box 45, Basseterre, St. Kitts, BWI. Cable address: Horsford, St. Kitts. Tel. Shipping Manager, Office 2616, Home 2101; Secretary, Office 2617 Home 2122.

St. JOHN'S, Antigua: 17.7 N. 61.52 W.

DOCUMENTS:
4 Crew Lists.
6 Passenger Lists.
1 Customs Declaration.
1 Declaration of Health.
6 Copies of Manifest.
Port clearance from previous port.
3 Copies of B/L.
1 Copy Crew Personnel Curio List.
Fumigation and Deratisation Exemption Certificate.

PILOTAGE: Compulsory. Messages should be received by Agents 48 hours in advance. Pilot boat may be identified by pilot flag.

Pilot boards at entrance of channel if vessel is proceeding to Deep Water Harbour. If vessel proceeding to Oil Berth, Pilot boards 2 miles North of Sandy Island.

PORT LIMITS AND COMPULSORY PILOTAGE AREA: All the waters enclosed by an imaginary straight line running due West from Weatherills Point forming the Northern boundary, by an imaginary straight line running due North from Shipstern Point forming the Western boundary and by the coastline running from Weatherills Point to Shipstern Point forming an Eastern and Southern boundary.

ANCHORAGE: Open seas just outside inner harbour. Depths exceeding 50 ft.

RESTRICTIONS: No restrictions on entry, difference in tide is negligible. Channel is 8,000 ft. long and 300 ft. wide, dredged to 35 ft.

MAX. SIZE: At present vessels of any size can anchor in outer harbour. The New Deep Water pier is 1,200 ft. long and depth alongside is 35 ft., a turning basin of 1,200 ft. diameter is available. Oil carrier's berth at Oil Refinery Pier (Sea Island) is 34 ft. of water subject to sea conditions or at "Sea Berth" in calm water exceeding 45 ft. Tidal Range is negligible.

HEALTH: Pratique granted at berth. Suspected disease or fever should be notified by cable in advance.

RADIO: Cable and Wireless (W.I.) Ltd. Barbados Radio 8PO.

Tugs fitted with VHF equipment. Harbour Master's office equipped with VHF and HF equipment. West Indies Oil Company Marine Centre keeps constant watch on VHF Channel 16/6 and HF 2182.

TUGS: 2 tugs of 1,500 h.p. available.

BERTHING: No special requirements.

STEVEDORES: 48 hours notice required to arrange gangs.

MEDICAL: Required medical attention should be cabled in advance to Agents. Hospital facilities available, smallpox vaccination required.

TANKERS: At Oil Refinery Pier several product pipe-lines of 10, two 8, 6 and 4 in., one 16 in. crude line, one 3 in. fresh-water line. 36 ft. mean low water, acceptable draft 32 ft. (deeper draft subject marine terminal approval). At Seaboy one 10 in. Bunker C line, one 16 in. crude line; 5 mooring dolphins secure vessel in position. Acceptable draft 45 ft. No slop residue discharge facilities available.

DENSITY: 1025.

FRESH WATER: Available from Deep Water Pier and by barge in conjunction with bunker fuel deliveries.

FUEL: Normally all grades of marine fuel are available; ex wharf at Oil Refinery and by barge to vessels at St. John's Harbour and adjacent offshore bunkering area. Bunker nominations should be placed with West Indies Oil Company; Antigua. Cable "WIOC." Telex AK 112. Tel. 20141 or 21207. Oil Company will act as Agent for vessels calling solely for bunkers if requested.

FIRE PRECAUTIONS: No smoking or cooking at docks.

GANGWAY/DECK WATCHMEN: Not necessary. Available on request.

OPENING/CLOSING HATCHES: No set custom for opening/closing.

CERTIFICATES: All certificates should be on board but it is required to show Deratisation Exemption Certificate, L.S.A., Load Line.

CUSTOMS ALLOWANCES: 1 carton cigarettes. 1 bottle (26 oz.) spirits.

IDENTIFICATION CARDS: Not required.

CONSULS: Dutch, French, Danish and Swedish Consulates.

REPAIRS: Limited engine and hull repairs available.

DRY DOCKS: None. Slipway at English Harbour suitable for small yachts and small vessels of up to 120 ft. in length, 150 tons displacement, 21.6 ft. beam, draft 11 ft. Tel. 31056.

AIRPORT: Airport is 4 miles from docks in city and served by international airlines such as BA, BWIA, Air Canada, LIAT, Eastern, Prinair, Barbuda Wings, Seagreen Air Transport, Air B.V.I., Caribbean Air Services, Guyana Airways, Carib West.

TIME: Local time is GMT minus 4. No alterations made to clocks during the year.

HOLIDAYS: 1st January; Good Friday; Easter Monday; Labour Day (1st Monday in May and no work is possible); Whit Monday; August Monday; Carnival Holiday (Tuesday following August Monday); State Day (1st November); Christmas Day; Boxing Day; H.M. Queen's Official Birthday observed either first or second Saturday in June.

POLICE/AMBULANCE/FIRE: Police 20045, Ambulance 20251, Fire 999.

SHORE TELEPHONE CONNECTION: Available.

AGENT: Geo. W. Bennett, Bryson & Co. Ltd., PO Box 162, St. John's, Antigua. Telegraphic address "Bennett". Telex: 128 Brysons AK. Tel. 21200 or 20170, after hours 20246. Estate & Shipping Agents, Liner Agents, General Commission Merchants, Insurance Agents, Lloyd's Agents, Travel Agents, Stevedoring Contractors.

Liberia

COURTESY FLAG: Masters of vessels should check with the Pilot the correct times for raising and lowering the courtesy flag as heavy fines are imposed if raising and lowering is carried out at the wrong time. It is also advisable to carry a spare courtesy flag aboard the vessel.

BUCHANAN: 05.54 N. 10.04 W. (See Plan)

DOCUMENTS:

1 copy Clearance of last Port of Call.
1 copy Health Declaration.
6 copies Number of Passengers.
6 copies Cargo Manifest (even in ballast).
6 copies Crew List.
3 copies Store List (ship).
3 copies Personal Effects List.
1 copy Vaccination List.

PILOTAGE: The ship shall be considered to have arrived at Port of Buchanan when she cuts a circle with a 3 nautical miles radius from the beacon on the main breakwater head (Fl "G" 3-sec.). Lamco provides pilotage. Pilot boarding approximately 1.5 miles off the main breakwater, bearing 095°/110°. Pilot ladder on port side.

ANCHORAGE: If waiting Pilot, anchor 2 miles off main breakwater.

RESTRICTIONS: Harbour traffic hours – towage and pilotage (ore ships), 0000–2400 hrs. General cargo ships (tankers), 0700–2300 hrs.

MAX. SIZE: Ore carriers up to 42 ft. draft.

RADIO: Dakar Radio, and on ship's telephone working frequency if stated in sailing telegram from last port of call. Buchanan Harbour will call on 6520 kHz 4 days before ETA at 0830 hrs. GMT, or when within 200 miles call Buchanan Harbour on 2182 k/c at 0800 hrs. GMT. Communications with ore ships per HF, call 2182 k/c. Traffic, 2638 k/c, 2738 k/c. VHF, call Channel 16. Traffic, Channel 9, 11, 12 and 14.

HEALTH: Customs, health and passport inspection normally takes place at the berths. Quarantine signal must not be hauled down before "Free Pratique" is received. If diseases are suspected on board contact the Port Authorities or Agents by radio for instructions. After call at other Liberian ports where free pratique has been granted, Port Health will not board here.

TUGS: Lamco provides towage with two tugboats 1,640 h.p. and one tugboat 3,300 h.p. Tugs join vessel about 0.5 mile North of red buoy.

BERTHING: Number of berths for sea going vessels, 4. Length of quays, 2,800 ft. with 50-100 ton bollards and properly fendered. Depth conditions, 42 ft. at ore-loading quay (at MLWS), 33 ft. at commercial quay (at MLWS). Ore loading capacity, 6,000 t.p.h.

STEVEDORES: As early as possible advance notice of ETA required latest by 1500 hrs. on day preceding arrival if a weekday. Or Saturday before noon if arrival on Sunday. Shore working hours: Ore handling: Monday 0700 hrs. through Sunday 0700 hrs.: general cargo handling, 0700–1200 hrs., 1230–1500 hrs., overtime 1500–2300 hrs., and 2300–0700 hrs.

MEDICAL: Hospital and medical care is provided; advance notice should be given in serious cases. Smallpox, yellow fever and cholera vaccinations are compulsory to enter the Republic. Vaccination book is required.

TANKERS: One tanker berth for discharging only. Hose connections are: 6 in. and 10 in. Max. draft 30 ft.

DENSITY: Varying but around 1020/25.

FRESH WATER: Fresh water is available, ex-quay only, rate is 20 t.p.h. Subject to availability.

FUEL: No bunker facilities available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Performed by stevedores.

REPAIRS: No commercial facilities available. In cases of emergency Lamco might assist with minor repairs.

CUSTOMS ALLOWANCES: Direct sales from ships are strictly forbidden.

IDENTIFICATION CARDS: Not required.

CONSULS: Swedish Vice-Consul only; however, most countries are represented either by Embassy or Consul at Monrovia.

REPATRIATION: Can be arranged.

AIRPORT: Roberts International Airport about 1 hour ride by car; several connections to the rest of the world.

TIME: GMT; no alterations during the year.

HOLIDAYS: January 1st; January 7th; February 11th; Second Wednesday in March; March 15th; Second Friday in April; May 14th; July 26th; August 24th; First Thursday in November; November 29th; December 1st; December 25th. Special holidays as proclaimed from time to time by the Liberian Government. No work will be performed on January 1st, July 26th and December 25th.

GENERAL: Two Customs officers stay on board the ship during ship's entire stay and they should be given meals in the Officers' Mess and if necessary night quarters.

POLICE/FIRE/AMBULANCE: No phone available; however the Lamco Plant Protection Force should be contacted; one officer is normally assigned to each quay/gate.

SHORE LEAVE: Apart from South African and Rhodesian citizens, who are not allowed ashore, no restrictions.

DELAYS: Generally, no major delays have occurred. For ore carriers and tankers the tide may occasionally involve 24/36 hours waiting time depending on the size of ships expected to load: general cargo ships; no delay.

AUTHORITY: Port Operators: Lamco J. V. Operating Company.

AGENTS: All ore carriers must employ LJVOC as their Agent.
Other vessels:
Scanship (Liberia) Inc., PO Box 19, Buchanan, Tel. 95.30/39. Telex via Monrovia.

MONROVIA: 06.20 N. 10.50 W.

DOCUMENTS:

6 Crew Lists.
5 Passenger Lists or 5 Statements "Nil" if none aboard.
5 Manifests for Customs. This should state. S.W. Ballast if no cargo aboard.
5 List of Ports of call from commencement of voyage with date of calls.
1 International Health Declaration.
1 List of Crew with dates of smallpox and yellow fever vaccination.
5 Store Lists.
2 Crew Custom Declarations.

Immigration now stamp all seamen's discharge books or passports.

PILOTAGE: Order Pilot through local Agents. Monrovia Freeport Pilot station equipped with R/T and VHF radio and on continuous listening watch from 0645 GMT to 2245 GMT. R/T 2182 kc/s, range 300–500 miles VHF Channel 16 range–30 miles.

Pilot comes out from inside breakwater by launch displaying H. flag. Vessels should approach to approx. 7 cables off entrance and should anchor clear of fairway channel as very large iron-ore carriers sail on deep draft.

ANCHORAGE: Good unlimited anchorage space available on roadstead S.W. of Leading Line, from 7 to 10 cables from Southern breakwater end, depth 7 to 10 fathoms. Anchorage safe but subject to moderate South-westerly swell during rainy season, April to October.

RESTRICTIONS: Pilot service given day and night. Loaded oil tankers berth in daylight hours only. Only deep-loaded vessels restricted to tide for berthing or sailing.

Channel outside breakwater being dredged to 49 ft. MLW. Channel to iron-ore piers dredged to 45 ft. MLW.

MAX. SIZE: Vessels up to 850 ft. length and 45 ft. draft can be accommodated at iron-ore piers. No restrictions on beam except that carriers with a beam in excess of 126 ft. may experience difficulty in loading with present loading gantries. Max. draft for berthing at Marginal General Cargo Wharf is 30 ft.

Tankers discharging at crude oil pier; max. length 700 ft., max. draft 40 ft. Max. draft for berthing at bunkering pier is 35 ft.

HEALTH: Vessels entering must fly International Code flag "Q". Port Health Officials board upon berthing. Pratique automatic for vessels having cleared at other Liberian ports, but vessel must still clear Customs.

RADIO: ETA cables should be routed to Agents through Government radio station ELC or via land cable (French Cables) through Dakar or Abidjan. Pilot R/T station will pass on messages to Agents free of charge.

TUGS: 3 tugs of 1700 h.p. available. Join vessels just inside breakwater entrance. For berthing, tug lines used; for sailing, ships lines used; no charges for tug lines.

BERTHING: Day and night, except loaded tankers not berthed during hours of darkness. Tankers arriving must enter breakwater by 1730 hours. Fishing boats are moved to or from fishing pier situated on North Breakwater during darkness.

STEVEDORES: Engaged by Agent. Several stevedoring companies. Port Management handles all cargo on shore and accepts cargo ex-ship's hook only.

MEDICAL: Whenever possible Masters should cable Agents if require medical attention especially when arriving week-ends or during night. Hospital facilities available. Port Health require smallpox and yellow fever vaccinations for crew members.

TANKERS: One bunkering and oil-loading pier, and one crude-oil discharge pier. At Crude Oil Pier discharge by means of floating 10 in. pipe-line.

DENSITY: Density varies with the tide. Also varies during rainy season as river flow increases. Varies from 1009 to 1024 oz. per cu. ft. with average of approx. 1019 oz. per cu. ft.

FRESH WATER: Available only on marginal wharf and three Iron-ore Piers by means of hoses from shore. Average rate of delivery approx. 20 t.p.h.

FUEL: Light diesel oil and heavy fuel oil available and these can be blended to specification by supplying oil company. Diesel only available on bunkering pier. Fuel oil available by barge and on bunkering pier.

GANGWAY/DECK WATCHMEN: Supplied by Agent, and recommended. Customs also place one gangway officer aboard and this officer should be supplied with food by ship.

OPENING/CLOSING HATCHES: Normally done by stevedores.

CUSTOMS ALLOWANCES: Tobacco, reasonable quantities for consumption while in port. Wine and/or Spirit, as tobacco.

IDENTIFICATION CARDS: Not required, but seamen's books are endorsed aboard by Immigration.

CONSULS: Majority of foreign countries have Consuls.

REPAIRS: Limited deck and engine repairs can be carried out by two private companies.

DRY DOCKS: One very small floating dock capable of lifting 300 tons with max. draft of 8 ft. This dock is used for small coastal craft and only accepts very limited outside work.

REPATRIATION: Repatriation of crews is possible.

AIRPORT: Roberts Field International Airport 45 miles distant. Served with daily international flights to Europe and America.
TIME: GMT.
HOLIDAYS: Many official holidays during year but cargo work carried out those days on overtime rates. Port closes three days per year: 26th July (Independence Day), Christmas Day and New Year's Day.
POLICE/AMBULANCE/FIRE: Port Management have own Security Force and Fire Service. Situated in port area.
TELEPHONES: There are no facilities for telephones on board.
GENERAL: Stevedores gangs have to be ordered the day before required, therefore essential for Agents to receive ETA messages in sufficient time.
SERVICES: Hull, deck and engine surveys can be obtained through Lloyd's, German Lloyds, B.V., Norske Veritas, America Bureau Agents.
SHORE LEAVE: No restriction on shore leave.
AUTHORITY: National Port Authority.

AGENT: Scanship (Liberia) Inc., PO Box 209. Tel. 22-832, 21-612. Telex 4281. Cables: "Scanship Monrovia".

SINOE: 04.59 N. 09.03 W.

DOCUMENTS:
1 copy Health Declaration
2 copies Store Lists
2 copies Vaccination Lists
2 copies Cargo Manifests
1 copy Clearance Last Port
2 copies Crew Declaration Forms
1 copy Stowaway List
5 copies Crew List
5 copies Kru Boy List — if any onboard
4 copies Ports of Call
4 copies Narcotics Lists
4 copies Passenger Lists
4 copies Animal Lists
4 copies Arms/Ammunition Lists
PILOTAGE: Not compulsory but recommended, and NPA Pilot available. No night pilotage. On approach Agent or Sinoe Pilot can be contacted by VHF Channel 16/2182 SSB Radio. Pilot boarding 1.5 miles off the harbour. No official Pilot Boat available but Pilot using small tug belonging to Scanship.
ANCHORAGE: Anchorage can be obtained in a depth of 7 fathoms about 8 cables West of Blubarra Point — bottom mud and sand.
MAX. SIZE: Max. length which can be accommodated alongside Pier, 400 ft. and Max. draft on departure from Pier 18 ft. 6 in. Max. length for a vessel moored across Basin, 500 ft. and max. draft on departure 23 ft.
HEALTH: Boarding party including Port Health Officials clear vessels while still in anchorage. Even when a vessel has called at another Liberian Port prior to Sinoe Port Health still boarding.
RADIO: Monrovia Radio.
VHF: See "Pilotage".
TIDES: Average 4 ft.
TUGS: 1 NPA tug 600 h.p. and 2 Scanship tugs 180 h.p. and 220 h.p. respectively.
BERTHING: Alongside Pier only 1 ship of max. length 400 ft. plus a small vessel of up to 175 ft. can be accommodated. Salt water only. Cargo handling to be carried out by vessel's own gear, however, NPA mobile crane available max. 10 tons capacity
BULK CARGO FACILITIES: Cargo handled-forestry products only i.e. logs, boules, sawn timber and plywood.
SPECIALISED CARGO HANDLING: Only equipment available for handling forestry products plus a very limited quantity of general cargo plus rubber.
STEVEDORES: Advisable to cable number of gangs workable, 24 hours prior of arrival. Vessels working full capacity gangwise are loading per 24 hours 500-1,000 cu.m. depending on type of forestry products and whether loading in basin or alongside.
MEDICAL: Medical facilities available to a very limited extent. All normal vaccinations possible. International vaccination card required.
TANKERS: Only facilities for small coastal tankers of max. LOA 180 ft. available moored alongside main pier.
DENSITY: Pure Salt.
FRESH WATER: Small quantities can be supplied by the NPA tugboat only.
FUEL: Small quantities of Diesel can be obtained but it is not advisable to rely on supply.
CONSULS: Nil.
REPAIRS: No facilities.
DRY DOCK: No docking facilities.
SURVEYOR: Nil, but surveyor can be called from Monrovia.
GANGWAY/DECK WATCHMEN: Not compulsory but recommended.
HATCHES: Opening/closing normally carried out by crew.
CUSTOMS ALLOWANCES: 200 cigarettes/1 bottle spirits per crew member, but depending on duration of stay.
CARGO GEAR: Always by ship's gear.
REPATRIATION: Possible through Monrovia Airport (Robertsfield). Small airstrip 5 miles from Sinoe Harbour with daily connections to Monrovia by small charter planes or small planes operated by Air Liberia.
TIME: GMT.
HOLIDAY: Only days where no work can be carried out are 24th August and 25th December.
POLICE/AMBULANCE/FIRE: NPA has ambulance and limited fire fighting equipments.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not required.
REGULATIONS: Vessels deemed unfit by NPA (derricks lifting capacity too low in the opinion of the authority, or in an apparent poor condition, etc.) might be refused to enter port. This especially applies when a congestion is faced at Sinoe, and it is feared by the authority that such a vessel is unable to handle an acceptable daily tonnage.

During 1976 several vessels have been rejected by NPA on the above grounds.
DELAYS: During the rainy season a heavy swell running into the harbour is frequently encountered, causing mooring lines to part, forcing vessel alongside to shift to the basin/roads awaiting more favourable conditions. Hurricane hawsers recommended.
DEVELOPMENT: An 80 m. extension to the Pier is planned and expected to be commenced during 1977.
GENERAL: Vessels should not expect to be able to purchase provisions at Sinoe apart from a limited variety of tinned foods.
AUTHORITY: National Port Authority.
AGENT: See 'Monrovia'.

NOTES

Please also advise Shipping Guides (Services) Ltd.

LIBYA

GENERAL: All ports:

CLEARANCE: ETA to be advised to Port Authority 24 hours before arrival, including the following information: Ship's Name, type, Nationality and port of Registry; Owner, Master and Agent names; Gross and Net tonnage; Ship's length and draft forward and aft; Expecting period for waiting in the port; Last port of call, tonnage, quantity and kind of cargo for discharging and loading; Full details of any dangerous liquids or cargo; Number of passengers and crew; Health situation.

Before arrival to the outer limits of the port, vessel requested to hoist the following signals: Flags of her call-sign; Flag of Quarantine; Flag of ship's Nationality; The Libyan Flag on the foremast; Red Flag during daylight and Red light during night-time, if carrying explosives or any inflammable cargo; Pilot Flag.

PILOTAGE: Pilotage is compulsory for all vessels. Pilot boat will meet ships outside the harbour. Ships should wait for Pilot at anchor outside the harbour if weather is good. In case of bad weather, after getting permission from Harbour Master ships may enter the harbour at their own risk and anchor inside.

TUGS: Tugs are available at all the Libyan Ports.

FREE PRATIQUE: The following documents to be provided for the doctor: A valid Fumigation Certificate; International Vaccination Certificate for every person on board; Health Certificate for any animal or bird on board. No automatic free pratique between the Libyan Ports.

CUSTOMS ALLOWANCES: 200 cigarettes for each crew member or passenger. All kinds of alcoholic drinks are forbidden, even wine and beer, and to be kept in the store under the customs seal. Also arms, perfume, saccharine and all kinds of anaesthetic. The sum of 10 Libyan dinars allowed for each crew member. All the Libyan and Foreign currency to be declared in the currency declaration. All personnel effects and electronics to be declared in the crew declaration.

BLACK LIST: Libyan law prohibits vessels from having on board any goods or containers of Israeli origin. Any vessel having such goods or containers on board on arrival in the harbour will be liable to heavy fine and confiscation of the goods or containers. The Libyan Authorities may, moreover, refuse to clear the vessel.

DOCUMENTS: *On arrival:* Last sailing permission; Full sets of cargo documents; Copies covering consignment; Certificate of origin; Bill of Ladings, etc. 8 copies of Crew List; 8 copies of Passenger List; 7 copies of Cargo Manifest; 3 copies of Cargo Plan; 1 copy of Crew Declaration; 1 copy of Currency Declaration; 1 copy of Store List.

During the first 24 hours of arrival: Valid certificates to comply with all the International conventions in force for the State whose flag the ship is flying. Certificate of Registry. For the National ships, moreover, the official log book, engine log book and ship's articles.

REGULATIONS: Foreign currency not to be taken ashore. Crew members visits between ships are not allowed without the prior permission of custom and immigrations. Ship's lifeboats are not to be used within harbours limits without the prior permission of the authorities. No engine repairs to be carried out in port whilst alongside or at anchor in the port without prior permission of authorities. Movements of ships in the port are not allowed without instructions. Using ships propellers whilst in port is not allowed without permission. Ships whistles not to be used without good reason. Cleaning funnels or making smoke whilst in port is strictly forbidden. Ship's gangway to be in position at all times whilst alongside. Rats guards to be fixed all times on every rope. Painting or scraping the outer hull of the ship not to be carried out without prior permission of authorities. Duty officer to be on board all the time accompanied by sufficient crew.

For tankers or vessels laden with dangerous cargo; moreover, the mentioned hereabove: Red flag to be hoisted in daylight and red light to be on in the night-time. No movements allowed between sunset and sunrise for such ships. Electricity to be off from ships holds whilst loading or discharging. Towing wires with suitable shackle to be ready fore and aft. Smoking and any kind of fire are strictly forbidden on deck. All steps for safety to be carried out.

POLLUTION: Pollution of any kind is strictly forbidden. Any ship causing any kind of pollution will be liable to heavy fine.

BERTHING PRIORITY: The berthing priority scheme, according to law, as follows: 1) Passenger ships. 2) Animal ships. 3) Liner and mail ships. 4) Cargo ships. 5) Tankers and dangerous cargo ships. Ships with cargo of less than 300 tons, may not have to comply with the scheme; subject to Harbour Master's decision.

OPENING/CLOSING HATCHES: To be done by crew.

IDENTIFICATION CARDS: Seaman's book or Discharge book, Passports, Identity Cards — all should be valid.

HOLIDAYS: Friday is the weekly day off. Revolution day (1st Sept. yearly); Evacuation days (28th March, 11th June, 7th October; yearly), Syrian Revolution day (8th March, yearly); Sudanese Revolution day (25th May, yearly); Egyptian Revolution day (23rd July, yearly); Hijra New Year (1st Moharam, Mohammadan year); Ashoura (half day, 10th Moharam, Mohammadan Year); Mohammadan birthday (12th Rabih Awel, Mohammadan Year); !sraa Wa Merag (half day, 26th, Rajeb, Mohammadan Year); Eid El-Fitr (1st, 2nd & 3rd Shawal, Mohammadan Year); Eid El-Adha (9th, 10th. 11th, & 12th Zi Al-Heja, Mohammadan Year).

TIME: Local time at all the seasons is GMT plus 2 hours.

SURVEYORS: The following addresses are Agents for the mentioned Classification Societies and may be conducted for the necessary surveys on request:—

Lloyd's Register of Shipping: Benghazi: Libyamar Ltd., 32 Gamal Abdel Nasser Street, P.O.B. 202, Telephone: 94490 and 92024, Telegraphic address: Libyamar Benghazi.
Tripoli: Libyamar Ltd., Sidi Issa Street, Bedri Building, P.O.B. 4452, Telephone: 30061, 30062, 30063 and 30067, Telegraphic Address: Libyamar Tripolilibia.

Bureau Veritas: Tripoli: Orfelli Agencies, 109 — 1st September Street, P.O.B. 2283, Telephone: 35338 and 37398, Telegraphic address: Shetaf Tripolilibia.

REPAIRS: Not available.
POLICE/AMBULANCE/FIRE: Call Port Manager, 2063 and 2074.
SHORE LEAVE: Allowed after free pratique, Custom & Immigration formalities completed.
AUTHORITY: Port Manager and Harbour Master.

ES SIDER: 30.38 N. 18.22 E. (See Plan)

(Also refer to "General – All ports").
DOCUMENTS: Oasis acts on behalf of tankers loading at Es Sider and shall prepare all crude oil loading documents. Arab Shipping Company is contracted by Oasis for all normal agency duties. This agency is currently the only agency used by the four Owner Companies.

After a tanker arrives at the anchorage or is moored in a berth, an agency representative will come aboard, accompanied by Libyan Customs Officials and Immigration Police. The agency representative will present certain clearance forms to the Master, which should be completed as soon as possible. After these forms have been signed by the Master, they shall be returned to the agency representative, who shall make the necessary distribution.

Crude oil loading documents shall be prepared by the Oasis documentation group prior to and during loading operations, to expedite their final completion. When the tanker has been loaded, the documents shall be completed and endorsed by the Customs Officer and by the representative of the Ministry of Petroleum Affairs. The documents shall then be distributed aboard the tanker and elsewhere, in accordance with previously arranged standard documentation schedules.

The tanker shall be considered clear to depart Es Sider when the crude oil loading documents have been delivered to the Master.

Libyan Customs Authorities:

(a) List of the crew with a declaration of their personal belongings (form supplied by the Customs Authorities).
(b) List of tanker's stores.
(c) List of passengers.
(d) Six copies of Cargo Manifest for cargo to be discharged at Es Sider.
(e) One copy of Cargo Manifest for cargo in transit.

Blank copies of "Certificate of Discharge" are placed on board every vessel at Es Sider. These certificates must be endorsed by the Customs, or other recognized authority, on completion of discharge. One completed certificate must then be forwarded to the Libyan Customs Authorities according to the instructions contained in the "Certificate of Discharge". At least one further copy should be retained on board, to be produced to the Customs on any subsequent voyage to a Libyan port. Failure to produce the certificate may result in delays to loading, or even rejection of the vessel by the Libyan authorities.
PILOTAGE: Vessels to be moored, anchored or manoeuvred will only be boarded within the recommended anchorage area. The Mooring Master will advise the Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the anchorage or berthing area. All manoeuvring of ships shall be done only in accordance with the advice of an Oasis Mooring Master, subject to the understanding that in all cases and circumstances the Master shall remain solely responsible for the safety and proper manoeuvring of the tanker.

Tankers not equipped with pilot hoists shall provide a pilot ladder, or ladders, constructed and placed in accordance with Chapter V 1960 Safety of Life at Sea Convention. Tankers having a large freeboard are requested to use a combination of pilot ladder and accommodation ladder, which is also in accordance with the above Convention.

The Mooring Master shall be in direct control of all tanker communications while in the Terminal area. Any unauthorized communications will result in the immediate cessation of all operations excepting clearing of the berth. Such tanker immediately nullifies its Notice of Readiness.
APPROACHES: Coastal landmarks in the area are as follows:

(a) The most prominent landmark is a water tower in the terminal area which is painted white and is 180 ft. above sea level. This water tower is located at 30° 38′ 00″ N. Lat. and 18° 21′ 01″ E. Long.
(b) A radio antenna tower which is 624 ft. above sea level is located at 30° 35′ 48″ N. Lat. and 18° 24′ 12″ E. Long. At night the tower is lighted with five red lights, vertically arranged. The top light and the fourth from the top flash simultaneously every second. Lights two, three and five are fixed.
(c) A radio antenna tower which is 395 ft. above sea level is located at 30° 36′ 56″ N. Lat. and 18° 16′ 55″ E. Long. At night this tower is lighted by an occulting red light, flash two seconds, eclipse one second, and there is a fixed red light halfway up the mast. It is flanked by two dish shaped aerials.
(d) There is a water tower at Ras Lanuf Terminal with a highest elevation of 179.5 ft. above sea level located at 30° 30′ 42″ N. Lat. and 18° 32′ 22″ E. Long. It is white in colour. A white light, characteristics:– flash two every 5 seconds, height above sea level 163 ft., is mounted on the seaward side. There is also a fixed red air warning light on the top of the structure.
(e) An omnidirectional aircraft radio beacon is situated at 30° 36′ N. Lat. and 18° 18′ E. Long. transmitting "OJ" 5 times every 60 seconds.

Range lights and mooring buoy marker lights will appear and disappear with unscheduled frequency. These lights are for the use of the Mooring Masters at the Terminal and should be disregarded by any tankers using the Terminal.
ANCHORAGE: Recommended anchorages at Es Sider within the seaward perimeter of a circle having a radius of 3,000 ft. centred at 30° 40′ 20″ N. Lat. and 18° 24′ 30″ E. Long. The anchorage area has a sandy bottom with a depth of approximately 100 ft.

Ships can make this anchorage with Radio Tower "B" bearing 183° in 16 fathoms. Great care should be taken approaching anchorage from the North or Northwest to give mono-moorings a wide berth.
MAX SIZE: The following are the approximate berth limitations:–

	Length	*Draft*
No. 1 Berth	920 ft.	51 ft.
No. 2 Berth	890 ft.	51 ft.
No. 3 Berth	950 ft.	51 ft.
No. 4 Mono Mooring	1150 ft.	62 ft. 6 in.

Max. beam 158 ft. Max. d.w.t. 250,000

Note: The max. length overall is 1150 ft. The max. draft to which vessel can load in good weather is 62 ft 6 ins., and when vessel lies within 30° of loading line. During adverse weather causing vessel to roll and pitch, draft may be restricted to 58 ft. The max. draft limitation in good weather is due to depth to top of loading line being 63 ft. at distance of 1900 ft. from buoy.

Length, beam and d.w.t. could all be extended provided draft does not exceed 62 ft 6 ins.

All the above limitations are based upon standard tankers in normal weather conditions.

Oasis reserve the right to vary the above limitations, depending on vessel's freeboard, (OBO's – ore/oil vessels, etc.) and also the prevailing weather conditions.
RADIO: Oasis maintains direct communication with Tripoli Radio, details of which are shown in publication 205 of the U.S. Hydrographic Office and are included in the Berne Lists. Oasis also maintains a VHF station at Es Sider Terminal.

Cables should be addressed to: Oasisoil Tripolilibya. Cables addressed in this manner will be received directly by the Oasis communications centre in Tripoli and relayed immediately by voice radio or teletypewriter to the terminal at Es Sider.

Within 6 hours of clearing its last port for its voyage to Es Sider, each tanker shall provide the Terminal with the following information by cable addressed to Oasisoil Tripolilibya:

(a) The name of the tanker.
(b) The name of the port from which the tanker last cleared.
(c) The date and hour of the ETA at Es Sider Terminal.

When the Master of the tanker en route to Es Sider is of the opinion that his tanker is within 72 hrs. of arrival at Es Sider, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, providing the following information:

(a) The name of the tanker.
(b) ETA at Es Sider.

When the Master of the tanker en route to Es Sider is of the opinion that his tanker is within 24 hrs. of arrival at Es Sider, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, providing the following information:

(a) The name of the tanker.
(b) ETA at Es Sider.

When the Master of the tanker en route to Es Sider is of the opinion that his tanker is within 12 hrs. of arrival at Es Sider, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, providing the following information:

(a) The name of the tanker.
(b) ETA at Es Sider.

4 hrs. before the Master expects to arrive at Es Sider to receive a Mooring Master on board, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, and also pass the same by VHF radio, providing the following information:

(a) The name of the tanker.

(b) Precise ETA at Es Sider.

If the tanker is equipped with a FM radio-telephone in the 156–162 mc/s band, communications may be established with the Es Sider Terminal dispatcher by calling on Channel 16, 156.8 mc/s. This frequency is monitored continuously. The range of the Terminal station is approximately 100 miles.

When the Master submits his first ETA to the Terminal he shall indicate the time he expects to need for discharge of ballast.

ARRIVAL PROCEDURE: Tenders to load crude oil cargo will normally be accepted and berths will be assigned to tankers in order of arrival, provided they have valid nominations for cargo and carry clean ballast, if any, and are in all respects equipped and ready to berth. In the event that berthing is delayed on account of weather, tankers will normally keep their position in line. Tankers required to leave Terminal area on account of weather (port closed) shall maintain contact with the Terminal via Tripoli Radio or VHF so they will be available when the weather moderates. Oasis reserves the right to load tankers out of turn following the return of good weather, to the extent that such loading "out of turn" does not materially delay the loading of other tankers in line. Further, Oasis reserves the right to decline to berth a specific tanker if its condition or facilities are unsafe for berthing or loading, even though the Terminal may be open to other tankers. Oasis Marine Superintendent's decision shall be final.

As soon as practical after arrival, all tanks will be inspected for evidence of oil in ballast. Similar inspections will continue during discharge of ballast. If evidence of oil appears at any time, the tanker shall be rejected forthwith and shall not again be accepted until it is shown the ballast can be properly discharged.

If during inspection or during progress of loading it is revealed that tanks are not tight or that oil is leaking from the tanker, it shall be rejected from further loading. Tanker shall not be later accepted for loading unless satisfactory evidence of repair is submitted, duly certified by Lloyds or ABS Surveyors, or other recognized surveyors.

Upon arrival at the Terminal of Es Sider, the Master shall give notice of readiness to load by wireless or VHF but not before one or other of the following events shall have transpired:

(a) The Master shall have received the Mooring Master on board; or

(b) The Master shall have dropped anchor in the anchorage.

However, the notice of readiness shall not be accepted unless the tanker is in every respect ready to load.

In reporting readiness to load, the Master of any vessel arriving at Es Sider for the first time shall state whether the flanges on the manifold of his vessel are such as to permit hose connections without modification.

A tanker shall have sufficient ballast for safe handling. Careful watch of the weather, frequent interchange of information between the tanker and the Terminal and the knowledge of the behaviour of his tanker may permit the Master to bring his tanker with minimum of ballast and thereby reduce the possibility of violating sea pollution requirements.

HEALTH: Tankers shall fly "Q" on arrival by day and display a red light over a white light at night to indicate quarantine conditions.

TUGS: Not required. Oasis maintains launches to assist in berthing tankers. These are under the direct supervision and control of the Mooring Master.

BERTHING: Three open roadstead submarine sea loading berths are available for loading crude oil at flow rates up to 40,000 barrels per hour. These berths are of the seven-buoy type. The berth headings are North. The fourth berth is a mono-mooring buoy with a flow rate of 30,000 b.p.h. In all four berths ships should pick up hoses on the port side.

The central spar buoy of the Easternmost loading berth at Es Sider is located at 30° 38′ 58″ N. Lat. and 18° 22′ 43″ E. Long. The middle of the three loading berths at Es Sider is located at 30° 39′ 06″ N. Lat. and 18° 22′ 06″ E. Long. The Westernmost loading berth at Es Sider is located at 30° 39′ 35″ N. Lat. and 18° 21′ 53″ E. Long. All conventional berths are approximately one mile from shore and in approximately 65 ft. of water. The mono-mooring is located at 30° 40′ 31.5″ N. Lat. and 18° 21′ 43.7″ E. Long. It is about two miles from the shore in approximately 80 ft. of water.

Tankers shall have at least eight good synthetic fibre lines of not less than 9 ins. circumference and at least 120 fathoms in length, with an eye spliced in each end. These lines shall be placed out free for running, three on the after end of the after well deck, and five on the poop deck. The three lines on the well deck shall be married together so that if the need arises the double length can be run on either side of the tanker.

After the tanker is securely berthed, the submarine hose shall be lifted amidships on the port side. The base lift may weigh up to five tons. Hoses shall be lifted and connected by the tanker crew. The Mooring Master shall advise the tanker's officer-in-charge concerning lifting techniques; however, the responsibility for all operations shall remain with the officer.

Mono-mooring: Vessels are normally moored by two bow lines only, these being provided by Oasis. A selection of wire strops and shackles will also be placed on board for mooring purposes. Mooring lines are hove in until the length of chafing chain is brought inboard. According to the mooring arrangements, the Mooring Master will advise on the method of securing the vessel. Ship's wires or ropes may be required to back up mooring equipment supplied by Oasis. Smits towing brackets will be utilized when fitted. Under no circumstances shall the weight of the ship be taken on lead-in ropes.

On advice from Oasis that a vessel is to load on the mono-mooring, she will have the following ready before the Mooring Master boards:

(a) Port side derrick to be rigged ready to lift various wire strops, shackles, and hose securing equipment. This equipment will be placed on board at the same time as the Mooring Master, or as soon as possible thereafter, who will advise on its disposition.

(b) Forward, the vessel should have ready two good synthetic fibre mooring lines, at least 9 ins. circumference, two good 4 in. circumference rope messengers at least 400 ft. long, or two 3 in. wire messengers of the same length, each fitted with a suitable screw shackle. Also a crowbar, spikes and hammers.

(c) No moorings will be required aft.

(d) The vessel shall make a lee on the port side.

It is essential on this berth that the hoses be picked up immediately mooring operations are complete. On advice from the Mooring Master, part of the ship's crew must be standing by at the port manifold for this operation.

Hose lifting and connecting operations are basically the same as in conventional berths, except that hose strings are floating.

Vessel's engines must be ready at all times, and under no circumstances is the propellor to be turned ahead without prior consent of the Mooring Master. Failure to comply with this may result in cessation of operations, and possible rejection as being unsuitable for a single point mooring.

In adverse weather, a continuous lookout may be required on the forecastle head, by a responsible person, to keep watch on the moorings.

In adverse weather the Mooring Master may require cargo to be loaded, in the initial stages, into the forward compartments and this should be complied with when requested.

Vessels are encouraged to load and deballast at the same time where this is possible. In the case of vessels with permanent ballast tanks, this ballast should not be started without first consulting the Mooring Master.

LOADING: Shore Stops: If it is requested by the Master of the tanker that the cargo flow should be stopped from the shore at a predetermined tonnage, it must be clearly understood that Oasis Oil Company of Libya, Inc. will not be held responsible for any error and that in the case of overloading, the excess cargo cannot be pumped back ashore.

Vessels are encouraged to load and deballast at the same time.

BALLAST: There is absolutely no provision at the Es Sider Terminal for dirty ballast. Tankers with dirty ballast shall be rejected and all costs accruing therefrom shall be for the tanker's account.

It is the Master's responsibility to see that no oil of any kind is pumped or spilled overboard from his tanker. This includes oily water from bilges, residuals from previous voyages or any other matter that may result in pollution of the sea. Owners and Masters are invited to examine all laws concerning pollution of the sea, especially in regard to the Mediterranean Sea area. Inspections may be made by the Libyan Ports & Lights Authorities, whose opinion of the cleanliness of the ballast shall be final.

The waters in and adjacent to the Terminal of Es Sider must not be polluted, and only clean oil-free ballast may be discharged anywhere inside of a line 100 miles to seaward and roughly parallel to the Libyan Coastline.

Prior to acceptance all tanks will be inspected for evidence of oil in the ballast and during discharging similar inspections will continue.

Masters are warned that when disposing of dirty ballast outside Libyan waters, all pipe-lines, sea-suctions, strainers and pumps that are later to be used to discharge clean ballast, must be flushed clean so that there will be no chance of even a small amount of pollution when the clean ballast is pumped out.

Any vessel required to return to a position at least 100 miles offshore, for the purpose of discharging dirty ballast, cleaning tanks or for any similar reason, automatically nullifies any Notice of Readiness already tendered and at the same time loses any priority held for loading. On return from sea, vessel will be entered for loading at the time of the second arrival, when a new Notice of Readiness will be tendered.

Master's attention is directed to Es Sider Notices concerning oil pollution and to the serious consequences of discharging dirty ballast, besides having his tanker rejected.

MEDICAL: Doctor will only attend vessel if patient unable to attend clinic ashore. Accommodation ladder required.

FRESH WATER: Not available.

FUEL: Not available.

REPATRIATION: No facilities exist for crew change or repatriation.

TIME: GMT plus 2 hrs.

REPAIRS: When a tanker is in or near the berth, its engines shall remain ready with full power for immediate use. Engine repairs shall not be performed near any berth.

WATCHMEN: Not less than one capable deck officer and three able seamen shall be available on the deck at all times. No person under the influence of alcohol shall be allowed on deck. The Mooring Master's opinion on the sobriety of an individual shall be final.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, spirits, wines, beers, perfume, arms, ammunition, saccharine, and certain other items shall be placed under Libyan Customs seal from the time of arrival in port until such time as the tanker has left territorial waters. Each officer and crewman is allowed the following ration for each day the tanker is in port: *(a)* 25 cigarettes per day, or 25 grammes of tobacco or 25 grammes of cigars. *(b)* One litre of beer or 0.5 litre of wine. *(c)* Special provisions are sometimes made for the Master.

CONSULS: Consulates are located in Tripoli, which is approximately 650 km. by road from Es Sider. Some countries having Consulates are: Algeria, Argentina, Belgium, Brazil, Chad, Czechoslovakia, Denmark, Finland, France, Ghana, Greece, India, Italy, Japan, Jordan (represented by Indian Embassy), Kuwait, Lebanon, Morocco, Nigeria, Nationalist Republic of China, Pakistan, Saudi Arabia, Spain, Sudan, Syria, Sweden, Switzerland, Tunisia, Turkey, United Arab Republic, United Kingdom, United States of America, Union of Soviet Socialist Republics, Venezuela, West Germany and Yugoslavia.

GENERAL: When a Mooring Master and his assistants (launch crews and possibly apprentice Mooring Masters) are assigned to a tanker, the tanker shall supply them with meals at the same time and in the same manner as comparable personnel of the tanker. No special meals or special foods shall be required. The terminal will keep this item to a basic minimum. The intent is that the furnishing of meals to Oasis personnel be kept to the minimum.

No boats may be lowered into the water, except in an emergency.

Adequate deck lighting must be available for night mooring and loading. A good floodlight will be required to illuminate the area around the submarine and cargo hose connections during hosing and loading operations. During the discharge of ballast at night, the sea area around the vessel must be adequately lighted. If vessel is berthed on mono-mooring buoy, in addition to the foregoing, lights MUST be provided on forecastle head and over bow to facilitate supervision of moorings.

Stores of any sort shall not be handled while tanker is under "Notice of Readiness". No stores shall be handled while the tanker is in or near a berth.

Use of anchor marker buoys recommended.

Should any tanker or craft become an obstruction in any part of the Terminal or approaches thereto, or in any area of the submarine pipe-line. Oasis shall be empowered and shall have the right to take any steps it may deem necessary to remove the obstruction without notice to the owners. All expenses of such removal shall be borne by the tanker or craft or by those owning it at the time of the accident causing the obstruction, and Oasis shall be entitled to reimbursement by them for any such expenses incurred by it.

Power must be available at all times on all deck winches and on anchor windlass while the vessel is in the moorings.

If mooring wire winches are used, wires should be secured so as to enable them to be quickly let go from the vessel without damage.

Only in an emergency shall the tanker manifold valves be closed against crude flow, and then only with the Mooring Master's consent.

Should communications fail, the cessation of loading may be effected by a continuous sounding of the ship's whistle. This procedure will then stop the loading of all tankers in the area.

The bridge and/or control area shall not be locked nor otherwise arranged to prevent immediate entry at all times by the Mooring Master.

In adverse or marginal weather conditions Mooring Master may request that extra personnel be placed on duty on deck for tending moorings or hoses as required. Masters are advised to comply with this request.

The Mooring Master shall witness the plugging of all scuppers. Failure to plug scuppers shall result in the tanker's rejection.

The presence of unauthorized craft alongside a tanker will render it unacceptable. It shall be the duty of the tanker's personnel to clear all such craft away from the tanker.

When tankers are loading or discharging crude oil or ballast, and while tank tops are open or ullage plugs are open, boiler tubes shall not be blown. Every precaution shall be exercised to prevent sparks escaping through the funnel or stack or from the galley stack. The Mooring Master may demand all fires extinguished if he deems it necessary for safety.

Under the interpretation accorded to the Libyan "Boycott of Israel" Law, it is considered to be a violation thereof if a vessel calling at a Libyan terminal has on board any item of Israeli origin, irrespective of the nature thereof, including but not limited to manufactured products, fruit and vegetables, as well as empty crates, cartons, bottles and paper wrappings, regardless of the country where any of the foregoing was obtained. The law is strictly enforced, and the minimum penalty for violation thereof normally includes a fine and confiscation of all such items. Fines can exceed $1,000.

SHORE LEAVE: None of the officers and none of the crew of any tanker shall be permitted shore leave at Es Sider.

AUTHORITY: Operated by Oasis Oil Company of Libya, Inc. Owned by The National Oil Corporation of Libya, Amerada Petroleum Corporation of Libya, Continental Oil Company of Libya and Marathon Petroleum Libya Limited.

MARSA AL HARIGA: 32.04 N. 24.00 E. (See Plan)

(Also refer to "General–All ports").

LOCATIONS: Marsa al Hariga Oil Terminal is located on the South side of the harbour of Tobruk, approximately 1 mile Eastward of Marsa al Hariga.

OPERATORS: Arabian Gulf Exploration Company.

APPROACHES: Vessels bound for the terminal should approach the harbour of Tobruk from the North-East with the lighthouse on Tobruk Point bearing 238° (true). In daylight this lighthouse should be kept in line with the conspicuous German War Memorial on the South side of the harbour.

When about 4 miles from Tobruk Point, course should be altered to 224.5° (true) to bring the leading lights on Marsa Umm esc-Sciausc in line. This course should be maintained until the vessel is close to the outer buoy, where one of the company's Berthing Masters will board.

Deep-drafted vessels sailing from the terminal should avoid navigating North-Westward of the leading line from Marsa Umm esc-Sciausc, owing to the presence of shoal water off Tobruk Point.

DOCUMENTS:

A. Customs' Requirements. On the arrival of a vessel, the Tobruk Customs Authorities will require from the Master of the vessel:

4 copies of a Crew List.
2 copies of a List of Ship's Stores.
2 copies of a Declaration of the Crew's Personal Belongings, including currency, cigarettes, gifts, etc.
4 copies of a Passenger List.

B. Harbour Master's Requirements. On the arrival of a vessel, the Tobruk Harbour Master will require from the Master of the vessel:

1 copy of a Crew List.
1 copy of a Passenger List.
1 copy of the Ship's Manifest.
1 copy of a Port Declaration (form will be made available to each vessel on arrival).

PILOTAGE: Vessels coming to and departing from the Terminal will be berthed and unberthed by Berthing Masters provided by the company, subject to the understanding that in all circumstances the Master shall remain solely responsible on behalf of his Owners for the safety and proper navigation of his vessel.

Berthing Masters will board at the Outer Buoy.

ANCHORAGES: If a berth is not immediately available on a vessel's arrival off the harbour of Tobruk, the vessel will be advised by the company where she is to anchor.

Anchorage position for tankers waiting to be berthed is 1.5 miles N.E. of the Outer Buoy.

MAX. SIZE: Two berths are located at the end of a T-head jetty which extends some 700 ft. from the shore. There is a min. depth alongside of 60 ft. and approach to and departure from the berth can be made in not less than this depth of water. Max. draft 52 ft. freeboard at any time whilst deballasting must not exceed 40 ft.

A buoy berth is situated some 1,200 ft. from the shore approximately 1,800 ft. West of the Jetty Berth No. 2. There is a min. depth in the buoy berth and its approaches of 49 ft.

PRATIQUE: The Libyan Authorities will grant clearance by radio of a vessel coming to the terminal. Radio messages requesting clearance should be sent not earlier than 48 hours prior to vessel's arrival off the harbour of Tobruk and should give the details required in the Maritime Declaration of Health which must also be completed.

COURTESY FLAG: On entering the territorial waters of the Libyan Arab Republic which commence six miles off the coast of Libya, vessels should if possible, hoist the Libyan flag, and in any event the Libyan Flag must be hoisted before entering the harbour of Tobruk. Should a vessel arrive without a Libyan Flag on board, one may be obtained from the Company's Berthing Master when he boards at the Outer Bay.

ARRIVAL MESSAGES: In addition to their arrival messages to Agent, vessels must pass an arrival message to the terminal via the company's radio station giving at least 72 hours notice of ETA and advising their estimates of:

(a) The quantity of cargo (in long tons) to be loaded at the terminal.
(b) The cargo loading rate (in long tons) per hour.
(c) The quantity of ballast (in long tons) to be discharged ashore at the terminal.
(d) The ballast discharge rate (in long tons).

If, subsequent to advice of their ETA there is any material change, a further ETA message must be passed via the company's radio station.

RADIO: Tobruk Radio 5 A1 (MF & HF). Position: 32° 02′ N. 24° 00′ E. Frequency: 420, 500 A1, A2, 0–5 kW. 4241 kHz at 2130 GMT, 8480 kHz at 1730 GMT, 16963 kHz at 0930 and 1330 GMT. All using A1 0–5 kW.

Note: Station owned by Arabian Gulf Exploration Company. Company telegraphic address: "Injaz Tobruk". All times given are GMT. Station keeps watch on 500 kc/s. during 24 hours.

TUGS: For berthing and unberthing at the terminal, vessels will be required to use the two diesel tugs which are available at the terminal. Each of these diesel tugs has a bollard pull of approximately 25 tons.

BERTHING: *Jetty:* Vessels will berth on the jetty starboard side alongside, depending on the prevailing weather conditions, though starboard side alongside is preferred. Each berthing head is "T" shaped and is protected by four breasting dolphins.

All moorings, except the backsprings to the outer breasting dolphins at Jetty Berth No. 1, attached to quick release hooks.

Buoy Berthing: Berthing/unberthing in daylight only.

Vessels will berth heading East or West depending on the prevailing weather conditions, though head East is preferred. The moorings consist of four buoys, one buoy being on each bow and one buoy on each quarter.

In addition to the vessel's mooring of two ropes to each buoy, the mooring wires provided by the company to each buoy must be utilised and vessels moored to the satisfaction of the company.

The company's Berthing Master will remain on board the vessel whilst the vessel is in the buoy, to supervise and co-ordinate the ballast discharging and loading operations.

HOSES: *Jetty:* Ship-shore connections, four flow booms with suspended rubber hoses, diameter of hoses 12 in. Flange size and rating 12 in. ASA 150. Full range of standard adapters available.

Buoy Berth: Ship-shore connections, three flexible hoses, two crude oil loading, one ballast discharging, diameter of hoses 12 in. Max. lift from ship's equipment 5 tons. Flange size and rating 12 in. ASA 150.

PNEUMATIC OIL BARRIER: Although it is emphasised that all precautions must be taken by vessels to avoid any leakage or spillage of oil into the harbour the berths are each protected by a pneumatic oil barrier to contain any oil which may, due to unavoidable circumstances, get into the harbour waters.

A pneumatic oil barrier consists of a pipe-line which is laid on the harbour bed around the berth. Through this pipe-line is pumped compressed air which escapes from the pipe-line via small holes in it. As a result of this escape, the surface of the water above the pipe-line is forced upward to form a "mound" of water which encloses the berth and prevents any spillage from spreading.

While vessels are berthing and unberthing the barrier will be kept in operation and the disturbance on the surface of the water will indicate the position of the pipe-line. To avoid damage to the pipe-line, it is essential that vessels do not drop their anchors in this vicinity.

BALLAST: Vessels should make every effort to arrive at the terminal with clean ballast and with the minimum quantity for safe handling under prevailing weather conditions.

All ballast must be discharged into shore tanks provided by the company, unless it is clean ballast, carried in tanks which are completely isolated from the vessel's cargo system. However, the discharge of such ballast into harbour waters must not be commenced until the ballast has been inspected by a company official, and he has certified that it is in order to commence discharge.

Ballast can be accepted into the company's store tanks at rates up to 6,000 t.p.h. from the jetty berths and 1,500 t.p.h. from the buoy berth. Ballast is discharged ashore over the jetty by way of a loading boom. Ballast is discharged ashore from the buoy berth through a separate 24-in. ballast discharge line connected to a 12-in. flexible hose. Max. quantity 35,000 tons.

LOADING: Cargo loading at each jetty berth is by means of four 16-in. flow booms to which 12-in. flexible hoses are attached. Cargo loading at the buoy berth is by means of a 34-in. submarine line to which two 12-in. flexible hoses are attached.

This system permits a max. loading rate of approximately 8,000 t.p.h. over each jetty berth, and 4,000 t.p.h. through the buoy berth. The actual loading rate for a particular vessel will be determined prior to the commencement of loading by agreement between the Master and the Company.

The following signals will be exhibited by a vessel whilst in the buoy berth to indicate the nature of the operation taking place, and to provide a second channel of communication should VHF contact be broken between ship and shore.

	Day	*Night*
Deballasting	Code Flag N	1 green light
Slow loading	1 red flag	1 red light
Full loading	2 red flags	2 red lights
Stop	flags lowered	lights out
Require launch	Code Flag L	signal lamp
Fire emergency	Continuous sounding of short blasts on whistle or siren	

These signals will also be repeated ashore from a mast situated on top of the main administration office building, which is situated opposite the buoy berth.

Jetty: Method: gravity loading, max. head 360 ft. rate regulated to requirements. Loading rates: two lines each 4,000 t.p.h. Two 8,000 t.p.h. max.

Buoy Berth: Method: gravity loading, max. head 350 ft. rate regulated to requirements. Loading rate 4,000 t.p.h.

SAFETY: A copy of the Regulations will be given to Master when Company's Berthing Master boards at outer buoy. Masters should make themselves thoroughly acquainted with these Regulations, strict observance of which is required by the Company.

In the event of any infringement of the Regulations, operations may be stopped and, if so, will not be recommenced until the Company is satisfied that appropriate action has been taken by the Master to comply with all the Regulations. The Company also reserves the right to unberth a vessel in the event of a continued or blatant disregard of any of the Regulations. Any loss or expense to the Company resulting from an infringement of the Regulations and, in particular, in the event of an infringement leading to an interruption of operations and/or unberthing of a vessel, will be for the account of the Owners.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No shore facilities for carrying out repairs to vessels either at the terminal or at Tobruk.

CONSULS: No Consulates at Tobruk and the nearest locations of Consular officials are as follows:

Benghazi – 445 kms. from Tobruk: France, Germany, Greece, Italy, Saudi Arabia, Tunisia, United Arab Republic, United Kingdom of Great Britain and Northern Ireland, United States of America, U.S.S.R.

Derna – 175 kms. from Tobruk: Turkey.

El Berda (Beida) – 260 kms. from Tobruk: Belgium, United States of America.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beer, perfume, arms, ammunition and saccharine have to be locked up under Customs' seal from time of vessel's arrival in harbour of Tobruk until time of departure.

Whilst in harbour, each member of crew allowed following: 200 cigarettes (the Master will be allowed 400); half bottle spirits (the Master will be allowed 1 bottle); 4 bottles of beer or wine per man per day.

No fixed allowances for cigars and tobacco.

Libyan law prohibits vessels from having on board any goods or containers of Israeli origin. Any vessel having such goods or containers on board on arrival in the harbour of Tobruk will be liable to a heavy fine and confiscation of the goods or containers. The Libyan Authorities may, moreover, refuse to clear the vessel.

REGULATIONS:

1. *Ship's Garbage.* Whilst within limits of harbour of Tobruk the throwing overside of ships' garbage is prohibited.

2. *Ships' Radio.* Once vessel berthed at Terminal the use of her radio will not be permitted.

3. *Ships' Boats.* Use of ships' boats not permitted within limits of harbour of Tobruk.

MARSA EL BREGA: 30.25 N. 19.34 E.

Also refer to "General – All Ports".

FLAG: All ships should fly the Libyan flag when inside teritiorial limits. They should make sure that they have a Libyan flag on board before leaving the last port of call. Failure to fly the Libyan flag may result in a heavy fine.

Libyan Law does not permit ships using Libyan waters to retain Israeli flags, stores or literature pertaining to Israel on board, even though these may be normally part of the vessel's navigation equipment.

DOCUMENTS: Customs and Immigration officials will board the vessel, except in adverse weather. All relevant documents are supplied by the Mooring Master and on completion of mooring the Master will fill in, sign and stamp the papers. These will then be handed over to the authorities before clearance for loading is granted.

Letters on ships' business should be addressed to Esso Standard Libya Inc., P.O. Box 385, Essofield, Marine, Tripoli, Libya, and should be marked "Marine Documentation Section".

Vessels calling at Marsa el Brega should have the following documents in addition to the ship's register.

Customs and Ports and Lights Authorities Forms:

A. Port Declaration – Form P.L. 7 (1 copy)
B. (Title in Arabic) Inward Report – Form C.L. 128 (3 copies)
C. Cargo Manifest Inward – Form C.L. 1 (3 copies)
D. Report Outwards – Form C.L. 4 (3 copies)
E. Crew Manifest Inwards – Form C.L. 31 (2 copies)
F. Export Manifest Form C.L. 155 (6 copies)
G. Certificate of Discharge for last cargo of Libyan crude. If vessel has not called at a Libyan port since October 18, 1973, then a letter is required from the Master, addressed to the Ministry of Petroleum, stating that he undertakes to mail the Certificate of Discharge, for the present cargo, from the Port of discharge.

Required when ships clear inwards, lists each member of the crew and all goods held (e.g. liquor, cigarettes, cameras, money, etc.) with crew member's signature opposite name or rank. This form is ordinarily supplied in advance so that it may be completed prior to arrival at Brega. Ships making their first call at Brega must necessarily complete after arrival, but will then receive advance forms for future calls.

Cargo ships also require ship's cargo manifest form (3) with same information as C. above.

Ship's Forms required by Customs:

A. Crew List – ship's form (3 copies)

Submitted for inward clearance and containing the following information:

List of crew members, type of vessel, nationality, date of arrival, place from which arrived, destination, and estimated date of departure. Sign and stamp with ship's stamp.

B. Stores List – Ships form (2 copies)

A list of ship's stores required when ship clears inward. Sign and stamp with ship's stamp.

C. Clearance from Last Port – Port's form (1 copy)

Required for inward clearance to load at Brega. Must be properly signed and stamped by officials of port of previous call. There are exceptions on requirement for this clearance dependent on ship, nationality and last port of call.

Other Forms: (Not required of cargo ships)

A. Report of Cargo and Ship's Ullages (original)
B. Tanker Time and Loading Report (original)

(A mimeograph original to be signed by the Master and returned to ship's Agent).

C. Certificate of Cargo Discharge (4 copies)

Master signs and stamps 1 copy at bottom of form, and returns it ashore.

Additional 3 copies are completed by Master at port of discharge and stamped and signed by Customs authorities. 1 copy should then be air-mailed to Ministry of Petroleum, Tripoli. The second copy air-mailed to Marine Superintendent, c/o Essofield. Marine Division, P.O. Box 385, Tripoli, and the third copy retained on board for presentation when the vessel next calls at Brega.

Notes on Ship's Documentation:

Agencies: E.S.L.I. no longer supply an agency service. Vessels should nominate an Agent by cable prior to arrival as most agencies have no accommodation locally and travel from Benghazi.

Should the vessels' Agent not be available on the vessel's arrival E.S.L.I. are prepared to negotiate with an agency, present in Brega at that time, to act on the vessel's behalf, providing that a letter is received, from the Master, nominating such Agent as E.S.L.I. may name as being present.

This will give the previously nominated Agent time to show during the vessel's manoeuvre to berth after which the Master's letter will come into effect. Should the Master decline from the above, the vessel will then remain at anchor until such time as the representative of the nominated agency presents himself. This is necessary as it is the Agent who obtains from the Local Authorities permission to load the vessel.

Information required by Esso Standard Libya Inc. prior arrival
The Owner, Charterer or Agent should airmail or cable following to Esso Standard Libya Inc., PO Box 385, Esso Field, Marine, Tripoli, cable address Essoship Tripoli:

(1) Name and flag of vessel.
(2) Dimensional characteristics, e.g. overall length, beam and max. draft.
(3) Total tonnage, number and type of products or cargo on board.
(4) Number and size cargo hose connections on either side and distance in feet of each from the bow.
(5) Safe working load of derricks in vicinity those connections.
(6) Number of shackles of chain (90 ft. shots) on each anchor.
(7) Whether or not VHF fitted.

Information concerning dimensional characteristics need not be included in letter or cable after first call.

LOCATION: Marsa el Brega is located in the South-Eastern part of the Gulf of Sirte in Lat. 30° 25′ 0″ N., Long. 19° 34′ 3″ E. It is an open bay contained between Ras Magdar and an unnamed headland some 3 miles to the West.

The Brega sea buoy is located in Lat. 30° 27.55′ N., and Long 19° 35.1′ E. A bow mooring oil loading fixed structure is located in Lat. 30° 26.0′ N., and Long. 19° 33.9′ E., with a fixed red light exhibited at a height 93 ft. above mean sea level. In addition, the structure is lighted by floodlights. Brega is radar controlled with the shore installation scanner in position 30° 25′ 02.5″ N., and 19° 34′ 55.6″ E. The height of the scanner tower is 112.2 ft. The Radio Beacon is located in Lat. 30° 25′ 00″ N., and Long. 19° 34′ 14″ E. The call sign is "M.B." and it operates continuously on a frequency of 403 kc/s.

A single point mooring is located in position Lat. 30° 26′ 45.26″ N., and Long. 19° 34′ 01.40″ E. A single flare is located in position 30° 24′ 31.9″ N., and 19° 35′ 49.7″ E. Three other flares are located approximately 700 ft. to the West and South-west. The flares when burning can be seen at extreme distances. Numerous lighted and unlighted navigational and mooring buoys are located within the restricted area shown on BA Chart 3350.

PILOTAGE: The services of a Pilot/Mooring Master are provided without charge. He will normally board the vessel in the vicinity of the Brega buoy and will advise the Master on approaches to the berths, mooring and unmooring, connecting and disconnecting cargo hoses, and all other operations within the berthing area. Vessels are cautioned not to enter the restricted area mentioned above without the services of a Brega Pilot/Mooring Master. Pilot ladder must conform to international safety standards.

PRATIQUE: Quarantine signals must be displayed upon entering Brega port limits in accordance with international practice and shall be continuously displayed until pratique is granted.

ANCHORAGE: Anchorages located 0.5 mile N.E. to East of Brega buoy in 12 to 18 fathoms. *Vessels should not remain at anchor in bad weather.* Vessels not permitted to anchor within 0.5 mile of the channels into the bay and inner harbour.

RADIO: Vessels bound Marsa el Brega not required call Tripoli for inward or outward clearance. Radio messages should be sent through Tripoli (via Malta if beyond communication range of Tripoli) and ETAs should be sent at least 48 hours but preferably 72 hours in advance. Master should state whether ETA in GMT or local time.

Unless 24 hours notice of ETA is received by "Essoship, Tripoli", Notice of Readiness will not be accepted.

As cable office closed between midnight and 0800 hrs., allowance for delays in receipt of radio messages due to this and other causes should be made when sending ETAs and other urgent traffic.

Esso Standard Libya Marine Terminal equipped with short-range Radio/VHF Telephone Port Control System. The following procedure should be adhered to: Vessels approaching Brega and equipped with VHF should call Brega Port Control on Channel 16. Channel 16 is reserved for "Calling", "Safety", "Emergency". When contact made, vessel will be allocated one of the four working channels: Channel 13, Channel 12, Channel 9, Channel 6. Esso Libya's Pilot launch is equipped to operate on these channels. Portable radio sets available for vessels not fitted with VHF.

TUGS: Esso Standard Libya Inc. maintains tugs and mooring launches to assist vessels to moor and unmoor.

BERTHING: Tankers: *Connecting of Cargo Hoses:* All cargo hoses used in the sea berth and at the bow mooring have 12 in. American Standard flanges. The hose used on No. 5 berth SPM has 16 in. American Standard flanges. Raising, connecting, disconnecting, and lowering of the hoses used in all berths will be performed by the ship's crew as advised by the Pilot/Mooring Master who will remain on board while the ship is in the mooring. Vessels should arrive with port derrick topped and ready for use.

Ballast: Esso Standard Libya Inc. has no facilities for the discharge of dirty ballast in Brega. Accordingly, all ships must arrive with clean ballast. International oil pollution regulations must be strictly observed by all ships while in Libyan waters.

Vessels should have sufficient ballast aboard for safe manoeuvring, but should not arrive excessively ballasted. The propellor should be submerged and the vessel trimmed not more than 8 ft. by the stern.

Vessels not properly ballasted will not be berthed in order of arrival and will not have their Notice of Readiness accepted.

Loading and Deballasting Simultaneously: Vessels properly equipped will be encouraged to discharge clean ballast and load oil simultaneously subject to the loading rate being reasonable, and that this procedure does not unduly delay the discharge of clean ballast.

Mooring Ropes: Tankers calling at Brega to load at the crude/naphtha sea berth should be equipped with a minimum of eight 10 in. circ. fibre or synthetic mooring ropes in good condition, not less than 120 fathoms in length. Mooring wires of equivalent strength are acceptable. A fibre or synthetic mooring rope in good condition must be available for towing vessels into berths by tug. It is recommended that 3 ropes be ready for use on the main deck. One on each side and one amidships joined to the others.

Crude Tanker Sealine Berths Nos. 1 and 4:
Berths 1 and 4 are now out of service. Ground chains and clamps for the mooring buoys, and the loading lines are still in position.

Crude Tanker Sealine Berth No. 2:
The least depth of water in this berth is 44 ft. The 30 in. crude line is approx. 8,000 ft. long with two hose strings. Crude oil is loaded by gravity or pumps and rates up to 39,000 b.p.h. can be obtained. When berthed the tanker is heading 330° true with both anchors out forward, and 6–700 ft. of chain on each anchor. The stern is secured to 5 mooring buoys fitted with quick-release hooks. The submarine hoses are picked up amidships on the port side of the tanker and the vessel's derricks should have a safe working load of 5 tons.

A naphtha line with a single 12 in. connection is laid in this berth, the shore line being 24 in. In the event that a vessel loads naphtha, then both crude hoses will be taken on board first before connecting the naphtha hose. In good weather, Berth No. 2 can safely accommodate a 65,000 d.w.t. tanker with the following principal dimensions: 65,000 d.w.t.; length, 800 ft.; beam unrestricted, up to 42 ft. draft in good weather. Gravity of sea water about 1030.

Crude Tanker Sealine Berth No. 3 – bow mooring:
The bow mooring is located in approximately 95 ft. of water, and consists of a fixed pylon surmounted by a revolving boom from which hangs a submerged oil-loading pipe arm. The main structure has a diameter of 130 ft. and is 97 ft. above mean sea level at its highest point. The pylon is surrounded by a fender ring which is mounted on vertical steel piles. The revolving boom is 76 ft. in length from the centre of the pylon to the end. The loading arm hangs from a ball joint at the end of the boom and is approximately 560 ft. in length, terminating in a hose handling platform on the outer end. The hose platform is kept at the level of the ship's deck by means of a compressed air ballasting and deballasting system. Four 12 in. hoses hang from the platform. Vessels are normally berthed port side to the platform. Derricks should have a safe working load of 5 tons. A maximum loading rate of 65,000 b.p.h. may be realised with the loading pump in operation.

Vessels are moored in position using 2 head ropes to the bollards on the boom and with two 6 in. nylon back spring mooring lines to the hose-handling platform. In addition, a 6 in. nylon snubber line is used to keep the platform alongside the ship. In bad weather conditions two additional headlines consisting of 12 in. "Samson" nylon are available. Vessels with the following principal dimensions can be accepted: 100,000 d.w.t., overall 1,000 ft., beam unrestricted, draft 48–49 ft., bow to manifold not to exceed 434 ft. Larger vessels may be accepted with prior approval.

Crude Tanker Sealine Berth No. 5 – Single Point Mooring:
No. 5 SPM is located in approx. 140 ft. of water and is in position 30° 26′ 47″ N., 19° 34′ 01.4″ E. The mooring consists of a monobuoy to which are attached 2×15 in. synthetic lines. These are shackled to a single 3 in. chain partly around which is a flotation cover. On the end of the chain is a 9 in. polypropylene line.

Mooring is effected by heaving the polypropylene through the bow as near the centre lead as possible until the chain is on board, and then shackling two 12 in. perlon strops to open links in the chain. The strops and shackles will be placed on board with the Pilot and vessels are advised to have the port derrick ready to hoist the gear on board at that time. The vessel is also required to have a good 3.5 in. to 4 in. messenger line of at least 75 fathoms in length, ready for use on the fo'c'sle head.

The 48 in. pipe-line is approx. 11,850 ft. long, terminating at the underbuoy structure on the seabed. Crude is loaded through one string of self-floating 24 in. hose with one 16 in. over-the-rail hose to the ship's manifold. Vessel's derricks should have SWL of 10 tons and if necessary be double rigged. The weight of a normal lift for connection to the ship's manifold amounts to less than 5 tons. This is for a hose free of oil, which is usually the case. Vessels with the following principal dimensions can be accepted in this berth: 300,000 d.w.t. Length beam and draft unrestricted. Flow rate 48,000 b.p.h.

Berths Nos. 3 and 5:
Vessels entering the restricted area on the approach to, mooring and leaving, these two berths must at all times have their anchors firmly secured. No anchor work may be carried out at any time whilst a vessel is in this area.

Product and Asphalt Tanker Berth:
Tankers loading refined petroleum products to Marsa el Brega will be berthed at the product dock. Products will be loaded through a number of small pipe-lines approximately 2,000 ft. long. 3 in. or 6 in. hoses are provided according to the grades of oil being loaded. Vessels assigned to load at this berth must be suitably equipped with mooring ropes and have derricks capable of lifting 2 tons.

Vessels cannot be berthed or remain alongside the breakwater except in fine weather. The breakwater is equipped with resilient fendering and ample mooring points. Tankers will be berthed by an Esso Standard Libya Pilot/Mooring Master. Two tugs are available, and a launch will run the mooring lines. In good weather vessel with the following principal dimensions can be accepted: Overall length 500 ft., beam unrestricted, draft 26 ft. max.

Gas Docks: Three types of processed gas are loaded in Marsa el Brega: liquefied natural gas (LNG); pressurized liquefied petroleum gas (Press. LPG) and refrigerated LPG.

These are loaded on 2 piled berths situated on the Southeastern part of the harbour.

There are dolphins to head, stern and breast lines.

The springs are secured to the central pier and in addition springs from the pier are also made fast. Vessels alongside the gas jetties must be ready to leave at short notice.

On the North or "A" jetty the following products are loaded: Press. LPG and LNG. On "B" jetty: Press. LPG, Refrig. LPG and LNG. There is also a caustic facility on "B" jetty. Minimum depth alongside the gas jetties is 37 ft.

Acid Dock:
There is a small berth to deal with sulphuric acid.

Dry Cargo Dock:
To nominate vessels, carrying cargo for Esso Standard Libya, for direct call at Marsa el Brega, prior approval must be obtained from Esso Europe Inc., Traffic Coordination, 50 Stratton Street, London, W.1., England. Telex No: EURESSPUR, 21221/5. The approval of the Operations General Manager, Brega, is required for any other vessel.

Notice of ETA Port Brega must be given 72, 48 and 24 hours prior to the vessel's arrival. Master of vessel should also advise number of stevedore gangs required.

Vessels assigned to discharge dry cargo at Marsa el Brega will be berthed alongside the dry cargo dock by an Esso Standard Libya Pilot/Mooring Master. The min. depth alongside and in the approach is 30 ft. Two tugs are available. A mooring launch will be available to run mooring lines. The dry cargo dock is fitted with resilient fendering and ample mooring points. During Winter it may be necessary to leave the berth during bad weather, and the Master is responsible for any damage sustained by the jetty and/or his vessel. A Pilot/Mooring Master will be standing by at all times.

All mooring ropes should be in good condition and none should have more than one short splice in the useable length. Crew shall keep the moorings tendered and properly lighted day and night. Shore ropes are also available when necessary.

Ships shall provide their own gangways and the crew shall keep them lighted and tendered, day and night. Ships must be equipped with adequate unloading gear. All cargo will be off-loaded with the use of ship's gear. When weather permits, derricks should be topped at sea prior to arrival. Due to the increase in cargo vessels calling at Brega, considerable delay may be experienced. Vessels carrying Esso cargoes have priority over all other vessels.

The length of the dry cargo dock is 650 ft. The max. size ship which can be accommodated is 500 ft. overall, beam unrestricted, *max. draft 26 ft.*

MEDICAL: There are limited medical and no dental facilities at Marsa el Brega. Personnel requiring urgent medical treatment may obtain it, but this will only be undertaken in serious cases. Masters of vessels arriving at Marsa el Brega who require medical treatment should give advance notice of their requirements by radio whenever possible.

FRESH WATER: No fresh water is available.

FUEL: No bunkers are available.

REPAIRS: No repairs are allowed to ship's engines while vessels are moored in the berths. Ship's engines should be ready for use on short notice in case the vessel has to vacate the berth suddenly because of bad weather. There are no repair facilities for ships available at Brega.

REPATRIATION: Crew members cannot pay off or leave the vessel at Marsa el Brega except in cases of emergency. Even in an emergency, it should be noted that seamen's Books are not valid under the Libyan law. A valid passport is required, and with adequate notice by radio it is possible to obtain an exit visa for a crew member leaving in an emergency.

SHORE LEAVE: Passengers and crew members are not permitted to land for reasons other than emergencies.

PORT REGULATIONS:
Cargo vessels:
The following restrictions, conditions, rules and priorities shall be observed by Masters, Consignees and Agents of Non-Esso cargo vessels calling at Marsa el Brega.

1. The permission of the Operations General Manager must be obtained before a non-Esso cargo vessel can discharge. The Operations General Manager also designates certain priorities which may change from time to time. Agents of cargo ships must keep in touch with Marine Superintendent who will advise them of the priority assigned to their vessel.
2. Maximum vessel draft 26 ft.
3. Maximum length overall 500 ft.
4. No repairs may be carried out to the propulsion machinery during the unloading operation and the ship must remain mobile and be ready to manoeuvre at all times.
5. Vessels must be equipped with their own unloading Gear.
6. Unloading must be from ship to truck and no marshalling arrangements can be made available inside the reserved area. The unloading operations must be completed rapidly.
7. Unloading operations may not be performed except during daylight hours as determined by the Marine Superintendent.
8. Loading trucks will be required to adhere strictly to Esso's safety rules, particularly while operating within the limits of the Industrial area.
9. Arrangements for the entrance and movement of the stevedoring personnel must be coordinated with Esso's Industrial Security Division. No housing or victualling will be provided for stevedoring personnel. All expenses, costs, remunerations and compensations associated with this activity will be borne directly by the company concerned.
10. The stevedores will be held responsible for cleaning up after completion of unloading.
11. No victual, water supply or bunkering service is available for vessels calling at Brega.
12. Advance notification must be given to Esso's Marine Division at least 10 days prior to arrival of vessel at Marsa el Brega. ETA of vessel to be notified 72 hours prior to arrival and confirmation and reconfirmation 48 hours and 24 hours respectively prior to arrival.
13. All vessels carrying or receiving Esso cargoes will be given priority over other vessels even if this requires interruption of the unloading operations of other cargo vessels.
14. Weather and sea conditions, particularly during the period December to April of each year, impose severe restrictions on the cargo pier usage. Among these restrictions are the discontinuation of unloading and the unberthing of the ships as a safeguard against ship and berth damage.

    One hour's notice will be given to Masters should it be deemed necessary to vacate the berth due to bad weather.
15. Esso shall not be held reponsible for any waiting period or delay (demurrage) related to the entry of cargo ships, nor be liable for any costs or compensation in that connection, regardless of the circumstances.
16. Esso shall not be held liable for any loss, damage or injury that may occur to any property or persons whatever the cause therof as long as they are related to or resulting from the use of the port. Such loss, damage or injury shall be the liability of the Master, Consignee or Agent irrespective of whether they are real or alleged. The above named shall also undertake to indemnify Esso for any such losses and damages and to hold Esso harmless from any liability that may arise as a result thereof.
17. All vessel movements will be subject to the control and direction of Esso's Marine Division Superintendent.

GENERAL: *Provisions:* There are no fresh or dry provisions available at Marsa el Brega, and Esso Standard Libya cannot undertake to obtain supplies from Benghazi.

Mail: The Ship's Agency will handle all official and crew ship's mail which should be passed to the Mooring Master before the vessel sails.

Harbour Work: Dredging is in continual progress in the vicinity of the inner harbour. Vessels are cautioned not to enter the restricted area (B.A. Chart 3350) without the services of a Brega Pilot/Mooring Master.

Master of cargo/product vessels calling at Marsa el Brega are cautioned that seaweed in suspension is present in the inner harbour area, and all precautions should be taken to avoid blockage of main engine room intakes.

Work on a new breakwater and harbour complex for the National Oil Company is in progress and is due for completion in 1977.

Communications: Communications between ship and shore will be by portable VHF radios. In the event of a breakdown in communications, the following visual signals should be used.

	By Day (in a vertical line) *Ship and Shore*	*By Night* (Lights) *Ship and Shore*	
Radio contact has failed. Send a boat.	Z Flag	3 White	3 Green
Ship has completed ballast. Is ready to load. Open shore valve	A Flag	2 White	2 Green
Ship is loading crude. Everything is in order.	B Flag	1 Red	1 Red
Ship will complete loading in 30 minutes, and will haul down signal at moment of completion to shut shore valve.	B over B Flag	2 Red	2 Red
Power failure – 30 minutes required to shut shore valves.	Answering	1 Green	1 Green
Ship is disconnecting and unmooring immediately. Shut shore valve	B over B flags Over answering Pennant	3 Red	3 Red

Ship will draw attention to each signal with a series of blasts on whistle or siren. Shore will acknowledge signals by repeating them or acknowledging them on the Aldis Lamp.

AUTHORITY: Esso Standard Libya Inc.

MISURATA (Kasr Ahmed): 32.22 N. 15.13 E.

Construction of this port commenced in 1973 — still under construction.

RAS LANUF: 30.31 N. 18.35 E.

(Also refer to "General All Ports").

Sirtica Terminal

DOCUMENTS: Customs will require:

4 Crew Lists.
1 Crew Declaration of personal belongings (including cigarettes etc.)
2 Stores Lists.
1 Passenger List.

Crew Lists and Crew Declaration of personal belongings must be on the approved Libyan Government Documents. Vessels are advised on their initial visit to the port to obtain sufficient forms for future visits. Also required are:

6 Copies of Cargo Manifest for Ras Lanuf Discharge.
1 Copy of Cargo Manifest for transit cargo with a summary.
1 Copy of Passenger Manifest.

Clearance from the last port of call will be required by the Government authorities. The police will require 4 copies of a Crew List and a Passenger Manifest if any passengers on board.

PILOTAGE: It is most important that ships establish communications with the terminal not less than 72 hours prior to arrival, giving estimated time of arrival. Further ETA signals should be sent when the vessel is 24 hours, 12 hours and 4 hours distant or any time a change of 1 hour in original ETA occurs. These messages should state specifically whether ETA is given in GMT or local time. The 72-hour signal should include the following: ETA, last port of call, if any sickness on board and if vessel has clean bill of health. Cargo quantity and grades expected to be lifted in net long tons at 60°F. The 12-hour signal should include definite indication as to whether the vessel is ready to load or not and should also include information on the time she will require to discharge ballast after arrival. Precise time of arrival should be given when the ship is 4 hours distant from the terminal.

Vessels to be moored at Ras Lanuf will be boarded by Mooring Master in the close vicinity of the suggested anchorage area mentioned below. The Mooring Master will advise the Ship's Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the mooring area.

Terminal sea buoy, colour red with radar reflector and bell is located in approximately Lat. 30° 32′ 40″ N. Long. 18° 34′ 38″ E. Vessels in the vicinity of the port should not navigate or anchor inside of a bearing 120°-300° running through this buoy position.

ANCHORAGE: Suggested anchorage area is within a 3,000 ft. radius of position Lat. 30° 33′ 00″ N., Long. 18° 35′ 40″ E. in approximately 90 ft. of water.

MAX. SIZE: Conventional berths: up to 60 ft. draft; up to 130,000 d.w.t.

Single Point Mooring: up to 75 ft. draft, up to 265,000 d.w.t.

HEALTH: By day – fly flag "Q" and by night display red light over white light for Quarantine Service.

Libyan Customs, Federal Police and Immigration Officials will board the vessel as soon as possible after arrival to give inward clearance and "pratique" services. Libyan Government Regulations are strictly enforced. The vessel should have a clean Bill of Health or equivalent document from the last port of call. The vessel's Master and all members of the crew shall possess International Certificates of Health showing valid smallpox Vaccination Certificates.

RADIO: Direct communication by radio between ship and shore is by VHF International Maritime Mobile Radio-telephone Service to Ras Lanuf Oil Movements Control Centre. All communication between ship and terminal should be by way of this station. ETA messages to Mobilpro, Tripoli, Libya, via Tripoli Radio (call sign 5AT). Ras Lanuf Oil Movements Control Centre keeps continuous watch on VHF Radio-telephone Channel 16 (156.80 mc/s), Channel 14 (156.70 mc/s) and Channel 11 (156.55 mc/s). Vessels approaching the port should make contact on Channel 16 when shore will request her to switch to Channel 14. This channel will also be used by terminal Marine Section for internal use and tanker mooring control. Channel 11 is reserved for communications between ships in mooring and Terminal Oil Movements Control Centre and should only be used for general purposes after obtaining clearance from Oil Movements Control on Channel 16. This is a safety measure since oil flow to ships is controlled through Channel 11 and therefore it must be clear at all times in case of need to stop oil flow for any cause. Channel 16 is for calling and safety use only.

TUGS: Not required. The company maintain launches to assist in mooring and unmooring vessels. These are under the direct supervision and control of the Mooring Master.

BERTHING: There are 4 submarine loading pipe-lines which terminate in the following approximate positions which are each marked by an unlit white spar buoy.

Berth No. 1: Lat. 30° 31′ 35″ N., Long. 18° 34′ 37″ E., from which a submarine pipe-line runs to shore on a bearing of approximately 224°. Depth of water at spar buoy 70 ft.

Berth No. 2: Lat. 30° 31′ 55″ N., Long. 18° 33′ 58″ E., from which a submarine pipe-line runs to shore on a bearing approximately 197°. Depth of water at spar buoy 70 ft.

Berth No. 3: Lat. 30° 32′ 18″ N., Long. 18° 33′ 19″ E., from which a submarine pipe-line runs to shore on a bearing of approximately 198°. Depth of water at spar buoy 73 ft.

Berth No. 4: Lat. 30° 31′ 35″ N., Long. 18° 33′ 00″ E. – a Single Point Mooring buoy in 95 ft. of water.

Raising, lowering, connecting and disconnecting of submarine hoses, as well as all other labours and duties on shipboard, will be performed by the ship's crew under direction of the Mooring Master.

LIFTING HOSES: After the vessel is securely moored the submarine hose will be hoisted on the port side. Berths No. 1 and 2 are each equipped with 2×12 in. loading hoses, the weight of each hose lift being approximately 5 long tons. Berth No. 3 is equipped with 2×12 in. loading hoses the weight of each hose lift being approximately 5.75 long tons. Therefore, all lifting equipment and tackle should have a safe working load of at least 6 long tons. Hoses are lifted by ship's gear and crew, and all connecting of hoses will be done by them. The lifting derrick, equipment, tackle, etc., should be topped off and ready on arrival.

The SPM is equipped with two 16-in. loading hoses, ending in 12-in reducers.

MEDICAL: No medical services (except in case of emergency and subject to a doctor being available) or other services are to be expected at Ras Lanuf.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: When a ship is in the moorings or vicinity, its engines must remain on standby with full power for immediate use. Deck machinery shall be kept in instant readiness. *Positively no repairs of any sort will be permitted in the moorings.*

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beers, perfume, arms, ammunition, saccharine and possibly other items have to be locked up under Customs seal from time of arrival of ship in port until time of leaving territorial waters. Each person is allowed 25 cigarettes per day of stay or 25 grams of tobacco or cigars in lieu. Each man allowed 1 litre of beer or half litre of wine per day. Special allowances are made for Master under special circumstances.

CONSULS: The only consulates are located in Tripoli which is 670 km. by road from Ras Lanuf. These consist of U.S.A., British, Danish, Dutch, United Arab Republic, French, German, Greek, Indian, Italian, Norwegian, Spanish, Russian (U.S.S.R.), Turkish, Yugoslavian.

REPATRIATION: Crew members cannot pay off or leave the vessel at Ras Lanuf except in cases of extreme emergency. Even in an emergency it should be noted that Seamen's Books are not valid under the Libyan law. A valid passport is required.

BALLAST: Positively no provision is made for dirty ballast. Any ship arriving with dirty ballast will be rejected and all costs accruing therefrom will be to the ship's account. Notice of readiness shall not be accepted until vessel returns with clean ballast and tanks fit to receive cargo. She will on second arrival tender a new notice of readiness to load.

TIME: Libyan local time is GMT plus 2 hours.

GENERAL: No stores, foodstuffs or goods whatsoever of Israeli origin may be on board any ship calling at Ras Lanuf.

Penalties: Fine, confiscation of goods and possibly more. The Libyan Government strictly enforces this law.

Whilst arriving fly the Libyan Ensign (red side up).

Due to the existence in these waters of the fish commonly called "Weaver" fish, ship's crew are urged to exercise extreme caution in fishing whilst lying off the port area. There have been several cases of poisoning by these fish, all of which were distressingly painful, caused by contact with the fins.

SHORE LEAVE: Not allowed.

AUTHORITY: Mobil Oil Libya Limited, Tripoli.

TOBRUK: 32.04 N. 24.00 E.

(Also refer to General all ports)

PORT LIMITS: The complete water area existing within Tobruk Bay or that water area existing to the West of an imaginary line commencing as from Tobruk Peninsula up to the coast to the South.

It is formed of 3 areas inside the Bay, namely Marsa Tobruk, the proposed naval base and Marsa Al-Hariga Oil Terminal.

BERTHING: Berths in Torbruk Harbour:

Quay No. 3: Length 82 ft. draft 11 ft.
Quay No. 4: Berth 1: length 560 ft. draft 20 ft.
Berth 2: Length 395 ft. draft 28 ft.
Berth 3: Length 410 ft. draft 30 ft.

TANKERS: Refer to "Marsa Al Hariga".

MAX. SIZE: Max. draft: 29 ft., max. length: 400 ft.

RADIO: Tobruk Radio (Station operated by Arab Gulf Oil, Timing 0900/0930, 1300/1330, 1700/1730, 2100/2130 hrs.) 5AL: 420, 425 and 500, VHF (24 hours) Channels 12, 16 and 19.

STEVEDORES: All stevedoring operations and formalities to be done by Agents.

MEDICAL: Available.

FRESH WATER: Not Available.

FUEL: Not available.

REPATRIATION: Available via Benghazi.

DEVELOPMENTS: Port extension project under study.

TRIPOLI: 32.54 N. 13.13 E.

Also see "General" before first port.

PORT LIMITS: (a) The water area existing inside the actual breakwater and that which may fall within any new breakwaters eventually constructed in accordance with the Port Developments Project.

(b) The outer water area known as the navigational channel commencing as from the harbour entrance along the distinguishing marks of the channel for a distance of 2 km.

RESTRICTIONS: Any containers arrived on ro/ro ships should be on trailers.

MAX. SIZE: All types of ships with 27 ft. draft and less are safe in harbour.

RADIO: Tripoli Radio (coast station — 24 hours), 5AT, 476 and 500 kc/s, R/T 2182 and 2197, VHF Channels 16 and 6.

Tripoli Port Radio (24 hours), 5AI, 500 kc/s, R/T 2182, VHF Channels 10, 12 and 16.

STEVEDORES: All stevedoring operations to be done by Port Authority except formalities to be done by ship's Agent.

CRANES: Electric floating crane available up to 100 tons.

MEDICAL: All facilities available.

FRESH WATER: Available by barge and alongside, should be obtained from Port Authority through ship's Agent.

FUEL: Available through Agent. A notice of 24 hours needed, advisable for Chief Engineer to check what grades are available.

REPATRIATION: Crew changes are possible.

AIRPORT: A number of major air lines operate to and from Tripoli airport which is about 27 km. from the city.

DEVELOPMENTS: Port extension project under construction.

WATCHMEN: Available.

CONSULS: Algeria, 34631; Belgium, 37797; Bulgaria, 35733; China, 32300; Denmark, 39413; Egypt, 33833 & 33822; France, 33526 & 33527; Germany, 33827 & 30554; Pakistan, 40072; Poland, 31768; Saudi Arabia, 30486; Spain, 35463 and 33275: Sudan, 39181 and 39182; Sweden, 32343; Switzerland, 32416; Greece, 36978 and 36689; India, 41835; Iraq, 34235; Italy, 34131; Jordan, 32707; Kuwait, 40282 and 40281; Lebanon, 33733 and 32289; Malta, 38081 and 38082; Morocco, 34239 and 40188; Netherlands, 41549 and 41550; Syria, 31783; Tunisia, 31051/2; Turkey, 37728; U.S.S.R., 3054; U.K., 31191/5; U.S.A, 34020 to 34030; Venezuela, 36838; Yugoslavia, 34114 & 33392.

POLICE/AMBULANCE/FIRE: Main port call; 39111, 35010, 31518. Karamanli wharf call: 30378, 35010, 31518.

SHORE LEAVE: Allowed after free pratique, custom and immigration formalities completed.

REPAIRS: See floating dock in "All Ports General".

AUTHORITY: Port Manager and Harbour Master.

ZAWIA TERMINAL: 32.48 N. 12.42 E.

Also refers to General All Ports.

LOCATION: Situated about 50 km. west of Tripoli. Two conventional buoy mooring systems have been installed off Azzawiya Refinery, in place of the single point moorings previously sighted.

PILOTAGE/APPROACHES: No lights have been installed as yet to mark the berths. Vessels are advised to anchor in a position 1.5 miles N.W.of C.B.M. No. 1 to await Pilot and Libyan Authorities. Vessels must keep clear of an area deemed to be the pilotage area. They should not approach the mooring closer than 1 mile without receiving local advice.

Admiralty charts indicate an Anchorage symbol in position 30° 49′ 00″ N, 12° 41′ 00″ E and Flare symbol in position 32° 47′ 25″ N, 12° 42′ 00″ E. Zawia Oil Terminal is adjacent to the flare.

BERTHING: *C.B.M. No. 1:* In position 32° 52′ 16″ N, 12° 41′ 45″ E consists of 6 Lamgar buoys. Vessels lie on a heading of 310°(T) using 2 anchors each with about 8 shackles in water. Depth of water 27 m. Size of vessel 20,000 – 50,000 d.w.t.

C.B.M. No. 2: Consists of 3 Lamgar buoys. Vessels lie on a heading of 310°(T) using 2 anchors each with about 7 shackles in water. Depth of water 27 m. Size of vessel 5,000 – 20,000 d.w.t.

ZUARA: 32. 55 N. 12.07 E.

Also see "General" before first port.

PORT LIMITS: a) The water area existing between the actual breakwater and that which may fall within any new breakwater eventually constructed.

b) The water area known as the navigational channel existing outside the harbour entrance for a distance of 1 km.

RESTRICTIONS: The port for ships laden with cargo of direct delivery only.

MAX. SIZE: Ships up to 13 ft. draft and 65 m. length are safe in the harbour.

RADIO: VHF channel 16. Use Tripoli Radio and Tripoli Port Radio.

BERTHING:

Quay No.	*Length*	*Depth*
Shore quay	2 ships	13 ft.
F.J. Stb.S.	165 ft	13 ft.
F.J. Pt.S.	165 ft	13 ft.

STEVEDORES: All stevedoring operations and formalities to be done by Agents.

MEDICAL: Available.

FRESH WATER: Available alongside.

FUEL: Not available.

REPATRIATION: Possible

AIRPORT: Tripoli Airport situated about 127 km. from Zuara.

DEVELOPMENTS: Port extension project under study.

CONSULS: Nearest consuls are at Tripoli.

REPAIRS: Not available.

POLICE/AMBULANCE/FIRE: Call Port Manager, Tel: 025305.

SHORE LEAVE: Allowed after free pratique, custom and immigration formalities completed.

AUTHORITY: Port Manager and Harbour Master.

ZUEITINA: 30.51 N. 20.00 E. (See Plan)

(Also refer to "General – All Ports")

LOCATION: The Terminal Light float, moored in position 30° 56′ 00″ N. 20° 00′ 00″ E., has a red hull with a black and white vertically striped tower; it shows at night a white light flashing every ten seconds. A prominent landmark is the radio mast (height 451.5 ft. above sea level) in position 30° 49′ 57.6″ N. 20° 03′ 05.5″ E.; it displays at night three red lights in a vertical line – the top light flashing, the two lower fixed. The top light is on top of the mast (which is 400 ft. above the base), the middle light is 226 ft. above the base, and the lowest light is 133 ft. above the base. At night flares at the Liquid Petroleum Gas Plant, in position 30° 54.2′ N. 20° 05.4′ E., can be seen from a considerable distance; by day a column of smoke emanating from this position is also conspicuous. Fourteen large oil tanks, painted white, near the foot of the Radio mast, are prominent landmarks.

Positions of Moorings:

"Alpha" berth	30° 53′ 30″ North,	20° 01′ 05″ East
"Bravo" berth	30° 52′ 18″ North,	20° 01′ 24″ East
"Charlie" berth	30° 52′ 08″ North,	20° 00′ 11″ East
"Delta" berth	30° 50′ 56″ North,	20° 00′ 26″ East
"Echo" berth	30° 50′ 16.4″North,	19° 59′ 16.1″East

DOCUMENTS: Soon after vessel's arrival, a Custom's official will board, accompanied by a Company employee, who will act on behalf of the ship and its Agent, as well as on behalf of the Company, in the execution of essential ship's business. The following documents, signed by the Master and stamped with the ship's official stamp, are required by the Customs official for the Customs and Immigration Departments and for the Port and Lights Authority:

2 Entering and Leaving Territorial Waters Certificates.
2 Report Inwards Certificates.
2 Crew Declarations of Dutiable Goods.
2 Report Outwards.
3 Boycott Certificates.
2 Stores Lists.
5 Crew Lists.
1 Clearance from Last Port of Call.
2 Tanker Characteristics Certificates.

Certificate of Discharge, from the Discharge Port Authorities, of the last cargo loaded in Zueitina.

With the exception of the Crew Lists and the Stores Lists and the clearance from the Last Port, the above forms will be provided by the Company's representative.

It is very important that the Master should be able to produce a properly authenticated certificate of discharge covering the last cargo loaded into the ship in Zueitina. If for some reason he is not in possession of such a certificate, he must write a letter of explanation which includes the pertinent extracts from the ship's logbook, append his own signature to it and stamp it with the ship's official seal, and address it to the Ministry of Petroleum, Es Zueitina. If the explanation for failure to produce the certificate is considered satisfactory the ship may be permitted to load. If there appears to be any suspicion that the last port was not as stated, the ship will be turned away.

If the vessel has not previously loaded in Zueitina, the Master is required to confirm this fact in an official letter, stating also the ship's last port of discharge and giving an undertaking that the cargo about to be loaded will not be discharged in any of the countries to which the Arab embargo extends.

On completion of loading, the Company's clerk will again board the ship and assist the Master with the completion of the various documents. He will require to take ashore the following:—

Port Log	1 copy
Ports & Lights Certificate	3 copies
M. of P. Cargo Loaded Form	3 copies
Ullage Report	15 copies
Mail Form	3 copies

all of which forms are provided by the Company or by the Agency. He will also take ashore any letters to be posted. On occasions, a customs official will visit the ship with the documentation clerk prior to sailing to ensure that the seals which were put on the bonded stores lockers have not been tampered with before the ship has left Libyan waters.

The documentation formalities prior to departure, are usually completed whilst the ship is unmooring from the berth, or just after it has left the berth, hove to with the Mooring Master still aboard. Sometimes, however, (and particularly after the loading of "Agip" cargo), the processing of the papers ashore may take longer than usual, and the ship may have to anchor to await the clerk's arrival, in which case the Mooring Master will direct it to a safe anchorage before disembarking. Zueitina Marine will then inform the Master when the launch bearing the clerk is about to leave the Small Craft Harbour, in order that the anchor may be weighed, and a lee side presented to the launch.

For information relative to ships' movements at Zueitina Terminal, such as arrival times, delays in berthing, quantities of cargo loaded in their vessels, tanker owners and agents, should contact "Occidental International Oil, Inc." 16 Palace Street, London SW1. Telephone 01-828 5600.

ACCEPTANCE PROCEDURE: *Notice of Readiness, Laytime etc:*

Vessels Loading Crude Oils: A vessel for which a berth is available on arrival will be boarded by the Mooring Master at the Terminal Light float and, providing that the vessel is in all respects ready to commence loading (except for the necessary de-ballasting time), the Notice of Readiness will be accepted at the time of the Mooring Master boarding, subject to the provisos – a, b, c and d, below.

If the vessel is not in all respects ready to proceed to the berth, with main engine and auxiliaries fully manoeuvrable, mooring ropes on deck, anchors, windlasses, winches, etc., in good working order and readiness, it will not be accepted until the Mooring Master is satisfied that all these conditions are met.

A vessel which has been instructed by Zueitina Marine to anchor in the roadstead on arrival should, after doing so, inform Zueitina Marine of the precise anchorage time, which time will, for the purposes of berthing order and the Port Log, be considered as the vessel's arrival time. According to the practice of the port, acceptance of the Notice of Readiness will coincide with this arrival time, providing:–

(a) that it is within the hours of daylight – deemed to be from 06.00 hrs. l.t. to 18.00 hrs. l.t.,
(b) that it is not a Public Holiday, or a Friday (the Libyan Sabbath), unless the vessel is actually handled on that day,
(c) that the port is open, and
(d) that the vessel has been nominated to load.

An exception to clause (a) above, is when conditions allow of night berthing, in which case the vessel will be accepted when the Mooring Master boards, or, should the vessel have been at anchor, when the anchor is aweigh, providing that the Mooring Master is then on board.

In the case of a vessel arriving without nomination, the Notice of Readiness will be accepted when notification of her nomination has been received at the Terminal, subject to provisos (a), (b) and (c) above, and instructions from the Company's Operations Department. On occasions when the Company deems it advisable to berth a vessel prior to the date of the nominations, acceptance of the Notice of Readiness will be at the time the Mooring Master boards, providing that the anchor is then aweigh.

In addition to clauses (a), (b) and (c) and (d), above, vessels will not necessarily be accepted when arriving at an unreasonable time ahead of, or behind, their last signalled Estimated Time of Arrival.

Vessels Loading Liquid Petroleum Gas: A Liquid Petroleum Gas Tanker's Notice of Readiness will be accepted on arrival, provided that:

(a) the port is open, ("port" meaning, in this case, the LPG berth,)
(b) that it is not a Friday (the Moslem Sabbath) or an official holiday, unless the ship is actually handled on that day,
(c) that it is not during the night hours – deemed to be, at the LPG berth, between 18.00 hours and 06.00 hours (local time) – unless the ship is actually handled during that period,
(d) that the ship does not arrive on the same day, or clash with the loading of, another LPG tanker chartered under a LINOC contract,
(e) that the ship's tanks are in such a state of readiness, i.e., requiring no cooling, no purging, that loading can be commenced *at full rate* immediately the hoses are connected,
(f) that the arrival time does not differ appreciably, either before or after, from the last signalled ETA sent by the ship and received at the Terminal, and
(g) that the vessel has been nominated to load.

When a Liquid Petroleum Gas tanker does arrive whilst the port is closed, the Notice of Readiness will be accepted at the time of the opening of the port, subject to provisos (b), (c), (d), (e), (f), and (g).

The N.O.R. of an LPG loader arriving on a Friday or on an official holiday, or during the aforesaid night hours, will be accepted at 06.00 hours (local time) on the first subsequent working day, subject to provisos (a), (d), (e), (f) and (g).

An LPG tanker arriving on the same day as an LPG tanker scheduled to load under a LINOC contract, or whose loading would clash with an LPG tanker scheduled to load under a LINOC contract, will have its N.O.R. accepted on the completion of hose connection, subject to provisos (e) and (f).

PILOTAGE: Es Zueitina Terminal is situated on the Libyan coast, in the Gulf of Sirte, 72 miles distant from Benghazi. The terminal sea buoy, painted black and white vertical stripes and at night showing one flash (white) every 10 seconds, is located in position Lat. 30° 55′ 39″ N. Long 19° 58′ 00″ E. A radio tower, in position Lat. 30° 49′ 57.6″ N. Long. 20° 03′ 05.6″ E., the height of which is 451.5 ft. above sea level, is a prominent landmark. It displays at night three red lights in a vertical line, the top light flashing, the lower two fixed.

A Mooring Master will board the vessel in the close vicinity of terminal Light float and advise Master on all manoeuvres relative to berthing, connecting and disconnecting the hoses.

Vessels of 40,000 d.w.t. and upwards which are not fitted with a mechanical pilot hoist should have a pilot ladder long enough to reach the Mooring Master's launch rigged alongside the accommodation ladder, in such a manner that the Mooring Master can transfer to the accommodation ladder when about 10 ft. from sea level. Ladders must be strong, clean, and in good state of repair and well secured. A good lee should be made, to allow the launch to come alongside the Mooring Master to board safely. (Note: Ships which have been instructed to berth at the S.P.M's, and need to take aboard the Company's gear, should have the ladder(s) rigged on the port side, and give a lee on that side, in order that they may take it aboard from the Mooring Master's launch with the working derrick as soon as the Mooring Master has boarded.)

ANCHORAGE: Vessels awaiting the Mooring Master should heave to in the close vicinity of the Terminal Light float. If they are obliged, or instructed to anchor, they should do so in the recommended anchorage, which is within the radius of a circle centred in position Lat. 30° 55′ N., Long. 20° 01′ E. Under no circumstances should they anchor South of the 30° 54′ 00″ parallel. Whilst at anchor, they should exercise the utmost vigilance, and should keep in VHF radio-telephone with the Terminal at all times. If heavy weather necessitates them heaving up anchor and proceeding to sea, Zueitina Marine must be informed accordingly.

RADIO: Cable Address: OXYPORT OXYLIBYA TRIPOLILIBYA (via Tripoli Radio) OXYOIL LONDON (via Portishead Radio). 72 hours prior to arrival at Zueitina, Masters should advise the Company of their vessels' ETA, by cables sent both via Tripoli and via Portishead Radio to the addresses given above. They should subsequently confirm or amend them when they are 48 hours and again when they are 24 hours distant from the Port.

(Cables to Agents advising of ETAs should be sent in addition to, and *not* in place of, those sent to OXYPORT, TRIPOLI and OXYOIL, LONDON.)

Note: Where a ship fails to comply with the requirements detailed in the above, "Occidental of Libya, Inc." will not accept responsibility for any delays which may occur in consequence of such failure.

Cables should include the quantity and grade of cargo to be loaded, the last port of call and destination, Bill of Health status and details of any sickness on board. Estimated times of arrival should be given in GMT. (Libyan Standard Time is GMT plus 2 hours.).

Masters of vessels equipped with VHF radio-telephones should contact Zueitina Marine on Channel 13 or Channel 16 when within range, and give a firm calculated time of arrival at the Zueitina Light float. They should also again inform Zueitina Marine duty officer of the quantity and grade of cargo required, the last port and the destination. They should confirm that they have in their possession a certificate of discharge for the last cargo loaded into their ships in Zueitina or, in cases of ships arriving in Zueitina for the first time, that they have ready for the Ministry of Petroleum a letter which certifies that the cargo which they are about to load will not be discharged in any country against which the Arab Oil Embargo extends. In vessels paying their first visit to the Terminal, Masters should also inform the duty officer of the size and type of the manifold connections (i.e. 12″ A.S.A., or 10″ European, etc), and whether or not they have on board heavy wires and shackles for mooring at the mono-buoys.

(N.B. It is important that all ships arriving at Zueitina are fitted with VHF radio-telephones, capable of operating on the main working channels. Without VHF communications, Zueitina Marine cannot always know with accuracy a vessel's arrival time, for instance, and as a result that vessel might well lose its loading turn and be subjected to an appreciable – and, with VHF, avoidable – delay in consequence.)

HEALTH: Pratique will be granted by the Custom's official. He will examine the ship's logbook, and will inspect and seal the bonded storerooms.

TUGS: No tugs available to assist berthing.

BERTHING: The sea terminal consists of five berths, two of which – "Bravo" and "Delta" – are conventional buoy moorings, and the others – "Alpha" "Charlie" and "Echo" – are "single-point moorings", or "mono-buoys". Conventional buoy moorings "Bravo" and "Delta" are approximately 2.5 miles off shore, with an average depth of 70 and 80 ft. respectively. 42 in. (ID) submarine lines connect the berths to the shore installations. Two 12 in. hoses connect the header at the end of the submarine line to the ship's manifold. They are invariably taken up on the port side. The weight to be lifted on each string is approximately 7 tons.

Single-point Moorings "Alpha", "Charlie" and "Echo" are all approximately 3 miles offshore, in an average depth of 100 ft. of water. As in the conventional buoy berths, the hoses are always taken up on the port side, and the connection to the ship's manifold is by a 12 in. ASA flange. The weight of each string to be lifted is approximately 7 tons.

Single-point Moorings. The "Mono-buoy" is a large cylindrical buoy (weight 106 tons), divided by steel bulkheads into four watertight compartments, through the centre of which emerges the loading hose. The perimeter of the buoy, to which the buoy-to-ship moorings are attached, is a turntable which revolves on bogies round the centre – hose-supporting – section, in such a manner that the vessel berthed on the buoy will always lie head to wind. The minimum depth of water within the swinging radius of the largest ship envisaged at the buoy is approximately 95 ft.

To the mono-buoy are attached two 150-feet long, 14-inches circumference, braided nylon ropes, each with a minimum breaking strain of 263 tons; they are wound round each other and the eyes at each end are shackled together so that they form a composite mooring of immense strength. To the seaward end of this composite line is attached a 15-feet length of 2.375-inch section chain cable, buoyed, to prevent it sinking with the ropes. The other end of the chain cable is made fast to the "approach rope", a (300-feet length of 10-inch circumference plaited polypropylene, which, when not in use is allowed to float out from the buoy.

The ship approaches the buoy from downwind, taking care to keep the wind right ahead. (Adequate ballast should be retained aboard to provide manoeuvrability.) When sufficiently close, the crew will lower to the waiting mooring launch the end of a good mooring rope, to the eye of which has been attached a stout nylon lashing. This mooring rope should be passed out through a central panama lead, if a suitable one exists, or over a fairlead on the port bow. Meanwhile, two heavy 5.5-inch circumference flexible steel slip wires have been made fast in readiness – one on each bow, if the line is being hove through a central panama lead, both on the port side (and preferably on different sets of bitts) if the port fairlead is being used – in such a manner that there is an adequate number of turns around the bitts and that the end of the eye reaches to approximately ten feet from the lead. When the chain comes aboard, it is quickly secured to the wires by two 150 tons B.S. shackles, which are bolted through the open links in the chain. The strain on the approach rope (which had followed the ship's rope round the drum-end of the windlass) is now released, and the weight allowed to come on to the wires, shackles chain, and buoy composite: the approach rope is then "turned-up" as an additional mooring and the ship is now all fast in the berth. Ship's tension wires, or other mooring lines, should also be shackled or lashed to the chain, for added security.

It is the intention of the Terminal authorities to ultimately replace the composite mooring rope with a 150-feet length of chain cable, supported in polyurethane buoyancy collars. Such form of mooring has been installed in "Echo" berth. The method of berthing at "Echo", however, is no different to that described above.

When leaving the berth, the ship's additional moorings are first detached from the chain, any slack which is in the approach rope is taken in and that rope made fast very securely. The slip wires are then paid out slowly and carefully until the strain comes on to the approach rope. (When strong winds have tightened the mooring, it will probably be necessary to put the engine slow ahead before attempting to do this). The shackles can then be taken adrift, freeing the wires, and the approach rope slacked off until the chain reaches the water – care being taken to ensure that it is not allowed to fall across the hoses. The engine is then put astern, and the rope allowed to pay out easily (with half a turn around the bitts to stretch it clear) as the ship leaves the buoy.

Loading. Rate of loading is between 32,000 and 50,000 b.p.h.

Conventional Buoy Moorings. In berths "Bravo" and "Delta" the ship is berthed with two anchors ahead and seven mooring lines to buoys round the stern and quarters. In addition, to all buoys except No. 4 (right astern) there are attached 5.5" circumference steel wires, laid on the sea bed, buoyed, when not in use — in all but the most settled weather these are brought into the ship by the mooring launch, hove up and made fast on board. Vessels should have ready a good 3.5" rope messenger to take up these wires, and strong chain stoppers, or "carpenter's stoppers", for use when securing them.

Three good mooring lines should be ready on the after end of the main deck, two of which have been securely married in readiness to be sent away first, to warp the ship round. At least seven good ropes should be ready for running out from the poop, with lashings ready in case one rope has to be married to another. Plaited polypropylene ropes, at least 120 fathoms long and of a diameter and strength appropriate to the size of the vessel, are recommended: large manilla ropes, slow and cumbersome to handle, are definitely unsuitable for berthing under these conditions.

Synthetic ropes on automatic winches are favoured in this port, but it is recommended that they be at least 150, and preferably 200, fathoms long. These winches must be capable of being firmly locked when in the moorings — any tension feature is not permissible.

When it has been necessary to slip moorings in order to leave the berth quickly and without the assistance of the mooring launches, the Company will make every effort to recover them and to return them to the vessel as soon as possible. Normally the Company makes no charge for recovering anchors and moorings, but it reserves the right to do so under exceptional circumstances.

In the conventional buoy moorings, in order that ships may be securely moored against beam winds and the chain sufficient leading ahead to ride out heavy swells, we recommend that they be equipped with ample chain on both bower anchors. Experience gained in sea berths suggests that the chain required should be more than the length of the ship. In vessels of 100,000 d.w.t., for which the berths were designed, we recommend that there should be 14 shackles (1,260 ft.) of chain on each anchor. A minimum acceptable amount of chain is 150 fathoms (10 shackles) for the safety of the ship and the company's installations. Anchor marker buoys should be used.

HOSES: The lifting, lowering, connecting and disconnecting of the cargo hoses will be done by the tanker's personnel in accordance with the advice and directions of the Mooring Master. Ship's derricks and deck winches should be capable of operating with a safe working load of 7.5 tons and preferably 10 tons. Vessels with inadequate hose-lifting equipment will be rejected. All derricks should be fitted with "preventer-guys" in addition to normal guy tackles. The port derrick must be rigged and ready for use on arrival. In addition ships leaving SPM should have the starboard derrick ready, too, in order to facilitate the discharge of the mooring gear on the lee side.

LOADING: *Occidental crude oils and debutanized condensate:* The principal cargo loaded at Es Zueitina Terminal is Occidental Field Blended Crude Oil, pumped in from the Company's wells, two hundred and twelve kilometres inland, but in addition certain other grades of Crude Oil are loaded, namely, Occidental Medium Crude, Occidental Premium Crude, and Occidental Debutanized (Stabilized) Condensate. Also loaded are Liquid Petroleum Gas products, Butane and Propane (LPG), and "Agip" Buattifel Crude Oil, from the wells of Agnezia Generale Italiana Petroli, in concession 100.

The following pertinent data will, we believe, be of interest to tanker owners and operators, Masters and Mates, and to refinery operatives in the discharging ports:-

Occidental Field Blend
Average A.P.I. 39.5
Average Specific Gravity 0.8275
Pourpoint +35
Reid Water Vapour Pressure +5.2 p.s.i. at 100° Fah.
H_2S less than 5 p p m.
Flash Point below 60° Fah.
Average loading temperature on board 108° Fah.
Barrels per long ton at 60° Fah. 7.741

Occidental Medium Blend
Average A.P.I. 36
Average Specific Gravity 0.8448
Pourpoint +85
Reid Water Vapour Pressure +5.0 p.s.i. at 100° Fah.
H_2S less than 5 p p m
Flash Point below 60° Fah.
Average loading temperature on board 98° Fah.
Barrels per long ton at 60° Fah. 7.582

Occidental Premium Crude
Average A.P.I. 43.5
Average Specific Gravity 0.8086
Pourpoint +30
Reid Water Vapour Pressure +5.6 p.s.i. at 100° Fah.
H_2S less than 5 p p m
Flash Point less than 60° Fah.
Average loading temperature on board 108° Fah.
Barrels per long ton at 60° Fah. 7.922

Occidental Debutanized (stabilized) Condensate and Debutanized Condensate:
Average A.P.I. 79.5
Average Specific Gravity 0.6706
Pourpoint −60° Fah.
Reid Water Vapour Pressure 11.0 p.s.i. at 100° Fah.
H_2S less than 1 p p m
Flash Point less than 0° Fah.
Average loading temperature on board 75° Fah.
Barrels per long ton at 60° Fah. 9.555

The grades of cargoes to be loaded will affect the berthing schedule, irrespective of the chronological sequence of vessels' arrival times.

It is recommended that vessels take the maximum flow with due regard to safety, in order to both expedite the turn-round time and to obtain a ballast to counteract the possible effect of local winds which frequently spring up with little warning.

Care must be taken not to overload, as there is no provision whatsoever for cargo once loaded to be pumped back ashore.

Warning is given of the danger of closing hoses against an incoming oil flow. Such a procedure may create excessive pressures which result in damage to loading hoses, sea lines, and other Terminal equipment. Vessels which ignore this warning and do in consequence cause such damage will be held responsible for all costs incurred for the renewal or restoration of the damaged equipment.

The attention of Masters is drawn to Safety Precautions, wherein they are reminded of their responsibilities for ensuring that all persons aboard their ships are cognizant with the hazards involved in the loading operations, and with the need for strict observance at all times of the Fire and Safety Rules. Debutanized Condensate, in particular, is a highly volatile fluid which must be treated with the utmost prudence.

(N.B. particulars of cargoes included in the foregoing are for information only and do not constitute a guarantee of quality.).

Loading – A.G.I.P "Buattifel" Crude: Because of its high wax content – 37% – A.G.I.P. "Buattifel" Crude Oil, (hereafter referred to as "Agip") has to be maintained at a very high temperature throughout its entire transit from the wells to the Terminal system, and thence via the sea lines to the berth and the loading vessel: it will arrive on board at approximately 140° Fah., and the heating coils in the cargo compartments must be motivated in readiness and be capable of keeping the oil at above this temperature.

Two berths "Bravo" and "Charlie", have been modified for the loading of Agip cargoes – ships may be moored in either of these berths but because of the considerable heating problem involved only one of the berths at a time can be used for loading Agip cargo. Through the submarine lines to "Bravo" and "Charlie" central "gut" lines have been inserted – at "Charlie" berth where the sea line is 48 inches diameter, the gut line is of 18 inches diameter, and at "Bravo" – sea line 42 inches diameter – the diameter of the gut line is 16 inches. These two gut lines (which are, of course, tied in ashore with the Terminal tank and metering and pumping complex) terminate twenty feet from the headers at the seaward ends of the sea lines. The area between the outside of the gut line and the interior wall of the sea line is called the "annulus". To the headers (from which emanate the strings of flexible hoses which are ultimately bolted to the ship's manifold connections) are fitted remote control hydraulic valves, operative from the loading station within the Terminal.

Immediately prior to the berthing of the prospective Agip loading ship, hot Occidental crude oil is circulated from its storage tank, through the gut line, and back through the annulus, heating the entire system. Once the ship is securely moored, preparations are made to replace the hot "Oxy" oil with hot Agip oil. (60,000 barrels is the full line content at "Charlie", 33,600 barrels at "Bravo"). This process will take about four hours, and ship and shore must work in conjunction to ensure that the deballasting and the recirculation of the line with hot Agip oil are completed at about the same time. This is of vital importance, for once the line system is filled with hot Agip cargo it cannot remain in circulation for more than one hour. If the ship is not then ready to receive it, the Agip oil must be replaced by Oxy oil, and only after this has been circulated round the line can the line be again replenished with another circulation of Agip oil. This entire process may take about twelve hours – a wastage of time which neither the Terminal nor the ship operators can afford to contemplate with unconcern.

When ship and shore are ready to begin loading, the remote control valves are opened and, at a very slow rate, the cold Oxy oil which has been in the flexible hoses is loaded – 1,500 barrels at "Charlie", 300 barrels at "Bravo".

At this point, the loading officer in the ship will transfer the cargo to other tanks to avoid intermingling of the two types of crude, for now hot Agip is entering the ship's system, from the gut line. Loading continues at a slow rate until the contents of the gut line – 6,000 barrels at "Charlie", 3,600 at "Bravo" – have been pumped into the ship, after which the loading of the Agip, at normal rate, is through the annulus only. (The gut line is, at this point, filled with Oxy oil, which will remain static throughout the loading of the Agip cargo).

With about 2,000 barrels of Agip cargo to go to completion, loading is stopped in order that the ship's loading officer may check his ullages and calculations. When, in "Bravo" there are 300 barrels to go, in "Charlie" 1,500 barrels, loading is again stopped briefly: this marks the completion ashore of Agip cargo being pumped into the circuit. Now the Oxy oil in the gut line is pumped into the flexible hose strings, so that when the required quantity of Agip oil has been loaded into the vessels, the hose strings – from the headers to the terminal flanges, disconnected from the manifold – are filled with Occidental crude oil, which will not solidify whilst the hoses lie dormant under the sea. Similarly, the Agip crude oil in the annulus of the sea line is pumped back into the tank ashore and replaced throughout the system by Occidental crude.

The foregoing explanation pertains to vessels loading Agip cargo only, taking the minimum essential Occidental oil solely as a line flush. If, however, a ship requires a part cargo of Occidental crude, it will load that after completing the Agip cargo, except for that small quantity used as the line flush at the commencement.

A.G.I.P. "Buattifel" Crude, particulars:-
Average A.P.I. 41.0 at 60° Fah.
Average Specific Gravity 0.806
Wax Content 37%
Pourpoint +95
H_2S 0
Flash Point 68° Fah. (ABEL)
Average Loading Temperature on board 140° Fah. to 150° Fah.
Barrels per Long Ton 7.9 (approximate)

(N.B. The above data is for information only and does not constitute a guarantee of quality).

LPG LOADING BERTH: *Berth, location and nature:* The LPG loading berth is S.S.W. of the Small Craft Harbour, inside Tre Scogli reef. It is designed for vessels of approximately 600 feet in length, with a cargo capacity of 25,000 cubic metres. The maximum loaded draft permissible is 28 feet. Because of the location of the dolphins, the minimum length of ship which can be accepted is 290 feet with a minimum distance from manifold connection to extremity of stern of 155 feet. The channel through the reef is indicated by a P.E.L. leading light, clearly visible both by day and by night.

The berth comprises a loading platform and control tower, with a breasting dolphin 125 feet on each side of the loading point. There are four mooring buoys, one on each bow and one on each quarter: the length between them is 1,090 feet, and the thwartship distance is 315 feet. In addition, there are two mooring dolphins, 190 feet each side of the loading point and 135 feet from the centre line of the berth. Ships approaching the berth swing round on the port anchor and about six shackles of chain – when moored alongside the anchor chain is hove tight, and a swamp mooring taken up on the port quarter. The berth heading is 285 (T).

The loading platform is of structural steel, supported on concrete piles. From the control tower, two Continental Emsco Cema Type 11 loading arms are operated – one for liquid petroleum gas and one for vapour return. The flanges for connection to the ship's manifolds are 12" A.S.A.

Such is the location of the berth – fully exposed to winds from most directions but sometimes protected partially by the reef from the worst effects of the swell – that on occasions LPG tankers can be berthed when conditions do not permit mooring operations at the crude oil berths. And vice versa. Consequently, with regard to Port Closure Time, the LPG berth is regarded as a separate entity from the main harbour.

Arrival: On first contacting Zueitina Marine by VHF (Ch. 13 or 16) the Master of an LPG tanker should, in addition to giving his ETA at the Terminal Light float, inform Zueitina Marine of his last port, the intended port of discharge after leaving Zueitina, the quantity and grade of cargo required, the temperature at which he wishes the cargo to be loaded, the size of the ship's manifold connections, and whether or not he requires a return vapour line to be connected.

Loading: For a ship which needs tank purging and cooling prior to loading, the minimum rate will be approximately 100 barrels per hour. Inert gas is not provided at Zueitina Terminal – the vessel must provide inert gas for purging after previous cargoes other than butane or propane. The ship will not be loaded until the air has been purged to a maximum oxygen content of 5%. When loading has commenced, the minimum rate permitted by the Libyan Ministry of Petroleum is 1,500 barrels per hour. The maximum rate available is between 6,000 and 7,000 barrels per hour. For "topping off", the rate can, within these limits, be adjusted to the requirements of the loading officer. Arrangements can be made in advance for the LPG plant to stop loading when the desired quantity has been metered into the ship, or alternatively, the ship's loading officer can instruct the Terminal to stop loading when he sees that the correct amount has been received aboard.

Loading operations on board are the responsibility of the ship's personnel. The Master's attention is particularly drawn to the Terms of Acceptance as detailed in the "Tanker Loading Advice" letter which he has signed, and to the "Zueitina Marine Terminal, Fire and Safety Rules".

The loading platform – abreast of the ship's manifold and within easy hailing distance – is manned at all times during loading operations, and the ship *must* maintain a continuous verbal contact with the loading operative. In addition, VHF contact between ship and loading installations must be maintained on Channel 12. In the event of any emergency – fire, leakage, parting of moorings, etcetera – the operative on the platform can stop the loading by remote control.

Unberthing in bad weather: Should deteriorating weather conditions necessitate the vessel leaving the berth quickly, a Mooring Master will be speedily available at all hours.

Cargo Particulars: The following data will, we believe, be of interest to Masters and Mates and operators of vessels loading LPG products:-

Propane
Average A.P.I. 146
Average Specific Gravity 0.510
Reid Vapour Pressure 175 p.s.i.g.
Free Water nil
Copper Strip Corrosion 1a
Flash Point less than 0° Fah.
Average Loading Temperature −43° Fah. (−42° Cent.)
Barrels per Metric Ton at 60° Fah. 12.3 (approx).

Butane
Average A.P.I. 114.2
Average Specific Gravity 0.576
Reid Vapour Pressure 48 p.s.i.g
Free Water Nil
Copper Strip Corrosion 1a
Flash Point less than 0° Fah.
Loading Temperature At Ship's Request, within Ranges +15° Fah. (−10° Cent.) to +45° Fah. (+7° Cent.)
Barrels per Metric ton at 60° Fah. 10.8 (approx.)

(N.B. The foregoing data is intended for information only, and does not constitute a guarantee of quality.)

Departure: Immediately after completion of loading, the manifold connections are unbolted and the loading arms retracted. Shortly afterwards the Mooring Master will board and, with the assistance of adequate mooring boats, unberth the ship and pilot it through the reef to a safe anchorage in the outer harbour before disembarking.

When the documents pertaining to the ship's loading have been completed ashore, a clerk will take them out to the ship. (On occasions he will be accompanied by a customs official, boarding the ship to ensure that the seals which were put on bonded storerooms on arrival have not been tampered with before the ship has left Libyan territorial water.) It is customary for Zueitina Marine to inform the ship's Master when the documents clerk leaves the Small Craft Harbour, so that the anchor may be hove up and a lee side presented to the launch.

After the documentation formalities have been completed on board, the Master is required to pass by VHF to Zueitina Marine the official sailing time of his ship.

MEDICAL: Medical facilities are restricted to treatment of emergency cases only.

FRESH WATER: No fresh water available.

FUEL: No bunkers available.

REPAIRS: There are no engineering repair shops.

REPATRIATION: Only in an emergency can any crew member be paid off. Seamen's discharge books are not recognised in Libya. Crew members are advised to have a valid passport in their possession in case of emergency.

CUSTOMS ALLOWANCES: Each member of the crew is allowed 25 cigarettes, or 25 grammes of tobacco, one litre of beer, or half a litre of wine, for every day of the ship's stay in port. Other tobacco and cigarettes, wines, beers and spirits, as well as matches, arms and ammunition, and saccharine, must be locked under seal from the time of arrival until the time of departure from territorial waters.

CONSULS: There are consulates in Benghazi for most of the maritime nations. Those nations not represented in Benghazi are represented in Tripoli.

BALLAST: Because of the exposed position of our sea berths, it is essential that vessels arrive with sufficient ballast for safe handling, having due regard to existing weather and sea conditions. Experience has shown that a fair estimate of the amount required is one third of the summer deadweight. A tanker found by the Mooring Master to be insufficiently ballasted will be rejected. However, it is imperative for the safety of the ship and of the installation that deballasting should be as speedy as possible, to reduce the period wherein the ship is most vulnerable to any sudden deterioration in the weather. It is, indeed, to the advantage of everyone concerned if the ship is able to commence loading as soon as the hoses are connected, deballasting simultaneous with the loading of the cargo. In cases when it is essential to complete the deballasting before loading can start, and deballasting time in excess of six hours will be deducted from the lay time.

As there are at Zueitina no facilities for discharging it ashore, vessels must arrive at the Terminal with clean ballast: all lines, pumps, and strainers must have been flushed out prior to arrival within one hundred miles of the Libyan coastline.

The Mooring Master will inspect ship's ballast on boarding, and he has the power to reject any vessel that he deems would cause pollution in the Terminal waters. A vessel so rejected must proceed to a position over one hundred miles from the coast, re-ballast, and return only when the ballast is completely clean. A new notice of readiness must then be tended, and the loading turn will be counted as from this second arrival.

The sea area round the ship shall be adequately lighted, as frequent inspection by the Mooring Master will be made during ballast discharge. Any pollution whatever, including bilge discharge, will be cause for rejection. Similarly, any hull leaks causing pollution during loading will be cause for rejection – a vessel rejected on these grounds will not be re-accepted until satisfactory evidence of repairs has been certified by a qualified surveyor.

On completion of deballasting, all unused cargo connections must be blanked off, sea valves closed and lashed, deck scuppers securely plugged, and drip pans placed below the cargo hose connections. All the requirements listed on the Company's Safety and Fire Precautions Check Form must be seen to be complied with before loading is commenced.

In the event that the Company has to settle any third party claims as a result of damage to property caused by pollution attributable in any way to a vessel, the Company will have the right to reimbursement by those responsible for the vessel for all expenses incurred.

WEATHER: Weather conditions in Zueitina are generally clement. The temperature during the Winter seldom falls below 10° C. (50° Fah.), and in the Summer, even at midday, is rarely in excess of 35° C. (95° Fah.). The prevailing winds are North-Westerly. During the mid-Summer months, the land-and sea-breezes phenomenon is very apparent: a North-Westerly wind springs up at about 1100 hrs. sometimes to reach near-gale force by late afternoon, then gradually dying away during the evening. At about 2300 hrs. the wind begins to blow off the land – again sometimes to a fresh breeze or near-gale – before falling away completely around dawn.

During the Spring and Autumn, and in the early Winter months, there are frequent prolonged periods of calm, tranquil weather. However, in Spring especially, and again in the Autumn, such periods may be interrupted by the onset of the "gibli", an off-shore wind which, like the "khamsin" wind in Egypt, springs up with little warning to reach gale intensity, laden with sand and dust to such an extent that visibility is reduced to a few yards.

In the Winter months, prolonged periods of strong North-Westerly gales, with very heavy seas and high swells, accompanied by frequent rain squalls, are experienced. Even after the strong winds have subsided, long, high swells may continue for several hours to prevent mooring operations. Such North-Westerly gales are usually accompanied by a sharply rising barometer, and follow the passing of a cold front, with winds from the West.

Rainfall is confined to the Winter months only. Fog is rare, though it does occasionally occur in the Spring and Summer around dawn, generally dissipating after two or three hours.

GENERAL: Vessels are advised not to have on board any articles whatsoever of Israeli origin. All ships must fly the Libyan flag when inside Libyan territorial waters. Being an open roadstead, vessels must keep engines on stand-by during their stay in the moorings. No repairs to main engine may be undertaken in berth. Steam must be kept on deck in case adjustments to anchor cables or mooring lines are found necessary. Ship's boats must not be lowered into the sea and detached from the falls. Swimming is prohibited. The Mooring Master will remain onboard during vessels stay in port and should be provided with suitable accommodation and adequate meals.

SHORE LEAVE: No shore leave is permitted.

AUTHORITY: Occidental of Libya Inc.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Madeira

FUNCHAL: 32.38 N. 16.55 W. (See Plan)

DOCUMENTS:

Maritime Declaration of Health Form.
5 Crew Lists.
12 Lists of Passengers finally landing.
5 Lists of Passengers in transit.
1 List of Stores and Provisions, including Deck and Engine Stores.
1 List of Contents of shops on board.
6 Copies of Manifest of Cargo for discharge.
2 Copies of each B/Lading of Cargo for discharge.
1 Copy of Manifest of Cargo in Transit.
1 List of Passengers finally landing, visaed by Portuguese Consul at original port.

All other entry and clearance documents are arranged by the Agents.

PILOTAGE: Vessels should radio their ETA to Agents who order Pilot. 24 hours notice requested. Pilot launch flies "H" flag during day. Exhibits bright white light over red at night. To request Pilot on approach by day fly international "G" flag, or give 2 long and 1 short blast on whistle. At night flash 2 long 1 short. For vessels berthing alongside Pilot boards in bay; for vessels anchoring Pilot does not board but pilot launch indicates where vessel should anchor. Pilot boat equipped with radio telephone on 2182 and 2341 kHz.

Also VHF, Channel 16 (calling) and Channel 6 (working).

ANCHORAGE: Permitted anchorage within 800/900 m. East from end of breakwater or 300/500 m. South of breakwater within a limit of 400 m. from shore.

RESTRICTIONS: None.

SIZE OF VESSEL: No limit to size of vessels which can anchor, but all anchorage positions should be indicated by pilot launch. For vessels berthing alongside quay max. permissible length 990 ft. max. draft 36 ft. Oil carriers discharge at buoys at Praia Formosa 3 miles to West of Funchal. Max. length of oil tankers than can berth at oil discharge buoys 665 ft. max. draft 36 ft.

HEALTH: Free Pratique may be arranged by Master sending wireless message addressed "Port Doctor Funchal" – "Request free pratique arriving . . . from . . . sailing to . . . number passengers . . . landing . . . number passengers in transit . . . number of crew . . . all well. Master."

In event suspected disease or fever on board Master should wireless either Port Doctor direct or to ship's Agents, who will inform Port Doctor. The Master will then be instructed what further action he is to take.

When vessel other than of national flag arrives after calling at another port in same country usual procedure applies, i.e. Masters' radio for free pratique or pratique granted by Doctor visiting in bay.

RADIO: Maderia Radio Station call sign CUB 500 k/cs. Same station normally used by Agent when communicating with vessel.

TUGS: Two tugs each of 1,000 /1,100 h.p. – bollard pull 18 tons – are available.

N.B. Vessels up to 2,000 gross tons are not obliged to use tugs.

Vessels of between 2,000 and 15,000 gross tons are obliged to use one tug.

Vessels over 15,000 gross tons are obliged to use two tugs.

BERTHING:

Quay No. 1 Length 139 m., depth 6 m.
Length 41 m., depth 7 m.
Length 19 m., depth 8.5 m.
Quay No. 2 Length 425 m., depth 11 m.
Quay No. 3 Length 347 m., depth 11 m.

STEVEDORES: When ships require labour, Agents must be notified before 1600 hrs. on working days and on Sundays and holidays before 1100 hrs., after these hours labour not available for last minute engagement. On Christmas Eve work stops at noon even if ships loading or discharging. No labour available Christmas Day, New Year's Day or Easter Sunday.

Grain cargoes can only be worked from 0800 hrs. to 2000 hrs. daily including Sundays, and a maximum of 4 gangs only can be worked simultaneously.

Bulk cargoes such as potash and fertilizers need to be bagged on board. Receivers supplying the bags – and this generally applies to grain. Bulk cement, clinker and granulated plaster is discharged by grabs.

MEDICAL: Advance notice is required by Agents for any medical attention required. Hospital facilities available. No inoculations required.

TANKERS: Diameter of connection of discharge lines 8 in. into pipe-lines of 12 in. diameter for black fuel and 10 in. diameter for white fuel. 1 anchorage buoy berth with max. draft of 36 ft.

DENSITY: Salt water.

FRESH WATER: Available at anchorage and ex quay.

Three barges available, with total capacity of 450 tons. Delivery hoses ex barge or ex quay are of 2.5 in. diameter, and there are nozzles of various sizes. Rate of delivery ex barge – 50 t.p.h. per barge. Delivery ex quay, said to be about 60 tons per lead per hour, but this can be slow, according to the number of ships being supplied, and the amount of water in the city storage tanks and may require to be supplemented ex barge in case of big quantities or supplies required within limited time.

FUEL: Fuel oil available from 3,500 seconds Redwood 1 to 200 seconds Redwood 1. Also marine diesel and gas oil. 12 hours (min. notice) required.

FIRE PRECAUTIONS: At discharging buoys usual non-smoking precautions.

GANGWAY/DECK WATCHMEN: Gangway watchmen recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCES: Tobacco, Wine and Spirits: Moderate supplies allowed for personal use during ship's stay.

CARGO GEAR: No specific local safety regulations. Vessels discharging must provide strops, slings and nets. Lifts over five tons must be effected by ships gear.

8 mobile cranes are available.
1 crane – 6 tons at 12 m., 3 tons at 24 m.
3 cranes – 5 tons at 20 m.
3 cranes – 3 tons at 12 m.
1 crane – 15 tons at 13 m.

A floating crane is available which can lift up to 27 tons from the water line up to 8 m. This same crane can lift up to 20 tons from the water line to 12 m.

IDENTIFICATION CARDS: Required.

CONSULS:

Austria	21057	W. Germany	20338	Peru	21375
Belgium	20255	Greece	20824	Spain	20535
Brazil	20355	Guatemala	20824	Sweden	20121
Costa Rica	24888	Holland	20317	Switzerland	22101
Denmark	22031	Italy	23890	United Kingdom	21221
Dominica	21057	Monaco	20041	United States	23309
Finland	20596	Norway	20541	Uruguay	20535
France	21445	Panama	20091	Venezuela	24050

REPAIRS: Repair yard available which can carry out most engine repairs on board except removing or replacing main engines. Hull work limited to removing riveting or replacing hull plates above water line, electric and oxy-acetylene welding. Most electrical work can be effected but notice required in regard to materials necessary. Foundry where castings can be made up to one ton weight.

DRY DOCKS: None.

REPATRIATION: Limited facilities for crew changes. Necessary repatriations can be made.

AIRPORT: At Santa Cruz, 20 km. East of Funchal. Service between Funchal and Lisbon operated by national airline TAP, 19 flights weekly Funchal/Lisbon/Funchal.

TIME: GMT maintained throughout year.

HOLIDAYS: New Year's Day (totally unworkable); Easter Sunday (totally unworkable); Municipal Holiday (local) (workable, 50% overtime); Camoes Day (workable, 50% overtime); Corpus Christi (workable, 50% overtime); The Assumption (workable, 50% overtime); Proclamation of the Republic (workable, 50% overtime); All Saints (workable, 50% overtime); Independence of Portugal (workable, 50% overtime); The Immaculate Conception (workable, 50% overtime); Christmas (totally unworkable).

Workers' Day, Portugal Day and Good Friday are also totally unworkable.

Saturday is an ordinary working day. December 24 (workable up to 1500 hrs. only).

POLICE/AMBULANCE/FIRE: Police 22022; Ambulance 22122; Fire 21163.

SHORE LEAVE: All crew visiting shore must be in possession of special Landing Card, plus Identity Cards, Discharge Books or Passports, which must be shown to Immigration Officer at gangway. Crew Landing Cards must be stamped by Immigration Officer before crew can proceed ashore.

DEVELOPMENTS: The Port Authority expect to start construction of new jetties in 1976 with completion of the first phase in September 1978.

Phase 1: Construction of 290 m. of berthing space, depth 6–8 m.
Phase 2: Two roll-on/roll-off berths, length 270 m. and 170 m.
Phase 3: Construction of a Marina.

AUTHORITY: Capitania do Porto.

Malagasy Republic

DIEGO SUAREZ: 12.12 S. 49.19 E.

Shipmaster's Report (Survey vessel): July, 1975.

DOCUMENTS:

Documentation on Arrival:

Malagasy Customs require:
- 2 Crew Lists.
- 1 Copy Personnel Manifest (any form will do).
- 1 Nil Cargo Return.
- 1 Bonded Stores List.

Immigration/Police:
- 2 Crew Lists.
- Inspect all Discharge Books and Passports.
- An undertaking that all men will carry their Identification when ashore.

Port Health:
- 2 Crew Lists.
- 3 Vaccination and Inoculation lists very carefully inspected.
- 2 Copies of their own Maritime Health Declaration Form, copy of which becomes Inward Clearance, after stamping ashore.

Agents:
- 2 Crew Lists.
- Ship's register to lodge ashore.

Documentation on Departure:

A gentleman from the Port Junta visits in plain clothes with the Agent and will wish to see:
- Cargo Ship Safety Construction Certificate.
- Safety Equipment Certificate.
- Safety Equipment Record of Inspection Certificate.
- Safety Radio Certificate.
- Load Line Certificate.
- Ships Register (held by the Agent).

After checking all these an Outward Clearance Certificate will be presented. One is then free to leave the Port, the Agent having given an undertaking that all Port dues have been paid.

APPROACHES/PILOTAGE: Tides run fast in the Orangea Pass, but seem to follow the pattern as per the Admiralty Pilot. Until experience is gained it should only be taken in the hours of daylight. There are numerous natural-transit marks available to the navigator, all very clearly described in the 'Pilot'. For this reason it would be essential to take this in fine visibility. Pilots can be taken at Cape Mine but this can be difficult and dangerous in the S.E. Trade season and ships are advised that they can proceed on into the Bay right up to Port Antsirana Point.

ANCHORAGE: There are many splendid anchorages available in this vast Bay. Vessel anchored 2 cables off the N.W. corner of the wharf at Antsirana, to conduct formalities for Customs, etc.

RADIO: Tananarive Radio handles HF traffic and Diego Suarez can handle MF and VHF. English is not understood. Port Antsirana Pilots are available spasmodically on Channel 16.

BERTHING: Good modern berthing, plenty of tugs. 1 pier only about 1,500 ft. long operated by SCOM. Not actually used by vessel which went straight into the Dry Dock.

FRESH WATER: Good quality water available at the Pier and at the Dry Dock. No water barge.

FUEL: It appears that they like to have at least a week's notice. Gas oil is available through the Agent or through Shell. There is a bunker barge but this can be unreliable unless several week's warning is given. Bunker available by bowser and pipe-line at the main wharf.

We were unable to find any lubricating oil at all. Several weeks warning is necessary. All fuels and oils should be ordered through London.

MEDICAL: Great attention was paid by the Port Health Authorities and services asked for were promptly dealt with especially out of date inoculations. There is a hospital with Doctors and the necessary surgeries.

DRYDOCK:

Length overall	199.05 m.	653.00 ft.
Subdivided into sections	128.96 m. 70.09 m.	424.00 ft. 229.00 ft.
Breadth at Bottom	28.40 m.	93.00 ft.
Breadth at Coping	36.60 m.	120.00 ft.
Depth at sill and blocks at MHWS	10.42 m.	34.40 ft.

Yard Services: Nothing was too much trouble for any of their staff attending this ship. Power was a bit of a problem but they did everything to help. Fire mains, fresh water, cranes were all good. Toilets and shower-rooms were more than adequate especially after we were given our keys and had them cleaned.

Workshops: A modern well equipped yard with every conceivable service from an iron foundry to upholstery shops. A clean, well kept set of shops including the building of small craft. The Engineers of this ship were very favourably impressed with the shops and technical services.

SURVEYORS: We were informed that there is no Lloyd's Surveyor in the country but often when required Lloyd's Representative flies up from Durban. Sometimes it is agreed that the resident Bureau Veritas Surveyor will substitute. M. Cavanas lives in Tananarive.

AIRPORT: Air services are available each day to connect with the international Air France flights to Orly from the local airfield about 8 miles from the town.

GENERAL:

Launches: Numerous launches are abounding throughout the harbour. Owned by the Dock Company, the Port Junta and one by the Agent, who charges FMg 2,500 for a round trip out to the anchorage (c £5.00).

Laundry: A laundry man did call but we were unable to offer him any business. He said he would need at least two and a half days to complete a complete ship's wash.

Shore Amenities: Generally a very popular Port for Officers, Scientists and Crew. The absence of large hotels would be felt if the whole ship's company had to be present for a long period.

Hotel de la Poste and the Hotel Nouvelle have each about 15 bedrooms air conditioned, and ordinary. Bed and Continental Breakfast with air conditioning FMg 1,500.00 – FMg 2,500.00 – not more than £5.30 per night. They have excellent dining rooms and good French cooking.

Bathing facilities by taxi at beaches and clubs some 7 or 8 miles from town.

AGENTS: S.C.A.C. Box Poste 384, Malagasy Republic, Diego Suarez, Madagascar. Telephones: Diego Suarez 213-27 & 213-47.

FORT DAUPHIN: 25.02 S. 47.02 E.

DOCUMENTS:
- Manifest of Cargo for discharge.
- Manifest of Cargo in transit.
- Ship's Stores List.
- List of Passengers Landing.
- Crew List.
- Franchise Certificate (for mail-carrying vessels).

PILOTAGE: The port is an open roadstead and pilotage not required.

ANCHORAGE: In depths of 8 m. Vessels anchoring are charged with port dues.

RESTRICTIONS: Port is normally used by coastal trading vessels. In case of liners handling cargo exceeding 150 tons, special permission required which is obtained by Agent.

HEALTH: Pratique should be requested from the Health Department, tel. 36.

RADIO: Fort Dauphin Radio, call sign 5RD, between 0400 and 1630 hrs. GMT on following frequencies: 458, 500, 2182 and 2712 kHz.

TUGS: None available.

BERTHING: There are no berths alongside. Vessels work cargo at anchorage.

STEVEDORES: Arranged by the Fort Dauphin Lighterage Company. Advance notice of ETA required to arrange gangs. Average loading/discharging rate is 10 tons per hold per hour.

MEDICAL: 2 hospitals available in the town.

TANKERS: 1 buoy berth for tankers.

FRESH WATER: No water barge. Only small quantities can be supplied in emergency.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Opening and closing hatches carried out by stevedores.

CUSTOMS ALLOWANCES: 1 carton of cigarettes per man. No alcohol.

CONSULS: No local representatives.

REPAIRS: Only facilities available for repairing lighters.

REPATRIATION: No facilities for effecting crew changes.

AIRPORT: Situated 5 kms. from the port, 4 regular flights per week.

TIME: GMT plus 3 hours all year round.

HOLIDAYS: Days on which work is normally carried out with overtime payment: Easter; Ascension Day; Whitsun; Assumption; Christmas.

Official holidays on which work can be arranged by special permission: 1st January; 1st May; 26th June (Independence Day); 14th October; Festival of the Republic.

FIRE/POLICE/AMBULANCE: Police Tel. 49; Fire 19; Ambulance 36.

SHORE LEAVE: Not permitted.

AUTHORITY: Service des Ports' Phares et Balises, Tananarive.

AGENT: SCAC Madascar BP 425, Tananarive. Tel. 228–64. Cables: "Freight Tananarive". Telex 22214.

MAJUNGA: 15.44 S. 46.20 E.

DOCUMENTS:
- List of Crew Members.
- List of Passengers.
- Customs Documents.
- Health Documents.
- Manifests.
- Bills of Lading.
- Ship's papers.

PILOTAGE: Vessels requiring Pilot must apply by cable to Majunga Harbour Master's office at least 24 hours before arrival. Pilot embarks at Narcissus buoy.

ANCHORAGES: Indicated to ship's captain by cable from Majunga Harbour Master's office.

RESTRICTIONS: Ship's can enter day and night. Max. draft allowed 10 m.

MAX. SIZE: No restriction except for max. 10 m. draft.

HEALTH: Pratique automatic when vessel comes from a Madagascar port. Pilot is health agent.

RADIO: Radio Majunga.

STEVEDORES: Vessel informs Agent by telegraph 24 hours in advance of number of gangs needed.
MEDICAL: Hospital available.
TANKERS: One berth, max. draft 10 m.
FRESH WATER: Unlimited drinking water.
CERTIFICATES: See "Tamatave".
CUSTOMS ALLOWANCES: See "Tamatave".
CONSULS: French and Greek consulates.
REPAIRS: Minor repairs only.
REPATRIATION: All facilities available.
AIRPORT: Served by regular airlines; 7 km. from town.
TIME: GMT plus 3 hours.
HOLIDAYS: Catholic and official holidays. Commercial transactions possible on public holidays.
POLICE/FIRE/AMBULANCE: Police 24–85; Fireman 13; Hospital 29–15.
AUTHORITY: Harbour Master.
AGENT: See "Tamatave".

TAMATAVE: 18.08 S. 49.22 E. (See Plan)

DOCUMENTS:

Health
International Maritime Certificate of Health.
List of Passengers disembarking.
Crew List.

Police
List of Passengers disembarking.
Crew List.

Customs
Ship's Register.
3 sets Cargo Manifests.
Crew List.
2 Stores Lists.
2 Lists of Crew disembarking.
2 Lists of Crew transitting.
2 Lists of Passengers disembarking.

Port
2 sets Cargo Manifests.

Agents
1 set Cargo Manifests.
List of Passengers disembarking.
Crew List.

PILOTAGE: Compulsory. No telegraphic address. Ships advise Agents hour of ETA. Pilots informed by Agents. Due to the breakwater being extended the South Pass is temporarily closed to all traffic. When completed, the extension will render the Pass so narrow that only small coastal vessels can use it.

The East Pass is now permanently in use for large vessels. The pilot boat waits on the East Pass range approximately 3.3 miles S.S.E. of Prunes Island Lighthouse. The pilot boat is fitted with a small, portable VHF set (Channels 16 and 27) but its effective range is only about 5 miles.

ANCHORAGES: No special anchorage. If no berth available on ship's arrival, Pilots put ships at best anchorage, according to draft and length of ship, between Reef and shore.

RESTRICTIONS: No restrictions. Ships enter and sail day and night any time. Max. tide only 3 ft.

MAX. SIZE: For roads, max. length about 200 m. (concerns only passenger ships). For cargo vessels max. length 180 m.; max. draft 31 ft. 2 in. (9.5 m.).

For tankers, max. LOA 230 m., max. beam 31 m., max. draft 12.20 m. in salt water. Distance from stern to manifold 110 m.

HEALTH: Quarantine message sent to Agents who inform Health Service. "Q" flag must be hoisted if health satisfactory. Captain presents maritime declaration of health. Health Officer and Immigration board at Quarantine anchorage.

RADIO: Tamatave Radio, call sign 5RS. VHF frequency (16) 156.80 – (26) 161.90 – 168.95.

TUGS: 1 tug of 1,750 h.p. and 2 tugs of 250 h.p. available to assist berthing.

BERTHING: 3 berths for deep-sea ships and 2 berths for coastal ships. Ships moored at berth in order of arrival and according length and draft. Mooring has to be very strong, due to swell that may sometimes enter harbour when S.E. trade winds are strong, or if cyclone in vicinity. Mooring by 2 chains and special nylon lines furnished by harbour. Swell is so dangerous that ships have to go to anchorage or put to sea until weather improves.

CRANES: 3 ton and 6 ton cranes available for hire. Floating crane 80 ton capacity also available.

STEVEDORES: ETA to Agents must give hatches, tonnages, and all information about cargo.

Working hours: 1st shift 0700 – 1400 hrs., 2nd shift 1400 – 2100 hrs. On Sundays there is one shift 0700 – 1400 hrs. at overtime rates.

MEDICAL: Preferable to inform Agents in advance. All hospital facilities available – smallpox vaccinations.

TANKERS: 1 refinery imports crude oil and exports fuel and refined oils. Tankers moored using anchors forward, and moorings aft.

Diameter of lines 12 inches. No slop discharge facilities. If tanks are to be washed, slops must be discharged outside harbour.

Shipmaster's Report: A brief description of the berthing manoeuvre is as follows:

About 350 m. from the berth, let go starboard anchor and swing around to starboard with the assistance of a tug, slacking the cable all the time. As vessel completes swing, let go Port anchor, then slack down both anchors. Vessel usually finishes up with about 9 shackles on each anchor. Aft, vessel secures with 4 lines from the starboard quarter to the buoy and 4 lines from the port quarter to the quay. The mooring operation takes about 2.5 hours and unmooring about 1.5 hour.

Facilities:

1. One 12 in. rubber hose, connected always from the starboard side. You can expect 4-5 hours for connecting up the hose and about 2-3 hours for disconnecting.
2. The shore tanks are situated about 5 km. from the vessel, and have a total storage capacity of about 100,000 cu.m. The tanks are located about 4 m. above sea level, the heights of the tanks being approximately 13 m.
3. The main pipe-line is 20 in. diameter by 5 km. long.
4. Maximum back pressure permitted is 6-7 kg. However in view of the length and size of the line it is very difficult to obtain such a pressure, even with all 3 pumps going all out. Understand from the refinery Superintendent that maximum back pressure so far attained was 4 kg. The back pressures are monitered by gauges fixed on the manifold and on the quay.
5. The maximum draft permitted at the Tanker mooring is 40 ft. Fully laden tankers arriving can berth only in daylight hours. However 24 hour sailing is possible.
6. The cargo discharging operations are as follows: The main pipe-line is kept constantly filled with bunker fuel and has a capacity of approximately 1,000 cu.m. After connecting up vessels commence discharge of their crude. The bunker fuel in the line is thus pushed back and stored in a separate tank ashore. The vessel then continues to discharge her full cargo. After completing discharge, all tanks are inspected and a dry certificate obtained. The refinery then pushes back the pipe-line crude (1,000 cu.m.) and about 1,200 cu.m. of bunker fuel, which must be stored on the ship in separate tanks. Thereafter, the vessel must discharge all crude, and finally the bunker fuel. Thus the pipe-line is constantly kept filled with bunker fuel. The drawbacks to the vessel are obvious. 3 individual stripping operations are involved viz. stripping the crude during completion of discharge, stripping of pipe-line crude stored in the ship and stripping of the bunker fuel.
   Note: Capacity of shore pumps (when transferring oil back to ship) is 800 t.p.h.
7. Communications: A telephone is installed aboard for communication between ship and shore. This however never seems to be at its best when you need it most. Other difficulties are the language barrier (French being spoken). Notwithstanding, the slow rate of discharge obtainable, helps to offset in part the lack of communications.
8. Out-turn quantities: It is understood that these are checked by sounding shore tanks.
9. Bunkers are available on 24 hours notice. Range Redwood 1,000–1,500 seconds.
10. Diesel oil is available, however as the supply barge has been out of commission for sometime now, supply cannot be depended upon.
11. Fresh Water available.
12. Connection and disconnection of the cargo pipe-line is undertaken by the refinery personnel.

DENSITY: 1023.5.

FRESH WATER: Delivered by water-boats at rate of about 100 t.p.h.

FUEL: Available alongside. Gas oil and diesel oil at 70 t.p.h. Fuel oil at 110 t.p.h.

Vessels at anchorage may be serviced by fuel barge of 250 tons.

FIRE PRECAUTIONS: 1 fire-boat stationed near tankers.

GANGWAY/DECK WATCHMEN: Recommended. Very low cost.

OPENING/CLOSING HATCHES: Booms always operated by crew. If hatches are Macgregor type, by crew; otherwise by stevedores.

CERTIFICATES: Safety certificates (3), Derating or Exemption Certificate, Register, Load Line Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes. Wine/Spirits. 1 opened bottle.

IDENTIFICATION CARDS: Only seaman's papers required.

CONSULS:

France	2721	Dutch	2632
Great Britain	2680	Swedish	2136
Norway	2549	Danish	2615

REPAIRS: Only small repairs possible.

REPATRIATION: Possible, arranged by Agents.

AIRPORT: Served by regular airlines. 1 flight a day by Air Madagascar to Tananarive and 4 to 6 flights a week from Tananarive to Africa and Europe.

TIME: Local time GMT plus 3 hours.

HOLIDAYS: 13 holidays per year. Cargo work cannot be arranged on holidays but can be on about every second Sunday.

TELEPHONES: 2 connections at 2 berths used for passenger ships, but may be requested by other ships.

GENERAL: 14 cranes of 3 tons each. 1 floating crane for max. 120 tons weight. Small tugs and lighters for ships operating on roads. 1 port launch and some private launches for crews of ships at anchor.

SHORE LEAVE: Permitted.

DELAYS: Not fixed. When all berths occupied, ships wait at anchorage.

AUTHORITY: Port Autonome de Tamatave.

AGENT: SCAC Madagascar, Rue du Capitaine-Shoel, BP 411, Telex: 55610. Tel. 320–48; 320–49; 326–80; 326–81. Cables: "Freight Tamatave".

Malaysia

DUNGUN, Malaya: 04.47.30 N. 103.27 E.

DOCUMENTS:

Register.
Last Port Clearance.
10 copies Crew List.
6 copies Passenger List (if any).
6 copies Stowaway List (if any).
2 copies Stores List (including Firearms and ammunition).
2 copies Dutiable Liquor and Tobacco List.
2 copies Crew Declaration List (cameras, radios, etc.).
2 copies Cargo Manifests.

PILOTAGE: Extra charge for pilotage outside normal office hours and holidays. Ocean vessels should anchor about 0.8 miles S.E. of Tg. Dungun Lighthouse.

ANCHORAGE: On arrival vessels required anchor about one mile outside berthed ships to obtain pratique. Accommodation ladder must be rigged on lee side to allow Port Authorities to board.

CUSTOMS: Customs Office hours 0830 to 1630 hrs. (Thursday afternoons, Fridays and holidays excepted).

IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.

SHORE LEAVE: No seaman may proceed more than 3 miles from Dungun Customs House. The Officer in Charge Customs, as acting Immigration Officer, has authority to limit or prohibit Shore Leave in all cases.

KOTA KINABALU (Jesselton), Sabah: 06.00 N. 116.05 E. (See Plan)

DOCUMENTS:

Documents to be produced on arrival:
Port Clearance from Last port.
6 copies Inward Cargo Manifests.
2 copies Hatch List, *or*
1 copy Stowage Plan.
9 copies Crew Lists.
9 copies Passenger Lists.
2 copies Bonded Store Lists (incl. Arms and Ammo Lists).

In addition, the Master has to complete a Shipping Arrival Report Form and a Maritime Declaration of Health Form.

Notes: (a) = If vessel arrives from any port outside those declared infected.

(b) = These 2 copies (Inward Cargo Manifests) must be certified by the Master as follows: "I hereby certify that to the best of my knowledge and belief this manifest is complete and correct. . . . .Master".

To be Supplied to Ship before Departure:
1 set Agents Outward Manifests.
2 copies Passenger Lists for Immigration.*
1 copy Passenger Lists for Customs.*
1 set Manifests for Customs.*
*To be supplied by Agent.

If vessel departs to a port outside Sabah, 2 copies outward crew list are also required for Immigration.

PILOTAGE: Pilot normally available between 0600 and 1800 hrs. only. Written application must be submitted 12 hours in advance.

ANCHORAGES (also see "Health"):

Special Anchorages and Prohibited Areas

(1) *Prohibited anchorage:* No vessels shall anchor as to swing within 3,000 ft. of the F.R.G. light on the N.N.E. end of the Authority wharf in approx. position Lat. 05° 59′ 51″ N. Long. 116° 04′ 30″ E. Vessels under 150 ft. in length may anchor within this area, East of a line joining the F.R.G. light and Gueritz shoal light beacon.

(2) *Prohibited Area:* Except with the previous permission in writing of the Authority, no logs or timber shall be allowed to lie afloat within the area – Eastward of a line drawn in a 172° direction from Grieve Reef Beacon.

(3) *Explosives and Dangerous Goods Anchorage:* Vessels having explosives and Dangerous Goods on board shall anchor within a line drawn from a position in Lat. 06° 01′ 21″ N. Long. 116° 05′ 45″ E. thence in a 360° direction for 6.5 cables thence in a 270° direction for 10 cables thence in a 180° direction for 6.5 cables thence in a 090° direction for 10 cables to the starting point.

(4) *Dangerous Petroleum anchorage:* A vessel having dangerous petroleum on board shall anchor within a line drawn from a position in Lat. 06° 00′ 42″ N., Long. 116° 05′ 45″ E. thence in a 270° direction for 10 cables thence in a 360° direction for 6.5 cables thence in a 090° direction for 10 cables thence in a 180° direction for 6.5 cables to the starting point.

(5) *Quarantine Anchorage:* A vessel which is required to proceed to a quarantine anchorage shall anchor within an area bounded by a radius of 3 cables from a position in Lat. 06° 01′ 34″ N. Long. 116° 03′ 46″ E.

RESTRICTIONS:

1. Entering. Vessels with dangerous cargo such as benzene are not allowed to stay alongside wharf or to berth after 1800 hrs. Vessels arriving from any port within hours of day-light not allowed to berth until they see the signals at the Customs House directing them. This applies equally to vessels arriving on schedule as well as unscheduled vessels and any infringement of these regulations can have very serious consequences.

Master of ship not sailing within 48 hours after port clearance to report to Harbour Master reason for not sailing, and, if so required obtain a fresh port clearance.

2. Shifting. The Authorities must be informed prior to shifting.

3. Immigration. No person may leave ship before clearance has been given by Customs/Immigration officers.

4. Currency. There is no restriction on amount of currency which can be brought into this State but max. amount allowed to be taken out is Mal $100. Foreign exchange must be conducted through recognised banks.

HEALTH: (Also see "Regulations"). *(a)* Sabah Government are signatories to WHO convention on Quarantine regulations. Port Health Doctor will not board unless vessel comes from infected port. Instead, Maritime Declaration of Health to be filled-out and handed to Boarding Officer of Health Department who will require 1 copy of crew list and 1 copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel is healthy. Pratique normally cabled to ship but if unreceived, vessel need not proceed to Quarantine anchorage unless coming from infected port.

(b) Vessels arriving from ports outside the State will anchor until boarded by Authorities unless previously instructed by telegram to come alongside.

RADIO: (Also see "Health"). Information required before ship's arrival: Manifest, stowage plan, number of gangs required, amount of water required, Pilot requirements. Local radio call sign "Control K.K.".

TUGS: Tug 280 h.p. available to assist vessels berthing and unberthing without a Pilot at inner berth. Ship's lines used.

BERTHING: Wharf T-shaped; outer berth 647 ft. long with min. depth of 25 ft. Inner berth 475 ft. long with min. depth of 21 ft.; 2 godowns 28,000 and 30,000 sq. ft. floor area respectively. Sabah Ports Authority operates one 10-ton crane, 22 towing tractors, 43 6,000-lb. forklifts, one 7-ton forklift, 76 trailers of capacity ranging from 3 to 6 tons. Heavy Lifts up to 6 tons received into Sabah Ports Authority trailers, up to 17 tons could be received into railway wagons, beyond 17 tons overside discharge into landing craft. Sabah Ports Authority landing ramp capable of accepting loads of up to 30 tons. Bulk handling limited to petroleum and bitumen into private installation by pipe-line.

New Wharf: Rectangular island wharf 700 ft.×400 ft.

The particulars of the berths are as follows:

Berth No.	*Length (ft.)*	*Depth (ft.)*
1	700	30
2	400	24
3	360	24
4	260	24

Covered storage: one transit shed 72,000 sq.ft.

STEVEDORES: Stevedores provided SPA; labour supplied for working in ships' holds and on ships' winches (if required). For cargo delivered direct ex-wharf consignee provides wharf labour; cargo for Sabah Ports Authority godown labour provided by Sabah Ports Authority.

Working hours/days: Ships can be worked on all days except for 11 state and national holidays when port closed completely. Working hours 0730 to 1130 hrs.; 1300 to 1700 hrs.; 1800 to 2200 hrs. Work beyond these hours possible by application. Additional charges payable.

Deliveries 0730 to 1630 hrs. except Sunday.

Loading/discharging rate: General cargo excluding vehicles and liquid cargo 17.60 B/L tons per gang hour. Palletised (unit-load) cargo 27.4 B/L tons per gang hour.

CARGO: (Also see "Berthing").

1. Tally: The Agent can provide tally clerks at ship's expense.

2. Inward cargo: Ship's responsibility ceases as soon as consignees take delivery ex-sling.

3. Transhipment cargo: Transhipment cargo handles via Port Authority Godown.

4. Outward cargo: All cargo is brought to the ship alongside wharf either by tractors and trailers.

5. Special cargo regulations:

(a) Dangerous cargo. Vessels carrying explosives as cargo: All vessels arriving at, or remaining within the limits of, any port with explosives on board shall fly the gunpowder flag at the foremast.

No vessel having explosives on board shall, without the permission in writing of the Harbour Master, come or remain within 500 yards of the shore or any other vessel:

Provided that such a vessel may, with the written permission of the Harbour Master, come and remain within such limit where:

(i) such explosives are wholly and exclusively of Class V (Fulminate) or Class VI (Ammunition) or both such classes in the second schedule; and

(ii) the total quantity of such explosives does not exceed two thousand pounds; and

(iii) such explosives are carried in a properly constructed magazine duly certified as such by a British Board of Trade Surveyor or by an officer fulfilling similar functions appointed by a Government of any British possession or the vessel has a certificate from one of Her Majesty's Inspectors of Explosives or from an Officer fulfilling similar functions appointed by the Governments of Singapore, the Federation of Malaysia or Hong Kong and approved by the Governor that all the explosives on board such vessel have been properly stored and the Master of such vessel further certifies in writing that no other dangerous cargo is carried by the vessel; or where:

(iv) such explosives are wholly and exclusively explosives of one or any of Class III (Nitro-compound), Class IV (Chlorate mixture) or Class VII (Firework); and

(v) The total quantity of such explosives does not exceed three thousand pounds.

No such explosive shall be landed, shipped or transhipped between sunset and sunrise without the previous permission in writing of the Harbour Master. Any Master of a vessel offending against the provisions of this section shall be liable to a fine of one thousand dollars.

(b) Livestock. Pigs or cattle may not be loaded or discharged on any wharf without permission of the S.P.A.

MEDICAL: Medical Officer of Health: Medical Services Department, tel. 54303. Vaccination and inoculation (incl. Yellow Fever) can be arranged via Agent at any time during working days. In case of death on board, Agent and Harbour master as well as the Police to be informed.

FRESH WATER: Can be supplied from wharf. Supply rate is 25 tons per hose per hour.

FUEL: Not available.

CONSULS: British Council Tel. 54056; Indonesian Council Tel. 54100; Japanese Council Tel. 54698.

HOLIDAYS: Working on Sundays/holidays is possible against overtime payment. No work will be done on Chinese New Year's Day, Hari Raya Puasa and Christmas Day.

POLICE/AMBULANCE/FIRE: Police 999, Ambulance 54911.

GENERAL: Ship Chandlers: All kinds of stores and provisions available.

Recreation Facilities. Two cinemas in town which show English films frequently. Three tennis courts available and football matches may be arranged. Sports Club is next to town Padang, about half a mile from wharf and golf and yacht clubs situated on beach at Tanjong Aru, 4 miles from town.

Surveyor: Harrisons & Crosfield (S) Ltd. are Lloyd's Sub-Agents and can arrange a surveyor provided prior warning is given.

Fumigation: No facilities.

SHORE LEAVE: Crew members allowed ashore after inspection by Immigration Officer.

REGULATIONS: *(a)* Arrival and Departure. 1. The owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than 36 hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 hrs. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a Customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(b) Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically 6 ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light 6 ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, 6 ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, 6 ft. apart, hoisted vertically where best seen.

(c) Priority. First come first served.

AUTHORITY: Sabah Ports Authority.

AGENT: Harrisons & Crosfield (Sabah), Limited. Telegraphic address "Crosfield". Tel. Shipping Department 52458; Vessels at wharf 52300–54400.

KUCHING, Sarawak: 01.34 N. 110.21 E.

DOCUMENTS:

- Port Clearance to be surrendered to Customs when boarding.
- Crew Lists and Passenger Lists, 2 copies for Immigration Department, 2 copies for Kuching Port Authority, 2 copies for Customs, 1 copy for Port Health Officer.
- List of Ship's Stores (2 copies for Customs).
- List of Ammunition (3 copies for Customs).
- Health Documents (Vaccination Certificates and Cholera Inoculation Certificates to be examined by Health Inspector).
- Manifests (3 sets for Customs, 5 sets for Kuching Port Authority, 1 set for Health Inspector).

PILOTAGE: Pilot can be applied for through Agents or by direct cable Marine Dept. giving at least 24 hours notice of ship's arrival time at Tanjong Po. Telegraphic address, Shipping, Kuching. Pilots are embarked either at the position, marked on B.A. Chart 1822, off Tg. Po or at Sejingkat by vessels proceeding further up river to the wharves operated by Kuching Port Authority. Pilot boat "Alor" equipped with VHF.

In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off Tanjong Po by arrangement.

APPROACHES: The seaward approach to Kuching port is restricted by the presence of two bars; Outer Bar at a depth of 16 ft. below datum, and the Inner Bar at 15 ft. below datum. The max. depth of high water over the Bar, which occurs at springs is about 31 ft., whilst at neap high waters this decreases to approximately 28 ft. The tidal range is 5 to 17 ft. There are also numerous rocks and shoals in the river.

ANCHORAGES: *(a)* Tanjong Po Anchorage: 045° one mile from Tanjong Po line. Area of safe anchorage is 0.25 mile radius. Depth 6 fathoms. *(b)* Sejingkat Anchorage: For vessel up to 550 ft. long with max. draft 25 ft.

Examination Anchorage: The examination anchorage is re-established off Sejingkat in an area bounded by:—

(a) A line, marking the outer limit, drawn 345° from the Channel Beacon in position Lat 01° 34′ 51″ N., Long. 110° 26′ 41″ E.

(b) A line, marking the inner limit, drawn 343° 30′ from the Inner Measured Mile Beacon in position Lat. 01° 34′ 50″ N., Long. 110° 26′ 13″ E.

Vessels are recommended to anchor in the Northern half of the area and shallow draft vessels should berth as close to the Northern bank of the river as is practicable.

Vessels should advise the Marine Signal Station of their arrival using VHF Channel 20. Movement of vessels up river will be controlled from the Marine Signal Station or Marine Office. In order to receive information, vessels should keep watch on VHF Channel 20.

Vessels carrying dangerous cargo will be examined in the existing explosives anchorage.

RESTRICTIONS: Tide restriction and max. draft 17 ft. at high tide. Not advisable to enter port at Tanah Puteh at night.

MAX. SIZE: Max. permissible length overall for vessel entering port at Tanah Puteh is 435 ft. and max. draft 17 ft. Max. overall length for oil carriers proceeding to oil installation at Baiwak Wharf, Pending Point is 400 ft., and max. draft 22 ft. At Pelabuhan Datuk Sim Kheng Hong, the LOA of ship permissible is 550 ft. with a max. draft of 25 ft.

RADIO: ETA cable to ship's Agent can be sent to Department of Communications, Kuching. Code words, Kuching Radio.

VHF direct communication with Port Authority, Channel 16, calling and safety, Channel 20 port operations. Channel 26 public correspondence. Pilot boat and Marine Department also equipped with VHF. Range 25 to 30 miles from Kuching port.

TUGS: 3 tugs, 2 of 1,000 h.p. and 1 of 164 h.p.

BERTHING: Application for berth must be made by Agents at least 24 hours before berthing. Facilities: at *Tanah Puteh* 800 ft. wharf of the deck on piles with shore-bridge type with 103,000 sq. ft. of Covered Storage Space and 195,000 sq. ft. of Open Storage Space; at *Pelabuhan Datuk Sim Kheng Hong* 860 ft. marginal wharves with 80,000 sq.ft. Covered Storage Space and 100,000 sq. ft. of Open Storage. Feeder Container Services are available but ship must provide lift on/lift off gear for ship/shore and vice versa operations. Max. shore facilities – 14 tons gross per container.

STEVEDORES: Gangs required for working vessel for weekdays must be ordered by Agents before 1530 hrs. prior to ship's working the following day. Gangs required for working vessel on Sundays or public holidays must be ordered before 1000 hrs. prior to ship's working on Sundays and public holidays.

MEDICAL: Necessary for Agents to receive advance notice of required medical attention at least 24 hours before arrival. Hospital facilities available. Crew should possess Cholera inoculation and Vaccination Certificates.

TANKERS: Tankers berth at Biawak Wharf, Pending Points, for discharge of their oil. Diameter of pipe line 6 in. Only one tanker can berth at a time and max. draft is 25 ft.

DENSITY: 1008 oz. per cubic ft.

FRESH WATER: Available and can be supplied to vessel alongside Authority's Wharf by hose about 25 tons per hour.

FUEL: High-speed diesel fuel oil can be supplied to vessel by making arrangement with either Shell or Esso Oil installation at Biawak.

GANGWAY/DECK WATCHMEN: Not usually available. Ship should provide own watchmen.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Ship's should possess all relevant certificates on board in case required for reference.

CUSTOMS ALLOWANCE: Tobacco: 1 oz. tobacco or 25 cigarettes or 8 cigars permitted for each crew member daily. Up to three days ration in port. Wines and/or Spirits, eighth qt. bottle of spirits or 0.25 qt. of beer or 1 qt. of wines is permitted for each crew member daily. Up to 3 days' ration in port.

CARGO GEAR: Ship provides own gear especially for handling heavy lifts, vehicles, etc. Rope slings, pallets and safety nets, etc., will be provided by the Authority.

IDENTIFICATION CARDS: Required.

CONSULS: Indonesian.

REPAIRS: Minor repairs to vessels only.

DRY DOCKS: Not suitable for sea-going vessels. Coastal vessels up to 220 ft. long.

REPATRIATION: Facilities available.

AIRPORT: Airport about 6.5 miles from port at Tanah Puteh. It is served by regular airlines which operate two flights daily except on Tuesday, Thursday and Friday when one flight only.

TIME: Local time eight hours ahead of GMT.

HOLIDAYS: Port work can be arranged on all official holidays on overtime rates except Chinese New Year Day, Hari Raya Puasa Day, International Labour Day, (1st May), Dayak Festival Day (1st June), and Christmas Day, during which the port at Tanah Puteh will be closed.

POLICE/AMBULANCE/FIRE: For emergency call, tel. 999 is applicable to all these three services. Individual call: Central Police Station, 2222; General Hospital, 23151; Fire Station, 21033.

TELEPHONES: Telephones can be provided free of charge on board vessel occupying Authority's berths at Tanah Puteh Wharf.

SHORE LEAVE: Crew members are allowed ashore provided permission is granted by Immigration Department.

REGULATIONS: Refer to Sarawak Merchant Shipping Ordinance and Kuching Port Authority's Ordinance and Bye-laws.

DELAYS: At present ships can normally secure a berth within 24 hours of arrival if tide is right.

AUTHORITY: Kuching Port Authority.

KUNAK, Sabah: 04.41 N. 118.15 E. (See Plan)

Sabah Government Requirements

(a) Customs will treat port as sufferance wharf as defined in Section 2 of Customs Ordinance (Cap. 33), with control from Lahad Datu. Agent will be required to make application to Customs for sufferance facilities in respect of each vessel, on appropriate form. Officer-in-Charge of Customs, Lahad Datu will arrange to send a supervising officer with ship; this officer will attend vessel's inward and outward Customs clearance. Transport, food and shelter of Customs Officer are for vessel's account, though it is envisaged that his transport can be concurrent with boarding and departure of the Pilot, i.e. per Marine Department launch.

(b) Immigration requires that vessel shall be cleared inwards and outwards in Lahad Datu. As Marine Department launch will be required to run mooring lines at Kunak, it will not be available to transport Immigration Officer who will *not* accompany vessel. His transport will therefore be a matter for Agent to arrange.

(c) Medical will grant pratique by radio by Medical Officer, Lahad Datu: whose right to carry out full inspection is not affected thereby. This will only be exercised, it is anticipated, when vessel has called at an infected port within prescribed period. Radio messages should therefore give this information, e.g. "Malay Maru Hongkong Twentieth Tokyo Thirtieth Manila Second All Well Request Pratique Master".

(d) Marine Dept. in the case of a vessel arriving from foreign ports will ultimately place a Pilot on board in Lahad Datu, if requested.

(i) Pilot will receive vessel's arrival report and sight her last port clearance. Pilotage will commence at any such point on route as Master may request, at rates laid down in the Merchant Shipping (Fees) Regulations, 1961. The Pilot launch carrying berthing crew will arrive in advance of vessel at Kunak and assist in making fast.

(ii) As there is no accommodation available at Kunak, the Pilot it is hoped, can be accommodated on board ship during her stay.

(iii) Return to Lahad Datu will follow as in sub-para (i) with the Pilot issuing Port Clearance on completion of Immigration formalities.

(iv) Requests for Pilot should be made *at least* 24 hours in advance to Marine Sandakan via Sandakan Radio, 9WHZ1. Initially this service will be offered from Sandakan, and ships proceeding Kunak from there will retain the Pilot on board. Ships from foreign ports will be served by air; charges to their account. There is now a Pilot based at Tawau, who will berth vessels at Kunak.

For information the port limits of Lahad Datu are "a line drawn from Tanjong Melandong on the South-west point of Darvel Peninsula to the most Westerly point of Sakar Island and thence to the mainland, etc." From this it can be seen that large vessels need not enter the narrow waters of the inner bay.

BERTHING: 1. Wharf consists of,

(a) A raised cement platform 30 ft. × 30 ft. on wooden piling.

(b) Three lazy piles with rubber fendering situated 20 ft. from the front edge of the platform and 125 ft. in each direction from the centre of the platform.

(c) Two cement mooring dolphins 20 ft. × 20 ft. situated 350 ft. each side of the platform and 50 ft. from the rear edge of the platform.

(d) A metal jetty approach 10 ft. wide × 350 ft. long.

(e) A coral bund 24 ft. wide at the base and approximately 16 ft. wide at the top.

(f) Mooring Buoy placed 600 ft. off head of jetty.

2. Depth of water alongside: Minimum depth of water outside the lazy piles is in excess of 35 ft. datum.

3. Bulk oil will be pumped from installation along a metal pipe via coral bund and metal jetty. At a point approximately 15 ft. before cement platform the pipe bifurcates and the two terminals are situated two-thirds the way along each side of platform. To these terminals will be attached a flexible steel hose for connection with ships. Hose will be provided by shippers, and is 400 ft. long if required.

4. Pumping capacity. Maximum overall rate of pumping palm oil will be 100 t.p.h. Palm oil pipe is of 6 in. diameter.

AUTHORITY: Port Manager, Tawau.

AGENT: Harrisons & Crosfield (Sabah) Ltd., PO Box 131, Sandakan, Sabah, Malaysia. Telegraphic address "Crosfield Sandakan". Tel. 2141. Code-Bentley's Second Phrase.

LABUAN, Sabah: 05.17 N. 115.15 E.

Island of Labuan is 12 miles long and 7 miles wide lying off Northwest coast of Borneo at entrance at Brunei Bay. It is part of State of Sabah and is only 4.5 miles from mainland and some 77 miles from the State Capital of Kota Kinabalu.

DOCUMENTS:

(a) On arrival, when vessel has arrived from ports outside Sabah, Health Officer, Boarding Officer, Customs and Immigration or their representatives will board vessel. Agent cannot board until ship has been cleared.

(b) Health Officer will require Maritime Declaration of Health duly completed together with one copy of passenger list and one copy of crew list whenever vessel's last port of call has been outside State of Sabah.

(c) Boarding Officer will require one copy of Shipping Arrival Report, one copy of passenger list and one copy of crew list. He will also inspect various Certificates such as Load Line, Life Saving Equipment etc.

(d) Following is summary of documents required:

	Customs	*Immigration*	*Boarding Officer*	*Agent*	*M.O.*
Passenger List	2	2	1	1	1
Crew List	2	2	1	1	1
Store List	2	—	—	1	—
Maritime Declaration of Health	2	—	—	—	1

(e) To be supplied before Departure:

Manifests as necessary.

Captain's copies of Bills of Lading.

Port Clearance.

Customs Clearance.

Certificate of *(a)* Buoys and Lights Dues and *(b)* Port and Harbour Dues.

PILOTAGE: Pilot available if adequate notice given but pilotage not compulsory. Vessels normally berth between 0600 and 1800 hrs., unberthing at any hour, day or night, provided that notice of such movements received between 0800 and 1600 hrs.

ANCHORAGES: Good anchorage for large vessels in a least depth of five and three-quarters fathoms South and S.E. of No. 6 Beacon.

Quarantine. Vessels arriving from an unhealthy port should proceed to quarantine anchorage for pratique. This anchorage is bounded on North by a line drawn 090° from Harbour Shoal Beacon to Eastern Harbour Limit; South by a line drawn between S.W. point of Papan Island and Enoe Beacon; on West by Eastern Boundary Limit of Explosives Anchorage (as under). If vessels arriving from healthy port and healthy themselves, they need not proceed to Quarantine Anchorage.

Explosives. No vessels having explosives on board may come or remain within 500 yards of shore or of any other vessel; such vessels shall fly Gunpowder Flag at foremast, and should anchor in Explosives Anchorage which is within a line drawn from Enoe Beacon to Harbour Shoal Beacon thence in 090° for 6 cables thence in 180° direction until it joins line between S.W. point of Papan Island and Enoe Beacon.

Dangerous Petroleum. A vessel having dangerous petroleum on board shall anchor within a line drawn from Harbour Shoal Light beacon in a 360° direction for 2,500 ft., thence in a 090° direction for 3,600 ft., thence in a 180° direction to join Northern boundary limit of Explosives Anchorage.

Prohibited Anchorage. No vessel shall anchor within 2,000 ft. from the light of Southernmost dolphin of Liberty Pier.

RESTRICTIONS: Tides. Subject to diurnal inequalities but usually one high water and one low water a day. Average high water is 6.5 ft. and low water 3 ft. above datum of soundings.

Clearance. Port is open from 0600 to 1800 hrs. although vessels can be cleared later than 1800 hrs. on application provided they are sighted from Papan Lighthouse at 1800 hrs.

HEALTH: See "Regulations" and "Anchorages".

RADIO: Information required before ship's arrival. ETA Labuan, with as much prior notice as possible. Number of gangs required Quantity of fresh water required. Whether Pilot required for berthing.

Labuan has no radio facilities and messages are received via Kota Kinabulu, Miri, Singapore, etc.

Port VHF Service operates on Channels 16 and 12, between 0530 and 2400 hrs.

TUGS: No tugs available.

BERTHING: 1. Wharves.

(a) Liberty Wharf – A permanent concrete wharf, measuring 800 ft. with dolphins 100 ft. off each end – least depth of water is 28.5 ft.

(b) Victoria or Small Ships' Wharf (marked on Chart as H. & C.'s Wharf). A wooden structure – length 270 ft. with min. depth of 12 ft. No longer useable except by kumpits. No vehicles allowed on wharf.

(c) New Shell Installation Wharf. Concrete jetty 170 ft. long with two dolphins at each end with a total length between of 700 ft., least depth of water 31 ft.

(d) Brown & Root Jetty – A timber decked jetty with following dimension:
Length of main jetty – 160 ft., width 40 ft.
Length of causeway – 476 ft., width 22 ft.
Least depth alongside approximate 28 ft.
Max. load (proven) – 800 lb./sq.ft.
Max. single approximate 100 short tons.

2. Buoys: No mooring buoys in Labuan.

3. Monsoons. N.E. monsoon prevails from December to April and S.W. monsoon from middle of May to middle of October. Harbour is well sheltered from both monsoons.

4. Flags and Berthing Signals:

(a) When entering port vessel should fly Signal Letters, Mail Flag if applicable, and "G" flag if requiring Pilot, and also Quarantine Flag.

(b) Berthing Signals. Following berthing signals will be used at Labuan and will be displayed from Flagstaff in Harbour Office in vicinity of Liberty Wharf, Victoria Harbour. A red and white chequered flag and International Code numbered pendant will indicate berth number allocated. Berth numbers have been allocated as follows:

(c) Berth and Pendant No.

1. Esso Wharf.
2. LCT. Landing Ramp.
3. Victoria Wharf (small ships) S.E. Section.
4. Old Liberty Wharf (inner section).
5. Old Liberty Wharf (outer section).
6. New Liberty Wharf (inner section).
7. New Liberty Wharf (outer section).
8. Brown & Root Jetty.
9. Shell Installation Jetty.
10. Anchor.

On receipt of berthing signal, vessel should acknowledge in the usual manner with the answering pendant and proceed to berth.

(d) Tidal Signal. A tidal signal consisting of a cone and ball is hoisted in conjunction with berthing signal showing state of tide at berth indicated. A cone point down signifies flood tide (West-going), a cone point up ebb tide (East-going), a ball slack water.

(e) Facilities. Max. single load without special precautions on Old Liberty Wharf is 25 tons and New Liberty Wharf is 650 lbs/sq. ft. i.e. 180 tons four axle vehicles. Any load over this figure will require to be distributed over two or more panels of 10 ft. by 10 ft. each according to weight. However, special arrangements must be made prior to discharge, and Agent should be consulted in advance.

STEVEDORES: Supplied by contractors as arranged by Agent. Working hours 0800–1200 hrs., 1300–1700 hrs. Working outside these hours on Sundays and Public holidays is overtime.

CARGO: 1. Inward. Inward cargo is tallied out of ship on to wharf or into lighter. Damaged cargo is surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge is carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of shortlanded cargo, reasonable proof must be given to Customs that the cargo has not been landed. A shortlanded Memo certified by the Chief Officer is usually accepted as proof.

2. Transhipment. After discharge of cargo from the 1st carrier, transhipment cargo is placed under supervision of Customs, unless it is possible to arrange direct transhipment into small coastal vessel. Customs do not accept responsibility for cargo in Customs Bond.

3. Refrigerated. Only small quantities of refrigerator cargo loaded or discharged.

4. Explosives. Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from the police prior to arrival of cargo, and harbour and police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

MEDICAL: Hospitals. Not possible for Government Medical Officer to visit ships but patients can be sent to Cottage Hospital. Four 1st class beds, 10 2nd class beds, 46 3rd class beds.

Dentist. A Government Dental Clinic, located in Cottage Hospital area. In addition, a Chinese dentist is available in town.

TANKERS: See "Berthing".

FRESH WATER: Only available in small quantities (usually 30 tons maximum) and at restricted hours.

FUEL: Bulk furnace oil and high speed diesel usually available but 48 hours notice of requirements must be given.

FIRE PRECAUTIONS: In case of fire, the Harbour Master, OCPD, and Agent should be telephoned immediately. A mobile gas turbine fire pump is available.

CONSULS: None.

REPAIRS: Slipways of up to 500 tons displacement, and Marine Department can undertake minor repairs.

POLICE/AMBULANCE/FIRE: Medical Officer 224; Asst. Commissioner of Customs 201; OCPD 400; Police Station 297; Hospital 222.

GENERAL: *Surveyors.* Harrisons & Crosfield are Lloyd's Sub-Agents in Labuan and may appoint a surveyor as necessary.

Ship Chandlers. Fresh fruits, vegetables and fish available and price list can be obtained from ship chandler through Agent. Cold storage with limited supplies.

Recreation Facilities. If owners pay a monthly subscription to the Labuan Recreation Club, ship's crew are automatically members. Football and cricket, etc., can usually be arranged on application to Agent. Two cinemas in town which show American, English, Chinese, Malayan and Indian films.

Good beaches all round island, however, it is strongly recommended that bathers should remain in shallow water. It is not considered safe to bathe from the ship.

Victoria Hotel situated in town. All rooms air-conditioned and have private bathrooms or showers attached. Lodging house accommodation available in town for Chinese Crew members.

REGULATIONS: *(a)* Arrival and departure. 1. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than 36 hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 hrs. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessels shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(b) Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically 6 ft. apart where best seen.

AUTHORITY: Harbour Master.

AGENT: Harrisons & Crosfield (Sabah) Limited, PO Box No. 7, Labuan, Sabah, Malaysia. Telegraphic Address "Crosfield". Tel. 218, 219.

LIMBANG, Sarawak: 04.48 N. 115.05 E.

Limbang is the principal town of the Fifth Division and is situated 8 miles above the entrance of the Limbang River. There is an anchorage for ocean-going steamers 5 miles below the Limbang bar buoy with a least depth of 26 ft.

Depth on Bar. The least depth reported on the bar is about 2 ft. with a highest rise of 12 ft. The channel is marked by stakes with red/white and black/white topmarkers and a flashing light buoy Fl.1 sec. at the entrance.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during daylight hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the Port Clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

MALACCA, Malaya: 02.15 N. 102.15 E.

DOCUMENTS:

1. *Harbour Master's Office or Marine Department*

(a) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.

(b) One copy Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths that have occurred during the voyage to the passengers, crew, ship or cargo.

(c) Port Clearance from last port and copy of Manifest of Cargo to be discharged.

(d) List of all arms and explosives on board.

(e) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port produce to Port Officer the Certificate of Registry and ship's Articles.

(f) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load Line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Derating Certificate and all Certificates of Competency of all Officers on board.

(g) Crew List.

2. *Immigration Authorities*

(a) Crew List (3 copies).

(b) Passenger List (3 copies).

(c) Produce all passengers passports/visas.

(d) Produce all seamen's cards.

(e) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.

3. *Port Health*

(a) Crew List showing last date of vaccination.

(b) Passenger List, showing the last date of vaccination.

(c) Produce all seamen's and passengers' vaccination cards.

4. *Customs Department*

(a) Crew List (2 copies).

(b) Passenger List (2 copies).

(c) Personnel Effects List (2 copies).

(d) Cargo Manifests (2 copies).

(e) Last Port Clearance.

(f) Bonded Stores List (2 copies).

(g) Full and correct statement of dutiable goods carried as ship's stores (2 copies).

(h) Customs Form CD 15 obtainable from Customs Department on arrival.

APPROACHES: No difficulty from North or South. No sand bar at river mouth. Harbour open all year round.

PILOTAGE: None.

ANCHORAGES: For ocean-going and coastal vessels anchorage between 1—1.5 miles off Malacca harbour. Between 3–6 fathoms depth. No specific prohibited anchorage.

TUGS: None.

BERTHING: None. Discharging into lighters at anchorage.

STEVEDORES: Discharging cargo capacity per day – 1,000 tons.

MEDICAL: Modern Government hospital. All surgical and medical facilities available.

FRESH WATER: None.

FUEL: None.

DEVELOPMENTS: Proposed provision of deepwater berths.

CUSTOMS ALLOWANCE: Tobacco, cigarettes 25 in number per man per day, or cigars, 8 in number per man per day, or Tobacco, 1 oz. per man per day, or snuff, 1 oz. per man per day.

Wine and/or Spirit: Spirit, eighth of a quart per man per day, or wines, 1 quart per man per day, or beer or stout, 1 quart per man per day.

REPAIRS/DRY DOCKS: None.

HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammad's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali, 1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.

AIRPORT: Batu Berendam, 6 miles from port – commercial airlines daily.

AUTHORITY: Marine Department, Malacca and Port Dickson.

MIRI, Sarawak (incl. Lutong): 04.26.30 N. 113.55.30 E.

Miri Roads is an open roadstead in a shallow bay, bounded at North by Tanjong Baram and at South by Tanjong Lobang.

PORT LIMITS: Outer: within an area to Northward of Lat. 04° 22′ N., Eastward of Long. 113° 55′ 30″ E. and Southward of Lat. 04° 31′ N.

DOCUMENTS: *(a) Health.* Vessels exempted from inspection (see "Health") should deliver to Berthing Master on arrival, a Declaration of Health, Last Port Clearance and 2 Crew and Passenger Lists.

(b) Inward Clearance (also see "Anchorage"). All vessels calling Miri Roads for passengers or cargo must be cleared by Immigration and Customs and, if necessary, by Port Health.

Inward clearance effected only between 0600 and 1800 hrs. and following signals must be shown: if passengers carried, flags "3" and "4"; if no passengers carried, flags "2" and "5"; if free pratique requested, flag "Q".

Following papers will be required on arrival for inward clearance:

Port Health:

Declaration of Health.
1 Crew List.
1 Passenger List, inward and through.

Customs Boarding Officer:

As above, if not boarded by Health Officer, and 2 Inward Cargo Manifests.

(c) Outward Clearance. For vessels that have called to lift bunkers only at Lutong Moorings, clearance will be issued by Berthing Master.

Other vessels will be issued a Port Clearance by Customs Officer on board who will require: 1 Outward Manifest and, if any embarked, 1 Outward passenger list.

APPROACHES: The loom of gas flares on Seria Oilfields 30 miles N.E. of Miri are a general guide at night but should not be used as a bearing because flares movable within area of oilfield and liable to be extinguished at any time. Following bearings exist. By night, three lighthouses:

(a) *Tanjong Baram* 04° 35′ 47″ N. 113° 58′ 25″ E. white single light 680,000 candle power, visibility 17 miles, elevation 120 ft. in grey steel lattice tower, group flash three every twenty seconds.

(b) *Lutong* 04° 28′ 30″ N. 113° 59′ 46″ E., white single light, 13,500 candle power, visibility 10 miles, elevation 80 ft. in grey steel lattice tower, group flash two every ten seconds.

(c) *Tanjong Lobang* 04° 21′ 48″ N. 113° 57′ 36″ E., white single light 20,150 candle power, visibility 18 miles, elevation 155 ft. in grey steel lattice tower, 60 ft., flash one every ten seconds.

By day, above lighthouses difficult to distinguish and following may be used for day-time bearings:

(a) Lutong radio mast FR 210 ft., position 04° 26′ 25″ N. 113° 59′ 54″ E.

(b) Tanjong Lobang radio masts as marked on chart.

PILOTAGE: No official Pilot stationed at Miri but Shell Company provide Berthing Masters to moor vessels at their Lutong Moorings (see "Tankers").

ANCHORAGE: for cargo, passengers or clearance. It is recommended that vessels anchor close inshore directly opposite Miri River Mouth, but caution must be exercised as sudden squalls and swell up to 4 ft. can occur, for which allowance should be made.

Cargo usually worked into or from wooden lighters of 30 to 35 tons capacity. Swell often restricts work to landward side only and swell or wind often make it difficult to work Hatch No. 1 in some vessels. Accommodation ladder should be lowered on landward side to enable shore personnel to board.

Prohibited Anchorage and Berthing Area. From *(a)* 4° 30′ 54″ N.; 113° 56′ 19″ E. in a 090° direction to the shore; and from *(a)* to *(b)* in 4° 27′ 30″ N.; 113° 47′ 01″ E., thence in a 090° direction to the shore.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

Free pratique granted without health inspection to vessels calling to lift bunkers only at Lutong Moorings, provided ship healthy. Vessels with unclean bill of health or vessels which have not declared themselves healthy in their arrival notice telegram are subject to normal Port Health inspection procedure. Therefore of utmost importance that arrival notice is sent not less than 24 hours before arrival and contains all information requested (see "Radio") in order to prevent unnecessary delay.

RADIO: Miri Radio call sign 9 WW21, frequency 500 kc/s., operates at following hours local time: 0900–0930, 1300–1330, 1700–1730, 2100–2130. Present station has a limited range and if difficulty is experienced making contact, vessels should pass messages through other stations, such as Singapore radio, or through other ships in close vicinity of Miri.

Arrival notice must be telegraphed at least 24 hours before arrival and should contain following information:

All vessels

(a) expected time of arrival (local time GMT plus 8 hours);

(b) name of last port of call and next port of call, if not previously advised;
(c) whether or not ship is healthy.
For bunkers
(d) quantity of bunkers required, in long tons at least 48 hours notice is required;
(e) provisions or medical attention required, if any.
For cargo
(f) tonnage to discharge, if any;
(g) number of gangs required to load;
(h) number of winchmen required to load.
Passengers
(i) number of passengers to disembark.

BERTHING: Cargo vessels – see "Anchorage", oil carriers – see "Tankers".

MEDICAL: Treatment of urgent cases available on shore subject weather conditions. Early notice should be telegraphed of medical requirements.

TANKERS: Lutong Terminal position 04° 30′ North 113° 57′ East (approx.). Open sea berths lying about 3 miles offshore just Northward of Lutong River mouth. Berthing any hour day or night. Await Berthing Master in area bounded by lines joining following positions: 04° 25′ N. 113° 56.25′ East; 04° 25′ North. 113° 55′ East; 04° 26.25′ North. 113° 55′ East; 04° 26.25′ North. 113° 56.25′ East.

Pilot ladder should be rigged for Berthing Master, and starboard derrick near fuelling connection should be topped-up and rigged to lift heavy equipment required for mooring and connecting pipelines and which has to be taken on board before proceeding to mooring berth.

Moorings are in a prohibited area which must not be entered without a Berthing Master of Sarawak Shell Oilfields Limited on board.

Berth	*Max. length*	*Max. draft*
SBM 1	600 ft.	40 ft.
SBM 2	750 ft.	40 ft.
SBM 4	820 ft.	44 ft.

No slop discharge facilities.

FRESH WATER: No fresh or boiler water available.

FUEL: No ex-barge facilities but bunkers obtained from Lutong Terminal.

Nos. 2 and 4 Sealines. Available for bunkering dry-cargo vessels. Ship's spring wire will be used to haul ends of mooring wires on board and mooring winches should be double gear and in all respects ready for use. All other gear for mooring and connecting pipes is brought on board with Berthing Master at Pilot Station. Bunkers will be supplied through 8-in. flexible hose brought up on starboard side amidships and appropriate flange on ship's connection should be removed in advance. Berthing Master will remain on board throughout bunkering operation and will leave after vessel has unberthed. Mooring and unmooring operations each require about 1.5 hours and bunkering rate usually 45–75 t.p.h.

CUSTOMS ALLOWANCES: Bonded Store on vessels other than those berthing at Lutong Moorings for bunkers only and exempted from formal clearance, sealed by Customs after allowing a daily ration for duration of stay in port.

1 Customs Officer will remain on board all vessels anchored in Miri Roads and accommodation, if necessary, should be arranged for them. The Agents' staff will remain on board throughout all cargo operations and it would be highly appreciated if meals could be supplied to them and to the Customs Officer in view of the long time occupied travelling by launch between ship and shore.

AIRPORT: Distant 10 miles. Daily flights.

TIME: GMT plus 8 hours. Permanent.

SHORE LEAVE: It is regretted that both passengers and crew must be dissuaded from coming ashore other than for medical attention, owing to weather and tidal restrictions.

REPAIRS: No facilities for repairs.

LUBRIÇANTS: Generally, lubricants not available but in emergency certain grades sometimes obtainable in very limited quantities.

PROVISIONS: Limited fresh provisions and ex-bond stores available for which vessels should give 72 hours notice of requirements so that arrangements can be made to secure the required supplies.

REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during daylight hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

POLICE/AMBULANCE/FIRE: Tel. 999.

AUTHORITY: Marine Officer, Marine Dept., Miri.

AGENT: Lloyd's sub-agents in Miri. The Borneo Company (M) Sdn. Bhd. Postal address PO Box No. 60, Miri, Sarawak. Tel. office: 3365, 3366, 3367; out of office hours: 3261, 3344. Telegraphic address "Borneo Miri".

The Borneo Co. (M) Sdn. Bhd. operate their own launches and a representative will board vessels as soon as possible after arrival.

PENANG, Malaya: 05.25 N. 100.21 E. (See Plan)

DOCUMENTS:

The report of arrival (provided in Marine Shipping Ordinance, 1952).
A copy of Passenger Statistics on prescribed forms.
A List of Crew Members.
A List of Passengers.
Evidence of last port clearance.
All Ship's Documents (safety equipment, deratisation, radio, load line and register).
Maritime Declaration of Health.
International Health Certificate for passengers and crew.
Vaccination List, for Smallpox and Cholera, for passengers and crew.
Departures: Port Clearance Certificate signed by the Port Health Officer, to be shown to the Port Officer issuing clearance.

For oil tankers, a copy of Ship's Manifest to be submitted. Ship carrying explosives, Captain required to fill prescribed form "D" stating quantity of explosive cargo ship is carrying together with copy of Ship's Manifest.

PILOTAGE: Vessel approaching port has to send telegram to Pilot Office direct (cable address "Pilots Penang") or to ship's Agent stating "ETA North Channel Light Float" or in case of South Channel "ETA Pulau Rimau". Draft of vessel to be given. Pilot Office may be contacted through Penang Telephone Exchange on VHF Channel 16 to local telephone No. 63313. At least 6 hours advance notice should be given before arrival at Pilot point.

Pilot boats have a blue hull, varnished upperworks with "Pilot" written in bold letters on both sides of boat.

Pilot is usually taken on board, for North Channel, in vicinity of North Channel Light Float and for South Channel, in vicinity of Rimau Wreck Buoy 1 mile South of Pulau Rimau Lighthouse.

Vessels awaiting tide can anchor, in case of North Channel, in area shown by pecked lines marked anchorage area in Chart No. 1366. For South Channel ship can anchor in vicinity of Rimau Wreck Buoy. During bad weather, provided draft suitable, vessels sometimes requested enter and take on Pilot at Erskine Buoy.

Pilotage is compulsory for all vessels navigating in pilot district of Penang with the exception of fishing vessels and vessels of below 600 g.r.t.

Shipmaster's Report: The KRA lightvessel, on the Outer Kra Bank to the South of the South Channel, is non-existent.

The Pilot station is now equipped with VHF but operates on Channel 12 only. The Pilot Launch is also equipped likewise, as is a car that transports the Pilots from their homes to Batu Maung Point where they board the launch. It takes them exactly 1 hour from their homes until they are aboard a vessel at Rimau Buoy, therefore a minimum 2 hour notice is adequate.

One Pilot advised me not to approach the South Channel at any time if the vessel's draft is over 24 ft. He stated that the bar to the S.W. of Rimau Buoy has not been surveyed for many years and that possible silting may leave it on a lesser depth than the chart suggests. The approach to the North Channel is safe.

ANCHORAGES: The anchorage for foreign going steamers (other than those carrying dangerous cargo or quarantine ships) is Southward of the S.W. corner of the Man of War Anchorage (shown on Admiralty chart by pecked lines) and Eastward of a line drawn from this point to the Northern white mark buoy and thence 180°. Vessels must moor so as to swing clear of these lines at all states of tide.

The anchorage for coasting power vessels is Southward of a line drawn 270° from the Northern white mark buoy and Westward of a line drawn 180° from this buoy. Vessels must swing clear of these lines at all states of the tide.

RESTRICTIONS: No entry restrictions imposed other than those dictated by state of tide and draft of vessel.

MAX. SIZE: No limitations of size of vessel except for draft. North Channel chart datum 26 ft. South Channel chart datum 22 ft. Vessels of up to 32 ft. can use port but must wait for high water.

RADIO: Penang Radio, call sign 9–MG.

VHF: Vessels can communicate direct to Pilot Office via VHF operated on Channel 12 VHF within a range of 15 miles. A separate VHF network links the tugs, launches and the Commission's personnel working on board vessels in the roads.

TUGS: May be required to berth vessel at Butterworth Wharves in Port Penang. Tug joins vessel when at close proximity to wharves. Usual for tug's lines to be used.

2 tugs available, 1,320 b.h.p. and 1,200 b.h.p. Also 1 small tug of 440 b.h.p. and 1 tow-boat of 174 b.h.p. available to tow lighters to and from vessels.

BERTHING: There are 2 wharves, viz. Swettenham Pier on the island of Penang and Butterworth Wharves on the Mainland.

Swettenham Pier: 2 ocean berths of 1,200 ft. length with 32 ft. of water alongside. There is 168 sq. ft. of covered storage accommodation.

Butterworth Wharves; 5 ocean berths of 2,928 ft. length with 32 ft. of water alongside. There are 5 transit sheds of 148,000 sq. ft., 7 storage godowns of 261,000 sq. ft. an open sided timber shed of 90,000 sq. ft. and 140,000 sq. ft. of open storage area. 9 godowns of 384,000 sq. ft. near the port area are leased to private companies.

SPECIALISED CARGO-HANDLING FACILITIES: No special berths for handling bulk cargo. 2 of the berths at Butterworth Wharves are designed to handle containerised cargo when such facilities are required. At Swettenham Pier and Butterworth Wharves there are vegetable oil bulking installations. Pipe-lines are connected from the installations to the wharves.

CONTAINER HANDLING FACILITIES: Available at Butterworth wharves to service feeder container vessels and conventional vessels transporting containers includes:—

(a) A marshalling yard of 16.5 acres with storage space for 2,400 containers.
(b) A container freight station of 42,000 sq. ft. and a back-up godown of 51,000 sq. ft. to accommodate any overflow of cargo from the container freight station.
(c) 20 power points for refrigerated containers.
(d) 2 units straddle carriers.
(e) Prime movers with 20 ft. and 40 ft. trailers and other mechanical equipment for the container freight station.

A heavy lift crane with the capacity to lift 20 ft. containers at 80 ft. radius and capable of plumbing the hatch of vessels berthed alongside the wharves will be available by September 1976.

CARGO HANDLING EQUIPMENT: At Butterworth Wharves one mobile crane of 30 tons capacity, 14 mobile cranes of 2-to 3-ton capacity, 62 fork-lift trucks of 6,000 lb. capacity, 3 fork-lift trucks of 13,000 lb. capacity and 28 LPG fork-lift trucks for hatch work. At Swettenham Pier 1 mobile crane of 10-ton capacity, 2 electric cranes of 3-ton capacity, 8 fixed and mobile cranes and 25 fork-lift trucks. Scores of tractors and trailers make up the rest of the mechanised cargo-handling equipment of the Commission.

LIGHTERAGE: In the event of a vessel working in the Roads, lighterage is available for the transport of goods to and from the vessel. There are about 229 lighters operated by private companies and twenty 150-ton lighters by the Commission for lightering of cargo in the Port. In the case of the Commission's lighters, lighterage is only undertaken for import cargo.

STEVEDORES: Stevedores can only be provided by stevedore contractors at short notices but normally a min. of 12 hours will be required. Shipping Agents normally make these arrangements with stevedoring contractors.

MEDICAL: Advance notice is necessary if medical attention is required so that arrangements can be made with Medical Department by Agents.

TANKERS: 2 tanker berths. Esso Wharf, 27 ft. at low water. Caltex Wharf, 35 ft. at low water. Mud bar approach to Caltex Wharf is 29 ft. at low water. Tankers also occasionally call at Swettenham Pier to deliver oil to City Council Power Station.

FRESH WATER: Available at all times. Delivery can be by means of hydrants at berths or by water-boats to vessels anchored in Roads. Rate of delivery is approximately 40 t.p.h.

FUEL: Fuel available from private oil companies at 24 hours notice. Limited quantities of fuel can be supplied by barges to vessels in the Roads.

GANGWAY/DECK WATCHMEN: Services of a watchman recommended.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

IDENTIFICATION CARDS: Needed only when a crew member is discharged after hospitalisation or when he is repatriated.

REPAIRS: Minor repairs can be undertaken.

DRY DOCKS: Dry docks not available for ocean carriers. Slipways available for vessels of 700 nrt with dimensions of 190 ft. × 40 ft.

REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriation.

AIRPORT: Distance from port to airport approximately 11 miles. Served by both international and local airlines.

TIME: 7.5 hrs. ahead of GMT. No alteration to clocks during year.

HOLIDAYS: 3 port holidays a year: Hari Raya Puasa, Hari Raya Haji and National Day.

POLICE/AMBULANCE/FIRE: Dial 999.

TELEPHONES: A telephone is placed on every ship that berths alongside. This is one of services provided under a common charge known as the wharf service charge.

SERVICES: All types of minor marine servicing is available. Provided by private firms. Some of the services are draft survey, general conditioning of ship, valuation of ship, accident survey, inspection of refrigeration, radar adjusting service, compass adjusting and tank-cleaning facilities.

SHORE LEAVE: Allowed.

REGULATIONS: Free port, and as such, when a vessel calls at port, Customs search party may go on board vessel to search for contraband goods.

DEVELOPMENTS: The Commission is constructing at Butterworth Wharves a Sixth Berth which will be a container berth with berthing facility for roll-on/roll-off vessels and provision for a gantry crane. Work has already commenced and the project is expected to be completed in late 1977.

The Penang Port Commission is also constructing a Bulk Cargo Terminal at Prai with the view to provide an efficient and modern dry and wet cargo bulk cargo handling facility at the Port of Penang.

It includes the provision of shore facilities for storage of both wet and dry bulk cargo together with deep water wharf for ships to directly discharge and load cargo. The wharf frontage will have a draft of 32 ft. and will be connected to the shore facilities by belt conveyors, pipes and a 4,000 ft. long jetty. The terminal is designed to handle 1.8 million tons of bulk cargo per year. Work has already started and is expected to be completed by mid 1979.

The Commission's other proposed development projects for the Third Malaysia Plan period 1976-1980 includes:—

(a) Construction of a Vegetable Oil Tanker Pier at Butterworth.
(b) Feasibility study into the deepening of the North channel.
(c) Modernisation of Bagan Dalam Dockyard.

The Commission has appointed a consulting firm to undertake an engineering feasibility study into the construction of a Vegetable Oil Tanker Pier of open dolphin supported structure extending Southwards from Berth No. 1 Butterworth wharves into the Prai estuary. The proposed construction of the Vegetable Oil Tanker Pier is in response to the increasing need for specialised facilities for the palm oil and coconut oil trade which has grown substantially over the last few years.

The main shipping entrance to Penang Harbour from the Straits of Malacca is via the North channel around the Northern and North Eastern shores of Penang Island. However, the channel crosses a wide flat bar with a least depth in the Fairway of about 26 ft. chart datum preventing the entry of vessels over 32 ft. draft into the harbour.

In view of this draft restriction, the Port of Penang is not able to service cellular container ships, deep draft bulk carriers for wet and dry bulk commodities such as petroleum, vegetable oils, ores, etc. The Commission proposes to carry out a feasibility study with a view to deepen the North channel in order that the port may be able to service these types of large vessels.

The Commission has a dockyard at Bagan Dalam where dry docking, repair and overhauling of its floating craft are undertaken. it is proposed to expand and modernise the dockyard to service the Commission's expanded fleet of ferry vessels, provide adequate facilities for future increases in the number of floating craft as well as having sufficient spare capacity to service government and commercial vessels up to 700 tons displacement.

DELAYS: Rain is only factor that may delay a ship's discharging or loading operations.

AUTHORITY: The Penang Port Commission.

PORT DICKSON, Malaya: 02.31 N. 101.47 E.

DOCUMENTS:

1. *Harbour Master's Office or Marine Department*
   (a) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.
   (b) One copy, Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths that have occurred during the voyage to the passengers, crew, ship or cargo.
   (c) Port Clearance from last port and copy of Manifest of Cargo to be discharged.
   (d) List of all arms and explosives on board.
   (e) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port, produce to Port Officer the Certificate of Registry and ship's Articles.
   (f) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load-line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Derating Certificate and all Certificates of Competency of all Officers on board.
   (g) Crew List.
2. *Immigration Authorities*
   (a) Crew List (3 copies).
   (b) Passenger List (3 copies).
   (c) Produce all passengers passports/visas.
   (d) Produce all seamen's cards.
   (e) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.
3. *Port Health*
   (a) Crew List showing last date of vaccination.
   (b) Passenger List showing the last date of vaccination.
   (c) Produce all seamen and passengers' vaccination cards.
4. *Customs Department*
   (a) Crew List (2 copies).
   (b) Passenger List (2 copies).
   (c) Personnel Effects List (2 copies).
   (d) Cargo Manifests (2 copies).
   (e) Last Port Clearance.
   (f) Bonded Stores List (2 copies).
   (g) Full and correct statement of dutiable goods carried as ship's stores (2 copies).
   (h) Customs Form C.D.15 obtainable from Customs Department on arrival.

APPROACHES: Deep water approach channel from N.W., marked by four light buoys, presents no difficulties and is clear.

Leading lights also exhibited which when in line bearing 070°, lead up to harbour over a sand ridge in depths of about 3.5 fathoms.

PILOTAGE: The Port Dickson area does not constitute a Compulsory Pilotage District under provisions of Merchant Shipping Ordinance, 1952. Private pilotage services are, however, operated by Shell and Esso for vessels making use of their respective marine installations. Mooring Master boards tankers at Banbeck Shoal Buoy.

Ship's Officer's Report: Pilot boards one mile off Fairway Buoy. However, vessels of less than 30,000 d.w.t. holding Admiralty Chart No. 1140 may be requested to proceed inwards, Pilot boarding at No. 1 Buoy. Coasters proceeding to Headlands Jetties may be required to do own pilotage.

ANCHORAGES: *(a)* Good anchorage may be obtained in depths from 15 to 20 fathoms, Westward and South-Westward of Tanjong Kamunin. Small vessels may obtain anchorage in depths from 4 to 5 fathoms North-Eastward of Pulau Arang Arang, but holding ground is poor.

(b) Quarantine Anchorage is Westward of 10 fathoms line with leading light beacons of Port Dickson in line, bearing 070°, and

within 15 cables of front leading light beacon situated on Railway Jetty.

(c) Prohibited Anchorage Area indicated by pecked lines on chart and described under Port (Negeri Sembilan) (Amendment) Rules, 1963. This area contains a tanker mooring buoy, with extensive ground tackle and floating hose attachments, which is connected to the shore by a submarine pipe-line. Passage between the buoy and the shore is also prohibited.

RADIO: *Ship's Officer's Report:* Send ETA 96 hours and 24 hours in advance. Two hours before arrival keep listening watch on Channel 16. Shell Oil Terminal on VHF Channel 16 and 9. Cargo operations are carried out on Channel 9.

TUGS: No tug-boats available.

MAX. SIZE: Up to 47 ft. draft at S.B.M. terminal.

BERTHING: Port installations at Port Dickson comprise the following:

A small boat harbour contained in the curve of the stone approach to the Railway Jetty which affords little shelter against Southerly winds dries out at low water.

The Shell Jetty – property of the Shell Refining Co. (Malaysia) Ltd. (Private). Reinforced concrete jetty 700 ft. with "T" head 170 ft.×36 ft.

The Esso Jetty – property of the Esso Standard Malaya Ltd. (Private). Reinforced concrete island jetty 200 ft.×24 ft.

The Railway Jetty – property of the Malayan Railway Administration. Stone pier 600 ft. length terminating in a crosshead 150 ft. long with steel piling and wooden deck.

The Joint Shell/Esso single-buoy Tanker Mooring and Crude Oil Discharging Terminal.

Stone ramp on foreshore usable by lighters at high water.

MEDICAL: District hospital with 150 beds.

TANKERS: Shell/Esso Single Buoy Mooring for crude discharge into submarine pipe-line. Refineries produce petroleum products for export. Deballasting facilities up to 35,000 barrels capacity.

Esso Product Jetty: Berth is constructed of reinforced concrete. The island jetty is 200 ft.×24 ft. with 4 off-lying mooring buoys inshore for mooring purposes. Accommodation for one vessel on outer face only.

Max. LOA 575 ft.; max. draft 34 ft.; max. size 19,500 d.w.t.

Shore connections:

1×20 in. black oil/ballasting
1×16 in. white oil line
1×10 in. LPG line
1× 4 in. inert gas line
1 crane to handle hose

FRESH WATER: Available at Shell and Railway jetties.

FUEL: Bunker fuel-oil available. No diesel.

DEVELOPMENTS: Proposal to enlarge facilities and to provide deep-water berths.

CUSTOMS ALLOWANCES: Tobacco, cigarettes 25 in number per man per day, or cigars 8 in number per man per day, or tobacco 1 oz. per man per day, or snuff 1 oz. per man per day. Wine and/or spirits, spirit .175 qt. per man per day, or wines 1 qt. per man per day, or beer or stout 1 qt. per man per day.

REPAIRS/DRY DOCKS: None.

HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammad's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali,1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.

AIRPORT: None.

AUTHORITY: See "Malacca".

PORT KELANG, Malaya: 03.00 N. 101.24 E.

(See Plan)

PORT LIMITS: All the waters in the Klang Straits, Klang River, Sungei Aur, Selat Lumut, Sungei Langat and other waterways contained within the parallels 2° 58′ N. and 3° 05′ N. and the meridians 101° 20′ E. and that passing through Connaught Bridge i.e. 101° 28′ 30″ E. approximately including all piers, jetties, landing places, wharves, quays, docks and other similar works whether within or without the line of high water mark, any position on the shore or bank within 50 yards of high water mark subject to any rights of private property therein.

APPROACHES: Ships from and to Penang enter and leave the port by the North Klang Straits, and ships from and to Singapore enter and leave by the South Klang Straits. The entrance channel at the North Klang Straits is dredged to 36 ft. below datum. A very large deep water anchorage for ships is available at the North Klang Straits. For ships entering the Old Port, the permissible draft is 28 ft. and 22 ft. plus the height of tide through the North Klang Straits and South Klang Straits respectively.

DOCUMENTS: *(a) For Agent.* Vessels required to fill in arrival report which may be obtained from Agent at Singapore or Penang or Boarding Agent on arrival. This should be completed and handed to Boarding Agent together with last Port Clearance and one copy each of Crew List and Passenger Lists for submission to Marine Department.

Vessels should have ready and hand to Boarding Agent on arrival the following:

Arrival Report.
Last Port Clearance.
Two copies of Crew List.
Two copies each of Disembarking and Transit Passenger Lists (if any).
List of Explosives, dangerous cargo on board.

Following documents should also be handed to Boarding Agent on arrival and will be returned to vessel after perusal by Marine Department:

Malaysian Light Dues Receipt (if any).
Ship's Register.
Radio Safety Certificate.
Safety Equipment Certificate.
Load Line Certificate.
Deratisation Certificate.

Port Health Officer now requires all vessels arriving from foreign ports to submit an "Entry Declaration" on form Health 43, on the International "Maritime Declaration of Health" form or on a similar copy, and this should be handed to Boarding Agent, together with copy of crew list, in cases where vessels are not in Quarantine, in which case doctor does not attend on board.

Note: Endorsement of Port Clearance must be obtained from Port Office at Marine Office before a fresh Port Clearance can be issued by local Customs Authorities and handed to vessel before sailing.

(b) Immigration

2 copies Crew List.
2 copies Passenger List (Disembarking and Transit).

(c) Customs

2 copies Customs List (CD.15).
1 Crew List.
1 Passenger List.

FLAGS: The Malaysian Flag. Flag "Q" meaning Health Clearance required. *Flag 2/5 meaning No passengers on board, or *Flag 3/4 meaning Passengers on board. Pennant Zero is not required since Boarding Officers do not board the ship on arrival. Flag H meaning Pilot on board. (*Applies only to vessels arriving from foreign ports, which now includes Singapore.)

Note: Except for vessels under way, no vessel in port may use its siren except in case of an emergency when no other means of communication is available. The Authorities strictly enforce this rule and vessels infringing it become liable to heavy fine.

PILOTAGE: Available 24 hours a day. Pilotage compulsory.

(a) Application. Piloting carried out by Kelang Port Authority. Masters to cable "Pilots Port Kelang" giving ETA and point of arrival, i.e. Pintu Gedong or Pulau Angsa and draft at least 4 hours before arrival, as Pilots will not leave shore until confirmation received from vessel. Both North and South Channels are well marked and Pilots consider it quite safe to arrive and depart at any hour.

Vessels approaching this port normally apply through Agent, giving ETA Pintu Gedong, Pulau Angsa or Deep Water Point, together with draft and port of departure.

(b) VHF. If vessels wish to communicate direct all pilot boats are fitted with VHF for use between pilot office, pilot boats, pilot boat to pilot boat and where necessary to vessels arriving at this port. Operated on Channel 12 of International Maritime VHF radio telephone bands, and of a range of 20–25 miles.

(c) Recognition. Pilot boats painted orange and have white superstructure.

(d) Boarding. Unless advised otherwise Pilots will be ordered to board vessels at Pulau Angsa (North Channel), or Pintu Gedong South of the Seaward Bar Buoy.

Pilot ladders should be of approved Standard pattern internationally used.

(e) Waiting for Pilot. Location for a vessel awaiting Pilot is at Pintu Gedong 5 cables South of Seaward Bar Buoy, at Pulau Angsa 1 mile East of Pulau Angsa Island, and at Deep Water Point where anchorage is available according to number of vessels already anchored.

ANCHORAGES: Per latest Admiralty charts. Vessels may load timber and ore from privately owned junks at Deep Water Point Anchorage. In exceptional cases and with permission of Port Authority it is also possible to work with Authority Lighters at Deep Water Point.

RESTRICTIONS: (See "Max. Size"). Pintu Gedong, the Southern Channel Pilot Station, there is a restriction, of which vessels will be advised when giving their ETA.

MAX. SIZE: Max. length of vessels using South Port (old port) is: dry cargo vessels, 565 ft. LOA with draft of 32 ft., tankers, up to 560 ft. LOA and draft 32 ft. Tidal conditions govern movements of all vessels over 500 ft. LOA in the South Port but not at the North Port (new port). Vessels of up to 621 ft. can be berthed under any conditions at the North Port but only under special tidal conditions at the South Port.

At the North Extension Wharves, container ships of 950 ft. can be berthed.

HEALTH: Port Health Officer will board vessels arriving from infected ports, or carrying deck passengers at Deep Water Point between 0700 and 1800 hrs. All ships arriving from foreign ports should ensure that all on board hold valid smallpox vaccination documents.

All vessels should include in arrival cables confirmation that all well on board and also that all health papers in order. It should be understood that the health papers referred to include deratisation, or deratisation exemption Certificate.

RADIO: ETA cables normally routed via Singapore or Penang as no radio station in Port Kelang. Such messages when received are transmitted by telephone to Agents/and or Pilots at Port Kelang.

VHF: (See "Pilotage"). Ship to shore telephones available at all berths at North Klang Straits, and VHF sets available for ships in moorings. Klang Exchange keeps a 24-hour watch on Channel 16 and will connect the vessel to any telephone receiver ashore. For local calls the cost is $1.92 for three minutes (approx.).

TUGS: Supplied by Port Authority and normally "stand by" vessels berthing at wharves as and when required. Tugs towing use ship's lines, tugs pushing use their own lines. 5 tugs available to assist in berthing and unberthing and are equipped with fire-fighting appliances and radio communications system. When vessels berth or unberth at wharf tugs ordered by Agent in consultation with Pilots and once in attendance are charged for whether used or not. Tugs also used to swing vessels in stream which are stemming ebb tide on departure. In addition 3 smaller tugs used to tow lighters to and from vessels.

BERTHING: There are 2 ports viz: the South Port or Old Port and the North Port. Vessels berthing in the South Port (Old Port) are governed by tidal conditions which vary considerably. Vessels over 525 ft. LOA are usually berthed port side to on the ebb and then only when tides are favourable. There is usually no objection to vessels unberthing from the wharf at night although generally speaking vessels will not be berthed at night. As a general rule discharging vessels will berth at North Port (North Klang Straits) and loading vessels in the stream in the South Port (Old Port).

(a) South Port. 3 ocean wharves of 2,190 ft. length with 30 ft. of water alongside, 2 coastal shipping wharves of 650 ft. with 20 ft. of water alongside, 5 swinging buoys, and 2 anchorages. 3 to 4 vessels of not more than 250 ft. in length and with drafts of up to 18 ft. can be accommodated at North Shore anchorage.

(b) North Port (North Klang Straits) Wharves. 4 ocean wharves with total length 2,490 ft. Each berth 580 ft. long, with 202 ft. Concrete wharves with a safe working load of 4 cwt. per square foot and a maximum point load of 10 tons. Draft alongside all 4 wharves 30 ft. Rail track on wharf apron. In addition 2 container wharves, each 1,050 ft. long and 1 conventional cargo wharf 700 ft. long have been built and are now in operation. The wharf aprons are 260 ft. wide. Depth of water alongside is 45 ft. There are 2 container cranes on the container wharves. If there are no container ships in port, these wharves will be used by conventional vessels.

Depth of water alongside is 45 ft. Container stacking yard is 28 acres. Freight station measures 600 ft.×120 ft.

Container Handling Equipment: 2 container cranes of 35 tons capacity each (which can handle 800 containers a day).

16 straddle carriers of 30 tons capacity each.
20 prime movers.
12 × 20 ft. and 10 × 40 ft trailers.
53 forklifts.
2 tugs of 2,700 h.p. each.

(c) General.

Facility		*Depth Below New A.D.C.* (ft.)
North Klang Straits Approach		36
Pintu Gedong Bar		22
Labohan Garap Bar		25
No. 1 Wharf	400 ft. length	20
No. 2 Wharf	350 ft. length	20
No. 3 Wharf	480 ft. length	20

No. 4 Wharf	580 ft. length	35
No. 5 Wharf	580 ft. length	35
No. 6 Wharf	580 ft. length	30
No. 7 Wharf	580 ft. length	30
No. 8 Wharf	580 ft. length	30
No. 9 Wharf	580 ft. length	30
No. 10 & 11 Wharf	1,050 ft. length	45
No. 12 & 13 Wharf	1,050 ft. length	45
No. 14 Wharf	700 ft. length	
No. 1 Buoy on 600 ft. swing		23
on 500 ft. swing		30
No. 2 Buoy on 600 ft. swing		23
on 500 ft. swing		29
No. 3 Buoy on 600 ft. swing		17
on 500 ft. swing		26
No. 4 Buoy on 600 ft. swing		20
on 500 ft. swing		25
No. 5 Buoy on 600 ft. swing		24
on 500 ft. swing		24
No. 6 Mark on 600 ft. swing		30
on 500 ft. swing		30
No. 7 Mark on 600 ft. swing		30
on 500 ft. swing		40

Distance between buoys is as follows:

Distance between No. 1 buoy and No. 2 buoy	1,200 ft.
Distance between No. 2 buoy and No. 3 buoy	1,200 ft.
Distance between No. 3 buoy and No. 4 buoy	1,200 ft.
Distance between No. 4 buoy and No. 5 buoy	1,300 ft.

The above distances allow for slackness in pendants at low water. The depths listed combined with tidal predictions for current year give actual depth of water.

STEVEDORES: Almost all timber loaded from private junks for which no lighter gangs needed. Average working rate, subject to stow, for timber in loose pieces is 4–6 t.p.h., and in bundles 6–8 t.p.h. Not more than 2 lighters or "tongkangs" may lie alongside any vessel abreast of each other and not more than 2 lighters shall be moored astern of a vessel.

Rubber, latex in drums, etc., loaded by Port Authority and lighter/wharf gangs are required. Average working rate for these commodities is 14 t.p.h.

The average rate of discharge at North Port (North Klang Straits) wharves is 14–16 t.p.h.

On-board stevedores provided by the Port Authority. Requirements for the 1st shift should be made known by 1300 hrs. the previous day and for 2nd shift by 1000 hrs. same day and the 3rd shift not later than 1130 hrs. the same day.

Working hours throughout the port: 1st shift 0700 to 1500 hrs. (meal break 1100–1200 hrs.). 2nd shift 1500 to 2300 hrs. (meal break 1900–2000 hrs.). 3rd shift 2300 to 0700 hrs. (meal break 0300–0440 hrs.).

MEDICAL: A number of private doctors in Port Kelang and it is often not necessary to give any advance notice of medical attention being required. In event of vessel requiring urgent medical attention on arrival, advisable for Master to cable Agent in advance. At present 2nd class medical facilities available in Kelang and 1st class facilities only available in Kuala Lumpur. As vessels arriving at Port Kelang normally do so after calling at Penang or Singapore no inoculation, vaccination or fever certificates are required unless either Singapore or Penang is declared an infected port.

TANKERS: Tankers always berth port side to on ebb and near slack water. Vessels with bulk liquid cargoes to load or discharge will berth at wharves 3, 4, or 5. When a number of pumping vessels in port, vessels will usually occupy these wharves only for the time it takes to complete pumping and may then have to shift to stream or another wharf. Three of the ocean wharves are provided with facilities for handling liquid cargo. Liquid cargoes now being handled are: latex, palm, coconut oil, petroleum products, alkane, tallow and fuel oil.

Shell Company has a private jetty on which vessels up to 320 ft. in length with drafts not exceeding 20 ft. can be berthed.

DENSITY: Varies considerably with state of tide and heavy monsoon rains.

FRESH WATER: Waterboat, capacity 200 tons, available to supply vessels in South Port (Old Port) and at Deep Water Point with fresh water. As much notice as possible should be given if waterboat required. At North Port (North Klang Straits) water available from wharf. Pumping rate about 20–25 t.p.h.

FUEL: Bunkers are available.

FIRE PRECAUTIONS: In respect of tankers loading or discharging inflammable cargo, necessary to have wharf cordoned off and "No Smoking" signs exhibited prominently. Port Fire Brigade required to be on stand-by at wharf whilst operation in progress. Vessel may not disable engines whilst alongside wharf and shall have axes ready in event has to leave wharf urgently and necessary to cut ship's lines. Port Fire Service on duty 24 hours a day throughout year. Service is capable of fighting all types of fire whether on land or on sea. Fire service has following equipment: 3 fire engines, 1 Land Rover fire engine, 2 trailer pumps, 3 fire fighting tugs.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS/IMMIGRATION: Customs Officer will board vessel soon after arrival to seal the "Bonded stores". For vessels staying in port some time it is usual to issue three days supply – a further issue may be made on request after three days.

Immigration Officer will clear vessels arriving from foreign ports on all days between 0700 and 2100 hours. No one may board or leave or approach within one cable length of such vessel without special permission until vessel has been cleared by Immigration Officer and Immigration Signal is hauled down. No Immigration formalities required for vessels arriving from or leaving for other West Malaysian ports (Malacca and Penang).

IDENTIFICATION CARDS: Advisable that members of crew carry identification cards when leaving ship.

CONSULS: Consulates/Embassies/High Commissions in Kuala Lumpur (28 miles from Port Kelang).

Embassy of the United States of America.
Australian High Commissioner's Office.
Belgian Embassy
Consulate of Brazil
British High Commission
Burmese Embassy
Canadian High Commission
Consulate of the Republic of China
Royal Danish Embassy
Consulate of Finland
Embassy of France
West German Embassy
Indian High Commission
Embassy of the Republic of Italy
Embassy of Japan
Embassy of the Republic of Korea
Royal Embassy of Netherlands
New Zealand High Commission
Consulate of Norway (at Penang only)
Consulate of Panama (at Penang only)
Pakistan High Commission
Embassy of Philippines
Singapore High Commission
Royal Swedish Embassy

REPAIRS: Slipping facilities for repair of lighters and smaller tugs available. No facilities for major repairs to ships.

DRY DOCKS: None.

REPATRIATION: Crew changes and repatriation must be arranged by Agent. Harbour Master attends signing-on and signing-off of the crews on ship's articles.

AIRPORT: Subang International Airport approximately 20 miles from port on main trunk route to Malaysian capital of Kuala Lumpur and served by regular domestic flights and international flights.

HOLIDAYS: Port Closing Days. *Hari Raya Puasa; *Chinese New Year; Malaysia Day (31st August); *Deepavali; Christmas Day (25th

December). *Dates subject to changes as festivals coincide with Mohammedan, Chinese and Hindu calendars.

TELEPHONES: At North Port (North Klang Straits) Wharves telephones installed on board if required. At wharves in South Port (Old Port) there is always a telephone within easy reach at Wharf Office.

GENERAL: *(a)* Ship-Shore Communication. When vessels are berthed in stream or at Deep Water Point a 24 hour launch service can be supplied. Arranged by Agent in consultation with Master to suit requirements of ship.

Vessels permitted use own boats with proper navigation lights at night.

(b) Seamen's Club. "Mariner's Club" for officers and seamen outside No. 3 Gate of South Port. Club has swimming pool and bar.

(c) Diving. Diving services available for salvaging lost cargoes, examining underside of ships, etc. Divers capable of deep-sea diving down to 120 ft.

DEVELOPMENTS: The North Port is being extended Northwards. Phase 1 of the project consists of the construction of two bulk liquid wharves totalling 1,400 ft. and 2 container wharves totalling 2,100 ft. Completion of liquid wharves and one container wharf by late 1976 whilst the other container wharf to be completed by 1977. Phase 2 consists of the construction of another 3,500 ft. of wharves expected to be ready by 1980.

AUTHORITY: Lembaga Pelabohan Kelang.

ROMPIN (Kuala Rompin): inc. Pahang, Malaya: 02.43 N. 102.30 E.

DOCUMENTS:

Register.
Last Port Clearance.
7 copies Crew List and 4 for Agent.
5 copies Passenger List (if any).
5 copies Stowaway List (if any).
2 copies Stores List (including firearms and ammunition).
2 copies Dutiable Liquor and Tobacco List.
2 copies Crews Declaration List (cameras, radios, etc.).
1 copy Vaccination List.

Masters of vessels to fly the necessary following flags on arrival as required under Section 448 of the Merchant Shipping Ordinance and Sub-Section (9) of the Federation Port Rules, 1953.

(1) The Federation of Malaysia Flag.
(2) The Pennant "O" Flag. (Request Port Officer).
(3) The "Q" Flag (request Port Health Officer).
(4) The Pennant "2"; "5" Flags if no passengers and "3"; "4" Flags if there are passengers on board (Immigration).

PILOTAGE: Compulsory to the loading berths. Extra charge for pilotage outside normal office hours and holidays.

ANCHORAGE: On arrival, vessels required to anchor about 1 mile outside berthed ships to obtain pratique. An accommodation ladder must be rigged on lee side to allow Port Authorities to board.

READINESS: Notice of readiness cannot be accepted until vessel is in free pratique, Customs Inward Examination completed, and in all respects ready to load.

LOADING. *(a)* Ladders. Masters particularly advised to see that a sound and adequate ladder provided at each lighter to allow labourers engaged in loading to pass to and from ship with no undue risk. Regulations are provided in the Merchant Shipping Ordinance, Section 445, Sub-Section (O) which takes care of this requirement and failure to take adequate precaution in seeing regulation is observed may result in serious consequence to those responsible.

Masters requested to ensure that in addition to ladders for labourers, an extra ladder, preferably a clean pilot ladder, be made available at all times for the Agent for boarding. This ladder should be made fast on lee side, just forward of any scuppers in vicinity, and a heaving line from ship's rail made fast to bottom rung. When ladder not in use, bottom of ladder can be pulled up a few feet with heaving line to prevent labourers from using it or damage from lighters.

(b) Winches. All winches must be in single gear at all times.

(c) Derricks. Practice to work 2 sets of derricks to 1 lighter where practicable.

(d) Trimming. No manual trimming undertaken.

(e) Damages. In the event of your vessel sustaining damage by stevedores during loading, you are requested to inform the clerk and foreman on board immediately and as soon as practicable confirm same in writing to the Eastern Stevedoring Co. Ltd., Kuala Rompin, with copies to Hong Kong & Eastern Shipping Co. Ltd., Hong Kong, and Malay States Shipping Ltd., Kuala Rompin. It is important that full details of damage are given, together with measurements whenever possible.

Minor damage has occurred on vessels due to hatch beams not being bolted or lashed. Masters therefore requested ensure all beams adjoining working parts of hatches either bolted or lashed, otherwise stevedores will repudiate liability for any damage incurred.

OPENING/CLOSING HATCHES: Removal and replacement of hatch beams and covers must be done by ship's crew. Ship's Officers should see that any tween-deck beam removed is replaced before ore reaches that height.

CUSTOMS: Customs office hours 0830 to 1630 Monday to Friday, 0830 to 1300 hrs. Saturday.

IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.

HOLIDAYS: New Year's Day; Hari Raya Puasa, 2nd day; Chinese New Year, 2nd day; Hari Raya Haji, 2nd day; First Day of Muharram; Vesak Day; Birthday of Sultan of Pahang; Birthday of H.M. The Yang Di-Pertuan Agong; Birthday of Prophet Muhammad; Malaysia Day; Deepavali; Christmas Day.

Note: Where a holiday falls on a Sunday, the following day will be observed as a holiday, and if such latter day is already a holiday, then the day following shall be a public holiday.

GENERAL: *(a) Scrap Iron.* Steel mills in Japan complain from time to time of finding pieces of scrap iron in the iron ore cargoes. If this scrap is not found it will cause serious damage to the plant and occasion considerable delay to production: furthermore, should scrap iron enter the machinery there is always the possibility of it endangering life, and several fatal accidents have been attributed to this cause.

The assistance of officers and crew is requested in reporting any scrap iron they see being loaded, advising shippers into which hold it went and number of the lighter it came from to enable us to take appropriate action.

(b) Whistle, Radio. Wireless Transmitters, Whistles and Sirens etc., must not be used by vessels at anchor off Kuala Rompin.

(c) Stores. Bonded stores can be obtained from Kuala Lumpur and Kuantan at prices roughly same as Singapore. Essential, view Customs formalities, that Masters give Malay States Shipping Ltd., Kuala Rompin 6 days prior notice of requirements.

SHORE LEAVE: No seaman may proceed more than 3 miles from Kuala Rompin Customs House. The Officer in Charge Customs, as acting Immigration Officer, has authority to limit or prohibit shore leave in all cases.

AGENT: Malay States Shipping Sdn. Berhad, PO Box 2, Kuala Rompin, Pahang.

SABAH, including Kudat, Lahad Datu and Semporna: (See Plan)

DOCUMENTS: 8 copies all usual documents.

PILOTAGE: Applications normally made by Shipping Agents with advance notice of 24 hours prior to actual time that Pilot services required. Pilot boats between 30-40 ft. length and equipped with VHF/AM Sets – 80.4 Mc/s. frequency. Pilot station at Port Office and location for vessel awaiting Pilot is within port limit.

ANCHORAGE: All ports within bays, therefore provide safe anchorages.

RESTRICTIONS: No restrictions for vessels entering port at night.

MAX. SIZE: All ports unlimited, cargo worked at anchor.

HEALTH: To obtain pratique, arrange with Shipping Agent. Pratique for vessel entering, after calling at another port in same state, is not required. Anchor in quarantine anchorage if vessel is suspect and display following signals: *By Day:* International Code Signal "QQ". *By Night:* A Red light over a White light and a separate hoist of Red light over a Green light. Hoisted vertically 6 ft. apart where best seen.

RADIO: Singapore Radio recommended.

BERTHING: Application for berthing has to be made within 24 hours prior to actual time that berthing is required. *Details and Requirements:* Name of vessel, gross and net tonnage, length overall, draft (fore and aft), ETA at berth, ETD from berth, nature and tonnage of cargo to be discharged/loaded. No priority for berthing ships and the turn is, first come first served.

Kudat: L-shaped wharf with 2 berths. Western berth – length 370 ft. min. depth 21 ft. Eastern berth – length 300 ft, min. depth 21 ft.

Lahad Datu: L-shaped wharf with 2 berths. Outer berth, length 200 ft. min. depth 32 ft. Inner berth, length 130 ft. min. depth 30 ft.

Semporna: T-shaped wooden wharf with 2 berths. Outer berth, length 150 ft. min. depth 26 ft. Inner berth, length 127 ft. min. depth 20 ft.

STEVEDORES: Arrangement of stevedores should be made with 48 hours notice to Shipping Agent. Average load/discharge rate: General cargo, 15–20 tons per hatch per hour; cement 20-30 tons per hatch per hour.

MEDICAL: Arranged on arrival by Shipping Agent.

DENSITY: Average density in the ports 1020.

FRESH WATER: Available at Government General Cargo Wharves at a rate of 20 t.p.h.

DEVELOPMENTS: Lahad Datu, having new port installation and wharves facilities.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally by stevedores.

CERTIFICATES: Registry, Load Line, Radio, Safety Equipment and Derating Exemption.

CUSTOMS ALLOWANCE: Tobacco, Wine and/or Spirits: no control and up to discretion of Officers of Customs and Excise.

CARGO GEAR: Ships gear used.

IDENTIFICATION CARDS: Not needed.

CONSULS: At Kota Kinabalu.

REPAIRS: Marine Department operates engineering workshops at Labuan and Sandakan. Some private firms also undertake small engine and deck repairs.

DRY DOCKS: No dry docks available in the State. Marine Department has 3 slipways in Labuan which are capable of shipping vessels of 60 tons, 200 tons and 500 tons displacements. 1 in Sandakan for vessel up to 120 tons.

REPATRIATION: Normally arranged by Agents.
AIRPORT: Most airports in State between 2–5 miles from the town.
TIME: Local time is 8 hours ahead of GMT. No alteration to clocks.
HOLIDAYS: Cargo work can be arranged if necessary during official holidays, but not for Hari Raya Puasa, Chinese New Year and Christmas Day.
POLICE/AMBULANCE/FIRE:

	Fire/Police	*Hospital*
Kudat	333	335
Lahad Datu	81999	81522
Semporna	599	

SERVICES: No services available for cleaning tanks, but compass adjusting can be arranged with officers of Marine Department, Labaun.
SHORE LEAVE: Allowed.
DELAYS: Due to weather conditions only.
AUTHORITY: Sabah Ports Authority.

SANDAKAN, Sabah: 05.50 N. 118.07 E. (See Plan)

FLAGS: Signal letters, Mail flag (if any mail on board for discharge); "Q" flag is essential if Sandakan is the first Sabah port at which a vessel calls. If ship carrying passengers it should fly immigration signals Nos. 3 and 4; if no passengers Nos. 2 and 5.
DOCUMENTS: 5 sets of Inward Manifest in the prescribed form to be airmailed to Agent to arrive at least 48 hours before the vessel.
(a) To be Produced on Arrival:
1 Sabah Lights and Harbour Dues form
2 Manifest in the prescribed form
3 Crew List
1 Last Port Clearance
3 Stores List
3 Passenger List
2 Arms List
3 Narcotics List
2 Parcels List
(b) Required by Agent:
2 sets of Inward Manifests for all inward cargo
5 sets of Transhipment Manifests for all cargo to be transhipped at Sandakan.
2 copies of Hatch List.
1 copy of Passenger List.
1 copy of Crew List.
1 copy of List of Arms and Ammunition.
1 copy Narcotics List.
1 copy Stores List.
(c) To be Supplied to Ship before Departure:
Manifests, as required by vessels.
Captain's copy of B's/Lading.
Port Clearance and Customs Clearance.
Sabah Lights and Harbour Dues form.
(d) Immigration: Immigration Officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration require 2 copies of crew list and 2 copies of passenger list. Vessels cleared inward until 1800 hrs. only. If there are special circumstances arrangements can be made to clear vessels inward after this time.
(e) Marine Department: Shipping Arrival Report to be signed by Master of Vessel.
PILOTAGE: Pilotage not compulsory but if required the Harbour Master acts as Pilot. At least 24 hrs. notice should be given and position where Pilot is required to embark (i.e. the bar buoy or within harbour limits) should be included in the message. Pilot station tel. 3128.
ANCHORAGES: For loading timber: A black and white conical buoy situated 1.2 miles S.W. from Government Wharf indicates the anchorage. It is important that vessels should anchor as close to this buoy as possible, when anchored further from shore it may take up to an hour longer for launches towing rafts of timber to reach ship and in addition there is less shelter from wind and weather and consequently raftsmen have to cease work earlier.

For discharging: Unless it is intended to come alongside the wharf, vessels discharging should anchor 4 cables due South of wharf. Wharf is 750 ft. long with dolphins placed 100 ft. from each end giving a total length of 950 ft. If discharging into lighters and loading log timber simultaneously vessels should proceed to Timber Anchorage.
RESTRICTIONS: *(a)* Shifting: Vessels may not berth alongside after dark without special permission but they may leave the wharf, having given prior notice.

(b) Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset, except at discretion of Harbour Master. No dangerous cargo may be discharged simultaneously with general cargo except with permission of Harbour Master. Livestock: subject to approval of Veterinary Authority. Certain animals, including cattle, are prohibited imports and exports except under licence.
MAX. SIZE: Draft restriction is 25 ft. on the Bar plus the height of tide, mean high water being about 6 ft.
HEALTH: (Also see "Radio" and "Regulations"). If Sandakan is first port of entry into Sabah a vessel must proceed to quarantine anchorage until cleared by Health and Immigration Officials.

The Sabah Government are signatories to the WHO convention on quarantine regulations. If vessel comes from outside State of Sabah then Port Health Authority will require to board in quarantine anchorage before vessel can proceed to wharf or timber anchorage. If, however, vessel is not coming from an infected port pratique may be granted providing vessel cables Agent prior arrival advising last port of call and whether vessel healthy. Pratique normally cabled to ship but if unreceived, vessel must proceed to quarantine anchorage.

Port Health Authority require completed copy of Maritime Declaration of Health, and copies of Crew, Passenger and Narcotics Lists.
RADIO: (Information required before ship's arrival). ETA; number of passengers, health situation. Manifest. Amount of water required. Vessels not allowed to use their radio in port.

Marine signal station keeps watch on VHF Channel 16, from 0530 to 2000 hrs.
TUGS: A tug of 337 b.h.p. stationed at Sandakan.
BERTHING: (Also see "Anchorages").

(a) Mooring: The numbers of a vessel which is berthing alongside will be shown from signal station on Eastern end of Customs House. In addition, a cone indicating tidal stream will be hoisted pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines, a mooring boat will be provided by Marine Department if it is necessary to send lines to dolphins. Government Wharf, least depth 21 ft.

(b) Buoys: No mooring buoys.

(c) Lighters: No lighter fleet. The timber companies have their own lighters and scows which can sometimes be hired if not being used by these companies.

Rectangular Island Wharf: The particulars of the berths are as follows:

Berth No.	*Length (ft.)*	*Depth (ft.)*
1	*700*	*30*
2	*540*	*24*
3	*400*	*24*
4	*250*	*18*

Covered Storage:
(a) One transit shed 90,000 sq.ft. at new port site.
(b) One 8,100 sq.ft. and two 20,000 sq.ft. godowns at the old port site in town.
Equipment: New equipment only listed below:
(a) 10 towing tractors.
(b) 17 6,000 lb. forklifts.
(c) 26 5-ton trailers.
STEVEDORES: Stevedoring in hands of Port Authority who supply gangs as required.

(a) Working hours, 0730–1130 also 1130–1300 (overtime), 1300–1700 also 1700–2200 (overtime). Gangs ordered at least 12 hours before a vessel arrives.

(b) Overtime. When working in stream, overtime usually from 1100 to 1200 and 1800 to 2200 hrs. Application for permission to work overtime must be made to Customs not later than 1500 hrs. on the afternoon that overtime is to be worked or 1100 hrs. on Saturday for weekend overtime.

(c) Working Sundays and holidays. Work is normally carried out Sundays and it is sometimes possible to arrange for work on some public holidays, principal exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.

(d) Rate. Log loading is good, comparing more than favourably with other Borneo ports. Rate of loading about 800 cu. ft. hoppus (20 B/L tons) per gang hour for logs, and 6 B/L tons per gang hour for sawn timber. Discharging general cargo about 10 tons per gang hour.
CARGO: (a) Tally: Tally clerks supplied by Agent if required. Sawn timber tallied on to scows by timber companies' clerks and tallied into ship by ship's tally clerks. Ship responsible for total number of pieces of timber shown on Mate's receipts. Letters of Credit do not allow the clause: "A quantity said to be" to be inserted on the B/Lading. Log timber tallied into ship by checking against specifications supplied by timber companies.

(b) Inward Cargo: Is tallied out of ship on to wharf or into lighter. Local watchmen can be supplied by Agent if necesary but it is generally found to be more satisfactory if these duties are carried out by crew. Damaged cargo is surveyed on the spot, otherwise no liability of vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of short-landed cargo, reasonable proof must be given to Customs that cargo has not been landed. A short-handed Memo certified by Chief Officer is usually accepted as proof.

(c) Heavy Lifts: Usually landed overside on flat-top scows for delivery to private jetties, where they are man-handled to required site. Occasionally consignees provide low-loaders.

(d) Transhipment Cargo: After discharge of cargo from first carrier, transhipment cargo placed under supervision to Ports Authority, unless it is possible to arrange direct transhipment into small coastal vesels.

(e) Outward Cargo: Main export is log timber and is towed out to loading vessels in rafts, each one accompanied by 2 raftsmen. Loading is on a single swinging derrick with gun tackle; the other derrick being used for pulling the logs into position in the holds. Vessels should have, if possible, 2 snatch blocks available at each hatch where log timber is being loaded. Sawn timber loaded in normal manner from scows and lighters. Documents required are shipping order issued by Agent and list of specifications supplied by timber companies. Other exports are rubber, copra, coconuts, palm oil, jungle and sea produce.

(f) Refrigerator cargo: Only small quantities of refrigerator cargo loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward fridge cargo is confined to foodstuffs, meat, etc., and outward to frozen prawns.

(g) Explosives: Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior to arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

(h) Damaged Cargo: Ship's survey should be carried out at ship's side on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

MEDICAL: *(a)* Hospitals: Duchess of Kent Hospital will receive sick seamen or officers. Three classes of wards, also isolation wing. Hospital equipped to carry out normal surgery.

(b) Inoculation: PHO will vaccinate or inoculate crew members at Duchess of Kent Hospital.

(c) Death on Board: PHO and police to be informed immediately. They will then make an investigation into cause of death. If satisfied that death was due to natural causes, a certificate will be issued, and arrangements may then be made for interning the body. Harbour Master must also be informed in the case of seamen.

TANKERS: Two bulk oil installations at Karimunting (Pavitt Point). Esso, with storage capacity of 2,080 tons and Shell, with storage capacity 15,730 tons.

Jetty extends 550 ft. from shore, is 128 ft. long with mooring dolphins 125 ft. from each end. Min. depth alongside 24 ft.

New oil berth, 1,000 ft. length between dolphins, with central discharging pier. Least depth alongside 30 ft. This berth also used for loading palm oil in bulk.

FRESH WATER: Can normally be supplied from wharf at rate of 20 t.p.h. No water boat. Occasionally water is not available and, at such times, Agent warns Principals in advance.

FUEL: No facilities for supply of fuel oil bunkers. Limited quantities of lubricants can be obtained in drums and bulk diesoline available at Shell jetty.

FIRE PRECAUTIONS: No fire-floats and in case of a vessel alongside, fire brigade should be summoned by dialling 999. The OCPD should be informed also.

WATCHMEN: No regulations regarding use of watchmen, who, however, can be supplied if required. There have been only very isolated reports of pilferage in Sandakan.

CONSULS: At Kota Kinabalu. Contact using Kota Kinabalu numbers.

DRY DOCKS/REPAIRS: No dry docks and very limited repair facilities. Marine Department slipway on Berhala Island is capable of taking ships up to 300 tons. Castings, forgings, welding, etc., can be done at this slipway. Permission to repair main engine of a vessel alongside the wharf should be obtained from the Port Manager, Sabah Ports Authority.

POLICE/AMBULANCE/FIRE: Ambulance: Duchess of Kent Hospital, tel. 2111; Police/Fire: Police Station Emergency, tel. 999.

GENERAL: *(a) Surveyors:* Harrisons & Crosfield (Sabah), Sdn. Bhd. are Lloyd's Agents, neither Bureau Veritas nor the American Bureau of Shipping are represented.

(b) Fumigation: No facilities.

(c) Ship Chandlers: All kinds of stores and provisions can be supplied at reasonable prices.

(d) Call Signals and Call Flags: (i) Continuous watch kept by signal station during day-light hours. In emergency such as serious injury or fire a ship should hoist appropriate International Code signal and blow whistle or siren to attract attention. Apart from these circumstances and for purposes of navigation vessels are prohibited from using sound signals for any other reason.

(ii) Signals for attracting Public Service Launch: By day: International Code Pendant No. 8. By night: three red lights vertical. Owing distance of anchorage from jetty these signals often indistinguishable by hire launches unless they are cruising in the harbour. Regular launch services can be arranged if required by Master. No restrictions against a vessel using its own launch or motor lifeboat but it must not land anywhere other than at Customs wharf.

(e) Recreation Facilities: Three cinemas in town which show English-language films. Cricket, football, and hockey matches can be arranged with local teams and several tennis courts available. Only suitable swimming beaches at Berhala Island at mouth of harbour. Yacht Club and Golf Club for members only, but several Shipping Companies pay Corporate Membership fee which enables all officers and first-class passengers to use club. Recreation Club offers facilities for large variety of sports and entertainment; visitors must be accompanied by a member. Churches in town for Anglican, Catholic and Lutheran worship.

REGULATIONS: 1. Arrival and Departure. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

9. Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

AUTHORITY: Sabah Ports Authority.

AGENT: Harrisons & Crosfield (Sabah), Sdn. Bhd. Telegraphic address "Crosfield". Tel. 2141 ext. 51–54 (Shipping Department). Code – Bentley's Second Phrase.

SARAWAK COASTAL PORTS

Coastal anchorages at Sibuti, Niah and Suai, 28, 30 and 47 miles S.W. of Miri respectively are being used increasingly for the export of round logs, good holding ground is to be found approximately 3.5 miles offshore in 30 ft. of water. Caution should be observed in the event of sudden wind squalls from the West.

Vessels destined for coastal ports should report to Miri for Customs and Immigration Clearance.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International code Flag "P") to be hoisted, during day-light hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

SEJINGKAT (Sungei Sarawak), Sarawak:
01.35 N. 110.26 E.

Anchorage off Kampong Sejingkat approximately 10 miles from mouth of river and 3 miles below Pending Point. (See "Kuching".)

Main timber loading point for the First Division of Sarawak. Loading used to be seasonal due to log rafts having to be towed from felling areas along coast. Since this is not possible during North-east monsoon season shippers now stockpile during favourable weather and loading continues throughout monsoon period.

Vessels up to 500 ft. length and 25 ft. draft regularly use anchorage. No facilities for obtaining fuel or fresh water.

Pilots may be picked up off Tanjong Po in the area marked "Pilots" on Admiralty Chart 1822 or at Pending. In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off

Tanjong Po by arrangement. The Kuching pilot launch "Alor" is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during daylight hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

SIBU, Sarawak (incl. Binatang and Sarikei): 02.24 N. 111.56 E.

Sibu is the major town in the Third Division of Sarawak. There are 2 inward routes *(a)* via Paloh River and *(b)* via Rajang River. Sibu is 51 miles from the sea via Paloh, and 70 miles via Rajang.

(a) Paloh Entrance: This route to Sibu is almost exclusively used by overseas vessels and the use of a Pilot is recommended, they having knowledge of other ship movements in the river (see "Pilotage").

The Outer Bar limits the draft to 17 ft. during the Landas (N.E. monsoon) or to 20 ft. during the summer months. The depth on the axis of the channel is now 11.5 ft. chart datum. The 2 buoys are fitted with radar reflectors and the Fairway Buoy is visible for a distance of 10 miles. Care should be taken transitting the channel against being set to the Northward by the ebb tide as there is a 7 ft. patch in position 2° 29.2′ N. 111° 10.5′ E. The entrance to the Kuala is marked by a light beacon at Tanjong Sedi on the North bank of the river.

Strong cross currents and swell especially during the N.E. monsoon period (November to March) necessitate caution when entering.

An inner bar with a least depth of 12 ft. exists where the Paloh joins the Seredeng at Tanjong Gelang. This crossing is marked by unlit transits and being sheltered no allowance is necessary for swell.

Vessels can cross the Outer Bar at night then anchor off Tanjong Sedi to await daylight.

(b) Rajang Entrance: Draft for crossing Outer Bar is governed by state of tide with an allowance for swell together with depth of 19 ft. below ACD. Vessels drawing 29.5 ft. have successfully crossed this Bar. However, this draft will only give access to the Deep Water Anchorage at Tanjong Mani and vessels proceeding further up river are restricted as follows:

(i) Deep water anchorage in Rajang River situated at Tanjong Mani. Has a capacity for about 6 large ships (500 ft.) and 4 small ships (300 ft.), it is normally used for loading logs. (See separate information for "Tanjong Mani".)

(ii) From Tanjong Mani inwards there is a Bar situated about 3 miles below Sarikei with a least depth of 13 ft. below ACD thus limiting drafts to 23 ft.

(iii) From Sarikei to Binatang, the next port, the river is winding with some shallow patches with depths of 15 to 18 ft. below ACD.

(iv) Proceeding from Binatang towards Tanjong Pendam and thence to Sibu vessels are limited to 13 ft. draft and 200 ft. length.

(v) Leba'an corner, 15 miles below Sibu is the junction of the 2 routes used by sea-going vessels bound for Sibu. A certain amount of shoaling has taken place here at the approach from the Rajang channel and it has been found necessary to restrict the length of vessels using this route (Rajang) to 200 ft. with a draft of 13 ft. This route is generally used by the smaller overseas vessels trading from Singapore, etc. There is an obstruction off Tanjong Ensurai approximately 6.25 miles up river from Leba'an bend which has a least depth over it of 15 ft. Caution should also be exercised when rounding Tanjong Bindje due to 3 shoals across the river, 1 of which has a least depth over it of 11 ft.

Note: River Igan and Sungei Kut. The River Igan affords access to Sibu from the North. It is approximately 60 miles long and depth over the bar is 4 ft. with an average rise of 5 ft. Ocean-going oil tankers of up to 2,000 tons displacement entering the river from the Sibu end discharge at Sungei Meral Oil Wharf about 3 miles from Sibu.

The largest vessel to use this wharf was the Japanese vessel Nisso Maru of 1,566 gross tonnage, 264 ft. overall length with a draft of 16 ft. Larger vessels using this wharf are not envisaged due to the wharf position and structure.

DOCUMENTS: Port Clearance to be surrendered to Customs when boarding.

Crew lists and passenger lists, 2 copies for Immigration Department, 2 copies for Rejang Port Authority, 2 copies for Customs, 1 copy for Port Health Officer.

List of ship's stores (2 copies for customs).

List of ammunition (2 copies for customs).

Health Documents (Vaccination certificates and Cholera Inoculation Certificates to be examined by Health Inspector).

PILOTAGE: *(a)* Kuala Paloh. Pilots usually embarked off Tanjong Sedi, however, if master requires a Pilot to board at Fairway Buoy he should indicate this in his ETA telegram.

Ship Masters wishing to use Paloh channel should state this clearly in their ETA messages.

(b) Rajang River (Tanjong Mani, Sarikei, Binatang and Sibu). Pilots normally embarked, weather permitting in buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside turning buoy. This applies mainly to larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit, but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rajang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rajang Pilot launch "Raya" is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sibu or to "Shipping", Sarikei, for Sibu and Tanjong Mani ports respectively. Ships proceeding to Sibu and requiring a Pilot should indicate positively in their arrival telegram which channel they wish to use by adding "Paloh" or "Rajang" in the text, bearing in mind the max. length via Rajang is 200 ft.

ANCHORAGES: *(a)* See "Tanjong Mani".

(b) Sibu Anchorage. Some foreign-going vessels load, with Customs permission, at the mid-stream anchorage when Customs wharf is congested.

(c) Restricted Anchorages.

(i) Abeam of Loba Selemit on the true right bank of the Rajang River in position 02° 08′ 22″ N. 111° 16′ 35″ E. for loading and discharging dangerous goods.

(ii) The Anchorage defined by a line running 045° 2.6 cables from position 02° 16.89′ N. 111° 49.28′ E. on Pulo Kerto, thence 135° 8 cables to position 02° 16.5′ N. 111° 50.4′ E. thence 225° 1.9 cables to shore on Pulo Kerto. For loading and discharging dangerous goods other than petroleum.

(iii) The berth alongside the Sungai Merah Wharf in position approximately 2 miles downstream from the junction of the Rajang/Igan River on the true right bank. For loading and discharging petroleum.

MAX. SIZE: Largest vessel to berth Sibu was 7,372 gross tons and overall length 450 ft.

Deepest drafted vessel to berth Sibu was 22 ft. 6 in.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

BERTHING: *(a)* Principal wharves at Sibu.

1. Main wharf 1,500 ft. long (incorporating the former Lighterage Wharf) with min. depth alongside 20 ft.
2. Burong Apu wharf 250 ft. long with a least depth of 17 ft. Used for larger coastal craft.
3. Floating landing stages 576 ft. long with least depth of 4 ft. Used for smaller coastal and river craft.
4. Upstream of the public wharves several private wharves are used for timber and general cargo.
5. Sibu-Sungei Merah oil wharf is "T"-shaped with a berthing face of 64 ft. and a least depth alongside of 15 ft. This is a "common user" wharf at present used by the Shell and Esso Oil Companies. It can accommodate vessels up to 245 ft. long and 15 ft. draft.

(b) Sarikei. Wharf 198 ft.×30 ft. long floating pontoons, can accommodate vessels up to 2,000 d.w.t. up to 23 ft. draft. There is a Customs Godown on shore.

(c) Binatang. Customs Wharf 179 ft. long by 20 ft. wide with a least depth alongside of 15 ft.

STEVEDORES: The Rajang Port Authority provide all labour necessary for loading and discharging.

REPAIRS: 5 shipbuilding (up to 100 gross tons in size) and repairing yards near Sibu. These deal mainly with repairs to wooden or steel coastal and river craft. 1 yard has a slipway capable of taking vessels up to 500 gross tons.

DEVELOPMENT: Construction of further 1,000 ft. of concrete wharf at a Westerly direction, following the river bank from the existing jetty. 2 godowns and other buildings and ancillary services are nearing completion.

GENERAL: Small quantities of diesel oil bunkers available, also provisions and fresh water. Principal exports rubber, pepper, timber and sago. Average delay time per ship varies from 10 to 25 hours.

REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the Port Clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

AUTHORITY: Rajang Port Authority.

TANJONG MANI, Sarawak: 02.09 N. 111.21 E.

Rejang River entrance. The least depth on the bar remains at 19 ft. The entrance is well lit by two lighthouses and one light beacon and the bar is marked by two light buoys.

Tanjong Mani. This is a deep water anchorage 16 miles from the river entrance, mainly used by vessels loading timber.

Size of vessels using Tanjong Mani limited only by depth on bar. Ten ships can be safely accommodated at anchorage at any time, roughly six large (500 ft. length) and four small (300-400 ft.). So far no ship has been delayed awaiting a berth though eight or nine ships anchored there at the same time is now a regular feature. Vessels up to 29 ft. 6 ins. draft have crossed the bar.

Pilots are normally embarked, weather permitting, in the buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside the turning buoy. This applies mainly to the larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rejang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rejang pilot launch Layang Laut, is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sarikei.

Anchorage. Abeam of Loba Selemit on the true right bank of the Rejang River in position 2° 08′ 22″ N. 111° 16′ 35″ E. is restricted to loading and discharging any dangerous goods.

TAWAU, Sabah: 04.15 N. 117.53 E. (See Plan)

PORT LIMITS: A line drawn from Batu Tinagat on the Mainland to the boundary mark on Sebatik Island between Indonesian Borneo and Sabah (Malaysia) and thence through the island to Burs Point on the Mainland, and thence intersecting all waterways to the West of Burs Point, entering the Serudong River.

DOCUMENTS:

(a) To be Produced on Arrival:

Customs

2 Manifests in prescribed form.
2 Crew Lists.
1 Last Customs Clearance.
2 Stores Lists.
2 Passenger Lists.
2 Arms Lists.

Marine

1 Marine Dept. Boarding Report, required to be completed.
1 Last Port Clearance.
1 Crew List.
1 Passenger List.

Agent

4 (2 for SPA) Manifests in the prescribed form
1 Crew List.
1 Passenger List.

Immigration

2 Crew Lists.
2 Passenger Lists.

Travel Control Office

2 each. Crew Lists and Passenger Lists.

(b) To be Supplied to Ship before Departure:

Manifests, as required by vessel.
1 Port Clearance and 1 Customs Clearance.
3 copies of Passenger List.

PILOTAGE: A Pilot is available from 0600 to 1800 hrs. for berthing vessels given reasonable notice (48 hours). Not compulsory.

ANCHORAGES: Good anchorage in 8 fathoms 1,000 yd. to 1,300 yd. W.N.W. of wharf; and 350 yd. South there is an anchorage in 8.5 fathoms.

Petroleum Anchorage. An area bounded by parallels of 04° 15′ N. and 04° 16′ N. and meridians of 117° 51′ E. and 117° 52′ E. This area is to be marked "Petroleum Anchorage".

Explosives Anchorage. An area bounded by parallels of 04° 12′ N. and 04° 13′ N. and meridians of 117° 52′ E. and 117° 53′ E. This area is to be marked "Explosives Anchorage".

Quarantine Anchorage. An area bounded by parallels of 04° 12.5′ N. and 04° 13.5′ N. and meridians of 117° 54′ E. and 117° 55′ E. This area is to be marked "Quarantine Anchorage".

RESTRICTIONS: *(a)* Communication ship/shore when lying on roads: Regular launch services difficult to arrange if required by Master. No recognised signals for summoning a launch, as distance between small boat jetty and anchorage is too great for flag signals to be recognised. No restrictions against a vessel using its own launch or motor life-boat apart from fact that it must not land anywhere other than at Ports Authority Wharf.

(b) Explosives: No vessel carrying explosives shall come within 500 yards of shore or any other vessel except with written permission of Port Manager which will be given provided that:

(i) quantity does not exceed 2,000 lb. of explosives of Class V and VI and are carried in a certified magazine, and there is no other dangerous cargo on board as certified in writing by the Master.

(ii) quantity does not exceed 3,000 lb. and are exclusively of one of the following classes III, IV or VII.

Danger flag must be flown by day and a red light by night.

HEALTH: *(a)* Quarantine. The Sabah Government are signatories to WHO convention on Quarantine regulations. Port Health Doctor will not board, unless vessel comes from an infected port. Instead Maritime Declaration of Health is to be filled out and handed to Boarding Officer of Marine Department, who will require one copy of crew list and one copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel healthy.

(b) Immigration. Immigration officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration will require 2 copies of crew list and 2 copies of passenger list. Vessels are cleared inward until 1800 hours only. If there are special circumstances arrangements can be made to clear vessels inward after this time.

RADIO: Information required prior arrival, ETA Tawau with as much prior notice as possible. Number of gangs required. Quantity of fresh water required.

VHF: A Maritime VHF radio telephone service now operates in the Port of Tawau on Hague Plan Channels 16 and 12.

Continuous listening watch is kept on Channel 16 and the station is operative between the hours of 0600 and 2000 daily. Vessels are requested to make use of the above facility for notifying ETA, pilotage requirements etc. Berth availability will be notified on vessel's call.

TUGS: No tugs available.

BERTHING: *(a)* Wharf Light at Tawau in position on North-west end of wharf, 04° 14′ 32″ N. 117° 52′ 56″ E.

(b) Tides/Linesmen. The numbers of a vessel which is berthing alongside will be flown from signal station. In addition a cone, indicating tidal stream will be hoisted, pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines; a motor boat can be hired to assist in berthing if prior advice is given.

(c) New Wharf. Consists of a 300 ft. long approach causeway extending from a reclamation area and a 550 ft. long wharf, 50 ft. wide with a dolphin in line ±100 ft. off each end. Least depth 20 ft.

(d) Monsoon. During strong wind from S.E. and S.W. ships are liable to range alongside wharf, and during S.W. monsoon sea breeze may make it difficult for ships to leave wharf in the afternoon.

(e) Buoys: No mooring buoys in Tawau.

(f) Lighters: No lighters available except a few wooden and steel lighters owned by Bombay Burmah Trading Corpn. Ltd. and Borneo Abaca Limited. Hire of these lighters can be arranged when they are not being used by owners, which is seldom.

SPECIALISED CARGO-HANDLING FACILITIES: None. Can handle palletised cargo only.

STEVEDORES: *(a)* No stevedoring company in Tawau. Work is undertaken by stevedoring contractors. Stevedores in sufficient numbers usually available.

(b) Working hours 0730–1130 hours, 1300–1700 hours, 1800–2200 hours.

(c) Overtime: Overtime working hours are from 1800 to 2200 hours. Application must be made to Customs one day in advance; double rate charged.

(d) Sundays and holidays: Work normally carried out on Sundays and holidays, the only exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.

(e) Rates: General cargo about 8 tons per gang/hour (loading/discharging).

CARGO: *(a)* Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset except at discretion of Port Manager. No dangerous cargo may be discharged simultaneously with general cargo except with permission of Port Manager.

Heavy lifts usually landed overside on to flat-top scows. Customs bonded store is available with about 4,000 sq. ft. of space including Customs Liquor and tobacco store. There are no private bonded warehouses to date. There are no facilities for handling or storing bulk cargoes in any quantity.

Livestock: Subject to approval of Veterinary Authority, certain animals including cattle are prohibited imports and exports except under licence.

(b) Damage. Ship's survey should be carried out on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign, certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

(c) Tally: Tally clerks can be supplied by Agent if required, on receiving advance notice.

(d) Inward. Inward cargo is tallied out of ship onto wharf or into lighter. Damaged cargo surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side, but, in the case of short-landed cargo, reasonable proof must be given to Customs that cargo has not been landed. A short-landed Memo certified by Chief Officer is usually accepted as proof.

(e) Transhipment. After discharge of cargo from first carrier, transhipment cargo is placed under the supervision of the Customs, unless it is possible to arrange direct transhipment into small coastal vessel.

(f) Outward. When vessels berth alongside, packages are brought by motor transport and lighters; when in roads, by lighters.

(g) Refrigerator. Only small quantities of refrigerator cargo

loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward refrigerator cargo is confined to foodstuffs, meat, etc., and outward to frozen fish.

(h) Explosives. Explosives must be discharged into lighters or immediately on arrival onto wharf under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge, or as through cargo.

TANKERS: Shell jetty, least depth 14 ft.
Also see "Shipmaster's Report".

MEDICAL: *(a)* Hospitals. Government General Hospital is only hospital in town, and will receive any sick seamen or officers. 3 classes of wards, but first class ward can only accommodate 2 persons. Hospital is equipped to carry out normal surgery.

(b) Inoculation. Port Health Officer will vaccinate or inoculate Crew members at General hospital.

(c) Port Health Officer. General Hospital, General Office 73533, 72191. Medical Officer-in-Charge 71206. M.O.'s Residence 72239.

FRESH WATER: Can only be supplied at wharf. 24 hours notice should be given of a vessel's water requirements. Usual rate of supply is about 15 t.p.h. A water barge is available but no guarantee of availability.

FUEL: Not available except diesoline in drums.

FIRE PRECAUTIONS: No fire floats and in the case of a vessel alongside catching fire, the fire brigade should be summoned by dialling 2999. The OCPD should also be informed.

CONSULS: At Kota Kinabalu.

REPAIRS: No facilities.

POLICE/AMBULANCE/FIRE: *(a)* Police/Fire, Tel. 999; Ambulance/Hospital 73533.

(b) Accidents: Hoist a two-flag signal and give a blast of the whistle to call attention of signal station. Police and the hospital should be informed immediately of any untoward incident.

GENERAL: *(a) Surveyors:* Harrisons & Crosfield (S) Ltd., as Lloyd's sub-Agents, may appoint a Surveyor if a survey is requested.

(b) Fumigation: No facilities.

(c) Ship Chandlers: Fresh vegetables obtainable in limited quantities early every morning from vegetable market.

(d) Priority: Vessels are berthed on a "First come first served" basis. Vessels with palletised cargo get priority.

(e) Watchmen: These can be supplied if required.

REGULATIONS: *(a)* Arrival and Departure. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than 36 hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 hrs. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a Customs Officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(b) Special signals

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International code Signal "2 5"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically 6 ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light 6 ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green light over a white light, 6 ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	~~A~~ red light over a green light, 6 ft. apart, hoisted vertically where best seen.

SHIPMASTER'S REPORT: October 1976
Government Oil Wharf:
Position: 04°15.5′ N. 117° 50′ E. 2 miles N.W. of Main Cargo Pier. Least depth in channel from sea to berth — 30 ft. Vessels to be ballasted to 1/3rd deadweight. Density, 1025. Vessel docks daylight only, undocks anytime at any stage of tide. Anchorage 0.5 mile S.W. of jetty. 5 lengths of ship's hose required. Manifold, 10 in. Length of shoreline 3,000 ft. All products handled. Shore booster pump cannot be used. No steam.

Pilot boards at Quarantine Anchorage. 48 hours notice required. No tugs available. Accommodation ladder required for Quarantine but not at berth.

Fresh water available ex-barge. Other services available. Fresh provisions, repairs, Machine Shop, Airport, Lloyd's Surveyor, Telex, Doctor, Hospital, Laundry, Groceries and Meats. No slop tanks.

AUTHORITY: Port Manager, Sabah Ports Authority.

AGENT: Harrisons & Crosfield (Sabah) Ltd., Dunlop Street. Telegraphic address: "Crosfield". Tel. Manager 72624.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Malta

VALLETTA: 35.54 N. 14.31 E.

DOCUMENTS: Pratique deposition to be filled by Master on arrival, form supplied by the boarding Customs Officer. 3 Crew Lists. 2 Bonded Store Lists and 1 list of dutiable items belonging to crew on arrival. 3 Passenger Lists.

PILOTAGE: Compulsory. Pilot boards at Fairway Buoy weather permitting. Pilot available at all hours for small ships, daylight hours for large vessels. Sea Pilot berths vessel for civil berths, Malta Dry Docks or Buoy Berths. In bad weather Pilot boards inside entrance. Vessel's ETA should be given to Agent at least 12 hours' prior arrival to order Pilot. Pilot boat located near Customs House. Pilot boat not equipped with VHF.

ANCHORAGES: Sea anchorage off Grand Harbour. To East of line, Fairway Buoy to entrance, medium to poor holding ground. To West of line, holding ground excellent.

RESTRICTIONS: Min. depth entrance channel (over wreck) 52 ft. Harbour channels – Bighi Bay 58 ft., French Creek 43 ft., Marsa 32 ft. Nature of bottom entrance channel rock and mud. Harbour channels mud. Harbour entrance and approaches affected by current – in N.W. winds there is a set of up to 0.5 knot from N.W. to N.E. Port is subject to closure in gregale (N.E. gale) conditions – Winter months occasionally, not more than 4 times a year.

MAX. SIZE: Discharging Berths – New Quay.

Berths 1, 2, 3. Min. water depth alongside berth 30 ft. Max. length acceptable 350/400 ft. Max. draft acceptable 30 ft.

Berth 4. Min. water depth alongside berth 32 ft. Max. length acceptable 550 ft. Max. draft readily acceptable 30 ft.

HEALTH: Port Medical Officer grants pratique when boarding on arrival. Accelerated pratique can be granted through Pilot provided crew all in good health and ship has not called any infected port during last 15 days, and is coming from a European port.

RADIO: Radio call sign 9HD. Radio telephony working frequency 2625 kHz. Listening watch 2182 kHz.

RADAR/VHF: No radar service available. VHF available by Malta Dry Docks. Frequency 156.8/156.55/157.9 Mc/s. Call sign Malta Dry Docks. Range 10 miles. Master can call signal station on VHF Channels 16 or 12.

TUGS: Join vessel just inside harbour entrance. Lines at discretion of ship's Master.

BERTHING: No specific requirements necessary. Can berth at any time but subject size of vessel and weather conditions. Ro/Ro and container facilities available.

CRANES: 1×60 ton floating crane, 1×60 ton mobile crane, 1×20 ton mobile crane. Additional mobile cranes with capacity up to 15 tons.

STEVEDORES: Ordered by Agents. At least 24 hours notice required.

MEDICAL: Notice must be given to Agent soon as possible to make necessary arrangements. Hospital facilities available. Crew must be in possession of inoculation/vaccination certificates, etc.

TANKERS: Vessels must be gas-free except at tank-cleaning berth, where ships with not more than 2 tanks gas free are allowed. Slop (residue) discharging facilities available. No. of tanker berths: Parlatorio Wharf (Navy) Max. draft 35 ft.; max. length 650 ft. Marsaxlokk – has Saptan Dolphin (Navy) max. draft 34 ft.; max. length 650 ft.

FRESH WATER: Unlimited amount ex barge between 20 to 80 t.p.h.

FUEL: Bunker Berth – Sea Malta Co. Ltd. at new quay. Grades handled include MFO. MDO. TFO. GO. Max. draft 30 ft. 48 hours notice required. Bunkering berth also used for discharging cargo and available when not occupied by discharging vessel.

FIRE PRECAUTIONS: Precautions according to Petroleum Ships Regulations. Civil tugs partly equipped with fire fighting equipment but not well trained.

GANGWAY/DECK WATCHMEN: Not compulsory but recommended.

OPENING/CLOSING HATCHES: Opening by stevedores. Closing of hatches by crew. Stevedores can close hatches at extra cost.

CERTIFICATES: Ship's Register; Load Line Certificate; Derat Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes allowed for each crew member. Wine and/or Spirit, None to crew except Captain, at Customs' discretion.

CARGO GEAR: Factory Act Book for Cargo Gear. Cargo work cannot commence unless certificates valid.

IDENTIFICATION CARDS: Not needed.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Marianas Islands

GUAM, (Apra Harbour): 13.26 N. 144.39 E.

DOCUMENTS: Guam is part of the American Trust Territories in the Western Pacific and official documentation is as for mainland U.S. ports, including visaed crewlist completed at port of departure prior to Guam. Vessels should have a stock of American Crew Lists Form 1-148 and Form 1-95A. The American Alien Crewman Landing permit is acceptable and preferred. This is the plastic identification card previously issued on the U.S. coast.

Required on arrival:

- Vaccination Cards.
- Visaed Immigration Crew List.
- 4 Crew Lists.
- 4 Passenger Lists.
- 1 Store List.
- Clearance from last port.
- Cargo papers.

Have ready Immigration Form 1-94 for each passenger and Form 1-95A for each alien unless they have 1-184 plastic Identification Card. Shore Passes not required. Crew Customs Declaration not required.

RESTRICTIONS: The Harbour Master of the Port Authority of Guam, is in complete control of the approaches to Guam and it is essential to obtain clearance and permission to enter Guam from "Harbour Master" Port Authority, call sign KUF-810 at least 24 hours prior to arrival. Permission is readily granted with the condition to request permission again two hours prior to arrival at Guam. This time from Guam controls, call sign KUF-810 and NRV (USCG).

PILOTAGE: It is advisable to have on board U.S. charts for Guam: C & GS 4197 Apra Harbour. 4198 Guam Approaches.

Pilot usually boards at Quarantine Anchorage, or just inside breakwater. When requested will board outside, weather permitting. Pilot mandatory in Inner Harbour. Pilot available at all times.

ANCHORAGE: Harbour -range 084° True, 2 green lights. Strong set across harbour entrance, Navy recommends 10 knots entering. Quarantine Anchorage at Middle ground, Outer Harbour, depth 45 ft.

RADIO: Harbour Master Radio Station, call sign KUF–810 ship/shore watching 24 hours. Use of USCG Station "NRV" for best service if unable to reach KUF–810 due to limitation of range. Prior to arrival call Channel 16 upon approaching Alpha Hotel (VHF) for further instruction giving ETA (account harbour traffic).

VHF: Masters of vessels approaching should keep watch on Channels 16 and 13.

HEALTH: If from suspect port, Inspector boards at anchorage or at pier for thorough check. Grants Pratique.

BERTHING: Vessels may berth Port or Starboardside upon request of the Master or Agent at F–3, 4, 5 except F–6 Portside to 1 large tug and 1 small tug normally used. Ship's gangway is required. Local information from Pilots states that after completion of this oil berth, a submerged wreck was discovered, said to be a 500 ft. long cargo vessel, and lies across and below the vessel in this berth, on the Eastern side of the jetty. It is advisable not to drop anchors -should they have to be used – until vessel has passed over the wreck. There have been instances of forward springs or breastlines becoming fouled in this wreck during operations.

HOSES: 4×10 in. flexible hoses connected by ship's crew. 2×20 in. lines.

IMMIGRATION: 1. Prior to Departure for Guam:

A. Visaed Crew List: Prepare 1 Crew List on U.S. Form 1-418 and have it visaed by a U.S. Consulate at a port prior to Guam. Without this, crew shore leave may be denied.

B. Passengers must have a valid passport and also must have an appropriate U.S. Visa whether landing or not on Guam.

C. Intransit passengers do not need U.S. visa if the Owners of the vessel have signed a contract called "Immediate and Continuous Transit Agreement" with the Commissioner of Immigration at Washington, D.C.

D. Obtain a supply of U.S. Form 1-84 for passengers and U.S. Form 1-95 for Crew.

2. Prior to Arrival at Guam:

A. Passenger List, Form 1-418 prepare 3 copies of Passenger List on U.S. Form 1-418 for Immigration, Customs and Agent.

B. Passenger Landing Card Form 1-94 these to be presented by passenger with passport.

C. Crewmen's Landing Permit Form 1-95A prepare or have on hand 1 U.S. Form 1-95A for each alien crew member. Not required if crew member is a permanent resident with U.S. I-184 laminated "*Crewmen's Landing Card*", not required of U.S.A. Citizens. Please present Form I-95A in appropriate Seaman's passport or identification book. Form I-95A can be used repeatedly for future arrivals of same crewman on same ship.

3. Upon Arrival at Guam:

A. U.S. Federal Immigration Inspector boards upon arrival at pier, must see all passengers with their passport and Form I-94 and all crew members with their passport or identification books and Form I-94A or Form I-184.

B. Passengers and crew are required to be ready for inspection immediately upon docking at Guam.

C. No shore leave and no mail distributing and no visitors or stevedores may board until this Immigration inspection is complete. The Inspector will advise Master when he has completed his inspection of passengers and of crew.

4. Prior to Departure from Guam:

A. *Intransit Passengers:* pick up from intransit passengers the Form I-94 and hand to Agent before departing from Guam. These must be returned by Agent to U.S. Immigration as passenger departure records.

B. Alien crew member joining at Guam pick up from them the Form I-94 which they used to enter the U.S.A. These must be returned to U.S. Immigration by Agent as permanent records.

SECURITY: Guam Government Official usually boards at pier, examines vaccination cards (smallpox vaccination required) and inspects Steward's stores and slop chest. Also represents U.S. Customs. Requires 1 Crew List, 1 Passenger List, 1 Store List, Clearance from last port, later issues new clearance from Guam which Agents bring to ship. Normally does not seal stores or slop chest.

MARINE GUARD: Required when docked at Ammo pier, requires 1 Crew List.

U.S. COAST GUARD: Marine Inspection and Shipping Commissioner Services. Requires 1 Crew List. Checks official log book and arrival draft.

FUEL: Mobil Petroleum can supply black oil or truck diesel, but no marine diesel. Requires ship move to their pier, no commercial fuel barge. Unable supply fuel while Ammo vessel or Bulk Cement vessel working. Possible to supply by truck/trailer to other piers. Navy special (Black Oil) and marine diesel available from Navy on emergency basis only, sufficient to reach next bunkering port. Cash payment required in advance of delivery. Will not normally supply commercial vessels. Navy barge available.

FRESH WATER: Very good, available any quantity, meter service. No water barge.

STORES: No ship chandler, order through Agent. Available but considered expensive. Produce from U.S.A., Milk is recombined in quart cartons, White, Chocolate or Buttermilk. Order milk day prior to delivery. Tropical fruits seldom available. Ice in blocks or cubes. Prices wholesale, except under 1 case lots when at retail. Delivered to ship's gangway or hook.

LAUNDRY: Also dry-cleaning available, U.S.A. prices. 1-day service extra. Delivered to ship's gangway or hook.

MEDICAL: Foreign ships use Guam Memorial Hospital or Catholic Medical Centre or other clinics in town. American ships use U.S. Naval Dispensary in Harbour area, or in emergency U.S. Naval Hospital near Agana, 10 miles distant. Certificates required signed by Master. Patient returns to vessel by taxi at vessel's expense. Dispensary Hours for merchant seamen Monday to Friday 0800-1500 hrs. At other times, if emergency, use the U.S. Navy Hospital. Doctors will not normally visit ships.

Dentists: Private dentists only. Usual hours 0900-1700, Saturday to 1200 hrs.

REPAIRS: Commercial Yard, Dillingham Maritime Services Yard available. Navy Yard, repairs by U.S. Naval Ship Repair Facility (SRF), subject to prior Navy commitments, and requires cash deposit in advance. Payment to be made for work done successfully or not. "No Cure No Pay" does not apply.

TIME: G.M.T. plus 10 hours. When on Daylight Saving Time, G.M.T. plus 11 hours.

POLICE/FIRE/AMBULANCE: Ambulance U.S. Naval Dispensary, Harbour Area, 339-4224/4227; Fire, 22222; Police – Naval Station Security, Harbour Area, 333-2968; Police – Guam Civilian Police, Agana 777-9611

AUTHORITY: Harbour Master, Port Authority of Guam.

Martinique

FORT DE FRANCE: 14.36 N. 61.04 W. (See Plan)

PORT LIMITS: The straight lines joining Pointe des Negres, the South extremity of Fort St. Louis and Pointe d'Alet.

DOCUMENTS:

Maritime Declaration of Health.
4 Crew Lists.
2 Provisions Lists.
2 Lists of Passengers in Transit.
5 Lists of Passengers Disembarking.
2 Lists of Crew Personal Effects.
2 Vessel's Particulars Declarations.
2 Cargo Manifests.

PILOTAGE: Call Pilot by International Code flag "G" or by sounding "G" on whistle. Pilot launches are painted black. The Pilot joins vessel on arrival at Pointe des Negres. If Pilot not available, vessel must anchor in the Baie des Flamands East of Point des Negres to await Pilot.

ANCHORAGE: In Baie des Flamands in front of the town. Depths of 10—14 m.

MAX. SIZE: Length 190 m. Draft 10 m. See also "Tankers".

Quay	*Max. Draft*
Quai Quest	7.50 m.
Quai Ouest Tableau	6.00 m.
Quai des grands cargos	7.50 m.
Darse	7.00 m.
Annexes	8.00 m. Aft. 6.60 m. Forward
Tableau Tourelles	8.00 m.
Tourelles	9.15 m.
Hydrobase	9.15 m.
Batellerie	4.80 m.
Appontement des Carrieres	15.00 m.

HEALTH: Request free pratique by radio or can be obtained on arrival when Master completes Health Declaration and presents Health Certificates.

RADIO: Fort de France Radio, call sign FFP. ETA message to Agent required 24 hours before arrival on working days or 48 hours on holidays. Message to include number of crew on board.

TUGS: None available.

BERTHING: Alongside quay. Max. depth 10 m. Roll-on/roll-off berth operational.

MEDICAL: Doctor and hospital facilities available.

TANKERS: *Petrol Pier:* depth alongside 17 m., can accommodate tankers up to 65,000 dwt. Crude discharge through 2×12-in. Chiksan Arms, capacity 4,500 t.p.h.

Vessel's displacement is limited by strength of the dolphins.

Refinery Berth: depth alongside 7.50 m. for loading products, fuel, gas oil, kerosine at a rate of 150 t.p.h.

DENSITY: About 1028.

FRESH WATER: Available from quay in unlimited quantity. Rate 50-80 t.p.h.

FUEL: All grades available subject to 12 hours advance notice.

GANGWAY/DECK WATCHMEN: Recommended. Performed by crew members.

OPENING/CLOSING HATCHES: Can be performed by crew.

CUSTOMS ALLOWANCES: 200 cigarettes per man. All alcohol to be declared.

IDENTIFICATION CARDS: Not necessary.

CONSULS:

Belgium

Panama
Portugal
Spain
Sweden
U.S.A.
Venezuela

REPAIRS: Minor repairs possible.

DRY DOCK: 1×200 m. length, 21 m. wide. Equipment restricted.

REPATRIATION: Facilities for crew change and repatriation.

AIRPORT: 7 miles from the port, served by regular airlines.

HOLIDAYS: 1st January, Shrove Tuesday, Ash Wednesday, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 25th December.

POLICE/FIRE/AMBULANCE: Police, tel.: 17 and 43-06; Fire/Ambulance, tel. 18 and 22-64.

AUTHORITY: Capitainerie du Port.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Mauritania

NOUADHIBOU: (Port Etienne):
POINT CENTRAL: 20.49 N. 17.03 W.

PILOTAGE: Compulsory for vessels calling at Point Central.

An outer pilot station is situated in the vicinity of No. 2 Buoy, bearing 037° distance 4.4′ from Fairway Buoy No. 0 (position LAT= 20° 40′ N., Long. 17° 04′ 30″ W.).

The inner pilot station is about 2 miles from the mineral wharf bearing N.N.E.

ANCHORAGE: Ships waiting can anchor N.E. of No. 2 Buoy, distance 2 miles in 20 m. of water, good holding ground. Another anchorage on the roadstead, the wharf bearing N.W./N.N.W. distance from 1 mile to 2 miles can be used by ships prior to berthing.

RESTRICTIONS: Minimum depth of water below chart datum is 17 m. in the buoyed channels and swinging area. Outer channel width is 400 m. but it varies from 250 to 400 m. for the inner channel; the radius of the swinging circle being 500 m.

MAX. SIZE: Not to exceed 310 m. in length and 45 m. in breadth, the extreme reach of the shiploader arm being 28.5 m. from ship's side. At the limit an extreme breadth of 48 m. could be accepted after advice from the DCFP. If possible drawing should be sent prior to acceptance.

The recommended draft for large vessels in ballast, or partially loaded is 12 m. on arrival. Smaller ships should have on board a quantity of ballast equal to half their cargo capacity.

Maximum freeboard under ship loader arm is 14 m. With hatch covers opening crosswise (abreast) the maximum freeboard must be understood as the height from sea level to the upper part of hatch covers.

On departure a draft of 15.85 m. is usually admitted but 16.15 m. is accepted according to the stage and range of the tide at the time of sailing.

Essential: All vessels greater than 100,000 d.w.t., which have never visited the port before must have prior approval of the DCFP.

HEALTH: Free pratique is usually given after vessel has berthed. Smallpox and yellow fever vaccination certificates required.

TUGS: None available.

BERTHING:

Mineral Wharf: The ore loading terminal of "Societe Nationale Industrielle & Miniere" de Mauritanie (SNIM) is located at mid distance between the Cap Blanc and Nouadhibou, geographical position: Lat 20° 49′ N., Long. 17° 02′ W. It consists of a platform, 12 m. wide oriented North and South, resting on 8 big dolphins, 9 m. in diameter each and 32 m. distant one from the other. The platform supports a conveyor belt and one single shiploader. The maximum travel of the shiploader from one end of the rails (railway) to the other is 165 m.; the virtual loading capacity would be 5,000 t.p.h. while the actual output varies from 2,000 to 3,000 t.p.h. according to ship's size and on condition there is only one quality and grade of ore to load.

To maintain a depth below LLWT (lowest low water astronomical tides) of 16 m. at the berth, ships are laid against 2 big outrigger pontoons leaning on the dolphins and protected on the ships side by heavy but efficient rubber rollers acting as shock-absorbers.

Ships are generally made fast port side to the quay, coming alongside with the help of the anchors which should be kept at the ready.

TANKERS: *Oil Wharf:* It consists of a light platform placed on top of 3 dolphins of the same diameter as above but 64 m. apart, adjoining the mineral wharf to the Southward. A wooden decking supports the oil pipes which are connected abreast of dolphin No. 10 to the tanker lying portside to the quay, the stern is made fast to a mooring buoy.

DENSITY: 1025 at Point Central.

FRESH WATER: Not available.

FUEL: Not available at the moment. An oil refinery is being built and production should start in 1977.

MEDICAL: There are hospital and medical facilities at the port.

CUSTOMS: Regulations are very strict, and a careful declaration of all bonded stores must be made before berthing. Ships have been fined for quantities in excess or missing even when small.

GENERAL: (a) Radiotelegrams stating the date and ETA at pilot station and addressed to Snim-Cominor Nouadhibou should be transmitted 72 and 24 hours beforehand via Nouadhibou coast radio station (5 TA) working hours 0800 – 1800 or Dakar (6 VA) hours: continuous.

(b) It is of interest to pilots when coming on board, to know whether the ship is powered by a steam-turbine or diesel engine whether the propeller is left or righthand and if it is a variable pitch propeller, how she behaves when the engine is running astern.

SHIPMASTER'S REPORT: (May 1975), Vessel 169,000 d.w.t.

Iron Ore Marine Loading Terminal:—

Approach to Cap Blanc and Baie du Levrier: Approach was from the Southward. From Dakar the course was laid to cross the 100 fathom line at 20° 04′ N. 17° 41′ W., this being a precipitous shelf, when crossed with D.F. bearings from the Radio Beacon at Port Etienne gave a reasonable fix. Vessel than steamed across the main flow of North/South traffic at quite a broad angle heading for the landfall buoy 6 miles West by South of Cap Blanc. A dense concentration of fishing vessels extending Westwards from Banc Vilmorin offered little hindrance to our landfall. the light of Cap Blanc lighthouse was visually observed in the pre-dawn darkness at 26 miles and radar contact of Cap Blanc was established at 23 miles. The landfall buoy fitted with a radar reflector, gave radar contact at 15 miles.

Pilotage: A Pilot boards in the vicinity of No. 2 Fairway Buoy from a black-hulled, white superstructure, 40 ft. high-speed motor launch with "PILOTE" written on the side. VHF contact is made on Channel 16, working frequency Channel 14. Call "Nouadhibou Pilot". The Pilot, a Frenchman, had a good understanding of English and proved to be very competent. The transit inwards and through the Passe du Levrier was at half speed but the last mile towards the berth only an occasional Dead Slow ahead movement was made to maintain steerage way.

Tide/Currents: Berthing for large vessels is on the ebb tide with a Southerly set of about 1 knot. South of the headland the set is to the Eastwards again about 1 knot i.e. directly across the channel. Unberthing is made on the flood tide setting Northerly along the jetty again about 1 knot. Rise and fall is in the region of 1.6 m.

Wind: Ranges from North by West to North by East (May). During darkness it abated to about Force 3 but from early morning through to sunset gusted up to Force 6 causing a short steep sea to run. The Pilot stated that in August and September Easterly winds often occurred hence the placing of 2 mooring buoys about 1 cable off the berth to assist vessels warping clear when leaving.

Tugs: None available.

Quay: Stout cylindrical rubber fenders are chained to the sides of 2 floating pontoons laying to the quay face. An adequate number of bollards are placed along the length of the quay. 3 dolphins, connected by a catwalk, extend the Southern length of the quayside for ship mooring purposes.

Moorings: When approaching and lying off the jetty 2 motorized mooring boats will run ashore 1 synthetic fibre rope (no wire ropes at this stage) from forward and 1 similar rope from the Poop. Vessel is then to warp alongside with these 2 lines aided by helm and small engine movements. Once alongside a spring from the after extremity of the Poop is to be sent away and a forward spring. Vessel secured to the berth with 1 headline to a mooring buoy North of the jetty, 3 forward breast lines, 1 forward spring, 2 stern lines, 2 after breast lines 1 spring from the Poop, and 1 spring from the normal position on the after deck.

Gangway: The accommodation ladder could not be used because of the space between the pontoons lying between ship's side and the quay. A pilot ladder was the means of access to the after pontoon from which access could be obtained to the quay.

Depths alongside: At the first low water soundings were taken around the ship and when reduced to chart datum — obtained from a monthly tide table loaned by the Pilot – a least depth of 15.6 m. was sounded 45 m. East of the quay about 100 m. South of the quays Northern end. A least depth of 16.2 m. was found on the inboard side with depths generally about 18/19 m. elsewhere.

Draft: Maximum permitted for berthing 12 m. Maximum permitted draft for sailing is 16.16 m. (53 ft.) on high water or 52 ft. at any state of the tide.

Airdraft: Maximum 14.5 m. In our case several thousand tonnes of hold ballast had to be taken once secure alongside, this delayed loading for 5 hours.

Shiploader: This is a single conveyor belt fed gantry having a range of travel of 165 m. along the quay but the loading arm has no facility to slew horizontally. It can only be luffed in the vertical plane. The maximum outreach was stated to be 23 m. which combined with the airdraft limitation of 14.5 m. made it extremely difficult to plumb the centre of the holds. For the majority of our loading period the ship had a port list (this was exaggerated by the free surface effect of the 4 ballasted holds). To keep the loading arm from fouling the ship's structure and assisting the arm to plumb centre all the port side side-rolling hatch lids were only partially opened.

Shifting: This had to be done on 2 occasions but was successfully achieved by hauling on the 2 spring wires aft and 1 headline to warp a distance of 6 m. forward and heaving on the forward spring and stern lines to warp 26 m. aft. The shifting was necessitated by the fact that the distance centre to centre of our extreme loading hatches was 191 m.

Agency: This was conducted by SNIM, Societe Nationale Industrielle & Miniers, their telegraphic address Snimport – Nouadhibou.

Documents: Required are:

4 Crew Lists.
2 Store Lists.
2 Crew Declaration Manifests.
2 Vaccination Lists.
3 Passenger Lists.
3 Ports of Call of the Last Month Lists.
2 Ballast Manifests.

The latter 3 lists can be made on 1 sheet of paper (in triplicate). No Maritime Health Declaration was asked for. All these documents were passed to the Agent, no Customs, Port Health, Immigration or Police visited the ship. Although some crew members were without Yellow Fever vaccination certificates this posed no problem, with the Agent, he declared no vaccinations can be done here. Nor can the De-rat Exemption Certificate be renewed.

Port Restrictions: The Agent warned that crew members could not use pounds sterling, U.S. dollars, Dutch guilders or other foreign currency ashore for fear of confiscation by the "authorities". The local currency is the Ouguiya, 100 of which are on par with £1 (approx.).

Port Capacity: The pilot stated previous largest ships had been:
(i) *"Atland"* Obo Swedish 84,229 g.r.t.
(ii) *"Thor"* Bulk German 79,270 g.r.t.
(iii) *"Lilyprima"* Obo Italian 72,68 g.r.t.

However, our claim to be the largest vessel to call being 169,080 d.w.t. is unsubstantiated. The Agent claims a shipment of 139,000 metric tonnes is the largest cargo exported from the port.

Loading Rate: The installation foreman claimed a rate of 4,000 t.p.h. Our rate, allowing for the frequent short stoppages, was 2,813 t.p.h.
Ore: The grade "Siliceous Iron Ore Fines XBF" was extremely dusty. About 10 grades of ore are available from 3 different mines.
Water Density: From our observations at low water 1024 ozs. cu. ft. and at high water 1025 ozs. cu. ft.
Cargo Figures: All tonnages quoted this port are metric tonnes. Ship's figure was about 1,300 tonnes less than the shore quantity, however, the ship's figure was accepted and the foreman stated the shore installations were usually 1% high of the ship figure. Ship was loaded to the maximum draft of 53 ft. but a great deal of difficulty was experienced reading the draft due to the seaway.
Unberthing: This was carried out on the flood tide and only during daylight. Single up to the 2 spring wires aft, using small astern movements and helm movements which aided by the anchor will cant the head from the quay. When the anchor is aweigh, slip the springs and steam ahead of the jetty then using full ahead power and starboard rudder followed by full astern power the vessel is swung well within the turning area to head seawards.
Depths in Channel: Except for the area of the channel abreast Cap Blanc lighthouse where less than 1 m. beneath the keel the remaining parts of the channel showed 3-4 m. underkeel clearance.
Conclusion: It would appear impractical to enter ships of a larger physical size than ourselves at this port because of airdraft/outreach limitations, draft restriction and manoeuvrability problems. Although we were fortunate in having a trouble-free berthing and unberthing procedure serious problems could be foreseen if a vessel had a main engine failure or a sudden deterioration of the weather occurred during these manoeuvres.

Copy of notice received from SNIM Agents Nouadhibou:
To avoid any problem with the Authorities, kindly note the following instructions:
Documents required on arrival:
4 Crew Lists
2 Store Lists
2 Crew Declaration Lists
3 Passengers Lists (even "Nil")
3 Ports of Call Lists of the Last Month
2 Manifests "In Ballast"
1 Health Declaration
2 Vaccination Lists
Customs: The Mauretanian Customs Officers check very closely the provisions on board. Any difference (more or less) may lead to a fine including the confiscation of the excedent goods. Then please give on arrival to your Agent lists of provisions strictly exact.
Maritime Gendarmie: Officers of the Maritime Gendarmerie of Nouadhibou may come on board. They mainly control if the Mauretanian flag is up and check very closely the concordance between the Ship's Articles, the Seamens' Books and the Crew List. If any difference is found between these 3 documents a fine may be given to the ship.
Immigration/Police: The crew members are not allowed to go ashore without a safe conduct given by the police. The list of the men asking to go ashore has to be given to your Agent on arrival.
Money: On principle, foreign money is not allowed in Mauretania, but your Agent may change your money into local currency. Non-Mauretanian money (Ouguiya) may be kept on board and if crew has not spent the total of their local money they have to give it back to the Agency (100 Ouguiya = £1) (10 Ouguiya = 1 Fc.)
AUTHORITY: Societe Nationale Industrielle et Miniere (SNIM).

NOUADHIBOU HARBOUR: 20.54 N. 17.03 W.

LOCATION: Position of Trading Port 20° 53′ 48″ N., 17° 03′ 10″ W.
PILOTAGE: Not compulsory, effected by SNIM/Cominor. Pilotage not available at night.
RESTRICTIONS: Depth of buoyed Channel 24 ft. Anchorage strictly prohibited in the Channel.
TUGS: One tug, 150 h.p.
BERTHING: Pier of 75 m. length connected to shore by a 150 m. long bridge.

Outside general berth for ships with a 24 ft. draft and a 160 m. max. length. According to certain vessel's accommodations, the extreme hatches cannot be discharged through quayside.

Inside berth for ships with a 15 ft. max. draft and a 80 m. max. length.

The maximum payload authorized on the bridge connnecting the pier to the warehouses and the storage areas being limited to 10 tons, all heavy lifts over 10 tons are to be compulsorily discharged on lighters.
Lighterage Piers: Southern quay = length 80 m; depth 10 ft.
Western quay = 150 m; depth 10 ft.

The Southern quay is connected to SNIM/Cominor railroad network, allowing the loading of heavy lifts on railcars.

2 covered sheds: totally 3,500 sq.m.

1 area with macadamized roads offering 30,000 sq.m. of storage connected to SNIM/Cominor railroad system.
Lighterage: Compulsory for any ship whose characteristics do not allow a safe berth.

Compulsory for any loading or unloading of heavy lift over 10 tons

Not compulsory in case berths are occupied and if manpower and equipment are still available.
STEVEDORES:
Working Hours. Normal hours: from 0800 hrs. to 1200 and 1400 to 1800 on Monday to Friday.
From 0800 to 1200 on Saturday
Overtime: from 0700 to 0800 hrs., 1200 to 1400 hrs. and 1800 to 2000 hrs. on Monday to Friday.
From 1200 to 2000 hrs. on Saturday
From 0800 to 2000 hrs. on Sunday and holidays.
Night work after 2000 hrs. is not normally foreseen during Ramadan period, during this period, the work stops at 1800 hrs.
There is no work on the following holidays: New Year's Day (Jan. 1); Tabaski (El Aid) (variable date); El Mouloud (variable date); Labour Day (May 1); Africa Liberation Day (May 25); Korite (El Fatar) (variable date); Independence Day (Nov. 28); Christmas (Dec. 25); 1st Moharam (variable date).

The holidays corresponding to the Islamic holidays are calculated from Arabic calendar.
FRESH WATER: Only available for small vessels.
FUEL: Only available for small vessels.
GENERAL: *Winds* mainly N./N.E. in the morning N./N.W. in the evening. Wind force: variable from August to January rather strong from February to July. Tidal current running North during Flood, and South during Ebb (1.5 to 2.5 knots).
Swell 0.80 m. max. Strong surge alongside all berths.
Rise and Fall High water 2.35 m. Low water 0.35 m. difference = 2 m.

NOUAKCHOTT: 18.02 N. 16.02 W.

LOCATION: Nouakchott Wharf is situated in position 18° 02′ 08″ N., 16° 01′ 43″ W., being about 7 km. S.S.W. of Nouakchott.

All vessels anchor off the port and movement of cargo is undertaken by barges and lighters.
WIND: The direction of the wind varies from N.N.W. -N.E. The predominant winds affecting navigation are from the N.N.W.

The rapid onset of bad weather should be noted. When conditions are bad vessels should weigh anchor and proceed seaward as the coast offers no natural shelter.
CURRENTS: There is an almost permanent N.-S. current running at about 0.5 knot; it reverses S.-N. on a few days during the year.
SWELL: 2 kinds of swell have been observed: Local swell due to the coastal winds, varying from N. to N.W. in dry weather, and turning between N.W. and S.W. during the wet season.
ANCHORING ROADS CONDITIONS: The periods during which climatic conditions are liable to upset work are as follows: Strong swell, January/March; rain, July/August/September.

This virtually allows the port to be used during 200 days in the year.
WORKING CONDITIONS: Vessels must locate themselves as closely as possible, where they can anchor without risk, to the wharf, within the limits of their drafts (generally between 0.5 and a 0.25 miles), in line. At the lighterage quay there is a depth of water of 7 m.-8.5 m. It is preferable for a ring of lines to be placed in advance around the sides of the vessel to which barges may tie up.

Experience shows that the tonnage unloaded currently by the wharf is 400 to 500 t.p.d. where goods in sacks are concerned. It is possible to work 2 vessels at once, but each 4 will only work half of this tonnage.

Work is currently carried out on board by private companies, and on land, in the launches and lighters by the Wharf Organisation personnel.

As far as wharf personnel are concerned, during working days, the normal working hours are from 0800 to 1600 hrs.

Overtime day hours are from 1600 to 1900 hrs.

Night time working is considered to apply between the hours of 1900 and 0600 hrs. (currently impossible).

It should be noted that there is an overtime hour at the beginning and end of work, which is the time required to launch or bring barges on to the landing-stage.
RECOMMENDATIONS TO CAPTAINS OF VESSELS: Vessels must be at all times capable of gaining the open sea rapidly, since bad weather comes up very quickly, and the coast affords no natural protection.
WHARF: The working platform is 86 m.×21 m. and lies in a N.W.-S.E. direction; it is connected to the shore by a gangway 246.5 m. length and 7 m. wide.

The wharf is designed to take a load of 2 lorries of 25 tons (2 axles of 10 tons and 1 axle of 5 tons) or an overload of 1 ton/sq. m.

The wharf manager's office together with Police, Customs and radio office are located on the shore.
WHARF EQUIPMENT: 3 cranes with capacities of 20, 8 and 5 tons respectively.
FLOATING EQUIPMENT: 1 launch of 50 hp, 2 launches of 100 h.p. 10 steel barges, internal dimensions 10 m. × 3 m. × 1.25 m. with capacity for 20 tons cargo. 1 steel barge, internal dimensions 13 m. × 4 m. × 1.35 m. with capacity for 30 tons cargo.
LAND EQUIPMENT: Goods are transported from the wharf to the storage area by 18 trailers each with a capacity of 8 tons. The port is also equipped with 2 tractors of 80 h.p. and 5 fork-lift trucks with capacity of 3.5 tons.
TANKERS: Dakar oil companies are presently building a hydrocarbon oil depot about 400 m. North of the wharf.

The depot will be fed from tankers by means of 2 sea-lines of 900 m. length.

Mauritius

PORT LOUIS: 20.09 S. 57.30 E. (See Plan)

PORT LIMITS: The commercial area of the port is the area inside the port bounded by the entrance buoys and the shore line of the inner harbour. Vessels at the outside anchorage lie within the limits of the port defined by an imaginary line joining Pointe Aux Sables and Pointe aux Pimentes. In this area commercial activities are restricted to bunkering, ship repair and the landing of passengers or personnel.

PILOTAGE: Compulsory for vessels over 100 tons register. Vessels are piloted inwards and outwards at any time of the day or night if circumstances permit. Inward bound vessels are met about a mile seaward of the Entrance buoys though they may, in some circumstances have to be boarded at a greater distance offshore.

ANCHORAGE: Open roadstead with anchorages for vessels of any draft. Admiralty Chart No. 713 refers.

MAX. SIZE: Harbour entrance depths from 42 ft. to 119 ft. Channel – dredged to 40 ft.

RADIO: The Director of Marine requires to be notified of the date of the vessel's arrival, the length and draft and purpose of call, by radio as soon as it is possible for Master to communicate with Harbour either:

1. By CW transmission through the Government Radio Station (3 BA) at Vacoas on 500 kc/s.
2. By R/T transmission through Port Louis Harbour Radio Station (3 BB 3) on 2182 kc/s.

VHF: Port Louis Harbour Radio Station is equipped with VHF and maintains 24-hour watch on Channel 16.

TUGS: 2×720 h.p. diesel-engine tugs, *Betty* and *Winnie*. These tugs are available for deep-sea towage and salvage and are fitted with fire-fighting equipment, R/T and VHF. 3 smaller tugs of 320 h.p. are also available for harbour work and fitted with VHF.

BERTHING:

Quay D, length 485 ft., depth alongside 31 ft. 06 in. Can take 1 vessel up to 600 ft. overall, draft 30 ft. 06 in.

West Quay, length 400 ft., depth alongside 38 ft., designed for white oil and fertiliser discharge.

Quay C, length 396 ft., depth 18 ft. alongside for a length of 310 ft. Can take 1 vessel up to 300 ft. length, and 17 ft. draft.

Buoys: 5 berths capable of taking ships up to 37 ft. 06 in. max draft; 4 berths capable of taking ships up to 30 ft. 06 in. max. draft; 1 berth capable of taking ships up to 25 ft. max. draft; 3 berths capable of taking ships up to 20 ft. max. draft, max. length 350 ft.; 2 berths capable of taking ships up to 16 ft. max. draft; max. length 225 ft. Vessels of 37 ft. are berthed in Quarantine Berth in No. 4E, No. 2E, No. 2W, and No. 5W. Distance between buoys at entrance 1.5 cables.

SPECIALISED CARGO-HANDLING FACILITIES: LPG carriers berth at Quay D; there are no full containerisation facilities. Containers are handled by ships gear at West Quay, where Roll-on/Roll-off vessels are also handled.

Bulk Cargo: Cement Discharging facilities. Rate of discharge 500 t.p.h. Max. draft 22 ft., max. length 350 ft.; capacity of Silo; 7,400 tons.

STEVEDORING: Undertaken by private contractors. Approximate rate of loading per day of 8 hours: Sugar in bags, 200–250 tons per gang per day; sugar in bulk, 200–250 tons per gang per day; general cargo, 60 tons per gang per day; rum in drums, 100 tons per gang per day; bales hemp, 100 tons per gang per day.

Working hours: Monday to Fridays from 0700 to 1600 hrs., Saturdays from 0700 to 1300 hrs. Overtime can be carried out on weekdays up to midnight and up to 1600 hrs. on Sundays and public holidays.

MEDICAL: Arrangements for medical attendance should be made through ship's Agent. Private clinics available.

FRESH WATER: Fresh water supplied by barges at any berth between 0700 and 1600 hrs. Arrangements can be made for supply before 0700 and after 1600 hrs. on payment of overtime. The rate is about 25–30 t.ph. 4 barges of 50, 75, 85 and 110 tons respectively are available.

FUEL: Gas oil, marine diesel and furnace oil obtainable. (Arrangements must be made in advance between Owners and the Shell Co., BP, or the Anglo-Iranian Oil Co.) The pumping capacity of the installations at Port Louis for furnace oil is between 150 and 200 t.p.h., and for marine diesel oil and gas oil 50 t.p.h. Marine diesel oil and furnace oil (35 secs. to 1,000 secs.) is supplied at Quay "D". Furnace oil 1,000 seconds only is supplied on No. 5 West berth.

A 400-ton bunkering barge available to supply vessels in harbour and outside anchorage.

DEVELOPMENTS: The development project involves the construction of 3 deep water quays, a small jetty, mooring dolphins, sheds and administrative and workshop buildings.

REPAIRS: Almost any type of repair can be undertaken in Port Louis.

DRY DOCK: Stevenson dry dock. Largest vessel that can be docked: 326 ft.×48 ft., with a max. draft of 16 ft.; vessels of up to 358.5 ft.×50 ft. can also be docked, but at least 15 days notice should be given.

CONSULS: *Consulates:* Belgian, Danish, Dutch, Finnish, German (Federal Republic), Norwegian, Portuguese, Spanish and Swedish. *Embassies:* French, Malagasy, American, Russian and Pakistan. *High Commission:* British and Indian.

HOLIDAYS: 1st January (New Year's Day), 22nd January (Cavadee); 6th February (Chinese Spring Festival); 18th February (Id-El-Adha); 6th March (Maha Shivaratree); 12th March (Independence Day); 1st May (Labour Day); 29th October (Divali); 1st November (All Saints' Day); 1st December (Id-El-Fitr); 25th December (Christmas Day).

POLICE/FIRE: Police, tel. 999; Fire, tel. 999.

TIME: Local time GMT plus 4 hrs.

AUTHORITY: Mauritius Marine Services Dept.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Mexico

ACAPULCO: 16.50 N. 100.00 W.

DOCUMENTS:

Health Clearance from previous port.
Health Pratique.
4 Stores Lists.
4 Lists of Crew's Personal Effects.
12 Crew Lists.*
2 Passenger Lists.*
12 Manifests of cargo for the port.*

*One copy to be visaed by Mexican consul.

PILOTAGE: Pilot is ordered by Agent on the basis of Master's ETA, which should be given accurately at least 24 hrs. before arrival. Pilot boards at the port limits, approx. 1 mile from the entrance.

ANCHORAGE: Vessels may anchor in the middle of the bay as indicated by the Pilot. Depths up to 150 ft.

RESTRICTIONS: The Bay of Acapulco is a natural harbour surrounded by mountains, approx. 4 miles across at its widest part and 2.5 miles across at its narrowest. There are 2 entrances, 1 called Boca Grande and the other called Boca Chica.

Boca Grande is between Punta Siclata on Isla de la Roqueta and Punta Bruja. The channel is 3,000 m. wide with a depth of 31 fathoms in mid-channel.

Boca Chica Channel, between Isla de la Roqueta and the Peninsula of Las Playas is 300 m. wide with a depth of 14 fathoms in mid-channel.

MAX. SIZE: For berthing alongside max. draft 28ft. 6in.

HEALTH: When vessel arrives at the port the following Authorities will board: Port Health Authority, Customs and Immigration, accompanied by the ship's Agent.

RADIO: Coastal station of Acapulco receiving on 8374 kHz in daytime and on 4180 kHz at night. Transmitting on 8514 kHz in daytime and 4250 kHz at night. Radiotelephone receiving and transmitting on 2715 kHz during the day and on 2182 kHz from 2000-0600 hrs. local time. VHF service available from 0630 to 2300 hrs.

TUGS: 1 tug is required for berthing. Tug's line used.

MEDICAL: Agent should be advised by radio in advance if any medical assistance required. Hospital facilities available.

TANKERS: Tanker moorings operated by Petroleos Mexicanos situated on the Eastern side of the bay. It is strictly prohibited to discharge oily residues in the bay or within 40 miles of the port.

FRESH WATER: Can be supplied by hoses from the quays, rate about 15 t.p.h.

OPENING/CLOSING HATCHES: Is performed by stevedores.

CUSTOMS ALLOWANCES: Crew members are only allowed to retain cigarettes, tobacco and liquor sufficient for their own consumption while vessel is in port.

IDENTIFICATION CARDS: Crew members should carry a passport.

CONSULS:

Denmark	Tel. 2.11.11	Italy	Tel. 2.25.10
France	" 2.43.83	Norway	" 2.19.56
Great Britain	" 2.29.21		

REPAIRS: Minor engine repairs can be effected. No dry docks, only a slipway for vessels up to 100 tons.

REPATRIATION: Can be arranged.

AIRPORT: International Airport situated 22 km. from the port, daily flights to all parts of the world.

TIME: GMT minus 6 hrs. all through the year.

HOLIDAYS: The following holidays can only be worked in case of emergency: 1st January; 5th February; 21st March; 1st May; 5th May; 16th September; 12th October; 25th December; and in addition 23rd May, Anniversary of the Stevedores' Union.

POLICE/FIRE/AMBULANCE: Police tel. 2.00.40; Fire 2.00.42; Ambulance (Red Cross) 2.02.41. and/or 2.00.88.

TELEPHONES: Cannot be connected on board the ship but Master may make calls from the quay.

SHORE LEAVE: Allowed.

AUTHORITY: Capitania de Puerto.

AGENT: Representaciones Maritimas, S.A. c/o Ricardo Careaga E Hijos, S. De R. L., C.M. Aleman No. 187-31 3er Piso, P.O. Box 256. Acapulco, Gro. Mexico. Tel.: 2 23 35. Telex 017 516 Cables: "Maritimex".

COATZACOALCOS: 18.08 N. 94.25 W.

PORT LIMITS: From the centre of the channel at the bar with a radius of 0.5 mile to seaward.

DOCUMENTS:

Customs:

Cargo manifest, original and 4 copies visaed by Mexican Consul at place of origin. If no cargo carried for this port a certificate and 2 copies stating the fact.
Stores List, original and 1 copy.
Personal Effects List, original and 1 copy if vessel is arriving from another Mexican port. Customs release from that port must be produced.

Port Captain:

Clearance from last port.
2 copies Crew List.
3 copies Manifest of cargo for this port.

Immigration:

Crew List, original and 1 copy, bearing consular visa.
Passenger List, original and copy, visaed by consul.
All Crew Passports or I.D. Cards.

Health:

2 copies Crew List.
2 copies Passenger List.
Crew Vaccination Certificates.
Derat Certificate.
When vessels are anchored beyond the breakwater authorities board from the pilot launch.

The following must be made available for inspection.

Registration Certificate of Vessel.
Certificate of Inspection of Deck Machinery.
Certificate of Inspection of Machinery.
Freeboard Certificate.
Tonnage Certificate.
Radio Certificate.
Radio-telephony Certificate.
Emergency Procedure in the Case of Abandoning Ship.
Emergency Procedure in the Event of Fire.
Vessel Insurance Policy.
Copy of the Charter Party (where applicable).

PILOTAGE: Compulsory. Pilot meets vessel off the jetties at Coatzacoalcos Estuary. Master should give Agent information not less than 24 hours prior arrival stating vessels name, flag, and ETA as well as draft.' Pilot boat black hull, white housing and red deck. 2 launches *Alcion* and *Vencedora*. The sound signal for calling the Pilot is 2 long blasts and 1 short blast. The light signal is a blue Bengal light.

There is a new cutter *Sirius*. The pilots' office has a VHF radio station, listening out on Channel 16.

ANCHORAGE: Vessels may anchor between 0.5 mile and 1.5 miles off the breakwater or at the Master's discretion.

MAX. SIZE: Max. draft crossing the bar is 37 ft. The Pajaritos Channel to the bar reaches 42 ft. (will shortly be 45 ft.)

Free Zone: Max. length during the day 200 m., at night 125 m. Max. draft. 31 ft.

Pajaritos: Max. length 225 m. Max. draft 37 ft.

HEALTH: Pratique never given by radio. Vessels granted free pratique when berthed alongside if no contagious illnesses aboard.

RADIO: Telegraphic transmitter type TH 600-M with an open sea range of 500 miles radius, frequencies of 512, 500, 432, and 419.5 kc/s. Telephonic transmitter type TSB-500-Be with approx. range of 500 km., frequencies of 2.182, 2.270, 2.542 and 2.665 kc/s. RDF transmitter type TT-1017-B with approx. range of 300 miles, frequency 312 kc/s. Transmitter/Receiver for radiotelephony VHF type VFD-50PT/PR, with approx. range of 50 miles, frequencies in Simplex operation: Channel 12-156.6 mc/s and Channel 16. International call-up 156.8 mc/s. Duplex operation: Channel 26. Transmission 161.9 mc/s and reception 157.30 mc/s Channel 27. Transmission 161.95 mc/s and receiving channel 157.35 mc/s. At the moment, there is a point to point link-up with national and coastal telegraphs, as well as teleprinters for national and international service No. 078-835 (the latter is said already to be installed and will shortly be operating normally).

TUGS: The Free Zone has the "Servicios Portuarios del Istmo de Tehuantepec S.A de C.V., owners of the tugs *Quetzalcoatl* 2,400 h.p., *Olmeca* 1,600 h.p. and *P.L.M.8* with 600 h.p. for operations in the Free Zone and the Pajaritos Terminal, the first being able to undertake salvaging work due to extensive range of action.

A tug is obligatory for mooring, unmooring or changing position in the port roads. 1 tug for vessels of 2,500 g.r.t. and 2 tugs for vessels larger than 4,000 g.r.t. The signal for calling up tugs is 2 long and 2 short blasts on the vessel's siren. The signal for the tug to withdraw is 1 short, 1 long and 3 short. The tug will repeat the signal to indicate that it has been heard. Tugs are fitted with VHF radio listening out on Channel 16 and during working on the channel which the tug captain is ordered to use.

BERTHING: *Free zone:* this has a quay length of 1,900 m. (1, 2, 3, 4, 5, 6, 7, 8,) with varying depths of water from 29 to 31 ft. All necessary services for vessels are available. During the day, vessels up to 200 m. overall length can manoeuvre, and at night only vessels up to a max. length of 125 m.

Restrictions; Night service is suspended during times of strong currents in the Coatzacoalcos river.

Pajaritos Terminal: In this terminal PEMEX has 3 quays operating and 1 being constructed, those operating being PX1E and PX1W with operational depth of 33 ft. and 30,000 tons gross with lengths of 200 m. PX2E and PX2W with operational depths on the Eastern side of 33 ft. and with 37 ft. on the Western side, admits vessels of 225 m. overall length and 35,000 g.r.t. The Provisional Quay admits vessels with 37 ft. draft. and 35,000 g.r.t. At this terminal, Pemex exports crude oils, fuel oils, and at the PX1E quay ethylene is loaded specifically. In the Western part of the lagoon, there is a manoeuvring basin with a radius of 300 m.

F.F.M. Quay: In the Eastern part of the Lagoon of Pajaritos, the Empresa Fertilizantes Fosfatados Mexicanos S.A. have their plants and a quay of 425 m., running E. — W., this quay being used for discharge of phosphoric rock in 4 mobile hoppers. Also, liquid sulphur is discharged, phosphoric acid is loaded, as are sulphuric acid and superphosphates. It has an operational draft of 33 ft., and takes vessels of 35,000 g.r.t.

STEVEDORES: No ETA advice necessary. Free Port: Straight working hours: from 0800 to 1200 and from 1400 to 1800 hrs. Overtime 100% overcharged according Tariffs. Latest times to order gangs: 0730, 1330 and 1730 hrs. Straight time above hours Monday through Saturday. Sunday and holidays allowed to work except "Legal Holidays". Loading and discharging rates: 25 tons gang/hour using ship's derricks. No shore cranes available. Loading sulphur by conveyor belts at 500 t.p.h., working around the clock.

Private FFM Berth: Loading or discharging operations performed by their own personnel working 24 hours per day. Rate of loading by conveyor belt: 500 t.p.h. Rate of discharging 1,100 tons per day with ships gear.

MEDICAL: Hospital facilities available. Inform Agent in advance if treatment required. Smallpox vaccination certificates inspected on arrival. If certificates expired crew members are re-vaccinated at Health Department.

TANKERS: Also see "Berthing". Tankers regularly moor in the Pajaritos Roads. There are 4 large quays for mooring 7 vessels up to 233 m., with max. draft at the quay of 33 ft.

The provisional Quay has 2 lines of operation of 24 in. with 3 points 8 in. for crude oil and 1 other of 8 in. for crude oil.

DENSITY: Averages 1012.

FRESH WATER: Available at berths in Free Port area, delivered by 1.5 in. hose. Loading rate about 8 t.p.h.

FUEL: Fuel can be supplied at Coatzacoalcos port by tank-trucks when vessels need small quantities. Petroleos Mexicanos (PEMEX) has at Nanchital a loading terminal which is about 3 miles up-river from Coatzacoalcos (max. draft 27 ft. 6 in.) where Bunker C fuel available.

Diesel oil only available at Minatitlan, about 17.5 miles up-river from Coatzacoalcos (max. draft 21 ft.). If vessel bunkers at Nanchital or Minatitlan there will be at least 1 day delay and heavy extra expenses.

Gas freeing equipment for Gas tanker at Nanchital.

DEVELOPMENTS: The entrance channel up to Pajaritos roads has been dredged up to 42 ft. The quays in the Free Zone have been completely reinforced, vessels up to 31 ft. draft being able to come alongside. The warehouses for general cargo at quays 2 and 3 have been completed, with a covered area of 4,000 m. and normal loading capacity of 10,000 cu. m. There are sufficient open areas for positioning heavy loads or machinery. Apart from the lighthouse on the Gavilan Hill, in the Allende area (left bank), the port has light towers indicating the main entrance channel, another 2 to indicate the channel leading to Pajaritos roads. All 4 have flashing lights. The branch leading onwards to the Free Zone is indicated by a small tower with flashing white light. The lights of the promontories of the 2 headlands;— the East light is green, and the West light is red. The channel is marked with black coloured buoys with odd numbers, on the port side entering, and red with even numbers on the starboard side. Both sets of lights are of the flashing type. When continuing upstream towards Nanchital or Minatitlan, the bridge has to be passed under. Its characteristics are: Length 1,375 m. vertical clearance with the bridge up 35 m., with the bridge down 8.84 m. Horizontal clearance which can be used: 60 m. To have the bridge raised, vessels must give 3 long and 2 short blasts on the siren.

CUSTOMS ALLOWANCES: No restriction for free use on board.

CONSULS: Norway and Netherlands.

REPAIRS: Minor repairs may be effected. No dry dock available.

AIRPORT: At Minatitlan, about 40 minutes car drive away. 2 regular flights to Mexico City.

TIME: 6 hours behind GMT.

HOLIDAYS: No work performed on following legal holidays: January 1st; March 21st; May 1st; May 5th; September 16th; October 12th; November 20th; December 25th; and December 1st every six years when Federal Government changes President.

TELEPHONES: No facilities for placing telephones on ships.

POLICE/AMBULANCE/HOSPITAL: Police tel. 2 01 22, Red Cross 2 02 85; Hospital 2 00 30.

SHORE LEAVE: Possible. Crew must have I.D. cards or passports Passengers must have passports.

AUTHORITY: Port Captain.

AGENT: Representaciones Maritimas, S.A. Calle Juarez 320 Altos Coatzacoalcos, Ver. Tel. 2 01 71. Telex 078 822. Cable: "Maritimex", Coatzacoalcos.

LAZARO CARDENAS: 17.59 N. 102.10 W.

The harbour is on Balsas River, also known as Mezcala, about 1 mile from the entrance.

PILOTAGE: Compulsory, night pilotage only if previously agreed.

ANCHORAGE: Vessels should anchor and await pilot in position 358°, 1.5 miles from the Lighthouse. Depth of water 15 fathoms.

APPROACHES: Entrance between 2 stone breakwaters, width at entrance 493 ft. Safe depth over bar for vessels of 40 ft. – 45 ft. draft. Tides are irregular and affected by change of winds, mean rise and fall of 18 in. Navigation channel between the entrance and the basin with a length of 1 mile and an average width of 480 ft., is dredged continuously with an average depth of 46 ft. Turning basin in front of only pier with a maximum diameter of 1,640 ft.

TUGS: 1 tug of 500 h.p. available, compulsory for all vessels over 2,000 g.r.t.

BERTHING: The only pier available is of about 200 m. (658 ft.) of which the first 180 m. have a depth alongside, at low water of 40 ft. Surface area of quay and behind it is 1,500 sq. ft. Another 658 ft. of pier (marginal to the first) is under construction and is expected to be put into service in 1976. Equipment: 1 mobile container crane is located on the only pier, which has a capacity with spreader of 40 tons. Other heavy lift equipment, cranes, etc are owned, rented by Sicartsa and can be obtained at a rent but must be requested in advance.

STEVEDORES: Working hours: 0800–1400 hrs. and 1500–1700 hrs. Monday – Friday. 0800–1200 hrs. Saturday.

FUEL: Not available.

REPAIRS: No facilities.

AIRPORT: Approx. 5 miles from city. 3 flights a day to Mexico City.

AGENT: Representaciones Maritimas, S.A. Lazaro Cardenas. Telex. 017-74534 and 017-73834 in Mexico City.

MANZANILLO: 19.03 N. 104.20 W.

DOCUMENTS:

14 Crew Lists.
20 Passenger Lists.
Derat Certificate.
Vaccination Certificate for each crew member.
Cargo Manifest and one copy to be visaed.
8 additional copies of Cargo Manifest, unvisaed.
10 Bills of Lading, one copy to be attached to each cargo manifest.

PILOTAGE: Pilot station cannot be contacted by radio, and Pilots are ordered by Agents basis Master's ETA.

Pilot boat is black with white wheel-house on which is painted letter "H". International Code signals used. Pilot normally boards vessel about 1 or 2 miles from breakwater but if requested in advance the pilot boat will come out to 5 or 6 miles. Pilot cannot board in rough weather. Vessels waiting for Pilot may anchor about 2 or 3 miles N.W. of breakwater in depths of 12-15 fathoms.

ANCHORAGE: Vessels may anchor in the whole North part of the Bay where depths are 12-15 fathoms at a distance of 1 – 2 miles from the coast.

RESTRICTIONS: Vessels may enter at any time day or night.

MAX. SIZE: No limitation for anchoring in the bay. For mooring alongside, max. length 200 m. max. draft 32 ft.

Also see "Tankers".

HEALTH: Port Health Officer and Immigration Officers board vessel at anchorage. Passengers and crew may be required for inspection. All passengers and crew members must possess Smallpox Vaccination Certificates.

RADIO: Coastal station Manzanillo Radio, call sign XFM, operating 0600-1800 hrs. local time.

TUGS: 1 tug available, compulsory to use tug when mooring alongside. Tug will join vessel as ordered by the Pilot.

BERTHING: Vessels may berth at both sides of the pier or at the North end of the pier.

STEVEDORES: Advise Agent in advance number of gangs required. Discharge rate approximately 20-25 t.p.h. per gang.

MEDICAL: Agent should be advised in advance if medical attendance required on board. Hospital facilities available.

TANKERS: 2 berths available, max. length 650 ft. No restriction on beam. Max. draft: N.E. side 31 ft. (Forward) and 38 ft. (Aft). S.E side 33 ft. (Forward) and 38 ft. (Aft).

FRESH WATER: Should be ordered in advance. Rate of 10 t.p.h. Vessels must furnish own steam for pumping, 2 inch coupling. No barges available for delivery at anchorage.

FUEL: Should be ordered in advance: All grades available. May be expensive due Customs fees.

DEVELOPMENTS: Improvements are in progress to accommodate vessels up to 30,000 tons with a draft of 40 ft.

GANGWAY/DECK WATCHMEN: No shore service available.

OPENING/CLOSING HATCHES: Normally performed by crew members.

CUSTOMS ALLOWANCES: Each crew member may retain 1 carton of cigarettes, and 1 bottle wine/spirits for his own use. No alcohol may be taken ashore.

IDENTIFICATION CARDS: Identification cards or shore passes are necessary for crew going ashore.

CONSULS: Nearest are at Colima and Guadalajara.

REPAIRS: Only repairs to auxiliary machinery can be effected. At Guadalajara hull repairs may be effected provided dry dock not required.

REPATRIATION: Can be arranged.

AIRPORT: Local airport only for internal traffic.

TIME: GMT minus 6 hrs. all the year round.

HOLIDAYS: The following holidays can only be worked in case of emergency: 1st January; 5th February; 21st March; 1st May; 5th May; 16th September; 12th October; 25th December; and in addition 23rd May, Anniversary of the Stevedores' Union.

POLICE/FIRE/AMBULANCE: Police Tel. 4; Fire 23; Ambulance 96.

TELEPHONES: Cannot be connected on board ships.

SHORE LEAVE: Permitted except for crews of Russian, Cuban and Communist Chinese vessels.

Crew members required present their identity cards to Immigration at the gangway. Crew members left behind by vessel must be covered by 10,000 Pesos bond to guarantee repatriation expenses.

AUTHORITY: Capitania de Puerto Edifico Federal.

MINATITLAN: 17.54 N. 94.35 W.

DOCUMENTS: See "Goatzacoalcos."

PILOTAGE: See "Coatzacoalcos Pilotage." Port about 17.5 miles up-river from Coatzacoalcos. Vessels are piloted either up-river or down-river to and from Minatitlan.

ANCHORAGE: Only at Coatzacoalcos. At Minatitlan river is narrowed and anchorage not permitted.

RESTRICTIONS: Vessels may enter harbour only in daylight. Latest time for entry and sailing to and from Minatitlan is 1500 hours.
HEALTH: Pratique never given by radio. Vessels granted pratique at anchor at Coatzacoalcos. Vessels must prepare accommodation ladder, to be boarded by port authorities.
MAX. SIZE: Max. LOA at Pemex berths: 475 ft. Max. LOA at Fiscal berth: 440 ft. No breadth restrictions at both. Max. draft permitted: 21 ft. in fresh water.
TUGS: 1 tug required to accompany vessels past the Coatzacoalcos Bridge. Tugs rejoin vessels in the river on arrival at berth. Tug's lines used. For vessels over 2,000 g.r.t. 1 tug required, over 3,000 g.r.t. 2 tugs required.
BERTHING: Normally vessels dock starboard side to. Petroleos Mexicanos (Pemex) has 8 berths for tankers, where they can load crude, fuel oil, gasoline benzene, xylene, metaparaxylene, toluene and other petroleum derivates. Fiscal berth has a length of 80 m. depth alongside of 22 ft. Actually only used to discharge bulk harmless fertilisers. Discharge performed by elevator at a rate of 800 tons per 24 hours, also by ship's gear using buckets at a rate of 200 tons per day per hatch.
TANKERS: No ballast to be discharged in the river. All ballast to be discharged to shore tanks through 2×6 in. pipe-lines.
STEVEDORES: No ETA advice necessary. Agent or Receivers of cargo order gangs to discharge. Straight working hours from 0700 to 1500 Mondays through Saturdays. Latest time to order gangs 0645 and 1445 hrs.
DENSITY: Averages 1006.
MEDICAL: Hospital facilities available.
FRESH WATER: Available at all berths, but is not recommended.
FUEL: Marine diesel oil and Bunker "C" obtainable at Pemex berths. Bunker "C" also obtainable by barge, and diesel oil only by tank truck.
CUSTOMS ALLOWANCES: No restrictions. Free use on board. 2 Customs guards remain on vessel while alongside.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
REPAIRS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: About 15 minutes car drive away. Regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.

AGENTS: See "Coatzacoalcos".

MORRO REDONDO, Cedros Island: 28.03 N. 115.11 W.

SHIPMASTERS REPORT: (January, 1977)
Morro Redondo: Bulk Salt Terminal 28° 03.5′ N. 115° 11′ W.
PORT LIMITS: No defined limits.
DOCUMENTS:
- 3 Crew Lists in Spanish, visaed by Mexican Consulate in previous port.
- 12 Ordinary Crew Lists.
- 3 Stores and Provisions Lists.
- 3 Lists of Crew Effects.
- 1 List of Crew Vaccinations.
- Clearance from Last Port.
- Certificate of Registry.

PILOTAGE: Pilot arranged by Agent on the basis of ships ETA. Pilot boards when ship is within 3 miles of the berth, from a small MFV type pilot launch, no markings and no VHF. Uses pilot hoist.
ANCHORAGES: None designated but vessels may anchor 2 miles East of berth in 35 fathoms or, alternatively 3.5 miles South of Morro Redondo Point in 15 fathoms.
RESTRICTIONS: None, but berthing in daylight preferred.
MAX. SIZE: Minimum depth alongside 16 m. Maximum air draft to top of hatch at high water 15 m. Largest ship to date 157,000 d.w.t.
HEALTH: Pratique granted by local doctor who boards on arrival. Requires Crew Vaccination Certificates and Master's Declaration of Health.
RADIO: KFS San Francisco Radio or KOK Los Angeles Radio.
VHF: Loading installation calls VHF Channel 16 when ship is in sight and gives any information at this time. VHF is not normally manned so further communication is unreliable.
RADAR: None.
TUGS: 2 tugs join at same time as Pilot, each 2,000 h.p. Tugs lines at no extra charge. Usually 1 tug only for unberthing.
BERTHING: 1 berth only consisting of pontoons and dolphins, also large mooring buoys, 1 ahead and 1 astern, each about 600 ft. distance from berth. 2 mooring ropes must be bent together each end to reach buoys.
CRANES: None.
BULK CARGO FACILITIES: Port is solely for the purpose of loading solar salt in bulk. Loader is belt and spout type and is fixed in position. Vessel must be shifted from hatch to hatch by ship's crew.
STEVEDORES: No special requirements. Average loading rate 2,000 t.p.h.
MEDICAL: No advance notice required, doctor will attend on board. Limited hospital facilities available. Vaccination Certificates for small-pox required.
DENSITY: 1026.
FRESH WATER: Not available.
FUEL: Not available.
FIRE PRECAUTIONS: No special requirements.
CONSULS: None.
REPAIRS: No repairs possible.
GANGWAY/DECK WATCHMEN: Shore gangway only, electrically operated and tended by stevedores. No deck watchmen required.
HATCHES: Opened and closed by ship's crew.
CARGO GEAR: One fixed loader only, controlled by stevedores.
REPATRIATION: Possible, with advance notice to Agent.
AIRPORT: Close to berth. Average 1 flight per day.
TIME: Standard time GMT minus 8 hours. Daylight saving time GMT minus 7 hours from last Sunday in April to last Sunday in October.
TELEPHONES: No telephone contact with mainland.
SHORE LEAVE: Allowed. No special shore passes required.

AGENT: Exportadora de Sol S.A., P.O. Box 150, San Diego, California. Telex 69-7829. Telephone (714) 239-0131. Cables: Essasa Sandiego.

NANCHITAL: 18.00 N. 94.27 W.

DOCUMENTS: See "Coatzacoalcos."
PILOTAGE: See "Coatzacoalcos Pilotage." Port about 3 miles up-river from Coatzacoalcos.
ANCHORAGE: See "Coatzacoalcos Anchorage."
RESTRICTIONS: Vessels may enter Coatzacoalcos only with daylight. Navigation from Coatzacoalcos to Nanchital remains closed from 1630 to 0700 hrs.
MAX. SIZE: Max. LOA 580 ft. No breadth restrictions. Max. draft permitted 27 ft. 06 in.
HEALTH: See "Coatzacoalcos."
TUGS: When vessels proceed to Nanchital, 1 tug accompanies to pass the Coatzacoalcos bridge, according to Port Regulations. Tugs again join vessels when arriving at Nanchital berths. Tug's lines used. For vessels over 4,000 g.r.t. 2 tugs used.
BERTHING: Normally vessels dock port side alongside. When current and circumstances permit vessel is turned around and docked starboard side to. There are 2 docks at Nanchital, called Old Pier and New Pier. Both to load crude oil, No. 6 fuel oil by pipe-line of 6 in. and up to 10 in. Mooring, unmooring, connecting and disconnecting hoses performed by Pemex own labourers.
MEDICAL: Hospital facilities available only at Coatzacoalcos.
BALLAST: Special regulation for tankers that no ballast water to be discharged in the river. Deballasting performed by 2 pipe-lines of 6 in. diameter to shore tanks.
SALINITY: Average 1006.
FRESH WATER: Available at both berths but is not recommended for drinking.
FUEL: Available only at the Pemex Oil Terminal at any time.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
CUSTOMS ALLOWANCES: No restrictions. Free use on board. 2 Customs guards stay on board. Vessel to provide them boarding and lodging.
CONSULS: None.
REPAIRS/DRY DOCKS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: At Minatitlan, about 1 hour car drive away. 2 regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.

AGENTS: See "Coatzacoalcos".

PROGRESO: 21.17 N. 89.39 W.

DOCUMENTS:
- Crew List visaed by the Mexican Consul and 7 simple copies.
- Derat Exemption Certificate.
- Valid Smallpox Vaccination Certificates for all crew and passengers.
- Passports or Seaman's Book for all crew.
- Clearance from last Port of Call.
- Passenger List visaed by Mexican Consul and 7 copies.
- 6 Stores Lists.
- 7 Manifests.
- 7 Bills of Lading (2 to be visaed).
- Tonnage Certificate.
- Certificate of Free Pratique.

PILOTAGE: Compulsory. Pilot boards about 3.5 miles North of the lighthouse from a fast launch. International signals to be used to call Pilot day and night. ETA should be passed to Agent via radio station at least 24 hours before arrival.
ANCHORAGE: Vessels waiting for a berth anchor 3 miles off the Fiscal quay. The anchorage is marked on Chart H.O. 0966.
RESTRICTIONS: No night restrictions. Also see "Max. Size". No facilities for tankers.
MAX. SIZE: Max. LOA, 190 m. Max. draft 16 ft. (arriving), 16 ft. 06 in. (sailing).
HEALTH: The doctor boards the vessel at the quay. Where illness or fever is suspected on board, international rules are followed. If the vessel is arriving from another Mexican port, there is no health inspection. Radio pratique is not obtainable.

Authorities require Smallpox Vaccination Certificates for all crew and passengers, and valid Derat Exemption Certificates. No radio pratique prior to arrival obtainable.

RADIO: Progreso Radio XFN works from 0600 to 1900 hrs. every day and listens on frequencies 2,182 kc/s. and Channel 16 VHF on radio-telephony and 500 kc/s. on radio-telegraphy. Working frequencies are 2,756 kc/s., Channel 14, Channel 13 and Channel

12 VHF for radio-telephony, and 420 and 429 kc/s. on radio-telegraphy. ETA can be passed through this station 24 hours in advance.

TUGS: No tugs available.

BERTHING: One pier heading 355° true. Berth available on both sides, East and West, with 204 m. length on each side, and both with 18 ft. depth alongside.

STEVEDORES: No ETA advice necessary if stowage plan received in advance by Agent. Otherwise, ETA advice for gangs required 6 hours prior to arrival. Stevedores' General Cargo discharging and loading rate about 12 tons per gang/per hour.

MEDICAL: Attention available. The port has a clinic. Hospitals are situated in Merida.

TANKERS: No facilities.

DENSITY: Average 1015.

FRESH WATER: Available from pier by hoses. Fresh water is treated in the plant.

FUEL: Bunkers are available. Delivery by tanker truck equipped with pumps. Diesel and fuel supplied. Agent requires 24 hours notice.

FIRE PRECAUTIONS: No smoking allowed aboard vessels.

GANGWAY/DECK WATCHMEN: It is not necessary. Sometimes Masters require them.

OPENING/CLOSING HATCHES: This work is normally carried out by stevedores, but sometimes is carried out by crew in order to save time in loading or unloading.

CUSTOMS ALLOWANCES: Any quantity to be used on board is permitted.

IDENTIFICATION CARDS: Not necessary, but crew must carry passport or Seamans I.D.

CONSULS: The Consular Offices are located in Merida, the capital of State of Yucatan (20 minutes from Progreso by taxi):

Cuba	tel. 1 66 77	Lebanon	tel. 1 77 76
France	tel. 1 60 13	Switzerland	tel. 1 75 00
Germany	tel. 1 21 77	USA	tel. 1 60 30
Great Britain	tel. 1 67 99		

REPAIRS: Small repairs can be carried out in shore shops. No dry docks available.

REPATRIATION: There are facilities for effecting crew changes and arranging necessary repatriation. All matters are handled by the Office of Immigration.

AIRPORT: International Airport in Merida, about 30 minutes from Progreso by taxi. Daily services to Miami, Fla., by Pan American World Airways and New Orleans La., every 2 days. Other flights to Central America, Jamaica, and Germany.

POLICE/AMBULANCE/FIRE: Police 5 00 26.

HOLIDAYS: January 1st; February 5th; March 21st; May 1st (Labour Day); September 16th (Independence Day); November 20th (Revolution Day); December 1st (every 6 years); December 25th; It is possible to work, paying 100% additional.

TELEPHONE: It is not possible to place telephones on board.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Harbour Master (Captain of the Port).

AGENT: Representaciones Maritimas S.A., c/o Fernando Patron Nicoli, 27th Street No. 112, Progreso, Yucatan, Mexico. No Telex. Tel. 5 00 52.

PUERTO MADERO: 14.41 N. 92.27 W. (See Plan)

Puerto Madero is located in approximately 14° 41′ N., 92° 27′ W., about 18 miles N.W. of the Ocos River. Tapachula, with a population of about 50,000, is 25 km. from Puerto Madero and connected by a good road.

DOCUMENTS:

10 Spanish Crew Lists.
6 Passenger Lists.
3 Store Lists (Spanish).
5 Cargo Manifests.
1 Arrival Report.
1 W.H.O. Form (supplied by Quarantine Officer).

Vessels are boarded on arrival by 13 officials. Pilot acts as interpreter.

All papers must be correct. Immigration Officer checks crew list against all passports.

PILOTAGE: Pilot boards off the entrance from yellow surf boat fitted with outboard motor, not fitted with radio. Pilot speaks good English.

ANCHORAGE: A good anchorage can be obtained in soft mud between 1 and 2 miles S.W. of the breakwater head in about 7 fathoms. This anchorage, being exposed, is liable to strong swell from seaward.

HEALTH: All Smallpox Certificates individually examined.

RADIO: Salina Cruz.

BERTHING (Port under construction): There are 2 reaches, an expansion basin and a turning basin with a general cargo berth and a banana berth. For the present the general cargo berth only can be used. The project depth is planned to be 10 m. throughout – channels and turning basin. The max. draft the port is expected to handle will be 27 ft. Even in calm weather there is a good swell running and this dissipates in the expansion basin between the first and second reaches of the channel.

The first reach is entered on a heading of 045°(T) and passes between the breakwaters which are 650 m. in length and constructed of smashed rock and are visible on radar at 20 miles.

The semi-submerged wreck of an American dredger lies close N.W. of the Northern breakwater. A flashing green light is exhibited from a lattice work tower on the Northern breakwater while a flashing red light is exhibited from a similar tower on the Southern breakwater. Although the breakwaters are 350 m. apart, an 80 m. channel exists in the centre. The least reported depth is 30 ft. This channel continues for a further 650 m. on the same course of 045° (T). To assist in steering 2 range lights and a day beacon are being constructed.

The second reach is entered on a heading of 000°(T) and narrows to a width of 50 m. and is 600 m. in length. The projected width of this reach is 80 m. At the end of the second reach the channel again turns to 045°(T) and great care must be exercised in negotiating this turn. A small yellow buoy marks the Southeastern side of the channel. The turn towards the berth is very tight and difficult without a tug. The berth itself has a reported length of 150 m.

The turning basin off the dock is reported to be 600 ft. but in actual fact is only 520 ft.

Upon leaving, turning the vessel short round is hazardous even with the help of small tug (750 h.p.).

Pilot who is also dredging Master appeared ready to take over once the turn is completed.

FRESH WATER: Available

REPAIRS: Very minor repairs can be undertaken but very expensive.

GENERAL: Extra meals for about 10 people. Agent will not sign for free issue or extra meals.

Advisable for all vessels entering this port to be well stocked with mosquito repellent.

Crew passes are not necessary for shore leave.

Fresh fruit and vegetables good quality and price, available from Tapachula 20 miles away.

No ship chandler or laundry service.

The only reliable communications are via United Brands, Boston. They forward all ETA's etc. by telephone.

A teleprinter is located in the Fruit Agent's office but is only available during weekday working hours.

Steamship Agent: Empresa de Services de Puerto Madero, Manager Jose Antonio Tellez, Apado La Ponrete numero 5, Tapachula, Chiapas (Province), Mexico. Tel. 1241 and 4210.

Fruit Agent: Snr. Jose Leyba, Apartoa Agricola de Chiapas, Apartoa Sol 311, Tapachula, Chiapas (Province), Mexico. Tel: 1531.

ROSARITO: 32.20 N. 117.05 W. (See Plan)

SHIPMASTER'S REPORT:

GENERAL: There is no port chart or approaches to Rosarito.

There are 3 sea berths only, 2 using anchors and sternbuoys, and 1 single point mooring platform due to come into service Summer 1976. There is a continuous Westerly swell (July) and the berth is very exposed. Discharging a full cargo, it is advisable to commence ballasting as soon as possible to maintain a reasonable draft. There is no objection to this by the receivers.

DOCUMENTS: As for other Mexican ports re visaed Crew Lists etc. Suppliers in Curacao supplied all cargo documents with correct number of copies.

PILOTAGE: Pilot boards about 1 mile West of the berths from a black pilot launch equipped with VHF Channel 9. He speaks good English. The Boarding Officer boards with the Pilot. He speaks no English. The Pilot and Boarding Officer remain on board throughout cargo operations, also pilot/mooring launch is at hand at all times. All cargo operation liaison with the shore is by VHF operated by the Boarding Officer, who also does all Customs, Immigration work, etc., with the Pilot as interpreter.

APPROACHES: Straight forward, with a shelving bottom and ample depth of water up to the berths. Anchorage was found about 1.2 miles off the South buoy berth in 14 fathoms with good holding. Approach in poor visibility, common at this time of year, presented little difficulty once a position of berths is ascertained. Coronado Islands are good radar targets for position fixing.

RADIO: Communications to Agents in Ensenada through Manzanillo Radio XFM and then Ensenada Radio XFE on HF.

Petroleos Mexicano (PEMEX), the Charterers, have their own station at Rosarito which supplies berthing instructions etc. Station XIB83 working on 8690 mHz and 500 kHz. They also keep a listening watch on VHF Channel 9.

OPERATIONS: Local flag tonnage gets preference for the berths. This should have little effect with the single point mooring coming into operation shortly, giving 2 product berths.

The pipe-line is handled by ship's staff. All ullaging etc. done by ship's staff. A comparison between ship's figures, Bladings and shore figure is made on completion of discharge, before clearance is issued by the Boarding Officer.

No difficulty was encountered in maintaining the requested BP of 6 kg. at the manifold using 1/2 pumps. Liaison with the shore is excellent, by Boarding Officer on VHF with hourly checks.

SUPPLIES: No bunkers or fresh water. Provisions can be obtained in small quantities but are difficult to get on board and expensive. Medical assistance can be obtained ashore, but again with the difficulty in getting ashore it would be only in a serious case.

AGENTS: Only communication was on the second day by VHF but did not attend on board ship. This may be explained by the fact that due to the heavy swell it is difficult and sometimes dangerous to clear the breakwater by boat. This is endorsed wholeheartedly by Officers joining the vessel. However they were well attended by the Agent ashore. It is recommended that this port is not used for reliefs unless absolutely necessary. There was no shore leave allowed by me due to this.

SAN CARLOS: 24.47 N. 112.08 W.

SHIPMASTER'S REPORT

DOCUMENTS:
Visaed Crew List by Mexican Consul and 9 copies.
Visaed Cargo Manifest from each loading port and 4 copies.
Derat Exemption Certificate.
Valid Smallpox Certificates for all on board.
Passport or Seamen's Book for all on board.
Clearance from last port of call.

APPROACHES: A very strong current was experienced running from S.E.-N.W. when entering Bahia Magdalena at Pta. Redondo. Caution should be exercised making this approach, because currents can be strong and unpredictable in this area.

PILOTAGE: Compulsory. Pilot boards in Lat. 24.39 N. Long. 112.05 W. from small boat with outboard engine.

Anchorage is also good in this position should it be necessary to await Pilot or berth. The 2 buoys marking the entrance make good radar targets and are distinctive.

RESTRICTIONS: Channel must be navigated at suitable time of tide giving careful consideration to vessel's draft, in order to clear numerous shallow patches. Max. draft to date of vessel navigating channel was 30 ft 4 in. on top of high water.

RADIO: La Paz Radio (XFK) 500 kHz and 441 kHz. Working hours appear to be uncertain, but there is a working arrangement with Agent to transmit messages free of charge.

CHARTS: Chart used to navigate channel was Mexican No. FH. 614. Masters are strongly advised to obtain this chart.

BERTHING: 1 pier 420 ft. long.

FRESH WATER: Available at pier at 10 t.p.h.

COMMUNICATIONS: Very poor. No telex, No telephone and no cable service. Telephone available at Villa Constitucion 57 kms. away by paved highway. Plans are in force to introduce a telephone service in the fairly near future.

CONSUL: If consular advice is required it is best to contact the British Embassy in Mexico City. Tel. 5 11 48 80.

LAUNDRY SERVICE: None.

SHIP CHANDLER: None. A pick-up wagon can be supplied by Agent to obtain essential stores from supermarket at Villa Constitucion.

TAMPICO: 22.15 N. 96.51 W.

PORT LIMITS: Vessels in Mexican ports are considered to be arrived vessels as soon as permission to moor has been granted by the Port Authorities.

Permission to tie up will be granted on the quay or whilst in mid-stream, and occasionally during periods of very good weather a vessel is authorised to anchor in the port entrance.

DOCUMENTS:
1 Crew List visaed by Mexican Consul.
9 simple copies of Crew List.
1 Visaed Cargo Manifest from each loading port.
4 simple copies of Cargo Manifest.
1 Visaed Passenger List or visaed Statement to the effect of no passengers, and 5 simple copies.
2 copies of Store List.
2 copies of Personal Effects List.
Derat Exemption Certificate.
Valid Smallpox Vaccination Certificates for all crew and passengers.
Passports or Seaman's Books of all crew.
Clearance from Last Port of Call.
3 copies of lists of packages containing explosives, inflammable or corrosive materials.

PILOTAGE: Pilot ordered by Agent who needs 24 hrs. ETA prior to vessels arrival. Pilots board vessels 2 miles off the breakwater. Vessels may anchor about 2 miles off the breakwater waiting for Pilot. Pilots have radio-telephone, frequency 2182.

ANCHORAGE: About 2 miles East of breakwater in 40-60 fathoms of water.

RESTRICTIONS: There are no restrictions for movements at night. The drafts of the vessels will be governed by the mooring zones in which they are working. The depths at these berths are as follows:

*Free Zone Quay	30 ft.
Minera Autlan Quay	32 ft.
Petroleos Mexicanos Quay	30 ft.
Mexican Gypsum Quay	26 ft.
Metals and Minerals Quay	29 ft.
Anahuac Cement Quay	23 ft.

The navigation channel to the Mexican Petroleum Maritime Terminal has a depth of 38 ft. and that to the Free Zone 31 ft.
*This depth is subject to constant dredger maintenance, the draft being reported weekly to the Ship Agents.

MAX. SIZE: The max. length is 656 ft. There are no restrictions for beam, The drafts will be those admissible in the corresponding berth used.

HEALTH: No radio pratique. Pratique granted after docking and presentation of documents to Port Authorities. In case of disease or fever on board, Master to give notice to Agent before arrival.

RADIO: Tampico has a coastal station with frequency 2182, as have the Port Captain, the Pilots' office and Gulf Tugs' office. All have the same frequency.

TUGS: 3 tugs are available, intended solely for port manoeuvres, comprising *Guayalejo* 2,000 h.p., *Tamesi* 1,000 h.p., and *Panuco* 800 h.p. Also Petroleos Mexicanos have tugs whose power varies between 1,000 and 3,000 h.p.

BERTHING:
1 berth at the Minera Autlan quay where manganese is moved by moving belt at the rate of 1,200 t.p.h.
5 berths at the Pemex Quay, where oil and its derivates are moved at the rate of 600-800 t.p.h., by means of 4 in., 6 in., 8 in., and 10 in, pipes.
1 berth at the Mexican Gypsum quay where calcium sulphate is moved by moving belt at the rate of 500 t.p.h.
2 berths at the Metals and Minerals Quay, where bulk minerals are moved by 4 moving belts at the rate of 125 t.p.h. per belt.
7 berths at the Tampico Free Zone, where general cargo is moved at the rate of 20 t.p.h. per gang.
1 berth at the Anahuae Cement quay, where bulk cement is moved by means of 10 in. pipes at the rate of 250 tons per pipe, there being 2 ducts.

All quays have lighting for night operation and telephone facilities.

STEVEDORES: No ETA advice necessary of Stowage Plans received in advance by Agent, otherwise ETA advice for gangs appreciated 48 hrs. prior to arrival. Stevedores general cargo discharging and loading rate about 20 t.p.h. per gang. Mineral loading at Metals Pier about 125 t.p.h. per belt (2 conveyor belts available to service both berths).

MEDICAL: Hospital facilities available. No advance notice required.

TANKERS: See "Berthing". Dirty ballast is received ashore.

SALINITY: Average 1006.

FRESH WATER: Available on written request from ship's Agent. Drinking water delivered by pump at the rate of 12 cu. m. per hour.

FUEL: Available preferably at the Petroleos Mexicanos Quays, although with 1 week's advice prior to arrival this service can be provided at the public service quays.

DEVELOPMENTS: Constant programming for more space at wharves, sheds, warehouses, continuous dredging and increasing capacity of operational equipment.

CUSTOMS ALLOWANCES: No allowances to be taken ashore, but reasonable amounts of tobacco and spirits are allowed to be taken out of bond, but to be kept on board for use of crew and passengers only.

CONSULS: Great Britain, Peru, Germany, Holland, Norway, Sweden, Italy, Uruguay and Lebanon.

REPAIRS/DRY DOCKS: There is a floating dock with capacity up to 4,000 gross tons, where hull repairs can be effected, as can work on steering system, machinery, marine auxiliaries and other equipment of less importance.

There are specialist workshops attached to the dock.

GANGWAY/DECK WATCHMEN: No watchmen necessary. Customs guard keeps watch at gangway while vessel alongside.

REPATRIATION: In the port there is an office of the Administrative Secretariat, where the repatriation of any crew member can be negotiated. This negotiation will be for the account of the ship's Agent, who is required to deposit a bond of $10,000 per person.

AIRPORT: At a distance of 10 km. from the port, there are regular flights to Monterrey, Nuevo Laredo, and Mexico City with connections in any direction.

TIME: 6 hours behind GMT.

HOLIDAYS: January 1st; February 5th; March 21st; May 1st; September 16th; November 20th; December 25th; December 1st every 6 years.

FIRE/AMBULANCE/POLICE: Fire Department 2 12 22; Red Cross 2 13 33; Police 2 11 57; Police (Jail) 2 10 32.

AUTHORITY: Superintendency of Port Operation.

AGENTS: Representaciones Maritimas, S.A., Edificio Luz -Piso 5 Despacho 523, Tampico, Tamps. Mexico. Tel. 2 34 77 and 2 46 62. Telex 01430. Cable: "Maritimex, Tampico."

VERA CRUZ: 19.12 N. 96.08 W.

PORT LIMITS: Area bounded by the reef lighthouses outside the breakwater.

DOCUMENTS: See "Coatzacoalcos".

PILOTAGE: Compulsory, advise Agent 24 hours before arrival giving name, flag, ETA and draft.

The Port Captain is to be given a min. of 2 hours' notice by the Agent. This to be done between 0800–1800 (Pilot office hours). Orders for Pilots between 1800-0800 hrs. to be made between 0800–1800 hrs.

The Pilot normally boards within the port limits, but if his services are requested outside such limits the Pilot will proceed to the location, i.e. the anchorage.

The pilot launch leaves from a "T" shaped pier when expected vessel is sighted. The launch has a black hull with white superstructure and false funnel painted black.

ANCHORAGE: In good weather, vessels may anchor in the outer area off the port, in the case of bad weather, to the South of the Isle of Sacrifices (Isla de Sacrificios). If the vessel prefers to anchor within the port limits, it must request the services of the Pilot and on anchoring for its own account within this sector must pay the fees due to the pilotage service.

RESTRICTIONS: In normal weather conditions there are no restrictions on entry and departure, the sole consideration being the draft of the vessel, since if this exceeds 29 ft. the time of the tide must be taken into consideration, and also after a strong North wind, a vessel drawing more than 24 ft. must wait for the tide.

MAX. SIZE: Length 200 m., at berth nos. 4 and 6 or the oil terminal.

HEALTH: The International Health Office gives a 24-hour service for the arrival and departure of vessels. To obtain free pratique on arrival of vessels there is a medical inspection, with submission of the Maritime Health Declaration, signed by the Captain, and examination of documents of Derat Certificate, certificates of vaccination of the crew and passengers; smallpox, cholera, yellow fever, (dependent upon the location from which the ship has come). Examination of crew members or passengers who might be declared as suffering from contagious illnesses. With these formalities fulfilled, free pratique is granted. Free pratique can be granted by radio, provided it is considered that the vessel's arrival will not give rise to the introduction or propagation of illnesses covered by the regulations, and that also the following requirements are fulfilled:

1. Exercise of greater epidemiological vigilance in respect of illnesses covered by International Health Regulations.

2. The Captain's radiogram must be presented to the International Health Delegation eight hours in advance and must invariably fulfil all the stipulations as set out in the attached form.

3. Without prejudice to the foregoing, the Health Doctor or whomsoever he may designate, and where it is considered appropriate, shall go on board for the purpose of receiving the Maritime Health Declaration so that enquiries and verifications as may be considered necessary may be carried out.

Once the vessel has called at a national port, in subsequent national ports the requirements for obtaining free pratique will not be required, provided there does not exist on board any alteration in the health conditions as established in the Maritime Health Declaration.

Medical service to crew members and passengers on board foreign flag vessels is provided by doctors and private hospital institutions, through the intermediary of the consignee ship's Agent.

For possible handling of disease covered by the Health Regulations (smallpox, cholera, yellow fever, bubonic plague), there are isolation wards in the Official Hospitals "Aquiles Serdan" and "Regional de Veracruz".

The Office of International Health has immunisation services required for the diseases covered by the Regulation, which are certified on special international forms, with any cost, to crew members and passengers.

RADIO: Radio station Vera Cruz Radio, call sign XFU. Works on 500, 451, 8514 and 4250 kHz. and others. Also VHF Channels 12, 16, 26 and 27.

TUGS: 2 tugs available; tugs' lines used at no extra charge. Tugs join vessels inside breakwater.

BERTHING: Depths given for low water, tidal range 1 ft..

Pier No. 1	N. and S.	27 ft.
Pier No. 2	S.	23 ft.
	N.	21 ft.
	Head	26 ft.
Pier No. 4		27 ft.
Pier No. 6	S. corner	29 ft.
	S. end	29 ft.
	N. side	27 ft.
	N. head	27 ft.

MEDICAL: doctors, dentists and hospital facilities available (see "Health").

TANKERS: Petroleos Mexicanos berth located in Northern part of port. Max. draft 28 ft. Berthing for 2 vessels of 170 m. LOA. Berth provides 5×8 in. lines for discharge of refined product and 2×12 in. lines for fuel oil.

DENSITY: 1025.

FRESH WATER/FUEL: Available.

REPAIRS: Hull and machinery repairs can be effected by "Astilleros de Veracruz" (Vera Cruz Shipyard Company).

DRY DOCKS: "Astilleros de Veracruz S.A." has 4 docks, 2 floating and 2 dry docks. The largest of them is Floating Dock No. 4 with the following characteristics:

Length on stocks	169.210 m.
Internal useful beam	30.400 m.
Height of keel stocks	1.400 m.
Max. draft on keel stocks	8.200 m.
Lifting capacity	12.800 tons

Dock No. 2: with capacity for vessels up to 10.000 tons

Useful length	154.000 m.
Useful beam	19.400 m.
Draft	5.180 m.

Served by a 45 ton capacity crane

Floating Dock No. 3: with 3,000 ton capacity lifting capacity

Useful length	25.900 m.
Useful beam	13.550 m.
Draft	5.800 m.

Served by 2 (two) cranes of 10 ton capacity each.

Dry Dock No. 1

Length	45.720 m.
Useful beam	7.920 m.
Draft	2.130 m.

SURVEYORS: Lloyds, Norska Veritas and Germanischer Lloyd.

GANGWAY/DECK WATCHMEN: Available if required.

OPENING/CLOSING HATCHES: Mechanical hatches usually opened by crew, otherwise by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of spirits per man and will attend as necessary for further issues.

CARGO GEAR: Piers 1 and 2, 4×20 tons, 6×10 ton, 3×5 ton and 10×4 ton mobile cranes. Various cranes at piers 4 and 6. 2 floating cranes available max. lift 46 tons.

REPATRIATION: Possible, arranged by Agent.

AIRPORT: 8 km. from Vera Cruz, flights daily to Mexico City.

TIME: GMT minus 6 hours all year round.

HOLIDAYS: During the year the following holidays are observed: 1st January, 5th February, 21st March, 1st May, 5th May, 16th September, 12th October, 20th November and 25th December.

POLICE/FIRE/AMBULANCE: Police – 2.28.23, Fire brigade – 2.25.00, Red Cross – 2.01.40.

TELEPHONES: Available on most piers but not on vessels.

SERVICES: Provisions, laundries, and dunnage available. Garbage must be removed every 48 hours.

SHORE LEAVE: Possible.

DEVELOPMENTS: A new petroleum quay is to be constructed to take 2 tankers of 40,000 tons.

GENERAL:

Government Secretariat – Local Administration Office

In accordance with the stipulations of Article 75 of the General Local Administration Law, vigilance of foreign crew members in vessels of any nationality tied up in national ports, together with visits or stays by the said crew members will be subject to the following requirements:

I. Heads of Local Government will designate accordingly personnel who will carry out vigilance of the vessel, in accordance with the provisions of Section II of Article 29.

II. Crew members may visit ports during the stay of the vessel, provided they deposit at the Local Administration Office their identity documents which for such purpose may be issued to them and their passports and other documents, all of which will be returned to them on re-embarkation.

III. Shipping companies, their Agents or consignee firms, for all legal purposes shall be responsible for the complete embarkation of crew members and for the costs involved in repatriating any who may remain behind after the vessel sails. When a crew member wishes to stay in the country, he must obtain documentation in compliance with one of the categories as set out in the appropriate Law and Regulations.

SHIPMASTER'S REPORT:

Documents:

1 Visaed and 9 Plain Spanish Crew Lists.
1 Visaed and 5 Plain Passenger Lists.
1 Visaed and 2 Plain Spanish Stores Lists.
2 Crew Customs Declarations.
5 Cargo Manifests.
1 Arrival form.

The Customs require a complete list of all shop goods priced in U.S. Dollars, failure to produce this will cause confiscation and $10,000 fine. The Customs thoroughly check bond and beer locker and seal same. All storerooms are also checked.

The Agricultural Inspector insists that all dry stores are fumigated and kept under seal for 24 hours. All refrigerated stores – except U.S.A. meat is sealed up.

Pilotage: Pilot boards 1 mile W.N.W. of Angeguda de Adentro Light beacon from black boat flying pilot flag.

Tugs: 2 tugs available for berthing.

Restrictions: Port open day and night. Prevailing Northerly winds are sometimes too strong to allow ships movement in harbour.

Health: Health authorities board after berthing.

Radio: ETA to be sent 48 hours in advance via XFB Cuidad de Carmen. Agent orders Pilot.

Fuel: Bunker C and Diesel are available. A mixing machine is being installed to supply intermediate. Bunkers are supplied from most quays and are expensive for foreign ships.

Consul: There is a British Consul.

Repairs: There are 3 drydocks and all repairs can be done.

Surveyors: There are Lloyds and N.B. Surveyors available.

Airport: The airport is six km. from Vera Cruz with twice daily flights to Mexico city.

AUTHORITY: Port Captain.

Monaco

NOTES

Please also advise Shipping Guides (Services) Ltd.

MONACO: 43.44 N. 07.26 E. (See Plan)

PORT LIMITS: The seaward boundaries of the port are materialized by the 2 breakwaters at the Eastern entrance.

DOCUMENTS:

2 Crew Lists.

2 Passenger Lists – 3 Landing Passenger Lists.

2 Store Lists.

1 Manifest (cargo).

1 Bill of Health.

Ship's Register.

PILOTAGE: ETA via Monaco Radio – Channel 16, 12, 23, 15, within range. Pilot boat is a small white tugboat with a black "P" painted on the hull. Meets vessels 1 mile radius from the harbour entrance.

ANCHORAGE: One half mile East of the Southern breakwater lighthouse. Depth at the anchorage 68 m.

MAX. SIZE: Max. length 130 m. Stern to the pier on the West side or alongside the North quay, only from October to March and with 8 days notice. Max. draft allowed: West Pier 8 m; North Quay, 6 m.

HEALTH: Health Declaration must be handed to the Customs. If coming from neighbouring countries (France, Italy, Spain) not requested.

RADIO: Monaco Radio VHF Channel 16. Port operations Ch. 12. Public telephone calls Channel 23 and 25.

RADAR: No port radar service.

TUGS: Pilot boat 96 h.p. available without notice. 1 tug boat 200 h.p. and 1 tug boat 450 h.p. Available without notice.

BERTHING: All 3 quays plus inner sides of the breakwaters and Western "T" pier are available for mooring yachts stern to. The port may be congested during the Summer season. The possibility remains of anchoring off the dock.

MEDICAL: There is a state hospital fully equiped for surgery etc.

FRESH WATER: Can be supplied at all berths alongside the quay. If vessel on roads water may be provided by barge up to 500 tons per day, with one week notice. Tel. Cannes 39.36.12.

FUEL: There is a fuel berth in port for yachts. No heavy fuel.

CONSULS: Most countries are represented in Monaco.

CUSTOM ALLOWANCES: Same as in French ports.

REPAIRS: Only for yachts.

DRYDOCKS: None.

REPATRIATION: Good railway connections.

AIRPORT: Nice – Cote d'Azur. Distance 25 km.

TIME: May to September GMT plus 2 hours. Other months GMT plus 1 hour.

HOLIDAYS: New Year – National Holiday, (Jan. 27); Easter Monday, (May 1st); All Saints Day – His Serene Highness birthday Nov. 19. Harbour services work on Sundays and Holidays.

POLICE/FIRE/AMBULANCE: Maritime police Quai Antonie 1st Tel. 30.22.39; Ambulance/Police Secours Tel. 17; Fire brigade Tel. 18.

TELEPHONE: Available at all berths.

SERVICES: Engine repairs. Electronics. Maintenance for yachts. 220 volts available at all berths. TV aerial sockets at all berths free of charge.

SHORE LEAVE: Crew members allowed ashore.

DEVELOPMENTS: New yacht harbour now under construction.

REGULATIONS: *Recommendations to Ship-Owners, Masters and Crew Members:* Ship-owners, Masters and crew members are strongly requested not to dispose of hydrocarbon, household refuse and other rubbish into the Monaco harbour (i.e. cartons and mainly plastic containers).

Used motor oils and other petroleum residues must be transferred into tanks exclusively provided for this purpose at the beginning of the North and South jetties and on the landing stages facing the Rainier III swimming pool.

These tanks are signposted with panels bearing the words "H Huiles Usees" (used oil) in red letters on a white background.

Household refuse and other rubbish are to be put into garbage containers located around the harbour throughout the year. Furthermore, during the Summer, special individual bags are made available free of charge to all in-coming vessels.

Those responsible for ships equipped with used water tanks or bilges are requested to empty these containers off the coasts of the Principality at a minimal distance of 3 miles.

Those whose ships are not equipped with these used water tanks are requested not to dispose of their used water during their stay in the Monaco harbour, and to use the sanitary installations and facilities made available to them within the harbour.

Offenders infringing the above provisions will be penalized in accordance with the stipulations of Law No. 954, dated April 19, 1974, dealing with the fignt against water and air pollution.

AUTHORITY: Captain J.B. Cornelius – Harbour Master.

Morocco

AGADIR: 30.25 N. 09.38 W.

DOCUMENTS:
- Health Declaration.
- 4 Cargo Manifests.
- 6 Stores Lists.
- 6 Crew Lists.
- 6 Passenger Lists.

PILOTAGE: Compulsory. Pilot boards at port entrance. International code signals used.
ANCHORAGE: Good anchorage in open roadstead.
MAX. SIZE: Up to 29 ft. draft.
HEALTH: Pratique given immediately after berthing when port doctor boards.
TUGS: 2 tugs available, 1 × 350 h.p., 1 × 1,275 h.p.
RADIO: Agadir Radio operates 24 hours a day.
BERTHING: Alongside pier: berth 475 m. long, 9 m. depth; berth 380 m. long, 6 m. depth.
MEDICAL: Doctor and hospital facilities available.
FRESH WATER: Available from pipe-line at berths.
FUEL: Fuel and gas oil available from pipe-lines at berths.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
STEVEDORES: ETA required 24 hrs. in advance to arrange gangs.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.
IDENTIFICATION CARDS: Required.
CONSULS: France, Spain, Belgium and Portugal represented locally.
REPAIRS: Small machinery and electronic repairs can be effected.
TIME: GMT plus 1 hour permanently.
POLICE/FIRE/AMBULANCE: Police, tel. 23-49; Fire, tel. 22-43; Ambulance, tel. 19.
HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 5th August, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.
SHORE LEAVE: Allowed.
AUTHORITY: Director del Puerto.

AGENT: Ernest Corcos, PO Box 54, Agadir. Tel. 24-55 and 33-31. Telex 810-18. Cables: Ercos Agadir.

CASABLANCA: 33.36 N. 07.37 W. (See Plan)

PORT LIMITS: Vessels considered as "arrived" when passing buoy CA 5 in position 33° 37′ 05″ N. 7° 35′ 02″ W.
DOCUMENTS:
- Certificate of Registration.
- Cargo Manifests.
- Crew Lists.
- Passenger Lists.
- Customs Declaration.
- Bill of Health.
- Ship's Entry Declaration.
- International Tonnage Certificate.

PILOTAGE: Compulsory for all merchant vessels of 100 tons and over, in the area between the meridians 7° 37′ 10″ W. (the root of Jetee Moulay Youssef) and 7° 33′ 50″ W. (Table d'Oukacha) and South of the parallel 33° 37′ 40″ N. Pilotage is available day and night. The Pilot meets vessel at the CA5 buoy.

A red flag displayed at the signal station by day indicates that the Pilot cannot come out, on account of the sea, but vessels may enter the port at their own risk, and the Pilot will await them under the shelter of jetee Moulay Youssef. Should bad weather prevent the Pilot from coming out, a vessel should not attempt to enter the harbour at night. The Master may contact the Pilot station for port radar service by VHF Channel 12.

ANCHORAGE: The anchorage outside Casablanca harbour is partially protected from winds between S. and W. but a Westerly swell finds its way into the bay. With a heavy Westerly or North-westerly swell the anchorage becomes dangerous.

The holding ground in most places outside the harbour is poor, but a berth with good holding ground may be obtained in a depth of 13 fathoms N. of jetee Moulay Youssef. There are numerous anchorage berths in the harbour, some at mooring buoys, in depths up to 12 m. 8 (42 ft.).

MAX. SIZE: Max. length permissible, about 884 ft.; max. breadth permissible, about 105 ft.; max. draft permissible, about 32 ft.; but normally 30 ft. for berthing alongside. Tankers: up to 34 ft. draft.
HEALTH: Masters must fill in the declaration of health and display the "Q" flag, to obtain pratique. In the event of any suspected disease or fever on board, Masters have to warn their Agent before the ship's arrival.
RADIO: The name of radio station for ETA cables to Agents, receivers, etc., is Casa Radio.
TUGS: There are 6 tugs of 800–1,500 h.p. 3 of them are sea-going tugs fitted with modern salvage apparatus. Normally tugs join the vessel at port entrance. To call them, 4 long blasts and 1 short for one tug, 4 long blasts and 2 short for 2 tugs, etc. Ship's lines are mostly used.
BERTHING: To arrange berth, ETA message should be given 24 hours before the ship's arrival.

Mooring. When making fast to the jetty by the stern, the anchor should be let go at a sufficient distance from the jetty to allow for a good scope of hawsers.

Vessels are recommended to secure with special 10-in. coir hawser tailed with wire. It is recommended to moor head to the swell, but in bad weather a vessel should be ready to leave at short notice.

CARGO HANDLING: Phosphate loading: up to 5,000 t.p.h. Depth alongside 32 to 26 ft.

Grain Handling: discharging 800 t.p.h., loading 400 t.p.h. Depth at silo berths 30 ft.

Containers: straddle carrier for handling up to 20 ft. containers.
Roll-on/roll-off: three berths for roll-on/roll-off vessels, depth 30 ft.

STEVEDORES: There are 13 stevedoring companies. Normal working days are in two shifts (from 0700 to 1500 hrs. and from 1500 to 2300 hrs.). Ship's Agents arrange gangs in connection with stevedores. Two daily orders (at 1100 and 1600 hrs.) are made to fix the number of gangs.
MEDICAL: It is necessary for Agent to receive advance notice of required medical attention. Hospital facilities available. Only smallpox vaccination certificates are required.
TANKERS: There are 4 tanker berths, *(a)* one for Import and Export of white products and max. permitted draft 34 ft. (Berth P3). *(b)* three berths for Import and Export of black products. These berths (No. 60, 61 and 62) are situated inside the harbour, vessel's draft should not exceed 30 ft.
FIRE PRECAUTIONS: Two firemen remain on board tankers while vessel berthed alongside. One fireman is required for other vessels carrying dangerous cargo.
FRESH WATER: Numerous feeders along berths. Also delivery by barges is possible.
FUEL: All grades available. Ex-wharf or by barge.
CONSULS: The following countries are represented by consuls in Casablanca:

Austria
Spain
Italy
Haiti
Finland
Great Britain
Greece
Germany
Norway
Sweden
Yugoslavia
Brazil
Netherlands
Algeria
Argentina
Belgium
Denmark
France
Poland
Panama
U.S.A.
Portugal

GANGWAY/DECK WATCHMEN: It is necessary to have watchmen on board. They are hired by the ship's Agent.
OPENING/CLOSING HATCHES: This work is normally carried out by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes are permitted for each crew member to be held out of bond.
IDENTIFICATION CARDS: Needed.
REPAIRS: Only small repairs and dry docking works are carried out.
DRY DOCKS: One large dry dock, 152 m. long and 22 m. wide (lifting power 10,000 tons). Three slips for ships up to 700 tons.
REPATRIATION: Facilities exist for effecting crew change and arranging any necessary repatriations.
AIRPORT: Distance from airport, 25 miles. International connections.
TIME: GMT in Winter, GMT plus 1 hour in Summer.
POLICE/AMBULANCE/FIRE: Police, 2210–74 or 19; Ambulance, 15; Fire, 15.
TELEPHONES: Only arrangements for placing telephones on board passenger ships are possible.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Directeur du Port.

AGENT: Lasry Maroc, 61, Avenue de l'Armee Royale, Casablanca. Telex: 21949–21092. Tel.: 2688–75 – 2669–46. Cables: "Jolasry".

EL JADIDA (Mazagan): 33.15 N. 08.31 W. (See Plan)

DOCUMENTS: As for "Casablanca".
PILOTAGE: Arranged by Agent, basis vessels ETA given in advance. Pilot boards about 2 miles from the port entrance.
ANCHORAGE: About half a mile from head of North jetty in depths of 13 to 14 m. Hard rock bottom covered in sand. Holding ground is fair only.
RESTRICTIONS: The port comprises an entrance channel 50 m. wide and an outer harbour area 7 hectares, partially dredged to 3 m. depth to make a waiting basin. In the Southern part of the outer harbour is a quay, called the barge quay. 120 m. long, dredged to 6 m. depth.
MAX. SIZE: No limitations for vessels anchoring. For entering harbour, max. length 80 m., draft 5 m., entering at high water.
RADIO. No local radio station. Use Casa Radio for messages to Agent.
TUGS: Available. Normally join vessel 2 miles from port entrance.
CRANES: Two electric cranes and 1 diesel crane available.
MEDICAL: Hospital facilities available. Vaccinations can be arranged.
FRESH WATER: Available at the quay.
FUEL: Can be supplied subject to 24 hours notice.
WATCHMEN: Recommended to employ watchmen.
OPENING/CLOSING HATCHES: Work performed by ship's crew.
CONSULS: The only consular representatives are those of France and Portugal.

REPATRIATION: Can be arranged via Casablanca.
REPAIRS: Small repairs can be done on board, or parts sent to Casablanca. One small dry dock reserved for Port Authority vessels and fishing boats.
AIRPORT: Nearest commercial airport is Nouasseur. The airport at Camp Cazes, Casablanca, operates for internal flights only.
TIME: GMT in Winter, GMT plus 1 hour in Summer.
HOLIDAYS: Sundays and holidays, except for National holidays, can be worked on payment of overtime.
POLICE/AMBULANCE/FIRE: Police, tel. 19; Ambulance, tel. 15; Fire, tel. 15.
TELEPHONES: Cannot be connected to vessel, but telephone situated on the quay.
AUTHORITY: Ingenieur des Travaux Publics.

AGENT: A. Adigard des Gautries, BP 52, El Jadida.

KENITRA: 34.17 N. 06.30 W.

Situated on the left bank of the Oued Sebou, 17 km. from the Atlantic.
PILOTAGE: Pilotage is compulsory for entering and leaving port. Vessels must wait outside the port entrance for the tide. It is possible to enter from 2 hours before until 1 hour after high water during the night, and from 3 hours before until 2 hours after high water during the day. The Pilot boards vessels at river mouth. The Pilot will be on station 2 hours before high water.

On arrival at the Roads or after 0830 hrs., call the Pilotage Department and advise arrival time at the Roads and draft.

Pilotage Department on VHF Channel 16 and 2182.
RESTRICTIONS: From the mouth of the river up to the port is a dredged channel. Depths are 4.20 m. during neap tides and 5.40 m. during spring tides. Height of tide during neap tide is 2.60 m. Height of tide during spring tide is 3.80 m. The constant is 1.60 m.

During the Winter it is recommended to stay outside the port in strong squalls. Ships are advised by Kenitra port radio of the possibilities for entering port.

Between November and April there is a total of 6 or 7 individual days when the port is closed to navigation, due to weather conditions.

Vessels are berthed and unberthed in daytime only at present time.
RADIO: Messages to ship's Agent should be sent through Casablanca radio. In the ETA message to Agent, also advise vessel's draft. There is a radio station at Kenitra for port use only. Watch-keeping hours are only during high water, on 2182 k/Hz.
TUGS: Two tugs of 250 h.p. and one of 130 h.p.
BERTHING: The outer port used only by trawlers, and a mooring quay of 360 m. length belonging to the Royal Moroccan Navy. The length of main quay is 870 m. and includes 10 berths. In addition to the above there is a jetty for wine vessels, and a jetty for oil tankers.
FRESH WATER: Supplied alongside the quays.
FUEL: There are supplies of diesel oil, gas oil and petrol in the port. These products supplied by tanker lorry along the quay.
REPAIRS: There are workshops for small running repairs in the port. There is a slipway for ships up to 400 tons.
CONSULS: The Consular representatives at Kenitra are those of Belgium, France, Portugal.
AIRPORT: The nearest commercial airport is that of Rabat-Sale and there is a small airfield at Kenitra.
AUTHORITY: Directeur du Port.

AGENT: Consortium Industriel Commercial Maritime, 19 Boulevard Imam Ali, Kenitra. Tel. 21 39, 28, 37, 22 56 (2 lines). Telex: 31030 Boutrans 31966 Incomar. Cables: "Incomar Kenitra".

MELILLA: 35.18 N. 02.57 W.

DOCUMENTS:
- Health Declaration.
- 4 Cargo Manifests.
- 2 Stores List.
- 5 Crew Lists.
- 5 Passenger Lists.

PILOTAGE: Compulsory for vessels over 500 tons. ETA to Agent required at least 10 hours before arrival to arrange Pilot. Pilot boards at anchorage near port entrance. International code signals used.
ANCHORAGE: Half a mile East of port entrance, in depths of 14 to 20 m.
RESTRICTIONS: Entrance normally in daylight only. In case of emergency vessel may enter at night.
MAX. SIZE: Up to 32 ft. draft.
HEALTH: Pratique obtained immediately after berthing when vessel boarded by health officials.
TUGS: One tug of 550 h.p. available.
MEDICAL: Doctors and hospital facilities available. Vaccinations can be arranged.
TANKERS: One oil berth for tankers up to 32 ft. draft.
FRESH WATER: Available at all quays.
FUEL: Available subject to advance notice.
GANGWAY/DECK WATCHMEN: Available. Consignee Agents have their own watchmen for goods on the quay.
OPENING/CLOSING HATCHES: This work is carried out by stevedores.
CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.
IDENTIFICATION CARDS: Required.
CONSULS: France and Italy are represented locally.
REPAIRS: All types of engine and hull repairs can be effected for smaller vessels.
REPATRIATION: All facilities available.
AIRPORT: Situated 1 km. from the city. 3 daily flights to Malaga, except on Sundays.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.
HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 17th July, 18th July, 25th July, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.
POLICE/FIRE/AMBULANCE: Police, tel. 1741 or 1744; Fire, tel. 1693; Ambulance, tel. 1441.
TELEPHONES: It is possible to arrange for a telephone to be placed on board.
SHORE LEAVE: Allowed.
AUTHORITY: Ingeniero Director del Puerto.

AGENT: Jose Salama & Co., BP 5, Melilla.

MOHAMMEDIA: 33.45 N. 07.22 W. (See Plan)

DOCUMENTS:
- Bill of Health.
- 3 Crew Lists.
- 3 Passenger Lists.
- 3 Provisions Lists.
- Manifests and Ship's Papers for Agent.

PILOTAGE: Compulsory for vessels entering or leaving the harbour or shifting berth. Pilot available for vessels arriving during night and wishing to enter the basin when conditions are possible.
ANCHORAGE: Three good anchorages in depths of 11 to 6.5 fathoms about a mile N.E. of the entrance, and N.W. and S.E. of the pipe-line area.
RESTRICTIONS: Vessels with a draft over 15 ft. wishing to berth in the basin, are obliged to wait for tide.
MAX. SIZE: Sea line installation: tankers up to 45,000 tons d.w.t.

Imodco Buoy Berth: tankers up to 100,000 tons d.w.t.

For the basin: max. length 150 m., max. draft 6.9 m. (22 ft. 8 in.).
HEALTH: Port sanitary control officer boards immediately after arrival for pratique delivery. In the event of any suspected disease or fever on board, it is necessary to advise by radio to Agent 24 hours before arrival. Pratique is automatic after calling at another port of Morocco.
RADIO: Casablanca Radio station.
TUGS: There are no tugs but 3 Pilot boats of 150 h.p. will assist vessels if necessary, or tugs can be ordered from Casablanca.
BERTHING: Vessels up to 150 m. in length and drawing up to 6.9 m. (22 ft. 8 in.) at Spring tides and 5.4 m. (18 ft.) at Neaps.

Quay No. 1 has a length of 70 m. with a depth of 8.50 m. (28 ft. alongside).

Quay No. 2 has a length of 170 m. with a depth of 5.50 m. (18 ft. alongside).

Quay No. 6 has a length of 60 m. with a depth of 6.00 m. (19 ft. 8 in. alongside).
TANKER BERTHS: Single buoy mooring located in position 33° 44′ 01″ North, 7° 23′ 02″ West in depth of water 70 ft. Diameter of swinging area: 850 m. The buoy is marked by a white light flashing once every 3 seconds, also equipped with radar reflector and fog horn, which sounds, once every twenty seconds.

Vessels may be berthed by day or night. Mooring is effected by 2 floating nylon ropes, each 40 m. long, made fast to the fore end of the vessel.

The buoy is connected to a floating crude oil line, 20 in. diameter, with two flexible hoses of 16 in. diameter. One flexible hose of 8 in. diameter is available for discharging refined products. There are no facilities for discharge of slops or dirty ballast.

There is also a conventional buoy berth, in depth of 50 ft. Diameter of discharge lines 14 in. No slop discharge facilities.

Smaller tankers may also berth at harbour quay No. 1.
STEVEDORES: The loading and discharging capacity of general cargo or timber is 300 tons per day. Gangs are arranged by the stevedores according to the cargo plan given by the consignee to the harbour authorities.
MEDICAL: There is the hospital in Mohammedia, and other hospitals and clinics in Casablanca (16 miles away). Vaccinations can be arranged.
DENSITY: 1025.
FRESH WATER: Water can be supplied at any time alongside the quays at the rate of 15 t.p.h. There is no fresh-water supply to the offshore tanker terminals.
FUEL: Available from Casablanca at 48 hours notice.
FIRE PRECAUTIONS: All tankers are confined by gates and watched over by special firemen.
GANGWAY/DECK WATCHMEN: Services of watchmen are recommended.
OPENING/CLOSING HATCHES: This work is normally carried out by crew. When carried out by stevedores the cost is charged.
IDENTIFICATION CARDS: Passport required and police permit for leaving the harbour.
CONSULS: There is no consul in Mohammedia. All are in Casablanca.
AIRPORT: The nearest airport for international flights is Nouasseur. Casablanca Airport operates internal flights only.
TIME: GMT in Winter. GMT plus 1 hour in Summer.
HOLIDAYS: 1st January; 1st May; 3rd March; 18th November; and any other religious holidays which are not at regular dates. Only on

two days (1st January and 1st May) no cargo work can be arranged.
POLICE/AMBULANCE/FIRE: Police, 21.51; Ambulance/Fire, 15.
SHORE LEAVE: Allowed.
DEVELOPMENTS: A new refinery is to be built at Mohammedia and is due to start production in 1976.
AUTHORITY: RAPC, Port de Mohammedia.

AGENT: Marbar S.A., BP 169, 81 Ave. Houmane, Elfatouaki, Casablanca. Tel. 2607–21. Telex: 21 011, 21 012. Cables: "Barimer Casablanca".

SAFI: 32.19 N. 09.12 W.

DOCUMENTS: Clearance procedure is very simple. 3 Crew Lists, 1 Personal Effects Lists, 3 Passenger Lists and 1 Stores List only are required. Other documents are presented on berthing.
PILOTAGE: Arranged by vessel's Agent, to whom a correct ETA should be given. There is VHF radio contact with the pilot station and Harbour Master's office. The pilot boat is located inside the harbour and the Pilot boards in the anchorage. Pilot ladder only is required.
ANCHORAGE: Recommended anchorage is S.W. of harbour entrance. Safe holding ground for 25,000 d.w.t. vessels. Vessels should keep port entrance clear.
MAX. SIZE: Vessels with a draft of more than 28 ft. and up to a max. of 30 ft. enter and sail at higher water.
HEALTH: Health Officer boards shortly after berthing but Agent must be advised before arrival if suspected disease or fever on board. Health clearance in one Moroccan port holds good for the next.
RADIO: Casablanca Radio for normal traffic or Safi Radio for local R/T traffic. Harbour Radio VHF Channel 16.
TUGS: Tugs stand by vessel inside breakwater and, usually, ship's lines are used.
BERTHING: Vessels berth in order of arrival. Port used for export of manganese and barytes. No night entry after 1900 hrs.
STEVEDORES: Gangs are arranged by vessel's Agent. Night work is possible from 1800 to 2200 hrs. and, very exceptionally, until 2400 hrs.
MEDICAL: Advanced notice of required medical attendance is advisable but not essential. Modern hospital and clinic are available. Smallpox vaccination only is necessary except when vessels have called at cholera and yellow fever ports.
TANKERS: Only small tankers used in this port. White products and gas oil imported; no export. Ammoniac tanker berth max. draft high water 30 ft.
DENSITY: Density varies between 1024 and 1026.
FRESH WATER: Availability not limited, by hoses from quay.
FUEL: Limited supplies gas oil; diesel available but must be stemmed. Fuel oil and large quantities diesel, gas oil can be delivered by tanking lorry from Casablanca.
GANGWAY/DECK WATCHMEN: Watchmen necessary. One watchman day and night.
OPENING/CLOSING HATCHES: Normally done by crew but can be arranged by stevedores with advance notice.
CUSTOMS ALLOWANCES: 200 cigarettes, and one open bottle of spirit allowed each man. Bond is sealed and heavy fines are imposed by Customs for smuggling.
IDENTIFICATION CARDS: These are needed.
CONSULS:

Denmark,	Tel. 30.39	Portugal,	Tel. 23.58
Finland,	Tel. 31.40	San Salvador,	Tel. 28.76
France,	Tel. 27.97	Sweden,	Tel. 29.06

REPAIRS: Major repairs not possible; small workshops only for repairing fishing boats.
REPATRIATION: Repatriation by air or sea through Casablanca, 150 miles away.
AIRPORT: Nearest at Novasseur, served by principal European airlines.
TIME: Local time is GMT in Winter and GMT plus one hour in Summer.
HOLIDAYS: On the following holidays no work is possible: 1st January (New Year's Day); 3rd March (Coronation Day); 1st May (Labour Day); 18th November (Independence Day). Other Moslem and Christian holidays are subject to last minute decisions as far as tariff is concerned, but work can be arranged.
TELEPHONES: No telephones can be placed on board. Public telephone available on the quay during working hours only.
GENERAL: Masters are strongly advised to take local currency from their Agent. Landing of foreign currency encourages black market transactions and incurs confiscation and heavy fines as well as delays by the Customs authorities.
SHORE LEAVE: Police permits are required by Liberty men and are delivered by Immigration Authorities.
AUTHORITY: Capitainerie de Port.

AGENT: Mabar S.A. Branch Office of Marbar, Casablanca.

TANGIER: 35.47 N. 05.48 W. (See Plan)

PORT LIMITS: Vessels considered to be an "arrived ship" subject to Charter Party terms, on passing the line joining Pointe de Malabata, 35° 48′ 53″ N. 05° 45′ 00″ W. and the mouth of l'Oued el Youd, 35° 47′ 26″ N. 05° 50′ 00″ W.

DOCUMENTS: Required on arrival:
Health Declaration.
2 Crew Lists.
7 Cargo Manifests.
5 Lists of Passengers Disembarking.
4 Lists of Passengers in Transit.
Required on departure:
5 Cargo Manifests.
5 Manifests of Passengers Embarking.
PILOTAGE: Pilotage is compulsory for ships of more than 50 g.r.t. for entering, leaving and shifting in harbour. Vessels arriving during the night must anchor outside the port, and are boarded by the Pilot after 0600 hrs. the following morning. Pilot on VHF Channel 16. Vessels should advise arrival 6 hours in advance.
ANCHORAGE: There are good anchorages to the East and Southeast of the breakwater head in depths of 10–16 m.
RESTRICTIONS: The harbour area between the breakwater and the extremity of the main pier has a min. depth of 9 m. Max. height of tide is 2.40 m., min. height is 0.10 m. West to S.W. winds from October to May. N.E. to Easterly winds from May to October, often very strong (the Levante).
TUGS: The port owns 4 tugs, 1,500, 500, 375 and 250 h.p. respectively. 2 of these tugs are equipped with fire-fighting equipment.
BERTHING: The port is protected by a breakwater 1,300 m. long on which is a tanker terminal dredged to 9 m. depth, 290 m. of quay dredged to 9 m., 160 m. of quay dredged to 8.50 m. and 100 m. of quay dredged to 5 m. These last 2 berths, which are reserved, the first for large car ferries and the second for the Gibraltar Ferries, are equipped with special ramps for disembarking vehicles.

In the South of the dock enclosed by the breakwater is a pier at which are 2 berths, 1 of 330 m. length dredged to 9 m. over 130 m. length and with 6 m. depth over 200 m. length. The other berth is dredged to 4 m. depth over 100 m. length and to 3.50 m. depth over 100 m. length.

In the Western part of the harbour there is a jetty of 100 m. length with berths on both sides each having depths of 6.50 m. This jetty is used by passenger ferries and is equipped to serve vessels discharging vehicles at the stern.

The port also includes a small jetty called the Yacht Jetty with depths varying from 2 m. at its foot to 3.50 m. at the jetty head. The small harbour inside the jetty includes the quays of the fishing port, the Yacht Club and barge berths.
FRESH WATER: Replenishment of fresh water can be made at all times alongside the quays at the rate of 30 t.p.h.
FUEL: There are no refuelling installations at the quays. Only very small quantities can be supplied by tanker lorries belonging to the oil companies.
STEVEDORES: Normal working hours are from 0800–1200 hrs. and from 1400–1800 hrs. Ships may be loaded and discharged outside these hours on payment of overtime. Usual loading and discharging rates are as follows: 15–18 t.p.h. goods in sacks; 12–15 t.p.h. for bales; 10 t.p.h. for general cargo; 7–8 t.p.h. for cork.
REPAIRS: There are no facilities for repairs in the port.
AUTHORITY: Regie d'Aconage du Port de Tanger.

AGENT: Lasry Maroc (Tangier), 4 rue de la Mediterrannee, Tangier. Telex: 33064. Tel. 335–75–325–76. Cables: "Jolasry".

Mozambique

BEIRA: 19.46 S. 34.50 E. (See Plan)

PORT LIMITS: Vessels are considered to be "arrived ships" when they enter the pilotage area, i.e. when they enter to within a radius of 5 miles from the pilot boat. The custom of the port is that vessels are in "free pratique" only when they have entered port and have been cleared by the Immigration Authorities. Immigration will only clear vessels in port.

DOCUMENTS:

Customs Clearance from last port.
Health Certificate.
6 Crew Lists.
6 Lists Passengers in Transit.
7 Lists Passengers Disembarking.
2 Stores Lists.
2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only).
6 copies of Manifest of Beira Cargo.

PILOTAGE: Compulsory for all ships other than naval vessels. Ship's name, ETA and draft should be radioed via Beira Radio, call sign CRS, 24 hrs. in advance to Port Captain Beira and owner's Agent.

The pilot boat – black hull, grey upperworks, black funnel with white "P" – is stationed 19° 52′ 47″ S., 34° 57′ 21″ E. Pilot boat call sign CRL H – W/T: listens on 500 kc/s., replies on 480 kc/s., – R/T: listens on 2,182 kc/s., replies on 2,341 kc/s. – VHF: frequency 156.6 Mc/s. (Channel 12).

Unless instructed to the contrary by the pilot boat, vessels with a draft under 25 ft. anchor by "P" buoy, 19° 52′ 47.3″ S., 34° 57′ 21.1″ E., and vessels with draft over 25 ft. anchor between "P" and "A" buoys, 19° 56′ 20.1″ S., 35° 02′ 44″ E.

In bad weather pilot boat may leave above position and enter port. In such cases vessels should anchor as indicated above, weather permitting.

ANCHORAGES: At bar, "P" and "A" buoys as indicated above. There is anchorage for 4-6 ships, depending on size, in inner harbour off Cabedelo sand-pit.

RESTRICTIONS: Ships with draft 18 ft. and under can enter at any time. Ships with draft over 18 ft. generally enter 2 hrs. either side of high water.

MAX. SIZE: Max. permissible length about 800 ft. Max. permissible drafts between 35-37 ft. at springs, about 30 ft. at neap tides.

HEALTH: Vessel to radio "Sanidade Maritima", Biera, their ETA and "All Well". If "All Well", Health Certificate given by Pilot.

RADIO: Vessels to route messages through Beira Radio -call sign CRS. Agents radio ships through same station. Naval Radio Station -call sign CRX 3 available for distress signals.

TUGS: Join incoming vessels at inner anchorage, about 1 mile distant from quays. Ship's lines used. 4 tugs available, up to 3,200 h.p.

BERTHING: No night berthing done unless with prior consent of Chief Pilot, otherwise no specific requirements.

Cais do Pungue: length, 1,679 m.; depth, max. 17 m., min. 10 m.

LW depths alongside wharf, berth No. 1, 33 ft.; No. 2, 31 ft. 03 in.; No. 3, 33 ft. 03 in.; No. 4, 32 ft. 01 in.; No. 5, 26 ft. 09 in.; No. 6, 26 ft. 03 in.; No. 7, 29 ft. 04 in.; No. 8, 27 ft. 02 in.; No. 9, 27 ft. 08 in. and No. 10, 31 ft. 06 in.

Chiveve Cais; length, 446 m.; depth, max. 10 m., min. 3 m.

CARGO-HANDLING FACILITIES: There is a mechanical ore appliance used mainly for minerals like chrome, etc. This appliance has an average loading rate of 400 t.p.h. It is equipped with only one spout.

Mobile Cranes: 25 cranes with capacity 1-10 tons.

Electric Cranes: 52 cranes at Pungoe Wharf with capacity 3-20 tons.

Steam Cranes: 19 cranes at Chiveve Wharf with capacity 3-20 tons.

Molasses: 2 storage tanks, capacity 18,000 tons and 8,000 tons.

STEVEDORES: Ordered by Agent. Vessels should advise Agent their ETA at least 12 hrs. in advance (weekdays), 24 hrs. in advance (week-ends).

MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.

TANKERS: Discharge lines white and black oils, 2×10-in. lines feeding into 12 and 14-in. lines leading to storage tanks. Also a 22-in. discharge line for crude oil. No slop discharge facilities. 2 tanker berths, max. permitted drafts about 32 ft.

DENSITY: In harbour area allow 3 to 4 in.

FRESH WATER: Available at all berths, pumping rate about 50 t.p.h. Also available from water barge.

FUEL: Fuel oil 1,000 Secs R. viscosity, marine diesel 43.1 Secs R., diesel 34.1 Secs R. 3-4 days advance notice required. Bunkers delivered when alongside, no bunkering barge available.

GANGWAY/DECK WATCHMEN: Compulsory to employ watchmen to prevent pilferage.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

SHIP CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.

CARGO GEAR: All gear supplied by stevedores except rope slings, rain tents, and spreaders for heavy lifts.

IDENTIFICATION CARDS: Required. Passport if possible, otherwise Seamen's Book.

CONSULS: British (Tel. 22032), Belgium (23284), France (24074), Greece (23898), Holland (23174), Italy (22197), Malawi (24312), Norway and Denmark (22091), Panama (271519), Rhodesia (24227), Swiss (23137), South Africa (271251).

REPAIRS: Most types of deck and engine repairs are possible, but major repair jobs are not undertaken.

DRY DOCKS: 1 dry dock 115×17×8.5 m., suitable for ships up to 5,000 tons.

REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Mozambique. A valid passport is necessary as Immigration authorities do not recognise a Seamen's Book as being a valid travel document.

AIRPORT: Beira Airport situated 7 miles from sea port. Regular flights to all destinations.

TIME: Local time 2 hrs. ahead of GMT. No alterations made to clocks during year.

HOLIDAYS: New Year's Day (1st January); National Day of Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Beira City Holiday (20th August); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December); No cargo work on 1st January and 25th December; on other holidays work continues normally in the port.

POLICE/AMBULANCE/FIRE: Port Police (Tel. 22920); Ambulance (22442); Fire (22222).

TELEPHONES: Can be placed on board. These telephones must only be used for local calls, not trunk calls.

GENERAL: Beira port works 24 hrs. per day, 7 days a week (except 1st January and 25th December) and overtime working is compulsory.

SERVICES Services available for tank cleaning, compass adjusting, minor repairs to radar and radio.

SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Mozambique.

DELAYS: Generally no delays, but sometimes 24-48 hrs. delay following rain or bunching of arrivals.

AGENT: Allen, Wack & Shepherd, Lda., PO Box 270, Beira, Mozambique. Tel. 22091 (5 lines). Cables "Thaine" or "Allenwack". Telex: 7332 Thain Mo.

MAPUTO: 25.59 S. 32.36 E.

DOCUMENTS:

6 Crew Lists.
1 Stores List.
6 Passenger Lists.
Last Port Customs and Port Clearance.
1 List of Ports of Call.
1 Health Declaration (given by Pilots on arrival).
1 Entrance Report (given by Pilot on arrival).
1 Customs Entrance (given by Agent on arrival).
1 Railway Statistics Form (given by Agent on arrival).

PILOTAGE: Compulsory. Channels in 24-hour use, but sailing after 2400 only by special arrangement with Immigration. Berthing only during day-light. Pilot station about 26 miles from Maputo wharf if South entrance used; 55 miles if North entrance used.

Pilot granted only if 16 hours' notice of ETA given.

On arrival vessels can contact Pilot on VHF Channel 16 (working on Channel 12).

The pilot ladder is used together with the accommodation ladder in order that the Pilot has a climb of 9 ft. on the pilot ladder.

IMMIGRATION CLEARANCE: Inwards: 0600–1800 hrs. only inside harbour proper. Outwards: 0600–2400 hrs. except in special circumstances.

N.B. Vessels at the pilot station cannot obtain pratique because this includes Immigration clearance and can therefore be considered as not having arrived or not being in all respects ready to load.

ANCHORAGE: Inside harbour: One each for vessels drawing 33, 31, 27 and 26 ft. respectively. Six for vessels between 17 and 19 ft. Vessels delayed in berthing are brought in from pilot station at port's convenience.

RESTRICTIONS: Berthing during day-light only. Unberthing 0600 hrs. to 2400 hrs. with exceptions of Matola piers where ships can only unberth during day-light. Ships over 650 ft. may not pass through dredged Channels at night. Ships up to 23 ft. may sail at any time, any tide up till midnight. Thereafter arrangements to be made with the Pilot Department for ETD.

MAX. SIZE:

General Cargo Wharf	Length 750 ft.	Draft 34 ft.–37 ft.*
Matola Oil Pier	Length 750 ft.	Draft 32 ft. 6in.
Matola Ore Appliance	Length 820 ft.	Draft 34 ft.–37 ft.*

*Maximum drafts published by Port Authorities. Approximately 34 ft. to 37 ft. depending on tide.

HEALTH: Pratique granted by Pilot unless disease prevalent on board when Masters should telegraph "Saude" Maputo.

RADIO: Advice of arrival 16 hours before to the Port Captain or Chief Pilot and Port Health should be sent through the station CRX (Naval), operating 24 hours on 500 kc/s., replying on 437 kc/s., also 2000 to 0500 hrs. GMT on 8356 to 8376 kc/s. (replying 3642 kc/s.)

and 0800 to 2000 GMT on 12534 and 12564 kc/s. (replying 1299 kc/s.). All other non-official messages through station CRL, operating 0200–1800 GMT on 6 Mc/s. at even hours, 0400 to 1800 GMT on 4 Mc/s. at even hours plus 30 minutes (answering on 4259 kc/s.). Continues watch 0200–0400 GMT on 4 Mc/s. Radio telephone through CRL on 2132 kc/s. at even hours plus 45 minutes 0600–1700 GMT answering on 4415 kc/s.

VHF: Pilot boat (Inhaca Station) and port radio operate on Channel 16 (calling) and Channel 12 (working) from 0530 to 1830 hours.

TUGS: 4 tugs available, 3,200 h.p., 3,200 h.p., 1.500 h.p. and 1,200 h.p.

BERTHING: Carried out at all times between 0000–0600 hrs. at the Main wharves. At Matola Ore berth vessels must berth only at permissible times according to tides.

Main Wharf: All facilities owned and operated by Caminhos de Ferro de Mocambique (CFM), except stevedoring.

Dimensions: Wharf is in an uninterrupted line running roughly N.E./S.W., accommodating 12–15 vessels. Length: 3,033 m.

For loading or discharging bulk grain there are 2 Buhler machines at a berth with 33 ft. depth of water LWOST. About 120 t.p.h. A recent vessel averaged 2,900 tons per day.

Coaling Appliance: The coaling appliance can berth vessels of LOA 750 ft., beam 91 ft. 10 in. and a max. draft of 34 ft. 06 in.

The best loading rate, in theory, is about 600 t.p.h., however, in practice, allowing for shunting trucks, warping ship, etc., average rate is about 400/500 t.p.h.

The length of the chute is 181 m. and it operates between angles of 46 degrees and 58 degrees to the perpendicular. At 46 degrees the tip of the chute is 4.80 m. above wharf level and 9.50 m. from the wharf edge. At 58 degrees the tip of the chute is 7.60 m. above wharf level and 11.80 m. from the wharf edge. At lowest spring tide the water at the coaling berth is 5.90 m. below wharf level and at highest spring tide 2.15 m., the difference between max. extremities being 3.75 m.

Sugar Terminal: The daily intake capability of installation is 2,000 metric tons and it has storage facilities in three sheds with a capacity of 40,000 metric tons each. It has a nominal loading capacity of 750 metric tons. The stowage within each hold is done by means of a telescopic trough and a mechanical distributor (projector) and is capable of projecting the sugar in various angles and distances. Max. reach of the jib is 17 m. Min. reach of the jib (in use) is 11.50 m. and the limit of inclination of the jib (in use) is ± 15 degrees. Max. draft alongside is 33 ft. 06 in.

Depths alongside:

Berth A	30 ft.
Berth B	32 ft.
Berth C	30 ft.
Berth D	31 ft.
Berth D3	31 ft.
Coal Tip	33 ft.
Berth Frigo	30 ft.
Berth G	33 ft.
Berth H	33 ft.
Wharf extension	40 ft.

Coal Mechanical Installation: Depth about 33 ft. LWOST. Maximum height of chute above wharf 7.80 m., minimum 4.80 m.; Max. size LOA 750 ft. Max. beam 91 ft. 10 in. Max. draft 34 ft. 06 in.

LPG Carriers: Berth at Matola Ore Berth.

Timber: Vessels berth at Matola, Post No. 1 (P.I.). Max. draft 32 ft. Max. LOA, 600 ft. Vessels over 550 ft. LOA and draft over 25 ft. berth and sail during daylight hours only.

CRANES: *Electric cranes:* 82 units with capacity 3 to 20 tons. *Mobile cranes:* 63 units with capacity 4 to 12 tons.

Heavy lift crane with capacity of between 60–80 tons.

STORAGE CAPACITIES:

Ore and Coal dumps: Gorjao Wharf.

	tons
Coal	96,000
Ores	600,000
Copper	40,000
Vermiculite	4,000
Steel, Beams and Billets	46,000
Vanadium	7,000

Oil: Storage capacity 200,000 tons.

Molasses: 4 tanks, capacities 6,000, 9,000, 11,000 and 7,000 tons.

Fruit: 7,500 tons (1.133 cu. m./ton) in 100 chambers.

Fish: 200 tons.

Ore: Matola. Capacity 1.3 million tons. Loading speed for iron ore 3,000 t.p.h. and chrome ore 2,400 t.p.h.

Sugar: See "Berthing".

Containers: Terminal expected to be operational in 1977.

STEVEDORES: *Working Hours:*

Normal:	Weekdays:	0700–1100, 1300–1700
	Saturdays:	0700–1100.
Overtime:	Weekdays:	1900–2300, 0000–0600.
	Saturdays:	1300–1700, 1900–2300.
	Sundays:	All day.

Overtime is compulsory on a daily basis (including Saturdays and Sundays) from 1900–2300 hrs.. and from 0000–0600 hrs.

The responsibility for overtime costs should be clearly defined in the Charter Party.

TANKERS: Matola Mineral Wharf, 40 ft. LWOST, max. length of vessel 820 ft. Matola Oil Jetty, 32 ft. 6 in. LWOST, max. length of vessel 750 ft.

Dolphin berth at Matola (P3) has been erected for tankers. Max. draft 35 ft. Max. LOA 750 ft.

FRESH WATER: Available at all berths, not available ex-barge.

FUEL: Vessels can be supplied from pipe-lines whilst working at all berths, including the Matola Appliance and Tanker jetty, but excluding the new wharf extension, where pipes have been laid but the system is not yet ready for delivering bunkers. The rate of delivery varies between 300 to 500 tons per hour depending on the type of vessel taking bunkers. At present, supplies of gas oil and marine diesel oil are not in very plentiful supply, recommended to stem as far in advance as possible.

MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required. Men for sick parade must first go through the port doctor whose hours are week-days 0800–1130 hrs. and 1400–1730 hrs.; Saturdays 1000–1130 hrs., but always available on an emergency call.

REPAIRS: No dry dock except for small coasters. Facilities for most normal work, except underwater rivetting, cutting and welding, and shaft balancing.

DEVELOPMENTS: Administration are considering the construction of a deep-sea port on the coast between Inhaca Island and the Natal border. This port will be mainly used by coal and iron-ore carriers and have a capacity of approximately 6 million tons per annum. Should this project materialise, the port will be operational by 1978.

CONSULS:

U.S.A.
U.K.
France
Norway
Sweden
Switzerland
Italy
South Africa
Rhodesia
Brazil
Germany
Spain

IDENTIFICATION CARDS: Crew and passengers are issued with Immigration Boarding Permits and they must be carried at all times. (Such permits to be returned to Immigration Officer prior to sailing.)

WATCHMEN: Strongly recommend employing services of a local watchman, who will also control visitors and labour passes.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.

REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Mozambique. A valid passport is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.

AIRPORT: About 5 miles from centre of town.

CUSTOMS ALLOWANCES: Bonded stores are usually not sealed.

HOLIDAYS: No cargo work on 1st January and 25th December, on other holidays, work continues normally in the port.

TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during the year.

SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Mozambique.

TELEPHONES: A telephone will be placed on board the vessel.

GENERAL: Crew and passengers not to take photographs in the dock area. Permission through Agent required to lower any boats or gear overside into the water or on to the wharf.

Do not immobilize main engines or carry out engine trials at the wharf until permission has been obtained by the Agent as the Authorities require vessels to maintain sufficient steam for main engines to be used at 2 hours notice.

Customs guards to be supplied with meals and accommodation whilst at inner anchorage and alongside the LM wharf otherwise cost per guard will have to be paid by Agent on Owner's behalf.

AUTHORITY: Capitania do Porto de Maputo.

AGENTS: Rennies' Consolidated Lda., Avenida 18 de Mayo 36, POB 351. Tel. 23021. Cables: "Reniform".

MOZAMBIQUE: 14.58 S. 40.45 E.

DOCUMENTS:

- Customs Clearance from last port.
- Port Clearance.
- Health Certificate.
- 6 Crew Lists.
- 6 Passenger Lists in Transit.
- 7 Passenger Lists Disembarking.
- 2 Stores Lists.
- 2 Lists Deck Stores.
- 2 Lists Cargo in Transit (main items of cargo only).
- 6 copies of Manifest of Mozambique Cargo.

PILOTAGE: One Pilot available, 24 hrs. Pilot boat is black and grey. Ships take Pilot near buoy No. 2 (Red Buoy) placed off Goa Island. At night ships should send Morse signals with Aldis lamp to the middle of Mozambique Island (location of Port Office). ETA should be given as soon as possible to Pilot station off Mozambique Island and/or to ship's Agent.

ANCHORAGES: When waiting for Pilot, or in reason of their draft (more than 30 ft.) ships may drop anchor off red buoy No. 2 (0.5 miles seawards). Depths between 60 and 90 ft. Bottom with sand and some broken coral; current from North to South, sometimes up to 4 knots.

MAX. SIZE: Only ships with drafts less than 30 ft. can cross the bar and enter the Port.

HEALTH: Quarantine flag should be flown, even after calling at other ports in this country. Health Certificate given by Pilot.

RADIO: Radio Mozambique call sign CRQ. Also available Maputo or Beira Radio Stations.
TUGS: Tugs are not necessary in this port.
BERTHING: No quay berths. Vessels work cargo at anchor.
STEVEDORES: All requirements on this purpose must be sent to the Agent.
MEDICAL: Medical assistance can be given at any time, even to vessels unable to cross the bar because of draft. Hospital with adequate facilities, and emergency services available.
FRESH WATER: Always available in any quantity. Supplied by barge of 40 tons capacity.
FUEL: Small quantities available.
OPENING/CLOSING HATCHES: By stevedores.
CARGO GEAR: Vessels anchor in bay and load and discharge by lighter and barges.
IDENTIFICATION CARDS: Required.
CONSULS: No local representatives.
REPAIRS: Light repairs can be effected.
REPATRIATION: All facilities available.
AIRPORT: Situated about 7 km. from Mozambique. Connections to Beira and Maputo every day.
HOLIDAYS: 1st January; 2nd March; 1st and 10th June; 15th August; 5th October; 1st November; 1st December; 8th December; 25th December. Cargo handling can be arranged on these days.
POLICE/AMBULANCE/FIRE: Maritime Police, Customs and Agents will always be on board during stay.
TELEPHONES: No telephones, but walkie-talkies are available; arrange with Agent.
AUTHORITY: Capitania do Porto de Mocambique.

AGENT: Companhia Comercial Joao Ferreira dos Santos, SARL, Caixa Postal No. 1, Mocambique. Cables "Jorreirantos Mocambique".

NACALA: 14.32 S. 40.37 E.

PORT LIMITS: The line joining Ilha Gomen to Cabo Columulomo Light at the entrance of Bay of Fernao Veloso.
DOCUMENTS:
- Customs Clearance from last port.
- Port clearance from last port.
- Health Certificate.
- 6 Crew Lists.
- 6 Lists Passengers in transit.
- 7 Lists Passengers Disembarking.
- 2 Stores Lists.
- 2 Lists Deck Stores.
- 2 Lists Cargo in transit (main items of cargo only)
- 6 copies of Manifests of Nacala Cargo.
- 2 Lists of Dangerous Cargo.

PILOTAGE: Permanent and compulsory for entering harbour. Pilot boat situated at harbour entrance.
ANCHORAGE: Fine natural harbour. Entrance half a mile wide, depths up to 60 m. Good anchorage for any size vessels. Sand and mud bottom.
MAX. SIZE: For anchoring, no restrictions. For berthing, up to 31 ft. draft.
RADIO: Radio Naval Nacala operates permamently on 2182 kHz.
HEALTH: Vessels to radio "Senidade Maritima", their ETA and "All Well" (or otherwise). If "All Well", Health Certificate given by Pilot.
TUGS: One available, 1,000 h.p.
BERTHING:
Old Wharf: There is a pier with berths for four vessels with a length of 426 m.

Depths: Wharf 1: 24 ft.
,, 2: 21 ft.
,, 3: 30 ft.
,, 4: 30 ft.
Cranes: 12 cranes available 9×5 tons
2×10 tons
1×20 tons

New Wharf: There is a pier to berth two vessels.
Depth: 45 ft.
Cranes: There are no shore cranes available at this stage.

CRANES: 12 electric cranes with capacity 1 to 20 tons. 1 Floating crane with capacity of 25 tons. 16 Mobile cranes with capacity 2 to 7 tons.
STEVEDORES: Working hours 0700 to 1100 hrs., 1300 to 1700 hrs. Overtime 1900 to 0600 hrs.. Two local stevedoring firms.
FRESH WATER: Available from hydrants on the quay at the old wharf.
FUEL: Available from connections on the quay. Must be ordered well in advance. Only Gas oil available.
MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow-fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.
GANGWAY/DECK WATCHMEN: Compulsory, under supervision of Immigration Department.
OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.
CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.
REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Mozambique. A valid passport is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.
TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during year.
SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Mozambique.
HOLIDAYS: New Year's Day (1st January); National day of Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Nacala City Holiday (16th September); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December). No cargo work on 1st January and 25th December; on other holidays work continues normally in the port.
DEVELOPMENTS: A new pier: length 462 m., depth 45 ft. under construction. Expected to be operational by 1977. It will be equipped with 14 cranes with 5, 10 and 20 tons capacity.
AUTHORITY: Capitao do Porto de Nacala.

AGENT: Companhia transitaria Joao Ferreira dos Santos POB 45 Nacala. Cables: "Transan-Nacala".

PORTO AMELIA: 13.00 S. 40.28 E.

DOCUMENTS:
- 6 Crew Lists.
- 6 Lists of Passengers Disembarking.
- 6 Lists of Passengers in Transit.
- 1 Master's Declaration.
- 1 Stores and Provisions List.
- 1 Health Declaration.
- 5 Sets Cargo Manifests.
- 2 Sets non-negotiable Bills of Lading.
- Clearance Documents from last port.

PILOTAGE: It is necessary to order by radio request to Agent 14 hours before arrival.
ANCHORAGE: Vessels may anchor South of the dock about 300 m. off. Other suitable anchorages will be indicated by the Pilot.
RESTRICTIONS: Vessels may enter with Pilot at any hour day or night.
MAX. SIZE: Draft up to 27 ft. 6 in. for berthing.
HEALTH: In case of contagious disease on board, the Port Health Authorities must be advised in advance.
RADIO: Send messages through Beira radio.
TUGS: None available
BERTHING: One berth, length 182 m., depth alongside 28 ft.
STEVEDORES: In ETA message to Agent, indicate number of gangs required and advise quantity and description of cargo for discharge.
MEDICAL: In case of urgency advise Agent by radio before arrival. Hospital facilities available. Vaccinations can be performed.
FRESH WATER: Available.
FUEL: Available.
GANGWAY/DECK WATCHMEN: Not necessary as there is a permanent guard on board.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: Bond is not sealed and no restrictions made.
IDENTIFICATION CARDS: Required by police.
CONSULS: Only Germany is represented locally.
REPAIRS: Facilities available.
REPATRIATION: Can be arranged.
AIRPORT: Situated 7 km. away. Flights to Beira and Maputo daily.
TIME: GMT plus 2 hours. No alterations during the year.
HOLIDAYS: No work performed from 1700 hrs. Christmas Eve until 0600 hrs. 26th December; no work performed from 1700 hrs. New Year's Eve until 0600 hrs. on 2nd January. Work may be arranged on the following holidays: 10th June, 15th August, 5th October, 1st November, 1st December, 8th December.
POLICE/FIRE/AMBULANCE: Police, tel. 2828; Hospital, tel. 2211.
SHORE LEAVE: Allowed. Except for nationals of countries not maintaining diplomatic relations with Mozambique.
AUTHORITY: Capitao do Porto de Porto Amelia.

AGENT: Companhia Comercial Joao Ferreira dos Santos, SARL, POB 13, Porto Amelia. Cables: "Jorreirantos-Porto Amelia".

Nauru Island

NAURU: 00.32 S. 166.56 E.

DOCUMENTS:
International Declaration of Health, 1 copy.
Clearance from last port.
Crew Lists, 2 copies.
Passenger Lists, if any, 2 copies.
Manifest, 1 copy.

PILOTAGE: Pilotage is available on request without charge; Masters are advised to avail themselves of this service. It is necessary that Masters, through Radio Nauru, inform telegraphic address Nauruphos Nauru of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Nauruphos will reply through Radio Nauru on receipt of second message giving time for the vessel to close in to 0.5 mile West of loading plants, where pilot will board. In case of adverse weather or congestion, Masters will be notified by radio, or by VHF Channel 16, 156.8 Mc/s with range of about 40 miles. Vessels are handled inwards in daylight only, and should fly flag when approaching island. A safe and clean pilot ladder should be provided, a good lee made for the pilot to embark.

ANCHORAGES: No anchorages are available owing to the extreme depths of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.

RESTRICTIONS: Tide and draft have no bearing on entry but it is normal not to handle vessels into berth in darkness. However, vessels are unmoored at all hours.

MAX. SIZE: Vessels have been handled up to an overall length of 630 ft. Beam should not exceed 90 ft., but there are no draft limitations.

HEALTH: Masters of vessels approaching Nauru are required to send a telegram addressed to the Quarantine Officer, Nauru within 24 hours of arrival. The telegram should state the name of last port, date, presence of any infectious disease. On receipt of telegram, the quarantine officer will send reply indicating whether or not pratique is granted. It is still necessary to fill out the International Declaration of Health and hand this to Boarding Officer after berthing.

RADIO: Nauru Radio station, call sign C2N. Should, through atmospheric conditions, difficulty be found in raising Nauru, it is suggested that the message be passed through Sydney or any other convenient coastal station. Port Radio VHF, calling Channel 16, working Channel 12, permanent service.

TUGS: No tugs available for berthing.

BERTHING: Such special requirements which relate to berthing in the port are contained in a Letter of Advice to Ship Masters issued by the BPC. Shore labour normally boards the vessel with the pilot to assist in mooring to the buoy system.

STEVEDORES: As stevedoring is carried out by Nauruphos, no separate advice is required. Loading rate of bulk phosphate is as high as 3,000 t.p.h.

MEDICAL: Medical treatment can be given at short notice. Limited hospital facilities are available, and emergency surgery can be carried out. Smallpox vaccination is required, and cholera if the vessel has come from an infected area.

TANKERS: Lengths and drafts as for bulk phosphate vessels. 8 inch discharge line to shore storage tanks.

DENSITY: Normal salt water all states of tide.

FRESH WATER: Island water is imported, and water will be supplied only in cases of emergency.

FUEL: Island stocks are imported for use in the phosphate industry, and only limited quantities of heavy fuel or diesel oil can be made available in cases of extreme urgency.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by crew.

SHIP CERTIFICATES: Deratisation certificate only.

CUSTOMS ALLOWANCE: No restrictions apply.

CARGO GEAR: Cargo gear should be up to the standard demanded in Australian ports.

CREW IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by crew members.

CONSULS: An Australian Representative is resident on the Island.

REPAIRS: The phosphate industry requires good workshop facilities of various kinds for maintenance of their own heavy plant and such workshops are kept busy at all times. Small repairs such as welding, brazing, lathe work, etc., can be carried out, but only when essential to allow the vessel to proceed on its voyage. Main engines cannot be immobilised whilst the vessel is moored to any section of the buoy system.

REPATRIATION: Repatriation can be arranged. No facilities for crew changes.

AIRPORT: 2 weekly services operated by:
(1) Fiji Airways to Nauru via the Gilbert and Ellice Islands Group to Fiji.
(2) Air Nauru to and from Australia.
Air Nauru operates a fortnightly service from the Marshall Islands to Nauru.

TIME: Local time is GMT plus 11.5 hours. No alterations during the year.

HOLIDAYS: Christmas Day, New Year's Day, and Good Friday are normally closed holidays. Other National holidays occur during the year but normally work carries on, on these days.

POLICE/AMBULANCE/FIRE: All emergencies are handled by the Harbour Masters, one of whom remains aboard the vessel throughout the time the vessel is attached to the mooring system.

TELEPHONES: Telephones are put aboard for the use of island staff working the vessel.

SERVICES: No special services available.

SHORE LEAVE: This may be granted at the discretion of the Master but should in all cases terminate at 1700 hrs.

PORT REGULATIONS: No vessel may immobilise main engines whilst moored to the buoy system. Main engines should be on instant readiness, deck power should be available at all times, and the vessel must proceed to sea when instructed to do so by the Harbour Master.

DELAYS: Normally no delays should be expected. Vessels could wait a day, or possibly 2 due to port congestion, but this seldom happens; delays can occur due to adverse weather, the duration of which is unpredictable.

AUTHORITY: The Harbour Master, appointed by The Nauru Phosphate Corporation, Nauru.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Netherlands

AMSTERDAM: 52.22 N. 04.54 E. (See Plan)

PORT LIMITS: Notices of Readiness will only be accepted (subject to C/P terms) if vessel has actually arrived at Amsterdam, which means that vessels have to enter from sea and pass the locks at Ijmuiden, proceeding through the North Sea Canal to Amsterdam. There are various buoys and quays available where vessels can be moored waiting for final discharging berth.

DOCUMENTS:

Health Certificate. Forms obtainable from sea Pilot.
Crew List in triplicate.
2 copies of Crew Manifest for cigarettes, cigars, spirits, etc., belonging to crew.
Passenger List in triplicate.
1 copy of Manifest.
1 copy of Bills of Lading.
Dangerous Cargo List.
Ship's Register.
1 copy Stores List.

PILOTAGE: Pilotage is compulsory. A pilot vessel cruises at sea in the vicinity of Ijmuiden between the light whistle buoy and the moles.

In order to avoid delays, Masters who require a Pilot must advise their ETA not less than 4 hours in advance to "Pilotage Ijmuiden". This advice must be amended, if vessel's ETA changes more than 2 hours from the original advice.

The text of the message must contain: *(a)* the words "ETA-pilot", *(b)* expected time arrival (group of 4 figures) in middle European time, *(c)* draft with indication of unit applied, *(d)* port of destination.

"Pilotage Ijmuiden" can be informed via Scheveningen Radio or via VHF Channel 12. Pilotage and navigation is possible at night.

Pilotage by Helicopter: When the pilot service by pilot cutter has been suspended owing to weather conditions it is possible to take a Pilot on board vessels by helicopter. Helicopter pilotage is carried out for vessels which have an obstacle free hoisting area on deck of min. 15 ft. diameter. Deck plans should be provided in advance.

Restrictions:

1. Min. visibility 800 m. at 150 ft. above sea level.
2. Max. wind force 10 (55 kts.).
3. Severe turbulence and icing conditions at or below 150 ft.

Pilot Ladders: Pilots strictly adhere to regulation 17b, Chapter V of the International Convention for the Safety of Life at Sea, which reads as follows:

"Whenever the distance from sea level to the point of access to the ship is more than 30 ft. (9 m.), access from the pilot ladder to the ship shall be by means of an accommodation ladder or by another equally safe and convenient means."

ANCHORAGE: Anchoring in Ijmuiden outer harbour, North Sea Canal and in harbour of Amsterdam is prohibited.

RESTRICTIONS: Entry possible at night. Official max. draft is 43 ft. (salt water). By permission of Government Harbour Master at Ijmuiden it is possible to enter with max. draft 45 ft. (s.w.). Such permission to be applied for at least 14 days prior to arrival.

MAX. SIZE: Vessels proceeding to Amsterdam have to pass locks at Ijmuiden. Dimensions of Northern lock (biggest): 1,312 ft. long, 164 ft. wide 49 ft. 2 in. deep.

RADIO: Cable Agents giving ETA draft, cash and other requirements via Scheveningen Radio/PCH.

RADAR/VHF: Harbour radar is installed at Ijmuiden. In bad visibility radar assistance will be given for incoming ships day and night. A radio portophone is provided by Pilot. Direct communication between incoming and outgoing ships and commanding post of locks is possible by means of VHF radio telephone, Channel 11. Government patrol boats are also equipped with VHF installations. The Radio-Radar Station (Redeplot) can also be contacted via VHF Channel 12 before approaching Ijmuiden.

TUGS: Sea-going tugs available between piers at Ijmuiden assisting vessels, into locks or outer harbour. Harbour tugs available in locks assisting vessels to Amsterdam. The rates include use of tug hawser.

BERTHING: Possible at night. If no berth available vessels may be moored on buoys.

BRIDGES: Vessels proceeding to Oil Harbour, Coen Harbour, Vlot Harbour and installations in Eastern part of port pass railway bridge over North Sea Canal at Zaandam. Notices indicating distance from bridge have been placed at 500 m. at either side and notices to stop at 150 m. at West side and 225 m. at East side. When bridge closed Masters must stop their ships and must on no account proceed unless signal is given that passage is allowed. Bridge is opened regularly in accordance with time-table of Netherlands Railway.

STEVEDORES: In order to enable Agents to order gangs in time it is recommended to keep Agents duly informed about ETA. No ETA to stevedores necessary.

MEDICAL: If immediate medical assistance will be required in the locks at Ijmuiden, Agents must receive advance notice.

BULK HANDLING FACILITIES: *Grain:* The Silo installation of IGMA at Vlothaven depth alongside 49 ft. 3 in., has main jetty 1,200 ft. length to accommodate 2 vessels up to 80,000 tons d.w.t. Ships unloaded by 4 mobile pneumatic suckers, with capacity 400 t.p.h., and 3 floating elevators. Daily discharge capacity about 17,000 tons.

On discharging side maximum gear height above water line 92 ft. On loading side maximum gear height above water line 36 ft.

Ore, Coal, etc: NV Overslagbedrijf Amsterdam in West harbour, quay 2,600 ft. length, max. draft about 49 ft. 3 in. Discharging rate of gear up to 60,000 tons per 24 hours. Loading rate about 2,500 t.p.h.

Maximum outreach of loading and discharging gear 137 ft.; max. height of loading discharging gear above water level 51 ft. Four high speed gantry cranes in use.

NV Havenbedrijf Rietlanden Quay length 2,500 ft. depth 35 ft. Capacity about 8,000 tons per day.

Phosphate: Albatross Fertiliser Works Jetty, depth alongside 31 ft. Two grab cranes with daily capacity of 8,000 tons.

Containers: Length of quay 465 m. Roll-on/roll-off berth: 140 m., depth alongside quay 36 ft.

The berth is equipped with 2 gantry cranes with lifting capacity of 50 tons and 1 multi-purpose crane with a capacity of 30 tons.

Ferry Terminals (Roll-on/Roll-off terminals): Scandia Terminal in the Suezhaven, 10.5 nautical miles from the sealocks in Ymuiden. Total area 50,000 sq. m., marshalling area 28,000 sq. m., quay length 400 m. shedspace 2,300 sq. m., modern passenger building.

Another terminal is located in the Coenhaven, 11 nautical miles from the sea-locks in Ymuiden. It is equipped with a ramp with movable link span (twin construction), 40 ft. wide and 63 ft. long and has 2 more berths for roll-on/roll-off vessels. The water depth is 33 ft. The terminal also includes a passenger hall (1,000 sq. m.), 3 ha (7.5 acres) of parking space and ample shed space. A mobile container crane (35 tons capacity), side-loaders (20 tons), tug musters, slave trailers, flats, containers and fork-lift trucks are available.

Minerals: Eggerding & Co. B.V. Length of quay 400 m. Depth alongside 33 ft. Discharge is carried out by floating cranes.

TANKERS: *Mobil:* Two jetties, one for vessel of 30,000 tons and another for vessel of 80,000 tons. Max. draft 44 ft. 6 in. pipe-line connections 10 and 12 in.

One jetty for coast tankers or LPG tankers up to 2,500 tons.

The receiving rate for crude oil is 4,000 cu. m./hr. The loading rate varies from 400–1,900 cu. m/hr. depending on grade.

Fresh water available from jetty. Fuel available, pipe-line 8 in. Facilities available for dirty ballast if vessel to load at berth. Max. capacity 10,000 tons. Stores by barge or truck (Jetty not accessible to trucks).

Amatex: Five jetties, depth alongside 32–41 ft. Pipe-line connections 6 in. –12 in.

Receiving rate, 4–1,200 t.p.h. depending on grade and back pressure, if any. The loading rate is about 1,000 t.p.h. depending on grade.

Fresh water available by barge. Fuel available by barge. There are no facilities for dirty ballast. Stores mainly by truck (Jetties not accessible to trucks).

Comos: Two jetties, depth alongside 42 ft. Pipe-line connections 8 in. and 12 in. Four jetties available for seagoing vessels and barges up to a max. draft 14 ft. 9 in.

The receiving capacity is about 2,000 t.p.h. and loading rate up to about 1,000 t.p.h.

Fresh water available by barge. Fuel available by barge or pipe-line. Stores by truck. There are no facilities for dirty ballast.

Smid & Hollander: One jetty for receiving crude oil, max. draft 36 ft. 2 in. Fresh water and fuel available by barge. Stores by truck (Jetty not accessible to trucks).

Shell: One jetty available for bunkering purposes. Max. draft 32 ft.

Noord Europees Wijnopslagbedrijf B.V.: One jetty, depth alongside 20 ft. Fresh water and fuel available by barge. Stores by truck.

DENSITY: Amsterdam is not a tidal port. The water is brackish to fresh.

FRESH WATER: Drinking and boiler water can be supplied by barge, or if connection available, from shore. Price depends on quantity ordered.

FUEL: All grades of fuel are available. Advance notice 48 hours.

FIRE PRECAUTIONS: No repair work to be carried out to tankers without permission of Harbour Authorities. Usual non-smoking precautions, etc.

GANGWAY/DECK WATCHMEN: Not required. Dependent on commodity of cargo.

OPENING/CLOSING HATCHES: Liner vessels by crew or by stevedores, payable per man per hour. Tramp vessels as per Charter Party.

CERTIFICATES:

Ship's Register.
Usual Cargo Certificate.
Safety Radio.
Safety Equipment Certificate.
Crew Roll.
All usual certificates required for navigation.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per man or equivalent of tobacco or cigars. Wine and/or Spirits: 5 litres of wine per man. Spirits: total 5 litres for the whole ship.

CARGO GEAR: Usual cargo certificate.

IDENTIFICATION CARDS: Not needed.

CONSULS: Nearly all countries have established consulates at Amsterdam.

REPAIRS: All types of deck and engine repairs are possible including gas-freeing and tank-cleaning.

DRY DOCKS: NDSM: Four dry docks, largest of which length 817 ft. breadth 120 ft., depth 28 ft.

ADM: Five floating docks largest of which length 677 ft. breadth 97 ft. 6 in., lifting capacity 40,000 tons d.w.t.

Other floating docks available for vessels up to 4,500 tons.

REPATRIATION: Facilities for repatriation of crew to any destination are available.

AIRPORT: Distance to Schiphol Airport (served by regular airlines) 15 km.
TIME: GMT plus 1 hour. No alterations during the year.
HOLIDAYS: New Year's Day; Easter Monday; Queen's Birthday (April 30th); Ascension Day; Whit Monday; Christmas Day and Boxing Day.

Cargo can be worked during these days subject to labour being available at premium rates.

POLICE/AMBULANCE/FIRE: Police 222222; Ambulance 355555; Fire 666666.
TELEPHONES: Telephone connections on board are only possible on certain quays (passenger ships). It is possible to rent portable mobilophones.
SERVICES: Two tank cleaning installations, compass adjusting/direction finder calibration, representatives of all leading radio installations, radar and other nautical instruments available.
SHORE LEAVE: Crew members allowed ashore.
DELAYS: Usually no congestion.
AUTHORITY: Dienst der Havens en Handelsinrichtingen.
AGENT: Wm. H. Muller & Co. Amsterdam B.V., "Havengebouw", 7 De Ruyterkade, Amsterdam. Telegrams "Mineral". Telex 12058. Tel. (020) 6 34 56.

DELFZIJL: 53.20 N. 6.54 E. (See Plan)

LOCATION: On the estuary of the River Ems, opposite Emden.
DOCUMENTS: See "Rotterdam".
PILOTAGE: Pilot boats normally cruise at Wester-Ems buoy. During bad weather they withdraw into estuary, but never further than Borkum Roads. Pilot boats listen on Channel 6 and pilot office on Channel 14 VHF; distance from pilot station to Delfzijl 32 miles. Pilot service compulsory for all vessels drawing over 22 dm. Foreign vessels may call Pilot on 2182 kHz. and Netherlands vessels on 2391 kHz. Traffic between the cutter and the vessel will be held on 1657 kHz.

Approaching vessels from sea should inform the Pilot commissioner of their ETA in M.E.T. with a notice at least 4 hours in advance via Scheveningen – Radio (PCH); the pilot cutter may be informed via VHF.

The ETA message should contain the following details: *(a)* ETA Pilot Westereems (time in M.E.T. in a group of 4 figures); *(b)* Draft; *(c)* Port of destination.

Departing vessels should apply for a Pilot at least one hour before ETD; the request should be made to the office of the commissioner.

Pilotage from Delfzijl is not compulsory. On request however a Pilot may be put at the Master's disposal for a trip to Emden. This is not applicable for a trip from Emden to Delfzijl or Eemshaven.

ANCHORAGE: Anchoring in harbour area prohibited. On roads, ships up to 4,000 d.w.t. anchor near buoy B.W. 14. Larger vessels should anchor in Doekegat.
ENTRANCE: New harbour entrance lies opposite the village of Oterdum about 5.2 m. South-east of the old entrance. The new entrance extends to reach the deep water of the Bocht van Watum, and lies at a point about 600 m. West of the dredged channel between the Bocht van Watum and the Oostfriese Gaatje near Paapsand Sud.

New harbour entrance has an initial depth of NAP −10 m., and a bottom width of 200 m. The harbour channel has the same depth, and a width of 100 m. NAP=Normal Amsterdam Level.

MAX. SIZE: Port is now accessible to vessels with draft up to about 28 ft. (8.50 m.) which may arrive or sail without waiting for high water.
TUGS: 1 tug of 900 h.p., 3 tugs of 800 h.p. and 1 tug of 400 h.p. available. Tugs use ship's lines.
RADIO: Cable to Agents via Radio Scheveningen. PCH.
VHF: The Harbour Master's office is equipped with a VHF installation, Channel 14. During office-time the station is constantly manned (0800–1200 hrs. and 1300–1700 hrs.); during other hours the station is manned during the last quarter of every hour.
BRIDGES: Bridge to the Damsterhaven may always be worked. Bridge to the Oosterhornhaven will be handled from Monday to Saturday. On Sunday bridge may be opened on special request.
CARGO HANDLING: Public quay is equipped with 14 cranes to work general cargo. Five of these may also be used to handle bulk cargoes (fertilisers, grain).

There is in the outer harbour a private facility to discharge alumina, methanol, a bulk salt-loading terminal and a deep sea berth to handle molasses.

DENSITY: Ranging between 1007 and 1020, depending on the tide.
FRESH WATER: Available along new quay in unlimited quantities.
FUEL: Fuels in limited quantities for coasters are always available. For bunkering of larger vessels, arrangements should be made in advance.
GANGWAY/DECK WATCHMEN: According to police regulations, Master has to keep watchmen on board.
OPENING/CLOSING HATCHES: Normally carried out by ship's crew.
CONSULS:

At Delfzijl		*At Groningen*	
Denmark	tel. 05960–16333	Belgium	tel. 050–138222
Finland	tel. 05960–16800	Germany	tel. 050–139922
France	tel. 05960–13778	Norway	tel. 050–189444
Sweden	tel. 05960–16333	Spain	tel. 050–137879

REPAIRS: Most engine and deck repairs can be carried out by two local shipyards.
DRY DOCKS: Dry-docking is limited to ships up to 3,000 d.w.t. with a draft not exceeding 32 dm. For larger vessels, dry-docking facilities exist in the nearby port of Emden (Germany).
CERTIFICATES: The tonnage certificate should be shown to Harbour Master on first call every year.
HEALTH, MEDICAL ATTENDANCE, HOLIDAYS, LOCAL TIME, CUSTOMS ALLOWANCES: see "Rotterdam".
AUTHORITY: Port of Delfzijl Authority.
AGENTS: Maritima Scheepvaart en Handelmaatschappij B.V., De Vennen 52, Delfzijl. Tel (05960) 18989. Cables "Maritima". Telex 53153.

DORDRECHT: 51.49 N. 4.40 E. (See Plan)

DOCUMENTS: See "Rotterdam".
PILOTAGE: Vessels have to enter New Waterway at Hook of Holland and proceed to Dordrecht via this New Waterway and the River Oude Maas. Masters of vessels bound for Dordrecht should state destination in ETA message as Pilots for Dordrecht embark from pilot cutter at roads. Deep-draughted vessels may have to exchange Pilots just inside breakwaters at Hook of Holland. (See Rotterdam "Ordering a Pilot").
ANCHORAGE: At sea off Hook of Holland (see "Rotterdam"). No anchorage between entrance to New Waterway and Dordrecht.
RADIO/RADAR/VHF: No radar service on River Oude Maas or Dordrecht.
RESTRICTIONS: Max. LOA 175 m. Max. breadth 23 m. Max. draft 29 ft. 6 in. Max. breadth is discussable as 25.90 m. could be allowed. For tankers min. visibility 500 m. (1,640 ft.). For dangerous cargoes, see "Rotterdam". The Pilot will decide the number of tugs required for passage on the Oude Maas, usually a min. of 3–4.
TUGS: Tugboats ordered by Pilot when entering New Waterway. Tugs normally meet vessels at Dordrecht.
CRANES: 2 Transporting bridges 15 tons each, 2 Portal cranes 12.5 tons each, 1 Portal crane 7 tons, 1 Floating crane 7 tons, 3 General cargo cranes 6, 5 and 3 tons capacity.
BRIDGES: Bridges across the River Oude Maas are opened day and night. Sea traffic has preference over shore traffic.
TANKERS: Oil installation of Gebr. Broere N.V. has seven tanker berths. There are other tanker berths for small tankers. No slop (residue) storage facilities.
REPAIRS: Yards of various capacities available for all types of repairs.
FRESH WATER: At oil installations fresh water can be supplied from shore. Or supply by waterboat.
CONSULS:
Denmark tel. 32177 Norway tel. 32177 France tel. 33231.

Other consulates at Rotterdam at 20 km. distance.

POLICE/AMBULANCE/FIRE: Tel. Police 30333; Ambulance and Fire 33333.
AIRPORT: Rotterdam and Amsterdam airports at a distance of 30 and 90 km. respectively served by regular airlines.
PILOT CUTTERS, HEALTH, MEDICAL ATTENDANCE, BUNKERS, CUSTOMS ALLOWANCES, HOLIDAYS: See "Rotterdam".
TIME: GMT plus 1 hour. Summer 1977 plus 2 hours.
AGENTS: See "Rotterdam.

EEMSHAVEN: 53.27 N. 06.50 E. (See Plan)

New port under construction.
LOCATION: About 15 km. N.W. of Delfzijl, on the bank of the River Ems.
DEVELOPMENTS: Harbour became operational in 1973. Initially harbour accessible for vessels up to 36 ft. (10.97 m.) draft and about 40,000 tons d.w.t. Eventually port is expected to be suitable for vessels of up to 42 ft. draft (12.80 m.).

Ample facilities for the handling of unit loads and roll-on/roll-off traffic will be offered. A bulk cargo terminal is planned, and a separate basin is projected where vessels loaded with highly inflammable cargo may be discharged safely, unhindered by passing vessels.

The depth of the bar to be passed in the Oude Westereems-Doekegat is about NAP −11 m. Therefore the harbour entrance, keel and turning have a depth of NAP −12 m. However, the ringdike of the port entrance has been laid so wide, that when the bar is deepened, to NAP 14 m., it will be also possible to dredge the harbour (entrance, keel and turning basin) 2 m. deeper without much difficulty.

The bottom width of the entrance is 250 m., measured sheer at the entrance-axis. This measure is equal to the length of the biggest ship to be expected. The bottom distance between both piers is about 320 m.

AGENT: See "Delfzijl".

FLUSHING: 51.27 N. 03.35 E. (See Plan)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
1 Store List.
1 Personal Effect List.
Ship's Register.
1 Manifest or Bill of Lading.

PILOTAGE: Position of pilot cutters in the Scheldt Estuary: Pilotage is compulsory.

Wielingen (Southern approach) or via Scheur: Vessels approaching the Scheldt estuary from the English Channel pass the lightvessels Sandettie Banks and Westhinder. The Belgian pilot cutter *Wandelaar* is stationed near Buoy A1 at 51° 22′ N. and 02° 53′ E. this cutter has a black hull with a white number on her bow, a yellow funnel with black top and flies a red flag with the letter "P" in white.

A vessel bound for Flushing to discharge, bunker, load, to embark or disembark passengers or for repairs will be provided with a Dutch Pilot, who will take the vessel into harbour. Other vessels for Flushing (sheltering, awaiting orders, unplanned repairs, etc.) will be provided with a Belgian Pilot to Flushing-Roads, where a Dutch Pilot comes on board to take the ship into harbour.

Oostgat (Northern approach): Vessels approaching the Scheldt estuary from the North can take a Pilot in the vicinity of the S.B.Z. lightbuoy (51° 42.3′ N. and 03° 14.3′ E.) where a Dutch pilot cutter is stationed, flying a blue flag with the letter "L" in white. As a rule vessels bound for Flushing are provided with a Dutch Pilot.

ETA Messages: Masters' telegrams via Scheveningen Radio, call sign P.C.H., are passed on to Agents 24 hrs. a day, week-ends inclusive.

For this reason it is advisable that Masters communicate with Agents via Scheveningen Radio, via which station Agents also route their messages to vessels.

Vessels bound for the River Scheldt should cable, at least 4 hours in advance, their:

1. ETA "Wandelaar" (Southern Approach) to: "Pilotage Ostend", via Ostend Radio (OST):
2. ETA "Steenbank" (Northern Approach) to: "Pilotage Flushing", via Scheveningen Radio (PCH).

The ETA message should contain the following details: *(a)* the words "ETA Pilot Wandelaar or Steenbank". *(b)* ETA central European time shown in a group of four figures. *(c)* draft (S.W. or FW) with indication of unit applied. *(d)* port of destination and berth.

Pilot cutters may be contacted on VHF Channel 6.

During bad weather both pilot cutters shift to Flushing Roads.

APPROACHES:
Approaches to the Scheldt Estuary are:

		Depth MLWS	*Max. Neap*	*Draft SW Spring*	*Keel Clearance*
S. Channel:	Wielingen	28′	35′	38′ 03″	5′
	Scheur	34′ 6″	42′	45′	5′
N. Channel:	Oostgat	25′ 6″	31′	34′	5′

ANCHORAGE: The roads of Flushing offer a safe and spacious anchorage with a sandy bottom. Vessels anchoring in the roads are recommended to do so Southward of the Koopmanshaven (the Western harbour of Flushing) at not less than 0.75 of a mile from the Northern Coast. In this part of the roads depths vary from 10 m. (33 ft.) to 26 m. (85 ft.).

The greatest depths and the strongest tides are encountered on the Southern part of the roads. When lying there vessels are less exposed to the risk of collision in foggy weather etc. and are well away from vessels proceeding up and down the river, manoeuvring for the purpose of landing and/or embarking Pilots, and from ferry boats crossing between Flushing and Breskens.

At the Northern part of the roads the tidal stream slackens gradually until H.W. is reached and under normal conditions of tide and wind the ebb stream is already felt along the shore from half an hour after H.W. until one hour after L.W. From one hour after L.W. the flood tide sets in again and is felt until shortly after H.W.

At the South side of the roads the tidal stream is running until slightly over an hour after H.W. when the stream slackens and turns. Two hours after H.W. the stream is running in N.W. direction gradually veering West.

MAX. SIZE: *Flushing East Harbour:* Entrance 34 ft. 4 in. at MLWS. A depth of 38 ft. planned alongside the quay.

Max. draft at Buoys at entrance 43 ft.

Outer Harbour: West side, max. draft 33 ft.

Inner Docks: Max. depth 24 ft.

Total: Max. length 280 m., max. draft 49 ft. (S.W.), max. d.w.t., 100,000 tons. However, draft is controlled by the depth in the approach channels.

HEALTH: No certificates required. In event of any disease or fever contact Agents.

RADIO: All messages to Agents via Scheveningen Radio.

Flushing Radio can be reached by VHF Channel 14. Harbour tugboats and pilot cutters operate on VHF Channel 6.

RADAR/VHF: Port radar service, none. River service under consideration. Flushing Radio Channel 14. Every 5 min. each hour this station transmits information regarding visibility, water-level, hindrances, anchorages, etc. Harbour tugs Channel 6.

TUGS: Join vessels in Flushing roads. Vessel's lines usually used. No extra for tug lines. For contract holders 5% reduction.

BERTHING: *Outer Harbour:* West side, quay of 1,150 ft. long, depth of water 33 ft. LWOST. Quay height above sea level 2 m. at high tide and 7 m. at low tide. In Northern part of Outer Harbour a landing stage with length of 360 ft. Depth at low tide 20 ft. Depth at HW 29 ft.

Flushing East Harbour: Quay length 1,300 ft. Depth 36 ft. LWOST.

Inner Docks: A double lock and sluice give access from Outer Harbour to inner docks and canal through Walcheren. Largest lock length 455 ft., width 72 ft., depth on still LWOST of 17.5 ft. The other lock is 213 ft. long, 26 ft. wide, and 10 ft. deep. Sluice 113 ft. wide, 28 ft. deep. Constant depth of water at quay 24 ft.

STEVEDORES: Provided by N.V. Haven Van Vlissingen (Port of Flushing Limited). Tel.: 01184-5070. Telex: 55137.

MECHANISED CARGO HANDLING: Quay length 1,300 ft. equipped with 2 portainers suitable for handling 20 up to 40 ft. containers.

Roll-on/Roll-off service between Flushing and Ramsgate. Daily service, later on probably twice a day. Vessels berth in the Inner Docks. At Flushing-East, Ro-Ro facilities for deep sea vessels.

TANKERS: Vessels carrying over 4,400 gallons of combustible liquids with a flash point up to 21° C., or over 22,000 gallons with flash point up to 55° C. require Harbour Master's permission for entry.

Two discharging berths alongside the quay. Discharge lines three of 8 in. diameter with capacity of about 2,000 t.p.h.

Total: See "Max. Size".

One jetty for tankers up to 100,000 d.w.t. and three jetties for barges and coasters with depth of 18 ft. and 34 ft.

Connections:

Commodity	Loading arms
Fuel oil	2×12 in.
Clean products	2×10 in.
Bunkers (fuel oil only)	1× 8 in.

The two fuel oil loading arms can also be used for the discharge of crude oil. The loading arms are hydraulically operated.

Deballasting: One 12 in. and one 10 in. loading arm can also be used for the discharge of dirty ballast water in unlimited quantities at the rate of about 1,800 t.p.h.

Capacities: Discharging rate of crude oil and the loading rate of fuel oil amount to about 2,000 t.p.h.

Supplies: Water obtainable from jetty. Bunkers by barge. Stores by small vehicles max. axle load 12 tons.

MEDICAL: Two hospitals available.

DENSITY: About 1024.

FRESH WATER: Can be supplied either alongside the quay or by water boat. Possible to supply fresh water in Flushing roads weather permitting.

FUEL: All grades obtainable from major oil companies and supplied by barge only.

Economical bunkering arrangements can be made at the sheltered anchorage Schaar van Everingen, a few miles up river from Flushing. No harbour dues. Max. draft HW Neaps 41 ft. Springs 43 ft.

DEVELOPMENTS: In Flushing E. the quay of 1,300 ft. length to be extended by 140 m. with depth alongside 38 ft. LWOST.

GANGWAY/DECK WATCHMEN: Available but not compulsory or necessary.

OPENING/CLOSING HATCHES: On liners by crew or stevedores, ship's option.

CERTIFICATES: On arrival, ship's register only.

CUSTOMS ALLOWANCES: 200 cigarettes for each member of crew and total on board out of bond 5 litres spirits and 100 litres wine.

CARGO GEAR: The port is equipped with modern mobile cranes, which can be used both in the outer harbour and in the inner docks, with the following capacities:

2 cranes – 25 tons	2 cranes – 10 tons
3 cranes – 12 tons	1 crane – 8 tons

Floating cranes are available with capacities of 225, 75, 40 and 8 tons.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium	tel. 15151	Germany	tel. 0118–1764
Denmark	tel. 14520	Norway	tel. 12272
France	tel. 12373	Sweden	tel. 16828

REPAIRS: All repairs possible.

DRY DOCKS: Largest 705 ft. 5 in., width 98 ft. 4 in. and four smaller docks.

REPATRIATION: All facilities available for crew changes; good railway connections.

AIRPORT: Rotterdam (Zestienhoven) 125 km.; Brussels (Melsbroek) 150 km.; Amsterdam (Schiphol) 180 km.

TIME: GMT plus one hour.

HOLIDAYS: New Year's Day (January 1st); Easter Monday; Queen's Birthday (April 30th); Ascension Day (May 15th); Whit Monday; Christmas Day (December 25th); Boxing Day (December 26th).

Work can be arranged on above days, however dependent upon permission of the Docker's Inspection.

POLICE/AMBULANCE/FIRE: Police 3333; Ambulance and Fire 2323.

TELEPHONES: Not possible to place telephones on board except for vessels berthing at the shipyard "De Schelde".

SERVICES: Compass Adjuster; Radio/radar services also calibration of the Direction Finder, Seamen's Home (Mission to Seamen); Lloyd's Sub-agents; Ship's Laundries.

SHORE LEAVE: After clearing inwards, crew members are allowed to go ashore without special permission.

AUTHORITY: *Outer Harbour:* N.V. Haven van Vlissingen.

E. Harbour: The Port Authority of Flushing.

AGENT: Wm. H. Muller & Co. Scheepvaartagenturen B.V., 16 Boulevard de Ruyter, Flushing. Tel.(01184) 1 2171. Telex 55068. Cables "Mineral".

GRONINGEN: 53.15 N. 06.34 E. (See Plan)

The port is connected with the Ems Estuary via the Eemskanaal and the lock at Delfzijl.

DOCUMENTS: Clearing is done at Delfzijl.

PILOTAGE: For the approach of the lock see "Delfzijl".

The length of the lock is 120 m. and the width 16 m. Depth over sill at low water 3.9 m. and at canal level 6.07 m.

On the locks canal-pilots are available but pilotage on the canal is not compulsory. The length of the canal is 14 miles and it has a least depth of 5.2 m. There are 3 bridges all 16 m. wide.

MAX. SIZE: Maximum size for ships passing lock and navigating canal; beam 13 m. and draft 4.5 m.

TUGS: Available at Delfzijl and Groningen.

BERTHING: *Hunzehaven*: South side 300 m. quayage, railway connected, max. draft 4.5 m., two grab cranes 3.5 ton, two general cargo cranes 3 ton.

Oosterhaven: North side 150 m. quayage, max. beam 12 m., max. draft 3.6 m., two grab cranes 3 ton.

Deense haven: Three mooring buoys, max. draft 4.5 m.

Eemskanaal: private silo max. beam 12 m., max. draft 3.9 m. private timber yard max. beam 12 m., max. draft 3.6 m.

Van Starkenborghkanaal: private silo max. beam 9.6 m., max. draft 2.9 m. private timber yard max. beam 9.6 m., max. draft 2.9 m.

STEVEDORES: Available.

MECHANICAL CARGO HANDLING: Silo's with equipment for bulk-handling of grain on Eemskanaal and Van Starkenborghkanaal.

MEDICAL: 3 hospitals available.

FRESH WATER: Freely supplied by Authority's water boats.

FUEL: By barge only.

CERTIFICATES: On arrival, ship's register only.

CONSULS: Belgium, tel. 138222; Norway, tel. 189444; Spain, tel. 137879.

REPAIRS: All repairs possible.

DRY DOCKS: Transverse slipway, length 100 m.

AIRPORT: Eelde, 10 km. from Groningen, daily services to Schiphol.

TIME: MET.

HOLIDAYS: New Year's Day, Easter Monday, Queen's Birthday (30th April), Ascension Day, Whit Monday, Christmas Day, Boxing Day.

POLICE/AMBULANCE/FIRE: Police tel. 121212; Ambulance tel. 123456; Fire Brigade tel. 123456.

TELEPHONES: Can be placed on board alongside Hunzehaven quay.

AUTHORITY: Harbour Master, Gemeentelijk Havenbedrijf.

IJMUIDEN (YMUIDEN): 52.28 N. 04.34 E. (See Plan)

Also refer to "Amsterdam".

DOCUMENTS:

- 2 Personal Effects Lists.
- 2 Stores Lists.
- 3 Crew Lists.
- 3 Passenger Lists.
- Declaration of Health.

PILOTAGE: On entering and leaving Ijmuiden Government pilotage is compulsory. A pilot vessel with Pilots cruises at sea in the vicinity of Ijmuiden between the light whistle buoy and the moles.

In order to avoid delay, captains, who require a Pilot must advise their ETA not less than 4 hours in advance to "Pilotage Ijmuiden". This advice must be amended, if vessel's ETA changes more than 2 hours from the original advice.

The text of the message must contain:

a. The word "ETA-Pilot".
b. Expected time arrival (group of 4 figures) in middle European time.
c. Draft with indication of unit applied.
d. Port of destination.

"Pilotage Ijmuiden" can be informed via Scheveningen Radio or via VHF Channel 12. Pilotage and navigation are possible at night.

Pilot from Helicopter: When the pilot service per pilot cutter has been suspended owing to weather conditions it is possible to take a Pilot on board vessels by helicopter. Helicopter pilotage is carried out for vessels which have an obstacle free hoisting area on deck of minimum 15 ft. in diameter. Deck plans should be provided in advance.

Helicopter rates:

Dfl. 3,740.	– per flying hour.
Dfl. 210.	– per sling transfer.
Dfl. 300.	– overtime from 1880 until 0600 hrs. and on Sundays and holidays.

Restrictions

1. Minimum visibility 800 m. at 150 ft. above sea level.
2. Maximum wind Force 10 (55 kts.).
3. Severe turbulence and icing conditions at or below 150 ft.

Harbour Master's office can be contacted by VHF Channel 11 to obtain information for safe navigation and rapid locking. In adverse weather vessels may receive radar assistance from Port Operations for entering harbour.

ANCHORAGE: Vessels may anchor off Ijmuiden outside the breakwaters.

MAX. SIZE: For North Sea Canal, entrance lock 1312 ft. long, 164 ft. wide. 49 ft. depth. Density: 1016.

Maximum permitted draft is 43 ft. in salt water, only after consultation and with permission of Government Harbour Master at Ijmuiden may the max. draft be extended to 45 ft.

HEALTH: Pratique granted automatically on arrival after completion of Maritime Declaration of Health. In case of suspected disease on board notify Agent by radio before arrival advising full details.

TUGS: Available. Meet vessel in harbour entrance if required.

BERTHING: Coal and ore cargoes discharged to Blast Furnace and Steel Works Company in Outer Harbour.

Quay 1: Length of quay: 1,360 ft. Depth alongside quay: East part 31 ft. at LLWS, West part 37 ft. at LLWS.

Opposite the quay there are 3 dolphins available where one vessel can wait for a loading/discharging berth (up to 34 ft. draft).

Equipment:

1 crane, lifting capacity 15 tons, max. outreach 57 ft.
2 cranes, lifting capacity 30 tons, max. outreach 57 ft.
1 crane, lifting capacity 30 tons, max. outreach 63 ft.

Finished products such as rolling mill products, pig-iron, cast iron, steel ingots, slabs and coils are handled.

Quay 2: Length of quay: 1,800 ft. Depth alongside quay: 48 ft. 09 in. at LLWS. Max. draft; the entrance to Outer harbour is accessible to vessels up to 43 ft. draft and with special permission of the harbour authorities up to 45 ft. draft.

Equipment:

3 bridgecranes, lifting capacity 40 tons each, max. outreach 115 ft. 2 conveyor belt systems (capacity 6,000 t.p.h.).

Despatch:

About 45,000 tons iron ore per 24 hours. About 30,000 tons coal per 24 hours.

Quay 3: Length of quay: 825 ft. Depth alongside quay: 37 ft. LLWS. On this quay exclusively steel products will be loaded.

Equipment:

2 cranes with a capacity of 60 tons each. Outreach 70 ft.

Inner harbours: These harbours are mainly used for loading or discharging smaller vessels having drafts between 13 ft. and 21 ft. 6 in.

Finished products such as rolling mill products, pig-iron, cast iron, steel ingots, slabs, coils but also fertilisers are handled.

DEVELOPMENTS: Proposed new outer port to be built South of South Harbour Entrance Mole to accommodate vessels up to 62 ft. draft.

STEVEDORES: *Working Hours:* In the Outer harbours round the clock, also on Sundays and holidays.

In the Inner harbour round the clock except from 1400 hrs. on Saturdays until 0600 hrs. on Monday.

FRESH WATER: Available from quay.

FUEL: Available by barge.

MEDICAL: Doctors, hospital and all services available.

CUSTOMS ALLOWANCES: 200 cigarettes for each crew member; 5 litres spirits for whole ship.

CONSULS, REPAIRS: And all general information; refer to "Amsterdam".

AUTHORITY: Rijkshavendienst Ijmuiden.

AGENT: See "Amsterdam".

ROTTERDAM: 51.55 N. 4.24 E. (See Plan)

DOCUMENTS: Maritime Declaration of Health, obtainable from River Pilot. Crew list in duplicate on special Dutch forms, obtainable from Agents. Ship's Register. Store list. Crew custom declaration showing quantity cigars, cigarettes, tobacco, spirits, wine, radios, cameras, etc., and souvenirs for each crew member.

Crew and passenger lists to show date of last vaccination against smallpox, for vessel coming from suspect zone within last 14 days.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg".

PILOTAGE: River pilotage compulsory from sea to harbour area and vice versa, except vessels in ballast drawing less than 7 ft. 3 in.

Harbour pilotage compulsory from fairway to berth in harbour area and vice versa, except for vessels under 475 g.r.t.

Pilot Cutters: Cruising continuously, day and night, off entrance to New Rotterdam Waterway, one North of line North Mole/Maasbuoy and one near Maasbuoy. Characteristic signals:

1. By day pilot flag, being a blue flag with white letter "L", displayed from main top mast.
2. At night, lights as prescribed by Regulations for Preventing Collisions at Sea.
3. During bad visibility the fog signal prescribed by rule 15 of these Regulations.

Ordering a Pilot:

1. Vessels bound for New Rotterdam Waterway should cable, at least four hours in advance, ETA pilot station and draft to:
   (a) Pilotage Hook of Holland via Coastal Station Scheveningen Radio (PCH) or
   (b) Coastal Station Maassluis Radio (Radio Dirkzwager) by VHF Channel 12 (Port operations) or
   (c) Pilot Station Maas at Hook of Holland by VHF Channel 20.

   This ETA notification shall, with due observance of the aforementioned 4 hours period, be rectified if the ETA will be more than 2 hours later than the ETA last reported.

   Without prejudice to this provision the Master shall indicate his requirement for a pilot by displaying the prescribed visual signals when his vessel arrives within visual range of the pilot vessel.

   The ETA message shall contain:
   (a) The words "ETA pilot"
   (b) ETA (group of 4 figures) in Central European Time
   (c) Draft of vessel including unit of measurement (feet or decimetres)
   (d) Port of destination.

   Please note that vessels which do not comply with the abovementioned regulations and fail to state their ETA timely or accurately, may only be provided with a pilot 4 hours after their arrival at the pilot station, provided that other vessels which reported themselves correctly will not be delayed.

2. Vessels bound for Port of Dordrecht should also state their destination, as pilots for Dordrecht embark from pilot cutter on roads.
3. Vessels bound for Europoort should also adopt following procedure:
   (a) Vessels equipped with VHF should notify via Channel 12 or 14 their ETA pilot station at least 1 hour in advance to Maassluis Radio Dirkzwager.
   (b) Vessels not equipped with VHF should cable same information to Europoort Rotterdam via Scheveningen Radio (PCH).

On arrival at pilot station vessels requiring Pilot are to display following signals, separately or together:

1. *By day*, International code signal "G". Pilot flag, viz., vessel's National Flag with white border from foremast.
2. *By night*, Morse signal "G" by flash light. Blue lights at intervals of 15 minutes. A bright white light shown just above bulwark for one minute at short intervals.
3. *During bad visibility*. At least 3 seconds after the normal fog signal the international code signal "G". Pilot vessel will answer: the normal fog signals, followed after at least 3 seconds by international code signal "H" (I have Pilot on board).

Pilotage for deep draft vessels and helicopter Service:

Vessels drawing 57 ft. (SW) and over must make use of the "Eurochannel" between the "Euro One Buoy" and the "Centre Maas Buoy". Pilots are embarked as follows:

up to 57 ft. SW – at the pilot station near the Centre Maas buoy
57 ft.–68 ft. SW – by helicopter:
(a) in rendezvous position 52° N. 03° E.
(b) at the VLCC anchorage off Hook of Holland.

For vessels drawing over 57 ft. (SW) 1.5 times the pilotage tariff Sea – Hook of Holland is applicable.

Helicopter pilotage is regularly carried out for vessels which have an obstacle-free hoisting area on deck of min. 15 ft. in diameter. Deckplans should be provided in advance.

Restrictions:

1. Min. visibility 800 m. at 150 ft. above sea level.
2. Max. wind force 10 (55 kts.).
3. Severe turbulence and icing conditions at or below 150 ft.

Pilot ladders: Whenever the distance from sea level to the point of access to the ship is more than 30 ft. (9 m), access from the pilot ladder to the ship shall be by means of an accommodation ladder or by other equally safe and convenient means.

ANCHORAGES: Recommended anchorages:

1. South of the Maas Centre Buoy
2. Vessels drawing 57 ft. or more at the approximate position 52° 00′ N. 03° 00′ E.
3. Emergency anchorage for deep-draft vessels NW of Maas Centre Buoy.

RESTRICTIONS: *Dangerous Cargoes: (a)* explosive cargoes in quantities of over 1,000 kgs.; *(b)* gas in bulk (Class 2, IMCO); *(c)* poisonous liquids (Class 6, 1 IMCO); *(d)* inflammable liquid with a flash point of less than 56° C., of which the gas may form an explosive mixture with air, and which liquids are not mixable with water. (Class 3, IMCO).

Masters of vessels carrying dangerous cargoes have to report 24 hours and 4 hours prior to arrival at the pilot station respectively one hour before leaving their berth to "Pilotage Hook of Holland" via Scheveningen Radio (PCH) or to "Maassluis Radio Dirkzwager" on VHF Channel 12 (port operations) stating: name and call sign, nationality, g.r.t., draft, the code word IMCO, nature and quantities of the above mentioned substances, the way of packing of the goods mentioned under "a" and vessel's ETA pilot station resp. the expected time of departure from her berth.

Vessels carrying dangerous cargoes should fly flag "B" during daytime or show 2 red lights at night.

Between half an hour and one hour before entering resp. before leaving their berth vessels should also report to "Post Waterweg of the Rijkshavendienst" on VHF Channel 14 stating: name, position and their obligation to show the above mentioned dangerous cargo signals. (Flag B resp. 2 red lights).

Fog: Tankers will not be allowed to manoeuvre in fog, i.e. in visibility of less than 500 metres (1,640 ft.).

Entry times: Depend on prevailing circumstances, as follows:

Europoort:

Ore carriers – Any time.

Tankers:

up to 61 ft. (SW) draft – Any time.
over 61 ft. (SW) draft – 1 hour before until 2 hours after high water at Hook of Holland.

Vulcaanhaven Vlaardingen: Between 33 and 39 ft. at slack high tide only.

Botlek:

(a) Between 31 ft. and 37 ft. any time except between 4 hr. and 1 hr. before high water at Rotterdam.
(b) 38 ft. and 39 ft. at slack low or at slack high water, depending on circumstances.
(c) 39 ft. to 44 ft. only at slack high water.

Vessels with a length over 200 m. (656 ft.) can only enter at slack tide.

Waalhaven:

Same as Botlek, but vessels with a draft of 39 ft. fresh water, which are over 800 ft. in length, must first discharge part cargo in Botlek from where, after draft has been reduced to 37 ft. fresh water, they can be shifted to Waalhaven.

Other basins: Any time.

MAX. SIZE:

Entrance and river area	*Channel width in m.*	*Max. SW draft (High tide)*	*Keel-clearance*
Euro 1 buoy – Euro 5A	600	68 ft.	20%
Euro 1 buoy – Euro 5A	1,200	65 ft.	20%
Euro 5A buoy – Maas centre	600	68 ft.	17.5%
Euro 5A buoy – Maas centre	1,200	65 ft.	17.5%
Maas centre buoy – Entrance	600–400	68 ft.	15%
Entrance – Europoort	400–350	68 ft.	10%
Entrance – Botlek	250	44 ft.	10%
Botlek – Waalhaven	250	40 ft.	10%
Waalhaven – Rijnhaven	200	34 ft.	10%

For vessels drawing over 65 ft. (SW) the "Selship Procedure" (Selected Ship Procedure) will remain in force, which means that special permission to enter the port is required from the Government Harbour Master This procedure is expected to be terminated in the course of 1975, when alternative rules for entering will be issued.

Shifting: Vessels which have been partly discharged at Europoort/Maasvlakte terminals should arrive at the Botlek entrance half an hour before high tide at Rotterdam. The following rules in view of length and draft apply:

Max. length overall	*Max. draft allowed*
up to 259 m. (up to 850 ft.)	44 ft. SW
259–266 m. (850 ft.–875 ft.)	42 ft. SW
266–274 m. (875 ft.–900 ft.)	41 ft. SW
274–305 m. (900 ft.–1,000 ft.)	39 ft. SW

HEALTH: Master has to fill in and sign Maritime Declaration of Health which is handed to him by Pilot. Vessels subject to medical inspection have to hoist flag signal ZV (at night two white lights horizontally placed).

RADIO: Recommended radio station: Scheveningen Radio, call sign PCH, via which station also Agents send messages to vessels.

RADAR/VHF: Chain of seven shore-based radar stations permits navigation during all weather conditions. Radio and radar station Pilot Maas, at Hook of Holland, communicates via VHF Channel 20.

VHF range = about 15 miles.

Radar range = about 14 miles in South-west and West direction, and 10 miles in North direction.

Captains are requested to call this station, especially during bad visibility, well in advance of arrival at pilot station. Pilot Maas provides vessels within range with nautical information and acts as a link with pilot cutters.

Radio and radar station, known as "Rijkshavendienst Waterway", located in Europoort now operates a 24-hour service. It acts as communication post for safety for shipping outside entrance to New Waterway and on Waterway. The station can be contacted by inward bound vessels, but must be contacted by vessels before departure from Europoort by VHF Channel 14, call-sign "RHD Waterway". Station also gives nautical information on situation on New Waterway every half hour via VHF Channel 14 in English.

MEDICAL: All medical facilities available. Advance notice only in emergency or if attendance required during week-end.

TUGS: Tugs normally join vessel on river when nearing the basin where vessel will be accommodated. Vessel's towing lines used. On departure from Europoort the tow ropes, fastened to the stern, must be supplied by the tugs.

BRIDGES: New Waterway connects port of Rotterdam with North Sea, without any locks or bridges. Only to reach some shipyards, situated East of Rotterdam, vessels have to pass the "Maas-Bridges" (Koningshaven), which are on working days opened at regular times

GENERAL CARGO FACILITIES:

	Maximum FW draft at low water	*Cranes No.*	*Cranes Capacity*
Schiehaven	9.0 m.=29 ft. 6 in.	9	5–17.5 tons
Lekhaven	10.0 m.=32 ft. 10 in.	8	5–25 tons
Merwehaven I	10.0 m.=32 ft. 10 in.	8	5–17.5 tons
Merwehaven II	10.0 m.=32 ft. 10 in.	5	3–25 tons
Maashaven	9.0 m.=29 ft. 6 in.	10	5–20 tons
Waalhaven, Pier 1	10.5 m.=34 ft. 6 in.	13	5–25 tons
Prinses Beatrixhaven	10.0 m.=33 ft. 00 in.	9	3–25 tons 4 banana-elevators 80,000–100,000 cartons of 20 kg. per 8 hours.
Waalhaven, Pier 6	11.0 m.=36 ft.00 in.	9	5–30 tons

The 17.5-ton cranes are mainly used for the handling of containers and steel. In combination these cranes can lift 28 tons. 2 floating cranes – max. capacity 5 tons each.

Parkhaven	8.0 m.=26 ft. 3 in.	10	15 tons
Jobskade	8.5 m.=28 ft. 00 in.		
Jobshaven	8.0 m.=26 ft. 3 in.		
Merwehaven II	6.0 m.=19 ft. 8 in.	5	5 tons
	10.0 m.=32 ft. 10 in.		
	8.0 m.=26 ft. 3 in.		

BULK HANDLING FACILITIES:

Key to table.

1. Berth.
2. Length of quay in metres and feet.
3. Maximum draft at MLW (S) salt water, (F) fresh.
4. Equipment.

5. Max. height of discharging gear above high water-level.

S.H.V. Waalhaven Pier 5	1,400/1,600	size of barge.

(*V.O.M. Maasvlakte:* A new bulk-cargo transhipment installation is in operation).

	Quay length	*Max. draft*
seagoing vessels	600 m.=1,968 ft.	69 ft. (SW)
	675 m.=2,214 ft.	53 ft. (SW)
barges	500 m.=1,640 ft.	17 ft. (SW)

However, it must be borne in mind that the maximum draft at the river entrance and Europoort is 65 ft. (SW).

2 cranes: Total max. capacity	6,000 tons of ore per hour.
Total average capacity	3,000 tons of ore per hour.
Maximum outreach	45 m.=148 ft.
Lifting capacity	50 tons.
Grab weight	20 tons.
Storage capacity	1.7 million tons.
Max. gear height above high water	27.5 m.=90 ft.
2 mobile barge loading machines:	
Maximum outreach	20 m.=65 ft. 8 in.
Total maximum capacity	12,000 t.p.h.
2 Stacker/reclaimer combinations:	
Total maximum capacity	6,000 t.p.h.

Conveyor belt system between the discharging section in the Beercanal and the loading section in the Hartelcanal, also for stacking and reclaiming.

SPECIALISED CARGO-HANDLING FACILITIES:
Container vessels:

1. *Prinses Beatrixhaven:* Max. draft 33 ft. (FW).
2. *Prinses Margriethaven:* Max. draft 42 ft. (FW).
3. *Prins Willem Alexanderhaven:* Max. draft 40 ft. (SW). 2 and 3 are operated by E.C.T., capacity 500,000 containers. Length of quay, 3,000 m. Operates 12 container cranes, 4 used exclusively by Sea/land. Also handles roll-on/roll-off vessels.
4. *Waalhaven* (Pier 7): Max. draft 41 ft. (FW). Operated by Unitcentre B.V. operates 4 container cranes. Length of quay 500 m., 800 m. in near future.

L.A.S.H.: Vessels discharge and load at buoys in Waalhaven.

Average permissible draft at buoys 35 ft. (SW). Max. draft at buoys 6 and 12, 40 ft. (SW).

Esso Chemie N.V.: The fertiliser plant in Europoort produces ammonia, urea, nitric acid, calcium ammonium nitrate.

Max. size: 15,000 d.w.t., length 650 ft., draft 34 ft. in S.W. Can accommodate 1 vessel 15,000 d.w.t. and 3, 4,000 d.w.t.

No facilities for discharging dirty ballast at Mobiloil, Chevron/Esso at 5th Petrol Haven and Paktank.

No bunkers (ex-installation) at Mobiloil, Paktank 1st and 2nd Petr. Haven and Matex Europoort.

Maasvlakte: No restrictions on length or beam. On entering tugs are made fast just inside the breakwater. On departure tugs hawsers must be used aft. Max. draft 68 ft. Two berths available. Storage capacity 2.1 million tons. No bunkers available ex-installation. Shore facilities for dirty ballast available.

DENSITY: *Europoort* – At high water 1025; at low water 1022.

Botlek At high water 1014; at low water 1001.

Waalhaven and other basins in the Rotterdam port area: at high water 1004; at low water 1000. All depending upon amount of fresh water carried down river.

STEVEDORES: Normal working hours:

1. *Bulk cargoes except grain:* Monday 0730 – Saturday 1400 hrs. uninterruptedly.

2. *Bulk grain:* Monday–Friday 0730–1130; 1200–1600 hrs. Saturday 0730–1130; 1200–1530 hrs. Nightshifts: Monday–Thursday 1630–2030; 2100–0045 hrs. Friday 1630–2030 hrs.

3. *General cargo:* Monday–Friday dayshifts 0730–1600 hrs. Nightshifts: 1630–0045 hrs.

4. *Oil:* Continuously, including weekends, except the oil storage companies Pakhoed and Nieuwe Matex, which work from Monday till Friday during daytime only, unless overtime arrangements are made.

Agents should be kept closely advised of vessel's position. In view of ordering gangs for next morning/evening Master's final ETA message is required before 1400 hrs. For work on Monday mornings a final ETA is required before Friday 1400 hrs.

OPENING/CLOSING HATCHES: On liners by stevedores. On tramp vessels by crew; stevedores lifting beams.

FRESH WATER: Can be supplied ex quay at many berths. Where no shore connections are available and at buoys: by waterboat.

FUEL: All types of oil bunkers can be supplied by means of barges or ex shore installations for tankers. Coasters can take bunkers ex installation during their inward or outward passage. Advance notice is required for vessels which are only 24 hours or less in port and for bunkering during week-ends.

FIRE PRECAUTIONS: No floating objects are allowed alongside tankers during discharge or loading of dangerous cargoes and during ballasting.

CUSTOMS ALLOWANCES: Spirits: first arrival each month, 5 litres per vessel plus one bottle per man. Otherwise, 0.75 litre per man with a max. of 5 litres per vessel. Wine: 5 litres per man.

Each crew member permitted out of bond 200 cigarettes, or 25 cigars, or 500 gm. tobacco.

DEVELOPMENTS: Maasvlakte: An oil terminal is under construction and partly operational. The first phase of construction consists of 25 tanks, capacity of 120,000 cb.m. each, a jetty for tankers up to 350,000 d.w.t. and a jetty for tankers up to 500,000 d.w.t.

The breakwater has been lengthened by 3 km. at the entrance to the new waterway.

The expected future draft for Maasvlakte is 72 ft. (SW).

A L.N.G.-installation is expected to be operational in 1977; storage capacity 75 million cbm.

The Grain Elevator Company (G.E.M.) plans to start the construction of a transhipment installation in Europoort for bulk carriers of up to 100,000 tons d.w.t.

The expected future draft for Maasvlakte is 72 ft.

GANGWAY/DECK WATCHMEN: Recommended.

CERTIFICATES: Ship's Register and Derating Exemption Certificate.

REPAIRS: Yards of various capacities are available for new building, engineering and all types of repairs.

DRY DOCKS: Largest dry dock for vessels up to 500,000 d.w.t. with tank cleaning installation for largest vessels.

REPATRIATION: All arrangements for crew changes and repatriation can be made.

AIRPORT: Rotterdam airport Zestienhoven (distance 6 km.) and Amsterdam airport Schiphol (distance 70 km.) are served by regular airlines.

TIME: During the whole year GMT plus one hour.

HOLIDAYS: New Year's Day; Easter Monday; Queen's Birthday (30th April); Ascension Day; Whit Monday; Christmas Day (25th December) no work; Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Police head office tel. 14.31.44; Alarm and accidents tel. 14.14.14; Ambulance tel. 13.50.00; Fire tel. 99.

TELEPHONES: At major shipyards, oil and grain terminals telephone is placed on board without extra charge.

DEGASSING/CLEANING: Free translation of circular issued 17th April 1973 by the Docks Industry of the Municipality of Rotterdam, reads: Safety requirements in regard to degassing/cleaning of tanks and/or holds on board ocean tanker vessels.

A recent accident during cleaning activities of tanks having contained combustible gases or liquids, poisonous or not, has resulted in the following directives to maintain the safety and to protect the environment in the dock area.

The articles 55 and 56 of the Port Regulations Rotterdam (Municipal Gazette 1971, No. 3) prescribed a written consent of the Port Superintendent for degassing/cleaning. To obtain such a written consent on behalf of an ocean tanker vessel, the Captain should apply to the Office of the Port Superintendent, Department of Dangereous Substances, at least 24 hours before the actual cleaning. Conditions may be made in respect of, and amongst other things:

(a) safe cleaning procedure, and
(b) presence of an expert.

To that effect an investigation may be held on board as to a safe rinsing procedure, and relevant subjects, in consultation with the ship's management.

A statement may be demanded from the Captain stating whom he charges with the supervision of the activities. From this person expertise is demanded, to the satisfaction of the Port Superintendent. This "Expert" may be a member of the ship's crew, respectively a person to be designated by the Owner (e.g. a laboratory expert). Without the express consent of the Port Superintendent cleaning must not be started.

These measures have become effective at once and are applicable to all ocean tanker vessels, of which the tanks to be cleaned have contained a combustible liquid as its last contents with a flash-point lower than, or equal to, 55° C.

For ships berthed at a shore tank-cleaning station and handled by that company, the cleaning-company concerned shall be liable for a safe treatment and consequently no separate consent shall be required.

In the following summary, the ship's data necessary to obtain a consent has been stated.

The cleaning of tanks, as indicated in this circular, is not permitted without the consent of the Port Superintendent of Rotterdam. Concerning stench-causing substances further directives will be issued.

It will be tried to restrict the delays possibly occurring as a result of this new regulation minimum.

Summary: By "degassing" to be understood: Degassing or ventilating a tankage, steaming or cleaning and the activities related thereto.

Reporting: At least 24 hours before commencement of the cleaning activities the ship (ship's Agent) should make a request by Telex to the Port Superintendent of Rotterdam (Port co-ordinating centre) to obtain a consent pursuant to Art. 55 or 56 Port Regulations Rotterdam. 35 Lloydstraat, Rotterdam. Telex: GEVST 25720.

The following data should be stated when making the application: (1) name ship; (2) nationality; (3) tonnage in g.r.t.; (4) name Agent; (5) berth where cleaning is to be carried out; (6) indication of tanks to be cleaned; (7) correct technical denomination of the last 2 products carried in these tanks; (8) expected time of commencement cleaning; (9) cargo still on board; (10) by whom cleaning will be carried out (ship's own crew respectively name cleaning company); (11) destination slush (remaining on board respectively discharge to . . .).

AUTHORITY: Havenbedrifzj der Gemeente, Rotterdam.

AGENT: Wm. H. Muller & Co's Scheepvaartagenturen B.V., Westerlaan 1 Rotterdam-3002. Tel. 010–36.43.00. Telegrams: "Mineral". Telex 21245 (3 lines).

TERNEUZEN: 51.20 N. 03.49 E. (See Plan)

DOCUMENTS: Also see "Rotterdam". Customs clearance takes place in the docks, except vessels bound for Belgium. Clearing of ships comprises the production of a document signed by the Master, accompanied by the following documents in triplicate: Cargo and Crew Manifest, and Stores List. Masters are requested to have Crew List completed beforehand to avoid delay in the lock.

PILOTAGE: Compulsory for all vessels entering, leaving, and navigating inland waterways. Sea Pilot meets inward vessels at buoy A1, 51° 22.00′ N. 2° 53.24′ E. for ships entering by Wielingen channel; or at Middensteen Bank buoy, 51° 39.30′ N. 3° 19.00′ E. for ships entering by the Oostgat channel.

In Wielingen channel Belgian and Dutch Pilots available. In Oostgat channel a Dutch pilot cutter is stationed. Belgian pilot boat carries at the masthead a red flag with a white letter P, the Dutch pilot boat has a blue flag with a white letter "L". Communicate with pilot cutter by VHF Channel 6.

Warning: In approaches Masters may encounter fishing boats steaming a parallel course about 300 ft. apart. The net is being towed between the two vessels. If there is danger of fouling the net, the fishing vessels will display by day International Code flag D, or by night a searchlight from each vessel.

ANCHORAGE: Vessels anchor outside fairway where depth is at least 49 ft. Mud bottom and good holding ground.

RESTRICTIONS: No restrictions on night entry.

MAX. SIZE: Controlling depth 31 ft. 4 in. Keel clearance 3 ft. 0 in. Height of tide 12 ft. to 15 ft. A vessel of max. draft 40 ft. 6 in. can reach Terneuzen in most circumstances.

Ships not exceeding the following dimensions are allowed to pass through west lock and canal: length 230 m., breadth 31 m., draft in fresh water (canal) 11.75 m.

With special permission: length 245 m., breadth 33 m., draft in fresh water (canal) 12.25 m.

HEALTH: Arriving vessels are only subject to medical examination when arriving from countries where contagious diseases reported or when such cases suspected on board. Medical Officer will board in Terneuzen roads or Outer Harbour.

RADIO: Communicate via Flushing radio Channel 14, 156.70 mHz. 24-hour watch kept. From five minutes past every hour to ten minutes past the hour switch to Channel 16 for traffic list and navigation reports.

Communicate before entering the West outer harbour Terneuzen by VHF Channel 11 (156.55 kHz), 24 hours watch kept.

Each hour a weather bulletin, navigation reports and warnings are given.

TUGS: Towage not compulsory. Tugs can be ordered from Terneuzen tugboat company or Towage and Salvage Union Ltd. respectively by Channel 13, 156.65 mHz, and Channel 3, 156.15 mHz. Stations manned continuously for ordering tugs and general information.

MEDICAL: Two modern hospitals available.

FRESH WATER: Available from water barge.

FUEL: Fuel oil and lubricating oil available from lighter or tanker barge. Bunker coal not available.

GANGWAY/DECK WATCHMEN: Available. Tariff increase 100% on Sundays and holidays.

OPENING/CLOSING HATCHES: Can be effected by crew or stevedores.

CUSTOMS ALLOWANCES: See "Rotterdam".

IDENTIFICATION CARDS: Not required.

REPAIRS: Terneuzen Shipbuilding Yard situated at junction of East and West Canal branches. Able carry out hull and engine repairs. Floating cranes and diving equipment available.

DRY DOCKS: Dry-docking only possible for coasters, length 345 ft. width 39 ft. 6 in., draft 11 ft. 6 in.

TIME: GMT plus one hour.

HOLIDAYS: See "Rotterdam".

SERVICES: Repairs of radio radar, etc., can be effected.

SHORE LEAVE: Allowed.

DEVELOPMENTS: Plans made to widen and deepen Outer Harbour, also extension to southern Canal Harbour and Zevenaardok Harbour.

AGENT: See "Flushing".

VLAARDINGEN: 51.54 N. 04.20 E.

On the Waterway about 5 miles from Rotterdam.

DOCUMENTS: See Rotterdam.

PILOTAGE: Harbour pilots are always available.

TUGS: Available.

BERTHING: *Old harbour (municipal):* For tugs and inland craft. Depth at entrance 10 ft. at LW. Total length of quay 2,000 m.

Koningin Wilhelminaharbour (municipal): Depth 12 to 17 ft. at LW. Length of quay 1,300 m.

Vulcaan harbour (private): Suitable for vessels up to a draft of 10 m. (33 ft.) at LW. Stevedoring by: Frans Swarttouw's Havenbedrijf.

Length of quay for cargo-handling: 750 m. Phosphate loading jetty (on riverside) for barges 140 m. 3 electric 16-ton cranes, 3 electric 6-ton cranes and two 5-ton mobile-cranes. Belt conveyors on phosphate jetty. Large shed with a capacity of 30,000 tons and 6 storage tanks with a total capacity of 90,000 tons for various bulk cargoes.

Nieuwe Matex Wharfs (private): 3 berths for sea-going vessels on riverside up to 35 ft. draft at LW. Several berths for barges and coasters on innerside of jetty up to 22 ft. draft.

Large tank installation; bonded warehouses. 424 storage tanks (total) capacity 450,000 cu.m. for vegetable and mineral oils, molasses, latex and chemicals.

Lever's Soap Company Jetty (private): Jetty 75 m. max. draft 10 ft. at LW. (no harbour dues).

N.V. Van Neerbos Ind. en Handel My. Jetty (private): Length of jetty 70 m., max. draft 10 ft. at LW. 1 electric 3-ton crane.

Royal Shell Jetties (private): 4 jetties, length 25 m. each, with berths for vessels up to 12 ft. draft. Tank installation for mineral oils; 77 tanks, total capacity 412,640 cu.m.

Harbour dues by arrangement.

Windmill Fertilizer Works Harbour (private); Length of harbour 300 m. max., draft 11 to 14 ft. at LW. One jetty on riverside, length 105 m. Max. Draft 16 ft. at LW. Harbour dues by arrangement.

FRESH WATER: Available by barge.

FUEL: Available by barge.

REPAIRS: *Ship Repair Yard "H.V.O."* All kinds of repairs undertaken. Dry dock for vessels of 4,000 and 900 d.w.t. in Koningin Wilhelminaharbour. Broadside slipway of 400 ft. (cap. 3,500 tons) in Vulcaanharbour (Western part). Outfitting quay of 1,100 ft. length.

Machinefabriek Kreber: Builders and repairers of boilers, engines and various kinds of dredgers.

AIRPORT: Rotterdam Airport (designed for international short and medium haul air traffic) lies at a distance of 10 km. from the Vlaardingen port area.

AUTHORITY: Municipal Harbour Master.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Netherlands Antilles

BARCADERA, Aruba: 19.29 N. 70.00 W. (See Plan)

The industrial harbour of Aruba, situated three miles S.E. of Oranjestad.

DOCUMENTS: Documents and all general information, refer to "Orangjestad".

PILOTAGE: Compulsory.

RESTRICTIONS: Harbour open day and night. Depth of water in entrance and throughout harbour is 36 ft. Swinging basin width 1,000 ft.

MAX. SIZE: Up to 12,000 g.r.t.

TUGS: Available.

BERTHING: 1,150 ft. of dockside accommodation.

FRESH WATER: Not available.

FUEL: Can be supplied.

AUTHORITY: See "Oranjestad".

BONAIRE TERMINAL: 12.13 N. 68.23 W. (See Plan)

OPERATORS: Bonaire Petroleum Corporation N.V. Transhipment Terminal receives crude oil shipped from its source in Very Large Crude Carriers (VLCCs). The crude is stored in tanks on shore and reloaded into large and medium range tankers for subsequent unloading at a refinery or other terminal.

LOCATION: The steel jetty is situated on the South coast of the northern portion of the Island of Bonaire in Lat. 12° 13′ 12.9″ N. and Long. 68° 23′ 17.2″ W.

DOCUMENTS:

3 Crew Lists.
1 Stores List.
1 List of personal effects of crew leaving.
1 Medicine and Drugs List.
Health Certificate from last port.

PILOTAGE: Compulsory. The Pilot-Berthing Master will board the vessel at the established arrival point in Lat. 12° 10′ N. and Long. 68° 25′ W., which is 3.6 miles, 208° True from the jetty.

The Pilot will embark from one of the tugs or launches assigned to assist the vessel in the berthing operation. The Pilot will assist the Master in every way possible to manoeuvre the vessel from the arrival point into the berth with the assistance of the 2 tugs and utilizing the services of the 2 mooring launches to run mooring lines from the vessel to the breasting and mooring dolphins.

ANCHORAGE: There is no anchorage area at Bonaire for tankers; therefore, if the berth is occupied, vessels will be appropriately instructed to remain within radio/telephone (VHF Channels 16 and 13) radius pending advice with respect to a clear berth or other advices.

NAVIGATION: Navigable waters surrounding Bonaire Island are clear; however, the coasts of the Island are steep-to and should be avoided. The currents in the offing and off the points of the Island set Westward. On days with little wind a weak current sets to the Westward, generally parallel with the coast from Kralendijk Roads toward Wekoewa Point and parallel to the coast line in way of the jetty. It is urged that reference be made to the British Admiralty South American Pilot Volume V or United States HO Pub. 22 Sailing Directions for the West Indies Volume II or equivalent publication of the Netherlands Government.

Lacre Point, on which a light is shown, is at the Southern extremity of Bonaire. A light is situated on Boca Spelonk, the Eastern mid-point of the Island. Seroe Bentana Light, situated near the Northern extremity of the Island, is visible for approach from the N.E. through N.W. South of 250°/070° on the West side of the Northern end of the Island this light is obscured and then jetty lights and Radio Netherland Towers may be used for bearings.

Prevailing winds are the E.N.E. trade winds.

HAZARD ZONE: *Radio Transmitting Installation:* Vessels approaching Bonaire should remain clear of an area within a radius of 3 nautical miles from the Radio Netherlands Towers situated on the Island of Bonaire in Lat. 12° 13′ N. and Long. 68° 19′ 15″ W. This area is noted as a danger area due to strong radiation from the powerful radio transmitters on shore. Bonaire Terminal is situated sufficiently West of this area to be well clear of any radio radiation influence.

RADIO: When a vessel leaves its loading port, the shipper should advise the date of anticipated arrival at Bonaire. For vessels departing from remote loading ports, the estimated arrival date should be revised at least once each week while the vessel is en route.

A government wireless/telegraph station operates daily from 0700 to 2130 hrs. local time (1100 to 0130 GMT). Vessels bound for Bonaire should route their messages for Bonaire through Curacao Radio (PJC).

Arrival Advice: The Master should advise his estimated time of arrival not less than seventy-two (72) hours in advance, again forty-eight (48) hours in advance and again twenty-four (24) hours prior to arrival, and this last message should be revised if an unusual change in the estimated time of arrival should occur. Wireless telegraph messages of this nature must be sent to the ship's Agent who, in turn, will immediately relay the information to the Terminal management.

The text of any one of the arrival advices should contain the following data in addition to the declared time of arrival:

1. Draft of vessel, fore and aft.
2. Available fittings, i.e. number and diameter of connections at deck manifold system for prompt connecting of two 24 in. and/or two 12 in. steel swivel loading arms.
3. Any conditions which may affect loading or unloading operations.
4. Any unusual condition which may require abnormal attention prior to berthing.

VHF: International VHF Maritime Band Communication should be commenced within a radius of thirty (30) miles from the Terminal, or more, if possible. The Terminal may be called on International VHF Channel 16 (156.800 mHz). When radio/telephone contact with the Terminal has been established, communication should then be shifted to Channel 13 (156.650 mHz).

After initial radio/telephone contact has been established, radio/telephone communication with the Terminal will remain on Channel 13. This will include communication with the two tugs and the two mooring launches on standby, all of which will be available to assist the vessel into the berth.

Mooring, Unmooring VHF Communication: Communication on Channel 13 during the immediate approach and mooring procedure will be confined rigidly to berthing operations which includes all directives from the Berthing Master to the tugs, the mooring launches and the jetty. The only messages which may interfere with these communications will be those caused by an extreme emergency.

After the vessel has been secured in the berth and the Berthing Master has cleared all berthing operations, communication on VHF Channel 13 will be secured and all base VHF receivers will be returned to guard Channel 16 pending an emergency or when the Berthing Master resumes his function for a departing vessel. It is to be noted that hand radio/telephone sets transmit and receive only on Channel 13. The base sets in the terminal office and on each of the tugs and launches is equipped with radio/telephone equipment for transmitting and receiving on Channels 16 and/or 13.

Radio/Telephone UHF (Private Frequency): Communication between the platform and the vessel and the Terminal before, during and after transfer of product will be via portable intrinsically safe, hand carried, radio/telephones on a private UHF frequency.

Radio/Telephone VHF Resume use Departing: When the vessel is ready to depart and the Berthing Master has boarded and resumes his function, VHF radio/telephone communication will again be established on International Maritime Channel 13 between the vessel's bridge, the 2 tugs, the 2 mooring launches and the jetty so that the casting off operation may be properly accomplished.

Radio Telephone – Guard Call Channel 16: After the Berthing Master disembarks and the tugs are dismissed, and the vessel has departed full away, it is expected the vessel will resume a guard watch on Channel 16. The terminal station may be called on Channel 16 and/or 13.

TUGS: Tug assistance is compulsory. Mooring launches are available.

HEALTH: There are no health formalities; however, a health certificate from the last port must be presented to the Agent for submission to local health authority.

CUSTOMS/IMMIGRATION: When the vessel is secure in the berth and the gangway is landed on deck, the Immigration Officer, the Customs Officer and the Agent will board to attend formal entry of the vessel.

Immigration: Two copies of the crew list are to be ready for presentation to the Immigration Officer. Crew members must all be presented for Document check without delay or interruption of vessel's operation. Terminal gate watchmen are required to check all personnel re-entering the terminal. Therefore, appropriate crew passes are to be issued to each Crew member prior to shore leave.

Customs: The Customs Officer will require one crew list, one stores list, one list of personal effects for those crew men leaving the vessel at Bonaire and one list of all medicines and drugs. The Customs Officer with the assistance of the ship's Agent will prepare the Inward Clearance document. This document is to be signed by the Master. Upon completion of the above formalities, the vessel is declared free and shore leave may be granted.

BERTHING: The least depth of water in way of Berth No. 1 is 110 ft. (33.5 m.).

Mooring Facilities: Berth No. 1 consists of an operating platform 132 ft. 10 in. (40.48 m.) long facing the sea and 94 ft. (28.65 m.) wide toward the shore with two 24 in. and two 12 in. swivel jointed steel loading arms for the transfer of petroleum products. The waterfront side of the platform is 22 ft. 3 in. (6.787 m.) inside and away from the ship's side.

Breasting Dolphins: There are 6 breasting dolphins, 4 of which are designed for the vessel to rest against and to which forward and back spring lines are to be secured to heavy quick-release mooring hooks. At each end of the system of breasting dolphins there is one landing dolphin offset to allow a vessel 5° off the parallel line to land against the berth system. These are noted "a" for the offset dolphin and the main dolphin is noted "b". The dolphins are numbered from No. BD1a and BD1b in the west and through BD2, BD3 and BD4b and BD4a to the east. The centre line of the berthing facility is 17 ft. 5 in. (5.3 m.) East of the centre line of the operating platform. This point is well marked on the seaward panel of the platform with a 4 in. wide white reflecting vertical stripe. BD2 and BD3 are each 135 ft. (41.148 m.) West and East of this white vertical stripe. BD1b and BD4b are each 80 ft. (24.384 m.) further West and East respectively, from BD2 and BD3.

Mooring Dolphins: Inshore 215 ft. (65.532 m.) perpendicular from the berthing line are 6 mooring dolphins. These dolphins are numbered from MD1 In the West to MD6 in the East MD3 and MD4 are each 350 ft. (106.680 m.) West and East from the centre line of the mooring structure system noted by the white vertical stripe on the seaward face of the operating platform. MD2 and MD5 are each 250 ft. (76.200 m.) West and East respectively, from MD3 and MD4. MD1 and MD6 are each again 250 ft. (76.200 m.) West and East respectively, from MD2 and MD5.

Capstans: On each of the breasting and mooring dolphins there is a small capstan with sufficient power to heave up on to the deck of the dolphin a ship's mooring line for securing to the heavy quick-release hooks.

Mooring Lines: Prior to coming alongside, the vessel must have all mooring lines on station and available on that side which will be to the berth. Bearing in mind that the product transfer is via steel swivel loading arms, it is imperative that the forward and back spring lines be adequate to maintain a minimum fore and aft motion of the vessel to remain within the limitation of the envelope of the loading arms.

Spring Lines – Breasting Lines: The first lines lead out will be the forward and back springs after which the forward and after breasting lines lead to the appropriate mooring dolphins, and then the bow and stern lines lead to the appropriate mooring dolphins. The procedure may be altered in accord with physical equipment on the ship, weather and sea conditions, along with other circumstances, all subject to the Berthing Master's requirements and combined approval of the Master and terminal management.

Mixed Mooring Lines Prohibited: Mixed moorings are prohibited, i.e. a wire and a fibre rope in parallel service is undesirable due to unequal elasticity. All mooring lines must be so arranged that loss of effect cannot occur when slacking off or heaving in one line, as required, due to the rise or lowering of the vessel during discharge or loading of cargo.

Mooring Machinery – Deck Winches: All deck machinery used for the heaving in and control of mooring lines must be operable. A vessel having deck machinery in poor state of maintenance to that point where mooring lines cannot be hove tight or brakes that tend to slip under tension will be sufficient reason to require consideration of terminal management to refuse connecting of the steel loading arms, or if same are already connected and the mooring lines become insecure, all transfer of product will be stopped and the steel loading arms disconnected pending correction of the mooring situation.

Surge-Tension Controls Prohibited: Wire mooring lines not on winch drums are not to be-used for spring lines. Mooring wires secured on surge and tension controlled winches are prohibited. All mooring lines must be secured positively, i.e. on winch drums with the brake properly drawn tight or properly secured on bitts.

Power to Deck Machinery: At no time during the period the vessel is in berth is the power to operate deck machinery to be shut off.

Motion of Vessel in Berth: The vessel, while loading arms are connected, must not be permitted any motion alongside or away from its proper position in berth.

Surveillance of Mooring Lines: Mooring lines must remain under constant surveillance during unloading and loading operations. Failure to ease tension on mooring lines during unloading or failure to maintain proper tension on mooring lines while loading will be sufficient reason to stop transfer of product.

Fire Warp – Emergency Towing Wire: After the vessel is all fast fore and aft, an emergency wire of suitable quality and strength to tow the vessel should be positioned on the offshore bow and the after offshore quarter of the ship. This towing wire should be so secured that the eye may be readily picked up by a towing vessel. It is required that the length of the wire hawser should be not less than one-half again that of the highest freeboard of the vessel at the point of its location on the ship where the ship end is well fast on bitts.

EMERGENCY SIGNAL: In the event of any form of emergency such as fire, bursting of transfer piping, overflow of vessel's cargo tank, etc., the Operating Platform emergency signal will be an intermittent signal on the general alarm system for not less than 15 seconds.

The vessel will use its own emergency signals in the event of any emergency on board. To coordinate any emergency procedure, the personnel on the Operating Platform must be advised of the vessel's emergency signals.

In the event of any emergency either on board the vessel or the operating platform all oil transfer must be stopped and all oil transfer valves closed.

LOADING: *Electric Bond – Earthing:* Prior to manoeuvring the loading/unloading steel mechanical loading arms toward the vessel from the Operating Platform, the electric bond wire must be connected to a clean metal contact on the vessel's oil cargo transfer system.

The electric bond wire shall not be disconnected until the loading/unloading mechanical arms have been disconnected and manoeuvred well clear of the vessel.

The flame proof switch on the jetty will remain open until the electric bond wire has been connected to the ship. Prior to disconnecting the electric bond wire from the ship, the flame proof switch on the jetty will have been opened.

Connection to Oil Transfer Piping Systems: In the berth there are two 24 in. and two 12 in. steel pipe swivel jointed loading/unloading arms. This equipment is entirely controlled from the deck of the Operating Platform. Connection of the fittings requires clean flat faced flanges on the vessel's oil transfer piping deck manifold, using a proper gasket, to ensure a secure tight connection.

Cargo and Ballast Transfer: Before transfer of cargo or ballast may be started, the Chief Officer and the Terminal Representative will ensure that all necessary controls and safety measures have been attended. A Declaration of Inspection is to be signed by a responsible Ship's Officer and the Terminal representative certifying that all precautionary measures have been taken, that all equipment used in the transfer operation is in proper order and that all concerned are in agreement on the proper procedure of the operation.

Discharge of Cargo: Upon advice from the Terminal Marine Supervisor to the Ship's Officer in charge that oil transfer may be started, the Officer will arrange for the initial flow to be slow with sufficient pressure to permit inspection of all transfer piping and connections for any leakage. When the terminal personnel advise they are receiving product, the flow may be increased to the rate agreed upon.

Completion of Cargo Discharge: After all cargo tanks have been drained and the pumps have lost suction and the discharge of cargo has been declared finished, the flow of product will have stopped. With the agreement between the Ship's Officer and the Terminal Marine Supervisor, the oil transfer valves on the Operating Platform will be closed. All product remaining in the unloading arms will be drained back into the vessel. If the vessel's pipe-line system does not allow the complete draining of the arm into a container or via a drain hose led into a cargo tank. *No product will be permitted to drain out onto the open deck of the vessel!* After the arms have been completely drained, they may be disconnected and the ends blanked off to prevent any drippage of oil.

Loading of Cargo: Upon advice from the Ship's Officer in charge that oil transfer may be started, the Terminal Marine Supervisor will arrange for the initial flow of product into the vessel. When the Ship's Officer advises that he is satisfied that product is flowing in accord with the loading programme, he will advise the terminal personnel and the flow will be increased to the rate agreed upon.

Communication, Audible, Visual: Constant contact with the personnel on the Operating Platform during the topping off procedure is mandatory! The rate of flow of product is to be adjusted to that point where complete control is constant and that in the event of an emergency immediate shut down will not create any pressure surge on the shore transfer piping.

Topping Off of Cargo Tanks: Every precaution must be observed to avoid over-filling of any tank or causing any listing of the vessel. Observance of the trim by the stern shall be constant to avoid any undue strain upon the vessel's longitudinal structure. The cargo tanks and pipe-lines thereto on most tankers are segregated into groups. One tank in each group should be selected for the overflow relief tank by maintaining the level of liquid considerably lower than the other filling tanks to permit prompt relief of that tank reaching an overfilled level.

Completion of Loading: After all cargo has been loaded all product remaining in the loading arms will be drained into the vessel. If the vessel's pipe-line system does not permit complete draining of the loading arms, then arrangements must be made to drain the arm into a container or via a drain hose led into a cargo tank. *No product will be permitted to drain out onto the open deck of the vessel!* After the arms have been drained they may be disconnected and the ends blanked off to prevent any drippage of oil.

BALLAST: *Ballast Loading:* Should the vessel have permanent ballast tanks with entirely separate pipe-lines and ballast transfer system sea water ballast may be loaded in accord with the Master's requirements.

Sea water ballast is not to be loaded into any cargo tanks or through any oil transfer system while there is any cargo on board the vessel. In the event of an emergency, special arrangements must be agreed upon with the terminal management for the loading of ballast into any cargo tanks before all of the cargo has been completely discharged.

The vessel's Senior Officer in charge will personally supervise the arrangement of the pumproom system for the ballasting operation. The Public Cargo Inspector will accompany the Officer into the pumproom to break the seals on the sea suction valves.

No sea suction valve may be opened until all down coming pipe-lines have been drained and are completely free of product and the down coming valve closed. In most instances the pumps should be operating just prior to opening the sea suction valve.

Ballast loading will be under the entire control of the ship's personnel and it is expected that all normal loading precautions will be observed.

Deballasting: En route to Bonaire the vessel should have thoroughly cleaned certain appropriate tanks for the containment of clean ballast for discharge overboard. Only dirty ballast (oil contaminated sea water) and tank cleaning slops are to be discharged into the terminal's ballast receiving system.

Ballast, Oily Water, Discharge: Under no circumstances will dirty ballast water be discharged overboard within a radius of 50 miles from any Netherlands Antilles Island.

Ballast Discharge to Shore; The quantity of ballast to be discharged into the terminal will be measured prior to commencement of discharge. After the steel loading arm to be used has been connected to the ship's manifold, the discharge of ballast water will be accomplished in the same manner as the discharge of cargo.

Tank Bottoms and Slops: Upon completion of the deballasting operation, all of the vessel's tanks will be inspected and approved for the reception of cargo. The sea suction valves will then be sealed in the closed position by the public inspector or by a Bonaire Petroleum Corporation N.V. representative. Any bottoms and slops remaining must have the approval of terminal management prior to "loading on top".

MEDICAL: Modern facilities are available for medical and dental treatment. A "Medical Service Request" form must be signed by the Master for crew members requiring medical or dental attention.

In the case of crew members having to be left behind at Bonaire for hospitalization or otherwise, Master must sign authorization guaranteeing expense of attention rendered and repatriation.

FUEL: Bunkers for steam propelled tankers are contemplated. Bunkers may be arranged through the ship's Agent and may be delivered to the vessel at Curacao or Aruba.

Bunker Transfer: During the period of time the vessel is in berth, the transfer of bunkers from one tank to another is prohibited. All bunkers to be consumed while in port must be available in that tank from which bunkers are normally consumed.

FRESH WATER: Fresh water on Bonaire is desalinized sea water and the supply is minimal. Small quantities may be supplied upon advance notice.

REPAIRS: There are no repair facilities on the Island of Bonaire. Upon sufficient advance notice, special service personnel and minor mechanical repair work may be arranged from Curacao. Transportation for such service personnel is via scheduled airline.

POLICE/AMBULANCE/FIRE: Tel. 8000.

CARGO INSPECTION: Along with the Government Boarding Officers the representative of the petroleum inspecting organization mutually engaged by the Shipper and Bonaire Petroleum Corporation N.V. will board the vessel for the purpose of gauging the cargo tanks, obtaining the temperature of the cargo and obtaining required samples. His function is to protect the interest of the vessel as well as the Shipper and the consignee. Every assistance is to be rendered to expedite his function on board the vessel. An Officer should accompany the Inspector while on board and should assist by making available all information requested such as cargo tank calibration tables, etc. Cargo transfer may not be commenced without the approval of the Inspector.

Completion of Discharge of Cargo – Inspection: Upon completion of discharge of the cargo, the Inspector will examine all of the cargo tanks and will sign the tank inspection certificate.

Loading Cargo, Inspection: In the case of a vessel arriving to load cargo, the Inspector will examine all of the cargo tanks to determine the condition of the cargo tanks for reception of the cargo. Upon completion of loading all of the cargo, the Inspector will gauge the cargo tanks, take temperatures and samples as required.

Incomplete or Part Cargo: In the event the vessel does not complete the discharge of cargo, or does not load a full cargo, the Inspector will board the vessel to gauge the cargo tanks to record the amount of cargo in the vessel after transfer operations have been completed.

Cargo Pumproom Sea Suctions: Prior to loading or unloading the Public Inspector will certify that the sea suction valves connected to the vessel's oil transfer system are closed, lashed and sealed. *Do not lock these valves under any circumstances.* These valves are to be sealed in the *Closed* position and sufficiently lashed so they may not open due to vibration or any other reason.

STORES/PROVISIONS/LAUNDRY: All stores and provisions are imported into the Island of Bonaire; however, small quantities of provisions may be obtained. There are no deck and engine stores available. Upon sufficient advance notice, small items not available on Bonaire may be obtained from Curacao.

Laundry service in small quantities may be arranged for through the ship's Agent.

BULLEN BAY, Curacao: 12.11 N. 69.01 W.

(See Plan)

Bullen Bay is an open bay on the South coast of Curacao, 8 miles N.W. of Willemstad.

DOCUMENTS: Documents and all General information, refer to "Willemstad".

PILOTAGE: There is a resident Pilot at the bay. Pilotage is compulsory and is rendered day and night.

ANCHORAGE: There is no anchorage in the bay.

MAX. SIZE: 500,000 d.w.t. on full draft LOA 1,350 ft.

TUGS: Compulsory. 2 tugs of 4,500 h.p. with 50 tons bollard pull. One tug of 2,500 h.p. with 35 tons bollard pull.

BERTHING: *Curacao Oil Terminal:* Curacao Oil Terminal (COT) located at Bullen Bay facilitates economical trans-shipment of Eastern hemisphere crude arriving in very large crude carriers (VLCC's) for storage and on-carriage in smaller ships to draft restricted U.S. ports.

Jetties:

1 – 500,000 d.w.t. tanker jetty
1 – 350,000 d.w.t. tanker jetty
1 – 250,000 d.w.t. tanker jetty
2 – 100,000 d.w.t. tanker jetties
1 – 70,000 d.w.t. tanker jetty
2 – Tugboat jetties

Total tank capacity: 17,750,000 barrels

1 – 1,000,000 barrels capacity	– 1,000,000
16 – 750,000 barrels capacity	– 12,000,000
6 – 375,000 barrels capacity	– 2,250,000
38 – small tanks capacity	– 2,500,000

Pipe-lines: Main track consists of 5 strings of 36 in. pipe. The jetties carry 2 strings of 36 in. pipe in a loop. The loading rate is up to 12,000 t.p.h. Tankers' discharge rate is up to 25,000 t.p.h.

Deballasting: Capacity 4,000 t.p.h. per jetty. Ballast treatment produces affluent of less than 20 parts per million (20 ppm) oil content.

Throughput:

Transhipment	1,200,000 barrels per day
Refinery import	250,000 barrels per day

Operators: Curacao Oil Terminal NV, PO Box 660, Willemstad, Curacao, Netherlands Antilles. Telex No. Curacao 1175.

FRESH WATER: Fresh water available at the piers.

FUEL: Bunker facilities for all grades are available at a rate of 3,800 barrels per hour.

AUTHORITY: Harbour Master of Curacao.

CARACAS BAY, Curacao: 12.04 N. 68.52 W.

Caracas Bay is an open bay on the South coast of Curacao, 6 miles S.E. of Willemstad. This port, mainly used by tankers, bunker ships and big passenger liners, is specially fitted as an oil terminal.

DOCUMENTS: Documents and all general informations, refer to "Willemstad".

PILOTAGE: There is a resident Pilot at the bay. Pilot service is compulsory and rendered day and night.

ANCHORAGE: There is no anchorage in the bay.

MAX. SIZE: Vessels with a max. overall length of 1,050 ft. and max. draft of 47 ft. can be accommodated.

TUGS: Tugboats operate from Willemstad. A tug is automatically provided for vessels exceeding 16,000 g.r.t. or 700 ft. length. For smaller vessels it is recommended that if a tug is required it be ordered in advance from Willemstad, otherwise there will be a wait of about one hour.

BERTHING: Two piers owned by "Shell Curacao Ltd." are built at the East side of the bay, naturally protected from prevailing wind and sea, with depths up to 47 ft. alongside. Vessels dock directly with their port-side along the piers. Pier No. 2, with a depth alongside of 47 ft., and pier No. 3, with a depth alongside of 47 ft., are newly built concrete piers/quays, modern and equipped for handling oil in bulk, with enough platform to serve also as passenger terminal. The biggest cruise ships moor along these piers regularly.

The oil is transported through pipe-lines from the refinery at Willemstad to the storage tanks at Caracas Bay. Two ships can bunker simultaneously. New electrically-driven centrifugal pumps, metering and blending equipment at the bay stand for efficiency to reduce bunkering time. Subject only to the capacity of ships receiving connections, loading rates up to 2,000 t.p.h. of bunker oil can readily be achieved.

FUEL: The piers are built as oil piers, modern and equipped to supply any kind of bunker or lubricating oil to any vessel.

FRESH WATER: Fresh water can be obtained via pipe-line on the wharves.

STEVEDORES: Lighters and longshoremen are supplied from Willemstad.

REPAIRS: Small repairs can be done at the bay through working barges alongside.

GENERAL: Clearance, port administration, port charges and regulations are the same as at Willemstad.

AUTHORITY: Harbour Master, Curacao.

FUIKBAY, Curacao: 12.03 N. 68.50 W.

Fuikbay, on the South coast of Curacao, 7 miles South-east of Willemstad, is an inland bay with a 147 ft. wide navigable entrance. The depth of this harbour is 26 ft.

DOCUMENTS: Documents and general information, refer to "Willemstad".

PILOTAGE: Pilotage is compulsory.

RESTRICTIONS: As a rule vessels only enter this port during daylight. Sailing can take place day and night.

ANCHORAGE: There is an anchorage area in the West side of the bay.

MAX. SIZE: Vessels can enter and leave with a max. draft of 24 ft. and a max. length of 360 ft.

BERTHING: This bay is mainly used as a loading terminal of the "Mining Company Curacao" for export of phosphate rock mined out of the "Tafelberg". There is one berth under the conveyor which transports the phosphate rocks from shore into the holds of the vessel alongside. Depth alongside is 28 ft. There is also a 84 ft. berth available for handling explosives or other cargo, usually named Westwerf. Only small vessels with a max. draft of 8.25 ft. can come alongside. Vessels with more draft can moor with the help of floats between ship and quay.

The piers are privately owned by "Mining Company Curacao" situated on private territory of this company.

FUEL: This port has no bunker facilities, so vessels bound for this port must take bunkers in Caracasbay or Willemstad before or after calling at this port if bunkers are desired.

GENERAL: Other services such as tugboats, repairs, power, etc. are rendered from Willemstad. 5-ton mobile crane available.

AUTHORITY: Harbour Master, Curacao.

KRALENDIJK, Bonaire: 12.15 N. 68.20 W. (See Plan)

DOCUMENTS:

	Customs	*Immigration*	*Agent*
Passenger list	1	1	1
Crew list	1	1	1
Personal effects list of crew	1		
Store list	1		
Curio list	1		

PILOTAGE: Pilot service is compulsory.

ANCHORAGES: Unlimited. Depth 30 ft. and over.

RESTRICTIONS: Notify the Agent at least 24 hrs. in advance. No tide.

MAX.SIZE: Length 1,050 ft., also see "Berthing".

INWARD CLEARANCE: Inward clearance is effected on board immediately on docking. Immigration Officer arrives on board immediately after docking. Passengers disembarking at Bonaire must present themselves for documents check.

Customs Officer boards immediately after docking and together with a representative of the Agency's Shipping Department the inward clearance document of the vessel (in ballast or with cargo in transit, as the case may be) is prepared and signed. This document must be signed by the Master. Occasionally the Customs Officer may insist that the Master sign in his presence. Only upon completion of the above formalities, usually carried out in a very short time, is the vessel declared free and passengers and crew may go ashore. It is recommended that one of the public rooms be made available for the purpose of inward clearance in order to avoid congestion in the purser's office.

HEALTH: No health formalities.

RADIO STATION: A Government Radio Station operates daily from 0700 to 2400 hrs. In case of emergency Bonaire Radio can be contacted by telephone. Vessels bound for Bonaire should route their messages for Bonaire through Curacao Radio (PJC). The Government Radio and Telephone Station maintains daily telephonic communication with Curacao, also with the United States, Europe, etc.

TUGS: Two 4,300 h.p. tugs are available. The Agent should be notified in advance if a tug is required, in order to make the necessary arrangements with the Petroleum Company.

BERTHING:

North Pier:

Berthing space	225 ft.
Depth	34 ft. alongside at LW
Height	6 ft.

Max. permitted load factor on pier is 2,000 kilos per sq. m.

Vessels of max. 30,000 g.r.t. or a max. length of 738 ft. are allowed to berth alongside.

Southern Pier:

Length	394 ft.
Width	46 ft.
Depth	50 ft.alongside
Height	6 ft.
Length of connecting bridge from shore to pier	199 ft.
Width of connecting bridge from shore to pier	68 ft.

Mooring facilities:

A: Double Mampaey easy-release electrical capstans (100 tons each)
B: Two (2) bollards 50 tons each
C: Double Mampaey easy-release electrical capstans (100 tons each)
D: Bollards of 50; 25 and 10 tons (every 20 m.)

Fendering: Vredestein Gigant Fenders; Block fenders and D-fenders (made of rubber).

Roll-on/roll-off Facilities: Vessels of max. 66,000 g.r.t. or a max. length of 1,050 ft. are allowed to berth alongside.

Max. permitted load factor on pier is 2,000 kilos per sq. m.

For the mooring and unmooring at the pier shore labourers are engaged by Agents at the expense of the shipping line. Motor-boats are available for running lines.

CARGO HANDLING: About 5 miles South of Kralendijk there is a special pier for bulk handling of salt.

STEVEDORES: There are no regular stevedores (longshoremen) available in Bonaire. For cargo handling operations ordinary labourers are engaged by the Agents for account and risk of the ship.

Working Hours: Monday-Friday 0700-1200 hrs. and 1300-1600 hrs. Overtime possible.

MEDICAL: Modern facilities are available for medical and dental treatment. A "Medical Service Request" form must be signed by the Master or other authorised officer for crew members requiring medical or dental treatment. In case of crew members having to be left behind at Bonaire for hospitalisation or otherwise, Master must sign an authorisation guaranteeing expense of treatment and repatriation.

FRESH WATER: Limited quantities of fresh water from the Government Water distillation and power plant can be supplied at the pier.

BUNKERS: On advance request, bunkers are delivered by craft at rates comparable to those in Curacao or Aruba.

GANGWAY/DECK WATCHMEN: Watchmen are not necessary but recommended; Overtime as usual.

OPENING/CLOSING HATCHES: This work is normally carried out by crew.

IDENTIFICATION CARDS: Passengers. No landing cards required, but some ships carrying a large number of passengers furnish landing cards to passengers for their own control of passengers returning on board. Crew. No landing cards required.

REPAIRS: There are no facilities for carrying out major repairs.

HOLIDAYS: The following are the official holidays observed in Bonaire: New Year's Day (Jan. 1st); Good Friday; Easter Monday; Queen's Birthday (April 30th); Labour Day (May 1st); Ascension Day; Whit Monday; Kingdom Day (December 15th); Christmas Day (December 25th); Second Christmas Day (December 26th). Religious holidays: August 15th (Assumption Day); November 1st (All Saint's Day).

TIME: 4 hours. slow of GMT. No summer time kept.

AIR SERVICES: There is a good daily airplane service between Bonaire and Curacao. 3 or 4 flights a day with good connections at Curacao with the international services to and from many parts of the world.

CUSTOM OFFICERS ON BOARD: 1 or 2 Customs Officers will remain on board during the vessel's stay in port. Such officer(s) must be furnished meals at regular meal hours.

TELEPHONES: Telephone connection can be placed on board ships at the pier.

POLICE/AMBULANCE/FIRE: Police, tel. 8000; Ambulance, 8000; Fire, Tel. 8000.

GENERAL:

Live Animals: The importation of dogs, cats, horses and certain other animals is permitted, provided these animals are accompanied by a certificate issued at place of origin by a licensed Veterinarian, stating that the animal in question is free from any contagious disease.

Dogs must have, in addition, a certificate of Rabies Inoculation. All animals imported (including birds) will moreover be examined on arrival.

Prohibited Imports: The importation of the following is strictly prohibited: Parrots and parakeets, absinth, explosives, firearms, ammunition and firework, except with prior permission from local authorities. All kinds of narcotics and drugs, the sale and use of which is regulated by International Conventions, except for legitimate use by and for sale to drugstores by duly accredited importers. Unauthorised reprints of copyrighted scientific and literary works cf art. Copper, bronze and nickel coins, except for account of the Government of the Netherlands Antilles. Obscene printed matter.

Immigration Law: All passengers disembarking in Bonaire as temporary visitors, for business purposes, on vacation, or in transit to other destination, must be in possession of:

(a) Valid passport/birth certificate.
(b) One passport photograph.
(c) Smallpox vaccination certificate, not over 3 years old.
(d) A return ticket, through ticket or passenger-order to next destination outside of the territory of the Netherlands Antilles.
(e) All documents and visas necessary for continuing to next destination or return to place of origin.
(f) Sufficient means to be able to support themselves during their stay in the territory.

No visa is required from a Netherlands Consul on any of the aforementioned documents.

AUTHORITY: Harbour Master, appointed by the Island Government of Bonaire.

ORANJESTAD, Aruba: 12.31 N. 70.02 W. (See Plan)

DOCUMENTS:

Clearance from last port.
Deratisation Exemption Certificate.
Ship's Register.
Manifest of Cargo (or ballast), or Bills of Lading for import goods and transit goods separately.
Crew List (4 copies).
List of Stores on Board (2 copies).
Consignee Mail (if cargo for discharge).
Passenger List (if any passengers).

The passenger list must carry full names, ages, sex, nationality and occupation of passengers landing at Aruba. The ultimate destination of in-transit passengers must also be shown on the passenger list.

Deratisation Exemption Certificates can be renewed at Oranjestad, Barcadera and St. Nicholas.

Outward clearance, cargo documents and list of outgoing passengers are delivered on board by the Agent's representative, thereby making it unnecessary for Masters to visit the Customs Office to obtain outward clearance.

PILOTAGE: Masters are requested to advise Agents of their expected time of arrival at least 48 hours in advance. Arrival messages should include advice regarding cash or other requirements. This information is particularly necessary in order to give prompt attention to vessel's requirements and to avoid delay after arrival.

Pilots are government employees and pilotage is compulsory for vessels from 50 g.r.t. upward entering or leaving the harbour. Pilots board inbound vessels within 2 miles of shore. The Agent's representative will arrange for Pilots to board vessels as necessary. Inbound vessels should close the West entrance of the harbour as near as prudently possible and make a lee to facilitate the Pilot's boarding.

Every vessel arriving or departing must provide and properly secure a pilot ladder which conforms with the standards of construction normally accepted by international safety standards. Failure to provide such a ladder may result in the Pilot's refusal to board a vessel.

ANCHORAGE: Anchorages, suitable even for deepest draft vessels, are located outside the protecting reef along the whole length of the Western and S.W. coast. The depth of water ranges from 10 to 35 fathoms. Because of the sharply shelving nature of the bottom in this area, it is recommended that the services of a Pilot be obtained in taking up an anchorage. Ships are anchored only during daylight hours.

TUGS: A tugboat of 1,000 h.p. is available for assisting vessels to and from the docks. The tug-boat is fitted out with radio-telephone which is open on 2182 mc. while tug is in operation.

MINIMUM DRAFTS: For tankers arriving or sailing in ballast the following minimum drafts are required for manoeuvring under normal weather conditions:

G.R.T.	*Forward*	*Aft.*
16,600 (T-2)	8 ft.	18 ft.
18,000	8 ft.	18 ft.
27,000-30,000	10 ft.	20 ft.
30,000-36,000	14 ft.	22 ft.
37,000	14 ft.	24 ft.
46,000	16 ft.	26 ft.

MAX. SIZE: The harbour itself has a depth of 36 ft. at MLW. The safe salt water draft approved for entering and leaving is 33 ft. Vessels normally enter via the West channel and depart via the East channel.

HEALTH: The port doctor will visit an arriving ship only if there is a case of quarantinable disease on board, if the ship has no clean bill of health or if one of the preceding ports of call has been declared to harbour a quarantinable disease. The Netherland Antilles bill of health is free of charge.

RADIO: Shore station for R/T communication with 24-hour service. VHF Channel 16, 156.80 mHz (calling); Channel 11, 156.55 kHz (working channel).

HF 2182 kHz, 2558 kHz (working frequency transmitter), 2158 kHz (receiving frequency SSB).

BERTHING: In total there are 4,070 ft. of dock length available to accommodate ocean-going vessels and 1,090 ft. of dock for small craft, of which:

1,720 ft. with 36 ft. of water alongside
2,350 ,, ,, 34 ,, ,, ,, ,,
460 ,, ,, 16 ,, ,, ,, ,,
230 ,, ,, 10 ,, ,, ,, ,,
400 ,, ,, 6 ,, ,, ,, ,,

STEVEDORES: Stevedoring is performed at a fairly fast rate compared with other ports in the Caribbean area. All cargo has to be handled with ship's tackle, while on the docks and in the warehouses fork-lift trucks are used for transportation of merchandise. General cargo is handled at an average of 8 tons per gang per hour.

MEDICAL: Excellent medical and dental attention is available at any hour of the day or night to crew members of all vessels.

FRESH WATER: Boiler and drinking water of purest quality is supplied by hose from the docks at a rate of 200 t.p.h. (in special cases 400 t.p.h.).

FUEL: The port of Oranjestad is an official Esso bunker station. All grades of bunker fuels can be supplied from shore tanks at a rate of 1,500 barrels an hour. A minimum of 48 hours advance notice is required.

REPAIRS: There are no facilities at Aruba for major ship repairs. Local workshops can do repairs of minor nature. Preliminary advice regarding such minor repairs should be included in ETA messages and work requisitions for repairs should be prepared for handing to the Agent's representative immediately upon arrival.

Radar, radio and gyro repairs can be carried out. However, it is important that Masters radio in their requirements as early as possible and give a brief reference as to the nature of the breakdown or fault of the equipment concerned.

While alongside vessels must be prepared to move at 1 hour's notice. Engine repairs to the effect of demobilizing the vessel may only be carried out with special permission.

SURVEYORS: Representatives of the American Bureau of Shipping, the Lloyd's Register of Shipping and the Norske Veritas are resident in the area. Masters may request the surveyors' services through the Agent.

BALLAST: Vessels must arrive with sufficient ballast to permit safe handling. All vessels should enter port with clean ballast that can be pumped over board when alongside, as it is prohibited to pump dirty ballast into the harbour.

GANGWAY/DECK WATCHMEN: An efficient and continous watch must be maintained on deck and in the engine-room of all ships while in port, and a sufficient number of men must be on board at all times to move vessels either for harbour operations purposes or in emergency situations.

OPENING/CLOSING HATCHES: This work is normally carried out by the crew.

AIRPORT: The port of Oranjestad – the commercial and tourist harbour of Aruba – is only 5 miles by road from the jet airport. The connection by air with the U.S.A. and Europe are very good and rather frequent (TCA, KLM, VIASA); other airlines operating in Aruba are: ALM, LAV, Aerocondor, and Caribbair.

POLICE/AMBULANCE/FIRE: Police, Oranjestad, tel. 1000; Ambulance, Oranjestad, tel. 2010/1234; Fire Alarm, tel. 00.

CONSULS: The following countries have consular representatives at Aruba:

Brazil
Chile
Colombia
Costa Rica
Denmark
Dominican Republic
Great Britain
Guatemala
Haiti
Italy
Lebanon
Liberia
Nicaragua
Norway
Panama
Peru
Portugal
San Salvador
Spain
Sweden
Switzerland
Venezuela
West Germany

Necessary for Masters of Panamanian and Italian flag vessels to visit Consulates at Oranjestad to present documents and receive despatches. Other Consulates have similar requirements. Masters may check with Agent for clarification.

DEVELOPMENTS: Landing stage for roll-on/roll-off vessels with depth alongside 33 ft. under construction near Harbour Office.

TIME: Local time is 4 hours slow of GMT. Vessels are requested to use local time in ETA messages and when dealing with their Agents.

CUSTOMS GUARDS: Local authorities assign 1 or more Customs guards to each vessel during its stay in port; the charges for guarding are for the account of the vessel. These officials must be provided with meals on board at regular meal hours.

SHORE LEAVE: Under normal circumstances no restrictions are imposed by the Government Immigration Authorities on shore liberty. Masters are requested to endeavour to have all crew members on board prior to departure time, so that the ship will have no delay in sailing.

AUTHORITY: Eilandgebied Aruba, Haven en Loods Dienst.

PHILIPSBURG, St. Maarten: 18.05 N. 63.10 W.

Philipsburg, capital of Netherlands St. Maarten, lies in a well-protected bay in the S.E. corner of the island. The only obstruction to the harbour is "Proselyte Reef" or "Man-of-War-Shoals", located 17' 56" N. 63' 04" W., with a min. depth of 2.5 fathoms. Entrance to the harbour can be accomplished by passing either to the North or the East of this reef.

DOCUMENTS:

Crew List: Immigration 1 copy.
Agent 1 copy.
Passenger List: Immigration 1 copy.
Agent 1 copy.
Store List: None required.
Ship's Register: Pilot will require to see this document for obtaining the official tonnage.

Note: No special form is prescribed for the above documents, consequently these may be made out in Company's regular form. No consular visa required on any of the above documents.

Immigration: Immigration officer boards ship immediately after docking. Passengers and crew are usually free to disembark immediately after boarding.

Agency Personnel: Agency personnel boards immediately after vessel is docked together with Immigration Officer.

PILOTAGE: Pilotage is compulsory and performed by Government pilots. Ships bound for the pier at Philipsburg should await the Pilot at a max. distance of 1 mile from the line Point Blanche -Fort Amsterdam.

Pilot Ladder: Jacob's ladder, in clean and sound condition is sufficient.

Time to Berth: From pilot station to pier, about 15 to 30 minutes.

ANCHORAGE: Ample suitable anchorage area available with sufficient depths of water for several large ships simultaneously.

If and when the pier is already occupied by another cruise-ship, cruise-ships can proceed to anchorage, in which case communications between ship and shore to be by ships' own launches.

For ships proceeding to anchorage, pilotage is also compulsory.

RADIO: The Government radio and telegraph service operates daily from 0700 L.T. to 2400 L.T. worldwide.

Radio Telephone: VHF Channel 10 and 155,925 mHz.

ETA Messages: ETA messages should be sent to Agent preferably in local time at least 24 hrs. in advance and any changes occurring thereafter should be advised.

Use of Ship's radio in port: Prohibited.

TUGS: None available.

BERTHING: The new concrete pier at Philipsburg is located at Point Blanche in Great Bay and has a length of 210 m., with an additional 60 m. of berthing space, located at a 60° angle to the finger pier. Min. depth is 34 ft. of water. 4 fenders of steel spring and rubber are located along the berthing space.

Height from sea-level to the deck of the pier at high tide is 4.02 m., at low tide 4.48 m. Ship will lie with port side to the pier.

Mooring and Unmooring: 3 dolphins are located in an extended line of the berthing space for mooring. Min. required size of openings in shackles is 40×50 cm. Mooring boat is available.

Equipment: Cranes are available with a capacity of 20 tons max. Forklifts up to 8 tons and sufficient flat-bed trailers and low-buoys are also available.

STEVEDORES: There are 3 gangs available. Each gang has a total of 9 workers.

MEDICAL: Government physicians are available in Philipsburg and there is also a small, but up-to-date hospital operated by the Netherlands Antillean Government. A "Medical Service Request" form must be signed by the Master or other authorised officer for crew members requiring medical treatment.

Dental facilities available.

FRESH WATER: Available.

FUEL: No facilities for carrying out repairs except for radio and radar (Radio Holland).

SURVEYORS: There is a representative of Lloyds on the island.

AIRPORT: The island is served by A.L.M. (Dutch Antillean Airlines), Air France, Eastern Airlines, K.L.M. (Royal Dutch Airlines), L.I.A.T. (Leeward Island Air Transport), Prinair.

There are direct, almost daily flights, to and from New York and Miami connecting to other major places.

TIME: 4 hours slow of GMT.

HOLIDAYS: The following Official holidays are observed in St. Maarten: New Year's Day (January 1st); Good Friday (varies); Easter Monday (varies); Queen's Birthday (April 30th); Labour Day (May 1st); Ascension Day (varies); Whit Monday (varies); St. Maarten Day (November 11th); Kingdoms Day (December 15th); Christmas Day (December 25th); Boxing Day (December 26th).

TELEPHONE: Service from ship to shore is not available.

GENERAL:

Ship's Bars and Shops: No restrictions and these may remain open for business while in port.

Laundry: Available.

Wind: Prevailing winds on the island between the months of March and December are East to South, velocity 6 to 10 knots. Between December and March winds are generally North to East at a velocity of 8 to 15 knots.

Tide: The tidal range in Philipsburg is at most 2 ft., but regularly not more than 1 foot.

Current: The current outside Philipsburg harbour changes from Easterly to Westerly, with a max. velocity of 2 knots. At the Pier the current generally runs from North to South, with an average velocity of 0.5 knot.

Gangways: No gangways are available from the pier and ship's gangways will have to be used.

Ship's Launches: There are no restrictions on the use of ship's launches.

Stores: Available.

Garbage: No disposal facilities available.

Port Health: No regulations or requirements.

Customs: None.

AUTHORITY: Harbour Master.

AGENTS: S.E.L. Maduro & Sons (Windward Island) Inc., Emmaplein, PO Box 63, Philipsburg, St. Maarten N.A. Telegraphic Address: Maduroship Stmaarten. Tel 2202/2207.

ST. NICHOLAS, Aruba: 12.26 N. 69.55 W.

(See Plan)

DOCUMENTS/HEALTH and all General Information, refer to "Oranjestad".

PILOTAGE: Pilotage is compulsory. Pilot boards off West Entrance within 2 miles of the shore. Inbound vessels are expected to approach the entrance as near as prudently possible and make a lee to assist Pilot boarding.

A pilot service for anchoring off Lago Aruba terminal during the hours of darkness is now available upon the Master's request, providing radar and echo sounder are functioning properly.

RESTRICTIONS: The port is open for day and night navigation, allowing vessels to enter and leave at any hour. The harbour has a depth of 42 ft., while the East and West channels are 45 ft. deep. The safe salt water draft approved for entering is 39 ft., for leaving - 41 ft. Vessels normally enter via the West channel and depart via the East channel.

RADIO: Radio-telephonic communication is possible on wavelengths of 156.70 and 156.80 MC/VHF (Channels 14 and 16).

TUGS: 2 diesel-powered tugs are used for berthing and unberthing.

MAX. SIZE: Tankers up to 500,000 d.w.t. at Reefberth No. 2, depth alongside, 105 ft. MLW. Also see "Reefberth".

BERTHING: All port facilities are controlled by Lago Oil and Transport Company.

The max. limitations for vessels using San Nicolas facilities are:

Berths	*Length* (ft.)	*Beam* (ft.)	*Salt water max. draft* (ft.)	*Bow to manifold* (ft.)	*Deadweight*
1 South	745	UNL	39	376	50,000
1 North	740	110	39	356	50,000
2 South	800	110	40*	400	50,000
2 North	780	110	39	356	50,000
3 South	900	130	41	440	90,000
3 North	850	120	40	390	80,000
West Pier	650	UNL	34	350	25,000
HDS Pier	700	UNL	30 ft. 6 in.	UNL	30,000 (dry cargo only)

Note: *2 South - 40 ft. mean draft with recommendation load with 1 foot trim by stern or 39 ft. 6 in. forward and 40 ft. 6 in. aft.

The max. entering draft is 41 ft. even keel salt water. The following is the suggested ballast draft for vessels.

MDWT	*Fore (ft.)*	*Aft (ft.)*
10–20	8	18
20–30	10	20
30–40	14	22
40–50	14	24
50–90	16	26

REEFBERTHS:

VLCC anchorage: When anchoring is necessary, Masters of VLCCs may wish to anchor in the following position; 12° 24′ N., 70° 07′ W., approx. 12 miles West of San Nicolas Harbour in approx. 25 fathoms.

Pilot Station: 2 to 3 miles West of San Nicolas Harbour entrance. When Pilot is boarding, the vessel should be on an Easterly course with a speed of about 2 knots.

Embarking Pilot, Loaded VLCCs: On the port side with either pilot hoist or conventional pilot ladder.

Ballast VLCCs: On the port side with a combination of accommodation ladder and conventional pilot ladder, or with only accommodation ladder.

Disembarking Pilot, Loaded VLCCs: On the starboard side with either pilot hoist or conventional pilot ladder.

Ballast VLCCs: On the starboardside with a combination of accommodation ladder and conventional pilot ladder, or with only accommodation ladder.

Tugs: Three tugs will be used, using their own towlines. "Esso Oranjestad" and "Esso San Nicolas" are each 3,000 h.p. "Cardon" is 2,500 h.p. The latter will be replaced in August 1976 by the "Esso Santa Cruz" of 5600 h.p.

Docking: Always portside to, with approx. 8 shackles out of the starboard anchor, which will have been walked out prior to docking to about the first shackle in the water.

Approach Velocity: RB I and RB II are equipped with a doppler system. Contact between doppler operator and pilot is by VHF radio, Channel 12. RB II, later also RB I, is equipped with "traffic lights".

Approach velocity 00–20 ft./min.=green.
20–27 ft./min.=amber.
above 27 ft./min.=red.

When the vessel is receding, the light is always green.

Mooring Launch: Used for all lines, except for the spring lines fore and aft.

Mooring Capstans: All mooring and breasting dolphins are equipped with capstans, 2 ton pull capacity, 100 ft./min. line hauling capacity.

Max. Size:

	MDWT	*Max. LOA* (ft.)	*Beam*	*Depth* (ft.)	*Max. draft* (ft.)	*Pier Heading*	*Approach angle*
RB I	40–400	1200	UNL	80	75	130° true	15°
RB II	40–500	1400	UNL	105	95*	114° true	10°

*With an approach angle of less than 10° draft up to 100 ft. can be permitted.

Sailing Draft Ballast VLCCs: abt. 25 ft. fore and 35 ft. aft.

Lines and Winches: Mooring lines assumed to be 1.625 in. dia. steel wire with a breaking strength of 90–100 tons.

Mooring winches assumed to have about 25 metric tons heave capacity and 55 metric tons brake holding capacity.

Combination of a wire and a synthetic line to a single dolphin will not be permitted.

Mooring lines will not be stressed beyond 55% of their breaking strength.

Self tensioning is not permitted. Automatic winches should be used on manual brake.

Synthetic tails on wires should have a higher breaking strength than the wire to which they are connected. The eyes of the tails should be protected from abrasion with suitable coverings, and tails should be connected to wires with suitably designed shackles.

A max. of only 2 layers of line to be allowed on working or tension drum of split drum winches.

Current and Wind: Current is less than 0.2 of a knot 90% of the time. Wind is less than 20 knots 70% of the time, and less than 25 knots 97% of the time.

Wind direction		*Current direction*	
True	*% of time*	*True*	*% of time*
20°– 40°	2	40°– 70°	24
50°– 60°	6	100°–110°	17
70°– 80°	33	140°–240°	10
90°–100°	40	260°–290°	24
110°–120°	13	320°–340°	25
140°–170°	1		
220°	5		

Wind tolerance: At 30 m.p.h. steady, loading will be discontinued, and the loading arms will be drained. Tugs will be called out; engine to be confirmed ready for use.

At 35 m.p.h. steady, arms will be disconnected.

At more than 40 m.p.h., the vessel will be taken off the berth.

Loading Arms: RB I; four 16 in. cargo arms with 12 in. bolted flange connections. One 8 in. bunker arm (No. 5 arm, the most westerly arm). RB II; five 16 in. cargo arms with 16 in. connections.

Discharge/Loading Lines: RB I 36 in., 3,000 ft. long. RB II 56 in., 4,000 ft. long.

Radio Contact: Contact between loading Master, control room, marine office by VHF and UHF. Particulars will be given by loading Master.

Bunkers: RBI; through bunker arm (No. 5). RB II; through any of the 5 loading arms with reducers.

Water: Available on RB I and RB II.

Provisions: By launch; to be taken on board by ship's lifting gear on the port quarter.

Shore Leave: No pedestrian traffic allowed between ship and main gate. Arrangements for crew transportation can be made with Agent, or by calling the Marine Office.

FRESH WATER: Fresh water can be supplied ex-wharf.

FUEL: All grades of bunkers available.

Sea Berth: Vessels arriving for bunkers only with a draft greater than 41 ft. must use the Sea Berth (Reef Berth.) As the berth is used for crude oil trans-shipment bunkering vessels can expect delays. Also the following considerations apply:

1. Vessels working cargo have priority over vessels bunkering.

2. In assigning tugs, vessels working cargo take priority. (3 to 4 hours tug service required at the sea berth.)

3. Mooring launches require 48 and 24 hours notice.

4. Vessels using the berth must have 12 good mooring lines. All mooring winches and equipment will be inspected and must be in good order. Vessels may not be docked if equipment is faulty.

5. In the event of marginal weather, deep draft vessels calling for bunkers may not be docked.

REPAIRS: A local workshop can do minor repairs.

PORT FIRE PROTECTION: The port of St. Nicolas is very well equipped with modern equipments for fire-fighting and fire prevention.

BALLAST: Tankers must arrive with clean ballast only. Clean ballast will be discharged overboard after docking. Only slops can be discharged to the disposal facilities ashore.

SPECIAL REGULATIONS: Strict compliance with Harbour Safety Regulations is mandatory. Stringent regulations prohibit the transportation of alcoholic beverages through Lago refinery and harbour area. No liquor or beer may be taken on board or removed from vessels except only bonded stores ordered by the Master.

SHORE LEAVE: As all ship's personnel when going ashore have to walk over the docks and the company's concession, nobody is allowed to leave the docks without a proper pass. Passes which are valid for the day of issue and the following day only, entitle personnel to proceed from the dock at which their ship is berthed to the main refinery gate and vice versa. Shore passes are not valid for the refinery area.

POLICE/AMBULANCE/FIRE: Police, 5000; Ambulance, 5050; Fire, 00.

AUTHORITY: Lago Oil and Transport Co.

SINT MICHIELSBAY, Curacao: 12.09 N., 69.01 W.

Sint Michielsbay, on the South coast of Curacao, 5 miles N.W. of Willemstad, is an open bay, naturally protected from prevailing winds and sea.

PILOTAGE: Compulsory.

ANCHORAGE: In the bay 650 ft. out of the coast in 130 ft. water is laid a mooring buoy, which gives a good anchorage to vessels which, because of dangerous cargo, quarantine or because of a defect cannot enter another port of Curacao.

BERTHING: Vessels moored with their stern to the buoy and their bow anchors are heaved out to hold the foreship from the coast.

REPAIRS: Repairs or handling cargo can be carried out by way of barges. A landing jetty for barges is available.

GENERAL: Other services as tugboats, lighterage, stevedoring, etc. are rendered from Willemstad.

AUTHORITY: Harbour Master, Curacao.

WILLEMSTAD/EMMASTAD, Curacao: 12.06 N. 68.56 W. (See Plan)

DOCUMENTS:

For Immigration:
- 2 copies of Crew List.
- 2 copies of List of Passengers Landing at Curacao (if any).
- 2 copies of List of Passengers in Transit (if any).

For Customs:
- 1 copy List of Stores (deck, engine and steward department).
- Manifest of Cargo for Curacao, if any, in duplicate, on special form called "Vrachtlist".
- Manifest of Cargo for Curacao, in transit, for trans-shipment to other ports, if any, in duplicate.
- Manifest of Cargo on Board, in transit, if any, in duplicate.
- 2 copies of Tally Books of Cargo for discharge at Curacao, if any.

If the ship is in ballast only the store-list is required.
- 1 copy Crew List.
- 1 copy Passenger List landing at Curacao.

PILOTAGE: Pilotage is compulsory. Rendered day and night. Pilots are government officials and are stationed at Willemstad, Caracasbay and Bullenbay. The Harbour Master is also the head of the Pilot Service.

Vessels bound for Curacao should proceed to Willemstad harbour except when they have specified orders for another bay. Vessels in sight of Willemstad will be contacted by the signal station at Fort Nassau for further orders. From this same station lights are shown to direct the traffic in port. Vessels should stay 0.75 miles off shore West of the harbour entrance to await Pilot. The pilot motor boat is identified by a blue flag with the letter "L" at daytime and a red light above a white at night-time.

ANCHORAGE: As a rule there is no anchorage area in the harbour of Willemstad, but in the Eastern part of the Schottegat there is one pair of mooring buoys available to await berth or orders for limited time subject to permission and conditions from the Harbour Master.

2 vessels alongside each other can be safely moored at buoys. Depth: 38 ft.; distance between the buoys from 900 ft.

RESTRICTIONS: The harbour of Willemstad consists of a 1,400 yd. long and min. 270 ft. broad channel, the Santa Anna Bay, with depths from 50 ft. to 79 ft. and an adjacent inner bay, the Schottegat, a 150-acre body of water with a depth of more than 10 ft. and a max. of 79 ft.

The navigable portion of the entrance of the port is 865 ft. wide, marked on either side by a light-buoy, and the min. depth is 50 ft.

BRIDGES: Santa Anna Bay is crossed by 2 bridges, the Queen Emma floating pontoon bridge and the new, fixed bridge.

The pontoon bridge opens day and night for in and outgoing vessels. There will no longer be any waiting period at the harbour entrance. Automobile traffic will be diverted to the new bridge and those on foot will have continuous ferry service available. Ships will have overall preference for openings.

The new fixed bridge, dominating Willemstad's skyline and the entrance to Schottegat Bay, is 185 ft. high, (clearance 180 ft.) enabling the biggest vessels to pass under. The bridge is of box girder construction and is open to automobile traffic only. No smoking is permitted by passing motorists, and glare-proof lights are installed to prevent interference with light signals that harbour pilots rely on when bringing a ship through the channels.

MAX. SIZE: Length 1,000 ft., draft 45 ft.

RADIO: Port Operations Station (Operated by Harbour Authorities): Location, Fort Nassau. Call sign, Fort Nassau. Frequencies, International Channels 16 (156.80 Mc/s.), calling and safety; 12 (156.60 Mc/s.), working, first choice; 14 (156.70 Mc/s.). Watchkeeping, 24 hours on Channel 16. Type of operation, Simplex, Frequency modulated. Range, 20 to 25 miles.

Main Private Station (Operated by Shell Curacao N.V.): Location, on the Zwartberg. Call sign, Shell Curacao. Frequency, international Channel 25 (receiving, 157.25 Mc/s.); (transmitting, 161.85 Mc/s.). Type of operation, Duplex working, frequency modulated; operated by remote control from Shell's telephone exchange; ask operator for connection with party desired. Range, 20 miles. Watch-keeping, 24 hours on Channel 25; normal daily business, 0730 hrs. till 2400 hrs.; urgent business only, 2400 hrs. till 0730 hrs.

Tug Base Station: Location, on the Zwartberg. Call sign, Marine Department – for tug movements only and in an emergency to direct the tugs. Watchkeeping during office hours. Central Post – for tug movements only. Watchkeeping 24 hours. Shell Curacao – for emergency calls to tugs only after having been alerted on Channel 25. No watchkeeping. Frequency, International Channel 14 (156.70 Mc/s.). Operation, Simplex – frequency modulated. Operation by remote control from Shell's Marine Department, Central Post and telephone exchange.

Tug Mobile Stations: Location, 1 on each tug. Call sign, Koraal, Passaat, Karet, Schelde, Picu, Buni, Mula and Anglegarth. Frequency, International Channels 16, 12, 14, 9, 8 and 6. Watchkeeping, 24 hours on Channel 14. Operation, Simplex – frequency modulated.

HEALTH: The port doctor will visit only if there is a case of quarantinable disease on board. The Netherlands Antilles Bill of Health is free of charge.

TUGS: Compulsory for all tankers longer than 700 ft.

L. Smit & Co. International Tug Service has a permanent ocean towage and salvage base in the port of Willemstad. There is always a powerful salvage tug at the station which has been especially equipped to deal with casualties and a harbour tug of 1,350 h.p.

Shell Curacao has stationed here three sea-going motor-tugs, 1,250 h.p. and 2,250 h.p.

The Curacao Dry Dock Company has a motor-tug of 350 h.p. and one of 225 h.p.

There are a few harbour tugs available varying from 60 to 300 h.p. and about 80 lighters to receive the cargo or to bring the cargo alongside a vessel varying from 60 to 250 ton capacity.

BERTHING: There are berths on either side of the Santa Anna Bay North of the pontoon bridge, with depths varying from 18 to 33 ft. alongside, generally used for bunker, cargo and passenger ships.

On the Eastern side four wharves: the Handelskade, depth 18 ft.; the Kleinewharf, depth 24 ft.; Grotewharf, depth 31 ft.; and Salazar, depth 24 ft.

On the Western side six wharves: the Matheywerf, depth 23 ft.; Westwerf S., 25 ft.; Westwerf N., 36 ft.; Nieuwewerf, 33 ft.; Motetwerf, 33 ft.; Oranjewerf, 19 ft.

In the Schottegat there are seven more berths, generally used for bunker, cargo or passenger ships.

Prins Hendrikwerf which closes the Western corner Santa Anna Bay/Schottegat, has a depth of 35 ft.; however, ships with a draft of more than 35 ft. can be moored by way of placing rafts of 10 ft. width between vessel and the quay.

At the Eastern part of the Schottegat are the Admiral Brion Wharves, which has 3,000 ft. docking space available with 34 ft. depth alongside.

In the Schottegat on the peninsula of Asiento are situated the 14 piers owned by Shell Curacao Ltd., which are mostly used by tankers; however, other vessels are enabled to use these wharves for bunker facilities. Valentijnpier No. 5 may be used for general cargo.

The names and the depths alongside these piers from West to East are: Pier I, 32 ft.; Piers II and III, 34 ft.; Pier IV, 40 ft.; Pier V, 46 ft.; Pier VI, 41 ft.; Pier VII, 34 ft.; A-pier, 34 ft.; Pier VIII, 46 ft.; Margrietpier (two berths), 35 ft.; Pier IX, 36 ft.; Pier X, 33 ft.; Pier XI, 19 ft.

The Schottegat also has about 4,000 ft. of quay available for repairs. The names of the wharves, lengths and depths alongside are: Beatrix I and II, 1,300 ft. – 21 ft.; Beatrix III, 400 ft. fore 10 ft., aft 35 ft.; Beatrix IV, 350 ft. – 31 ft.; Beatrix V and VI, 1,000 ft. – 37 ft.; E.E.C. Quay, 1640 ft. – 40 ft.

In the Schottegat is a special berth, Bernhardkraan, with fixed sheerlegs for the purpose to discharge or to load heavy lifts up to 150,000 kgs. Depth alongside this berth is 30 ft.

Storage capacity for liquid petroleum products is 4,600,000 tons in tanks of Shell Curacao Ltd.

Docking of cruise ships in Willemstad harbour: The following piers are regularly used by cruise ships and cargo ships:

Nieuwewerf, Motetwerf: West side St. Anna Bay. Type: quay. Construction: sheet piling, concrete top, stelcon plates floor.

Length: 1,200 ft. Draft: 33 ft. Height above water: 4 ft. One transit shed each: Nieuwewerf, width 65 ft., length 216 ft., area 14,000 sq. ft. Motetwerf, width 65 ft., length 216 ft., area 14,000 sq. ft. Open space area 200,000 sq. ft. One warehouse facility 6,500 sq. ft.

Oranjewerf: On West corner St. Anna Bay/Schottegat. Type: quay. Construction: iron piles, concrete top,concrete floor. Length: 418 ft. Draft: 19 ft. Height above water: 6 ft. Special bunker pier, cargo handling mostly via lighters alongside.

Prins Hendrikwerf: In the Schottegat near West corner St. Anna Bay. Type: quay. Construction: iron piles, concrete top, concrete floor. Length: 700 ft. Draft 34 ft. Height above water: 5 ft. One transit shed: width 65 ft., length 385 ft., area 25,000 sq. ft. Open space area 100,000 sq. ft. No warehouse facilities.

Admiral Brion Wharves: Nos. 1, 2, 3, 4, 5 and 6 situated at the East side Schottegat. Type: quay. Construction: sheet iron cells with concrete top, asphalt floor. Total length: 3×1,000 ft. Depth: 34 ft. Height above water: 5 ft. Two transit sheds: one with width 65 ft., length 680 ft., area 44,000 sq. ft.; one with width 65 ft., length 330 ft., area 21,000 sq.ft. Open space area 510,000 sq.ft. A special platform for Ro/Ro ships has been constructed. Maximum draft: 33 ft.

Kleinewerf, Grotewerf, Salazarwerf: East side of St. Anna Bay. Type: quay. Construction: sheet piling, concrete top, asphalt floor. Total length wharf: 1,470 ft. Maximum draft alongside 24–31 ft. Height above water: 2 ft. One transit shed, width 65 ft., length 330 ft., area 21,500 sq. ft. Open space area 154,000 sq. ft.

SLOP RECEPTION FACILITIES: Available at all Shell Terminals.

FRESH WATER: Fresh water for drinking purposes and use in boilers is available day and night in sufficient quantities at all wharves. Fresh water is also delivered alongside by means of water barges, delivery rate 50/100 t.p.h.

FUEL: Besides the Shell piers there are two bunkering installations: namely, the "Admiral Brion Wharves" comprised of six berths and the "Motet" bunkering installation comprised of four berths.

The "Admiral Brion Wharves" bunkering installation is directly supplied from the refinery by means of two pipe-lines with diameters of 12 and 8 in. The pipe-lines run the full length of the piers, each with five bunkerpits, from which the oil can be delivered directly to the ships via a mobile blending unit if this is required. The capacity of the pipe-line and the pumps is 600 t.p.h. for fuel oil and 300 t.p.h. for diesel oil. Gas oil is also available.

The bunkering facilities of the "Motet" installations in Otrabanda, which are comprised of seven storage tanks and pumping facilities, are supplied through two pipe-lines of 12 and 6 in. diameter from the refinery. The rate of delivery, by gravity and pumps, is 600 t.p.h. for fuel oil and 500 t.p.h for diesel oil.

Modern fuel blending facilities are available at all installations in Willemstad.

REPAIRS: The Curacao Drydock Company Inc. has repair yards, two graving docks and one floating dock laid out in the Schottegat.

The largest graving dock is 919 ft. long, width of entrance between wheel fenders 152 ft. and a depth of water over sill of 27 ft. 10 in. Suitable for up to 120,000 d.w.t. Movable cranes of 25 and 75 tons lifting capacity are fitted alongside the dock.

The Curacao Drydock Company Inc. has 6,000 ft. of repair wharf with varying depths up to 40 ft. Cranes alongside up to 75 tons lifting capacity. A floating crane with capacity of 30 tons and a mobile truck crane of 140 tons also available.

Electric shore-power A.C., D.C. 110, 220 or 440 volts can be supplied directly from shore at wharves of Shell Curacao Ltd. and at other wharves from generators on barges. Shell can also supply steam directly from the shore at a pressure of 8–15 kg/cm.

STEVEDORES: Gangs must be engaged between 0600 and 0630 hrs. for the day, on weekdays and Saturdays. For work on Sundays and holidays, gangs must be ordered between 0600 and 0630 hrs. on Saturday or the workday preceding the holiday. Masters of vessels carrying out cargo operations are consequently recommended to advise Agents their ETA well in advance of above deadlines.

TIME: Curacao time 4 hours slow of GMT.

HOLIDAYS: New Year's Day, Good Friday, Easter Monday, Queen's Birthday, Labour Day, Ascension Day, Whit Monday, Kingdom Day, Christmas Day, Second Christmas Day. "No work", holidays for cargo operations: New Year's Day, Good Friday, Labour Day and Christmas Day.

GENERAL: Customs Officers remain on board on duty during the vessel's stay in port. They must be fed by the ship and are entitled to the equivalent of officers mess or first-class dining saloon.

REGULATIONS: Both anchors should be ready for immediate use. Defects of engines, steering gear, anchor gear and other defects which influence manoeuvring abilities of the vessel should be reported before entering, to the Harbour Master. Vessels carrying explosives must obtain a permit from the Harbour Master before entering.

DEVELOPMENTS: During 1973 a new repair quay, 2,500 ft. long and 41 ft. deep was built, with a trial berth on the inner side for ships up to 1,000 ft. with a maximum draft of 40 ft.

AIRPORT: There are daily international flights from Dr. Albert Plesman Airport.

ALM: Frequent daily trips to Aruba and Bonaire. Daily flights to Miami and New York. Regular air services to St. Maarten, Caracas, Maracaibo, Colombia, Haiti, Sto. Domingo, Puerto Rico, Trinidad and Paramaribo.

Eastern Airlines: Daily flights to Puerto Rico and transfers to all points.

American Airlines: Daily flights to New York and transfers to all points.

VIASA: Regular scheduled flights to Caracas, Sto. Domingo, Paris and Amsterdam.

Aerocondor: Daily flights to Colombia.

LAV: Many daily flights to Caracas.

KLM: Daily flights to Amsterdam, Lisbon, Madrid, Frankfurt and Zurich.

Ferry: Ferry's Del Caribe S.A. runs a regular service with a new modern ferry which carries 1,200 people and 120 automobiles. This ferry has regular service between Curacao and Coro, Venezuela on Monday, Tuesday, Wednesday and Thursday. On Thursday the ferry also goes to Aruba and Punto Fijo, Venezuela.

AUTHORITY: The Harbour Master.

AGENT: SEL Maduro & Sons Inc., Schouwburgweg 16, POB 304, Willemstad, Curacao, Netherlands Antilles. Tel. 76900. Telex: 1092 Selms NA. Cables: "Maduroship".

NOTES

Please also advise Shipping Guides (Services) Ltd.

New Caledonia

NOUMEA: 22.16 S. 166.27 E. (See Plan)

DOCUMENTS:

Ship's Register.
Safety Certificates.
Cargo Manifests.
List of Dangerous Cargo.
Passenger List.
Crew List.
Crew Personal Effects List.
Bonded Stores List.

PILOTAGE: Compulsory for vessels over 60 m. LOA. ETA to Port Captain and Pilots required 24 hours in advance. The two access channels to Noumea are Boulari channel (Amadee light) and Havannah channel. Pilot boats are wooden launches about 15 m. long equipped with VHF. Harbour Master's office and pilot station on Channel 16 during office hours.

Boulari Channel: Pilot boards 1 mile off, on the alignment of the Amadee high and low lights.

Havannah Channel: Pilot boards off Goro light on the alignment of the leading lights on Cap N'Dua.

In bad weather, pilot launches will remain on these leading lines, but as close as possible to the channel entrances.

Pilot should be ordered at least 6 office hours before departure or moving.

ANCHORAGES: Available in the outer and inner roads of Noumea, as indicated by the Pilot. Prohibited zones are marked on the chart.

RESTRICTIONS: Vessels may enter and anchor at any time, mooring may be effected at night.

MAX. SIZE: Tanker buoy berths designed for 20,000 d.w.t. and 45,000 d.w.t. Draft limited to 13 m. by a bar between the reef and the port.

HEALTH: Unless vessels have signalled that there is suspected disease or fever on board, free pratique is given automatically by radio request to the Capitaine du Port or by the Pilot.

RADIO: All messages by coast station Noumea, call sign FJP. Harbour Master's office equipped with VHF, Channels 16, 12 and 14, operated during normal working hours.

TUGS: Tug's service is compulsory. One tug of 1,200 h.p. and 1 of 500 h.p. available to assist.

BERTHING: At old Port Authority quay, draft limited to 7.50 m. New quay of 700 m. to accept vessels up to 10 m. draft and over 200 m. length. Private berths of Nickel Company are dredged to accommodate 9 m. draft.

STEVEDORES: Service provided by four private companies. 2 or 3 days' notice required to arrange work.

MEDICAL: Doctors, hospital, and 3 private clinics available. Smallpox vaccinations are compulsory.

TANKERS: Buoy berth, max. draft 40 ft. Shell berth (at Nickel Company), max. draft 9 m. at HW.

DENSITY: 1026.

FRESH WATER: Supplied by pipe-line at the quays; rate, 40 t.p.h.

FUEL: Several grades available from Shell, Mobil and Total.

GANGWAY/DECK WATCHMEN: Recommended, but not compulsory.

OPENING/CLOSING HATCHES: Can be performed by stevedores if required.

CUSTOMS ALLOWANCES: 200 cigarettes per man. Additional allowance can be made after 10 days. Max. 3 bottles spirits per man. Wines and beer not limited.

IDENTIFICATION CARDS: Recommended that crew carry Seamen's Books.

CONSULS: Australia, Belgium, Indonesia, Italy, Japan, Norway and New Zealand are represented locally.

REPAIRS: Many engine, hull and electronic repairs can be effected. Slipway for small vessels.

REPATRIATION: All facilities available for crew change and repatriation.

AIRPORT: Tantouta Airport situated 50 km. from Noumea. Several connections a week to all parts of the world.

TIME: GMT plus 11 hours. No alterations during the year.

HOLIDAYS: 1st January, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 11th November, 25th December. Work may be arranged on Sundays and holidays.

POLICE/AMBULANCE/FIRE: Police, Tel. 17; Fire, Tel. 18; Ambulance, Tel. 721.21.

SHORE LEAVE: Allowed.

SHIPMASTER'S REPORT:

Communications: Radio W/T. Short wave service and MF service very good. First message to state which passage used – Draft – Tonnage – and nature of dangerous cargo, this should be sent at least 24 hours before arrival, Agent and Harbour Master required this message.

Radio Telephone. Service available.

VHF. Available to Harbour Office and Pilot Station during office hours 0715 to 1115 hrs. and 1330 to 1730 hrs. Monday to Friday 0800 to 1100 hrs. on Saturdays. Pilot vessel when at Havannah Passage keeps VHF watch one hour before the last given ETA. In our case we made contact with the pilot vessel when 12 miles from Havannah Passage. If at anchor VHF contact to Agents can be made via Harbour Office.

Pilotage: Boarding ground. Canal de Havannah. The Pilot boards the vessel when on the leads, but inside the reef, when the vessel is off Port Goro. The three leading lights stand out well at night time, each light is individually powered in case of failure, in our case they were seen 25 miles away. During strong S.W'ly winds the Pilot will board in the lee of Loro Reef. As the leads do not stand out so well in day time, night time seems to be the best arrival time. This channel has been swept to a depth of 34 ft. Strong cross currents can be expected at the entrance to Havannah Passage.

Anchorages. See CHINPACS for area dangerous due to mines. Otherwise vessel anchors Grande Rade.

Quarantine. Pratique granted by Pilot, Health Signal not required unless notifiable sickness on board.

Controlling Factors: Berthing times. Vessels are now berthed at any time, the usual side to being Starboard side, a 1,200 h.p. tug being used to assist.

Depth of Water. The least sounding taken at No 1 Berth was 32 ft., the other two berths are said to have 33 ft. of water at them.

Length. No limit at berth.

Berthage. 700 m. at the New Wharves.

Stevedoring. Working time. 0700 to 1100 hrs. then 1300 to 1700 hrs. and overtime from 1800 to 2200 hrs. The labour will also clean out the hatches provided one gang is actually working cargo, otherwise they stop when cargo work is all finished. Saturday is not an overtime day. Only Sunday is an overtime day. Good Friday and Easter Saturday are considered normal working days. The Stevedoring is good, with a fast working rate, but I regret to state that some pillage took place. As regards unprotected cars, the most minor marks were claimed against the vessel, these were repudiated.

Documents:

1 Cargo Manifest.
1 List of Dangerous Cargo.
2 Crew Lists.
1 Crew Personal Effects List, this list to include currency held, (French Forms accepted).
1 Bonded Stores List.
1 Health Form.

AUTHORITY: Port Autonome de Noumea.

NOTES

Please also advise Shipping Guides (Services) Ltd.

New Zealand

GENERAL: All ports.

The New Zealand Ministry of Agriculture and Fisheries requires a Shipmaster's Bond and Guarantee (Form Ag.L35) to be completed in triplicate if vessel is carrying animals, i.e. cats, dogs, fish, birds, etc.

In addition all overseas vessels are required to complete in duplicate a Meat Locker Declaration (Form Ag.L36).

AUCKLAND: 36.52 S. 174.46 E. (See Plan)

DOCUMENTS:

3 Copies Passenger List.
3 Copies Crew List.
1 Copy Search List (Form 2).
1 Copy Stores List (Form 3).
1 Copy Prohibited and Restricted Immigrants.
1 Copy Poisons List.
1 Copy Animals and Birds List.
1 Copy List of Firearms (not cargo).
1 Copy Arrival Manifest (Form 1), plus 2 for other ports visited (Reg. Form 16 refers).
1 Copy of List showing the gross tonnage of cargo for discharge in New Zealand.
3 Copies Shipmaster's Bond and Guarantee (Form Ag.L35).
2 Copies Meat Locker Declaration (Form Ag.L36).

PILOTAGE: Vessel approaching port to give 24 hours notice by radio. A second notice confirming or amending first to be sent 4 hours before expected time. Signal Station on Mt. Victoria, call sign ZLEA, calling frequency 2182 kc/s, working frequency 2012 kc/s. VHF, call sign "Auckland Port Control", Channel 12 and 16. Continuous listening watch on Channel 16.

Pilot launch is 64 ft. long, single mast, painted white. Name is *Akarana*. Standard flag and lights are shown. Word "Pilot" painted in black on white above cabin. Pilots board 1 mile North of Rangitoto Beacon, but will proceed farther when necessity arises. Good pilot ladder with manrope required to within 5 ft. of water-line with proper lighting at night. Heaving lines will be needed for mail and for portable radio.

ANCHORAGE: For vessels waiting Pilot: Gulf Anchorage No. 1 bearing 000° distance 2 miles; No. 2 bearing 006° distance 2.5 miles; No. 3 bearing 012° distance 3 miles. Bearings and distances from Rangitoto Beacon.

All inner anchorages in pilotage area can be indicated by Pilot. All anchorages are in 11 to 18 fathoms with good holding ground.

RESTRICTIONS: Ships may enter harbour at any time of day or night. Main channel has least depth of 11 m. chart datum. Vessels with greater draft must wait for tide to make and enter at Harbour Master's orders. Tankers not berthing immediately on arrival anchor as directed at one of gulf anchorages.

MAX. SIZE: No limits, within reason, on the length or breadth. Controlling depth at chart datum: entrance 11 m.; Rangitoto Channel 11 m.; anchorages 9.8 to 18.29 m.; berths 6.09 to 12.19 m.

HEALTH: 24 hours before arrival time, despatch message to Port Health, Auckland. Message to state ETA, last port, and date of departure therefrom, number of crew, number of passengers and state of health. 12 hours before arrival confirm ETA.

Doctor boards by way of vessel's shipside gangway (not pilot ladder) when in harbour. This gangway to be ready immediately on arrival in order to avoid any delay. A responsible person should meet doctor at head of gangway and conduct him to appropriate person.

Papers required:
Completed Maritime Declaration of Health.
Derating Certificate.
Complete Crew List with dates of last smallpox vaccination.
N.B. Crew and Passenger Lists to be certified as being correct by the Master.
List of Addresses of Disembarking Passengers.
List of Dangerous Cargo on board.

Pratique is granted initially, and covers all subsequent coastal movements in New Zealand for that voyage. Radio pratique can be granted only after prior approval from New Zealand Health Department.

Vessels requesting pratique should exhibit appropriate International Code Signals by day and night until pratique is granted.

RADIO: Station for routing traffic to the Auckland area is Auckland Radio. Call sign ZLD. Working both W/T and R/T on continuous watches.

RADAR: Radar station with range of 72 km. located on Mt. Victoria 36° 49′ 42″ South, 174° 47′ 57″ E. Masters may call on radio telephone and request particulars of their bearing and range as shown on radar screen. Responsibility for the use of this information rests entirely with Master of vessel.

TUGS: 4 tugs available. Tugs join vessel East of Eastern Tide Wall. Tugs supply lines at no extra charge.

BERTHING: Tankers berthing at Eastern Tide Wall, BP Depot, must berth in accordance with weather and tidal conditions. Tankers must arrive at Pilot station not later than half an hour before sunset, otherwise berthing will be postponed until following morning.

Depth of water: Bledisloe 9–10 m.; Captain Cook 8–10.5 m.; Eastern Tide Wall 10–10.5 m.; Hobson 4–6 m.; Jellicoe 9–11 m.; Kings 8.5–9.5 m.; Marsden 2.8–8 m.; Princes 9–11 m.; Queens 9–10.5 m.; Wynyard 9–11 m.; Freyberg 9–11 m.; Fergusson 11–12.2 m.

BRIDGES: Navigation in daylight hours only under Auckland Harbour Bridge. Navigation span is 138 ft. to 131 ft. above MHWS for 250 ft. each side of centre.

STEVEDORES: Labour commences at 0730 hrs. In order to ensure labour for this time ETA should be received at Agent's office before 1500 hrs. previous day, or before 1500 hrs. previous Friday for a Monday start. Delays on radio messages may be up to 3 hours.

MEDICAL: In case of urgent medical attention being required, Agents can arrange for doctor to board in stream at any notice. Hospital and ambulance services available 24 hours. If any smallpox vaccinations have expired this must be included in ETA advice.

TANKERS: There are 3 tanker berths, 2 with 11 m. depth LWST suitable for tankers up to 182.9 m. LOA. 1 berth in depth 8.5 m. LWST for vessels up to 170.7 m. LOA.

Any size pipe-lines can be used, oil companies have all reducing pieces needed.

No facilities for slop discharge.

DENSITY: Always 1025.

FRESH WATER: Fresh water always available. Delivery rate 100 t.p.h., through canvas hoses. AHB supplies all equipment.

FUEL: Light fuel oil, diesel, gas oil and heavy fuel are available. To be ordered in ETA notice.

FIRE PRECAUTIONS: In addition to usual precautions, Class I tankers are under extra security with a nightwatchman from Harbour Master's staff in addition to the normal tanker guard.

CONTAINER HANDLING FACILITIES: Fergusson Wharf Complex at Eastern end of port includes roll-on/roll-off sections and 457 m. of berthage for container vessels. Water depth maintained at 12.19 m. LWST. 2 Container cranes. 8.9 hectares Terminal area.

Note: Bledisloe Wharf is being developed as a Roll-on Terminal with two link span equipped berths. When completed present Terminal will be transferred from Fergusson Wharf, for Roll-on vessels.

GANGWAY/DECK WATCHMEN: Watchmen are necessary. Best to use crew.

OPENING/CLOSING HATCHES: Crew can open completely mechanical hatches only. All other hatches opened by waterside workers.

CERTIFICATES: Register, Deratisation, Load Line, Safety Equipment, Safety Radio, Articles of Agreement, are main Certificates required.

CUSTOMS ALLOWANCES: 1 bottle of spirit (in use) *or* 1 bottle of wine (in use) *and* 12 quart bottles (or the equivalent) of beer, 200 cigarettes *or* half a pound of tobacco *or* 50 cigars. For ship use only. To be declared on Search List.

CARGO GEAR: Preventer guys must be entirely wire. All blocks and shackles must be moused. Safety strops on all heel blocks. All wires, ropes, chains and blocks to have Certificate of Test.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium
Denmark
France
West Germany
Norway
Chile
Latvia

Greece
Italy
Japan
Netherlands
Portugal
Finland
Peru
Venezuela

Panama
Philippines
Sweden
U.S.A.
Brazil
Korea
Switzerland

REPAIRS: Any ship repairs can be carried out. A slipway can take vessels of 600 tons displacement and up to 211 ft. LOA.

DRY DOCKS: Max. size of vessel that can be accommodated in Calliope dry dock is 181 m. LOA and 19.8 m. beam. Water on sill at MHWS 33 ft.

REPATRIATION: All facilities exist for repatriation.

AIRPORT: 8 miles from harbour to airport. Served by all major international airlines.

TIME: Local time is GMT plus 12 hours throughout the year, except when Summer time applies, November to March.

HOLIDAYS: No work is done on these days: New Year's Day (1st January); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (first Monday in June); Labour Day (fourth Monday in October); Christmas Day; Boxing Day; Waitangi Day early February. In addition, each Province has an Anniversary Day and a Waterside Workers' Picnic Day. In Auckland these are in last half January.

POLICE/AMBULANCE/FIRE: All emergency services are called through one telephone number. Dial 111 and state service required.

TELEPHONES: Telephones at all berths. Cost is $2.08 fee phone per day, plus the cost of any overtime incurred in connecting or disconnecting any such telephone. Telephones (coin operated) may be hired for use of crew on application to Post Office.

GENERAL: *Refuse Disposal:*

It is important that no refuse be allowed to pass into tidal waters either directly or indirectly. This is covered by strict Government Regulation.

Masters should ensure that refuse is lowered into refuse boat "Manui" and not thrown into boat from any great height.

No refuse will be collected from stern of vessel as this is hazardous for collection craft. A suitable site in way of the flat side of the vessel on off shore side should be chosen.

SERVICES: Services include tank cleaning, compass adjusting, all cargo surveying, average adjusting, etc. Tank washings may be pumped to road tankers.

SHORE LEAVE: Crew members may go ashore.

REGULATIONS: All guests aboard vessel in the evening must have passes signed by the Master. All visitors' passes expire at 2300 hrs.

All ships in port are subject to the Rules and Regulations contained in the Harbours Act 1950, and the By-laws of the Auckland Harbour Board. On first visit to the Port copies of these and other relevant Regulations are supplied to ships.
AUTHORITY: Auckland Harbour Board.

BLUFF: 46.37 S. 168.22 E.

DOCUMENTS: See "Auckland".
PILOTAGE: Pilotage is compulsory. Pilots board vessels from a launch within a 3-mile radius of signal station on Stirling Point, and always well to seaward of 6 fathom line. Arrangements regarding boarding will be made by radio-telephony, wireless-telegraphy, or visual signals from signal station.

Vessels, other than those which are exempt from pilotage, must not proceed inside Bluff Foreshore Light without a Pilot.

Pilots do not usually board vessels between sunset and sunrise except in reasonable weather.

Caution: Vessels stopping to pick up a Pilot are particularly warned not to approach entrance shoal too closely, especially during flood stream as stream sets strongly on to entrance shoal, North-eastward.
Coastal Pilots: Coastal Pilots are available on 24 hours notice for piloting service from Tairoa Head to Milford Sound.
ANCHORAGE:
Southward of Stirling Point: In fine weather vessels missing tide may anchor in 10 to 12 fathoms with Stirling Point lighthouse bearing about 356° and Dog Island lighthouse bearing about 108°.
Eastward of Dog Island: A good anchorage for vessels delayed longer than 6 hours awaiting to enter Bluff is situated 5 miles East of Dog Island.
RESTRICTIONS The safest time to enter the harbour is at slack water. Strict attention should be paid to signals passed from the signal station on Stirling Point. No vessel should attempt to enter without a Pilot, unless possessing local knowledge.

Least depth in fairway is 28 ft. on Northern edge of Channel Rocks; also 25 ft. (about 1 cable West North-westward of the tidal stream indicator beacon).
MAX. SIZE: Length, 620 ft., overall beam, 95 ft. Maximum draft permissible in approach channel: 30 ft. 0 in. at HW, 22 ft. at LW. The Board has been carrying out extensive blasting and dredging in the entrance channel and it is anticipated that a further increase in the present port draft of 30 ft. in the entrance channel will be increased to 34 ft. but this will be publicised at the time when it can be confirmed without doubt what the new actual port draft will be.
HEALTH: Radio pratique available at Berth.
RADIO: A signal station is situated on Stirling Point and is connected by telephone with harbour officials. A continuous watch is maintained and vessels can communicate by the International Code of Signals or the Morse Code. There is a radio-telephone at signal station. Call sign is ZLRW, calling frequency is 2,182 kc/s. and the working frequency is 2,012 kc/s. VHF radio having Channels 16 and 12. Watches are maintained from 33 to 40 minutes past the hour, every hour. After radio-telephone contact has been established further listening watches can be made by mutual agreement.
TUGS: Two tugs are available. Both twin-propulsion Voith Schneider vessels of 1,200 i.h.p. and 15.3 tons static pull and 2,600 h.p. and 30 tons. Both vessels are equipped for fire fighting and deep sea salvage work.
BERTHING:

	Berth No.	*Dredged depth l.w. (draft 2 ft. less or maximum)* ft.	in.

Old Main Wharves:			
	11	31	6
	12	29	
	14	26	6
Tiwai Wharf:		34	

STEVEDORES: Agents require ETA in advance to arrange labour for cargo handling.
MEDICAL: Port doctor available through Agents. Nearest hospital is at Invercargill City, 16 miles from Bluff. Medical service whilst at sea; through Awarua radio.
TANKERS: Tankers are berthed at No. 11 berth only, main wharf. Side connections are to be used. Only 1 pipe-line connection on wharf.

It is not permitted to commence the discharge of oil cargoes during the hours of darkness. No vessel carrying a cargo of motor spirit or having discharged such cargo will be handled during the hours of darkness.

Oil cargoes for Tiwai Point discharged at Tiwai Wharf.
DENSITY: 1025.
FRESH WATER: Available alongside all berths.
FUEL: Bunkering facilities are available. Boiler fuel is supplied by 8 in. diameter pipe-line located at No. 11 berth, old wharf. Delivery rate 240 t.p.h. Limited quantities of coal, light diesel oil and lubricating oil can be arranged for delivery by road or rail to the wharves.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Usually carried out by stevedores, unless automatic then by crew.
CUSTOMS ALLOWANCE: See "Auckland".
IDENTIFICATION CARDS: Not required.
REPAIRS: Major repair work can be undertaken by the following: 2 small machine shops at Bluff; a foundry at Invercargill; a slipway for vessels of up to 500 tons displacement at Bluff. A diver is available for underwater inspections.
REPATRIATION: Facilities exist.
AIRPORT: Internal air services from City Airport, Invercargill, 16 miles by road. Connecting with international airports of Christchurch, Wellington and Auckland.
TIME: GMT plus 12 hours. Summer Time GMT + 13 hrs. from November to February inclusive.
HOLIDAYS: Christmas Day; Boxing Day; New Year's Day; Second of January; Watersiders' Picnic Day (4th Monday, January); Good Friday; Easter Saturday (except by special arrangement); Easter Monday; Easter Tuesday; Labour Day; Anzac Day; Reigning Sovereign's Birthday.
POLICE/AMBULANCE/FIRE:

	Tel. (Emergency)	*(Other)*
Ambulance	Bluff 111	Ingrill 4119
Police	Bluff 111	8844
Fire Brigade	Bluff 111	

TELEPHONES: By arrangement, all vessels can be connected with telephone system.
SERVICES: Compass adjusting, refuse collection daily.
SHORE LEAVE: Allowed.
AUTHORITY: Southland Harbour Board.

GISBORNE: 38.42 S. 178.02 E. (See Plan)

PORT LIMITS: All of Poverty Bay within a line from the Northern point of Young Nick's Head to Tuaheni Point.
DOCUMENTS: See "Auckland".
PILOTAGE: Telegraphic address – Harbour Master, Gisborne. Advance notice – 24 hours of ETA and further confirmed at 4 hours of ETA. VHF Channel 12.

Pilot boat is painted white, 45 ft. in length; exhibits pilot flag or lights. Pilot boards on line of leads (332°) 2 miles from breakwater light.
ANCHORAGE: Vessels awaiting Pilot and berth anchor with Tuaheni Light bearing 084° 3.2 miles in 10 fathoms of water.
RESTRICTIONS: Vessels may be berthed at night according to size, draft and weather conditions.
MAX. SIZE: Maximum length, 570 ft. OA. Beam, No restriction. Draft, 29 ft. at HW, 25 ft. at LW; there can be slight variations according to heights of tide and weather conditions.
HEALTH: Same procedure as "Auckland".
RADIO: Auckland Radio ZLD, Wellington ZLW.
RADAR/VHF: Radar service available – arrangements can be made through Signal Station by means of VHF Channel 12.
TUGS: Tug joins vessels in channel outside breakwater. Normally use ship's lines; if tug's lines used, no extra charge.

A new twin screw Schottel Rudder/Propeller 22 m. steel tug is at present being built for the port, and it will be in service by March 1977. With a bollard pull of approximately 14 tonnes, this vessel named "Turihaua" will be able to cope with any shipping using the port in the foreseeable future.
BERTHING: 700 ft. at 32 ft. depth LW; 1,400 ft. at 18 to 20 ft. depth LW.
SPECIALISED CARGO FACILITIES: Two 1,000 tons for bulk grain etc. silos behind No. 7 berth and a conveyor for loading grain etc. in ships.
STEVEDORES: Advice of ETA and particulars of stowage required in order that required number of gangs can be ordered. Hours of work, Monday to Friday, 0700–1200 hrs., 1300–1800 hrs.; Saturday, 0700–1200 hrs.
MEDICAL: No advance advice required for medical attention. Full hospital facilities available.
TANKERS: Tankers discharge fuel oil and bitumen.
DENSITY: 1025 at all stages of tide.
FRESH WATER: Available by 2.5 ins. hoses at approx. 40 t.p.h. per hose.
FUEL: Fuel is at present only available by rail tanker and should be ordered through ship's Agent in advance.
DEVELOPMENTS: It is expected that present overseas berth will be increased from 700 ft. to 1,300 ft. within about 3 years.
GANGWAY/DECK WATCHMEN: Ships at present provide own watchmen.
OPENING/CLOSING HATCHES: Stevedores normally carry out this work.
CUSTOMS ALLOWANCE: See "Auckland".
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Normal maintenance repairs.
DRY DOCKS: One 400 ton slipway.
REPATRIATION: Full facilities available for effecting crew changes and repatriation. However, no seaman's pool operating at Gisborne. Replacement crew must be obtained from either Auckland or Wellington.
AIRPORT: 3.5 miles. Regular internal service.
TIME: Standard Time is related to the meridian of 180° *East*, i.e. 12 hours ahead of GMT.
AUTHORITY: Gisborne Harbour Board.

LYTTELTON: 43.35 S. 172.42 E. (See Plan)

PORT LIMITS: All those tidal waters of the Port of Lyttelton comprised within the area enclosed by the arc of a circle having a radius of 3 nautical miles from the Northernmost point of Adderley Head.

DOCUMENTS: Customs procedure. Overseas vessels, on arrival in New Zealand, should have following papers ready to produce to Customs Officers:

Register.
Names of Owners and Agents.
Crew List.
Passenger List.
List of Prohibited or Restricted Immigrants.
Search List.
Stores List.
List of any stock or birds on board.
List of Poisons.
List of Firearms.
Statement of excess Tonnage of Cargo.
Statement of quantity of Fuel Oil in double bottoms.
Declarations by Passengers arriving in New Zealand.
Baggage Declarations by Passengers for duty purposes.

On departure for overseas, Master or his Agent is required to produce:

Manifest of Cargo.
Stores List.
Crew List.
Passenger List (if any).
Clearance from the Marine Department (if a British ship).

A home trade vessel under *transire* is required to produce her cargo book to Collector of Customs and such particulars as to passengers, crew, and cargo as the Collector may at any time demand. Cargo book shall contain name and port of registry of ship, Name of Master, and date of arrival at, and departure from each port. Particulars as to dates of arrival and departure must be entered not later than 24 hrs. after time of such arrivals and departures.

PILOTAGE: Masters requiring services of a Pilot must notify Harbour Master of their estimated time of arrival and max. draft not later than 1600 hrs. on day prior to arrival (Monday to Friday). If estimated time of arrival is on a Saturday, Sunday or any public holiday which falls on a Monday, notification must be given before 1600 hrs. on previous Friday. International Code of Signals or Morse Code used for communicating with signal station. Station also equipped with radio telephone. Call sign is Lyttelton Harbour Radio, calling frequencies is 2182 kc/s and working frequencies are 2012 and 2162 kc/s, a continuous listening watch being maintained. Radio telephone equipment also installed in the tug, pilot cutter and Harbour Master's office, and same call signs, frequencies and watches are employed. VHF in operation on International Channels 12, 14 and 16.

Pilot vessel is 16.46 m. in length. Equipped with radar, radio telephone and echo sounder. The pilot vessel is located at the tug wharf in inner harbour and any vessel awaiting arrival of the Pilot, should anchor about 1.5 miles to seaward of Godley Heads, in a depth of 16 m. to 18 m. and await instructions.

The limit of pilotage is a line joining Godley and Adderley Heads.

Every facility must be provided to ensure safe boarding of the Pilot.

ANCHORAGES: *Camp Bay:* Permission must be obtained from the Harbour Master before using this anchorage and draft of vessel is restricted to 8.5 m. All vessels drawing more than 8.5 m. whether awaiting a Pilot or not must use the outside anchorage. Vessels using Camp Bay anchorage should anchor with the anchorage lighted leading beacons situated on the Southern shore of Camp Bay, in transit, bearing 195.5°. Each beacon is painted white and exhibits a fixed red light. Vessels may anchor to the westward of this bearing but must not proceed Westward of a line bearing 345° from the rear anchorage beacon.

Note: Anchoring in or near the dredged channel which extends 2 km inside Heads is not permitted.

RESTRICTIONS: Cargo vessels not berthed during hours of darkness, except at Cashin Quay and Gladstone Pier East.

Tankers are berthed during hours of darkness at the discretion of the Harbour Master. All vessels can depart from their berths during hours of darkness. Vessels holding pilotage exemptions may also enter or depart during the hours of darkness.

The following are the controlling depths at mean low water springs, mud bottom in each case;

entrance to port 14.6 m.
dredged channel 11.30 m.
inside anchorage 11.0 m. (Camp Bay)
approaches to berth 11.0 m.–9.8 m.
alongside berths 12.20 m.–8.60 m.

MAX. SIZE: Max. draft permissible for entering or leaving: 11.28 m. at high water and 9.75 m. at low water. Vessels drawing less than 9.75 m. can enter at any state of the tide. Max. size permissible for entry: length 260 m. at Cashin Quay, any additional length contact Harbour Master, 230 m. at Inner Harbour. No limit on vessel's beam.

HEALTH: Master of every ship about to enter a New Zealand port shall, not later than 12 hrs. and not earlier than 24 hrs. before expected time of arrival at that port, inform Port Health Officer by radio of last port of call, date of departure therefrom, and state of health of vessel.

Arrival of vessels. On arrival, vessel showing International Code quarantine signal, should proceed to inspection to await arrival of Port Health Officer. Inspections are normally carried out at berth.

Radio pratique. Certain ships may be granted pratique by radio and hence need not be visited by a Port Health Officer, provided that medical officer carried as part of ship's complement.

Maritime Declaration of Health. Master of all vessels arriving in New Zealand from any port beyond New Zealand shall complete and deliver to Port Health's Officer a maritime declaration of health countersigned by the ship's medical officer, if required.

Crew List and Passenger List. Master of every ship liable to quarantine should be prepared to furnish Port Health Officer a list of all passengers, showing in respct of each passenger, name, sex, race, age, and port of embarkation; and a list of crew giving the name, race, and rating of each member.

RADIO: Wellington Radio, call sign ZLW; Awarua, call sign ZLB; or Auckland, call sign ZLO.

TUGS: Normally join vessel at Parsons Rock Beacon. Tug lines are used, charge for which is included in the overall hire for tug. Number of tugs required depends on type of vessel and draft.

BERTHING: Requirements for berthing at berths 2, 3, 4, 5, 6 and 7 for vessels over 1,000 tons net are; bow out, the anchor to be used and gangway turned in.

STEVEDORES: Waterside labour can be ordered after arrival of ship at 0630 hrs. up to 0900 hrs. For work on Saturdays orders must be placed by 0900 hrs. Friday. Saturday afternoon work to be ordered by 1030 hrs. Saturday.

For supplementary hours labour must be requisitioned by 1500 hrs. previous Friday and confirmed by 0700 hrs. Monday and daily.

SPECIALISED CARGO HANDLING FACILITIES:

No. 1 Breastwork, Inner Harbour: Grain silos. 2,000 tons capacity, 250 t.p.h. loading rate for coastal shipments.

No. 1 Cashin Quay: Bulk Loading Facilities: Woodchips, grain, etc.

Gladstone Pier, East: Bulk cargo discharges: 5×5-ton electric cranes, 3×100-ton mobile bulk hoppers.

Gladstone Pier, West: Roll-on/Roll-off Coastal and Trans-Tasman Cargo Terminal.

No. 2 Jetty West, Inner Harbour: Roll-on/Roll-off Inter-Island Passengers and Cargo Terminal.

MEDICAL: Hospital facilities are available at Christchurch, 9 miles from port, and international regulations apply in regard to inoculations, vaccinations, etc. Agents can be notified at any time of medical allocation required, preferably with 24 hrs. notice.

TANKERS: All tankers berth alongside oil wharf in Inner Harbour. One berth only is available with a max. draft of 11.28 m. A 10 in. line is used for discharging and loading with suitable fittings for reduction to 8 in. Slop or oily residue facilities are not available.

Oil hoses can be connected and disconnected during hours of darkness. Side connections are connected to discharging arms situated at the middle of the oil wharf.

Berthing is generally starboard to, head out.

DENSITY: 1025, salt water.

FRESH WATER: Available at all berths delivered by hose at a discharge rate of 20 t.p.h.

FUEL: Bunkering facilities available: Oiler fuel oil, supplied by 4 in. and 6 in. diameter bunker hose connected to an 8 in. diameter pipeline, located on the oil wharf.

FIRE PRECAUTIONS: Tankers are not permitted to immobilise engines at the oil wharf. Repairs may be carried out at other wharves with Harbour Master's permission. Boiler and galley fires are not required to be extinguished when loading or discharging. All scuppers are to be plugged and cemented in case of spillages.

DEVELOPMENTS: The new container terminal at Cashin Quay No. 3 will be completed by March 1977 and will have the following facilities: Heavy duty berth 285 m., depth alongside 12.2 m., draft 11.3 m., terminal area 8ha, container slots 1600 stacked two high, reefer electrical connections 400, one Paceco 40 tonne single-lift container crane, seven Clark No. 520 straddle carriers – forklifts, container washing and repairs, CFS – No. 2 transit shed 6680 sq.m., Operator – Lyttelton Harbour Board.

GANGWAY/DECK WATCHMEN: All ships must be provided with a watchman whilst at oil wharf; a shore watchman is also required. Watchmen can be ordered at any time by contacting Seamen's Union at Lyttelton.

OPENING/CLOSING HATCHES: This work is carried out by waterside labour.

CUSTOMS ALLOWANCES: 8 ounces and/or 200 cigarettes per man. 1 bottle of wine and/or 1 bottle of spirits per man.

IDENTIFICATION CARDS: Passes are necessary at oil wharf but not required otherwise.

CONSULS: At Christchurch.

Australia	66-221	Belgium	77-905
Denmark	899-099	France	60-085
Italy	62-799	Japan	60-446
Netherlands	65-669	Norway	65-079
Sweden	65-179	U.S.A.	65-864

REPAIRS: Major work can be undertaken at Lyttelton where a machine shop and foundry are available.

DRY DOCK: A graving dock is available for vessels up to 6,500 gross tons and dimensions of dock are floor length 137.15 m., top length 146.75 m., top width 25 m., entrance width 18.90 m., width in way of ships bilge 16.61 m., sill depth at MHWS 6.63 m. A patent slip is available for vessels up to 231 tons.

REPATRIATION: Facilities are available.

AIRPORT: Distance from Christchurch – 6 miles, served by regular airlines.

TIME: Local time is 12 hrs. ahead of GMT, no alteration to clocks.

HOLIDAYS: Holidays throughout year shall be New Year's Day;

Anzac Day; Provincial Anniversary Day; Waitangi Day; Good Friday; Easter Monday; Labour Day; Birthday of Reigning Sovereign; Christmas Day; Boxing Day; and the Harbour Board's employees picnic day (to be held on same day as the Waterside Workers' Union picnic day. No cargo work is carried out on these days.)

POLICE/AMBULANCE/FIRE: For emergency calls from ships telephones, dial 111 and ask the operator for service required.

TELEPHONES: Arrangements can be made with Harbour Master for telephones to be placed on board.

SERVICES: Tank-cleaning and tank-washing facilities are available as well as a compass adjuster.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Lyttelton Harbour Board, Christchurch.

MANUKAU HARBOUR (Onehunga): 37.03 S. 174.31 E.

PORT LIMITS: All that area of water contained within an area bounded to seaward by an arc of a circle 4 miles radius from the Southern extremity of Paratutai Island.

DOCUMENTS: See "Auckland".

PILOTAGE: Not compulsory, but arrangements can be made with the Harbourmaster at Auckland to supply the services of a Pilot if required. A Pilot will then board a vessel off Te Priau, situated about 2 miles N.E. of South Head main light.

Pilotage District: All those waters of the Manukau Harbour contained within a line drawn 180° to the South shore from Jackie Hill on Kaiteke Point 015.5° – 2.85 miles approximately from the Southern extremity of Paratutai Island).

ANCHORAGES: After crossing the bar it is not advisable to anchor until after rounding Puponga Point, if proceeding to Onehunga; or after rounding Kauri Point (situated about 1.5 miles S.E. of Puponga Point), if proceeding to the Southward.

Prohibited anchoring and fishing area. Within an area extending 2 miles from Destruction Gully front beacon in a 182° direction and having a width of 152 m. (500 ft.) on each side of the transit of Destruction Gully beacons.

Prohibited Anchorage: Within 91 m. (300 ft.) of a sewage submarine pipe-line laid in a 152° direction across Wairopa Channel about 1 mile Westward of Onehunga Wharf. On the Northern shore, 2 white triangular beacons, each bearing the word "Sewer" in black letters, mark the middle of the prohibited anchorage. The pipe-line lies approximately 3 m. (10 ft.) to the Eastward of the beacons when in transit.

Prohibited Anchoring and Fishing Area: Anchoring and fishing are prohibited within an area bounded by a line commencing at the South end of Renton Road (Lat. 37° 00.08′ S., Long. 174° 45.2′ E.); thence running 180° for 8,500 ft.; thence 090° for 19,000 ft.; thence 050° to the shore. The Northern boundary commences at Nganui Point (Lat. 37° 00′ S., Long. 174° 48.4′ E.); thence 090° to the opposite shore.

The above area, adjacent to Auckland International Airport, is marked by following lights and beacons, bearings and distances from Aero light (37° 00.48′ S., 174° 47.31′ E., approx.).

Light F. 088° 45′ 1,936 m. (6,350 ft.)
Beacon 259° 30′ 3,185 m. (10,450 ft.)
Beacon 220° 45′ 2,484 m. (8,150 ft.)
Beacon 183° 15′ 1,890 m. (6,200 ft.)
Beacon 143° 2,317 m. (7,700 ft.)
Light Beacon Qk. Fl. 239° 3,642 m. (11,950 ft.)
Light Beacon Fl. R.2 secs. 122° 45′ 3,466 m. (11,370 ft.)
Light Beacon Fl. R.2 secs. 112° 45′ 3,261 m. (10,700 ft.)
Light Beacon Fl. R.2 secs. 108° 30′ 2,453 m. (8,050 ft.)

RESTRICTIONS: Berthing and unberthing during the hours of darkness is not recommended.

	Controlling Depths Below Chart Datum	*Nature of Bottom*
Entrance to port (Southwest Channel)	5.48 m. (18 ft.)	Sand.
Anchorages	5,486 m. – 7.62 m. (18–25 ft.)	Mud, Shell, and sand.
Channel	3.048 m. (10 ft.)	
Approaches to berth	3.048 m. (10 ft.)	
Berth (Onehunga)	3.962 m.–4.877 m. (13–16 ft.)	

MAX. SIZE: LOA, 300 ft. Beam, No limit. Draft 16 ft.

HEALTH: See "Auckland".

RADIO: The signal station is equipped with both medium frequency and VHF radiotelephone. Call sign is ZLEF and VHF Channels 10, 11, 12, 13, 14 and 16.

Listening watches are maintained as follows—

0800 to 0830 – Call 2182 kHz, work 2012 kHz.
0830 to 0900 – Calling and working 2012 kHz.
1800 to 1830 – Calling 2182 kHz, working 2012 kHz.
1830 to 1900 – Calling and working 2012 kHz.
0800 to 0900 – VHF Channel 16.
1800 to 1900 – VHF Channel 16.

Other times by arrangement.

Note: Should a vessel be crossing the bar during the scheduled watch periods, the signalman will be working on 2012 kHz with that vessel and not listening on 2182 kHz.

Vessels equipped with radiotelephone must maintain contact with the signal station while working the bar.

Weather conditions permitting, information concerning bar conditions will be supplied on request to the signal station. Such information can only be regarded as a guide, as observations are made from the signal station which is situated about 5 miles from the bar and elevated 243.84 m. (800 ft.).

Radiotelephone – Onehunga: A radiotelephone is installed at the office of the Officer-in-Charge at Onehunga. The call sign is ZLEF2 and the working frequency 2012 kHz.

Vessels equipped with radiotelephone, when within Puponga Point, must maintain a listening watch on 2012 kHz for information relative to berthing, harbour traffic or other harbour conditions.

No regular watches are maintained.

VHF: See "Radio".

RADAR: No radar.

TUGS: 1 twin screw *Manukau* is available. 52.5 tonnes gross, 400 b.h.p., static pull 3.5 tonnes. Tug is equipped with both medium and VHF Radiotelephone, Channels 6, 10, 11, 12, 14 and 16.

BERTHING: The principal wharf is situated at Onehunga and is a ferro-concrete structure 293 m. (962 ft.). in length which includes a launch jetty of 17 m. (56 ft.) at the Eastern end, and with a width of 49 m. (160 ft.). A grid for the use of small craft has been constructed immediately North of the wharf. There are small jetties at Cornwallis and Grahams Beach.

The deck level of the wharf is 6.401 m. (21 ft.) above chart datum.

The wharf is connected to the railway system, and the distance from the outside face of the wharf to the centre of the railway track is 3.73 m.

CRANES: 6 ton mobile cranes available. For heavier loads cranes available for hire from outside port.

SPECIAL CARGO FACILITIES: None. Coastwise import, only bulk cargo.

STEVEDORES; Arranged by Agents. See "Auckland".

MEDICAL: See "Auckland".

TANKERS: No facilities.

DENSITY: 1025.

FRESH WATER: Available.

FUEL: Boiler fuel oil, diesel oil, and lubricating oil are available from tank wagons; delivery at the rate of 13,500 litres per hour through a 50 mm. hose. Coal is not kept in stock but can be obtained.

CONSULS: See "Auckland".

REPAIRS: Outside firms are available to do machine shop and foundry work.

DRY DOCKS: No facilities.

SURVEYORS: See "Auckland".

GANGWAY/DECK WATCHMEN: See "Auckland".

HATCHES: See "Auckland".

CUSTOMS ALLOWANCE: See "Auckland".

AIRPORT: 6 miles from port.

TIME: GMT plus 12 hours. Add 1 hour for Summer time October to March.

HOLIDAYS: See "Auckland".

AUTHORITY: Auckland Harbour Board.

NAPIER: 39.29 S. 176.54 E. (See Plan)

DOCUMENTS: See "Auckland".

PILOTAGE: Vessels should advise ETA and draft to Harbour Master Napier 24 hours prior to arrival, ETA to be confirmed or amended 4 hours before original ETA or 4 hours before arrival, whichever first.

VHF pilot boat and watchtower. Listen Channel 16. Work Channel 12.

Pilot boat 65 ft. long, painted white, funnel green over blue with white dividing band and red spoked wheel on white disc and black top. Pilot boards inward vessels on main leads 1 mile East of roadstead buoy.

ANCHORAGES: Anchorage 1 mile East of roadstead buoy. 9 fathoms. Bottom sand and mud.

RESTRICTIONS: Vessels are berthed between 0500 hrs. and sunset. Vessels up to 25 ft. 6 in. draft may berth at any state of tide.

MAX. SIZE: Max. length OA 620 ft,; beam, no limit; draft, 28 ft. 7 in. with extension to 29 ft. Subject to beam of vessel and prevailing conditions.

Tanker and bulk carriers berthed at 29 ft. draft. Subject to prevailing swell conditions and being able to commence discharge immediately on arrival.

HEALTH: Cable port health Napier 24 hours before arrival. Doctor will board on arrival.

RADIO: Cables should be routed through Wellington Radio ZLW. Radio telephone -Napier Watchtower listens 2182 kc/s for 15 mins. at following times; 0400, 0800, 1200, 1600, 2000, 2400 hrs. and by arrangement. Working frequency is 2162 kc/s. VHF listening watch as above for R/T and continuous during office hours.

TUGS: Two tugs take ship's line inside breakwater.

BERTHING: Vessels at max. draft limited to HW. Notification must be received before 1500 hrs. on Friday for any shipping movement over weekend and 1500 hrs. on day preceding public holidays.

SPECIALISED CARGO FACILITIES: Wood pulp store situated adjacent Higgins Wharf South, area 126,000 sq. ft. with 27 ft. clear height.

Bulk fertiliser store adjacent Higgins Wharf, capacity 55,000 tons.

STEVEDORES: ETA required for discharge ships 24 hours before arrival. Loading ships 48 hours before arrival with proposed stowages and vacant spaces. Advice number of gangs able to work. All work done by ship's tackles.

MEDICAL: No prior notice required for medical attention. Hospital facilities available. Advice would be needed of any contagious disease on board in advance.

TANKERS: Standard size discharge lines. All connections supplied by oil companies. Five berths, max. draft 29 ft.

DENSITY: 1025.

FRESH WATER: Available all berths 20T per hour per hose.

FUEL: 220 and 1,000 p/sec. Oil available ex-pipe-line at 110 t.p.h. L/Marine diesel and gas oil ex-road tanker. All at immediate notice. Lubricating oil available. 1 weeks notice. No residue service available.

FIRE PRECAUTIONS: Watchman supplied on wharf at ship's expense when tankers discharging.
GANGWAY/DECK WATCHMEN: Cargo watchmen supplied on request at current award rates.
OPENING/CLOSING HATCHES: Hatches normally opened and closed by stevedores unless automatic type.
CERTIFICATES:

Ship's Register
Health Certificate
Cargo Safety Certificate
Radio Safety Certificate
Load Line Certificate

CUSTOMS ALLOWANCES: See "Auckland".
IDENTIFICATION CARDS: Not required.
REPAIRS: First class service available.
REPATRIATION: On arrangement with Customs and vessel's Agents.
AIRPORT: Hawke's Bay Airport, served by internal airline 3 miles from port.
TIME: GMT plus 12 hours.
HOLIDAYS: New Year's Day; 2nd January; Picnic Day (last Wednesday in January) (vessels berthed but cargo not worked on any of these holidays); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday in June); Labour Day (nearest Monday 25th October); Christmas Day; Boxing Day.
POLICE/AMBULANCE/FIRE: Emergency telephone 111.
TELEPHONES: Connection all berths.
GENERAL: Due to open port and swell, ship's engines to be kept at 12 hours notice of readiness.
SHORE LEAVE: No restrictions.
AUTHORITY: Hawkes Bav Harbour Board.

NELSON: 41.17 S. 173.17 E. (See Plan)

PORT LIMITS: Within 3 miles radius of Nelson Lighthouse.
DOCUMENTS: See "Auckland".
PILOTAGE: Compulsory for vessels of 100 n.r.t. and over. If possible 24 hours notice of ETA to Harbour Master. Confirm ETA before 1600 hrs. Friday if arriving during weekend or public holiday.

Radio telephone 2182 kc/s. and 2162 kc/s., call sign Nelson Harbour Board. Listening watch 10 minutes every 4 hours commencing at 0000 hrs. After contact has been established a further listening schedule can be arranged.

VHF on Channel 16 listening and Channel 12 working. Pilots board inward-bound vessels about 1.5 to 2 miles to seaward of main entrance.

Anchorage awaiting Pilot in depth about 30 ft., mud, with Boulder Bank lighthouse bearing 130° distance 8 cables. Pilot vessel 36 ft. double-ended flush-decked vessel painted orange.

ANCHORAGES: Anchorage as indicated in pilotage or further seaward according to weather conditions, draft and length of stay at anchor.
RESTRICTIONS: Vessels may enter, berth, unberth, or leave during hours of darkness. Overseas vessels (over approx. 380 ft.) enter port on flood tide and usually swing and berth port side to.
MAX. SIZE: Max. permissible length 580 ft. Beam no limit. Draft limits 28 ft. Max. draft at Main Wharf is 26 ft.
HEALTH: Doctor clears vessel after berthing. Pratique automatic after clearance at first port. If suspected disease or fever on board advise Medical Officer of Health, Nelson, by radio and await instructions.
RADIO: ZLW Wellington Radio; ZLB Awarua Radio; ZLD Auckland Radio.
TUGS: Two tugs available, joins vessel inside harbour. Tug's own line used on berthing. Tugs are equipped for fire-fighting.
BERTHING: Vessels should endeavour to make their arrival as early on flood tide as possible.
SPECIALISED CARGO-HANDLING FACILITIES: Facilities are available at one general cargo berth for discharging motor spirits and oil. Another berth is used for loading wood chips pneumatically (the loading equipment is owned by Nelson Pine Forest Limited, Nelson). Common user Roll-on/Roll-off Link span.
STEVEDORES: Labour ordered 0700 hrs. for weekday work; 0900 hrs. Friday for Saturday work. ETA should be received by Agents before these times.
MEDICAL: Advise Agents of any medical attention required, giving up to 24 hours notice. Hospital facilities are obtainable. Smallpox vaccination certificates are required.
TANKERS: Diameter of discharge pipe, 10 in. white products; 8 in. black oil. No slop discharge facilities. Oil tanker berth, one only. Max. draft at berth 26 ft.
DENSITY: Average sea water, 1025.
FRESH WATER: Obtainable at any time. Approximately 20 t.p.h. delivery rate.
FUEL: Marine fuel oil, gas oil. Notice required, 24 hours.
GANGWAY/DECK WATCHMAN: Watchman necessary but usually provided by ship's crew. Shore watchman can be engaged if requested by vessel. Cost in accordance with national award.
OPENING/CLOSING HATCHES: By stevedores only.
CUSTOMS ALLOWANCES: See "Auckland".
IDENTIFICATION CARDS: Not required.
REPAIRS: Deck and engine repairs are possible. (No underwater damage repaired.)
DRY DOCKS: Slipway available for up to 1,500 ton vessels.
REPATRIATION: Facilities exist.
AIRPORT: Distance 3 miles. Served by internal airline only.
TIME: GMT plus 12 hours. Daylight saving in Summer months, advance clocks 1 hour.
HOLIDAYS: New Year's Day (1st Jan.); 2nd Jan.; Picnic Day (usually near end Jan.); Anniversary Day (1st Monday in Feb.); New Zealand Day (6th February); Good Friday; Easter Monday; Queen Elizabeth II Day (1st Monday in June); Labour Day (4th Monday in October); Christmas Day; Boxing Day. No cargo work on these days.
POLICE/AMBULANCE/FIRE: Police 88309; Ambulance 88299; Fire 81589; Emergency calls, dial 111.
TELEPHONES: Can be connected on board.
SHORE LEAVE: Allowed.
SHORE POWER: 400 v., 3 h.p. 50 Hz, 60 amps max.
AUTHORITY: The Nelson Harbour Board.

NEW PLYMOUTH, Port Taranaki: 39.03 S. 174.03 E. (See Plan)

PORT LIMITS: All waters contained within the area of a circle with radius 2.5 nautical miles whose centre is the trig station on Mount Moturoa in position 39° 03′ 56.8″ S. 174° 01′ 44.9″ E.
DOCUMENTS: *Customs:* See "Auckland".

Agriculture: Shipmaster's Bond List. Meal Locker Declaration Form AGL 36 (2 copies).

Health: Maritime Declaration of Health (issued by Port Health Officer).

PILOTAGE: Compulsory. Telegraphic address "Harbour Master, New Plymouth". 3 days notice preferable with 1 day confirmation. VHF Channel 16. R/T 2182 kc/s.

Pilot boat white with buff deckhouse, either "Rawinia" or "Pilot" in black on side. Pilot taken on board about 1.5 miles due North of Main Breakwater Head.

ANCHORAGE: Vessels can anchor to the West of a line due North from the Main Breakwater head seaward of the 10 fathom line. Good holding on sandy bottom. Not recommended in Northerly weather conditions.
RESTRICTIONS: Ships not berthed during hours of darkness although permitted to sail. Draft max. 30 ft. (9.15 m.) may be exceeded after prior consultation with Harbour Master. Ships under 21 ft. not affected by state of tide. In range 21 ft. to 30 ft. (9.15 m.) time of berthing relevant to high tide.
MAX. SIZE: Max. size 700 ft. (213.4 m.) overall, breadth no limit.
HEALTH: Port doctor boards on arrival at berth. In event of suspected disease on board, will board in pilotage area. Pratique automatic if vessel has already called at another New Zealand port.
RADIO: Radio telephone system operates watches for 15 minutes every 4 hours from midnight. Call sign New Plymouth Harbour Radio, call frequency 2182 kc/s. Working frequency 2012 and 2162 kc/s. 24 hour watch maintained on VHF Channel 16. ETA cables generally received through Wellington Radio. All outward messages routed through Wellington Radio.
TUGS: One tug available. 700 h.p.
BERTHING: In general all ships are swung in basin coming alongside berth stern first. Shore moorings are used.

Breakwater: (Under construction): Length, 122 m.; width, 10 m.; depth alongside LWOST, 5.5 m. For use by oil field barges, supply vessels and fishing vessels. Road transport only.

Moturoa Wharf: Length, 335 m.; width, 27.4 m.

East side of wharf: 1 berth 260 m. long, depth alongside LWOST 10 m. Four 3 tonne portal cranes (5 tonne at reduced radius) 1 berth 76 m. long, depth alongside LWOST 4.9 m.

West side of wharf: 1 berth 137 m. long, depth alongside LWOST 7.9 m. Bunkering point on No. 2 berth. All classes of bulk oil may be discharged at No. 2 berth. Road and rail transport may be used to load and discharge dry cargo.

Newton King Wharf: Length, 366 m.; width, 22.9 m.

East side of wharf: 1 berth 244 m. long, depth alongside LWOST 10 m. 1 berth 50 m. long, depth alongside LWOST 7.6 m.

West side of wharf: 2 berths 366 m. overall, depth alongside LWOST 10 m. One 1.5 tonne and one 2 tonne portal crane. Bunkering points in berths 2, 3 and 4. All classes of bulk oil may be discharged at berths 2 and 4, crudes may be loaded at berths 2 and 4. Road and rail transport may be used to load and discharge dry cargo.

Blyde Wharf: West side of the wharf: length, 426 m., width of apron, 19 m.; width including open storage, 82 m.; depth alongside LWOST, 11 m. Two 2 tonne portal cranes. Rail and road transport may be used to load and discharge cargo. Open hard standings for transit cargo storage are available, a small container facility is provided.

East side of the wharf: Length, 80 m.; width, 5.5 m. and 13.4 m.; depth alongside LWOST, 5.5 m. Road transport only. For use by oil field supply vessels.

One mobile Lima heavy lift crane capacity 70 tons at 12 ft. from wharf edge to 25 tons at 40 ft. from wharf edge available at No. 2 berth.

STEVEDORES: Labour must be engaged between 0700–0900 hrs. Monday to Friday. Agents should be advised ETA at least 24 hours, preferably 72 hours, in order arrange cargo if vessel loading. Normal cargo working hours Monday–Friday 0700–1200, 1300–1700 hrs. Saturday 0700–1200 hrs. Supplementary hours may be worked Monday–Friday. 1700–2300 hrs. if labour available. No work on Sundays.
MEDICAL: Hospital services available.
TANKERS: Black oils 10 in. pipe-line; white oils 8 in. pipe-line. 3 of 4 berths available for tankers, max. draft 30 ft. (9.15 m.). Small de-ballasting tank available.
DENSITY: Sea water.
FRESH WATER: Available all berths from main supply at about 100 t.p.h.

FUEL: Light fuel oil and gas oil pipe-line connected all berths, except Blyde Wharf. Gravity fed at about 100 t.p.h. Can be arranged at 24 hours notice.
FIRE PRECAUTIONS: Tanker berths closed to public with Harbour Board watchman in attendance.
DEVELOPMENTS: New reclamation of 23 acres providing berths for 2 overseas vessels. Is now fully operational. These berths are suitable for handling heavy lifts, PAD type roll-on/roll-off vessels, limited container use and a container cleaning installation is provided.
GANGWAY/DECK WATCHMEN: Not available and not necessary.
OPENING/CLOSING HATCHES: Stevedores must carry out this work.
CERTIFICATES:
Normal Safety Certificates.
Ship's Register.
CUSTOMS ALLOWANCES: See "Auckland".
IDENTIFICATION CARDS: Not required.
CONSULS: None available locally.
REPAIRS: All repairs except underwater work of a major nature.
REPATRIATION: Facilities exist.
AIRPORT: Is 7 miles from city, 10 miles from port. Served by domestic service only, 2 flights Northbound and Southbound each daily.
TIME: 12 hours ahead of GMT. No adjustment made.
HOLIDAYS: New Year's Day; Stevedores Picnic (4th Wednesday January); Provincial Anniversary Day (2nd Monday March); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday June); Labour Day (4th Monday October); Christmas Day; Boxing Day.
POLICE/FIRE/AMBULANCE: Telephone numbers respectively, 75449, 75505, 75439.
TELEPHONES: Can be connected on board.
GENERAL: Ship's garbage must be in covered containers supplied by Harbour Board and removed daily. Any meats on board vessel on arrival which have been supplied from other than Australia or New Zealand will be sealed off and fresh supplies obtained.
SHORE LEAVE: No restriction.
AUTHORITY: Harbour Master, Taranaki Harbours Board.

AGENT: Newton King Ltd., Shipping Department, 232 Devon Street East, (PO Box 244), New Plymouth, New Zealand. Telegrams, "Kingship". Tel. 75719 (10 lines) Business, 83174 Residence. Telex, N.Z 3275, Answerback "Newking".

OPUA: 35.19 S. 174.07 E. (See Plan)

PORT LIMITS: Commencing at Northern extremity of Cape Wiwiki, thence by a right line to the Eastern extremity of the Nine Pins, thence by a right line to the North Western extremity of Cape Brett.
DOCUMENTS: See "Whangarei".
PILOTAGE: Compulsory Southward of a line from the Western extremity of Kororareka Point following a true bearing of 253° towards the flagstaff at Waitangi Treaty House. Pilotage shall be optional within the waters contained Northward of the above mentioned line and Westward of a line commencing from the Eastern extremity of Tapeka following a 350° true bearing to the Eastern extremity of the Black Rocks, thence in 271° true direction to the mainland. Pilots are available all hours day and night subject to prior minimum notice of 24 hours being received during normal weekday working day. Second notice confirming or amending first to be sent 4 hours before expected arrival. The Pilot supplies Harbour By-laws. Pratique, Agriculture and Customs clearance is normally undertaken on arrival at berth. Pilot vessel under private contract – No VHF contact — Pilot from Whangarei.
ANCHORAGE: Renown Anchorage as per Bay of Islands Chart N.Z. 5122.
RESTRICTIONS: Veronica Channel dredged to 7 m. at Chart Datum. Maximum Draft is 8.53 m.
RADIO: See "Whangarei".
TUGS: Available by arrangement with Northland Harbour Board, Whangarei. At least 72 hours notice required.
BERTH: Total length 214 m., width 12.5 m., overseas berthage on Eastern side of wharf. Depth at berth is 9.45 m. at MLWS. Wharf is serviced by rail.
CARGO HANDLING: Ships own gear. 2 permanent gangs available subject to Stevedore requirements as per Whangarei.
MEDICAL: Hospital and Ambulance at Kawakawa, 8 miles from Opua. Port Doctor at Paihia, 5 miles away.
DENSITY: 1025.
FRESH WATER: Fresh water available – 200 tonnes in storage. 30 cents per 1,000 litres.
FUEL: By arrangement with Oil Companies via road transport.
CUSTOMS ALLOWANCE: See "Whangarei".
CONSULS: See "Whangarei".
REPATRIATION: See "Whangarei".
TIME: See "Whangarei".
HOLIDAYS: See "Whangarei".
POLICE/AMBULANCE/FIRE: See "Whangarei".
TELEPHONES: Telephones available.
SHORE LEAVE: See "Whangarei".
SURVEYORS: See "Whangarei".
AIRPORT: See "Whangarei".
REGULATIONS: See "Whangarei".
DELAYS: See "Whangarei".
AUTHORITY: Northland Harbour Board.

OTAGO, (includes Dunedin, Port Chalmers and Ravensbourne): 45.46 S. 170.43 E. (See Plan)

DOCUMENTS: See "Auckland".
PILOTAGE: Address "Harbour Master, Dunedin." Through coastal radio stations ZLW (Wellington) or ZLB (Awarua) giving ship's name, draft, and ETA. First message 72 hours out, revise 24 hours out: if from another New Zealand port (coastwise) similar message as soon as possible after leaving that port. Subsequent contact with port private radio station Taiaroa Heads on 2182 kc/s. or VHF Channel 16. Pilot boat is 55 ft., white launch, also fitted with same frequencies, which meets vessels as required but does not remain on station otherwise. Boarding position is with Taiaroa Head Lighthouse bearing 170° distant 2 miles; good anchorage in same position, depth 12 fathoms. Pilots can always board in this vicinity provided Master has ship under way at slow speed and obeys Pilot's instructions. Vessels arriving to work general cargo should endeavour to embark Pilot by 0500 hrs. in order to be alongside berth ready to take labour on board at normal commencing hour of 0700 hrs.
ANCHORAGES: With Taiaroa Heads Lighthouse bearing 170° distant 2 miles, good holding ground in all weathers, safe except in very strong Easterly gales which are extremely rare. If this position is already occupied by another vessel, there is ample room close Westward, Northwestward, and Northward. Depths 12 to 16 fathoms.
RESTRICTIONS: Tankers proceeding to or from the oil jetty at Dunedin make passage of the upper harbour in daylight hours only. Otherwise ships are not boarded between midnight and 0500 hrs. as no working time is gained by so doing, unless vessel requires HW for transit.
MAX. SIZE: For berthing at *Port Chalmers:* Max. draft 34 ft. at high water, 29 ft. at low tide. Channel is worked as required by circumstances; it is not restricted to slackwater. Max. size of ship dependent on displacement; largest to date, length 702 ft. but vessels with displacement up to 35,000 tons may safely berth and larger vessels will be considered individually. For berthing in the upper harbour at *Dunedin* or *Ravensbourne*, max. draft 26 ft. high water, 21 ft. zero tide; max. length 603 ft.
HEALTH: Master to radio to Port Health Officer (entry port in N.Z. only) 24 hours before ETA requesting free pratique or declaring adverse state of health. Agents will advise Port Health Officer and Health Department inspectors who will board vessel on arrival, alongside actual wharf if free pratique requested. N.Z. regulations will require sealing of domestic meat chambers and purchase of local meats for use coastwise.
RADIO: Through Awarua Radio ZLB or Wellington Radio ZLW.
RADAR/VHF: Port radio station at entrance Taiaroa Head (Harbour Radio) maintains 24-hour watch on R/T 2182 kc/s. and VHF Channel 16. Radar operated at station on request has range in excess of 20 miles to North and East.
TUGS: Tugs used in vicinity of wharves turning, berthing and unberthing, etc. Tug's lines used without charge.
BERTHING: Some restrictions for larger vessels berthing with flood tide at Beach St. Wharf Port Chalmers.
STEVEDORES: Labour for Saturday work must be ordered by 0830 hrs. Fridays, otherwise by 1430 hrs. for following day. Advise Agents of firm ETA in time to judge this. Evening shift work to 2300 hrs. can be arranged when labour available.
MEDICAL: Emergency medical services and full hospital services always available at short notice. Emergency advice by radio available. Top priority given arrangements for landing urgent cases for medical treatment.
TANKERS: Diameter of lines 8 in.; minor slop facilities only; one tanker discharge berth 700 ft. long, 28 ft. depth alongside at low water. Max. size ship 603 ft. long; draft for channel transit 26 ft.
DENSITY: Harbour density 1024 all states of tide.
FRESH WATER: Fresh water available all berths, approx. delivery rate 20 t.p.h.
FUEL: Bunkers available at oil berth; all grades up to 1,000 secs. Redwood.
DEVELOPMENTS: New George St. Wharf Port Chalmers 1000 ft. long, 45 ft. depth at low water alongside, for container ships. Operative December 1976.
GANGWAY/DECK WATCHMEN: Shore watchman not normally required except at entry to oil jetty, such watchman arranged for by oil company. Ships required to maintain own gangway surveillance.
OPENING/CLOSING HATCHES: Automatic hatch gear may be operated by ship's personnel. Manual hatches by shore labour only.
CERTIFICATES: Normal cargo gear and equipment certificates as required for British ports; also Fumigation (Rats) or Exemption Certificate.
CUSTOMS ALLOWANCES: See "Auckland".
IDENTIFICATION CARDS: Not required for British subjects. Alien identification cards to be retained on board in case of need.
CONSULS: Consular agencies France, Norway, Denmark, Sweden, Germany, Italy, Netherlands, Portugal.
REPAIRS: All types deck and engine repairs possible; good machine shops, etc.
DRY DOCKS: None.
REPATRIATION: Repatriation arrangements can be made.
AIRPORT: Dunedin is served by all internal main airlines with connections to overseas via Christchurch, Wellington and Auckland. Airport 35 minutes from Dunedin City by car.
TIME: N.Z. Standard Time throughout year is GMT plus 12 hours, except that Summer time now operates from last Sunday in October to first Sunday in March. (Add 1 hour).
HOLIDAYS: As for all N.Z. ports, i.e. January 1st and 2nd; Good

Friday and Easter Monday; Anzac Day (April 25th); 1st Monday in June; Labour Day (Monday, nearest October 24th); Christmas Day and Boxing Day; Waterside Picnic day (Wednesday at end January). Where New Year and Christmas holidays coincide with Saturdays and/or Sundays, holidays are taken following Monday and/or Tuesday. General cargo not worked on these days nor on Sundays: tankers discharge 365 days: ships arrive and depart regardless of holidays. Container ships worked all days except Good Friday and Anzac Day.

POLICE/AMBULANCE/FIRE: Police 76012; Ambulance 77111; Fire Brigade 79111; Hospital 76740; Emergency (serious) dial 111 and ask for any service needed.

TELEPHONES: Slot telephones can be put on board with all local calls free, others by cash in slot.

GENERAL: No special moorings are required. Harbour, though tidal, is landlocked and there is no surge at any berth. Tide rise averages 6 ft. above datum (extremes 5 ft and 8 ft.).

SERVICES: Radar and gyro compass technicians available. Good shop and providore facilities. Compass adjuster usually available.

SHORE LEAVE: Crew members not restricted ashore.

REGULATIONS: No special local regulations, but all N.Z. ports have very strict rules for garbage collection and disposal, etc. and against oil spillage.

DELAYS: Ample berths normally available. Occasional delays for labour shortage or wet weather (rainfall average 30 in. per year). Small quantities bunkers available ex-tank wagons at any berth. Larger quantities obtainable by shifting to oil jetty outside cargo work hours or as otherwise convenient.

AUTHORITY: Otago Harbour Board.

PICTON: 41.17 S. 174.00 E. (See Plan)

PORT LIMITS: A straight line drawn in a 303° direction from Paparoa Point on Arapawa Island to the opposite shore of the mainland. A straight line drawn between East Head and West Head, Tory Channel Entrance.

DOCUMENTS: See "Auckland".

PILOTAGE: Pilotage is compulsory inside a straight line drawn in a 180° direction from Snake Point to the opposite shore, including all the waters of Tory Channel. Pilotage in the Outer Reaches of Queen Charlotte Sound and in Pelorus Sound is optional. Unless otherwise requested, Pilot will board vessels between Long Island and Motuara Island. By arrangement with the Harbour Master, Pilots will board vessels 7 cables east of Snake Point, where a Pilot is not required in the optional pilotage area. By arrangment with the Harbour Master, vessels may enter and leave via Tory Channel, subject to weather, when Pilot will board and leave 1 mile S.E. of West Head Light. Application for a Pilot must be made at least 4 hours before the estimated time of arrival. For vessels arriving at night or during the weekend, application should be made no later than 1530 hrs. on the last previous working day. Pilot boat 14.6 m. in length equipped with VHF radio Channel 16. Call sign "Picton Harbour".

ANCHORAGE: Except during strong N.W. winds, there is a good anchorage Northward of Mabel Island in 16 fathoms for vessels of all sizes.

Quarantine Anchorage. Within the navigable area to Westward of Mable Island enclosed between the foreshore and a line from Kaipupu Point 047° to the Western extremity of Mable Island, thence 349° to Wedge Point. Vessels not in quarantine can use this anchorage.

RESTRICTIONS: Controlling depth in approaches to anchorage is 13 m. MLWOS.

MAX. SIZE: Max. length 201 m. Draft, 11 m. aft, 8 m.–10 m. forward depending on length. Vessels of this size can berth at any state of the tide. Longer vessels may be accommodated by arrangement with the Harbour Master.

HEALTH: First entry at a New Zealand port pratique is granted after vessel berths provided she has a clean bill of health from her last port, otherwise vessel would anchor in the quarantine anchorage, where port Health Officer would board. Once clear at the first port in New Zealand no further pratique is required.

RADIO: Port is equipped with medium frequency and VHF, call sign "Picton Harbour Radio", calling frequency 2182 kc/s. Watch is maintained Monday to Friday, 0900 to 0933, 1140 to 1203, 1540 to 1603 hrs. daily and at other times by arrangement. In addition the following schedule is maintained for communication with the road/rail ferries: 0103, 1140, 1640, 2020, 2050 hrs. Sundays only: 1603 hrs.

TUGS: None.

BERTHING: One overseas wharf 240 m. length with accommodation for two vessels. Depth at wharf up to 11.58 m.

2 road/rail ferry berths 152 m. long with modern terminal facilities for roll-on/roll-off traffic.

STEVEDORES: Agents will provide gangs and other facilities provided Master gives prior notice of his requirements.

MEDICAL: It is necessary for Master to give his Agent as much advance notice as possible. Two doctors reside in the port. Hospital at the port and the main hospital at Blenheim, 35 km. by road. Ambulance service available.

DENSITY: 1025.

FRESH WATER: Supplies available at 30 t.p.h. Cost 75 cents/1,000 gals.

FUEL: By tank wagon only.

GANGWAY/DECK WATCHMEN: Required by general harbour regulations and is generally carried out by ship's deck hands.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: See "Auckland".

CARGO GEAR: Marine Department control this and regulations are issued accordingly. These regulations are very similar to those in the United Kingdom.

IDENTIFICATION CARDS: Not required.

CONSULS: These are stationed at Wellington. (See "Wellington".)

REPAIRS: Small repairs undertaken by three companies.

REPATRIATION: Crew changes can be made.

AIRPORT: Woodbourne -22 miles by road from Picton, served by feeder services to Wellington – Christchurch. Local seaplane service from Picton Harbour.

TIME: GMT plus 12 hours, Daylight saving time, plus 1 hour, in force from October to March.

HOLIDAYS: New Year's Day, Anniversary Day, Good Friday, Easter Monday, Labour Day, Sovereign's Birthday, Christmas Day, Boxing Day, Anzac Day, Watersiders' Workers Picnic Day, New Zealand Day.

POLICE/AMBULANCE/FIRE: Police, tel. 439; Ambulance, through doctor or in case of emergency tel. 207; Fire, ring exchange operator.

TELEPHONE: Facilities exist to place telephones on board.

SHORE LEAVE: Allowed.

AUTHORITY: Marlborough Harbour Board.

TAURANGA (Mount Maunganui): 37.39 S. 176.11 E. (See Plan)

PORT LIMITS: An arc of a circle of 2 nautical miles radius running from the landward boundary of the foreshore on Matakana Island, and thence into the Bay of Plenty to a position intersection of a right line with North Rock Light, bearing 273°; thence to North Rock Light; thence in a 180° direction to the landward boundary of the foreshore, and having as its centre, trig. station A, Mount Maunganui, Block 6 Tauranga Survey District.

DOCUMENTS:

3 Crew Lists
3 Passenger Lists
1 Search List (on regulation form)
1 Bonded Store
1 Gift List
1 Inward Report Check List (C. Form 98)
1 Declaration by Master of Restricted Immigrants
1 M.O.T. Declaration of Safety Certificate
1 Maritime Declaration of Health
1 Cargo Manifest (for each Port of discharge)
1 De-Rat
1 Clearance, Last Port
1 Poisons on Board
1 Firearms on Board
1 Ship's Papers

PILOTAGE: Pilotage is compulsory for merchant vessels of over 100 tons net tonnage; Pilot boards vessel about 2 miles N.E. of North Rock light structure. If due to adverse weather conditions, the Pilot is unable to embark, the pilot launch may, in certain circumstances, lead the vessel into smoother waters and embark abreast No. 2 light buoy. All vessels inward bound must give 24 hours notice by radio of their expected time of arrival off the port limits. If bound from Auckland or near ports, vessels send their expected time of arrival immediately on departure from that port.

A second message confirming or amending the first is to be sent 4 hours before the ETA. Should, however, the vessel expect to arrive later than her 24-hour message, her 4-hour message shall be sent 4 hours before the ETA given in her original message.

All communications, which should be addressed to "Harbour Master, Tauranga", will be attended to at all hours of the day or night.

The pilot launch, which is 15 m. in length, is painted white and equipped with R/T 2182 kHz, 2162 kHz, and 2012 kHz, VHF Channels 16, 14, 12, 8 and 6, and radar.

Vessels awaiting to enter Port may find suitable anchorage in 12 fathoms, 2 miles N.E. of Mount Maunganui. The holding in sand and shell is good in all but extreme conditions.

ANCHORAGES: 3 sheltered anchorages are situated in the Western Channel of Tauranga Harbour, these include the Quarantine and Explosive Anchorage, and are available for vessels of 152 m, and a maximum draft of 6.86 m. (H.W.).

RESTRICTIONS: Vessels may enter, berth, unberth, or depart during hours of darkness in fine weather. Tankers are handled during daylight only except tankers in ballast and gas free which may sail at night. Vessels over 95 m. generally enter or depart on HW or LW slack.

MAX. SIZE: Max. length permissible is 190 m. (200 m. at Harbour Master's discretion), no restrictions on beam. Max. arrival and departure draft at high water is 9.75 m. and at low water 8.23 m.

HEALTH: Radio notification to be sent to "Port Health Tauranga", ragarding state of health of crew and ETA 24 hours before arrival.

Pratique is granted by Port Health Officer on arrival. Notification should be made by radio to Port Health in case of suspected disease or fever on board.

Pratique is automatic if vessel has been previously cleared at another New Zealand port. Radio pratique may be granted in case of passenger vessels or such vessels as carry a doctor on board.

RADIO: Nearest coastal radio station to Port of Tauranga ia "Auckland Radio" – call sign ZLD.

The Harbour Board Watch Office, call sign "Tauranga Harbour

Radio", is fitted with VHF and R/T; a continuous listening watch is maintained on Channel 16 and 2182 kHz.

RADAR/VHF: Radar is fitted to the pilot launch and 1 tug. VHF is fitted to both tugs and pilot launch. Channels 16, 14, 12, 8 and 6 available.

TUGS: 2 tugs are available, each with a bollard pull of approximately 15 tons. They usually join inward vessels in the vicinity of the Harbour entrance. Tug's lines are normally used, for which there is no extra charge.

BERTHING: Berthing normally takes place 30 minutes after negotiating harbour entrance at HW or LW slack. The quay type concrete wharf 1842 m. in length, (nominally eleven berths), is fitted with wooden spring piling and rubber buffers. A linkspan is situated in the centre of the wharf area.

STEVEDORES: ETA to stevedoring companies is usually worked in conjunction with ETA to Harbour Master.

MEDICAL: Unless specifically required for arrival, Agents do not require advice. Local medical practitioners are consulted and services of one public and one private hospital are utilised. Smallpox certificates are required.

TANKERS: Discharge of black and white products is done through a single 2540 mm. pipe-line. The flexible connection between the discharge lines and ship is 2030 mm. There are no slop facilities available. Chemical tankers are loaded and discharged at the same berth, No. 9, where the max. permissible draft is 9.75 m.

DENSITY: Salt water, 1025.

FRESH WATER: Fresh water is supplied by pipe-line at 20 tonnes per hour, prior arrangements must be made with the Harbour Master for quantities in excess of 1,000 tonnes.

FUEL: Bunkering connections are placed at Nos. 1, 2, 3, 4, 5, 6 and 9 berths. Quantities of L.F.O., 200 secs, Redwood No. 1 and H.F.O. 1,000 secs, Redwood No. 1 can be supplied by prior arrangement with the Oil Companies.

FIRE PRECAUTIONS: In addition to the normal precautions, a fence is erected around tankers to prevent unauthorised access to the berth. A Watchman from the Harbour Master's Staff is also placed on duty at the gate. Both tugs are equipped for fire-fighting.

DEVELOPMENTS: An increase of draft to 10.67 m. is planned for in the near future.

GANGWAY/DECK WATCHMEN: Ship's watchmen are usually employed by overseas ships.

OPENING/CLOSING HATCHES: Usually performed by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes or 250 grams tobacco. 1 part bottle of spirits or wine.

IDENTIFICATION CARDS: Not required.

REPAIRS: All types of engine and deck repairs are possible. A slipway can take vessels of 610 tonnes displacement and up to 56 m. length.

REPATRIATION: All facilities exist.

AIRPORT: The airport is situated 1.6 km. from the wharf and is served with regular internal flights to other main centres where overseas flights may be connected with.

TIME: GMT plus 12 hours.

HOLIDAYS: New Year's Day; 2 January; Picnic Day and Anniversary Day, both in latter part of January; Waitangi Day, 6 February; Good Friday; Easter Monday; Anzac Day, 25 April; Queen's Birthday, 1 June; Labour Day, 26 October; Christmas Day and Boxing Day (12 days).

POLICE/AMBULANCE/FIRE: All connected through automatic exchange, Emergency No. 111.

TELEPHONES: Telephones are placed on board all ships when they arrive.

SERVICES: Local compass adjusters and Surveyors are available. Ships stores can be provided by local Providore firms. Fumigation can be arranged. Ships' garbage is collected daily. No facilities for discharge of tank washings exist.

SHORE LEAVE: Crew are permitted ashore at Master's discretion.

AUTHORITY: Bay of Plenty Harbour Board. Mount Maunganui.

AGENT: Russell & Somers (Bay of Plenty) Limited, 194 Maunganui Road, POB 5087, Mount Maunganui. Tel. 53059. Telex: 2942 "Lumberco". Cables: "Rusticated" Mount Maunganui.

TIMARU: 44.24 S. 171.19 E. (See Plan)

DOCUMENTS: See "Auckland".

PILOTAGE: Pilotage is compulsory, and Pilots are available day and night. A vessel requiring a Pilot should remain 1 mile seaward of Eastern Extension Mole, and should not proceed Northward of line of leading lights on Benvenue Cliff.

ANCHORAGES: A vessel should anchor in a depth of not less than 12.8 m., sand, and Eastward of harbour light structure, and not within 1 mile of Eastern Extension Mole.

RESTRICTIONS: Tidal conditions may affect the time of entering harbour.

MAX. SIZE: Length, 198.1 m.; beam, No limit; draft, 8.38 m., at Harbour Master's discretion. Time of berthing vessels of over 6.4 m. draft will depend on tidal conditions and at Harbour Master's discretion.

HEALTH: Due to exposed nature of anchorage, incoming vessels are examined and pratique is granted after a vessel berths. In event that vessel is quarantined, she will be required to return to anchorage without any contact being made with shore.

RADIO: Timaru Harbour Board has a radio telephone station equipped with both medium frequency and VHF installations.

Call sign "Timaru Harbour Radio", calling frequency 2182 kc/s., working frequency 2162 kc/s. Fixed watches maintained for a period of 15 minutes every 4 hours, e.g.: 0345–0400, 0745–0800, 1145–1200, 1545–1600, 1945–2000, 2345–2400 hrs. (New Zealand Standard Time) and at other times mutually arranged. VHF call sign is Timaru Harbour, Channels 6, 12, 16.

TUGS: 1 tug, 1100 h.p. and Pilot launch/tug, 200 h.p. available.

BERTHING: Moorings supplied at all berths.

SPECIALISED CARGO-HANDLING FACILITIES: *All weather mechanical loaders:* 4 all-weather mechanical meat loaders. Each machine is capable of loading 720 units per hour, to a max. of 2,500 units per hour. Also butter, cheese, frozen vegetables can be handled.

Bulk Handling: A modern bulk-handling installation capable of handling grain, lucerne and certain types of minerals. Intake rates: grain 120 t.p.h.; lucerne 100 t.p.h. Ship's loading rate: grain 800 t.p.h.; lucerne 680 t.p.h. Ship loader equipped with belt weigher. Wharf conveyor has max. belt rate of 1,000 t.p.h. Total silo storage at present available 7,250 tonnes of lucerne or 8,500 tonnes of grain. Inert gas protection provided for lucerne.

STEVEDORES: Gangs must be ordered before 0700 hrs. weekdays, and before 0900 hrs. Friday for Saturday work.

MEDICAL: Full medical facilities are available as required, including an excellent public hospital.

TANKERS: 1 tanker berth, discharge through 8-in. hoses.

DENSITY: Specific gravity 1025 at all states of tide.

FRESH WATER: Available at all berths, delivered at up to 25 t.p.h.

FUEL: Bunkers available, heavy and medium fuel oil. 24 hours advance notice required.

FIRE PRECAUTIONS: When tankers are discharging, access to wharf is prohibited except to those holding passes. Fire-fighting equipment is placed in readiness on wharf.

DEVELOPMENT: Main consideration in future planning is increasing the depth of water in the entrance channel and in the port.

GANGWAY/DECK WATCHMEN: Available if required.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CUSTOMS ALLOWANCES: See "Auckland".

IDENTIFICATION CARDS: Not required.

REPAIRS: Most deck and engine repairs can be undertaken.

REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriations.

AIRPORT: Two flights each day to and from Wellington. Christchurch International Airport is 160 km. north of Timaru.

TIME: Approximately March–October New Zealand Standard Time (GMT plus 12). Approximately November–February New Zealand Daylight Saving Time (GMT plus 13). Actual dates of changeover to and from Daylight Saving Time decided annually.

HOLIDAYS: New Year's Day; 2nd January; Picnic Day (port holiday Monday of the week in which 29th January falls); New Zealand Day, (6th February); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (first Monday in June); Dominion Day (third Monday in September); Labour Day (last Monday in October); Christmas Eve (work ceases midday); Christmas Day; Boxing Day. Work can be arranged only by private negotiation on a voluntary basis.

POLICE/AMBULANCE/FIRE: Emergency No. 111 and ask operator for service required. Other than emergency calls: Police, 84-199 Timaru; Ambulance, 5278 Timaru; Fire Brigade, 7089 Timaru.

TELEPHONES: Can be supplied to vessels at all berths.

SHORE LEAVE: Allowed.

AUTHORITY: Timaru Harbour Board.

WANGANUI: 39.56 S. 175.04 E.

PORT LIMITS: Arc of a circle of 3 nautical miles radius centred at the flagstaff at Castlecliff, sited 39° 56′ 49″ S. 174° 59′ 23″ E.

DOCUMENTS: See "Auckland".

PILOTAGE: If Wanganui is first N.Z. port, initial application for Pilot and vessel's ETA should be passed to local Agent by radio through one of three Post Office radio stations. If not first N.Z. port, this information should be given to local Agent by Agent at previous port. Final details settled when R/T contact made between pilot station and ship.

Pilot launch "Karere", LOA, 41 ft. painted white, high midship wheelhouse. Pilot boards at anchorage position. International signals for Pilot should be used if no R/T contact made.

ANCHORAGES: One anchorage for vessels awaiting to enter.

RESTRICTIONS: Port worked day or night at high water when bar conditions are suitable.

MAX. SIZE: Length 350 ft., beam no limit, draft dependent on bar depths at particular time but usually 15 ft. max. at high water springs. No installations outside main port area.

HEALTH: See "Auckland".

RADIO: Wellington Radio ZLW. R/T frequencies 2182, 2162, 2012.

VHF: Channels 16 and 14.

TUGS: No tug available. Pilot launch used for swinging.

BERTHING: Berthing takes place at high water slack.

SPECIALISED CARGO-HANDLING FACILITIES: *No. 6 Berth:* pipeline for bulk cement connecting wharf with adjacent silos.

No. 1 Wharf: direct handling into cool store for fruit.

Portable hoppers used for bulk cargoes to load directly into railway wagons.

There are no facilities for containers, roll-on/roll-off traffic, liquid chemicals or LPG carriers.

CRANES: One mobile crane, capacity 4 tons.

STEVEDORES: Requirements for labour should be given with ETA and request for Pilot. At least 24 hours notice required.

MEDICAL: 24 hours notice required if possible. Hospital facilities available. Inoculations, certificates, etc.

DENSITY: 1020 at HW. 1005 at LW. These figures vary greatly according to amount of freshwater in river.

FRESH WATER: Plentiful supply through wharf hose connections. Rate of delivery depends on height of ship's filling pipe above wharf level.

FUEL: All grades available but ship has to pump out of road tankers. Amount of notice depends on grade required.

DEVELOPMENTS: Development plan in course of preparation but as yet no details of size of any possible new installations or draft increases.

GANGWAY/DECK WATCHMEN: Watchman necessary, either crew member or shore watchman.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CUSTOMS ALLOWANCES: See "Auckland".

IDENTIFICATION CARDS: Not required.

REPAIRS: Minor deck and engine repairs possible.

REPATRIATION: Facilities exist but more easily accomplished at a main port.

AIRPORT: About 6 miles. Airport caters for internal services only.

TIME: N.Z. Standard Time (12 hours in advance of GMT) is kept throughout year.

HOLIDAYS: As Auckland, except Anniversary Day holiday which is that held in Wellington Province. No cargo is worked on these days.

POLICE/AMBULANCE/FIRE: Ambulance, 8909; Police, 4488; Fire Brigade, Wanganui, 8185; Fire Brigade, Emergency 111.

TELEPHONES: Arrangements can be made for placing telephones on board.

SHORE LEAVE: Allowed.

DELAYS: Fresh onshore winds could make entrance unworkable for a vessel waiting to enter. Cargo work stops in rain and in unusually strong wind. Bunkering would be slow if large amount of bunkers required.

AUTHORITY: Wanganui Harbour Board.

WAVERLEY HARBOUR, North Island: 39.50 S. 174.37 E.

LOCATION: Waverley Harbour is located on the West coast of the North Island of New Zealand in the Northern end of the South Taranaki Bight.

PORT LIMITS: Waverley harbour is defined as being all that area of water bounded by the line of mean high water spring tides, and having as its seaward limit the arc of a circle of 2 nautical miles radius centred at 39° 49.6′ S. 174° 36.5′ E, near the mouth of the Wairoa Stream.

DOCUMENTS: Besides the Port Health Doctor, other Government personnel boarding the vessel by helicopter for inward clearance are: 1 Port Health Officer, 1 Customs Department Officer, 1 Agriculture Department Officer.

Port Health Officer will inspect Deratisation Certificate and (possibly with Agriculture Officer) inspect food store rooms, refrigerated spaces, galley, pantry, etc.

Customs Officer: The Customs Boarding Officer acts for the Immigration Department and the Marine Department and will inspect the following ship's documents: Register, Loadline Certificates, Safety Equipment Certificates, Radio Certificates.

The following documentation is required on Inward Clearance:
List of Prohibited Immigrants (Form Lab. Imm. 290).
4 Crew Lists.
Inward Manifest/Nil Declaration.
Search List (Reg. Form 2) Crew.
Stores List.
Poisons Lists.
Firearms List.
2 copies of List covering birds, animals, and fish on board (certified by Master).
Passenger List (if any).

For Outward Clearance (Customs):
2 copies of Special Red Printed Outward Manifest (front page) with attached Ship Printed Manifest.
2 copies of Stores List.
2 copies of Crew List.
5 copies of Embarking Passenger List.
2 copies of Transit Passenger List.
1 Passenger Arrival Card (Lab. Imm. 290) for any crew or passenger leaving vessel.

Agriculture Officer: on arrival:
2 copies of Ship's Meat Locker
Reg. 1966 Agl. 36.

The Boarding Officer will inspect the vessel's meat locker and inspect the garbage containers.

Australia, United States, Canada and New Zealand meat not loaded in the place of origin, and Japanese meat will be sealed up on vessel's arrival by the Agriculture Officer.

At sailing time, the Agriculture Officer may attend to check on garbage, sealed lockers, etc., together with the Customs Officer, who issues the Port Clearance, to check if all crew are aboard, and that the Bonded Stores Seal is intact.

NAVIGATION AIDS: SBM – radar reflector, white flashing light, one flash every 9 seconds, range 6 miles.

Leading Lights: In transit bearing 355° 33′.

Range Lights: In line bearing 312° 03′.

All four light towers are of louvred timber construction, painted white with vertical centre line painted red.

The pumphouse building immediately to the West of the two leading lights is prominent with a radar visibility to 15 miles.

PILOTAGE: Pilotage is compulsory for Waverley Harbour and under control of the Waverlev Harbour Master.

It has become customary for vessels to await the Pilot in a position 2 miles South of the SBM. Vessels equipped with VHF will be contacted accordingly when within range. Information on weather conditions and time of Pilot boarding will be advised through this media.

Due to the nature of the coastline adjacent to Waverley Harbour and the weather conditions experienced, the transportation of the Pilot (and other port official personnel) is effected by helicopter, from a pad adjacent to the Administration building. It must be ensured that radio antennas running respectively from foremast to bridge and bridge to aft, as the case may be, are lowered clear in good time prior to the arrival of the helicopter and the landing area cleared of loose gear and portable foam fire equipment properly charged, available for immediate use at the landing area.

Berthing to the S.B.M. is normally effected in daylight only, dependent on weather conditions, visibility and flying conditions being acceptable to the helicopter pilot and in concurrence with the Master of the vessel.

For night flying a wind sock will be erected for the helicopter pilot's observation of wind direction, and vessel is to be floodlit overall.

ANCHORAGE: The recommended anchorage off the port is a rectangular area 0.75 miles East and West, and 1 mile North and South of a position 3 miles South of the SBM. The bottom is sandy in 11 to 12 fathoms and the holding ground is reported fair.

A safe anchorage for vessels having to leave the buoy and/or to await suitable weather to moor to the buoy is recommended in Golden Bay. Distance is approximately 90 miles S.W. of Waverley, the approaches are clear and the lights on Farewell Spit and Separation Point, of 15 miles and 12 miles respectively, most reliable. The holding ground is good and depth of water 15 to 16 fathoms.

WEATHER: The Harbour and SBM is exposed to the West through South to South-east. The swell conditions caused by Westerly and South-westerly weather are considerably reduced by the shallow ground to the Westward, but Southerly swell rolls in unhindered. Very sudden changes of weather are experienced on this coast with the rapid movements Eastward of cold fronts over the Tasman Sea.

PRATIQUE: Vessels arriving at Waverley on consecutive voyages Japan/New Zealand and with all personnel holding valid International Certificates for smallpox should radio to "Health, Wanganui" 24 hours before arrival Waverley, advising number of passengers and crew, and "All Healthy" in which case pratique is automatically granted without any acknowledgement to the vessel.

If a vessel has any suspected diseases on board and if any crew member does not hold a valid International Certificate for smallpox, this information should be stated in the radio message to "Health, Wanganui". The Port Health Doctor will then attend on board on arrival for inspection of all International Health Certificates, and carry out vaccinations as required.

The doctor will supply on arrival N.Z. Maritime Declaration of Health Form H-Q2 for completion by the vessel. It is customary to procure an additional form for the following voyage to facilitate easy inward health clearance thereafter.

RADIO: There is no Government Radio Station at Waverley. Vessels trading to Waverley use ZLD Auckland Radio, ZDB Awarua Radio, or ZLW Wellington Radio.

Advice of Arrival: Vessels to radio ETA to "Wavemarine" Waverley on departure from last port, and 48 hours and 24 hours prior to arrival.

In addition to the vessel's ETA to "Wavemarine", arrival draft and details of the hatch loading plans should be advised.

Vessels equipped with VHF should listen in on Channel 14 (156.7 mHz) when in range of Waverley Harbour.

Base Station is at the Shiploading Pump Station, on board the tender vessel *Wairoa* and a remote control unit is fitted in the main administration building. Mobile units are also employed during the loading operation.

Base Station Channels are:

Channel 6	– 156.3	mHz Intership.
Channel 9	– 156.45	mHz Private and Loading.
Channel 14	– 156.7	mHz Port Operations/Docking.
Channel 16	– 156.8	mHz Safety.

Meteorological information for shipping is broadcast by the Coast Radio Stations ZLW, ZLB and ZLD at frequent scheduled times. ZLW broadcast by radio telegraph on 417.5 kHz, ZLD 487.5 kHz.

BERTH DESCRIPTION: The single point mooring buoy of 11 m. diameter is moored in 57 ft. at low water, 1.5 miles from the shore in position 39° 51′ 02.2″ S. 174° 35′ 52.14″ E.

BERTHING: Vessels will be secured to the S.B.M. by a single 21 in. nylon hawser with chafing chains at each end.

When the carrier approaches the buoy, the tender vessel "Wairoa" will receive a 3 in. messenger rope from the carrier. "Wairoa" will then shackle the messenger to a 10 in. polypropylene pick-up rope. The carrier heaves the messenger and pick-up rope inboard until the chafing chain passes through the bull nose.

Dedicated ships secure the chafing chain to a quick release hook fitted for this purpose.

Ships without a quick release hook should advise "Wavemarine" by radio on departure from last port.

It is essential that two or three good heaving lines be available with the messenger rope in the first instance to pass to the tender vessel, to avoid any delays in mooring.

HOSES: The floating loading hose string comprises ten 35-ft. lengths of hose, with the shipboard end supported by a steel buoy. After mooring is completed the tender vessel will tow around the floating hose underneath the pick-up derrick, plumbed over the manifold connection on the port side of the foredeck abaft the forecastle head. The pick-up buoy of the hose-end will have shackled into it a 30-ft. length of polypropylene, of 7 in. circumference, to which is attached a 100-ft. length of 2.25 in. circumference for passing to the vessel. The 7-in. polyprop is hove up to the rail and hooked into the vessel's cargo hook. The flange elbow with attached camlock coupling is then hove up and connected to the vessel's deck hose manifold. The hose is presently supported on the ship's derrick and stayed fore and aft after coupling up has been completed.

It has been estimated that after the iron sand slurry has been loaded, and the excess water decanted from the surface of the cargo, that the bulk density of the iron sand should be 190 lb. to the cubic foot.

LOADING: All compartments to be loaded should be clean with all drain sumps and double bottom butterworth hole filter places clear.

If weather conditions permit, the vessel should arrive with the after hatch lid of each hold open to facilitate visual inspections of the hold decanting eductors.

FRESH WATER/FUEL: Not available.

REPAIRS: Emergency repairs can be arranged, including radio.

MEDICAL: The Port Health Doctor is a qualified doctor of medicine and can be acquainted of any medical problems affecting any crew member; the necessary arrangements can then be made for treatment aboard or ashore, as convenient.

CUSTOMS ALLOWANCES: See "Auckland".

CONSULS: There are no consular representatives at the port of Waverley.

REPATRIATION: Lists of personal effects, accounts of wages, etc., of any vessels' personnel left ashore, hospitalised or deserted, should be available to Agent as early as possible.

A letter of authorisation is required if the Agent is to provide accommodation, meals, medical attention, transportation or travel expenses, and/or cash advances for account of vessel.

SHORE LEAVE: Shore leave for vessel's personnel is not practicable.

GENERAL: No Port Authority personnel remain on the vessel during the loading period at the SPM Buoy.

The Marine Department require that all vessels, while moored, "shall at all times be kept in readiness to proceed to sea".

The Pilot who is the loading master for Waipipi Iron Sands Limited will accept the Notice of Readiness for the vessel, and acts as Agent for all the vessels requirements. It is customary for the Pilot/Loading Master/Agent to be accommodated on board the vessel during her period on the buoy.

Whistle signals in an emergency may be used for medical, police, etc., as required.

Storing is accomplished by helicopter, cost of which is borne by the ship.

No garbage is to be thrown over the side of the vessel whilst she is on the New Zealand coast and moored to the buoy. Garbage must be retained on board and not dumped until the vessel is one day's steaming clear of the Northern point of New Zealand.

AUTHORITY: Waipipi Iron Sands Limited.

WELLINGTON: 41.18 S. 174.46 E. (See Plan)

PORT LIMITS: All the waters comprised within the harbour of Wellington having as their outward seaward limit the arc of a circle running from the landward boundary of the foreshore at Fitzroy Bay and thence into Cook Strait and thence to the landward boundary of the foreshore at Island Bay, such arc being an arc of a circle 3 nautical miles radius and having its centre at a point on the Outer Rock in the harbour of Wellington.

DOCUMENTS:

Port Health Authorities.

Maritime Declaration of Health (1 copy).

Crew List, stating name, rank, sex, nationality and date of smallpox vaccination. (1 copy).

Port Health Officer will also wish to sight each member of crew's smallpox Vaccination Certificate.

Current International Derating Exemption Certificate.

Customs Authorities. See "Auckland".

Agent.

Crew List, stating name, occupation, rank, sex and nationality (1 copy).

Freight Manifest (3 copies).

Note: Manifests should be airmailed by loading port to arrive in New Zealand at least one week prior to vessel's arrival.

Stowage Plan, airmailed same as Manifest (2 copies).

Agricultural Authorities.

Port Agriculture Inspection Instructions – Ship's Meat Locker Regulations 1966.

PILOTAGE: Compulsory, pilot vessel is not normally on station outside entrance, and all vessels requiring a Pilot are required to give 24 hours notice by radio of their expected time of arrival off port limits. A second notice confirming or amending the first is to be sent 4 hours before expected time of arrival. In event of a ship expecting to arrive earlier than the time given in 24-hour message, 4-hour message shall be sent 4 hours before the new expected time of arrival. Should vessel expect to arrive later than her 24-hour message, her 4-hour message shall be sent 4 hours before expected time of arrival given in her original 24-hour message. All communications which should be addressed "Harbour Master, Wellington", will be attended to at all hours of the day or night.

Should it not be possible to give previous notice of arrival it may be up to 1.5 hours after a vessel is sighted by signal station on Beacon Hill before a Pilot can board.

Pilots normally embark or disembark South of Pencarrow Head, but in the event of heavy Southerly weather, it may be necessary to embark or disembark Pilot in smooth water at or near the compulsory limit.

ANCHORAGES: Depth in anchorages up to 60 ft.

Fairway. Within portion of harbour lying inshore and to Westward of a line drawn from Easternmost point of Oriental Bay, in a 344° direction, to Kaiwharawhara Shore.

Inner Anchorage. Within portion of harbour laying between the Eastern boundary of fairway anchorage and a line drawn from Point Jerningham, in a 354° direction to Kaiwharawhara Shore.

Outer Anchorage. Within portion of harbour Eastward of inner anchorage.

Note: Vessels anchoring in outer anchorage should take up a position well up towards Kaiwharawhara.

Explosives Anchorage: Within that portion of the harbour contained in a circle with a radius of 0.3 nautical miles having as its centre a point bearing 000° true, distant 1.45 nautical miles from Point Halswell Light Beacon or in such other place within the Harbour of Wellington as may be specified by the Harbour Master on any occasion having regard to weather conditions.

Caution: It is advisable when anchoring (especially when in light draft) to drop two anchors in an Easterly and Westerly direction, veering from 75 to 90 fathoms of cable, as it frequently blows hard with heavy gusts of wind off the high land that surrounds harbour, causing a vessel to sheer about. In very strong winds a ship will lie much easier by having both anchors down. A strict watch should be kept.

Prohibited Anchorages. Anchorage is prohibited within 500 ft. of the jetty situated on the N.E. side of Somes Island.

RESTRICTIONS: Controlling channel depth is 37 ft. 09 in. below chart datum. All vessels may enter, berth, unberth, or depart during the hours of darkness. Tankers do not usually berth or depart during the hours of darkness. Berthing is carried out at any state of the tide.

Tides: Rise of tide varies between 0.75 m. and 1.35 m. Tidal rate neaps 2 knots, springs 2.5 knots.

MAX. SIZE: Max. draft 33 ft. LW with no swell. Size no limit.

HEALTH: *Health Officer's Examination Ground.* Within that portion of the harbour contained in a circle with a radius of 0.2 nautical miles, having as its centre a point bearing 347° (true), distant 0.56 nautical miles from Point Jerningham Light Beacon or in such other place within the Harbour of Wellington as may be specified by the Harbour Master on any occasion having regard to weather conditions. Until pratique has been granted vessels arriving from ports beyond New Zealand must not proceed inwards beyond the limits of this area.

RADIO: Medium frequency; Call sign is ZLEG, calling frequency only 2182 kHz, working frequency 2012 kHz. Vessels working on the port and calling 2182 kHz should listen for reply on 2012 kHz. A continuous watch is maintained on 2182 kHz.

VHF: Call sign "Wellington Harbour Control", on Channel 16. Working Channel 12 and Channel 14. A continuous watch is maintained on Channel 16.

Port operations. Vessels equipped with radio-telephone when within harbour limits must maintain a listening watch on 2182 kHz or Channel 16 to ensure immediate contact if required. Only calls for information on harbour conditions, berthing or safety of navigation will be accepted.

When a vessel is notified by radio-telephone or Morse lamp of berth allotted she must confirm this with Pipitea Wharf signal station prior to berthing.

Note: Beacon Hill and Pipitea Wharf signal stations, pilot launches and tugs are equipped with both medium frequency and VHF radio-telephone. Harbour Master's Office and Union Steam Ship Co. of New Zealand Ltd. tugs are equipped with VHF radio-telephone.

TUGS: The Harbour Master may direct the Master of any vessel to engage the services of a tug, and also direct the manner in which the tug shall be used. 2 × 2,700 b.h.p. Voith Schneider tugs, guaranteed bollard pull 28/31 tons, speed 12 knots, also equipped for fire fighting and salvage duties. Both tugs owned by Wellington Harbour Board.

1 tug, 850 b.h.p., operated by Union Steam Ship Co. of N.Z. Ltd. available within port limits for bunkering purposes.

DEVELOPMENTS: *Development 1976 – Containers:*

Thorndon Container Wharf situated South of Aotea Quay breastwork has a quay length of 584 m. for two berths, depths at low water 12.5 m. Two container gantry cranes, one transfer terminal container crane, twelve straddle carriers, five fork lifts, one travel lift, six 20 ton container trailers and thirteen battery fork lifts for vanning operations. Seventeen hectares of terminal with eight hectares open area for handling and storage, shedded area 5,577 sq. m. Ground container slots for 1,651 containers (TEU) can stack two or three high, 1,392 reefer units and 92 tower units, container wash bay 80 containers a day.

Tankers: Seaview Wharf under construction is an oil tanker wharf 97.5 m. in length, berthing dolphins 190 m. apart, mooring dolphins 213 m. apart, size of vessel 213 m. maximum, designed for vessel draft of 12.8 m. (See harbour entrance max. draft).

Development 1978: Container terminal by 1978, total area will be 24 hectares, 18 hectares for container handling, shedded area 13,490 sq. m., reefer points 1,392, tower units 203, (TEU), ground container slots for 2,756 (can stack 3 high) container wash 150 per day, 3 gantry container cranes, 3 tugs – 31 ton bollard pull.

Kaiwharawhara: Future reclamation for bulk handling container and roll-on berths.

TANKERS: Tankers can berth alongside Point Howard Wharf, Aotea Quay, Burnham and Miramar Wharves. Side connections are to be used at all wharves. During hours of darkness pipe-line must not be disconnected without first obtaining permission from Harbour Master. All precautions must be taken to avoid oil pollution of harbour. Scuppers must be plugged and sawdust kept at hand in case of spillage.

Point Howard and Seaview wharves are exposed to weather and in the event of a Southerly gale special attention must be paid to vessel's moorings.

No facilities are provided for discharge of tank washings other than when a vessel is on the floating dock.

DENSITY: 1025.

FUEL: Available at tanker discharging wharves.

FRESH WATER: Available at all wharves, delivered by hose (4 hoses per vessel max.), 50 t.p.h.

DRY DOCKS: *Floating dock.* A floating dock capable of lifting vessel of 17,272 tonnes displacement is available.

Slipway: Patent slipway available to accommodate vessel up to 508 tonnes.

Floating Crane. Harbour board has an 80-ton revolving and self-propelling floating steam crane of sufficient radius and height to serve the largest vessels when floating in light draft conditions.

REPAIRS: Major repairs can be undertaken. There are machine shops and foundries. Diving equipment and the services of trained divers are available for underwater inspections and repairs. Marine Radio and Radar Services, compass adjusters.

GANGWAY/DECK WATCHMEN: Shore watchmen available.

OPENING/CLOSING HATCHES: Work normally carried out by stevedores. Only time crew are to open and close top hatches is when advised by stevedore. In case of hydraulic hatches in tweendecks, crew are to open and close, not stevedores.

STEVEDORES: Available. No particular ETA advice required except as normally sent by Master.

MEDICAL: 4 hour's notice is sufficient for Agent to mobilise the service concerned. For minor attention it is sufficient that Master advises Agent on arrival. Hospital facilities are available. Current International Certificates of Vaccination against smallpox are required by the Authorities.

CERTIFICATES: Customs Department require ship's Register on arrival. Marine Department require:

Load Line Certificate.
Tonnage Certificate.
Certificate of Registry.
Convention Certificates, i.e.
  Safety Equipment Certificate.
  Safety Radio-telegraphy Certificate.
  Safety Construction Certificate.
  Exemption Certificate (if any).
  If passenger ship, Passenger and Safety Certificate.
  Cargo Gear Register.
  Certificates for all Cargo Gear, i.e. runners, spans, shackles, swivels, etc.
  Deratification Certificate.

CUSTOMS ALLOWANCES: See "Auckland".

IDENTIFICATION CARDS: Not required.

CONSULS: Arab Republic of Egypt, Argentina, Australia, Austria, Belgium, Great Britain, Canada, Chile, People's Republic of China, Czechoslovakia, Denmark, Ecuador, Finland, France, Federal Republic of Germany, Greece, Iceland, India, Indonesia, Ireland, Italy, Japan, Republic of Korea, Malaysia, Mexico, Netherlands, Norway, Papua New Guinea, Philippines, Singapore, Poland, Portugal, Romania, South Africa, Switzerland, Thailand, U.S.A., U.S.S.R., and Yugoslavia.

REPATRIATION: Facilities are available for crew changes and arranging any necessary repatriations.

SHORE LEAVE: Crew members are allowed shore leave at all times.

AIRPORT: Situated 4.5 miles S.E. of City Wharves by road; regular internal and Australian services.

TIME: Local time is GMT plus 12 hours in Winter, (Daylight saving during Summer months).

HOLIDAYS: New Year's Day (1st January); 2nd January; Wellington Province Anniversary Day (22nd January); Waterside Workers Union Picnic Day (generally observed on Monday of the week 29th January falls); New Zealand Day, (6th February); Good Friday; Easter Monday; Anzac Day (25th April); Sovereign's Birthday Observance (first Monday in June); Labour Day (fourth Monday in October); Christmas Day (25th December); Boxing Day (26th December).

Note: Pilotage services available public holidays. Container vessels at container berths work on public holidays.

POLICE/AMBULANCE/FIRE:

	Routine	*Emergency*
Wharf Police	723-000	Dial 111 and ask operator for service required
Ambulance	722-999	
Fire Brigade	850-188	

TELEPHONES: Vessels may be connected to telephone system at city berths by application to the Harbour Master.

GENERAL Garbage may only be disposed of in accordance with strict Government regulations. The normal method of disposal is overside to self-propelled garbage vessel in special cans supplied. Daily collections are made or as arranged through the Harbour Master.

SERVICES: *Shore Electricity:* Available at all berths. Type AC, voltage 230-400, cycles 50, amperage 60.

AUTHORITY: Wellington Harbour Board.

WHANGAREI: 35.45 S. 174.21 E. (See Plan)

PORT LIMITS: From a point due South of the summit of Sentinel Rock, thence to a point 5 cables due East of Sentinel Rock, thence to a point 5 cables due East of Bream Head, thence to a point 5 cables due East of Tutukaka Head, thence to Tutukaka Head.

DOCUMENTS:

3 copies Passenger List.
3 copies Crew List.
1 copy Search List (Form 2).
1 copy Stores List (Form 3).
1 copy Prohibited and Restricted Immigrants.
1 copy Poisons List.
1 copy Animals and Birds List.
1 copy List of Firearms (not cargo).
1 copy Arrival Manifest (Form 1).
1 copy List showing the gross tonnage of cargo for discharge in New Zealand.

PILOTAGE: Compulsory. Pilots embark on the line of leads 141°/321° at the seaward extremity of Pilotage District, i.e. up to 1.5 miles South-eastward of the Fairway Buoy. In heavy Easterly weather, it may be necessary for pilot vessel to lead ship in through the Outer Channel and embark in the lee of Frenchman Island.

Pilots are available all hours day and night subject to prior minimum notice of 24 hours being received during normal week-day working hours. Second notice confirming or amending first to be sent 4 hours before expected arrival. The Pilot supplies a set of Harbour bylaws. Pratique, agriculture and customs clearance is normally undertaken on arrival at berth.

Pilot boat is equipped with VHF. Working frequency is Channel 12, but Channels 6, 8 and 16 are also fitted. Pilot vessel *Manaia* – call sign ZM3830; pilot vessel *Ngapuhi* – call sign ZM2146. Range approximately 20 miles. *Manaia* painted blue, varnished housing, yellow funnel: *Ngapuhi* painted blue, white housing, yellow capping rails – pilot ladder with manropes required.

ANCHORAGE: Is situated 5 to 10 cables. Eastward of the Fairway Buoy in 12 to 20 fathoms of water in the section enclosed by the Fairway Buoy bearing 225° T to 315° T. Holding ground good in fine sand, but exposed to Easterly weather.

Harbour Anchorage. At Marsden Point, 2 cables West of Passage Island light, in 5 fathoms of water. Max. draft 24 ft. Good holding ground, sand and shell bottom.

RESTRICTIONS: Controlling depth in entrance channel 50 ft. MLWS. Depth in upper harbour channel maintained at 28 ft. MLWS.

MAX. SIZE: Marsden Point: Oil Refinery dolphin berths, LOA 1,000 ft., draft 50 ft., Cargo berth LOA 600 ft., draft 28 ft.

Port Whangarei: LOA 600 ft., draft 31 ft.

HEALTH: All vessels examined by Health Officer on arrival.

RADIO: The station is Marsden Point, Whangarei. Call sign "Whangarei Harbour Radio" Continuous 24-hour watch is maintained on VHF Channels 16 and 12, range 40 miles. Medium frequency, listening watch on 2182 kc/s., working frequency range 200 miles. Station transmits on 2012, 2045, 2162 and 4136 kHz.

RADAR: Tugs and pilot boat *Manaia* fitted with radar.

TUGS: Available. Tugs equipped with VHF. Tugs usually secure to vessels entering in vicinity of Frenchman Island. Numbers of tugs normally used are 1 tug for vessels up to 25,000 tons d.w.t., 2 tugs for vessels up to 45,000 tons d.w.t., 3 tugs for vessels up to 65,000 d.w.t. 4 tugs over 65,000 d.w.t. Unberthing: 1 tug is normally required for vessels under 25,000 d.w.t., and 2 tugs for all other vessels, subject weather conditions.

BERTHING: Marsden Point Oil Berths (2) – operated by the New Zealand Refining Company, Marsden Point. LOA 1,000 ft., max. draft 50 ft.

Marsden Point Cargo Berth (1), LOA 600 ft., max. draft 28 ft.

Port Whangarei berths (3), LOA 600 ft., max. draft 31 ft.

Portland berths (3), bulk cement berth LOA 270 ft., max. draft 18.5 ft.; bagged cement berth LOA 210 ft., max. draft 12.5 ft.; cargo berth LOA 350 ft., max. draft 18.5 ft.

SPECIALISED CARGO HANDLING FACILITIES: Portland bulk cement loading jetty. Port Whangarei, 7 portable hoppers for use discharge of bulk cargoes. Cargon system of butter loading.

STEVEDORES: Confirmation of arrival time 4 hours before ETA or revised ETA, whichever is earlier is required. Notice of arrival during a week-end or public holiday must be given not later than 1400 hrs. on the last working day preceding arrival.

MEDICAL: Hospital and dental services available.

TANKERS: Are berthed at all hours day and night. Vessels of 30,000 tons d.w.t. and upwards are usually berthed portside to berth at slack water, and should position ship's gangway 20 ft. upstream of hose connections prior to arrival.

Slop reception facilities are available. Diameter of load and discharge line 10 in. ASA.

DENSITY: 1025.

FRESH WATER: At Northland Harbour board wharves by hose 20 t.p.h. at 30 cents per 1,000 litres. Refinery jetties limited and arranged by refinery.

FUEL: Available from berths (viscosities 3,500 secs. red 1. 1,500 secs. red 1 and MDO).

OPENING/CLOSING HATCHES: Usually carried out by stevedores.

CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes or 0.5 lb. tobacco or 50 cigars permitted each crew member. Wine/spirit: one opened bottle wine/spirits for each crew member.

IDENTIFICATION CARDS: Refinery passes are required when berthed at the Refinery wharves. Passes are brought on board by Agent.

CONSULS: None.

REPAIRS: Most repairs undertaken.

DRY DOCKS: None. 1 slipway capable of receiving vessels up to 1,500 tons d.w.t.

REPATRIATION: Facilities exist.

TIME: GMT plus 12 hours. Daylight saving time observed from early October to early March.

HOLIDAYS: The following are recognised holidays: New Year's Day; 2nd January; Anniversary Day (usually last week January); New Zealand Day (6th February); Good Friday; Easter Monday; Anzac Day (25th April); Sovereign's Birthday (First Monday in June); Labour Day (fourth Monday in October); Christmas Day; Boxing Day; Waterside Workers Picnic Day.

POLICE/AMBULANCE/FIRE: Telephone 111 for emergency, and ask for service required.

TELEPHONES: Available at wharves.

SHORE LEAVE: Allowed.

FIRE PRECAUTIONS: Fire fighting tug on duty 24 hours a day. Tankers to have fire wires fore and aft.

SURVEYORS: Lloyds – New Zealand Government, Marine Division of the Ministry of Transport.

AIRPORT: 8 miles from Port Whangarei; regular daily internal flights.

SERVICES: Tank cleaning, radio and radar repairs. Compass adjuster from Auckland.

REGULATIONS: Issued by Pilot on arrival.

DELAYS: Tidal delays and berth vacancies.

AUTHORITY: Northland Harbour Board.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Nicaragua

CORINTO: 12.28 N. 87.11 W. (See Plan)

ARRIVED SHIP: Vessels are considered as arrived only after having negotiated the entrance channel and are safely inside the proper harbour; vessels at the Pilot station are not considered as having arrived.

DOCUMENTS:

Clearance	1	visaed			
Crew List	3	,,	6	unvisaed	
Store List	3	,,	6	,,	
Passenger List	3	,,	6	,,	
Cargo Manifest	3	,,	17	,,	
Ballast Manifest	2	,,	6	,,	
Health Declaration	—	—	1	,,	
Passenger in Transit	—	—	8		
Mail List	—	—	9	,,	
Bills of Ladings			1	complete	set
Voyage Memorandum	—	—	9	,,	sets
No Passenger List	—	—	9	,,	,,
Cargo Tally Books			18	books	

Note: Documents must be legalised at the last port of call before proceeding to Corinto.

PILOTAGE: The Port Authority must receive in writing from Agents advice regarding vessels ETA 72 hours prior to vessels arrival and a confirmation 12 hours. There is no VHF apparatus in use, therefore all advice must be sent through Agents by cable via Balboa or Limon station. Pilotage is compulsory on all vessels exceeding 500 gross registered tons or exceeding 7 ft. draft. Pilot boards 1 mile off Isla de El Cardon.

ANCHORAGE: The anchorage inside the harbour can accommodate 6–10 vessels, depending on size and draft.

RESTRICTIONS: The port is open 24 hrs.; however, entry is restricted in accordance with tide and vessels draft. Access channel and turning basin dredged to 13.35 m. Due allowance should be made for heavy swell if necessary. Speed limit 8 knots in Corinto Bay, and 5 knots in the vicinity of berths or other craft.

MAX. SIZE: Maximum permissible length 650 ft., 80 ft. beam. Draft controlled by depth of water in approach channel and state of swell.

HEALTH: After entry and vessel has berthed or anchored, 3 long blasts are given requesting free pratique; after these blasts the Authorities board the vessel together with the Agent's representative and proceed with distribution of the documentation. In the event of any suspected disease on board, the action to be taken will be given by the Representative of the Health Department. There is no automatic pratique even though vessel is proceeding from another port in the same country.

Although the port is open 24 hours, vessels arriving after 2100 hrs. are not boarded by the authorities until 0600 hrs. the following day, unless the vessel will berth and commence operations immediately. This being the case, free pratique is granted regardless of the hour. This arrangement is restricted to 0100 hrs. as gangs are not allowed to commence operations after that hour.

RADIO: ETA cables are generally routed via NBA Balboa Station or TIM Limon station, and received through Tropical Radio & Telegraph or All America Cable.

TUGS: Compulsory for berthing and berthing. The tug joins vessel just after vessel passes Buoy No. 7. Tug's lines are generally used: however, at times ship's lines are used. There is no charge for use of tug's lines. 1 tug of 1,100 h.p. and one launch of 167 h.p. available.

BERTHING: There is no preferential berthing, and berthing is indicated by the Port Authority. Vessels are attended to in the manner "first come first served".

There are 3 piers available:

1 A concrete pier, length 370 m., depth 35 ft. at low water.

2 A wooden pier, length 160 m., depth 24.5 ft. at low water.

3 A special berth with conveyor-belt system for loading of carton boxes such as bananas, frozen meat, as well as the handling of inbound and outbound cargoes such as fertiliser and cottonseed meal. Bananas can be loaded into 4 hatches at one time at a rate of 4,500 boxes per hatch per hour. Depth alongside at low water is 35 ft.

STEVEDORES: Gangs work in shifts of 8 hours, commencing at 0700 and ceasing at 2330 hrs. Meal hours are 1200–1300 and 1800–1900 hrs. Work from 1900 Saturday to 0600 hrs. Monday, and on holidays is at double time.

MEDICAL: There are several doctors in the port and most of the Agents have a particular doctor to their service. Hospital facilities are also available. No particular inoculation is required.

TANKERS: The only tankers which frequent this port are those of Esso Standard, Parcel Tankers and the Athel Line. There is only 1 tanker berth and each of the above-mentioned companies have their particular load/discharge lines.

The Esso tankers only discharge oils, the Athel tankers load out molasses, the Parcel tankers discharge solvents and occasionally others load out cotton seed oil.

There are 9 lines belonging to the consignees ranging from 4 in. to 12 in.

Exports: Molasses is loaded at 180 t.p.h. with a 12 in. line, and peanut oil with portable pumps at a rate of 60 t.p.h. per pump.

Imports: Discharge rates.

Aviation gasoline	300	t.p.h.	8	in.	pipe
Solvents	100	,,	6	,,	,,
Diesel	100	,,	6	,,	,,
Asphalt	100	,,	6	,,	,,
Tallow	80	,,	4	,,	,,

Pumping is done by the vessel in each case.

DENSITY: 1025.

FRESH WATER: Fresh water is available and is supplied from connections on the pier, by gravity, at a rate of approximately 10 t.p.h.

FUEL: The only fuel available at this port is diesel.

DEVELOPMENTS: Projected installation of bulk handling plant, additional warehouses and extension of pier 1,500 ft. with 2 transit sheds, new administration building, stevedores shed, equipment shed and repair shops; redesigning of range lights and buoys and increasing amount of same, also area for Industrial Park. Completion expected mid 1978.

GANGWAY/DECK WATCHMEN: After entering, 2 Custom Officers are placed on board all vessels and their meals must be furnished on board.

OPENING/CLOSING HATCHES: If vessel is equipped with regular hatch boards or pontoons, stevedores open and close hatches as well as swing out booms. However, if covers are of the McGregor type or mechanical, the crew has to do the job.

CERTIFICATES: Ship's Registry Certificate is required from ships making their first call at the port.

CUSTOMS ALLOWANCE: There is no limit on tobacco allowance to be held out of Bond but crew members are only permitted to take 2 packages of 20 cigarettes ashore. Crew not permitted to take any alcohol ashore. Anyone trying to do so will be subjected to heavy fines.

IDENTIFICATION CARDS: All crew members except Officers are requested to submit to the gangway watchman, proper identification with a photograph such as seaman book or passport.

CONSULS:

Colombia	El Salvador	Mexico
Costa Rica	France	Panama
Denmark	Guatemala	Sweden
Ecuador	Honduras	Venezuela

REPAIRS: There are no repair shops available only for minor welding jobs.

AIRPORT: The airport is approximately 160 km. from the port and served by regular airlines with daily flights.

REPATRIATION: Can be effected.

TIME: Local time is Central Standard Time, GMT minus 6 hours. There are no alterations during the year.

HOLIDAYS: January 1st; Holy Thursday; Good Friday; 1st & 3rd May; 14th & 15th September; October 12th; December 25th. As a rule, no labour is available on these holidays. However, it is known with the exception of Labour Day and Good Friday, work can be arranged if said arrangements are made in due time prior to arrival of the vessel.

POLICE/AMBULANCE/FIRE: Police 269; Ambulance 313; Fire 421.

SHORE LEAVE: Crew members are allowed shore leave.

AUTHORITY: Autoridad Portuaria de Corinto.

PUERTO CABEZAS: 14.01 N. 83.23 W.

DOCUMENTS:

1 Clearance from Last Port.
10 Voyage Memorandums.
11 Crew Lists.
10 Passenger Lists.
10 Stores Lists.
1 Bill of Health.
12 Ballast Manifests.
13 Manifests of Cargo.
4 Bills of Lading.
10 sets Tally Books.

PILOTAGE: ETA required 24 hours before arrival at the port. The Pilot uses a boat with an outboard motor and boards about one mile off the port. Agent advises the Pilot the date of arrival, he goes out when he sees vessel.

ANCHORAGE: Vessels can anchor about 0.5 mile South of the wharf. Depths in anchorage 20-22 ft.

MAX. SIZE: Max. length, 400 ft. Draft 19 ft. 6in. Difference between high and low tide is 18 in.

HEALTH: The inspection takes place on arrival. It is not necessary when the vessel comes from some other port in Nicaragua.

RADIO: The Nipco has a radiophone for personal use, but they make contacts with vessels. The frequency is 2738. It is better to use or send radiogram via Radio Tropical in Managua.

TUGS: There is no tug service.

BERTHING: There is wreck in front of the wharf. The location is: 14° 0′ 57″ North, 82° 22′ 4″ West, 1,200 yd. from wharf end.

STEVEDORES: The Agent advises stevedores arrival of vessel. They discharge 8 tons of general cargo each hatch (one gang) per hour.

MEDICAL: Not necessary to advise the need of a doctor, only for emergencies. One hospital and two other doctors, apart from the official doctor of the port.

TANKERS: There are 2 pipes of 6 in. diameter on the wharf. There is no special berth for oil tankers.

DENSITY: 1025.

FRESH WATER: The fresh water is carried to the wharf by truck or from one pipe on the wharf. The boiler water gets to the vessel by the pipe on the wharf.

FUEL: Gasoline, diesel oil and lubricants are supplied by Texaco. Arrangements are made at the arrival of the vessel.

DEVELOPMENTS: A hydrographic survey has been completed in the port zone and surrounding area to establish the best place for future port facilities or whether expansion should be made to the existing port. This survey is being effected in view of projected installation of paper and pulp industry and forthcoming development of agricultural and mineral products which could be exported through the port.

The Port Authority is taking the necessary steps to get technical and financial help to make a general survey of the zone in order to find an adequate and/or protected site to place the new port installations. Port plans are combined with the paper and pulp industry, which is supposed to be installed in the next few years.

GANGWAY/DECK/WATCHMEN: It is not obligatory. It is customary to have two custom guards in the gangway.

OPENING/CLOSING HATCHES: The opening and closing of hatches is done together by the crew of the vessel and the stevedores.

CUSTOMS ALLOWANCES: Each of the crew can take 2 packs of cigarettes with the seal broken, and one bottle of wine or liquor opened.

IDENTIFICATION CARDS: Not needed, just passport or seaman's book.

CONSULS: Only consul of Panama available locally.

REPAIRS: Minor repairs only can be effected.

REPATRIATION: It is possible and only a passport needed. Necessary to go to the capital by air, thence to any part of the world.

AIRPORT: Distance of airport from wharf is about 2 kilometres. Service every day to the capital except Sundays and holidays. The name of the only airline is Lineas Aereas de Nicaragua (Lanica).

TIME: Local time is Central Standard Time, GMT minus 6 hours.

HOLIDAYS: Holidays are 1st January; Holy Thursday; Good Friday; 1st May; 14th July; 14th and 15th September; 12th October and the 25th December.

SHORE LEAVE: The crew is allowed to go ashore after the vessel is received by the Authorities.

DELAYS: Delays in berthing can be expected from bad weather.

AUTHORITY: Autoridad Portuaria de Puerto Cabezas.

PUERTO SOMOZA: 12.12 N. 86.46 W.

DOCUMENTS:

Clearance from previous Port.
6 copies Voyage Memorandum.
6 Stores Lists.
6 Passenger Lists or negative declaration, 3 to be visaed.
6 Crew Lists.
8 Cargo Manifests, 3 to be visaed.
8 Tally books.
6 Lists of Mail, Explosives or Drugs if carried.

Nine crew lists and six store lists should be despatched by the Nicaragua Consul at loading port if possible, otherwise they are forwarded by Agents from the Panama Canal.

PILOTAGE: Optional by local Pilots. Leading lights are installed, at the entrance to the port, prominently sited on a hill. Several buoys indicate exact anchorage positions.

Tankers: A Pilot is provided by the oil company in agreement with the Panama Canal Authority. Pilot boards about 0.5 mile West of the sea berth.

ANCHORAGE: About 1.75 miles off port entrance, depth is 30 ft. at low water, and about 45 ft. at high water.

RESTRICTIONS: Port is open day and night without exception.

MAX. SIZE: Tankers at Sea Line Terminal up to 850 ft. length and 41 ft. draft.

HEALTH: Port Health inspector boards all vessels on arrival.

RADIO: There is a radiotelephone installation at the Customs office. No VHF.

TUGS: Not available for manoeuvring vessels. Five small tugs employed for shifting lighters.

BERTHING: No quays for ocean-going vessels. Vessels work cargo to lighters at the anchorage.

STEVEDORES: Port has four gangs of forty men each for boarding vessels.

TANKERS: *Sealine Terminal.* The sea berth is situated in approximate location 12° 10′ N. 86° 49′ W., about two miles off shore in a depth of 47 ft. There are five mooring buoys, two at the bows and three at the stern of the vessel. The first lines to the buoys should each consist of two good ropes lashed end to end to effect the length required. Five lines are normally used at each end of the vessel.

Strong winds may delay berthing or cause vessel to vacate the berth once moored. Sailing at night is not recommended for safety reasons. The discharge hose is lifted on the port side by ship's crew.

MEDICAL: Doctor available in case of emergency. Nearest hospital at Leon, 35 km. away.

FRESH WATER: Not available for supply to ships.

FUEL: Not available for supply to ships.

OPENING/CLOSING HATCHES: Normally performed by stevedores. Mechanically operated hatches are opened by ship's crew.

CUSTOMS ALLOWANCES: Each crewman allowed two packets of cigarettes. No wine/spirits allowed to be taken ashore.

IDENTIFICATION CARDS: Seaman's Book required for going ashore.

CONSULS: Nearest at Leon, 35 km. distant.

REPAIRS: Small items for repair can be sent to Leon, 35 km. away.

REPATRIATION: No facilities for crew changes. If crew member left behind, Agents are responsible for his repatriation at vessel's expense.

AIRPORT: Las Mercedes international airport at Managua, 75 km. away.

TIME: Central standard time, GMT minus 6 hours. No alterations.

HOLIDAYS: All holidays can be worked.

POLICE/FIRE/AMBULANCE: Police available locally. Nearest fire and ambulance stations are at Leon, 35 km. away.

SHIPMASTER'S REPORT: Port authorities board the vessel at 0600 hrs., either at outer anchorage or at discharging anchorage. There is no night work performed unless the vessel reaches discharging anchorage with last daylight.

In general, stevedores are well acquainted with handling cars. Vessels carrying cars, for Pto. Somoza should avoid loading No. 1 hatch for this port. As there is a permanent swell at anchorage, barges cannot lie safely under No. 1 hatch.

There is a Pilot available, on request, who also acts as stevedore-foreman.

AUTHORITY: Administracion de Aduana. Puerto Somoza

NOTES

Please also advise Shipping Guides (Services) Ltd.

Nigeria

BONNY: 04.26 N. 07.09 E. (Inshore Terminal)
04.11 N. 07.14 E. (Offshore Terminal)

(See Plan)

OPERATORS: The Shell-B.P. Development Company of Nigeria Ltd.

DOCUMENTS:

7 Crew Lists.
3 Vaccination Lists.
3 Maritime Declaration of Health.
8 Lists of Last Port of Call (6 weeks).
6 Lists of Birds & Animals.
7 Passenger Lists.
1 Stores List.
1 Personal Effects List.
2 Arms & Ammunition Lists.
1 Clearance Last Port.

Agent: Requires NPA lights and buoy dues form.

PILOTAGE: *Inshore berths:* Pilotage is compulsory. Pilots board off Fairway Buoy; incoming ships must *not* enter Bonny Channel without a Pilot on board.

Offshore berths (SBMs): Berthing Master will board vessel on arrival or at anchorage, and remains on board throughout and acts as loading master. On arrival at anchorage contact Berthing Master on VHF Channel 14 call sign "Ocean Berthing Master".

N.B. also contact Bonny Terminal on Channel 14 on arrival at Offshore anchorage to ensure vessels arrival etc. is recorded.

ANCHORAGES: *Inner Berths:* West of Fairway Buoy in 8–9 fathoms.

Outer Berths: 3 miles South of manifold platform in position 4° 11.2′ N. 7° 14.2′ E.

Vessels must not proceed inshore of this position without a Pilot. When at anchor listening watch must be kept on VHF Channel 14 and this Channel must not be used for intership communication.

RESTRICTIONS: The maximum draft to which a vessel can load at Bonny is governed by three factors viz.

1. Datum Depth in Bonny Channel.
2. Height of the tide.
3. The underkeel clearance allowed.

Datum depth of the Bonny Channel is dependent on the amount of dredging; at the present time Datum depth is 38 ft. 6 in.

Tide is variable but the relevant factor is the height of the tide at the time the vessel will transit the Channel. The underkeel clearance allowed is dependent on the time of the year and is related to the height of the swell expected to be encountered in the Bonny Channel.

The present allowances are as follows.

		ft.	ins.
1/1-15/2	=	2	6
16/2-15/3	=	2	9
16/3-31/3	=	3	0
1/4-30/4	=	3	3
1/5-15/5	=	3	6
16/5-31/5	=	3	9
1/6-31/8	=	4	0
1/9-15/9	=	3	9
16/9-30/9	=	3	6
1/10-15/12	=	3	3
16/10-31/10	=	3	0
1/11-15/12	=	2	9
16/12-31/12	=	2	6

Thus it can be seen that the max. draft at any particular time is equal to:

Datum Depth plus Height of Tide minus Underkeel Clearance Allowance.

A typical calculation would be as follows:

		ft.	in.
Datum Depth	=	38	6
Height of Tide	=	+ 7	0
		45	6
Underkeel Clearance Allowance		3	9
Max. Draft	=	41	9

MAX. SIZE: *Inshore Terminal:* Min. size approximately 18,000 tonnes or 161 m. (530 ft.). Max. length 269 m. (850 ft.). Max. beam no restriction. Max. draft, see "Restrictions".

Offshore Terminal: Min. size 45,000 tonnes s.d.w.t. Max. size 300,000 tonnes s.d.w.t. Max. length no restriction. Max. beam no restriction. Max. Draft 22.8 m. (75 ft.).

HEALTH: Q-flag to be shown on arrival, except if from another Nigerian port, yellow fever and small-pox inoculations compulsory. In case of suspected disease on board, advance notice to Agent advisable. Valid Yellow Fever and Smallpox Certificates to be produced for all crew members. Also Deratisation Exemption Certificate.

RADIO: Original ETA message should be sent via Lagos Radio to the Lagos Agents at least 72 hours before arrival. 48 hours before arrival at the Fairway Buoy a further ETA message should be sent to Lagos Agents. When anchored at the Fairway Buoy contact Bonny Terminal on Channel 14, passing date and time of arrival (same for Harbour Master Bonny), keeping watch on VHF Channels 14 and 16. Failure to comply with the requirements for ETA messages may result in delays in berthing the ship.

BERTHING: *Inshore Terminal:* There are 4 berths (CBMs) designated A, B, C and D, from upstream. A, C and D consisting of 5 buoys (1 astern, 1 on each quarter, 1 ahead and 1 on the inshore bow). A, C, D are flood tide berths. B is ebb and flood tide berth consisting of 6 buoys, the 6th buoy is on the offshore bow or quarter depending on which direction the ship is berthed.

Tankers berth on the flood tide (or ebb at berth B) using the offshore ships anchor as an additional mooring point. Ships moor by means of 40 mm. wires (provided by the Terminal) one 40 mm. wire is picked up from each of the buoys and ship's ropes are not normally used. Mooring is carried out by ship's crew; and care must be taken to ensure that the mooring wires are laid out in a seamanlike manner to prevent runs and kinks forming in the wires. Mooring wires must not be kept on tension winches, but stoppered off by means of Carpenter's stoppers provided by the Terminal, and then "turned up" on the bitts. Two men from the Terminal are put on board the vessel to assist the ship's crews position and set up the Carpenter's stoppers.

Vessels must be equipped with hose-handling derricks with a SWL lifting capacity of not less than 5 tonnes.

Vessels must arrive with clean ballast.

Load-on-top system operates at Bonny, but slops cannot be accepted ashore. Maximum loading rate: 5,000 t.p.h. (1/1/74).

Grades handled: both light and medium crudes.

Offshore Terminal: Two SBMs fitted with two 16-in. double nylon mooring lines and 1 hose string terminating in two 16-in. diameter end hoses.

No. 1 SBM is S.S.W. of the Platform. No. 2 SBM is S.S.E. of the Platform and they are designated Bonny West and Bonny East respectively.

Berthing effected under guidance of berthing master and local assistant who both remain on board throughout loading operations. Accommodation for both to be provided. Whilst berthed a mooring rope must be ready on the poop deck so that the mooring launch (line boat) may, in the event of the vessel riding up on the SBM, make fast and tow to re-align vessel.

Vessels must be equipped with hose handling derricks with a capacity of not less than 7 tonnes.

Vessels must arrive with clean ballast.

Load-on-top system operates at Bonny but slops cannot be accepted ashore. Max. loading rate 8,000 t.p.h. (1/1/74).

Grades handled Bonny light crude only (1/1/74), the maximum lifting is restricted to 150,000 tons as at 1/1/74.

HOSES: *Inshore Terminal:* Vessels should endeavour to present two 12-in. diameter 150 ASA connections on the port side of the vessel when berthing at A, C, D, berths. On B berth two 16-in. 150 ASA connections should be provided on the port or starboard sides of the vessel – dependent on whether the vessel is berthing on ebb or flood tides. Vessel's hose handling derrick to be rigged and plumbed overside. Hoses will be connected by shore labour, but winchmen must be supplied to operate the ship's lifting gear. The derrick runner must be equipped with a suitable hook. The estimated weight of each hose string at berths A, C and D, when lifting with the ship in light condition is between 3 and 5 tonnes. Ships fitted with only 5 tonne derricks should exercise care when lifting to avoid shock loads. On "B" the estimated lifting weight is between 5 and 7 tons.

Weight of Hoses: Indication only of approximate weights of hose strings in tonnes (including fittings, floats, and pick-up buoy). Assumed total lift of 7.6 m. (25 ft.) above deck level and vessel in light draft condition with hoses full of crude oil SG 0.850.

d.w.t.	*16 in.* I.D. Hoses tonnes	*12 in.* I.D. Hoses tonnes
100,000	8.3	4.9
70,000	7.5	4.5
50,000	7.3	4.4
35,000	7.1	4.2
18,000	6.3	3.7

Offshore Terminal: Port or starboard side amidships (dependent on which SBM is used). Vessels should endeavour to present two 16-in. standard 150 ASA connections on arrival. Ships crew are required to connect and disconnect the hoses under the advice of the berthing master and/or his assistant. A derrick SWL at least 7 tonnes must be rigged ready on both port and starboard sides and plumbed clear of this side. Derrick runner must be equipped with suitable hook.

Weight of Hoses: Indication only of approximate weights 16-in. I.D. hose strings in tonnes (including fittings, ftoats, and pick-up buoys with all hoses full of crude oil SG 0.850. Assumed lift is 7.6 m. (25 ft.) above deck level, with vessel in light draft condition.

d.w.t.	tonnes
200,000	8.9
100,000	8.1
70,000	7.3
50,000	7.0
35,000	6.9

SHORE LINE SYSTEM: *Inshore Terminal:* Crude oil is loaded at berths A, C, D via 32 in. submarine lines and 2 strings of flexible hoses each consisting of 3 lengths of 16 in. hose and 3 lengths of 12 in. hose at the ship end, and via a 28 in. submarine line and 2 strings of 16 in. flexible hose at berth B. Reducers are made available by Terminal on request.

Offshore Terminal: Vessels load through SBM from shore through a 48 in. diameter line, thence through a 24 in. diameter floating hose which is terminated by a "Y" piece and two 16 in. diameter hose tails which connect to the ships manifold. Loading rates up to 8,000 t.p.h. may be expected. The 48 in. submarine loading line from the Terminal is some 20 miles in length, therefore

great care must be exercised during loading when ships valves are manipulated to avoid pressure surges. Pressure recorders are normally fitted at the spool piece between ships manifold and tail end of the hose string to monitor pressure changes generated on board the vessel.
BALLAST: No facilities for dirty ballast, no tank cleaning facilities.
MEDICAL: Hospital at Bonny with limited capacity. New hospital expected to be ready before the end of 1976.
DENSITY: *Inshore Terminal:* 1015 at Low Water particularly during rainy season.

Offshore Terminal: Salt.
FRESH WATER: Available by barge at rate of 15 t.p.h. 48 hours advance notice required as barge comes from Port Harcourt.
FUEL: Available only by barge from Port Harcourt.
CUSTOMS ALLOWANCES: 200 cigarettes per man per 7 days. 1 wine or 1 btl spirit per officer per 7 days.
IDENTIFICATION CARDS: Crew to carry passport or seaman's book whilst ashore.
CONSULS: Nil.
REPAIRS: Nil. See "General".
REPATRIATION: Possible via Port Harcourt and Lagos.
AIRPORT: 28 miles by river, to Port Harcourt, then 7 miles by road, twice daily to Lagos, no international flights.
TIME: GMT plus 1, no change.
POLICE/AMBULANCE/FIRE: Contact Via Harbour Master or Shell/BP, VHF 14 or 16.
SHORE LEAVE: Not permitted.
GENERAL: Accommodation ladder must be rigged – used in conjunction with pilot ladder at offshore terminal – and for direct access in inshore terminal. Limited medical assistance available but in extreme emergencies only. Treatment of minor ailments and vaccinations etc. is under no circumstances available. It may be possible in the event of an accident to obtain medical advice. Contact terminal VHF Channel 14 in first instance. Pollution of the sea by dirty ballast bilge discharge or any other means will result in heavy fines, or in severe cases, imprisonment. Any attempt on the part of the boarding officers to persuade the Master to supply more than normal representation should be resisted. In the event of any problem arising over such a matter full details should be *reported to the Agent*. Nigerian flag to be flown. Air letter forms are not acceptable unless with Nigerian stamps.

Delays: Inshore berths: None.

Offshore berths: Worst weather period June–September when heavy swell may be encountered.

Immobilisation of engines: Not permitted at the berth. Not permitted at SBMs. Not advised at sea anchorage due to indifferent holding ground and the existence of obstructions and foul ground in the vicinity.

Loading: Ships are required to load cargo as rapidly as possible by day and night in accordance with the terms of their charter parties.

This means that ships are expected to load as fast as Shell-BP can supply or they can safely receive. The question of how fast a ship can load is the responsibility of the Master having regard to his Owner's instructions, the charter party and the experience of ship's personnel. However, as further guidance and in absence of any instructions to the contrary, ships are expected and nominations of vessels are accepted by Shell-BP on the understanding that ships will be able to accept a bulk loading rate per hour of not less than ten per cent of the summer deadweight of the vessel.

At offshore berth the Berthing Master acts as Loading Master during loading operations and is provided with walkie-talkie radios to ensure adequate ship/shore communication.

Loading Masters visit each vessel, and Masters are requested to co-operate in the completion of the Shell-BP Tanker Port Performance Time Sheet by ship and shore personnel at all terminals. Only crude oil is handled at Shell-BP terminals, loading temperatures and specific gravities of the two grades of crude, Bonny Light and Bonny Medium are reasonably constant and are approximately:

Bonny Light	0.823 at loading temperature
Bonny Medium	0.890 at loading temperature

Early Departure Procedure: A modified early departure procedure is in operation at Bonny Offshore Terminal. Masters are requested to sign all documents in blank, retaining in their possession Masters' consignee copies. On completion of loading, the berthing Master will supply Masters with a copy of the figures required for the completion of the retained documents. Masters requested to complete these before the departure of the vessel. Customs and Agency representatives will normally board vessels during the daylight hours. Depending on other commitments of the offshore launch, it may be necessary to request Masters to provide temporary accommodation for these officials.
AUTHORITY: Nigerian Ports Authority.
AGENT: Alraine (Nigeria) Ltd., 26 Creek Road Apapa. POB 265, Apapa. Tel. 47770. Telex 21 244. Cables: "Freight Lagos".

BRASS RIVER (Offshore Terminal): 04.04 N. 06.17 E.

SHIPMASTER'S REPORT: (NOVEMBER, 1976).

DOCUMENTS:

1 Maritime Declaration of Health.
2 Vaccinations Lists.
6 Crew Lists.
4 Passengers Lists.
2 Stores Lists.
2 Personal Effects Lists.
4 Arms and Ammunitions Declarations.
4 Lists of Animals and Birds.
4 Lists of Ports of Call (last 6 weeks).
Clearance last port.

APPROACHES: Coast line is well defined on high definition radar at a distance of 12 to 15 miles and sounding machine will assist efficently while approaching.

Terminal consists of a central platform showing two flashing lights (one red and one white) – letter "U".

Two SBM's: No. 1 situated 1 mile East of the platform is equipped with a Racon (letter "A"). No. 2 situated 1 mile West of the platform.
PILOTAGE: Berthing Master will board the vessel 2.5 miles North East of the platform. Contact "Brass Terminal" on VHF Channel 16 for berthing instructions and immediately on anchoring to ensure that vessel's arrival is recorded.
ANCHORAGE: 2.5 miles N.E. of the platform.
RESTRICTIONS: Vessels berth in day hours only.
MAX. SIZE: About 250,000 d.w.t.
PRATIQUE: Agent, Health and Customs Officers board at same time as Berthing Master.
RADIO: ETA to be given via Lagos Radio, 120, 72, 48 and 24 hours before arrival at the Terminal anchorage.
TUGS: None available.
BERTHING: Effected under the guidance of Berthing Master assisted by a party of 4 Nigerian people and ship's crew.

Whilst berthed a mooring rope must be ready on the poop deck so that the mooring launch, in the event of the vessel riding up on the SBM, may make fast and tow to realign the vessel.

Each SBM is fitted with 2 nylon mooring ropes connected on a single chain and two hose strings with 16 in. end hoses. Position of hoses connection: amidship port side. Vessel should endeavour to present on arrival 2×16 in. connections on port side. A derrick of 7 to 10 tons SWL with a suitable hook must be rigged ready on port side.
MEDICAL: No facilities but assistance may be given on an emergency basis.
FUEL: Not available.
FRESH WATER: Not available.
DENSITY: About 1025.
REPATRIATION: No crew changes possible.
SHORE LEAVE: Not permitted.
GENERAL: Crude oil handled is: Light Nigerian Crude API=44.0. Temperature about sea temperature, R.V.P.=10.5. Two of the four Nigerian crew stay on the forecastle head and maintain security watch throughout loading operations. Accommodation must be provided for Berthing Master and 2 men. Accommodation ladder is not required. Pilot ladder or pilot hoist are more suitable because of the swell. Immobilization of engine is not permitted at SBM's.

Early Departure Procedure: Masters are required to sign all documents in blank. On completion of loading, seals are controlled by customs officer and Agents complete Master's and Consignee's copies of documents whilst ship is disconnecting and leaving berth.
TERMINAL OPERATOR: The Nigerian AGIP Oil Co. Ltd.

BURUTU (inc. Warri): 05.21 N. 05.31 E.

DOCUMENTS:

7 Ports of Call Lists.
5 Crew Lists.
5 Kroo boy Lists.
2 Animal Lists.
2 Arms and Ammunition Lists.
9 Manifests.
2 Summaries.
1 extra Manifest for transhipment cargo.
3 Stores Lists.
2 Crew Declarations.
2 Inward Reports.
2 NPA Master's Declaration.
2 NPA ship's particulars.
1 Customs Clearance.
1 Declaration of Health.
1 Vaccination List.

PILOTAGE: No compulsory pilotage. local Pilots or rather river guides, available at Escravos. No communication is possible with these guides from Burutu.
ANCHORAGES: 1 anchorage known as "the pool", opposite Okorodudu Town; max. draft for pool anchorage 14 ft. MLWS. Further anchorage at Forcados for vessels waiting to proceed to Burutu or Warri.
MAX. SIZE: Restricted only by draft. Official depth 21 ft. MLWS, governed by actual depth on Escravos bar which does vary from time to time and being dredged for increased draft. Latest information always available from Nigerian Ports Authority, Lagos.
HEALTH: International pratique regulations prevail. Pratique *not* necessary when coming from another port in Nigeria.
RADIO: Station, Port Burutu. Watch kept from 0730–1200, 1400–1700 hrs. on week-days and 0730–1200 hrs. on Saturdays on 2182 kc/s R/T and Channel 16 VHF.
TUGS: No tugs available.
BERTHING: No specific requirements to berthing. Berth number is hoisted on flagpole situated on No. 4 berth. Ships berthed in order of arrival.

Warrl		*length*	*draft*
1	Buoys Fore and Aft	525 ft.	21 ft.
2	Buoys Fore and Aft	525 ft.	21 ft.
3	Single Buoy	No limit	21 ft.
4	Main Wharf	525 ft.	21 ft.
5	Canal Berth	1055 ft.	20 ft.

Burutu

Two vessels normally berth alongside the wharves. The main wharf being some 750 ft. in length and a smaller wharf of some 300 ft. There is plenty of water alongside these berths and the depth that a vessel can load to is controlled by the Burutu flats which are 13 ft.

STEVEDORES: Advice given on radio during transit Escravos-Burutu is quite adequate. Normal rates approximately 13/15 ton per hook hour.

MEDICAL: Fully equipped hospital under supervision of resident medical officer situated at Burutu.

TANKERS: Only small coastal tankers use Burutu to periodically replenish bulk tanks, which have capacity for 1,800 tons gas oil and 900 tons fuel oil, used primarily for consumption by local vessels.

DENSITY: Fresh water.

FRESH WATER: Limited amount available in wet season from shore line at rate of 4 t.p.h.

FUEL: No fuel available.

FIRE PRECAUTIONS: Small fire station situated in port area. No specific fire precautions required.

GANGWAY/DECK WATCHMEN: Considered advisable have gangway/deck watchmen.

OPENING/CLOSING HATCHES: Normally carried out by stevedores, except in ships fitted with Mcgregor hatches.

CUSTOMS ALLOWANCE: 200 cigarettes; part bottle.

IDENTIFICATION CARDS: Either discharge books, or passports advisable.

CONSULS: No consulates at Burutu.

REPAIRS: Dockyard has four slipways which can accommodate most creek and river vessels up to tonnage of 600 tons. Management of dockyard in hands of qualified engineers who are able carry out afloat, hull and/or machinery surveys as required. Limited deck, hull and engine repairs can be carried out.

REPATRIATION: Facilities exist for individuals but not for crew changes.

AIRPORT: Small airstrip 1.5 hours away by launch, where daily scheduled flights by small twin-engined aircraft operate to Lagos.

TIME: GMT plus 1.

HOLIDAYS: January 1/2, March 9/10, April 12/15, June 8, October 1, December 25/26. Cargo may be worked on all these holidays except Christmas Day, Good Friday and Republic Day.

POLICE/AMBULANCE/FIRE: No telephone numbers – all these services available in port area.

TELEPHONES: Facility available for connecting telephones on board.

SHORE LEAVE: Crew members allowed ashore.

AUTHORITY: Nigerian Ports Authority, Burutu.

AGENT: Alraine (Nigeria) Ltd., 4 Khalil Road, POB 374, Warri. Tel. Warri 341. Telex via Lagos 21.244.

CALABAR: 04.57 N. 08.27 E.

Situated on right bank of Calabar River, 42 miles from sea.

DOCUMENTS, and all general information, refer to "Lagos".

PILOTAGE: Not compulsory, but the services of the Harbour Master can be requested for pilotage duties.

MAX. SIZE: The max. recommended draft for vessels using the port of Calabar is 19 ft. 6 in., which is, at present, governed by a depth of water on Duke Town Crossing of 12 ft.

BERTHING:

(*a*) Pool Anchorage, 3 ocean going vessels.
(*b*) Millerio Wharf, 1 ocean going vessel.
(*c*) Cement Wharf, 1 ocean going vessel.
(*d*) Ivy Wharf, 1 coaster vessel. This wharf has been damaged seriously and is not in use at present.

Moorings: One mooring berth is available for main line ships Pilot Service.

AIRPORT: At Calabar.

AUTHORITY: Nigerian Ports Authority.

ESCRAVOS: 05.30 N. 05.00 E. (See Plan)

DOCUMENTS: Required and brought out by Pilot:

4 Nigerian Ports Authority/Masters Declaration.
2 Customs and Excise (Form C 13).
4 Ship's Report (Gulf) } on behalf of Agent.
2 Requests for Service }

The sailing clearance will be completed after B/L figure of cargo loaded is available, and will be delivered to the ship before sailing.

PILOTAGE: Compulsory. Boarding area is in a position 3 miles W.N.W. of the berth operation platform.

Supervisor Pilot's Report: From my personal experience here at the Tank Farm, I can add that in poor visibility or when Tankers approaching this Terminal are having difficulties with their Radars, I am guiding them to proper anchorage using a small R.D.F. which is located at the local airport – Heliport in the Tank Farm and used by local aircraft traffic. The signal comes as "ES" (·   · · ·) on 305 kcs and gives a good bearing from a distance of 30 miles. This is not an official Navigational Aid, but I have used it successfully for many years and besides, when you have nothing else in the area, this is a great help to obtain a line-position.

NAVIGATION AIDS: Berth Operations Platform is a conspicuous steel structure 85 ft. high and is approx. 1 mile from Berth No. 2, between the berth and the shore. On top of this structure is a heliport, which at night is surrounded by red lights. In the event of a power failure a green intermittent light will be shown from one corner of the seaward side of the platform.

A RACON reflector is mounted on this platform for easy identification of the Gulf Sea loading area. Radar transmission from the incoming vessel triggers the RACON Unit which responds with the Morse Code letter "G" (– – ·), followed by a solid tail. This signal is observed visually on the ship's radar screen and appears very close to the point where the radar echo of the berth operations platform itself should appear.

ANCHORAGE: Vessels required to anchor on arrival will anchor in position approx. 3 miles W.N.W. of the berth operations platform, i.e. in a position Lat. 05° 31′ 00″ N., Long. 04° 57′ 30″ E., or as otherwise instructed.

On approaching the terminal, VHF contact can be established with the Mooring Master on Channel 16 and the vessel will be advised of which berth has been nominated for her cargo. At the same time, the vessel will be advised where the Mooring Master will board. In cases where VHF contact is not made, the vessels will remain in the anchorage area until such time as contact is made by radio or the pilot boat. Vessels are advised to anchor only in the stated area due to the existence of submarine pipe-lines in other areas.

Anchorage is forbidden in the mooring area.

RESTRICTIONS: Mooring and unmooring operations will be undertaken by day and by night under normal weather conditions.

Notice of Readiness will be accepted by the Company representative on arrival providing that the ship is in all respects ready to load.

MAX. SIZE: The Escravos Terminal consists of two Single Buoy Mooring Berths Nos. 2 and 3 only, the conventional Sea Berth (Berth No. 1) having now been de-commissioned.

The location of the Sea Terminal Berth No 2 (SBM) for vessels up to 100,000 d.w.t. is off the North of the Escravos River in a position Lat. 5° 30′ 37″ N., Long. 4° 59′ 25″ E., and has a min. depth of water of 72 ft. at LWS.

Berth No. 3 (SBM) for 350,000 d.w.t., vessels is situated 4.25 miles W.S.W. of No. 2 berth in a position Lat. 5° 29′ 29″ N., Long. 4° 55′ 54″ E., and has a min. depth of 105 ft. at LWS.

RADIO: Vessels bound for Escravos must advise their ETA to Gocon, Lagos, 72 hours and 24 hours before arrival -the message to contain the vessel's name, ETA, Master's name. A 24-hour watch is maintained on VHF Channel 16, in the Senior Mooring Master's Office, and ships are usually able to make contact on this Channel at a distance of 20 to 30 miles on the seaward side of the Berth Operations Platform. Channel 10 is used for internal traffic and ship berthing operations.

MOORING: Before arrival at the pilot boarding area, it will be necessary to ensure that the following moorings are ready for use on arrival at the berths:

Four mooring ropes – buoyant lines if possible, e.g. polypropylene, on the forecastle head.

When the vessel is within reasonable distance of the buoy, two ship's lines will be carried by the mooring launch to the floating buoy lines and secured to same, these lines will then be heaved aboard. As the buoy ropes come clear of the water it will be noted that chains are attached to them. These chains are to be secured to the bitts in such a manner that the nylon is outside of the extreme length of the ship; i.e. so that the chains will absorb any chafing if the buoy line crosses the bow. There are two buoy lines.

Power must be available at all times on deck winches and windlass while vessel is at the berth.

A mooring line must be available aft, secured to the bitts and of sufficient length to enable a tug-boat to pick up the eye and tow on it to realign the vessel if necessary. If available, a buoyant line is also preferred in this position.

CARGO: Nigerian Light Crude -API 36° approx. Temperature 85° F. (fairly steady throughout the year).

HOSES: Lifting, connecting, disconnecting, lowering and other handling of hoses will be performed by the ship's crew, as advised by the Company representative, and where possible the Company will provide a pipe-line gang to assist the ship's crew. At all times handling of hoses will be performed by the ship's crew, as advised, and a deck officer must be in attendance.

Both derricks must be rigged and ready for use on arrival and vessels are cautioned that the weight of each hose is at least 3 tons under favourable conditions. Where possible, it is requested that the derrick runner is on one winch and the topping lift on another, as this will make the hose-handling operation much smoother and faster. In any case, members of the ship's crew will be required to operate the winch or winches.

As no equipment will be supplied from the shore; it is essential that all vessels nominated for this port have an adequate supply of gaskets, nuts, bolts, spanners, tools, etc. ASA reducers for use with the Camlock connections can be supplied in an emergency in the standard sizes. Failure to have these items will lead to delay in berthing and could even lead to a situation where the vessel was not accepted by the port. Such delays would be for the ship's account.

Berth No. 2: Loading is through an SBM which is approx. 33 ft. in diameter and held in position by 4 chains secured to piles sunk into the seabed. 1×16 in. floating hose is secured to buoy and has a 12 in. tailing piece attached to it with 12 bolt holes ASA 150 flanges; they are also fitted with Camlock connections. It is proposed to fit another 12 in. tailing piece to this buoy at some future date.

Berth No. 3: Is a larger version of No. 2 and more heavily moored with 8 chains secured to piles sunk into the seabed. There is 1×24 in. floating hose with 2×12 in. tailing pieces. These are ASA flanges with Camlock connections, similar to those at Berth No. 2.

BALLAST: *Deballasting and Loading Procedures:* Vessels proceeding to Escravos to load must arrive with sufficient clean ballast for safe manoeuvring. A vessel arriving with dirty ballast will incur costly delays as it is not permitted to discharge dirty ballast to the sea. The "Load on top" system is accepted at this port and vessels are requested to arrive with the slop tank "settled out" as far as is possible and so avoid any chance of pollution of the Terminal waters from this particular tank.

The Nigerian Government has very strong views on pollution and vessels are warned that a very careful watch is kept at all times to ensure that pollution does not take place, or that if pollution should occur it is controlled as quickly as possible.

All vessels are cautioned to keep a close watch on the floating hose (or hoses) towards the end of deballasting, as it is possible, under certain conditions of weather and tide for the hose to become trapped under the fore-foot of the vessel. Should this situation appear likely to arise vessels are requested to attempt to keep the fore-foot submerged by transfer of water or bunkers, etc. If the hose becomes foul, it must be disconnected and towed clear causing considerable delay to the vessel.

During the hours of darkness it is requested that searchlights from bridgewings and approved floodlights be used to illuminate the surrounding water to facilitate detection of oil and assist generally in loading operations. Vessels are advised that failure to supply sufficient lighting could result in cargo operations not being allowed during the hours of darkness. Such delay would be for the ship's accounts.

After the ballast tanks have been inspected and found to be satisfactory, deballasting will commence on the advice of the Company Representative. When all the ballast has been discharged, the tanks will again be inspected and if ready for cargo a dry certificate, if presented, will be signed by the Company representative. In any case, cargo will be loaded when both ship and shore are ready to commence operations. In no circumstances will the vessel be expected to load at a faster rate than that requested by the Master. It is the ship's responsibility to check that the requested loading rate is not being exceeded. The Company for their part will make every effort to maintain the requested rate and will advise of any alteration of loading rate immediately; prior warning being given if circumstances permit.

Simultaneous Deballasting and Loading: In order to reduce the turn around time at this Terminal, but with close attention to safety, vessels will be permitted to load cargo and discharge ballast simultaneously, provided that no contamination of cargo or pollution of the Terminal waters can occur. Vessels desirous of adopting this method of loading can do so, but will be required to advise the Company in writing, stating that the vessel accepts full responsibility if this method of loading results in contamination of cargo and/or pollution of the Terminal waters.

Throughout the deballasting and cargo operations, a deck officer must be on deck with sufficient crew members to safely handle the operation. Company representatives will be on board throughout to co-ordinate terminal and marine operations and will be in constant communication with the terminal by portable and/or ship's VHF sets. Before loading commences the amount of cargo required must be given to the Company Representative in writing and the Terminal will, in conjunction with the vessel, arranged to stop the flow of cargo at this predetermined figure.

THERE ARE NO FACILITIES AVAILABLE TO DISCHARGE EXCESS CARGO SHOULD THE VESSEL OVERLOAD.

The Company Representative will advise on the detailed procedure for shutting down and disconnecting, but briefly, after cargo is completed and oil has ceased to flow, loading valves on the shore and Berth Operation Platform (BOP) will be closed. Then and not before, the vessel's manifold valves may be closed.

Do not close ship's valves against incoming oil as such procedure creates excessive pressure which may damage hoses, terminal facilities, or ship's piping.

Figures taken after completion will be passed to the shore by VHF and a ship/shore difference obtained. On request, full sets of cargo papers will be prepared and delivered to the Master as speedily as possible. However the briefer form of documentation is used at this terminal, and the remainder of the documents will be forwarded by airmail. At the same time the Company will arrange clearance for the vessel.

Loading signal to be displayed is the International Code flag "B" from a conspicuous halyard during the hours of daylight. During the hours of darkness a red light visible all around the horizon at a distance of at least one mile is to be exhibited.

REPAIRS: No facilities of any kind are available at this port.

Under no circumstances are engine repairs or the immobilisation of main engines permitted within the port limits.

REPATRIATION: Not permitted except in grave emergency and then only if the person concerned holds all the necessary valid certificates and documents, e.g. valid Smallpox, Cholera and Yellow Fever Certificates.

WEATHER AND CURRENTS: Wind and swell are mostly from a South-westerly direction. The weather is generally good from November to May, but is unfavourable during the wet season, i.e. May to November. For approximately 75% of the year the current sets in a N.N.W. direction and for the remainder of the year it is reversed, i.e. S.S.E. The strength of the current varies from 0.5 to 1.5 knots, and the currents frequently reverse direction very quickly causing the vessel to yaw (swing) heavily at the berth.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: Not available except in an emergency.

STORES: Stores are not available at this Terminal and urgent spares/equipment forwarded by air can take up to three (3) weeks to clear formalities. In view of this it is essential that Gulf be advised of the airway bill number at the earliest opportunity to avoid further delays.

NATIONAL FLAG: Available from the Company.

GENERAL: In view of the exposed location of the berths, the Mooring Master and pipe-line gang will have to remain on board throughout the vessel's stay at the berth and, therefore, it will be necessary for the vessel to arrange food and accommodation for this period. A pipe-line gang will usually consist of four men, but this number may be varied at the discretion of the Company.

It is assumed that the Mooring Master will be accommodated in the Pilot Room; but where such a room does not exist on board, then accommodation equivalent to a minimum standard required for a Senior Officer is to be provided. In the case of meals, due allowance and provision is to be made for the fact that irregular hours of work by day and night may be involved.

TIME: Local time is GMT plus one hour throughout the year.

SHORE LEAVE: In view of the isolated positions of the buoy moorings (approx. 15 and 19 miles from shore) Masters are strongly advised not to grant shore leave. The weather and swell conditions could result in persons being injured either embarking or disembarking from the vessel, and in addition the boat journey will take approx. 2-2.5 hours. Should the weather deteriorate, it could mean delay to the vessel as outward clearance would not be granted until all the crew were on board the vessel. As the terminal does not own any suitable boats, it would be necessary for the vessel to charter one for shore leave purposes.

In view of the foregoing, the terminal does not recommend shore leave being granted.

AUTHORITY: Gulf Oil Company (Nigeria) Limited.

FORCADOS (Offshore Terminal): 05.10 N. 05.10 E. (See Plan)

DOCUMENTS:

Port Health:

4 copies Crew List.
3 copies Vaccination List.
3 copies Maritime Declaration of Health.
5 copies List of Last Ports of Call (6 weeks).
4 copies List of Animals and Birds.
4 copies Passenger List.

Customs:

1 copy Crew List.
1 copy List of Last Ports of Call (6 weeks).
2 copies List of Animals and Birds.
1 copy of Passenger List.
1 copy Stores List.
1 copy Personal Effects List.
2 copies Arms and Ammunition List.
1 copy Clearance Last Port.

Agent:

2 copies Crew List.
2 copies List of Last Ports of Call (6 weeks).
2 copies Passenger List.

Vaccination booklets for all crew members to be produced.

Deratisation Exemption Certificate to be produced.

APPROACHES: An efficient sounding machine and a high definition radar will assist in making the terminal for the first time. A heavy cluster of radar echoes from the Escravos area may be recorded on passing the 100-fathom line. On making the 20-fathom line, it is reported that the coastline from North Point to Moore Point and from South Point to Ajamabri shows on the radar screen with good chart comparison.

Once the vessel's position is ascertained and the course for Forcados adopted, the first and most obvious sighting, at night, will be that of the control tower, which is marked with numerous fixed lights at several levels. The control tower, which also serves as a helicopter platform, is in close proximity to the two SBM's.

PILOTAGE: Berthing Master will board vessel on arrival or at anchorage, and remains on board throughout. Contact Berthing Master on VHF Channel 14. Call sign "Forcados Berthing Master". *N.B.:* Also contact "Forcados Terminal" on Channel 14 immediately on anchoring to ensure that vessels arrival is recorded and that berthing turn will be in correct sequence.

ANCHORAGE: 3 miles West of or 2 miles N.W. of Production Platform in position 5° 10′ 17″ N. 5° 10′ 42″ E.

Vessels must not proceed inshore from these positions without a Pilot. When at anchor a listening watch is to be maintained on Channel 14 and this Channel must not be used for ship-to-ship exchanges.

Note: A 14-mile 48 in. pipe-line extends from the coast at South Point near Forcados to the manifold Platform and hence to the SBMs. Vessels are warned not to anchor in the vicinity of the pipe-line.

RESTRICTIONS: Vessels berth at any state of tide, night or day.

MAX. SIZE: Min. size 45,000 tonnes. Max. size 254,000 tonnes. No restriction on length and beam. Max. draft 65 ft.

PRATIQUE: Health and Customs Officers board at a convenient hour and come from Forcados, 20 miles distant from the buoys. Normally travel by high-speed launch, but may occasionally use helicopter.

RADIO: ETA to be given via Lagos Radio, 72 hours before arrival and re-confirm 48 hours before vessel's ETA at the terminal anchorage.

TUGS: No tugs required and none available.

BERTHING: Effected under guidance of Berthing Master and/or local assistant who both remain on board throughout loading operations. Accommodation for both to be provided. Whilst berthed a mooring rope must be ready on the poop deck so that the mooring launch (line boat) may, in the event of the vessel riding up on the SBM, make fast and tow to realign vessel.

There are two SBMs each fitted with two 15 in. nylon moorings and 1 hose string 840 ft. long with 2×16 in. end hoses. No. 1 SBM is South of platform and No. 2 is West.

Position of hose connections: Amidships port or starboard side depending on seasonal conditions. Vessels should endeavour to present 2×16 in. (400 mm.) (150 ASA) connections on arrival. Ship's crew are required to connect and disconnect the hoses under the advice of the Berthing Master and/or his assistant. A derrick, SWL at least 7 tonnes, must be rigged ready on both sides and plumbed clear of ship's side. Derrick runner must be equipped with suitable hook.

Weight of Hoses: Indication only of approximate weights 16 in. I.D. hose strings in tonnes (including fittings, floats, and pick-up buoys) with all hoses full of crude oil SGO. 850. Assumed lift is 7.6 m. (25 ft.) above deck level, with vessel in light draft condition.

d.w.t.	tonnes
200,000	8.9
100,000	8.1
70,000	7.3
50,000	7.0
35,000	6.9

Loading: Load-on-top system operates at Forcados but slops cannot be accepted ashore. Maximum loading rates 11,000 t.p.h. (1/1/74).

A single grade of crude oil is handled which is known as "Forcados Blend".

Shore Line System: Vessels load through SBM from shore through 48 in. line to SBM. The 48 in. submarine line to the SBM is some 14 miles in length, therefore great care must be exercised during loading when ships valves are manipulated to avoid pressure surges. Pressure recorders are normally fitted at the spool piece between ships manifold and tail end of the hose string to monitor pressure changes generated on board the vessel.

MEDICAL: No facilities for medical attendance but assistance may be given only on an emergency basis.

FUEL: Not available.

FRESH WATER: Not available.

DENSITY: Approximately 1025.

REPATRIATION: No crew changes possible.

SHORE LEAVE: Not permitted.

GENERAL:

Loading: Ships are required to load cargo as rapidly as possible by day and night in accordance with the terms of their charter parties.

This means that ships are expected to load as fast as Shell-BP can supply or they can safely receive. The question of how fast a ship can load is the responsibility of the Master having regard to his Owner's instructions, the charter party and the experience of ships' personnel. However, as further guidance, and in absence of any instructions to the contrary, ships are expected and nominations of vessels are accepted by Shell-BP on the understanding that ships will be able to accept a bulk loading rate per hour of not less than ten per cent of the summer deadweight of the vessel.

At offshore berth the Berthing Master acts as Loading Master during Loading Operations and is provided with "walkie-talkie" radios to ensure adequate ship/shore communication.

Loading Masters visit each vessel, and Masters are requested to co-operate in the completion of the Shell-BP Tanker Port Performance Time Sheet by ship and shore personnel at all Terminals. Only crude oil is handled at Shell-BP terminal, loading temperature and specific gravity of the grade of crude. Forcados Blend is reasonably constant and is approximately: 0.856 at loading temperature.

Immobilization of engines: Not permitted at SBMs. Not advisable at sea anchorages as many obstructions if vessel drags anchor.

Restrictions which may cause delays: Weather. Worst period June–September when heavy swell may be encountered.

Early departure procedure: A modified early departure procedure is in operation at Forcados offshore terminal. Masters are requested to sign all documents in blank, retaining in their possession Master's consignees copies. On completion of loading, the Berthing Master will supply Masters with a copy of the figures required for the completion of the retained documents. Masters are requested to complete these before the departure of the vessel. Customs and agency representatives will normally board vessels during daylight hours. Depending on other commitments of the offshore launch, it may be necessary to request masters to provide temporary accommodation for these officials.

WATCHMEN: Whilst berthed at an SBM, a security watch must be kept on the forecastle head by member(s) of the ship's crew throughout the hours of darkness.

SHIPMASTER'S REPORT: The SBM's are situated about 11 miles offshore. *Moorings:* Starboard derrick topped and doubled up. If accommodation ladder rigged then on port-side. Not necessary for vessels up to 50,000 d.w.t.

Hoses: All sizes of reducers available.

TERMINAL OPERATOR: The Shell-B.P. Development Co. of Nigeria Ltd.

LAGOS (including Apapa): 06.27 N. 03.25 E.

DOCUMENTS: See Burutu.

PILOTAGE: Compulsory. Hoist "G" flag. Agent to give notice of ETA to Harbour Master as early as possible. Contact Pilot by VHF Channel 16. No pilot boat stationed outside.

ANCHORAGES:

	Length	Draft
Pool 1	480 ft.	24 ft.
Pool 2	600 ft.	28 ft.
Pool 3	450 ft.	26 ft.
Pool 4	450 ft.	26 ft.
Badagry Creek	380 ft.	22 ft.

Vessels not permitted to remain at anchor at Pool 1 during hours of darkness due to poor holding ground.

4 vessels, maximum length 380 ft. can anchor at Badagry Creek Anchorage. Max. draft 22 ft.

RESTRICTIONS: Draft only. Vessels of more than 600 ft. overall length are not allowed to be brought into the port. Max. permissible draft is 27 ft.

MAX. SIZE:

	Length	Draft
Marina Buoys	750 ft.	27 ft.
Container Berth	720 ft.	27 ft.
Pool	600 ft.	27 ft.
APQs	600 ft.	27 ft.
PWA	600 ft.	25 ft.
BOP	565 ft.	25 ft.
Ijora	400 ft.	19 ft.

Marina Buoys: Eleven Mooring Berths, length varies from 350 ft. to 750 ft. and draft from 18 ft. to 27 ft.

No. 1 Berth – Can accommodate a ship of max. length 600 ft. – draft 27 ft.

No. 2 Berth – Can accommodate a ship of max. length 450 ft. – draft 26 ft.

No. 3 Berth – Can accommodate a ship of max. length 520 ft. – draft 26 ft.

No. 4 Berth – Can accommodate a ship of max. length 520 ft. – draft 25 ft.

No. 5 Berth – Can accommodate a ship of max. length 475 ft. – draft 24 ft.

No. 6 to 11 Berths – At present can only accommodate vessels not exceeding 350 ft. in length – Drafts varying between 17 ft. to 23 ft. at various berths.

APQ: Max. recommended lengths for vessels occupying berths from Apapa 1 to Apapa 7 is 550 ft. and in the remaining berths vessels up to 600 ft. can be accommodated.

P.W.A.: Vessels of 600 ft. with the max. arrival draft of 25 ft. can be accommodated. Departure draft should not exceed 19 ft. 6 ins.

B.O.P.: Vessels of 565 ft. with the maximum draft of 25 ft. can be accommodated. Departure draft should not exceed 19 ft. 6 ins.

N.O.J. (New Oil Jetty): Vessels of 565 ft. with the max. draft of 25 ft. can be accommodated. Departure draft should not exceed 19 ft. 6 ins. This jetty is used for petroleum products.

Ijora: 2 Berths, East and West.

East – Length of vessel should not exceed 400 ft. with the max. draft of 19 ft.

West – Max. length of the vessel 270 ft. draft 19 ft.

Also see "Berthing".

HEALTH: Port Health Officer boards vessel on arrival. ETAs must be advised by ship or Agent direct to Port Health. Pratique automatic when from Nigerian port. Also see "General".

RADIO: Messages routed through Lagos Radio.

Continuous VHF watch on Channel 16 maintained in Harbour Master's office. Contact Signal Station by VHF Channel 16.

TUGS: No specific joining position, depending on tide and on Pilot's request, otherwise close to berth. Normally ship's line used. 2 tugs available 1,280 h.p. 24 hour service available. Also see "General".

BERTHING: Cargo for Apapa and Lagos should be stowed separately on all liner ships as the Apapa wharves have rail connections to the North, and the customs wharf only receives cargo for Lagos locally.

No specific arrival time is required for berths, except for Petroleum Wharf where tankers need high water. Berthing on ebb tide required for Fish Wharf and Ijora Wharf.

There are 3 berths at the Customs Jetty, 1, 2 and 3. The depths alongside are 22 ft. 6 in.; 21 ft. 6 in.; 19 ft. 6 in. respectively. Each berth can accommodate a vessel of max. 500 ft. in length.

Fish Wharf, length 280 ft., draft 19 ft.

Iddo Pool Buoy No. 1
Iddo Pool Buoy No. 2
Iddo Pool Buoy No. 3
Iddo Pool Buoy No. 4
} Reserved for Naval vessels

Mooring Berths:

Nido Gas Buoy: Can accommodate a gas tanker of max. length 250 ft. draft 16 ft.

Badagary Creek: Mooring Buoys – 2 berths – can accommodate 2 vessels at a time. Max. length of the vessel should not exceed 450 ft. and deepest draft 23 ft.

Commodore Buoys: 3 mooring berths – can accommodate 3 vessels. Max. length of the vessel should not exceed 600 ft. and deepest draft 27 ft.

Bruce Buoys: 4 mooring berths – can accommodate 4 vessels at a time. Max. length of the vessel should not exceed 520 ft. and deepest draft 27 ft.

Lighterage Terminal at Kirikiri: Is available for lighterage operation.

CRANES: 2 floating cranes 1×40 ton capacity, 1×100 ton capacity.

STEVEDORES: Available.

MEDICAL: Agents to be given advance notice of medical attention required as early as possible. Hospital facilities available. International Certificates of smallpox and yellow fever required.
TANKERS: Length 580 ft. Draft 25 ft. (FW).
DENSITY: 1012.
FRESH WATER: Delivery by barges at between 20 to 40 t.p.h. Advance notification needed.
FUEL: Fuel oil available, coal bunkers obtained from Ijora Wharf. A guarantee of sufficient bunker to last the period of stay on a berth will be one of the conditions to be satisfied before a vessel is allocated a berth.
FIRE PRECAUTIONS: Tankers and vessels with explosives: fire-boat always in attendance with fire-control depot ashore working in conjunction with the Harbour Master on VHF Channel 16. Port area tugboats also equipped for fire fighting.
GANGWAY/DECK WATCHMEN: Advisable, available if required.
OPENING/CLOSING HATCHES: Stevedores/crew.
CUSTOMS ALLOWANCES: Tobacco allowance: 200 cigarettes per person, reissue after 8 days. Wine/Spirit: 1 part bottle, reissue to officers after 4 days.
IDENTIFICATION CARDS: Passports or identity cards.
CONSULS: Most countries maintain Embassies/High Commissions or Consuls.
REPAIRS: Major repairs available.
DRY DOCKS: Authority maintains large, well-equipped dockyard, which, while primarily for maintenance of Authority's own fleet, provides facilities to commercial interests. In installation is modern floating dock which has lifting capacity of 4,000 tons. Max. draft 18 ft. Synchro-lift available lifting capacity 100 tons max.

In addition to facilities offered by Authority's dockyard, major shipping agencies in port maintain dockyard installations, including slipways for raking smaller vessels and lighters; can provide first-aid repair for main line vessels.

Bull Nose – No. 1 – can accommodate a vessel of 380 ft. in length and max. draft 16 ft. 6 in.

Bull Nose – No. 2 – can accommodate a vessel of 250 ft. in length and max. draft 16 ft. 6 in.

REPATRIATION: Facilities available for effecting crew changes and arranging any necessary repatriations.
AIRPORT: 8 miles from harbour, served by regular airlines.
TIME: GMT plus 1 hour.
HOLIDAYS: Fixed: New Year's Day (1st January); National Day (1st October); Christmas Day (25th December); Boxing Day (26th December). Variable: Good Friday; Easter Monday; Eid-El-Fitir Festival; Eid-El-Kebir Festival; Maolud Nabiyyi (Mohammed's Birthday). Port closed on Republic Day, Good Friday and Christmas Day.
POLICE/AMBULANCE/FIRE: Police Apapa 45798, Lagos Custom 20030; Ambulance Apapa 41341/227; Fire Apapa 41741, Lagos Custom 20777, General Emergencies 199.
TELEPHONES: No arrangements for telephones on board.
SERVICES: Small services available.
SHORE LEAVE: Crew members allowed ashore after clearance by Port Health and Immigration Authorities.
GENERAL: Notice issued by the Harbour Master in May, 1976:
Will all ships' Agencies note that from the date of this circular letter, Lagos Radio has been instructed to reject any telex messages from any ship addressed to the Harbour Authority unless the itemised particulars are included:

(a) Ship's name.
(b) Ship's call sign.
(c) Ship's Agent's name.
(d) Ship's length overall.
(e) Ship's tonnage loaded.
(f) Ship's draft.
(g) Nature of cargo (i.e. cement, general cargo, etc.).
(h) Last port of call.

Notice issued by the Nigerian Federal Ministry of Health in May, 1976:

Please communicate to all Masters that request for radio pratique either by international sanitary codes or otherwise must state clearly the following:

(a) Last port of call;
(b) number of crew;
(c) vaccination and inoculation of crew;
(d) date and time of arrival;
(e) condition of ship;
(f) number of passengers onboard;
(g) name of Agent.

AUTHORITY: Nigerian Ports Authority.

AGENT: Alraine (Nigeria) Ltd., 26 Creek Road, Apapa, Lagos. P.O. Box 2206. Tel. 47 770. Cables "Freight Lagos". Telex 21244.

PENNINGTON OFFSHORE TERMINAL:

04.15 N. 05.36 E. **(See Plan)**

All vessels required fly Nigerian Ensign on foremast.
OPERATORS: Texaco Overseas (Nigeria) Petroleum Company.
LOCATION: The floating storage vessel, designated as "Special Purpose Vessel (SPV) 367001", is a 367,000 barrel storage hulk fabricated from the forebodies of 2 tank vessels and is approximately 740 ft. in length. The SPV is moored to SPM-A, one of two single point mooring berths:

1. SPM-A is located approximately 20 miles off the mouth of Fishtown River in a position
Lat. 4° 14′ 35.2″ N.
Long. 5° 36′ 53.2″ E.

2. The Export Tanker Buoy (SPM-B) is capable of accommodating vessels up to 250,000 d.w.t. and is located at
Lat. 4° 15′ 0.0″ N.
Long. 5° 36′ 10.5″ E.

on a bearing of North 60° West and a distance of approximately 5,000 ft. from SPM-A. The minimum water depth at SPM-B is approximately 88 ft.
APPROACHES: Incoming tankers should make their terminal approach from a westerly direction to a point not less than 2 miles seaward of the Export Tanker Berth. At this location the Mooring Master will board the vessel.
DOCUMENTS: Following documents required by Customs and Health Officials.

Last Port Clearance.
Register.
7 copies Passenger Manifests.
7 copies Crew Lists.
2 copies Stores Lists.
2 copies Bonded Stores Lists.
2 copies Arms and Ammunition List.
6 copies Livestock List.
1 copy Vaccination List, showing date of last smallpox, cholera and yellow fever inoculations of all Crew members.
2 copies of Master's Declaration to Nigerian Ports Authority.
These forms will be supplied when Authorities board the ship.
1 copy of Maritime Declaration of Health.
12 copies of Notice of Readiness.
Before sailing and immediately upon completion of loading, vessel must provide 12 copies of Ullage Report.

Government officials representing various departments may, at their discretion, board the vessels in the Terminal area.
PILOTAGE: (see "Approaches") The Company Mooring Master, together with Customs Officials will board incoming vessel about 2 miles seaward of the Terminal Export buoy. Vessel's Master will be advised on approach to the berth details in respect of mooring, unmooring, connecting and disconnecting hoses, loading operations and departure from the berth.

Vessels requested to have pilot ladder safely and securely rigged for immediate use, and long enough to reach the Mooring Master's launch. A light line should be ready to take on board the Mooring Master's radio and/or briefcase.

The Mooring Master will remain on board during loading operations and he will be in direct control of all ship communications while in Terminal area.
MAX. SIZE: Max. d.w.t. 250,000 tons.
RADIO: All vessels to be loaded at the Terminal must cable ETA to "Topcon, Lagos", 96 hours and 24 hours prior arrival. The Company in Lagos will then notify Senior Mooring Master on board Special Purpose Vessel.

Ship to "SPV 367001" communication, while vessels are in the export tanker berth will be by portable VHF radio-telephone units, provided by Terminal. The Company Mooring Master will advise ship's Master regarding emergency whistle signals set up for use in event radio-telephone units become inoperative. Use of ship's radio station and/or battery charging is prohibited while loading is in progress.
VHF: As soon as possible prior to arrival, vessels should establish direct communication with the Terminal (SPV 367001) on VHF International Calling Channel 16 (156.8 mHz).
TUGS: *SPM Vessels:* The Terminal will have available 2 line handling vessels and one SPM-Hose maintenance vessel. These 3 vessels are under the control of the Mooring Master and are used to assist the mooring of the Tanker as required. These service vessels are not available to the Tanker for any other work.
READINESS: The Company will make every effort to load vessels upon arrival, or as promptly as berth is available, weather permitting.

"Notice of Readiness" will be accepted as at time of arrival, provided vessel is in all respects ready to load. Arrival time will be considered as at time Mooring Master boards vessel, or time vessel anchors off the terminal, which ever occurs first.

Mooring Master may reject a vessel if in his judgment she is not properly equipped or suitably manned, or if, upon inspection, he deems her to have dirty ballast or tanks unsuitable for cargo. However, Company will not issue any certificate or representation purporting to state that vessel's tanks, pipes and pumps and appurtenances are clean or acceptable for receiving cargo nor will the Company assume any responsibility for "contamination of cargo aboard ship caused by condition of ship's tanks, pipes, pumps or appurtenances".

The vessel shall have in readiness 2 nylon ropes with a minimum diameter of 2 in., each approximately 200 ft. long and each terminated with 2×2.25 in. joining shackles to attach and retrieve the SPM mooring lines.

Vessels must be adequately equipped with blocks, tackle and booms to hoist the floating hose string in a safe, efficient and expeditious manner. Vessels must also have an adequate supply of nuts, bolts, gaskets and wrenches to connect cargo hoses system.
BALLAST: Absolutely no provision is made for dirty ballast. Vessels with dirty ballast will be rejected and all costs therefrom will be to the vessel's account.

It is the Ship Master's responsibility to see that no oil or oily ballast is pumped or spilled overboard. Drip pans must be used at all times and all scuppers must be plugged. The waters in and adjacent to the Terminal must not be polluted, and only clean oil-free ballast and/or bilge water may be discharged at the Terminal.

As soon as practicable after arrival, and prior acceptance for loading, all vessel's tanks will be inspected for evidence of oil in ballast, and during discharge of ballast, similar inspections will continue. If evidence of oil appears at these inspections, the vessel may have to vacate berth. Upon return, vessel will be obliged to tender new "Notice of Readiness".

If, during first inspection or during process of loading it is revealed that vessel's tanks are not oil-tight, she will be rejected, or refused further loading.

In addition to lights usually displayed, vessels discharging ballast or loading cargo during darkness will illuminate area around the ship to satisfaction of Mooring Master, in order that any oil on the surface of sea may readily be detected and appropriate action taken. Vessels unable to illuminate sea satisfactorily may not discharge ballast during darkness. Vessels should provide suitable floodlights for working on deck during night operations.

In the event any vessel should accidently discharge dirty ballast or spill oil in the vicinity of the Terminal, the Company shall have the right to take any action that may be necessary to clean up or remove any contamination or pollution resulting from such discharge of dirty ballast or spillage. In addition, the Company shall have the right to settle any claims of third parties arising from such contamination or pollution. All costs and expenses incurred by the Company to carry out the cleaning up of such contamination or pollution or the settlement of third party claims, shall be the joint and several liability of the Vessel, its Owners and Managers, and the Company shall be entitled to claim reimbursement accordingly in any jurisdiction.

Vessels properly equipped will be encouraged to discharge clean ballast and load simultaneously.

BERTHING: All manoeuvring within loading berth area is to be done only in accordance with advice of Company Mooring Masters, subject to understanding that in all cases and circumstances Master of vessel being manoeuvred shall remain solely responsible for safety and proper manoeuvring. Vessel's Master or a qualified Deck Officer must be on bridge at all times during manoeuvring.

EXPORT TANKER BERTH FACILITIES: The Export Tanker Buoy is a conventional SBM which is 10 m. in diameter and held in position by 6 chains secured to piles sunk in the seabed. Two mooring hawsers and a single floating hose string extends from the buoy.

CONNECTING MOORING LINES: When the Vessel is within reasonable distance of the SPM-B, 2 ship's lines will be carried by a line handling launch to the floating buoy lines and secured. These lines will then be heaved aboard. As the buoy ropes come clear of the water it will be noted that chains are attached to them. These chains are to be secured to the bits in such a manner that the nylon is outside of the extreme length of the ship; i.e. so that the chains will absorb any chafing if the buoy line crosses the bow. There are 2 buoy lines. Power must be available at all times on all winches and windlass while Vessel is at the berth.

LOADING: During loading, the International Code Flag "B" shall be displayed from top-mast signal halyard during daylight hours. During hours of darkness, a red light shall be displayed, visible at a distance of at least 1 mile, and showing unbroken light all around the horizon.

Raising, connecting, disconnecting and lowering of submarine hoses will be performed by vessel's crew under direction and supervision of an appropriate vessel's Officer as advised by the Mooring Master, who will remain on board while the vessel is in moorings.

After vessel securely moored the floating hose will be lifted to rail amidships. The weight of the lift is approximately 5 tons and is lifted with vessel's gear on port side. The Mooring Master advises vessel's personnel in the lifting, connecting, disconnecting and lowering of the hose system. A vessel's Deck Officer must be present, and direct the crew in all hose handling. There must be sufficient crew on deck to perform this work.

The vessel's Master is responsible for own vessel at all times. The max. loading rate is about 15,000 b.p.h. and Company mooring Master will advise in respect to loading pressures and hazards, but will not direct loading except as may be necessary to protect Terminal facilities. Manipulation of vessel's valves is direct responsibility of vessel's personnel.

Prior to commencement of loading, Chief Officer will assure the Mooring Master that sea suction valves are *closed* and he will make note to that effect in Mooring Master's log before cargo loading started. Final ullaging and computation of cargo will be done by an Officer of the vessel who will hand this information to Mooring Master for transmittal to Officer in charge on board "SPV 367001" for use in comparing metered-out cargo.

Caution. – The incoming oil stream is controlled on board the "SPV 367001" and it is extremely dangerous to close a cargo valve against the incoming stream. Such a procedure creates excessive pressure, which may damage hoses, piping or Terminal facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

Emergency Signal. – When normal ship-to-"SPV 367001" communications fail, the emergency signal to stop the flow of oil will be a continuous blast on the whistle until oil ceases to flow. Steam or air should never be shut off from the whistle during loading. Whenever emergency whistle is used, all loading operations will be shut down until communications can be re-established.

Terminal Stops. – Request for the Terminal to stop the flow of cargo at a predetermined tonnage must be made in writing. Requests must include statements that the Company will not be held responsible for any error and in case of overloading, the excess cargo cannot be pumped back to the "SPV 367001". Some delays are always incurred when such a shore stop request is made.

SAFETY: Vessel's personnel responsible for safety of vessel, and must take all necessary precautions whether or not so advised by Mooring Master. Any safety precautions imposed by Company Mooring Master, and so disregarded by ship's Officers or Crew, will be considered just cause for rejection of vessel and all expenses and liabilities related thereto will be for account of the tanker.

Not less than 1 Deck Officer and 3 seamen shall be available on deck at all times while vessel in moorings.

Power must be available at all times on deck winches and windlass while vessel in moorings.

Presence of unauthorized craft alongside is extremely hazardous and Masters are requested to require all unauthorized craft to clear vessel's side prior to ballast pumping and cargo loading.

Mooring Masters are authorized to shut down loading operations during severe electrical storms, if another vessel or craft of any description comes alongside the loading vessel, and under any other circumstances which imperil loading operations.

MEDICAL: Medical assistance on an emergency basis only.

REPAIRS: No facilities of any kind are available. Pennington Offshore Terminal is considered an open roadstead and under no circumstances may engines be shut down for repairs while a vessel is moored in the Export Tanker Berth. The Vessel must be able to depart from the berth immediately on instructions to do so.

WEATHER/CURRENTS: Wind and swell are mostly from a Southerly direction. The weather is generally good from November to May but is unfavourable during the wet season months of May to November. The currents are irregular and at times strong. The Mooring Master will provide the Master with this information when boarding the vessel.

FRESH WATER: Not available.

FUEL: Not available.

STORES: Not available.

REPATRIATION: Not permitted except in grave emergencies.

SHORE LEAVE: Not permitted.

GENERAL: Cargo inspection services are available from E. W. Saybolt and Co. S.A. who have offices in Lagos. The use of this service will be for account of vessel or Consignee.

AGENCY: The Company does not perform general agency functions. Owners of vessels calling at the Terminal may arrange for their own Agents, although due to the location of the Terminal there are no Agent's offices in the area. For this reason the Company will arrange for the minimum agency service necessary to document and clear vessel and export cargo through Nigerian Customs. Costs of this Agency service will be charged back to appropriate parties.

PORT HARCOURT (incl. Okrika): 04.46 N. 07.01 E.

DOCUMENTS:

9 Crew Lists.
9 Passenger Lists.
6 Arms and Ammunition Lists.
6 Livestock Lists.
7 Ports of Call Lists.
2 Bonded Store Lists.
3 Vaccination Lists.
10 Manifests.
2 Bills of Lading.
2 Crew Declaration (Special Lists).

PILOTAGE: The Pilot Station for Port Harcourt is at Bonny, 15 miles from Fairway Buoy, 28 miles from Port Harcourt. The Harbour Master keeps watch on VHF Channels 16 and 14 and on 2182 from 0700 hrs. to 1800 hrs. As there presently is no radio station at Port Harcourt Masters should cable their Lagos Agent with a 48 hours ETA asking the Lagos Agent to pass the information to Port Harcourt. Pilot boards at Fairway Buoy from pilot-cutter green hull, stone colour superstructure.

Position of Fairway Buoy: 4° 12′ 56″ N., 7° 00′ 28″ E.

It should be noted that Bonny is an Oil Terminal and as such heavy traffic of tankers is continuous. In extreme circumstances vessels may be requested by Harbour Master to pass the channel from Fairway Buoy at Bonny, and anchor at Bonny without a Pilot, in which case latest Notices to Mariners should be studied in order not to damage oil pipe-lines in prohibited anchorage areas.

ANCHORAGES: Position West of Fairway Buoy, depths 8–9 fathoms.

RESTRICTIONS: Night pilotage available for tankers at Bonny only. Vessels for Okrika and Port Harcourt can only navigate during daylight.

MAX. SIZE: Maximum draft is 25 ft. at high water, minimum depth in approaches 18 ft. datum. Max. length 600 ft. no restrictions on beam. Ebb tide reaches a max. of 3 knots off the berths and 2.5 knots in the river, flood tide 2.5 knots off berths and in the river.

HEALTH: Q-flag to be shown on arrival, except if from another Nigerian port, Yellow fever and smallpox inoculations compulsory. In case of suspected disease on board, advance notice to Agent advisory.

TUGS: One tug available, 1,490 h.p.

BERTHING: *Main Quay:* The main Quay is 3,459 ft. long and capable of berthing seven vessels, with drafts from 24 ft. to 26 ft.

The old quays at Port Harcourt have been completely reconditioned to enable them handle bigger ships. Dredging in front of these quays is in progress and when completed ships with drafts of up to 29 ft. will be able to use these berths.

B.O.P. Berth. This berth lies outside the Quay area, and is for the loading of palm oil by means of a direct pipe-line from the installation of Bulk Oil Plants (Nigeria) Limited. It consists of a central "T" jetty with dolphins and is capable of berthing vessels up to 480 ft. in length. It is also used for the discharge of explosives as such cargo is not permitted to be handled across the general cargo Quay.

Oil is supplied by a 6-in. diameter pipe at a maximum rate of 250 t.p.h.

Okrika Oil Refinery: Okrika lies on the Bonny River, some 35 miles from Bonny Fairway Buoy. The approach is by a buoyed channel some 8 miles in length, dredged to a depth of 38 ft. chart datum. The river from Bonny to Okrika has been dredged as necessary and least depths are 29 ft. chart datum. Jetty at the oil refinery suitable for berthing coastal and ocean tankers up to 33,000 tons deadweight. The jetty is "L" shaped with a square dolphin at the end of the arm. Ocean tankers secure on the outside of the jetty making fast to two sets of mooring dolphins each end. The coastal vessels and barges are berthed on the inside of the jetty. Oil is supplied via gantry hoses on either side.

Coal handling facilities: Facilities for loading coal have been completed and a conveyor capable of loading about 60 t.p.h. is working. Max. draft at the coal berth is 24 ft. This berth is situated at the Northern end of the Port, berth No. 8.

STEVEDORES: Gang requirements and hatch distribution should be included in 48-hours ETA cable to Agent. Discharging general cargo 8 tons per gang/hour, cement 15 tons per gang/hour, bagged cargo 20 tons per gang/hour, loading produce 15–20 tons per gang/hour.

MEDICAL: Doctors available 24 hours, but limited supply of medicaments. Yellow fever, cholera and smallpox vaccination required.

DENSITY: Appx. 1015.

FRESH WATER: No restriction, from barge (15 ton/hour). From quay low pressure, max. 8 ton/hour.

FUEL: Most standard lubricants available, fuel available by barge only. Requirements by 48-hours ETA cable.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Normally by crew.

CUSTOMS ALLOWANCES: 200 cigarettes per man per 7 days. 1 wine or 1 bottle spirits per officer per 7 days.

IDENTIFICATION CARDS: Crew to carry passport or seaman's book whilst ashore.

REPAIRS: Only very minor repairs available, no spares.

REPATRIATION: Possible via Lagos.

AIRPORT: 7 miles away, twice daily flights to Lagos, no international flights.

TIME: GMT plus 1 hour, no changes during the year.

HOLIDAYS: New Year (Jan. 1st); Id-El-Kabir (Feb. 16–17th); Good Friday and Easter Monday; National Day (Oct. 1st); Fasting Period (October 31st); Id-El-Fitri (Nov. 29–30th); Christmas Day (Dec. 25th); Boxing Day (Dec. 26th). The Muhamadan holidays are subject to changes. The port does not work on Good Friday, Christmas Day and Republic Day.

POLICE/AMBULANCE/FIRE: All can be contacted by tel. 999.

SHORE LEAVE: Allowed provided crew carry passport or seaman's book.

AUTHORITY: Nigerian Ports Authority.

AGENT: Alraine (Nigeria) Limited, PO Box 622, Port Harcourt, tel. 8059, 8062, 8053. Telex Freight Lagos 21244 attention – Port Harcourt.

QUE IBOE: 04.20 N. 07.59 E. (See Plan)

LOCATION: The Terminal is located on the Eastern side of the estuary of the Que Iboe River in approximate position Latitude 4° 33′ 00″ N., Longitude 7° 59′ 30″ E.

The crude oil storage facilities consist of seven tanks each of 500,000 barrels capacity.

DOCUMENTS:

Crew Lists with passports and Certificates of Vaccinations available for inspection.
Stores List.
Crew Personal Effects List.
Manifest of Cargo.
Arms and Ammunition List.
List of Animals.
List of Ports of call during last 21 days.

If the vessel has a clearance for another port the deviation cable has to be shown to the Customs Officer.

PILOTAGE: Vessels loading at Que Iboe will be boarded by a Company Mooring Master either at the anchorage or where directed.

The Mooring Master will advise the ship's Master in regard to the approaches to the berth; and the mooring, unmooring, connecting, disconnection of hoses, departure from the berth and loading operations.

All vessels must have upon arrival a pilot ladder in good, clean condition safely and securely rigged. A vessel arriving with freeboard of 30 feet or more must use its accommodation ladder in conjunction with the pilot ladder unless a "pilot hoist" or similar arrangement is available.

In the event that a vessel is deemed by the Mooring Master to be improperly or insufficiently equipped with adequate mooring facilities, lines or gear, then he shall so inform the ship's Master. In such an event the vessel will not be brought into the mooring until satisfactory gear or equipment is provided.

ANCHORAGE: Numerous submarine pipe-lines and structures exist in the approaches and close vicinity of the loading berths.

Under no circumstances whatsoever should vessels anchor except in the approved anchorage described below.

The safe Anchorage Area is located two (2) miles Southeast the Berth operation platform (BOP) and clear of the SPM between the parallels of Latitude 4° 10′ North and 4° 13′ North and meridian 8° 03′ East and 8° 07′ East. Vessels bound for the Que Iboe Terminal should proceed with extreme caution from the Southeast to the safe Anchorage Area. If uncertain of the vessel's position because of poor visibility stay Southeast and clear of the safe Anchorage Area until visibility is good.

HEALTH: Pratique may be granted by radio (Lagos Radio). Quarantine officials board vessel at the berth.

MAX. SIZE:

Berth	*Length*	*Beam*	*Draft*
No. 1 (SM)	850 ft.	No Limit	45 ft.
No. 2 (SPM)	No restriction	No Limit	75 ft.

RADIO: Vessels proceeding to load at Que Iboe must radio:

1. MOBIL OIL, Lagos indicating their cargo requirements and ETA seven days prior to arrival. When their passage time is such as to not permit a seven-day ETA then the maximum possible advance notice of arrival and cargo requirements must be given.
2. MOBIL OIL, Lagos, confirming or amending the ETA given in (1) above at seventy-two hours and twenty-four hours prior to arrival.
3. The Nigerian Government Port Health Officer at Lagos at least seventy-two hours before arrival advising the following:
   (a) Vessel's name and call sign.
   (b) ETA Que Iboe
   (c) Approximate cargo tonnage to be loaded
   (d) Number of crew and whether healthy or not
   (e) Whether or not a doctor on board
   (f) Requesting free pratique.

If the request for free pratique is granted the Port Health Officer will so advise th vessel by radio.

In addition, as soon as possible prior to arrival vessels should establish direct communication with the Terminal ("Que Iboe Control") on VHF international calling Channel 16 (156.8 mHz). After initial contact communication will continue on Channel 14 (156.7 mHz).

Vessels not equipped with VHF R/T equipment or whose equipment is not fully functional should advise MOBIL OIL, Lagos, at the time of their ETA messages previously referred to.

The (BOP) Berth Operation Platform is fitted with a racon and transmits the Morse signal "K" (—·—). All vessels equipped with 3 cm radar will be able to pick this up on their radar screen.

TUGS: None. Terminal launches assist in berthing.

BERTHING: The tanker loading facilities consist of two berths: No. 1 Berth: A seven-point spread mooring (SM) located in a position Latitude 4° 20′ 19″ N., Longitude 8° 00′ 11″ E., approximately 12 nautical miles South of the terminal tank farm. Depth of water at the manifold 65 feet.

No. 2 Berth: A single point mooring (SPM) buoy located in a position Latitude 4° 13′ 05″ N., Longitude 8° 02′ 45″ E., approximately 19.4 nautical miles S.E. of the terminal tank farm. Depth of water at the manifold 85 feet.

Vessels loading at Que Iboe will normally berth at the SPM. From time to time and at the discretion of the Mooring Master vessels of up to 80,000 SDWT will be berthed at the Spread Mooring.

All vessels must be adequately provided with bollards or cruciforms and suitable leads to facilitate the hanging off of the hoses during the lifting operation. All vessels loading at Que Iboe must have two bower anchors and a minimum of 10 working shots of chain attached to each anchor.

All vessels must be equipped with adequate on-deck and overside lighting. A spotlight should be rigged on the bridge when berthing during the hours of darkness.

To assist in the vessel's turnaround, tankers should have all booms and cargo gear rigged on the port or starboard side as advised by radio from the Terminal before the ship is boarded by the Mooring Master.

Berthing Requirements: No. 1 Berth. Vessels of less than 80,000 Summer d.w.t. should be equipped with booms, cranes or derricks to safely lift 12 inch and 16 inch I. D. hoses from a 65 ft. water depth. Submarine hose taken aboard on the starboard side.

Vessels must have at least eight (8) good ropes, preferably non-stretch synthetic lines, at least 120 fathoms in length. Three of the eight lines should be prepared at the after end of the main deck forward of the poop in the following manner: one line on each side of the ship and one in the centreline with the ends of the centre rope married to the inboard ends of the port and starboard ropes so that if necessary a double or treble length can be run on either side of the ship without delay. The other five ropes should be located on the poop deck. The use of nylon or other mooring lines having a high stretch factor should not be used in this berth.

Mooring buoys No. 2, 4 and 6 are provided with preventer wires. These preventer wires are to be taken aboard and secured as directed by the Mooring Master.

Anchor buoys should be attached to the bower anchors.

Berthing Requirements: No. 2 Berth. All vessels proceeding to the SPM must secure their anchors with chain stoppers or compressors. Floating hoses taken aboard on the port side.

The moorings have been designed in general accordance with the recommendations of the SPM Forum. The mooring lines consist of two 15 inch braided polypropylene strops each 160 ft. long.

In order to have the mooring lines aboard, the vessel should have ready on the forecastle a rope messenger at least 5.5 inches in circumference and a minimum length of 120 fathoms. The messenger is led through a fairlead, large enough to permit the entry of a 4.25 in. dia. chafing chain, on port side or centre line down to the water clear of the ship's bow. This messenger should have a good lashing attached to the eye.

The Terminal Launch crew then make this fast to a 300 ft.×10 in. plaited polypropylene buoy approach or pick up rope and then the ship is hove steadily towards the buoy until the chafing chain lies across the fairlead. The chafing chain then will be shackled to a heavy wire strop, which has been placed over a suitable set of bitts. The wire strops and shackle are provided by the Terminal and put on board as the ship approaches the buoy.

HOSES: *Tanker on Light Draft: Weights of hose strings for multi-buoy moorings:* Indication only of approximate weights of hose strings in *long tons* (including fittings) with all hoses full of crude oil S.G.0.850. Assumed total lift 25 ft. above deck level.

Water Depth in Berth (feet)

Size of Tanker		70 ft.	60 ft.		70 ft.	60 ft.
	16 in. I.D.			12 in. I.D.		
100,000 d.w.t.	Hoses	8.6	8.4	Hoses	5.1	5.0
70,000 d.w.t.	,,	7.8	7.6	,,	4.6	4.5
50,000 d.w.t.	,,	7.7	7.4	,,	4.5	4.4
35,000 d.w.t.	,,	7.5	7.2	,,	4.4	4.3
18,000 d.w.t.	,,	6.7	6.4	,,	3.9	3.8

Tanker on Light Draft: Weights of Hose strings for SPM: Indication of hose strings approximate weights of hose strings in *long tons* (including fittings and floats) with all hoses full of crude oil S.G. 0.850. Assumed total lift 25 ft. above deck level.

	Inside Diameter of Hoses	
Size of Tanker	16 in.	12 in.
200,000 d.w.t.	8.8	5.2
100,000 d.w.t.	8.0	4.7
70,000 d.w.t.	7.2	4.2
50,000 d.w.t.	7.0	4.1
35,000 d.w.t.	6.8	4.0
18,000 d.w.t.	6.0	3.6

LOADING: The Mooring Master will inspect the vessel's cargo tanks and will sign the dry certificate prior to the commencement of loading.

Hose connection and disconnection must be carried out by the ship's crew under the supervision of a suitable qualified Officer acting on the advice of the Mooring Master.

Ship's loading manifolds should be prepared for two 12 inch hose connections prior to arrival at the Que Iboe Terminal. Sundry equipment should include tools to connect the hoses, nuts, bolts, gaskets and rope strops as none of these items are supplied by the Terminal. All 12 inch hoses have ASA flanges.

The Notice of Readiness will be signed by the Mooring Master on behalf of the Company. The time for giving the Notice of Readiness is the time of the vessel's arrival at the usual anchorage, or the time of boarding of the Mooring Master, whichever is the earlier, Notice of Readiness will not be accepted unless the vessel is ready to load.

Loading rates will vary according to conditions but can be expected to be up to 30,000 bbls per hour at the Spread Mooring and up to 65,000 bbls. per hour at the SPM.

Information as to the anticipated loading rate should be obtained from the Mooring Master who will also advise the expected specific gravity and loading temperature.

The maximum possible notice in regard to slowing the loading rate for "topping off", etc. should be given to the Mooring Master.

Pressure Surges: Because of the long lengths and large diameters of the pipe-lines, ships' loading valves must not be closed against the flow of oil. Vessels provided with mechanically or hydraulically operated valves whose closing time is less than thirty seconds must advise the Mooring Master accordingly. In such circumstances the loading rate may have to be reduced.

BALLAST: There are no facilities for the shore reception of ship's ballast. Vessels are accepted for loading on the express understanding that only clean ballast will be discharged into the sea.

Masters are required to sign oil pollution advice form letters on arrival. If a vessel is observed to be discharging dirty ballast, then it may be liable to prosecution or penalty and all further discharge will cease. The discharge of oil from bilges or other spaces is similarly strictly prohibited.

A vessel must have sufficient ballast for safe manoeuvring into the berth.

FRESH WATER: Not available.

FUEL: Not available.

STORES: Not available.

MEDICAL: Only emergency medical facilities.

TIME: Nigerian local time is GMT plus 1 hour throughout the year.

CUSTOMS ALLOWANCES: 200 cigarettes per man. Beer, no limit. 1 bottle of spirits, officers only.

REPATRIATION: Crew changes not possible.

GENERAL: *Agency:* The Company will handle documentation requirements for vessels loading at the Terminal. It does not carry out general vessel agency functions.

Early Departure Procedure: The Early Departure Procedure will be used at the Que Iboe Terminal.

Courtesy Ensign: All vessels must exhibit the Nigerian National Ensign from the foremast or as appropriate while in the vicinity of the moorings.

"B" Flag: During loading, the International Code Flag "B" must be displayed from a topmast signal halyard during daylight hours. During hours of darkness a red all around light must be displayed where it can best be seen.

Communications at the Berth: The primary system of communication with the Terminal while in berth shall be through the Mooring Master by means of portable VHF units provided by the Company.

Safety Precautions:

(a) The ship's engines must remain ready with full power for immediate use. No repairs of any sort will be permitted in the moorings.

(b) Fire Fighting equipment shall be in instant readiness throughout the vessel and additional extinguishers available at the loading manifold. Fire hoses must be connected at all fire stations and ready for immediate use.

(c) Not less than one deck officer and three seamen shall be available on deck at all times while vessel is in moorings.

(d) Power must be available at all times on all deck winches and on anchor windlass while vessel is in moorings. Vessels moored to SPM will be required to go astern when using turning gear.

(e) All deck scuppers must be plugged tight before connecting the submarine and deck hoses, and remain plugged until all hoses are disconnected.

(f) Adequate deck lighting must be available for night mooring and loadings. A good floodlight will be required to illuminate the area around the submarine and cargo hose connections during cargo loading operatings. During the discharge of ballast and loading of cargo at night, the sea area around the vessel must be adequately lighted.

(g) No transistor radio sets or other electrical appliances may be used on deck unless certified for use in hazardous petroleum areas.

(h) Smoking will not be permitted on deck whilst in the moorings and will only be permitted in places approved by the Mooring Master. All alleyway doors to passageways, leading to deck areas are to be kept closed during cargo transfer operations.

(i) The I. O. T. T. S. G. Check List will be used jointly by vessel's staff and Mooring Master in order to arrive at a mutually agreed safety standard.

AUTHORITY: Mobil Producing Nigeria, Lagos.

SAPELE (incl. Koko): 05.55 N. 05.42 E.

DOCUMENTS:

Crew List.
Port of Call List.
Passenger List.
List of Arms and Ammunition.

These documents required by Following Government Departments: Collector of Customs, Customs Preventive Service, Ports Health Authority, Police Authority/Immigration, Nigerian Produce Marketing Co., Nigerian Ports Authority NPA also require Inward and Outward Masters' Declarations and all other documents such as Manifests and Bill of Lading, etc.

PILOTAGE: Not compulsory, but local river guides available at Escravos on request.

ANCHORAGES: No laid-down areas.

RESTRICTIONS: None under normal conditions.

MAX. SIZE: Average length 400/450 ft., draft 16.5 ft. plus tide for the day, minus Master's underkeel clearance.

HEALTH: Normal International Regulations, but between ports in Nigeria nothing required.

RADIO: ETA and ETD best passed via Lagos Radio to Lagos Agents, who in turn advise local Agents. Port Authority operate VHF Channels 16, 14, 13, 12, 11 and 9.

TUGS: None available.

BERTHING: Berthing/unberthing normally done in daylight hours.

Sapele:

Berths	*Type*	*Berth length*	*Depth*
1	Anchorage and stern to buoy	No limit	21 ft.
2	Buoys fore and aft	550 ft.	22 ft.
3	Buoys fore and aft	800 ft.	21 ft.
4	Buoys fore and aft	675 ft.	20 ft.

1 Personnel Effects.
2 Manifests.

PILOTAGE: Usual entrances to port at Korsfjord and Fedje.

Provisions for Advance Reports in connection with the ordering of Pilots. Issued by the Director of Pilotage.

1. Vessels approaching from the sea and desiring a Pilot should order the Pilot at 24 hours notice insofar as possible and confirm arrival at pilot station at 2 hours notice.

The advance order can be sent in the following manner:

a. From ships at sea over radio direct to the sea pilot watch (calling frequency 2182 kc/s from 2 minutes past until 10 minutes past each full hour, or over VHF-radio-telephone, calling frequency 156.80 mc/s, Channel 16).

b. From ships at sea over coastal radiostation to pilot station or pilot office.

c. From broker or shipowner over telephone to sea pilot station or to any pilot office which will immediately convey the report to the sea pilot station.

2. Vessels lying in port and desiring Pilot will order the Pilot from the nearest pilot office during its office hours and if possible at 4 hours notice.

3. Vessels approaching from the sea as well as vessels lying in port shall, when making an advance order state the name and destination of the vessel and whether 1 or 2 Pilots are desired.

4. The Pilots will on the whole be despatched to the ships in accordance with the advance orders, and vessels are therefore requested to comply with the foregoing rules as far as possible in order to avoid having to wait for Pilot.

5. The international provisions for summoning Pilots by signal flags or blue lights, etc., are still in force, but should in future be used as a supplement to the radio communications or as the sole communication in emergencies.

ANCHORAGE: About 1,600 ft. North of CCB quay, depths from 29 to 74 m.

MAX. SIZE: Water depths up to 60 ft. at quayside.

HEALTH: No Certificates required. In event of any desease or fever, contact Agents.

RADIO: All messages to Agents via Bergen or Rogaland Radio.

VHF: Bergen Radio on Channel 16.

TUGS: Available upon request. Vessel's lines usually used. No extra charge for tug's line.

BERTHING:
West side, quay of 100 m. long. Depth of water 60 ft.
East side, quay of 105 m. long, Depth of 14 m.
North West side, quay of 120 m. long. Depth of 7.2 m.

CRANES: 1 Mobile crane 280 tons lifting capacity. 1 Mobile crane 40 tons lifting capacity. 2 Mobile cranes 25 tons lifting capacity. Also 45 tons floating crane available upon request.

BULK CARGO FACILITIES: For drilling mud and cement only.

SPECIALISED CARGO HANDLING FACILITIES: Loading/unloading carried out by Mobile cranes and trucks.

BRIDGES: Bridge between Knarrevik and Drotningsvik. Height at mean level 50 m.

STEVEDORES: Provided by Coast Centre Base.

MEDICAL: 4 hospitals available (Bergen).

DENSITY: About 1024.

FRESH WATER: Can be supplied alongside the quay.

FUEL: Gasoil No. 0401 can be supplied alongside the quay.

CONSULS: (in Bergen). Belgian, Brazilian, British, Danish, Finish, French, Greek, Islandic, Dutch, Panama, Peruvian, Portuguese, Spanish, Swiss, Swedish, Turkish, German, Uruguay, Austrian.

REPAIRS: All repairs possible.

DRY DOCKS: Available in Bergen. 3 Dry docks 365 ft. long with 12.5 – 21 ft. depth on blocks.

1 floating dock for vessels up to 10,000 g.r.t. and 2 smaller floating docks. Largest vessel 51,839 g.r.t.

Draft 34 ft. 4 in. Drafts up to 35 ft. can be accommodated.

SURVEYORS: Lloyds, A.B.S. and Norske Veritas.

GANGWAY/DECK WATCHMAN: Not necessary.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCE: 0.75 litres of spirit and 200 cigarettes for each member of the crew.

REPATRIATION: All facilities available for crew changes.

AIRPORT: 35 km. from Bergen Airport served by regular airlines.

TIME: GMT plus 1 hour.

HOLIDAYS: New Years Day (January 1st); Maundy Thursday; Good Friday; Easter Monday; May 1st; May 17th; Ascension Day; Whit Monday.

POLICE/AMBULANCE/FIRE: Bergen 002; Bergen 003; Bergen 001 respectively.

TELEPHONES: No arrangements for connection on board ships. Telephone box on quayside.

SERVICES: Compass adjuster, Radio/Radar service. Also calibration of the Direction Finder, Ships laundries.

SHORE LEAVE: After clearing inwards, crew members are allowed to go ashore without special permission.

AGENTS: A.S. Coast Center Base Ltd. & Co. 5363 Agotnes. Tel: (05) 21 66 80. Telex: 42 835 ccb n. Cable: Ceeceebee.

ALESUND: 62.27 N. 06.09 E. (See Plan)

DOCUMENTS:
1 Crew List.
1 Passenger List.
1 Customs Documents.
1 Health Documents.
3 Manifests.
3 Bills of Lading.
1 Ship's Papers.
1 Stores Lists (provisions).

PILOTAGE: From open sea, Pilot is taken on board at Rundo pilot station. Watch 24 hours a day. To be called 3-4 hours before ETA by VHF 16, or radio.

ANCHORAGE: On the North side of the town in Valderhaugfjorden in depths of 20 m. to 60 m.; bottom, sand and mud.

On the South side of the town in Aspovagen in depths of 20 m, to 40 m., bottom mud.

RADIO: Alesund Radio 2182. VHF 16. Harbour Office is manned 24 hours. Tel.21425.

TUGS: Meet vessel normally before entering the harbour, or by order.

BERTHING: At the Southern Harbour there are the following commercial quays:

Storneskaia: East side, length 85 m., depth 13 m. to 7 m. On this side Ro/Ro berth available. South side, length 150 m., depth 13 m, Warehouse cap. 1,600 sq. m.

Prestekaia: South side, length 220 m., depth 13 m. West side, length 43 m., depth 5 m. min. Warehouse cap. 4,100 sq. m.

Skutevika: Sp. quay for fishing vessel, length 300 m., depth 6 m. Only mooring on N.E. side. Quay, length 40 m., depth 7 m.

Sjogata: Mooring quay, length 200 m., depth 9 m. At Northern Harbour there is one commercial quay.

Skansekaia: North side, length 190 m., depth 13 m. South side, length 150 m., depth 5 m. This quay forms protection for a small inner harbour with several smaller quays.

STEVEDORES: Obtained by Agent who requires ETA 12 hours before ships arrival.

CRANES: Mobile crane to lift 18 tons available. Floating to lift max. 100 tons available.

CONTAINERS: Depot for *C.T.I.* containers.

FRESH WATER: Available.

FUEL: Bunkering facilities from all major oil companies. Loading by barge or pipeline at berth.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: This work is normally carried out by crew.

CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes. Wine/Spirit: 1 bottle of spirits.

IDENTIFICATION CARDS: Not required.

REPAIRS: Available. Floating dock 380 ft. by 50 ft. to lift 3,000 tons. Three patent slips for vessels up to 700 tons.

AIRPORT: Alesund airport, Vigra. Passenger flights (three times a day) to and from Oslo. Trondheim, Bergen.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st May; 17th May.

POLICE/AMBULANCE/FIRE: Police 21321; Ambulance 23348; Fire 014.

TELEPHONES: No arrangements for placing telephones on board.

AUTHORITY: Alesund Havnevesen.

ALVIK: 60.26 N. 06.24 E.

Alvik located in inner part of Hardangerfiord. Ferrosilisium works. Vessels from abroad may call Haugesund for inward Customs' clearance.

DOCUMENTS: See "Bergen".

PILOTAGE: Compulsory. Belonging to Bergen Customs' district.

LENGTH OF QUAY: 80 m. 2 cranes, each 7.5 tons.

AUTHORITY: See "Bergen".

AGENTS: Joachim Grieg & Co., Bergen.

ARDALSTANGEN: 61.14 N. 07.42 E.

Ardalstangen: Aluminium works. Located in innermost part of Sognefiord. 61° 14′ 03″ N. 7° 42′ 28″ E.

DOCUMENTS: See "Bergen".

PILOTAGE: Compulsory. Belonging to Bergen Customs' district and unless otherwise arranged beforehand vessels from abroad must call at Bergen for inward clearance.

BERTHING: 1 quay 600 ft., 29 ft. depth alongside; 1 quay 210 ft., 18 ft. depth alongside.

Cranes up to 50 tons capacity. Ice free.

TRAFFIC: about 500 ships loading and discharging.

AUTHORITY: See "Bergen".

AGENT: Joachim Grieg & Co., Bergen. (See "Bergen").

ARENDAL: 58.28 N. 08.46 E. (See Plan)

DOCUMENTS: See "Bergen".

PILOTAGE: The Pilot boat *Merdoy* is stationed at Arendal. Contact may be made on VHF/RT or telephone 21347–23668 or out of office hours via Kristiandsand or Tjome Radio.

ANCHORAGE: Safe anchorage ground is readily available and there are numerous mooring places for vessels not docking alongside the quays.

MAX. SIZE:

	Depth Feet	*Length Metres*
Nye Tollbodkaien	33	230
Batterrikaien	33	110
Hotellbryggen	30	77
Malmkaien	28	30

Gamle Tollbodkaien	20	45
Kallevigs Brygge	20	43
Langbryggen	15	120
Ferjekaien	26	30

No tide even in exceptional weather conditions, increase in water level never exceeds 3 ft.
TUGS: Two small tugs.
RADAR/VHF: Radar at Pilot station. VHF see "Pilotage".
CRANES: 2×3 ton electric cranes on rails at Nye Tollbodkaien.
MEDICAL: Advance notice required for medical attention.
FRESH WATER: Available all quays.
FUEL: Advance notice required.
GANGWAY/DECK WATCHMEN: Necessary and recommended.
OPENING/CLOSING HATCHES: Crew or stevedores.
CERTIFICATES: Normal International Certificates required.
CUSTOMS ALLOWANCE: 200 cigarettes, 1 bottle spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: Sweden, Denmark, Finland.
REPAIRS: Port has well-equipped workshop to carry out engine repairs as well as hull work above water line.
AIRPORT: Kjevik 60 km.
TIME: GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Police 22030; Fire Station 22255.
TELEPHONES: Can be placed aboard.
AUTHORITY: Harbour Master.

BERGEN: 60.24 N. 05.19 E. (See Plan)

DOCUMENTS:
1 Provision List.
1 List of Bonded Stores.
1 Health Declaration.
2 Manifests.
2 Crew Lists.
2 Passenger Lists.
Certificate of Tonnage.
Dangerous Cargo List.

PILOTAGE: Compulsory. Main entrance to port at Marsteinen Lighthouse (pilot station) 60° 24′ N. 5° 18′ 50″ E. 24 nautical miles from town, but vessels from South may enter at Skudesnes (88 nautical miles) and from North at Fedje pilot station (32 nautical miles). VHF Channel 16. Practically no tide. Port free of ice throughout whole Winter and well sheltered from all winds. Sound signals for Pilot, 3 long and 1 short. Harbour pilotage not compulsory but advisable.
ANCHORAGE: Puddefiord. Good holding grounds. Depth 10 to 50 fathoms of water.
RESTRICTIONS: Vessels can enter day and night.
MAX. SIZE: Max. draft 35 ft. Vessels up to 50,000 tons have been berthed at Dokkeskyaersquay. Oil installation up to 30,000 d.w.t.
HEALTH: See "Documents". If vessel carries quarantine flag on contagious diseases, radio communication should be sent to Agents for instructions, otherwise no special regulation.
RADIO: Communication to Agent should be sent through Rogaland Radio or Bergen Radio.
TUGS: 2 tugs, each 1,000 h.p. available. Ship's lines to be used, contractors Bergen Steamship Co. Tugs normally join vessel at Puddefiord or subject to requirements.
BERTHING: Berthing instructions from Harbour authorities through Agent's office.
CONTAINER FACILITIES: Container terminal at Dokkeskjaerskai area. The quay is 90 m. long with a depth of 9 m. at MW. It is intended for bow/stern loaders and is equipped with a ro/ro bridge with an axle load of 60 tons and 13,000 sq.m. area for storage and container handling.
BRIDGES: A bridge between Knarrevik and Drotningvik is completed. Height of bridge from the water will be 50 m. at mean water level. Bridge position will be 5 miles from harbour in the entrance to port from South.
STEVEDORES: Stevedoring arranged by Agents subject to requirements. 24 hours notice, important obtain in good time accurate ETA. Ordinary working hours at port 0730-1600 hrs. Saturdays until 1300 hrs.
MEDICAL: Masters to advise by radio prior arrival if medical attendance required on board. Hospital facilities available.
TANKERS: Discharge lines usually 6 and 8 in. No slop (residues) discharge facilities. Number of tanker berths 5: Shell, Esso, Fina, Mobil Oil, and BP. Max. drafts 30 ft.
DENSITY: Salt water.
FRESH WATER: From all quays and wharves with exception of some oil berths where water barge necessary.
FUEL: All grades of diesel, fuel and gas oil including lubricating oil available at all wharves in main entrance. Supplies also from barge subject reasonable notice.
FIRE PRECAUTIONS: No special precautions. Special harbour fire-fighting boat. As usual no smoking permitted during discharge operation.
GANGWAY/DECK WATCHMEN: Obtainable subject inquiry for 12 hours watch from 1900 to 0700 hrs.
OPENING/CLOSING HATCHES: Crew allowed to open and close hatches.
SHIP'S CERTIFICATES: All certificates to be on board. Ship's tonnage certificate to be produced to Custom authorities upon arrival.
CUSTOMS ALLOWANCE: Tobacco, 20 cigarettes per day or 20 gramme tobacco per crew member. Wine and/or Spirit, 1 bottle spirit or wine for consumption on board allowed per crew member.
IDENTIFICATION CARDS: Not required.

BREVIK: 59.03 N. 09.43 E. (See Plan)

PORT LIMITS: Port limits begin in Langesundfjorden, 2 nautical miles S.E. of Brevik.
DOCUMENTS:
- Crew List.
- Tobacco and Spirit List.
- Cargo and Stores List.
- 3 copies of Manifest.
- Declaration of Health List.

PILOTAGE: Langesund Pilot Station – call sign LHXP. 24 hours prior notice and 2 hours before arrival. VHF Channel 16 – radio telephone 2182. Pilot boat located 1 mile S.E. of Langoytangen Lighthouse (pos. 58° 59′ 30″ N., 9° 45′ 30″ E.).
ANCHORAGE: At Helgerofjorden, 2 miles East of Langoytangen Lighthouse. Depths 15–25 fathoms.
RESTRICTIONS: No entry restrictions, except in bad visibility.
MAX. SIZE: Tankers draft 31 ft. 6 in., length 600 ft.; others draft 32 ft. 6in., length 550 ft.; recommended by Pilots.
HEALTH: Pratique obtained when alongside wharf; arranged by customs.
RADIO: Rogaland Radio, call sign LGQ.
TUGS: Tugs not normally used in Brevik. 1 tug, 1200 h.p. used for tankers.
STEVEDORES: 24 hours prior notice required for ordering gangs.
BULK HANDLING: 1 berth handling bulk cargo, situated at Norcem, half a mile North of Brevik. Cargo: Cement and cement-clinker. Length of berth: 200 m. Depth alongside 36 ft.
No other berths handling bulk cargoes.
MEDICAL: No advance notice required for medical attention.
TANKERS: Discharging hoses 8 in. diameter, No slop discharge facilities. 2 tanker berths draft 31 ft. 6 in.
DENSITY: Brackish water, density from 1012 to 1023.
FRESH WATER: Hoses from shore, capacity 10 t.p.h.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Watchmen available but not compulsory.
OPENING/CLOSING HATCHES: Normally carried out by crew members.
CERTIFICATES: Ship's Register, and Derat. Certificate required.
CUSTOMS ALLOWANCES: 200 cigarettes per man. 1 bottle of spirit per man.
IDENTIFICATION CARDS: Not needed.
REPAIRS: All types of repairs possible (deck and engine).
REPATRIATION: Can be arranged.
AIRPORT: Fornebu – Oslo airport – 100 miles, served by regular airlines.
TIME: GMT plus 1 hour. No alterations during the year.
HOLIDAYS: New Year's Day; Day before Good Friday; Good Friday; Easter Monday; May 1st; Ascension Day; May 17th; 25th and 26th December. No work done on these days.
POLICE/AMBULANCE/FIRE: Police 51040; Ambulance 70111; Fire 71171.
TELEPHONES: Can be placed on board at no extra cost.
SHORE LEAVE: Crew members allowed ashore.

AGENT: S. Stiansen, Shipping Agents, Brevik, Norway. Tel. 70040; private 11220. Telex 16388. Telegrams "Stiansen".

BRONNOYSUND: 65.30 N. 12.13 E.

DOCUMENTS: See "Bergen".
PILOTAGE: Pilot ordered through Harbour Office tel. 78. Cable address "Losforman".
ANCHORAGE: Prestoytaren. 65° 29.0′ N. 12° 11.5′ E. Depth 28 ft. to 180 ft.
MAX. SIZE: Largest ship approximately 5,000 g.r.t. Depth at Port Authorities quay 18 ft. to 24 ft. LWOST.
At tanker installations:

A/S Norwegian Esso	16 ft. LWOST
A/S Norske Shell Central fishing port	15 ft. LWOST
A/S Braendselolje, Salhus	16 ft. LWOST

‡Special arrangements for ramps (small ships)

Container and Ro-Ro Facilities: Three and Ro-Ro quays for containers, vehicles and trailers.
Fruit Storage 21,600 sq. ft. Airconditioned fruit-storage.
Also see "Tankers".
STEVEDORES: Labour must be ordered latest 1530 hours day before arrival. Saturdays before 1230 hrs. Working hours: Monday to Friday from 0700 to 1600 hrs. with breaks from 0900 to 0930 hrs. and 1300 to 1330 hrs.
Saturday from 0700 to 1300 hrs. with break from 0900 to 0930 hrs.
Overtime can be arranged through Agent.
MEDICAL: In case of emergency, notice regarding required medical treatment must be given as soon as possible. First class hospital facilities available. No special inoculation or fever

certificates necessary, except those according to international health regulations.

TANKERS:

Tronstad Berth

Wooden quay 92 m. long, max. draft 32.81 ft. (10 m.). Fresh water available.

Pipeline connections: Gas oil 8 in.; light fuel oils 9 in.; asphalt 8 in.

Holmen South Berth

Concrete quay, max. draft 29.53 ft. (9 m.). Fresh water available.

Pipeline connections: Gas oil 8 in.; light fuel oils 8 in.; paraffin 6 in. heavy fuel oil 4 in.

B.P. Berth, Solumstrand

9 m. wide quay at end of pier, max. draft 16.4 ft. (5 m.).,

Pipeline connections: Light gas oil 6 in.; petroleum 4 in.; white spirit 3 in.; propane 2 in.

Bakketomta Berth, Lierstranda

Concrete quay, 23 m. long, max. draft 16 ft. (4.88.m.).

Pipeline connections: Super petroleum 8 in.; petroleum 8 in. light fuel oil 8 in.; gas oil-paraffin 6 in.; white spirit 4 in.

Esso Berth, Solumstrand

Concrete quay, 23 m. long, max. draft 16 ft. (4.88 m.).

Pipeline connections: Light fuel oil 6 in. and 4 in.; gas oil 6 in.; petroleum 6 in. and 4 in.

DEPTHS: Chart depths vary only slightly owing tidal fluctuations. Exceptional conditions, such as snow melting in Spring, heavy rainfall and prevailing strong Southerly or Northerly winds will cause stronger currents and a variation in water levels.

FRESH WATER: Delivery by hose available anywhere at any time.

FUEL: Tronstad berth: gas oil 200 sec. Holmen S.: fuel 2000 sec., marine diesel 200 sec. Bakketomta Lierstrand: Bunkering by tanklorry possible if necessary. Esso Solumstrand: gas oil visc. 1,2 at 20 degrees cel.; diesel visc. 1,7 at 20 degrees cel. Lubricating greases and oils available.

FIRE PRECAUTIONS: International danger signals and precautions practised. Wires for towing must be ready for immediate use. In case of fire on board or in vicinity, vessel must leave quay and harbour as soon as possible.

GANGWAY/DECK WATCHMEN: Watchmen recommended, through Agent.

OPENING/CLOSING HATCHES: If necessary hatches can be opened or closed by stevedores, but usually by crew.

CERTIFICATES: Usual ship's certificates according to international regulations.

CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes/100 grams of tobacco allowed weekly. Wine or Spirits, 1 bottle wine or spirits usual weekly allowance.

CARGO GEAR: International Safety Regulations followed.

CRANES: 12 electric cranes 3-10 tons, 2 mobile cranes 10-50 tons, 2 electric cranes for discharging of coal, capacity 500 t.p.d. each.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium tel. 831485	Germany tel. 819780
Denmark ,, 833650	Sweden ,, 838670
Finland ,, 832985	

All other consulates situated in Oslo.

REPAIRS: Shipyard facilities for all kinds of deck and engine repairs available.

DRY DOCKS: 2 floating docks, 20,000 and 3000 tons cap. Nearest dry docks in Horten and Oslo. Distance by sea respectively 24 miles and 46 miles.

REPATRIATION: All facilities available.

AIRPORT: Nearest airport Oslo Airport, Fornebu, situated 16 miles by road from Drammen. Regular services to all parts of the world.

TIME: GMT plus 1 hour. Permanent.

HOLIDAYS: On Saturdays work stops at 1230 hrs., but if ships can be finished, loading and discharging is continued to 2230 hrs.

All Sundays; 1st January; Maundy Thursday; Good Friday; Easter Monday; 1st May; Ascension Day (17th May); Whit Monday; Christmas Day; 26th December.

On Easter, Whit, Christmas, and New Year's Eve work stops at 1400 hrs.

POLICE/AMBULANCE/FIRE: Fire-alarm accidents 832020; First-aid station 831585; Hospital 834585; Police 838170; Taxi 835060.

TELEPHONES: Telephones can be connected if ordered.

GENERAL: Notice will be given to local Agents regarding changes or new developments which can affect usual procedure in port.

SERVICES: Ice-breaker assistance available during winter months.

SHORE LEAVE: No restrictions on shore leave when all formalities in order.

DELAYS: Delays may occur, when very heavy traffic cause shortage of labour.

AUTHORITY: Drammen Havnevesen.

EGERSUND: 58.27 N. 06.00 E.

DOCUMENTS: Health Certificate (forms obtainable from Customs when entering harbour). Crew List, Dangerous Cargo List, Ship's Register. Vessels bound for Egersund must be provided with document signed by Master, setting out specification of cargo to be discharged Egersund, also quantities all provisions and stores on board. Document must include name, tonnage, port of registration, last port, next port, and number of crew and passengers on board.

PILOTAGE: Pilot – if necessary – to be ordered latest 3 hours prior arrival pilot station. Order to be given to Pilot office – telephone 91.328 or to ship's Agent, giving ETA, name of vessel, gross tons, where Pilot required, draft in feet, and discharging/loading place. Vessels entering Egersund liable to inward and outward pilotage dues, mileage money according distance piloted; and pilot dues, whether services of Pilot used or not. Pilot station lying on Eigeroy – and Pilot available for Southern and Northern entrance, from pilot boat. Southern entrance mostly used, max. draft 31 ft. In case of using Northern entrance, ship has to pass bridge between Eigeroy and the continent. Max. height 23.5 m. Max. draft 16 ft.

ANCHORAGE: Any place in harbour available for anchorage. Especially used is Hovlandsviken – 36 ft. draft.

MAX. SIZE: Largest vessel which has entered Egersund – 25,000 d.w.t. Max. draft 31 ft. In harbour there are 2,000 ft. of quayage with 18–27 ft. alongside.

RADIO: Rogaland Radio and Farsund Radio.

TUGS: Not available in Egersund.

STEVEDORES: Ordered by Agent – no ETA to stevedores necessary. Time for ordering gangs for next morning must be given by 1300 hrs. day before.

FRESH WATER: Can be delivered at most discharging/loading places.

FUEL: Gas oil and Light Marine Diesel oil available.

GANGWAY/DECK WATCHMEN: Available – but not compulsory.

OPENING/CLOSING HATCHES: Crew allowed open and close.

CERTIFICATES: On first call Registered Tonnage Certificate necessary – thereafter not required unless gross/net tonnage changed.

CUSTOMS ALLOWANCE: (Dependent size – destination, etc.) each crew member is allowed 100 cigarettes, 20 cigars or 100 grams tobacco and one bottle spirits.

CARGO GEAR: No additional requirements. One 150-ton crane, one 30 ton crane and some mobile cranes 5-15 tons available.

IDENTIFICATION CARDS: Not required.

CONSULS: Denmark and Sweden.

REPAIRS: All minor repairs possible. Service station for electronic aids.

HOLIDAYS: Work can usually be arranged on all holidays.

POLICE/AMBULANCE/FIRE: Police 91.600; Fire 91.500; Hospital 91.338/91.940; Ambulance 91.325.

AGENTS: Messrs. Per Haland Jr. A/S, PO Box 115, 4371 Egersund, Norway. A.O. Tel. Per Haland Jr. 90.177; Per I. Leidland 92.783; Arne J Stapnes, 92.307. G.Bo 90217. Telex 33090. Telegraph "PER". Tel. 91.700.

FLORO: 61.31 N. 05.02 E.

DOCUMENTS:

2 Manifests.
Crew List.
Provisions List.
Health Document.
Passenger List.

PILOTAGE: Nearest station Fedje (60° 51′ N., 04° 37′ E.). Distance to Floro harbour about 52 nautical miles. Pilot boat a white-painted cruiser-type marked "LOS" on both sides of bow.

Fixed watch on Fedje island covers both Holmengra and Hellesoy. VHF Channels 8, 12 and 16 on M. wave. Listening first 10 minutes of every hour. ETA 24 hours before arrival. Telegram "Feielos". If bad weather, Pilot to be picked up on Eastern side of Fedje Island.

ANCHORAGE: No anchorages close to pilot station. Floro harbour: space of about 1 sq. km., depths from 15 to 30 fathoms.

RESTRICTIONS: Tide difference about 1.5 m. Max. draft *entering* Floro harbour 36 ft.

MAX. SIZE: Entering Floro harbour: No restrictions in main harbour concerning length and breadth. Max. draft *berthing:* "Fugleskjaerkaia" 16 to 18 ft. in a length of 150 m. "Gunhildvagen" (herring factory) 25 ft. in a length of 120 m.

NB. – "Gunhildvagen" lies outside main harbour, and has narrow entrance. Weather permitting, ships of 100 m. length and breadth 20 m. can pass.

BERTHING: *Vestlandske Kjopelag:* A bulk grain/molasses terminal for vessels up to 2,000 d.w.t. Berth length, 100 m. Depth alongside 7.0 m. The terminal is being expanded so as to accommodate vessels up to 5,000–6,000 d.w.t.

STEVEDORES: ETA before 1600 hrs. for gangs required next morning.

MEDICAL: Hospital close to harbour, and available any time.

TANKERS: Harbour is only used by small tankers, about 500 to 1,000 reg. tons.

FRESH WATER: Only available alongside berth. Delivery 6 t.p.h.

FUEL: Ordinary fuel. Diesel and gas oil delivered by truck. Ships up to about 1,000 reg. tons receive oil-bunkers directly by berthing bunker station.

DEVELOPMENTS: In connection with harbour-works "Fugleskjaerkai", to be built deep-sea pier (draft 30 ft.) with roll-on/roll-off facility length of about 200 m. and an area of about 9,000 sq.m. Completion, mid-1977.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Mostly done by crew.

CREW IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: Most repairs possible.

DRY DOCKS: None. There is a new berth at Ankerlokken Shipyard. Length 100 m. Depth alongside 9–10 m.

AIRPORT: Harbour served by regular air transport (seaplanes twice a day).

TIME: GMT plus 1 hour.

HOLIDAYS: Cargo work can be arranged any time, holidays included.
POLICE/AMBULANCE/FIRE: Police 2101; Ambulance 2521; Fire 2600.
TELEPHONES: Can be arranged on board alongside wharf.
SHORE LEAVE: Permitted.
SERVICES: Servicing for all kinds of ships navigation instruments can be arranged, except adjusting radio bearings.
AUTHORITY: Harbour Master. Floro Havnevesen.
AGENT: K. Jansen, Shipping Agent, Stevedore, Shipbroker. Telephones: (057) 42303 A.O (057) 42222–42277. Cable: Shipping. PO Box 15.

FREDRIKSTAD 59.12 N. 10.57 E.

DOCUMENTS:

Bill of Health.
2 Crew Lists.
2 Passenger Lists.
2 Custom List for Crew members and Passengers.
Bill of Lading.
3 Manifests for each port of discharge.

PILOTAGE: Compulsory. Pilot boarding at Faerder Lighthouse, 59.2 N. 10.32 E. Agents report vessel's ETA to pilot station and vessel to give a couple of hours' notice by R/T 2182; kc/s. or VHF Channel 16 to Faerder Pilot. Coast station Tjome Radio LGT or Farsund Radio LGZ can also be used. Harbour Pilot and tugs, when necessary, will be arranged by Agents to meet at Belgen.
ANCHORAGES: Safe anchorage for larger vessels Belgen, East entrance. For smaller vessels anchorage to be pointed out by Pilot or Harbour Master.
RESTRICTIONS: Max. draft, East entrance 36 ft.; West entrance, 17 ft. Otherwise no restrictions.
HEALTH: See "Documents".

If vessel carries Quarantine Flag for contagious diseases, radio communication should be sent to Agent for instructions, otherwise no special regulations.

RADIO: Communication to Agent through Tjome Radio or Rogaland Radio.
TUGS: Three tugs, 750 h.p. and 1,200 h.p. Stronger tugs can be ordered from Oslo if necessary.
BERTHING: As instructed by Harbour Master through Agent, depending on vessel's draft and size.
East River Berths:
Oera Quay:
Southern part, max. draft 36 ft.
Northern part, max. draft 33 ft.
Denofa Lilleborg Quay:
Max. draft 33 ft., 5 m., off the quay.
Additional facilities:
4 warehouses, each at 2,000 sq.m. with cooling 300 sq.m.
4 ordinary cranes up to 10 tons.
1 mobile harbour crane up to 36 tons.
2 ro/ro terminals with an open area of about 40,000 sq.m.

STEVEDORES: To be arranged by Agent subject to requirements. 24 hours notice important to obtain in good time accurate ETA.

Ordinary working hours 0700 to 1530 hrs.; Saturday until 1230 hrs. Bulk cargoes are usually discharged in shifts until Saturday 2200 hrs., in the extent stevedores available.

MEDICAL: Master to advise by radio prior arrival if medical attendance required on board. Hospital facilities available.
TANKERS: Discharge pipe-lines usually 6 and 8 in. No slop (residues) discharge facilities. Tanker berths are at BP and Denofa/Lilleborg.

Sulphuric Acid is loaded at Oera Quay.

DENSITY: Brackish water, 2.7% salt water.
FRESH WATER: From shore or by barge.
FUEL: All grades available. For larger quantities, delivery arranged by barge.
GANGWAY/DECK WATCHMEN: Obtainable.
OPENING/CLOSING HATCHES: Crew members allowed to open and close hatches.
SHIP'S CERTIFICATES: To be produced to Customs Authorities on arrival.
CUSTOMS ALLOWANCES: *Tobacco:* 20 cigarettes or 20 grs. tobacco per man, per day. *Wines/Spirits:* 1 bottle of spirits or wine for consumption on board per crew member.
IDENTIFICATION CARDS: Not required, except at the quay of Defona/Lilleborg, when Master, upon arrival, will receive a sufficient number of cards for filling-in for each crew member, to be shown when passing the gate.
CONSULS: Danish, French, Finnish, Dutch, Swedish.
REPAIRS: All repairs possible.
DRY/FLOATING DOCKS:

A/s Fredrikstad mek Verksted: Dry dock 945 ft. length, 126 ft. breadth, 25 ft. draft when docking. Floating dock, 900 tons, 181.6 ft. length, 52.6 ft. breadth, 14 ft. draft when docking.

Sarpsborg mek Verksted: Floating dock, 3,000 tons, 380 ft. length, 55 ft. breadth, 18 ft. draft when docking.

REPATRIATION: All facilities available.
AIRPORT: Fornebo, Oslo, 110 km. From Fredrikstad. Frequent connection by train.
TIME: GMT plus one hour.

GLOMFJORD: 66.50 N. 13.57 E.

DOCUMENTS:

3 Crew Lists.
Customs List.
Shipping Manifest.
Health Statement.
Bill of Lading.
Ship's Certificate of tonnage.

PILOTAGE: Pilot station, approach from South, is Aasvaer, Lat. 66° 17′ N. Long. 12° 18′ E., VHF/radio telephone, frequency 2182.

Pilot station, approach from North, is Fleinvaer, Lat. 67° 13′ N., Long. 13° 42′ E. Order Pilot over Bodo Radio, tel. Bodo 22115.

ANCHORAGE: No berth for anchoring in Glomfjord but possible anchor at Sandaabukten close to Glomfjord.
MAX. SIZE: Quay length 317 m. and depth 8 m.
HEALTH: Health certificate – only for first port in Norway.
RADIO: Sandnessjoen or Bodo Radio station.
VHF: On quay. Call: Hydro Glomfjord Port station on Channel 16.
TUGS: None.
BERTHING: No specific requirements relating to berthing.
STEVEDORES: In accordance with Charter Party.
MEDICAL: Medical aid in Glomfjord, and hospital in Bodo.
TIDE: Difference between high and low water about 3m.
FRESH WATER: Alongside quay.
FUEL: None.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES: Usual certificates.
CUSTOMS ALLOWANCES: 200 gr. tobacco or 200 cigarettes per man. 0.75 litre spirits or 0.75 litre wine per man.
CARGO GEAR: Discharging by cranes on quay. Loading by conveyor.
IDENTIFICATION CARDS: Usual passport necessary.
CONSULS/REPAIRS/REPATRIATION: None.
AIRPORT: Airport in Bodo.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: See "Drammen".
POLICE/AMBULANCE/FIRE: Police station 52147 Glomfjord.
TELEPHONES: Arrangements for placing on board.
REGULATIONS: No particular or unusual regulations. Control by passing gate between dock area and surrounding field.
SHIPMASTER'S REPORT: *May 1976*

Anchorage: The nearest anchorage to the berth, which is part of Norsk Hydro's chemical plant is Sandabukta, about 6 miles away. It is safe and sheltered and the Agent will board there. Communication with Glomfjord is by VHF Channel 16 or via the local boatman with whom private arrangements for shore leave are possible.

Clearance: Ship is boarded on arrival at the anchorage by the Glomfjord Customs officer who also acts as Immigration and Port Health.

Weather: This vessel called at Glomfjord in April but weather conditions were not attractive. Frequent snow squalls reduced visibility to zero but were usually short-lived.

Pilotage: There are no harbour Pilots at Glomfjord. If proceeding direct to berth, sea Pilot will put ship alongside. If awaiting berth at Sandabukta anchorage, Pilot leaves there and it is normal for ships to complete the passage unaided. A Pilot can be obtained from Bodo but is not always available. If another ship is arriving at the anchorage, Pilot will transfer.

AUTHORITY: Norsk Hydro a.s. Glomfjord Fabrikker.

HALDEN: 59.08 N. 11.25 E.

DOCUMENTS: See "Bergen".
PILOTAGE: Pilot boat at Faerder light station. Pilot boat at Herfol Losstation -Hvaler. Ordering usually over Radio Land Station. Tjome Radio = LGT (also VHF). Signals according to ordinary international requirements. Exact area for Pilot boat: Faerder light station (Store Faerder); Herfol pilot station; Hvasser pilot station.
ANCHORAGE: At Faerder light station in Oslofiord -Singlefiorden West side.
RESTRICTIONS: No special restrictions but larger vessels have to take necessary care with passing Svinesund. The tide current altering according to high and low water time.
MAX. SIZE: For the harbour inside Svinesund (Main Harbour) length 560 ft., beam 70 ft., draft. 25 ft.
HEALTH: Pratique, ordinary.
TUGS: If wanted; outside Sponviksskansen light with the entrance to Svinesund. Usual, ship's lines.
RADIO: All radio services over Tjome Radio -Land Station (use the ordinary international frequency — (600-705-800 m.).

TANKERS: Max. 20,000 d.w.t. are received.
FRESH WATER: Available; good quality.
FUEL: Available.
FIRE PRECAUTIONS: According to Harbour regulations.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Carried out by crew.
IDENTIFICATION CARDS: Required.
REPAIRS: Only small repairs carried out.
DRY DOCKS: None.
REPATRIATION: No facilities.
AIRPORT: Nearest Tombo (Islo).
TIME: 1 hour behind GMT.
POLICE/AMBULANCE/FIRE: Fire 81212; Police 82250.
TELEPHONES: None available for shipboard use.
SHORE LEAVE: Allowed.

HAMMERFEST: 70.40 N. 23.40 E.

DOCUMENTS: See "Bergen".
PILOTAGE: Entering from sea, a state Pilot is compulsory as one has to pass through prohibited sea area. Pilot should be ordered 4 hours in advance, and boards ship at Tarhalsen (situated at Eastern-most tip of Soroy island). Harbour Pilot boards outside harbour breakwaters.
ANCHORAGE: Anchoring in harbour or as appointed by the state Pilot or harbour Pilot.
MAX. SIZE: Alongside quay ships up to 30,000 g.r.t., with draft max. 30 ft. For anchorage no limitation.
RADIO: Hammerfest Radio, equipped with VHF.
TUGS: None.
STEVEDORES: Normal working hours: Monday–Friday 0700–1630 hrs.
MEDICAL: Hospital facilities available at Hammerfest.
TANKERS: Discharge line 8 in.
DENSITY: Salt water.
FRESH WATER: Capacity 300 t.p.h. at Harbour Board quay, no water barge.
FUEL: All grades, except heavy fuel oil, available.
CUSTOMS ALLOWANCES: See "Stavanger".
IDENTIFICATION CARDS: Not needed.
CONSULS: French, Danish, Finnish, Icelandic, Netherlands and Swedish Vice-Consuls.
REPAIRS: Slipway for smaller ships, up to 200 ft. Only minor repairs and radar repairs available.
DRY DOCKS: None.
REPATRIATION: Daily connection by ship and air.
AIRPORT: Hammerfest Airport. Regular service several times a day.
AUTHORITY: Hammerfest Havnevesen.

HARSTAD: 68.48 N. 16.39 E.

PORT LIMITS: Inside a straight line from Trondenes Church to Stangnes Light.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Derat Certificate.
PILOTAGE: If entering via Andenes, 12 hours advance notice of ETA in order to arrange Pilot. If entering via Lodingen, 2 hours notice. VHF Channel 16 both at Lodingen and on pilot-cutter at Andenes.
ANCHORAGE: Inside harbour limits, fairly good anchorages available, Pilot will assist.
RESTRICTIONS: No restrictions, only all foreign ships must have a Coast Pilot on board in inland waters.
MAX. SIZE: Any sizes can anchor in harbour.
HEALTH: In case of suspected disease doctor has to be called by radio before entering. After calling at another Norwegian port and no disease, pratique is not necessary.
RADIO: Routing of ETA cables to Agents at Harstad is best over Harstad Radio. VHF installed at Harbour Office.
TUGS: Two small tugs available.
MEDICAL: No advance notice required. Hospital facilities available. No medical information required if no suspected disease on board.
SPECIALISED CARGO-HANDLING FACILITIES: Two coal bunkering stations; draft about 24 ft.; equipped with cranes running on rails. No other specialised docks.
TANKERS: Two berths. Esso 33 ft. Norol 36 ft.
TIDE: Rise in tide about 6 ft.
FRESH WATER: Available at most quays.
FUEL: All grades available. In the Winter 3–4 hours notice required.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: Usual International certificates.
CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes or equal amount of tobacco. Wine and/or Spirits: Spirit half a bottle per person.
IDENTIFICATION CARDS: Not needed.
CONSULS: Per Kind & Son – Iceland. O. Galschiodt – Finland. Kr. Holst – Denmark.
REPAIRS: All types of repairs possible.
DRY DOCKS: 1 dry dock 110 m. long, 17 m. wide.

3 Ship's Manifest.
3 Bills of Lading.
Custom Off. will accept tobacco & curio lists, also provision lists filled in on foreign forms, if all goods correctly stated.

PILOTAGE:

1. Vessels approaching from the sea and desiring a Pilot shall order the Pilot at 24 hours notice insofar as possible and confirm arrival at pilot station at 2 hours notice:
   (a) by telephone or telegram from ship to the pilot office concerned or sea pilot station over an official coastal radio station.
   (b) by telephone or telegram from broker/shipowner to the pilot office concerned or sea pilot station.
2. For direct connection between ships desiring Pilot and the pilot service, VHF-radio telephone Channel 16 (156.8 mHz) shall be used for calling and reply, and a VHF-radio telephone ship-to-ship Channel or harbour Channel shall be used for conversations.
   Ships not equipped with VHF-radio telephone may use the distress and calling frequency 2182 kHz for calling pilot vessel, but both the ship desiring Pilot and the pilot vessel shall in such cases immediately turn to ship-to-ship frequency. At such connections minimum transmission effect shall be used.
3. Vessels lying in port and desiring Pilot will order the Pilot from the nearest pilot office during its office hours and if possible at 4 hours notice.
4. Vessels approaching from the sea as well as vessels lying in port shall, when making an advance order, state the name and destination of the vessel and whether one or two Pilots are desired.
5. The Pilots will on the whole be despatched to the ships in accordance with the advance orders, and vessels are therefore requested to comply with the foregoing rules as far as possible in order to avoid having to wait for Pilot.
6. The international provisions for summoning Pilots by signal flags or blue lights, etc., are still in force but should in future be used as a supplement to the radio communications or as the sole communication in emergencies.
7. These provisions came into force on the 1st January 1971.

Description of pilot boat: white painted, teak wheelhouse,, 2 masts, "Los" on both sides of bow. Light and sound signals: international signal "G" with flag, sound or light. Exact area where pilot vessel situated when on station: "Rakke" sound and light buoy, 5 cables off. In poor weather Pilot will board vessels off "Ramsholmflu" light and bell buoy. If Pilots not available, pilot vessel will conduct vessels to safe anchorage.

Please note: The following temporary changes regarding the pilot service. From October 1st 1976 and until further notice the pilot station is keeping radio watch all days between hours 0900 to 2000 hrs. only. All vessels requiring Pilot to enter the Port of Larvik should advise their requirements and give their ETA's during said hours.

ANCHORAGE: Safe anchorages at end of fjord, West side. Masters should consult Pilots and/or charts before anchoring. Ample water and good holding ground for all sizes of vessels.

MAX. SIZE: Largest vessel berthed at Larvik Canal Quay, LOA 644 ft. 8 in., breadth 83 ft. 3 in., max. draft 32 ft. 6 in.

HEALTH: Advise Agents of any suspected disease or fever on board by radio or telephone before entering. Vessel will then anchor in anchorage and be boarded by state doctor. When vessel is healthy, Custom Officer will grant pratique.

RADIO: Tjome Radio LGT, Rogaland Radio LGQ.

TUGS: No tugs at Larvik. Tugs to be ordered via ship's Agents from Fredrikstad or Porsgrunn. If tugs required Agents should be given 12 to 24 hours notice. Tugs join vessel in fjord off harbour breakwater. Extra charges for use of tug's lines.

BERTHING:

Revquay West (Vester Revkai): Length 118 m. Depth alongside 9 m. Newest quay for general and miscellaneous cargo. New warehouse, measuring 1600 sq. m. Asphalted area outside measuring 10,000 sq. m. Railway track.

Adjacent to this quay is the roll-on/roll-off berth. Max. length vessels 140 m. Depth alongside 7 m.

Kanalquay (Kanalkaia): Kanalquay North – length 335 m. Depth. 10 m. Kanalquay West – length 120 m. Depth 6 m. Kanalquay South — length 90 m. Depth 5 m.

Facilities available at Kanalquay and Revquay West: Railway tracks, 3 portable electric cranes, capacity 6-15 tons, 3 mobile cranes, capacity 14-30 tons. Portable pneumatic grain discharging plant, capacity 85,000 tons. Warehouses measuring 4,000 sq. m.

Outdoor storage area: 20,000 sq. m.

East Pier (Ostre Brygge): Length 130 m. Depth 8 m. New Ferry quay with roll-on/roll-off facilities. Car park for 560 cars or 52 lorries/trailers 18 m.

West Pier (Vestre Brygge): Depth—east side 6 m. West side 7 m. Ferry quay with roll-on/roll-off facilities on both sides. Good parking. Passenger terminal. Customs.

Private Wharves; Treschow-Fitzoe Pulp Quays—West side: Length 50 m. Depth alongside 5 m. East side: Length 90 m. Depth alongside 6.3 m.

Norsk Soyamelfabrikks kai (Soy Meal Factory Quay). Shipping of Soy Meal. Length 50 m. Depth 3-11 m.

STEVEDORES: Gangs to be ordered before 1600 hrs. and cranes before 1500 hrs. for following day. During office hours 2 hours notice required.

MEDICAL: No advance notice required, unless in urgent medical cases and when ambulance needed. No particular inoculations required.

TANKERS: For larger oil-tankers for asphalt works, 8 in. connections required; for coasting vessels, 6 in. connections used. Fuel oil and diesel oil shipped in coastal vessels require 6 in. connections; kerosene, white spirit and gasoline, 4 in. connections. No slop tanks. 2 berths for tankers, 1 for larger vessels and 1 for coasters. Max. draft in both berths 32 ft. 6 ins.

DENSITY: Salt water, brackish at times.

FRESH WATER: Delivered by hose from wharf.

FUEL: Fuel oil, gas oil, diesel oil, delivery rate by tank lorry 20 t.p.h.

FIRE PRECAUTIONS: Any vessel discharging benzine must have city fireguard on watch. 30 m. clearance required to next vessel. Ships loading explosives require fireguards on watch on board.

GANGWAY/DECK WATCHMEN: Not compulsory, but recommended for larger overseas vessels.

OPENING/CLOSING HATCHES: Usually done by ship's crew.

CERTIFICATES: Vessels must have all usual International Certificates, no special certificates required.

CUSTOMS ALLOWANCES: Every crew member allowed one bottle wine or spirits, and 200 cigarettes out of bond for use in port. This allowance is for 10 days. After this period new tobacco allowance is granted, but no new spirit issue.

CARGO GEAR: No additional requirements.

IDENTIFICATION CARDS: Not required.

CONSULS: Danish, tel. 84040, French Vice-Consulate tel. 82 030, Swedish and Dutch Vice-Consulates tel. 82 090, Finnish Vice-Consulate tel. 81 000.

REPAIRS: Minor deck and engine repairs only.

REPATRIATION: Facilities for effecting crew changes and necessary repatriation by railway, continental ferry and by air.

AIRPORT: Distances from airport: Skien, regular service to Oslo 40 km. Torp, charter planes, 35 km. Fornebu, 130 km., world-wide service. Private airport open for small aircraft at Larvik.

TIME: Local time, GMT plus one hour. Permanent.

HOLIDAYS: New Years Day; Ash Thursday, Good Friday; Easter Monday; May 1st & 17th; Ascension Day; Whit Monday; Christmas Day; Boxing Day.

POLICE/AMBULANCE/FIRE: Tel. Police 82204, Ambulance 81234, Fire 81288.

TELEPHONES: Arrangements exist for placing telephones on board; charges 40 kr. for one week's hire plus cost of phone calls.

AUTHORITY: Port Manager, Havnefogden, Larvik Kommune.

LILLESAND: 58.15 N. 08.23 E.

DOCUMENTS:

Health Certificate.
Crew List.
Cargo List.
Manifest.
Passenger List.
Bill of Measurement.
Derat Certificate.

PILOTAGE: Ships arriving from South and West cable: Okso Pilot station, VHF Channel 16. Pilot to be taken on board at Okso Pilot station or if bad weather, inside Okso.

Ships arriving from East cable: Merdo pilot station, VHF Channel 16. Pilot to be taken on board at Torungen, or if bad weather, inside Merdo. Pilot boat is 45 ft. long and marked "Los".

ANCHORAGE: Tingsakerfjorden – depth 40 m.

MAX. SIZE: See "Berthing".

RADIO: Cable Agent giving ETA via Farsund or Tjome Radio.

TUGS: Normally join at Kristiansand. Tugs lines to be used.

BERTHING: The Kokkenesquay – Kokkeneskaia. Length 80 m. with free water at both ends. Depth 10 m. There is 1 crane with a maximum lifting capacity of 30 tons. Petroleum-coke and sand discharged by crane and grab about 60 t.p.h.

The Langquay – Langbrygga. Length 70 m. with free water at the deepest end, depth 10 m. reducing at inner to 2 m.

The Fosbaekquay – Fosbaekkaia. Messrs. H. Bjorum – Norfloat A/S quay. Length 50 m. with free water at both ends, depth 10 m.

STEVEDORES: Gangs to be ordered before 1600 hrs. for the following day and day before holidays 1320 hrs. During office hours 3 hours' notice required.

FRESH WATER: Delivery by hose from quay.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: May be performed by ship's crew.

CUSTOMS ALLOWANCES: 200 cigarettes or 250 gram of tobacco, 0.75 litre of spirits and 1 litre of wine.

IDENTIFICATION CARDS: Not required.

CONSULS: Denmark telephone 262.

REPAIRS: Some small repairs possible and electrical repairs.

DRY DOCKS: None.

AIRPORT: About 30 km. to airport.

HOLIDAYS: New Year's Eve no work after 1230 hrs.; New Year's Day no work; Maunday Thursday, Good Friday no work; Easter Eve no work after 1230 hrs.; Easter Sunday no work; Easter Monday, May 1st and 17th no work; Ascension Day no work; Whitsun Eve no work after 1230 hrs.; Whit Sunday 1st no work; Whit Sunday 2nd, Christmas Eve no work after 1230 hrs.; Christmas Day no work, and December 26th no work.

POLICE/AMBULANCE/FIRE: Police 170; Ambulance 18; Fire Brigade call the switchboard.

AGENT: Hansen & Narvesen, Lillesand, Norway. Liner and Travel Agent, stevedoring. Tel. 11 and 411. Cables: "Expeditionen". Telex 18981.

MAALOY: 61.55 N. 05.07 E. (See Plan)

DOCUMENTS:

- 2 Crew Lists.
- 2 Passenger Lists.
- 1 Health List.
- 3 Manifests.
- 1 Bill of Lading.
- Goods Lists including Stores, 3 if general cargo and 1 if goods or oil in bulk.

PILOTAGE: Harbour Pilot available, ordered from Harbour Office, tel. 51278. No coastal Pilots in harbour. Coastal Pilots ordered from Bergen through Maaloy Skipsekspedisjon, tel. 51303, and must be requested at least 24 hours before arrival.

ANCHORAGE: Good holding ground in about 17 fathoms of water 300 m. off-shore from middle of harbour.

MAX. SIZE: Entrance from South through main channel 33 ft. and entrance from North about 60 ft. The main quay 420 ft. long and from 24 to 36 ft. deep alongside. No cranes available at the dock.

RADIO: No radio or VHF stations. Nearest radio station, Aalesund Radio and Floro Radio.

TUGS: No tugs operate in Harbour.

CARGO HANDLING: Special berth equipped with a roll-on/roll-off berth in connection with quay 225 ft. long, from 18 to 36 ft. depth alongside.

STEVEDORES: From Maaloy Skipsekspedisjon.

MEDICAL: Nearest hospital Nordfijordeid Sykehus, 1 hour by car.

FRESH WATER: Available at main quay and delivered from a fresh-water line at quay.

FUEL: Bunkers available from Esso, Shell, B.P. and Mobil Oil. Three bunker barges available.

GANGWAY/DECK WATCHMEN: Available in the harbour.

OPENING/CLOSING HATCHES: Done by crew.

CUSTOMS ALLOWANCE: Tobacco: Wine/Spirits: 200 cigarettes or 100 gram tobacco. 1 bottle of spirit and 1 bottle of wine.

CONSULS: No consuls.

REPAIRS: Minor repairs only possible.

AIRPORT: Nearest airport Floro, 1 hour by boat, and Flesland Airport (Bergen) 8 hours night service by sea. Air route Bergen-Maaloy every day except holidays.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; Easter Sunday; Easter Monday; Thursday and Friday before Easter; 1st May; 17th May; Whit Sunday and Whit Monday; Christmas Day and Boxing Day.

POLICE/AMBULANCE/FIRE: Police tel. 51-175; Fire and Ambulance contact telephone station.

TELEPHONES: Can be placed on board and cost same as on shore.

SERVICES: No tank cleaning services available. Compass adjusting.

SHORE LEAVE: No restrictions about shore leave.

AUTHORITY: Harbour Master.

MANDAL: 58.02 N. 07.29 E.

DOCUMENTS:

- Bill of Measurement.
- General Cargo List (two copies).
- Cargo and Provisions List (ship's stores).
- Derating Certificate.
- Maritime Declaration of Health.
- Tobacco list.

PILOTAGE: Pilot station on Oksoy lighthouse outside Kristiansand. Telephone 32834 via Kristiansand radio.

ANCHORAGE: Mannefjorden. Depth approx. 30 ft. Bankefjorden, shallow entrance with approx. depth 15 ft.

MAX. SIZE: Ship up to approx. 12,000 g.r.t. No tide problems. Oil carriers to installations outside main port area up to 20,000 tons.

HEALTH: Contact Agent for pratique.

RADIO: Farsund Radio or Kristiansand Radio.

TUGS: One small 200 h.p. tug available in harbour. Heavier tugs must be ordered from Kristiansand at 5 hours notice.

BERTHING: Mandal main harbour is Kleven, situated 1 km. East of Mandal town. There is also some kind of a harbour in Mandal River, running through town. River entrance is shallow, 12 ft. In South-easterly strong winds it can be impossible to go up the river. Kleven harbour is a good harbour in all weather conditions. There is 1 × 90 m. quay 30 ft. deep and 1 × 45 m. quay 17 ft. deep.

STEVEDORES: 6 hours notice to Agents to arrange gangs.

MEDICAL: No advance notice required. Hospital facilities available.

DENSITY: 1026.

FRESH WATER: Delivered by local firemen. Rate of delivery 20 t.p.h.

FUEL: At Oil installation inside Harbour limit.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Certificate of Nationality.

CUSTOMS ALLOWANCE: Tobacco: 200 gr. Tobacco or 200 cigarettes. Wine and/or Spirits: 2 litre alcohol for ship's Master, .75 litre for crew.

IDENTIFICATION CARDS: Not needed.

CONSULS: Sweden 62521; Finland 61288; Denmark 61799.

REPAIRS: All types of deck and engine repairs can be carried out.

DRY DOCKS: None.

AIRPORT: Kristiansand Airport at Kjevik. Distance from Mandal 64 km. Airport served by regular airlines.

TIME: GMT plus 1 hour.

HOLIDAYS: The only holidays that one cannot arrange cargo work Christmas Eve (after 1400 hrs.), Christmas Day, Easter Day, 1st May, 17th May (Independence Day). The rest of the year cargo work can be carried out day and night.

POLICE/AMBULANCE/FIRE: Police 61211; Ambulance 61113; Fire 61112.

TELEPHONES: Telephones available at quay.

SERVICES: No services for tank cleaning. Compass adjusting and all kinds of electronic repairs.

SHORE LEAVE: No restrictions.

AUTHORITY: Mandals Havnevesen.

AGENTS: Bessesen A/S, Rutebilstasjonen, Mandal, Bessesen, d62521-62511. After office hours: 62552 Director; 622d68, 61227 quayforeman.

MO-I-RANA: 66.19 N. 14.08 E.

PORT LIMITS: The vessel is considered to be an "arrived vessel" when within the Haukneset port lighthouse – about 2 nautical miles from the port.

DOCUMENTS:

- 1 Cargo List.
- 1 Stores List.
- 1 Sealing Certificate.
- 1 Health Certificate.
- 2 Crew Lists.
- 2 Passenger Lists.

(All Forms obtainable from Customs by clearance on board).

PILOTAGE: Asvaer pilot station 66° 17′ N. – 12° 09′ E. (lighthouse). Order preferably through Agent or direct to station 24 hours before arrival. 2 boats: L/K "Asvaer" and L/K "Asvaer II" both painted white, 2 yellow masts and yellow funnel. "LOS" painted in black on both sides. Radio (frequency 2182) and VHF Channel 16. Pilots embark at Asvaer Lighthouse. Pilots advise alternative place or anchorage if necessary. Pilot compulsory unless vessel ballasting for loading at another port in Norway.

ANCHORAGE: In the fjord at Utskarpen Bay to be advised by sea Pilot. Anchorage in the inner harbour to be advised by the harbour Pilot.

HEALTH: See Documents. No animals allowed on shore.

RADIO: From South; Rogaland Radio/LGQ, LGW, LGB. Within 24 hours off; Rorvik Radio/LGD. From North; Vadso/LGV or Hammerfest/LGI or Tromso/LGE or Bodoe Radios/LGP.

VHF: At harbour office call sign. "Mo port radio" Channel 16. At A/S Norsk Jernverks quay call sign. "Jernverks quay" Channel 16.

TUGS: Available and recommended for vessels above 13,000 d.w.t. 24 hours notice to be given. Ships' lines used.

BERTHING: Harbour Pilot recommended but not compulsory for small Vessels. Details given through Pilot/Harbour Pilot.

Koksverket Pier	37 ft. depth alongside
Town Pier	25 ft. depth alongside
Jernverket Pier (Steel)	26 ft. depth alongside
Andfiskaa Pier	23 ft. depth alongside

CARGO-HANDLING FACILITIES: The harbour has the following facilities for handling cargoes, Norsk Koksverk A/S pier depth 36 ft.; length 427 ft. and 295 ft., North and South side handling following cargoes: ore, coal, coke, tar, bensol, ammonia and oil.

A/S Norsk Jernverk Quay: handling ore, coke, steel products and general cargoes. Length of quay, 823 ft.; depth 25 ft. A/S Bleivassli Gruber Pier, length 115 ft.; depth 23 ft. Has equipment and elevator for handling pyrites – fast loading. The Town Quay (Harbour Board Quay), length 823 ft. and depth 18 to 26 ft., handling general cargoes of all kind, with up to 15-ton lifts.

STEVEDORES: Ordered by Agents preferably in office hours 0900–1600 hrs. Exact time for commencement of work to be arranged with Agent. By delays vessels to pay for waiting hours for workers if delay not reported. If such report after office hours, vessel to pay for 2 hours.

MEDICAL: If in need of doctor/dentist preferably inform Agent from sea if vessel stays only 1 day.

FRESH WATER: Available at all piers from shore installations.

FUEL: All types available.

GANGWAY/DECK WATCHMAN: Available but not compulsory.

OPENING/CLOSING HATCHES: Crew allowed to open/close.

CUSTOMS ALLOWANCES: Per 10 days in Norway per crew member – 200 cigarettes or 200 gr. tobacco and 2 packages cig. paper, and 1 bottle spirits.

CARGO GEAR: Winchmen from shore required acc. to local tariffs.

REPAIRS: Small damages can be repaired.

AIRPORT: 12 km. to local airport "Rana Airport" connection with Bodoe (North) twice per day and Trondheim (South) twice per day.

TIME: GMT plus hour permanent.

HOLIDAYS: New Year's Day; Thursday before Good Friday; Good Friday; Easter Monday; Labour Day; National Day (17th May); Ascension Day; Whit Monday; Christmas Day and Second Christmas Day. No work can be arranged on any of these days.

TELEPHONES: Accidents/hospital: 51233; Ambulance: 51510; Fire: 51222 and Police: 51122.

SHORE LEAVE: No restrictions.

AUTHORITY: Port Manager, Mo Havnevesen.

AGENT: L. A. Meyers Skipsekspedisjon, Chartering, Tramp & Liner Agents, Forwarding Agents, PO Box 216, N-8600, Mo-i Rana. Cables: "Meyership". Telex: 55166. Telephones: 50161/50163.

MOLDE: 62.44 N. 07.10 E.

DOCUMENTS:

Health Certificate.
Crew Lists.
Passenger List.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: Telegraphic address "Alesund Radio". Address of pilot station "Rundo".

ANCHORAGE: A well-protected harbour. Depth from 15 to 20 fathoms. Tide rises about 6 ft.

RADIO: Alesund Radio.

TUGS: None.

BERTHING: Depths alongside quay 25 to 32 ft. LW.

A new port, 2 km. from the town to be opened in 1976. Two quays with roll-on/roll-off ramps. Depth alongside No. 1 – 5 m. and No. 2 – 12 m.

STEVEDORES: Available, ordered by Agents.

FRESH WATER: By shore installation.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Normally by crew.

IDENTIFICATION CARDS: Not required.

REPAIRS: Most repairs possible.

POLICE/AMBULANCE/FIRE: Police 51111; Ambulance 52011; Fire 51100.

AIRPORT: Aaro Airport, 4 km. from town.

AUTHORITY: Molde Havnevesen, Mold.

MONGSTAD: 60.49 N. 05.02 E.

OPERATORS: Oil refinery operated by Rafinor A/S & Co., Mongstad, which company is owned by Norsk Hydro A/S, Norsk Olje A/S and Den Norske Stats Oljeselskap A/S (Statoil).

DOCUMENTS:

3 copies Crew List.
1 copy Crew Effects Declaration.
2 copies Ships Stores Declaration.
1 copy Health Declaration.
1 Passenger List (if any).

IMCO standard forms in most cases required.

On ship's arrival the following documents must be available: Letter of Registry, Outward Clearance from last port of call, Deratting or Deratting Exemption Certificate, and Certificates of Insurance for Civil Liability for Oil Pollution Damage. Non-member registered ships of the International Convention on Civil Liability for Oil Pollution Damage, 1969, must after 30th June, 1976, carry a Certificate issued by Maritime Directorate, PO Box 8123, OSLO-Dep., Oslo, Norway. Before this date Certificates issued by Denmark, Sweden and U.K. covering non-Convention registered ships, will be recognised.

PILOTAGE: Compulsory. Vessels will be berthed/unberthed by pilots from Fedje Pilot station (Position 60° 51′ N., 04° 39′ E.). Contact pilots on VHF Channel 16, 2/3 hours notice required.

ANCHORAGE: North-west of refinery area. However, not well sheltered and holding ground not good. No anchorage for VLCC's.

MAX. SIZE: Draft limitation at Crude Jetty 72 ft.

HEALTH: International procedure followed to obtain pratique. In case of suspected disease or fever on board, the port authorities to be informed in advance.

RADIO: Cable Agent ETA, cash, bunkers, personnel, bonded stores, or other special requirement. For the refinery's guidance also cable flange dimensions on ships' headers, cargo quantities acceptable and order of loading, quantity of clean ballast and estimated time for discharge, size of cargo to be discharged and max. pumping rates, max. acceptable loading rates, quantity of tank washings and estimated time for discharge.

BERTHING:

Berth No. 1 (for crude) – draft limitation 72 ft., length 124 m. – min. depth 125 ft.

Berth No. 2 (products) – draft limitation 38 ft., length 69 m. – min. depth 59 ft.

Berth No. 3 (products/coasters) draft limitation 22 ft., length 36.5 m. – min. depth 25 ft.

Berth No. 4 (petrol coke) draft limitation 21 ft., length 50 m. – min. depth 24 ft.

CARGO HANDLING FACILITIES:

Berth No. 1 – 4 × 16 in. plus 2 × 16 in./10 in. Woodfield autoflowbooms.

Berth No. 2 – 4 × 10 in. plus 2 × 8 in. Autoflowbooms.

Berth No. 3 – 2 × 8 in. plus 2 × 6 in. Autoflowbooms.

TUGS: Two tugs of 2,650 b.h.p., each – bollard pull 36.5 tons situated at the refinery. Additional tugs available from Bergen.

BALLAST: Deballasting facilities available at jetty Nos. 2 and 3. Tankage capacity 27,000 cu. m. All ballast to be discharged ashore.

MEDICAL: Medical attention available. Hospital facilities at Bergen.

DENSITY: Salt water.

FRESH WATER: Available from the jetties. Cost per ton Nkr. 2.00.

FUEL: All grades available.

FIRE PRECAUTIONS: Special safety regulation forms given when berthed.

CONSULS: Consuls available at Bergen from the following countries: Austria; Belgium, Brazil, Denmark, Finland, France, Great Britain, Greece, Iceland, Italy, The Netherlands, Panama, Peru, Portugal, Spain, Sweden, Switzerland, Turkey, Uruguay, West Germany.

REPAIRS: Repair shop facilities available. Repair work must not be commenced without the agreement of the Installation Controller.

SURVEYORS: The following Classification Societies represented by Surveyor at Bergen: American Bureau of Shipping, Bureau Veritas, Det norske Veritas, Germanisher Lloyd, and Lloyd's Register of Shipping.

GANGWAY/DECK WATCHMEN: Available.

CUSTOMS ALLOWANCES: 200 cigarettes or 200 grammes tobacco and 1 bottle spirit or 2 bottles of wine, each man.

REPATRIATION: All facilities. Bus or Taxi transport to international airport.

AIRPORT: Flesland Airport, approx. 86 km. (54 miles) distance from Mongstad. Distance Bergen to Mongstad approx. 45 km.

TIME: Central European time i.e. GMT plus one hour.

POLICE/AMBULANCE/FIRE: Police telephone Knarvik 350504 and 350505. Ambulance and Fire fighting brigade available at the refinery.

TELEPHONES: Arrangements exist to place telephones on board. Otherwise telephones available at the jetties.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Shore passes delivered on board on arrival.

PORT REGULATIONS: *Moorings:* Mixed moorings in the same direction are not allowed. Wire ropes shall have nylon "tails" not longer than 12 m. Nylon "tails" are available for purchase. Due to occasionally heavy swell in the fiord, particular attention is paid to the moorings.

AUTHORITY: Rafinor A/S & Co.

AGENT: Berle & Petersen A/S, N-5153 Fonnes (Norway), Telex: 42261 mogfs n, Tel.: Fonnes 186 (later this year to be changed to (47 5) 368523).

Head Office: Berle & Petersen A/S, P.O.B. 895, N-5001 Bergen. Telex: 42650 bepet n, Tel.: (47 5) 232010.

MOSJOEN: 65.51 N. 13.11 E.

DOCUMENTS:

Health Certificate.
Crew List.
Passenger List.
Ship's Register.
Cargo List.
Bonded Store List.

PILOTAGE: Pilot station at Asvaer, location 66° 15′ 9″ N. 12° 18′ 03″ E. Telegraphic address: Pilot Station, Asvaer. VHF Channel 16. Telegraph ETA 24 hours prior to arrival. Piloting around clock.

ANCHORAGES: Hellesvik. Location 66° 01′ 30″ N. 12° 54′ 20″ E.

RESTRICTIONS: No restrictions night entry. If draft above 33 ft. enter on high tide and commence discharging immediately.

HEALTH: Free pratique given automatically when "Q" flag not to be flown.

MEDICAL: Master to advise prior to arrival if medical attention required. Hospital facilities available.

RADIO: Rorvik Radio LGD.

TUGS: Stationed at Sandnessjoen. Have to be ordered through Agents 24 hours prior to arrival. Normally used by vessels above 20,000 d.w.t.

BERTHING: Draft above 33 ft. berthed only on high tide and commence discharging immediately. No restrictions on length and breadth.

Crane for bulk cargo (alumina), capacity 300 t.p.h. Mosjoen Aluminiumverk, private berth.

No other special facilities (roll-on/roll-off facilities may be constructed).

STEVEDORES: Ordered through Agents. No ETA to stevedores necessary.

DENSITY: Brackish in port.

FRESH WATER: Supplied from installations at berth.

FUEL: Gas oil, delivered by lorries.

GANGWAY/DECK WATCHMEN: Available, but not compulsory.

OPENING/CLOSING HATCHES: Performed by vessel's crew.

CUSTOMS ALLOWANCE: 1 bottle spirits, 200 cigarettes, 200 gr. tobacco.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: Minor repairs possible.

TIME: GMT plus 1 hour. No alterations during year.

HOLIDAYS: New Year's Day; Good Friday; Maunday Thursday; Easter Monday; Workers' Day (1st May); 17th May; Ascension Day; Whit Monday; Christmas Day; Boxing Day.

POLICE/AMBULANCE/FIRE: Fire 70222; First Aid 70800; Police 71611.

NAMSOS: 64.28 N. 11.30 E.

DOCUMENTS:

Crew list.
2 Passenger lists.
2 Health Certificates.
Manifests.
Ship's papers.

PILOTAGE: Sea pilot stationed at Namsos. Contact through Rorvik Radio. Pilot boat: white painted 46 ft. long. Usual signals. Pilot boards at 64.38′ N. 10.51′ E. Pilot can be ordered by ship's Agent.

ANCHORAGE: Good anchorage inside harbour.

MAX. SIZE: Vessels up to 15,000 d.w.t. have entered harbour. 3 small oil berths with depth 18 ft. L.W.
HEALTH: Normal Norwegian regulations.
RADIO: Rorvik Radio. No radar or VHF service in the harbour.
TUGS: No tugs in Namsos. 1 tug stationed at Bangsund and can be hired.
STEVEDORES: Notify day before arrival to arrange gangs.
TANKERS: 3 tanker berths 18 ft. alongside L.W.
DENSITY: Average density 1020 in Spring, and in Summer 1015.
FRESH WATER: Available by hose. Capacity 10-15 t.p.h.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Stevedores operate hatches.
CERTIFICATES: Usual international certificates.
IDENTIFICATION CARDS: Not needed.
CONSULS: None.
REPAIRS: Small repairs available.
REPATRIATION: Organized by seamen's office.
AIRPORT: 4 km. from town. Regular service twice a day South and North.
TIME: European standard time. GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Police 72151; Ambulance 72500; Fire 72000.
TELEPHONES: Can be placed on board.
SHORE LEAVE: Crew allowed ashore.
DELAYS: None expected.
AUTHORITY: Namsos Havnevesen Boks.

NARVIK: 68.26 N. 17.25 E. (See Plan)

DOCUMENTS:

Health Declaration in Norwegian form (if not available another form is possible).
6 Crew Lists.
1 Provision List.
1 Private Customs List.
Passenger List.

PILOTAGE: Tranoy Pilot station. Position 68.11 N. 15.34 E. Pilots request 24 hours notice. Cable address: Tranoy Pilot station. Before arrival pilot station Pilots should be called on VHF Channel 16.

Distance from Tranoy to Narvik is 46 miles. The Harbour Pilot will board and assist during berthing.

ANCHORAGE: Narvik Harbour. Pilot will advise anchorage.
RESTRICTIONS: No restrictions on night entry.
RADIO: Cable Agents giving ETA, draft and cash required. Radio station: Rogaland Radio/LGB but other stations can be used.
TUGS: Must be employed for tankers. 2 tugs available, capable of assisting vessels up to 250,000 d.w.t.
HEALTH: Free pratique, otherwise see "Documents".
BERTHING: Max. depth alongside 13.5 m. at LWOST, max. draft on sailing 13 m. A deeper sailing draft may be permitted if tide and weather conditions are favourable but the Master will be liable for any damage caused by a vessel with draft over 13 m.

2 boom-type shiploaders are available, on each side of the pier. If 2 vessels are loading simultaneously, 1 on each side of the pier, then only 1 loader may be used by each vessel. The designed capacity of each loader is 4,500 t.p.h. but average capacity of each loader is 2,000/3,000 t.p.h. depending on quality and kind of ore to be loaded.

Maximum outreach from fender line is 15 m. The height from the water to the top of the vessel's coaming must not exceed 13 m. (Pier 3) and 11 m. (Pier 4).

The length of the ore pier is 250 m. on the outside (No. 3) and 220 m. on the inside (No. 4).

The shiploaders are able to travel over a distance of 145 m. so larger vessels (65,000 tons d.w.t.) may have to shift during loading operations. The length of the vessel from the bow (or bulbous bow) to the aftermost loading point must not exceed 202 m.

The limit on beam is 37-38 m. for ore/bulk carriers and 39-40 m. for OBO vessels (approx.)

A stowage plan is to be handed to the Agent and foreman on arrival, stating the quantity in metric tons and loading rotation of the hatches, also the estimated draft on sailing.

Weighing: Electronic conveyor weighing with an average accuracy better than ±0.15%.

Fagerneskaien: Situated in the Southern part of the harbour, may be used by iron ore vessels during repairs, etc. Length of quay 230 m. Depth alongside at LW 15 m.

STEVEDORES: Ordered by Agent. Not necessary to contact stevedores.

Working hours: Ordinary working hours 24 running hours, except Saturday 2200 to Sunday 0600 hrs.

Loading does not take place on the following holidays:

December 24th	1300 hrs. – December 26th	2200 hrs.
December 31st	1300 hrs. – January 1st	2200 hrs.
Maundy Thursday	1400 hrs. – Easter Monday	2200 hrs.
Whitsun Eve	1400 hrs. – Whit-Monday	2200 hrs.
April 30th	2200 hrs. – May 1st	2200 hrs.
May 16th	2200 hrs. – May 17th	2200 hrs.

DENSITY: 1020.
FRESH WATER: Ore berth has supply of fresh water. Otherwise delivery by tugs.
FUEL: Only clean oil (diesel) and lubricating oil available.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: May be handled by ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes or 250 grams tobacco and 0.75 litre spirit or 2 bottles of wine. Must be declared on Customs list together with radios, tape recorders, binoculars, etc.
IDENTIFICATION CARDS: Not required.
CONSULS: Swedish, Danish, English, West German.
REPAIRS: Only small deck and engine repairs possible.
DRY DOCKS: None.
AIRPORT: Bardujoss 3 hours bus trip from the port. South-bound planes twice a day.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day; May 1st; May 17th; Easter; Christmas Day; December 26th.
POLICE/AMBULANCE/FIRE: Police 41060; Hospital 44044; immediate help 4300 (only at night time); Ambulance 43600; Fire 41122.
LAUNCHES: The Agent will supply a time table and tickets on arrival. If a launch is required, the "B" flag or red light should be displayed from the signal mast.
TELEPHONE: Local and long-distance calls can be ordered via Harstad Radio on VHF (Channel 16).

Vessels alongside the piers may hire a telephone but continuous telephone watch should then be kept on board.

SHORE LEAVE: Allowed.
DEVELOPMENTS: A new quay is now under construction at Narvik for completion early in 1977.

The quay will be 208 m. long and will have a water depth of 27.5 m. which will allow tonnages of about 350,000–400,000 d.w.t. In the first stage only 1 ships loader will be built but room will be left for an additional one. The loading capacity will be 11,000 tons of ore or 7,500 tons of pellets per hour.

Vessels of up to 150,000 tons will be loaded without shifting the vessel. Larger vessels will have to be shifted alongside during loading.

AUTHORITY: Harbour Master, Narvik Havnevesen.
AGENT: E. F. Bjornstad, PO Box 147, Narvik, Norway. Tel. 41100. Cables Bjornstad. Telex 64095. Chartering, Tramp & Line Agents. Travel Agents.

Dangerous Cargo List.

PILOTAGE: Compulsory. Pilot boards at Faerder Lighthouse, 50 miles from docks. Give 6 hours notice by R/T 2182 kHz or VHF Channel 16 to "Faerder Pilot".
ANCHORAGE: Good sheltered anchorage in Western Harbour Basin, depths up to 20 m.
RESTRICTIONS: Vessels may enter at any time. No tide or current.
MAX. SIZE: Vessels up to 34 ft. draft may berth at Filipstad Quay and Sjursoya Quay.

Tankers: Up to 36 ft. draft at Oslo, or 38 ft. draft at Fagerstrand.

HEALTH: International procedure followed to obtain pratique. In case of suspected disease or fever on board, inform the Harbour Master's office in advance. When arriving from a Norwegian port, pratique is automatic.
RADIO: Communicate through Oslo Radio, call sign LGO. Harbour Master's Office equipped with VHF, Channel 16.
TUGS: Sufficient tugs available for all requirements.
BERTHING: Instructions given from Harbour Master. Masters of ships are requested to send their ETA to the Harbour Master's Office through Oslo Havne radio, VHF Channel 16.

Filipstad Quay: up to 11 m. depth alongside.
Sjursoya Quays: up to 11 m. depth alongside.
Vippetangen: up to 10 m. depth at Pier No. 1.
Pipervika: up to 8 m. depth at Akershus Pier.
Bjorvika: up to 7.30 m. depth at Lang Quay.
Bispevika: up to 11 m. depth at Sorenga Pier.
Gronlia: up to 8.50 m. depth alongside.
Kongshavn Quays: up to 6 m. depth alongside.
Bekkelaget: up to 10.80 m. depth alongside.

BULK CARGO FACILITIES: Container traffic handled at Filipstad, Bekkelaget and Sjursoya North.

Sorenga Pier equipped for palletised cargo handling and containers, ro/ro.

8 new berths for roll-on/roll-off traffic. Cranes for ISO-container and other container handling equipment, quay cranes and mobile cranes of 30 tons capacity.

Sjursoya North: cement, phosphate, grains, Molasses and containers.
Sjursoya South: gasoline and oil, propane and gas.
Bekkelaget North: molasses, general cargo and oil.
Sorenga: coal, coke, sulphur, china clay and leca.
Pier 3: grains and sugar.
Kongshavn: building material, coal and phosphate.

STEVEDORES: Arranged by Agents. Working hours 0700-1600 hrs., Saturdays 0700-1300 hrs.
TANKERS: Also see Slagen.

Oslo: Oil pier at Sjursoya, depth alongside 12 m. A tug required to stand by during discharge.

Fagerstrand: Terminal operated by Norske Braendselolje A/S situated in Oslo fjord, 12 miles S. of Oslo. 1 berth for tankers up to 30 ft. draft.

1 berth for tankers up to 38 ft. draft.

MEDICAL: All facilities available. Masters to advise by radio prior to arrival if medical attendance required on board.
DENSITY: Salt water, 1025.
FRESH WATER Available by pipeline from all quays.
FUEL: All grades available, ex-wharf at many quays. Can be delivered by barge.
FIRE PRECAUTIONS: 2 boats fully equipped with fire-fighting equipment.
DEVELOPMENTS: Extensions of the land areas in the port by approx. 200,000 sq. m. Quay extensions of 1,000 m. Storage halls in hills, 100,000 sq. m. or more, sheds and service buildings.
CUSTOMS ALLOWANCES: 200 cigarettes allowed weekly, 1 bottle spirit weekly, for each man.
CARGO GEAR: International Safety Regulations to be observed.

AGENT: Nils P. Hoyer & Son A/S., Skistredet 10, PO Box 60, 3701 Skien, Norway. Office tel. 21020. Telex 11435. Cables "Hoyership". After office hours: Mr N. P. Hoyer 35502.

SLAGEN: 59.20 N. 10.31 E. (See Plan)

Oil refinery pier operated by A/S Norske Esso, Norge.

DOCUMENTS:

Four Crew Lists.
Manifest of Crew Personal Effects.
Stores List.
Cargo Papers.
Bill of Health.
Ship's Register.

PILOTAGE: All foreign ships must have Pilot. Pilot obtainable at Store Ferder, East. Boats are white with name "Los". Deep water available and no special anchorage place if waiting for Pilot. Call Pilot at least 2 hours in advance by VHF Channel 16 or radio telephone.

ANCHORAGE: N.N.W. of pier head. Particulars regarding anchorage will be given by Pilot.

MAX. SIZE: Tankers up to 350 m. length and 66 ft. draft can be berthed.

HEALTH: Clearance is effected on arrival. International procedure followed to obtain pratique. In case suspected disease or fever on board inform port authorities in advance.

RADIO: Cable Agent ETA, cash, bunkers, personnel, bonded stores, or other special requirements. Radio telephone contact should be established with Marine Office on VHF or via Tjome Radio. Call name Marine Office "Slagen Havne Radio" on VHF.

TUGS: Are available up to 3,200 i.h.p. Tankers over 20,000 d.w.t. required to have tug standing by throughout discharging operations. The charge for standby tug is to owner's account.

BERTHING: The East side of the pier (crude side) is used for loading and discharging. The West side (product side) is used for loading products only. Berth No. 1. Shore based gangway for use on VLCC's.

Berth No. 1 and crude berth – max. length 350 m., max. draft 66 ft.
Berth No. 2 max. length 192 m., max. draft 34 ft.
Berth No. 3 for coasters and barges.

HOSES: Crude oil berth: Four 12 in. lines, max. pressure 200 psig.

Berth No. 1:	Two	10 in.lines for	dirty oils
	Two	10 in. ,, ,,	clean products
	Two	6 in. ,, ,,	fuel
	One	4 in. ,, ,,	LPG
	One	3 in. ,, ,,	,,
Berth No. 2:	One	12 in.line for	clean products
	Two	8 in. ,, ,,	,, ,,
	One	10 in.line for	dirty products
	One	6 in ,, ,,	,, ,,

BALLAST: Shore ballast capacity 100,000 bbls. All ballast to be discharged ashore.

POLLUTION: A submersible oil boom has been installed enclosing the oil pier. Normally, the boom rests on the sea-bed, but when needed it will be raised to the surface using compressed air.

The oil boom and its system of anchorage will be damaged by vessels' anchors. In order to ensure that the oil boom is operable at all times, and to avoid expensive repairs, which will be charged to the ship responsible for the damage, great care should be taken in connection with manoeuvres along the Slagen pier, which will require the use of anchors.

The drawing of the pier shows the position of the oil boom and the anchorage system. Except for emergency situations, anchors should not be used within the shaded area.

All manoeuvres to and from berths should be discussed with the Harbour Office (Slagen Harbour Radio, Channel 14). The Harbour Office will give you information regarding current strength and setting.

Approach to Berth 2, and Berth 3 if Berth 2 is not occupied, is facilitated by the fendered sliding front.

MEDICAL: Medical attention and hospital facilities available.

DENSITY: Occasionally brackish.

FRESH WATER: Available from pier.

FUEL: All grades available.

FIRE PRECAUTIONS: Special safety regulation forms given when berthed.

GANGWAY/DECK WATCHMEN: Oil Pollution/Safety Inspector placed on board all vessels over 20,000 d.w.t.

CUSTOMS ALLOWANCE: 200 cigarettes/or 200 grammes tobacco and one bottle spirits for each man.

IDENTIFICATION CARDS: Gate pass delivered to ship when berthed.

CONSULS: Denmark, Finland, France, Great Britain, Netherlands, Spain, and Sweden have representatives in Tonsberg. W. German consul in Sandefjord. All countries represented in Oslo.

REPAIRS: Repair shops facilities ashore. Tankers alongside pier must not effect repairs to main engine which should be in constant readiness.

DRY DOCKS: Available at Sandefjord about 35 miles from Slagen.

REPATRIATION: Changes of crew are available. Transportation by train and plane from Oslo (about 100 km. from Slagen), passenger lines from Oslo. Hotel accommodation available at Tonsberg (10 km. from Slagen).

TIME: GMT plus 1 hour.

HOLIDAYS: New Year's Day; Maunday Thursday; Good Friday; Easter Monday; Labour Day (1st May) 17th May; Ascension Day; Whit Sunday and Whit Monday; Christmas 25th and 26th: Discharging/loading all days.

POLICE/AMBULANCE/FIRE: Police Tonsberg 13355; Ambulance/Fire local at the refinery.

TELEPHONES: Available at berth.

SERVICES: Tanker cleaning services available at Horten, about 15 miles from Slagen.

GENERAL: Ratguards are compulsory. Transportation of alcohol through refinery is prohibited.

SHORE LEAVE: Crew members allowed to go ashore.

AGENT: Sev. Dahl A/S, Storgt 15, PO Box 128, 3101 Tonsberg, Ship and insurance brokers, Lloyd's Agent, Chartering, sale and purchase of tankers and motor ships. Tel. 14027 – 14028 – 14432 – 14194. Telex 11557, "Sdahl" Telegram: "Severin" Tonsberg.

STAVANGER: 58.58 N. 05.44 E. (See Plan)

DOCUMENTS:

Declaration of Health, 1 copy.
List of Goods, including stores, 1 copy.
Crews Lists of Goods liable to duty, 1 copy.
List of Goods, 2 copies for each port of discharge. All Bills of Lading to be entered with marks, numbers, weight and quantity.
General List of Goods, one copy.
A form for entering ports of call where discharging will take place.

PILOTAGE: Vessels approaching from sea and desiring a Pilot should order at least 24 hours notice in so far as possible and confirm arrival at Pilot station at 2 hours notice. Advance order can be sent in following manners:

(a) From ships at sea over radio direct to sea Pilot watch (calling frequency 2182 kc/s, from 2 minutes past until 10 minutes past each full hour, or over VHF radio-telephone calling, frequency 156.80 mc/s; Channel 16).

(b) From ships at sea over coastal radio station to Pilot station or Pilot office.

(c) From broker or shipowner over telephone to sea Pilot station or to any Pilot office which will immediately convey report to sea Pilot station.

Vessels lying in port and desiring Pilot will order Pilot from nearest Pilot office during its office hours and if possible at 4 hours notice.

Vessels approaching from sea as well as vessels lying in port shall when making an advance order state name and destination of vessel and whether 1 or 2 Pilots are desired.

Pilot will be despatched to ships in accordance with advance orders, and vessels are therefore requested to comply with foregoing rules as far as possible in order to avoid having to wait for Pilot.

International provisions for summoning Pilots by signal flags or blue lights, etc., are still in force, but should in future be used as a supplement to radio communications or as sole communication in emergencies.

Pilots are taken on board at:

A. Feistein Lighthouse, 19 miles South of Stavanger, or in bad weather 6 miles North of lighthouse under the lee of Rott.

B. Skudefjorden, 18 miles N.W. of Stavanger. In bad weather under the lee of Karmoy or Kvitsoy, as weather permits.

Pilot boats are stationed at Tananger and Skudesneshavn. No boats are out cruising.

RADAR/VHF: Radar service for inner harbour. At Kvitsoy Pilot station radar service may be obtained over VHF Channel 16.

ANCHORAGE: Found in the Byfjord, 3 nautical miles North of Stavanger. Harbour pilots recommended when anchoring.

MAX. SIZE: Largest depth alongside goods and passenger quays is 30 ft. Depth alongside oil refinery 16.5 m. Max. draft for tankers, 48 ft.

TUGS: Normally not used.

BERTHING: The coasting and the foreign trade is located in the Western harbour, comprising the 2 main quays, namely the Skagen Quay and the Strand Quay. These quays measure 1,600 m. with depths alongside 24 to 30 ft.

The quays are equipped with one 6-ton crane and eight 3-ton cranes. A floating crane with a lifting capacity of 65 tons available.

Grain: Rogaland Felleskjop: Capacity for storing 72,000 tons quay length 190 m., depth alongside 48 ft. Discharging capacity 200 t.p.h. Stavanger Havnesilo: Storing capacity 140,000 tons, quay length 170 m., depth alongside 51 ft. Discharging capacity 500 t.p.h.

Roll-on/roll-off: Traffic is offered by a ferry berth constructed for ships up to 5,000 g.r.t., depth alongside 26 ft.

Offshore oil-exploration bases: Aker-Norsco A/S at Risavik, Tananger North Sea Exploration Services A/S, Dusavik.

STEVEDORES: No particular ETA advices required.

MEDICAL: Agents should get advance notice to secure speedy service. Hospital facilities available.

TANKERS: Discharge at Sola refinery terminal where there are 3 berths, depth alongside up to 16.5 m. It is intended to enlarge these facilities to accommodate 200,000 d.w.t. vessels with restricted draft.

Esso Norske: 3 nautical miles South of central harbour, depth alongside 45 ft.

Norske Shell A/S: 14 nautical miles S.W. of central harbour, depth alongside 38 ft.

Norske Braendselolje A/S: 7 nautical miles South of the central harbour.

Texaco Oil: 1 nautical mile from central harbour, depth alongside 25 ft.

A/S Kulimport: Coal and coke. Length of wharf 116 m., depth alongside 27 ft.

DENSITY: 1025, no change in relation to state of tide.

FRESH WATER: Delivered from quay or from water boat.

FUEL: Normal grades available without advance notice.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Usually carried out by crew.

CUSTOMS ALLOWANCE: Tobacco: 20 cigarettes per day. Wine and/or Spirit: 2 bottles of wine or 1 bottle of brandy.

CONSULS: Germany, C. Middelthon, Tel. 21.040; Denmark, Leifbuch Hansen, Tel. 27.575; U.K. Colin W. Peck, Tel. 23.652; Sweden, Charles R. Bergensen, Tel. 27.500.

REPAIRS: All kinds of repairs available.

DRY DOCKS: One, 545 by 75 by 24 ft. Marine slipway up to 1,500 d.w.t.

AIRPORT: 10 km. from port. Airlines to Continent, U.S.A.

TIMES: GMT plus 1 hour. No alterations during year.

HOLIDAYS: 1st January; Maunday Thursday; Good Friday; Easter Monday; 1st May; 17th May; Whit Monday; Christmas Day and Boxing Day.

POLICE/AMBULANCE/FIRE: Police Tel. 31.520; Ambulance 21.500; Fire 22111.

TELEPHONES: There are arrangements for placing telephones on board.

SHORE LEAVE: No restrictions.

AUTHORITY: Stavanger Havnevesen.

AGENT: C. Middelthon's Dampskibsexpedition, Skansegt. 13–15, POB 27, 4001 Stavanger. Tel. 21040. After office hours: 24936; 32541. Telex: 33034 "Cmdex".

SUNNDALSORA: 62.41 N. 08.36 E.

DOCUMENTS:

Crew List.
Passenger List.
Health Certificate.
Ship's Manifest, and one manifest with list of provisions.

TELEPHONE: Telephone may be rented from Aardal & Sunndal Verk.

SERVICES: Not available. Nearest Kristiansund.

SHORE LEAVE: Crew members allowed ashore.

REGULATIONS: Forbidden to take photographs within boundaries of Aardal & Sunndal Verk.

DELAYS: Usually no delay if notice of arrival given to Agent in good time.

AUTHORITY: Sunndal Havnevesen.

SVOLVAER: 68.14 N. 14.35 E.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
Custom Documents.
Stores List.
Manifest.
Bill of Lading.
Ship's Papers.
Valid Deratisation Exemption Certificate.
Ships arriving from Finland, Denmark, and Sweden need Customs permit from last port.

PILOTAGE: Vessel approaching Svolvaer may call Bodo Radio, 2182 kc/s. by radio asking for Svolvaer harbour pilot. Telegraph ETA Svolvaer 24 hours before arrival. All communication with harbour pilot boat is via Bodo Radio. No VHF. Exact position for pilot boat is 68° 11′ 30″ N. 14° 36′ 00″ E. In the event of bad weather call Lodingen Pilot station, position 68° 24′ 00″ N. 16° 02′ 00″ E., via Bodo Radio for further information. Different types of pilot boats are used, but usually the pilot boat flies pilot flag. No special requirements for boarding, except usual pilot ladder.

ANCHORAGES: Boundaries for safe anchorage 68° 13′ 36″ N. 14° 37′ 00″ E., 68° 13′ 48″ N. 14° 36′ 12″ E. Depth in area about 25 fathoms.

RESTRICTIONS: Ships of 2,000 tons or more berthing at daylight only.

MAX. SIZE: Max. permissible length 520 ft., draft 30 ft.

HEALTH: Pratique is automatic given by radio. Vessel only required fly yellow flag. In event of any suspected disease or fever on board call Svolvaer Harbour Master by telephone via Bodo Radio (2182 kc/s.).

RADIO: Call Bodo Radio by R/T 2182 kc/s. or VHF-Channel 16. Svolvaer Harbour office VHF-Channel 16.

TUGS: No tugs available.

STEVEDORES: All information regarding gangs, loading and discharging rates can be obtained by calling ship's Agent in Svolvaer via Bodo Radio.

MEDICAL: Hospital facilities available.

TANKERS: There are 2 discharging berths for oil carriers in Svolvaer. Diameter of lines at B.P. berth 6 in. and 8 in., at Shell 8 in. At the Shell berth tankers moor stern to and discharge through stern lines.

DENSITY: Density in port is 1025.

FRESH WATER: Is delivered from piers by hose with a rate of about 20 t.p.h. Water is not available at B.P. berth.

FUEL: All kinds of fuel oil are available.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally done by ship's crew but can also be done by stevedores.

CERTIFICATES: Ship's Register Certificates.

CUSTOMS ALLOWANCE: Tobacco: Quantity for each crew member is 20 cigarettes or 20 gr. tobacco and 20 leaves cigarette papers per day. Wine and/or Spirit: For crew members 1 bottle spirit or wine (0.75 litre) for each passenger 0.25 litre.
IDENTIFICATION CARDS: Not required.
CONSULS: Swedish and Italian consulates. Lloyd's sub agent.
REPAIRS: Nearly all types of engine and deck repairs. Both for internal combustion and turbine engines.
DRY DOCKS: No dry docks in port, only slipways for ships up to 160 ft.
REPATRIATION: Facilities for effecting crew changes are available.
AIRPORT: Four km. from town. Nearest main airport is Bodo.
TIME: Local time is GMT plus 1 hour.
HOLIDAYS: Official holidays stated by Norwegian Government.
POLICE/AMBULANCE/FIRE: Call telegraph station Svolvaer.
TELEPHONES: Phones on pier.
GENERAL: Svolvaer is the main port in Lofoten Island, and a typical fishing harbour. Radar-Decca-Radio and VHF service, and all other electrical services can be executed.
SERVICES: Compass adjusting.
AUTHORITY: Harbour Master Svolvaer.

THAMSHAVN (Thamshamn): 63.20 N. 09.52 E.

DOCUMENTS:
Health Certificate.
Crew List.
Passenger List.
Store list.
Bill of Lading.
3 Manifests.

PILOTAGE: 24 hours prior arrival Grip, Pilots can be ordered by cable to "Loskontoret, Kristiansund N." or by telephoning Kristiansund Pilot Office, tel. 74333 during office hours, and 71481 private. Pilots can also be ordered by radio through Kristiansund Radio or through Agents. Use Channel 16 for VHF., contact to Kristiansund Pilot Office, or pilot boat. Pilot boat equipped with radio telephone 2182, carries red and white flag during day and white and red light during night.
ANCHORAGE: Vessels should anchor 150 m. off piers where depth between 26 and 30 m. Anchoring between piers and buoys is not permitted.
MAX. SIZE: Depth at Import Quay 20 ft. MLW. Ships of 28 ft. draft can load at Pyrites Quay.
RADIO: Vessel should route ETA cables to Agent through Rogaland Radio or Aalesund Radio.
TUGS: No tugs needed or available.
BERTHING: Berthing only between 0700 and 2400 hrs.
CARGO HANDLING: 1 berth is specially equipped for handling of pyrites in bulk. Ships of 28 ft. draft can load at the pyrites quay. Loading by conveyor. There are no berths equipped for containers or roll-on/roll-off traffic, nor berths handling liquid chemicals or LPG carriers.
STEVEDORES: Arranged by Agent. No ETA to stevedores necessary.
MEDICAL: Hospital facilities available.
FRESH WATER: Available, delivered from berth.
FUEL: No fuel supplies available. Nearest port for such supplies is Trondheim.
GANGWAY/DECK WATCHMEN: Not compulsory, and this service is left to the discretion of the Master.
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: Ship's Register.
CUSTOMS ALLOWANCES: Each crew member allowed 20 cigarettes on shore. When leaving ship, 200 cigarettes and 1 bottle of wine or 1 bottle of spirit permitted.
IDENTIFICATION CARDS: Not required.
CONSULS: Nearest consul available in Trondheim.
REPAIRS: Only small repairs can be carried out.
DRY DOCKS: None.
AIRPORT: Nearest airport, Vaernes, 62 miles N.E. Served by regular airlines with several flights per day.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: January 1st; Easter Holidays; Ascension Day; Whit Monday; 1st and 17th of May; December 25th and 26th.
POLICE/AMBULANCE/FIRE: All mentioned services obtained through Agent or by contacting local telephone exchange.
TELEPHONES: No facilities for placing telephones on board ships.
SERVICES: Provisions available.
SHORE LEAVE: Permitted.

AGENT: Rederi-A/S Orkla, 7340 Lokken Verk, Norway, tel. (074) 86700 Lokken Verk or Orkanger No. 80400. Telegrams "Transport", Lokken Verk. Telex 55109.

TONSBERG: 59.16 N. 10.25 E.

DOCUMENTS:
Ship's Register.
Crew Lists.
Customs Manifest for each crew member (cigarettes, spirits, etc.).
Store List. Cargo Papers. Health Certificate.

PILOTAGE: Sea pilots obtainable from Ferder pilot station. Pilots normally take vessels to berth; also harbour pilot on the spot.
ANCHORAGES: Good anchorages at Byfjorden and Traela; anchorages for large vessels are found in Narverodbukten and Husoyflaker.
MAX. SIZE: 18 ft. draft for East entrance and 21 ft. draft for West entrance. Up to 30,000 tons in ballast.
RADIO: Cable ETA via Tjome Radio prior arrival.
TUGS: Are available.
BRIDGE: 1 bascule bridge over East entrance. Working days open 0600 to 2200 hrs., holidays 0900 to 1700 hrs. Signal 1 long and 2 short to open bridge. Opening can also be arranged during night time. Horizontal clearance 88 ft., depth 22 ft.
MEDICAL: Medical, dental and hospital facilities available.
DENSITY: Occasionally brackish.
FRESH WATER: Available from hydrants at quays.
FUEL: Delivered by lorry.
GANGWAY/DECK WATCHMEN: Available on request.
CUSTOMS ALLOWANCE: 200 cigarettes or tobacco and 1 bottle spirits, for each man.
CONSULS: Britain, France, Netherlands, Finland, Denmark, Sweden and Spain. All vice-consuls.
REPAIRS: All types of repairs available.
DRY DOCKS: At Kaldnesmek, a shipyard for total length of 515 ft. The shipyard is building ships up to about 50,000 d.w.t.
REPATRIATION: Available by train from Tonsberg, plane and passenger lines from Oslo (about 100 km. from Tonsberg). Fairly good hotel accommodation in Tonsberg.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day; Maundy Thursday; Good Friday; Easter Monday; Labour Day (1st May); 17th May; Ascension Day; Whit Monday, Christmas (25th and 26th December). Mostly no working.
POLICE/AMBULANCE/FIRE: Police 13355; Ambulance 13370; Fire 11656.
TELEPHONE: Lines available on board vessel.
SERVICE: Mostly all services or equipment available from Tonsberg or Oslo. Inform prior arrival.
SHORE LEAVE: Crew members allowed to go ashore.
DELAYS: Ice during January and February, but port kept open by ice breakers.
AUTHORITY: Harbour Master, Tonsberg Havnekontor.

AGENT: Sev. Dahl A/S, Storgt, 15, PO Box 128, 3101 Tonsberg. Ship & Insurance brokers. Lloyd's agent. Chartering, Sale & Purchase of tankers and motorships. Tel. 14027 -14028 -14194. Telex 11557, Backanswer "Sdahl".

TROMSO: 69.39 N. 18.58 E.

DOCUMENTS:
Trade Certificate.
Tonnage Certificate.
Certificate of Nationality.
Number of Crew and Passenger Lists.
Customs and Health Documents.
Manifest and Bills of Lading.

PILOTAGE: Telegraphic address of pilot station is "Tromso Pilot Station". Order latest 12 hours before arrival.
ANCHORAGE: Depth at anchorage is 15-35 m.
RESTRICTIONS: No restrictions on night entry.
RADIO: Tromso Radio VHF Channel 16–26. Harbour Office Channel 16. 20 miles from town.
TUGS: If necessary, join vessel North or South end of harbour.
BERTHING: Ships can berth at quay, depths up to 34 ft., lengths of quay 100–200 m. (New harbour, Breivika), equipped for container handling, truck 20 tons.
BRIDGES: Tromso Bridge, 60 m. wide, 36.5 m. high.
Sandnessundet Bridge, 120 m. wide, 41 m. high, dredged min. depth 10.4 m.
STEVEDORES: Ordered by Agent. No ETA to stevedores necessary.
MEDICAL: Master to advise by Radio prior to arrival if medical attention required aboard. Hospitals in town (University).
TANKERS: There are 4 oil berths:
Norol – 20 ft. depth.
Mobil Oil – 17 ft. depth.
Esso – 31 ft. depth.
Shell – 39 ft. depth.
FRESH WATER: Most berths supplied by pipeline.
FUEL: All grades available.
FIRE PRECAUTIONS: Ordinary restrictions.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Crew allowed to open and close.
CUSTOMS ALLOWANCE: Crew members 200 cigarettes or 20 cigars or 100 grams tobacco, and 1 bottle spirits.
IDENTIFICATION CARDS: Not required. Seaman's book.
CONSULS:

Belgium	81074–82417	Sweden	85090–81336
Denmark	81148–82310	Germany	81088–85665
France	81144–85663	Italy	85040–82604
Great Britain	84050–82395	Netherlands	85040–82604

REPAIRS: All engine and instrument repairs. Shipbuilders' Yard.
DRY DOCKS: 4 slip-ways 80–222 ft. 1 small dock.
AIRPORT: 5 km. from town.
TIME: GMT plus 1 hour.
HOLIDAYS: No work on New Year's Day and Christmas Day.
POLICE/AMBULANCE/FIRE: Police 85080; Ambulance 81100; Fire 81122. Port Pilot Station 81191–82537.
SURVEYORS: Lloyds, N.V.

SHORE LEAVE: Permitted.
REGULATIONS: Harbour Pilot compulsory. Speed in port waters max. 6 knots. Ships size passing Tromso Bridge max. 7,000 tons displacement.
DELAYS: Minor delays only.
SERVICES: Compass adjusting, stores, etc.
AUTHORITY: Port Manager.

TRONDHEIM: 63.25 N. 10.24 E.

DOCUMENTS: See "Bergen".
PILOTAGE: Harbour Pilot: Havne Kontoret, Tel. 28015 or VHF Channel 16.
RESTRICTIONS: The fjord is very deep and easy to enter. The channel is clear and ice-free throughout the year.
MAX. SIZE: Controlled by depth at berth. See below.
HEALTH: Call "Havne Kontoret" by radio for free pratique.
RADIO: Orlandet Radio (also VHF).
TUGS: Arranged by Agent.
BERTHING:

River Harbour	Quays	1–10	Depth alongside up to 26 ft.
Outer Harbour	,,	12–18	,, ,, ,, ,, 18 ,,

SHORE LEAVE: Allowed.
AUTHORITY: Trondheim Havnekontor.
AGENT: Bachke & Company, Dronningensgt. 7, POB 609, 7001 Trondheim, Tel. (075) 20124. After office hours tel. (075) 59657. Telex: 55035. Cables: "Bacos".

VADSO: 70.04 N. 29.45 E. (See Plan)

DOCUMENTS:
- Trade Certificate.
- Tonnage Certificate.
- Certificate of Nationality.
- Number of Crew and Passenger Lists.
- Customs and Health Documents.
- Manifests and Bills of Lading.

PILOTAGE: Vessels approaching from sea and desiring Pilot should order at 24 hours notice and confirm arrival at Pilot Office, Vadso, at 2 hours notice. The advance order can be sent over coastal radio station to Pilot Office, the Harbour Master, Vadso, tel. Vadso 51235 or 51143. Harbour Pilot has to be taken on board in position Lat. 70° 45′ N. Long. 29° 41′ E. VHF Channel 16.
ANCHORAGES: Anchorage for vessels up to 400 tons in basin, with depths varying between 14 and 21 ft. Larger vessels anchor W. of the mole in 16 to 20 m. Outer harbour inside breakwater, inner harbour, further to East. Entrance to inner harbour is by buoyed and lighted channel 1,560 ft. long and 115 ft. wide, this has been extended by the addition of a fishery basin 750 ft. long 800 ft. wide. Outer harbour is 1,000 ft. long, 700 ft. wide, depths 15 to 30 ft.
MAX. SIZE: Max. length of vessel 300 ft. and breadth 45 ft. Draft 16 ft. Ship about 3,000 g.r.t.
HEALTH: Health documents necessary.
RADIO: Call Vardo Coastal Radio Station, through which contact by telephone Agent or Harbour Master or Vadso Harbour on VHF Channel 16.
STEVEDORES: Stevedores arranged. Agent telephone 51395 Vadso.
TANKERS: Only small tankers can discharge. Discharging berth only for 500 g.r.t. tankers, draft 13 ft.
FUEL: Gas and diesel oil. Water available on all quays.
GANGWAY/DECK WATCHMEN: Watchmen necessary. Master can use ship's crew as gangway and deck watchmen. Not necessary to use watchmen from the Watchmen Service.
CUSTOMS ALLOWANCE: Tobacco: Wine/Spirit: For 10 days, each crew 200 cigarettes, or 200 grams tobacco. 0.25 litre spirit, for each crew member.
CONSULS: Finland, tel. 51225 Vadso.
REPAIRS: Only smaller types of deck and engine repairs are possible.
AIRPORT: Vadso Airport 4 km. from port. Widero flights 4 times per day.
TIME: Local time, GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Police 51271 or 51593 Vadso; Ambulance 51845 or 51691 Vadso; Fire 51122 or 51554 Vadso.
AUTHORITY: Vadso Havneseven.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Ocean Island

OCEAN ISLAND: 00.52 S. 169.35 E.

DOCUMENTS:

Clearance from last overseas port.

2 Crew Lists.

4 Passenger Lists.

Bonded Stores List including Narcotics List (in duplicate).

Crew Store List (sometimes called search list or curio list).

4 Manifests.

1 International Health Declaration.

Documents to be completed when ship arrives Ocean Island:

List of unmanifested cargo; Passengers' Baggage Declaration if any, 1 copy per passenger.

PILOTAGE: Pilotage available on request without charge and Masters advised avail themselves this service. Necessary that Masters, through Ocean Island Radio, inform telegraphic address "Phoscom Ocean" of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Phoscom reply through Ocean Island Radio on receipt of second message giving time for vessel to close in to 0.5 miles West of loading plants, where Pilot will board. In case of adverse weather or congestion, Masters notified by radio or by VHF Channel 16, 156.8 Mc/s., with range of about 40 miles. Vessels handled inwards in daylight only, and should fly "G" flag when approaching island. A safe and clean Pilot ladder should be provided, and a good lee made for Pilot to embark.

ANCHORAGES: No anchorages available owing to extreme depths of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.

RESTRICTIONS: Tide and draft have no bearing on entry but normal not to handle vessels into berth in darkness. However, vessels are unmoored at all hours.

MAX. SIZE: Vessels have been handled up to overall length of 575 ft. Beam should not exceed 75 ft., draft limitations 34 ft. 6 in.

HEALTH: Masters of vessels approaching Ocean Island required to send telegram addressed "Quarantine Officer, Ocean Island" within 24 hours of arrival. Telegrams should state name of last port, date, presence of any infectious disease. On receipt quarantine officer will send reply indicating whether or not pratique granted. It is still necessary to fill out International Declaration of Health and hand to Boarding Officer after berthing.

RADIO: Ocean Island Radio station call sign VQK. Daylight range not great but traffic may be passed through C2N Nauru. No radar at Ocean Island. VHF Channel 16, 156.8 Mc/s.

TUGS: No tugs required for berthing.

BERTHING: Such special requirements which relate to berthing are contained in a Letter of Advice to Ship Masters issued by the BPC.

STEVEDORES: As stevedoring is carried out by Phoscom, no separate advice required. Loading rate of bulk phosphate is as high as 1,300 t.p.h.

MEDICAL: Medical treatment can be given on short notice. Limited hospital facilities available, and emergency surgery can be carried out. Smallpox vaccination required, and cholera if vessel from infected area.

TANKERS: Maximum length 600 ft., no draft restrictions. 8 in. discharge line to shore storage tanks.

DENSITY: Normal salt water all states of tides.

FRESH WATER: Island water imported, and water will be supplied only in emergency.

FUEL: Island stocks are imported for use in phosphate industry, and only limited quantities of heavy fuel or diesel oil available in extreme urgency.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES: Deratisation certificate only.

CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes or half lb. tobacco or 50 cigars for use on board; 25 cigarettes or 1 oz. of tobacco may be taken ashore for own personal consumption. Wine/Spirit, 1 bottle only for use on board; no bottles may be taken ashore.

CARGO GEAR: Cargo gear should be up to standard demanded in Australian ports.

IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by crew members.

CONSULS: None.

REPAIRS: Small repairs such as welding, brazing, lathe work, etc., can be carried out, only when essential to allow vessel to proceed on voyage. Main engines cannot be immobilised whilst the vessel moored to any section of buoy system.

DRY DOCKS: None.

REPATRIATION: Repatriation can be arranged. No facilities for crew changes.

AIRPORT: No airport at Ocean Island.

TIME: GMT plus 11.5 hours.

HOLIDAYS: Christmas Day, New Year's Day, and Good Friday normally closed holidays. Other National holidays occur during year but normally work carries on, on these days.

POLICE/AMBULANCE/FIRE: All emergencies handled by Harbour Masters, one of whom remains aboard vessel throughout time vessel attached to mooring system.

TELEPHONES: Telephones are put aboard for use of island staff working vessel.

GENERAL: Shore labour normally boards vessel with Pilot to assist in mooring to buoy system.

SERVICES: No special services available.

SHORE LEAVE: This may be granted at discretion of Master, but should in all cases terminate at 1700 hrs.

REGULATIONS: No vessel may immobilise main engines whilst moored to buoy system. Main engines should be on instant readiness, deck power should be available at all times, and vessel must proceed to sea when instructed to do so by Harbour Master.

DELAYS: Normally no delays expected. Vessels could wait a day, or possibly 2 due to port congestion, but this seldom happens, delays can occur due to adverse weather, duration of which unpredictable.

AUTHORITY: The Harbour Master, appointed by The British Phosphate Commissioners, Ocean Island.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Oman, (Sultanate of)

MINA-AL-FAHAL: 23.39 N. 58.32 E. (See Plan)

DOCUMENTS:

2 copies Medical Attendance Forms required for ship's crews visiting doctor.
1 copy Arrival Report Form (supplied by Berthing Master).
2 copies Maritime Declaration of Health.
3 copies Mail Lists.
4 Crew Lists (if Petroleum Developments (Oman) Ltd. acting as Agents then only 2).
2 Vaccination Lists.

Should anyone be visiting the Doctor then 2 Medical Attendance Forms are requested. All other documents are provided by Berthing Master.

PILOTAGE: The Berthing Master will board incoming tankers in a position with Fahal Island lighthouse bearing 285° from seaward distance 2 miles. Tanker should arrive at this position, make a good port lee, and take way off.

Harbour steaming is deemed to start at this point. The port side derrick should be rigged and crew standing by at the derrick ready to lift the mooring equipment from the launch when the Berthing Master comes on board.

The pilot access should be in good condition, clean and ready on the port side. Tankers of 70,000 tons Summer deadweight and above in ballast or partly loaded condition should have either a pilot hoist or a combination of accommodation ladder and pilot ladder rigged.

ANCHORAGE: If a vessel is required to anchor the information will be passed by VHF. The normal tanker anchorages are:-

A. Fahal Is. Lt. Brg. 015° × 1.0′
B. Fahal Is. Lt. Brg. 045° × 1.3′
C. Fahal Is. Lt. Brg. 075° × 1.0′
D. Fahal Is. Lt. Brg. 115° × 1.0′

The coastal tanker anchorage is:-
Fahal Is. Lt. Brg. 340° × 1.1′

Cargo ship anchorage area:-
A. Fahal Is. Lt. Brg. 340° × 2.0′
B. Fahal Is. Lt. Brg. 345° × 1.6′
C. Fahal Is. Lt. Brg. 000° × 1.7′
D. Fahal Is. Lt. Brg. 015° × 1.8′

Ships proceeding to an anchorage within the Port Area should pass North of Fahal Island and under no circumstances enter the prohibited area unless instructed to or accompanied by a Mina al Fahal Berthing Master.

RESTRICTIONS: Open sea approaches.

MAX. SIZE: No length limitation. Draft up to 96 ft. Tankers up to 550,000 d.w.t. can be accommodated.

HEALTH: When advising ETA, include in message whether any sickness on board.

Port Health Officer boards with Berthing Master, this Officer will carry out any necessary vaccinations. 'Q' flag to be flown until pratique granted.

RADIO: ETA messages should be sent to Petromar Muscat via Muscat Radio (call sign A4M). If no contact can be established with Muscat Radio, the message should be sent through an alternative coast station such as Bahrain Radio.

The message should contain the following information:

(a) ETA in local time and date in plain language to avoid multilation.

(b) Whether there is any sickness on board.

(c) Whether any crew require medical treatment and very briefly the nature of the complaint.

VHF communications should be established as soon as possible calling Fahal Control on Channels 19, 16 or 12. The range is about 80 miles to the Northward but only 20 miles to Eastwards because of screening by mountains. Channels 19 and 16 area basically long range while the working Channel is Channel 12 and is manned 24 hours a day by either Fahal Control or Fahal Pilots. The mooring launches are also equipped with Channels 16 and 12 but mooring operations are carried out using UHF radio sets.

TUGS: None available and not required.

BERTH DESTINATION: 3 single buoy moorings with floating hose strings.

SBM No. I: Crude export and marine fuel oil import and export. This buoy is served by 2 × 30 in. submarine crude lines and 2 × 10 in. submarine fuel lines each 10,300 ft. long.

The floating crude hoses are 2 × 810 ft. long × 20 in. reduced to 16 in. for manifold connection. Same hoses are used for Fuel Oil imports these lines having a displacement connection ashore for emptying the crude content. Bunkering is by a single 12 in. hose 820 ft. long.

This buoy is capable of handling any vessel up to 230,000 d.w.t. tonnes.

SBM No II: For crude and bunker export and is served by 1 × 40 in. submarine crude line and 2 × 10 in. submarine fuel oil lines each 13,980 ft. long. The floating crude hoses are approx. 2 × 1,100 ft. long x 20 in. reduced to 16 in. at manifold connection. Bunkering is by a single 12 in. floating hose. Maximum size ship 550,000 d.w.t. tonnes and max draft of 96 ft.

SBM No. III: Fuel export only served by two 10 in. submarine hoses each 8,003 ft. long. The floating hose is one 8 in. line approx. 700 ft. long. Max. size of ship is 80,000 tonnes loaded or 120,000 tonnes in ballast and max. draft 46 ft.

Loading crude is by gravity and rates vary. If loading from upper tank farm 9,000 t.p.h. but only 5,500 t.p.h. if loading from lower tank farm.

Bunker rate is approx. 450 t.p.h. bunker discharge at SBM-I maximum 3,000 t.p.h. maximum back pressure 150 p.s.i.

BERTHING: Vessels berth head to buoy and are provided with 2 x 4.5 in. mooring snotters picked up from the mooring launch when the pilot boards. Vessels over 230,000 d.w.t. tonnes are provided with two 15 in. × 80 ft. nylon braidline snotters. Connection at SBM-I and III is to two 12 in. plaited nylon lines 150 ft. long; at SBM-II to two 15 in. plaited nylon lines 150 ft. long. A suitable messenger rope should be provided by ship. An Assistant Berthing/Loading Master will advise in all mooring and hose connection operations which are carried out by ships staff.

HOSE CONNECTIONS: Ships port side Derrick must plumb over relevant manifold. This derrick should be ready on arrival at the pilot boarding area to pick up the mooring gear and reducers (if necessary) safety chains etc. for hose connection. Derrick to be in good condition and be rigged for a SWL of a minimum of 10 tons for SBM-I and II and 5 tons for SBM-III.

BALLAST: No facilities for reception of dirty ballast.

Tankers should arrive with clean ballast, lines and pumps and no oil should be released into the sea.

MEDICAL: Medical treatment can be given by Petroleum Development (Oman) Ltd.'s medical staff to crews of ships on Time Charter to Shell International Marine on ships using P.D. (O) Ltd.'s tanker agency facilities. A charge of R.S. 25 is made per round trip for launch hire and transport facilities. Dental treatment available but at least 24 hours notice required.

REPAIRS: It is not permitted to immobilise main engines whilst moored to the SBM's; under no circumstances should the propeller be turned in the ahead direction.

DENSITY: Approximately 1026.

FRESH WATER: Not available.

FUEL: Fuel oil only available. Lubricants, quantity limited, supplied in drums only.

REPATRIATION: Crew changes are possible at Mina-al-Fahal provided the Agent receives 72 hours notice (excluding Fridays and Holidays), (24 hours notice if using Petroleum Development as Agent) giving full particulars of embarking/disembarking crew, such as full name, nationality, place and date of berth, passport/seaman's book number with date and place of issue and expiry date, and also destination for repatriation of disembarking crew members, to enable Agents to obtain necessary permits and arrange air passages.

N.B. If the information required as above is received on a Thursday or a day preceding a holiday, the time mentioned of 72 hours will not be sufficient as no permits can be obtained from the Authorities during holidays.

Note: No crew changes possible at this time (November 1976) as a Government Decree has been issued cancelling crew changes until the present hi-jacking security procedures have been relaxed.

TIME: GMT plus 4 hours all year round.

SHORE LEAVE: Not possible.

GENERAL: *Liquor.* Trading in liquor strictly prohibited and no alcoholic drink should be offered to Arab nationals.

AUTHORITY: Petroleum Development (Oman) Limited.

AGENT: See "Mina Qaboos" (Mutrah).

Petroleum Development (Oman) Ltd. can also act as Agent. Petromar Muscat are on VHF Channel 12.

MINA QABOOS (Mutrah): 23.37 N. 58.34 E. (See Plan)

Muscat has ceased to be a commercial port and instead vessels now call at Port Qaboos.

PORT LIMITS: From the level of high water springs at a point near Ras Kab at Long. 58° 33.2′ East on a line due North to Lat. 23° 41′ North;

Thence due East to Long. 58° 35.6′ East;

Thence due South to Ras Muscat on Jazirat Muscat;

Thence in a generally Southerly direction by the line of high water on the Western side of Jazirat Muscat to Pinnacle Rock;

Thence in a straight line approximately S.W'ly to the Easternmost point of Sirazal Gharbiya;

Thence by the line of high water springs to the point of commencement.

DOCUMENTS:

Required on Arrival:
4 Copies Crew List.
1 Copy Maritime Health Declaration form with ports of call from commencement of voyage.
2 Copies Vaccination List.
6 Copies Passenger List.
3 Copies in transit Passenger List.
3 Copies Hatch List.
5 Hazardous Cargo Lists.
3 Heavy Lift Lists.

To be airmailed in advance:
5 Copies Cargo Stowage Plans.
9 Copies Cargo Manifest.
1 Copy Freight Manifest.

On arrival in the Port, ships' Captains will be required to produce to the Customs Boarding Officer the following documents:

A copy of the Cargo Manifest.

A declaration made by members of the crew stating the dutiable goods in their possession.

A list, signed by the Captain, of the dutiable ship's stores on board.

PILOTAGE: Available from 0700 to 1800 hrs. at present and pilotage is compulsory to all vessels of 150 NRT or over.
MAX. DRAFT: 29 ft. at LW. Also see "Berthing".
TUGS: Three twin screw tugs of average 1,500 h.p.
APPROACH: Mina Qaboos has a very open approach with a deep water anchorage. The hilly coast is radar conspicuous. Lights on Fah Is., Jazirat Muscat and the Breakwater make night navigation fairly simple. There is no appreciable current once inside the bay. Vessels should anchor Westward of line 060° (T) from the breakwater light.
RADIO: Port control can be contacted on VHF Channel 16 or Channel 14 or on R/T via Muscat Radio. Hours of operation 0700 – 1800 hrs. except Friday when hours of operation depends on actual movement in the Port.
BERTHING: There are nine deep berths and two shallow draft berths. Depths at various berths are as follows: 34 ft. at Berth Nos. 1 & 2; 30 ft. at Berth Nos. 3, 4, 5, 6, 7 & 8 and 22 ft. at Berth 11, Berths Nos. 9 & 10 can take up to 14 ft., length of vessel for inner basin not exceeding 500 ft. and for outer basin not exceeding 600 ft. Vessels of up to 650 ft. may be accommodated at the outer basin berths (except No. 3 where length permissible is 500 ft.) by special arangement with the Harbour Master.

The Berths are supported by 9 modern transit sheds, which face on broad uncluttered aprons. Berths No. 3 & 6 which are reserved for rapid discharge of cargoes, front directly onto the open storage yards. Also Berth No. 3 connected with special underground conveyors is for bulk cement Silo Station through which we receive approximately 50,000 tons of Bulk cement.

Construction of New Grain Silos also having underground connection to ships also having storage capacity of 30,000 tons completed 1976.

CRANES: 13 Mobile Cranes 3 tons – 25 tons, 1 Mobile Crane 150 tons, 81 Fork Lift Trucks 4,000 lbs. – 16,000 lbs. Trailers and Tractors are also available.
STEVEDORES: The labour position is fair, except in the date-picking season June to August.

Total of 9 barges are available for landing cargo ex vessels. Landing rates: bagged cargo 4/600 tons per day; general 200 tons per day; timber 100/150 tons per day during fair weather provided no congestion on jetty and if cargo stowed in more than 3 hatches.

Working Hours:

Saturdays/Wednesdays	Day Shift	0700 — 1300	
		1300 — 1500	Lunch Break
		1500 — 1700	
		1700 — 1900	On overtime
	Night shift	2000 — 2300	
		2300 — 2400	Tea break
		2400 — 0600	
Thursdays	Day Shift	0700 — 1400	
	Night shift	2000 — 2300	
		2300 — 2400	Tea break
		2400 — 0600	
Fridays	No Day Shift		
	Night shift	2000 — 2300	
		2300 — 2400	Tea break
		2400 — 0600	

FRESH WATER: No water is available at any berth. There is a general shortage of water in the area. A very small amount of water may be made available by water trucks, by arrangement with the Agents.
FUEL: Heavy fuel is not available at this Port. Diesel oil is available at berths 6, 7, 8, 9, 10 & 11 from Shell Market etc. On other berths diesel may be supplied by road tankers either by Shell or B.P. The Port has no bunkering berth to cater for ships calling for bunkers only.
GANGWAY/DECK WATCHMEN: A Customs watchman will be present on board throughout the stay of the vessel in port, and the vessel must provide him with food and accommodation during the stay. The same is applicable in the case of tally staff.
REPATRIATION: Is now possible if Masters give full particulars of the seamen to be repatriated by telegram at least 72 hours earlier. This also applies to embarking crew members. The 72 hours notice is not enough in the case of a Friday, or any other holiday which falls in between.
CUSTOMS ALLOWANCES: Vessels will no longer be permitted to have free use of their stores (Tobacco goods, Alcohol, etc.) whilst in the confines of the Port.

On arrival in Port, an allowance will be given by the Customs Boarding Officer and the surplus stores will then be placed under Customs Seal.

The allowance will be:
200 cigarettes or 50 cigars or 250 gms. tobacco.
One bottle (1 litre) alcoholic spirit.
One bottle (1 litre) wine.
24 cans beer.
Various used personal effects such as radios, cameras, etc.

Should a vessel remain in Port for more than 4 days, an issue of stores will be given upon request being made to the Customs Authorities.

These Regulations also apply to ships at the Anchorage.

GENERAL:

Ships arriving at Mina Qaboos:

Ships may approach Mina Qaboos without a Pilot as far as the perimeter of the limits of the port. No ship shall proceed through the entrance to or from the port without the permission of the General Manager or the Harbour Master.

All ships, other than expected ships, shall be under the pilotage of a Pilot appointed by the Port Authority when under way within the limits of the port. The ship shall have rigged and ready for use a Pilot ladder of modern pattern, in good repair and provided with reliable manropes. Such Pilot ladder shall be well illuminated between dusk and daybreak. The ship shall have a boat-rope ready rigged from the break of the forecastle to abaft the Pilot ladder.

No ship shall enter or leave Mina Qaboos unless her draft marks are correctly shown and clearly visible.

Every ship shall at all times when entering, navigating in or leaving the port have both anchors ready for immediate use.

Ships proceeding to berth at the port premises shall have no list and shall be trimmed upright.

Before entering Mina Qaboos every ship shall hoist the following flags: The ship's signal letters. The "Q" flag, International Code, unless the Port Health Officer has previously given pratique. The "H" flag, International Code, denoting that a Pilot is onboard. The "I" flag, International Code, if the ship is carrying passengers.

Until pratique has been granted communication between ship and shore shall be made by: Flag hoist, using the International Code of signals, Morse Code, by signal light, or radio-telephone on approved frequencies, which will be promulgated for use for such purpose.

Conduct: The Master or Owner of every ship shall be held directly responsible for the proper conduct and behaviour of the crew of such ship while in the port and for strict observance of the laws of the Sultanate of Oman, particularly those laws concerning the sale, transference or consumption of any narcotic or alcoholic or intoxicating drink of any kind.

Flags: Every merchant ship within Mina Qaboos between the hours of sunrise and sunset shall fly her national flag and the national flag of the Sultanate of Oman.

Repairs: The Master of any ship wishing to carry out major engine repairs or adjustments, which will affect the mobility of the ship whilst in the port shall make written application to the Harbour Master so to do. The Harbour Master shall give his permission or otherwise in writing.

Safety of ships and persons: The Master of every ship anchored or moored in the port or berthed at the port premises shall, unless the Harbour Master concede some relaxation in this port rule, at all times retain on board sufficient crew to work or move the ship.

Ships berthing and unberthing at the port premises: No person shall swim from any ship berthed at the port premises.

No person shall make fast or anchor any country craft or boat of any kind at any quay, wharf, pier or landing place or at any steps provided thereat in the port premises except with the prior permission of the Harbour Master.

Pollution: It shall be unlawful to throw, discharge or deposit, or cause, suffer, or procure to be thrown, discharged or deposited, either from or out of any ship, barge or other floating craft of any kind, or from the shore, wharf, manufacturing establishment or mill of any kind, any refuse matter or other substance of any kind or description whatever into the waters of the harbour; and it shall be unlawful to deposit, or cause, suffer or procure to be deposited, material or any kind in any place, or on the bank of any water, where the same shall be liable to be washed into such water, either ordinary or high tides, or by storms or floods or otherwise, whereby navigation within the corporate limits of the harbour shall or may be impeded or obstructed, provided that nothing herein contained shall extend to, or apply to, or prohibit operations in connection with the improvement of the port of Qaboos or the construction of public works considered necessary and proper by the Port Authority and provided further than nothing herein contained shall extend to, apply to, or prohibit the depositing of any material above mentioned in such navigable waters within such limits as may be defined, and under such conditions as may be prescribed by the proper officer of the Sultanate of Oman.

It shall be unlawful for any person, or corporation to deposit, place, or discharge into the waterways of Port Qaboos, either directly or through private or public sewers, any sanitary sewage, butcher's offal, garbage, dead animals, gaseous liquid or solid matter, oil, gasoline, residium of gas, calcium chloride, trade waste, tar or refuse or any other matter, which is capable of producing floating matter or scum on the surface of the water, sediment in the bottom of the waterways, or the odours and gases of putrefaction.

Vessels discharging ballast, oil from bilges or tanks or solid matter into the waters of Port Qaboos will be reported to the pollution control officer and be subject to a fine of R.O. 500.00 for each offence, imposed by and payable to Port Qaboos. Such fine shall be in addition to any other fines, which may be levied for the same offence by the Sultanate of Oman.

Ships Leaving Mina Qaboos: Port Rules applying to ships arriving at Mina Qaboos apply equally, in so far as they are relevant, to ships leaving the port.

Merchant ships shall fly the "P" flag International Code, for 24 hours before sailing from the port.

The Port Authority may refuse to give the Master of any ship outward clearance, unless and until all charges due in respect of the ship and any penalties, to which the ship or her Master are due, have been paid or secured to the satisfaction of the Port Authority.

The Working of Cargo at Mina Qaboos: Ships may be permitted to discharge or load cargo in the anchorage if a berth is not available at the port premises or if in the opinion of the Port Authority the ship's cargo is more suitable for handling to or from barges or lighters.

The Master or Owner of any ship shall be held responsible for any loss or damage arising from careless or improper slinging of cargo onboard such ship.

Any cargo, cargo-handling equipment or ship's gear, which may be dropped overboard shall at once be reported by the Master or appointed officer to the Port Authority and shall be immediately recovered by the ship's personnel if it is reasonably possible so to do. Failing this, it may be recovered by the Port Authority at the ship's expense. The Port Authority shall not be responsible for any damage to or loss of cargo, equipment or gear so recovered.

The Master of every ship discharging or loading cargo in the port, whether at anchor or berthed alongside shall provide drinking water for all cargo handling labour and all other persons appointed and directed to be on board such ship in connection with the discharge or loading of cargo.

If the labour or transport allocated or engaged for the purpose of landing, loading or transshipping cargo from or to any ship is not fully continuously employed by reason of a fault or action attributable to such ship, the expenses incurred thereby shall be paid by such ship.

In the event of any accumulation of cargo or goods upon the quay or jetty or in a lighter for any cause that may appear reasonable to them, the Port Authority may require the ship discharging such cargo or goods to suspend or reduce the rate of discharge of such cargo or goods.

The Port Authority may refuse to permit cargo to be landed from any ship until suitable shed or open storage space or other accommodation is or becomes available for such cargo.

Delivery of cargo or goods shall not be deemed to have been made to the Port Authority until such cargo or goods have been brought into the port premises and until the Port Authority accepted delivery of such cargo or goods and have issued an official receipt therefor to the Master of the ship discharging such cargo or goods or to the ship's Agent or to any other person duly authorised so to do, conveying such cargo or goods to the port premises.

AUTHORITY: Oman Port Services.

AGENT: Gulf Agency Co. (Oman) W.L.L., CPO Box 3740, Ruwi, Sultanate of Oman. Tel. 701165. Telex 3284 ("Gacship MB.3284"). Cables "Confidence", Muscat. VHF Channel 16. Call sign "Confidence Muscat".

MINA RAYSUT (Salallah): 16.56 N. 54.01 E.

PORT LIMITS: The water limits of the port are bounded by the parallels of 16° 55′ 30″ N. and 16° 56′ 50″ N., and by the meridian 54° 01′ 30″ E. to the Eastward. To the West the limit follows the coastline from its Northern interception with the headland of Ras Raysut.

The land limit to the Port Area follows the line of the outer security fence across the neck of the Ras Raysut headland.

DOCUMENTS: See "Mina Qaboos".

PILOTAGE: Compulsory, except for vessels less than 100 n.r.t., Harbour Authority craft and vessels of the Oman Navy.

ANCHORAGE: See "General".

RADIO: Masters of all vessels having business within the port shall whenever possible give to the Harbour Master 24 hours' notice of the intended time of arrival.

Notice can be given either by cable via the Cable and Wireless Signal Station at Muscat, or by direct radio-telephone call to Raysut Harbour Control. Listening watch is kept on 2182 kc/s. during working hours.

VHF Channel 16 monitored for ship movements and controls available on request – Channels 12, 10 and 6.

Radio frequency 2182 kc/s. – may or may not be in operation depending on radio conditions of the area.

BERTHING: Incoming vessels are assigned berths on a turn basis subject to operational requirements and the Harbour Master's discretion.

The berth is 350 ft. in length and depth alongside 15 ft. (19 ft. at HW). Berthing is determined by vessel size rather than tonnage. Vessels up to 18 ft. draft and a length of 300 ft. will be berthed during High Tide condition. The bottom alongside the berth is sand.

Large vessels discharge into barges.

BARGES: 4×350 ton barges are used by ocean-going vessels in deep water anchorages. Vessels arriving under liner terms receive free barge facility. Vessels arriving under charter terms are negotiated as to charges for barge facility.

STEVEDORES: Normal working hours from Saturday to Wednesday: 0700 hrs. to 1500 hrs., Thursday from 0700 hrs. to 1300 hrs. with no lunch break.

Working hours are subject to change during the month of Ramadan.

Overtime would be charged for hours worked outside the normal working hours. Overtime will be worked at the request of the Agent, and will be worked on Fridays at special request.

FRESH WATER: Not available except on special arrangements through the Agents, to be brought by tankers from Salalah.

REGULATIONS: No vessel shall enter the Port Area unless authorised by the Harbour Master. The Harbour Master may, at his discretion, refuse to allow vessels, with the exception of vessels in distress, to enter the Port, and may order from the Port any vessel with the exception of vessels unfit for sea, which does not have business within the Port, or is in breach of these Regulations.

No vessel shall anchor, or weigh anchor or move within the Port Area except when and where required by the Harbour Master.

No water ballast which is not free from oil or other harmful contaminants, shall be discharged into the waters of the Port Area. In case of the pumping of bilges or pollution by oil or harmful contaminants, into the waters of the Port Area, the vessel will be responsible for any fines imposed by the Harbour Authority and any compensation or other damages.

Should fire break out aboard any vessel the Master should make an immediate signal either by a continuous sounding of long or short blasts on the ship's whistle or siren, or by ringing of a fire bell.

In cases of adverse weather it is the sole responsibility of the Harbour Master to decide whether the sea conditions are suitable for handling cargo with barges in the Anchorage, or whether the day will be declared a "weather non-working day".

Masters shall be responsible for the adequate provision of safety equipment and lights on board whilst cargo is being handled.

Conveyance of alcoholic liquor, other than manifested cargo under Customs supervision, from any vessel to the shore or from one vessel to another is prohibited.

No unauthorised person may enter the Port Area. Visitors to vessels are prohibited except by permission of the Harbour Master.

Ship's personnel and passengers are not permitted ashore except by permission of the Immigration Authorities and the Harbour Master.

FLAGS: Every merchant vessel in port shall fly her national flag, and the national flag of Sultanate of Oman, between sunrise and sunset.

DEVELOPMENTS: Construction programme is presently under way to enlarge the existing facilities to incorporate 4 deep-water berths, max. draft 30 ft., plus all-year round safe discharging conditions for all vessels. The expansion programme is expected to be completed within four years.

Airport under construction at Salalah.

GENERAL: Anchorage positions at the present time will be given to all vessels upon reporting by VHF radio. Anchorage positions are set with 1.5 miles between each ship in a minimum of 10 m. of water. Ships are moved in accordance with their draft.

The Harbour operates on a year round basis, and does not close during monsoon season, except for vessels requiring barge operations at anchorage. For the past two years they have quite successfully operated within the harbour. However, all coasters desiring to use the berths during monsoon, i.e. mid-June to mid-September, must come prepared with adequate lines to facilitate proper securing alongside from hurricane tide. The Port is closed to anchorage vessels from 1st June to mid-September, depending on the sea conditions during monsoon season.

AUTHORITY: Port Raysut.

AGENT: See "Mina Qaboos".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Pakistan

KARACHI: 24.49 N. 66.59 E.

DOCUMENTS: *Required before vessel's arrival:*

2 copies Freight Manifest.
2 sets Bills of Lading.
3 copies Stowage Plan.
2 copies Passenger Manifest.
3 copies Cargo Manifest.
3 copies Hatch Lists.
1 copy Exception Lists.
6 copies Passenger Lists.

With vessel:

2 copies Cargo Manifest.
Last Port Clearance Certificate.
6 copies each Passenger List, disembarking and transit.
2 copies List of favour parcels.

The following special Pakistan forms are brought on board by Agent for completion on arrival:

2 Customs Arrival Reports.
2 Opium and Dangerous Cargo Certificates.
2 Ship's Currency Lists.
6 Deck Cargo Certificates.
1 Company's Arrival Report.
1 Ship's Crew Advance (if required).
1 Expiry date of Ship's Certificate.
1 Same Bottom or Intransit Cargo.
1 Water Indent.
*10 Crew Lists.
3 Stores Lists.
3 Property Lists.
7 Cargo Gear Information Forms.

*If this is ready prior to arrival, please attach to this form.

Metric weights and measures to be used on Particulars of Cargo, Tonnage Certificates, Stevedoring Bills, Manifests and Bills of Lading.

PILOTAGE: Pilotage is compulsory for ship of 200 n.r.t. and upwards. Pilot boards at the Outer Anchorage.

Vessels are piloted day and night, subject to tides, length and draft, to berths lying on the East and West of the fairway, which is 4.27 miles long. Pilotage distance is about 5 to 6 miles.

ANCHORAGE: Outer Anchorage where ships await berth safe except during the S.W. monsoon from mid-May to September. During monsoon no anchorage is recommended. Vessels should anchor a safe distance outside the breakwater within Lighthouse bearings 045 and 025. Depth of water at the anchorage is about 9 fathoms.

RESTRICTIONS: Datum depth is 27 ft. Vessels with a draft in excess of 32 ft. are not permitted to enter Karachi due to varying depths at berths, and silting in the ship channel.

Berthing at any time, except vessels with bridge aft which permitted daylight only.

Sailings permitted during flood tide only. Tankers with LOA over 525 ft. Permitted to sail on flood tide during daylight hours only. Vessels with bridge aft permitted to sail on flood tide during daylight hours only.

MAX. SIZE:

	Length	*Draft*
Bulk carriers and general cargo (dry cargo)	945 ft.	32 ft.
Bulk oil tankers, white oil product	550 ft.	32 ft.
Bulk oil tankers, black oils.	650 ft.	32 ft.

HEALTH: The Port Health Authorities give automatic clearance on receipt of a "clean" standard quarantine message and this will be conveyed by the Pilot. However, ships from Yellow Fever areas must be cleared during daylight hours by the Port Health Officer on arrival alongside. On sailing to ports outside India and Pakistan, a medical inspection takes place on the day before sailing. It is, in theory, necessary for a member of the crew to be present at this inspection, although usually the inspection is only a formality. All vessels required obtain Immigration Clearance on arrival.

All vessels which have touched any port or ports between Port Sudan and Durban, on the East Coast of Africa, including these ports, are considered "suspected" vessels on account of Yellow Fever and Jigger and may not have communication with the shore till cleared at berth by the Port Health Officer, who attends only between sunrise and sunset, except in special circumstances. The incubation period for Yellow Fever under the rules is given as 9 days, but vessels arriving later than 9 days are still not free from quarantine because there is no incubation period for Jigger.

RADIO: Port Authorities equipped with VHF radio-telephone, calling Channel 16, working Channel 12. Control Station call sign "Manora Pilot Control".

Vessels should establish radio contact with control station as soon as they are within VHF range.

Use of Channel 12 is restricted to the following: Ships while entering harbour are to maintain watch on Channel 12 as soon as Pilot boards. Ships in harbour scheduled to sail are to keep a listening watch half an hour before sailing till their clearance from the port.

"Intercommunication with the ships, other than Pilot Control, at outer anchorage or ships in harbour on Channel No. 12 and 16 is strictly prohibited. The Manora Pilot Control Station is equipped with multi-channel VHF Radio Telephone sets which are operating on International Maritime Channels 8, 9, 11, 12 and 16 subject to above restrictions."

TUGS: There are five diesel tugs all owned by Port Trust. Four tugs have bollard pull varying from 10 to 18 tons and one tug has 27 tons bollard pull.

Towage inside the harbour is rendered by Port Trust on signal from Pilot. Towage is not provided outside the breakwater except in very special circumstances at the discretion of the Deputy Conservator, subject to weather permitting and availability of tugs on special terms and conditions.

BERTHING: There are 17 berths at East Wharves, total quayage 8,622 ft. Berth Nos. 1 to 17 are on a concrete quay wall of the latest type. All berths are rail-served. Berth lengths vary from 470 ft. to 550 ft. Available depths vary from 26 ft. to 31 ft. There are 8 berths at West Wharf and their length varies from 550 ft. to 700 ft. Depths available vary from 29 ft. to 31 ft.

There are three Bulk Oil Piers having length of 425 ft., 644 ft. and 750 ft. which can accommodate tankers of overall length between 525 ft. and 650 ft.

Moorings: Three moorings of 700 ft. each and one Lash Mooring of 1,000 ft. have been laid and are commissioned for accommodating the vessels of sizes between 600 ft. and 850 ft. respectively.

STEVEDORES: Working Hours: Monday through Thursday and Saturday, day shift: 0730–1130 and 1230–1630 hrs. On Fridays day shift: 0730–1230 and 1400–1630 hrs. Mondays through Saturday, night shift: 1900–2300 and 2300 to 0330 hrs. next day.

Overtime periods: 0330–0630, 1130–1230, 1630–1830 hrs.

TANKERS: Mineral oils discharged at the Bulk Oil Pier, 3 berths, and at West Wharf berth 20. Heavy grades may be discharged at the steamer wharves but dangerous petroleum only at the Oil Pier.

Vegetable oils are handled at both the terminals mentioned above, and at East Wharf berth 9.

Slop reception facilities: Not available.

Also see "Berthing".

FRESH WATER: Fresh water is available at East and West Wharves and at Oil Piers. The ships at Moorings are supplied fresh water by barges.

FUEL: In addition to coal, 3 grades of petroleum are available – furnace oil, light diesel oil and high speed diesel oil. Furnace oil can be supplied by pipe-line at all berths. Light diesel only at berths 1 to 4. At other berths supply is made by tank wagons and lorries. Large quantities can be supplied by pipe-line at the Bulk Oil Pier only.

REPAIRS: Repairs can be carried out at the anchorage except in the monsoon season. 2 ship repair jetties are available in the port. In addition, Karachi Shipyard and Engineering Works Ltd. provide all kinds of repair and ship-building facilities.

DEVELOPMENTS:

i One Oil Terminal for 75,000 d.w.t. tankers is under construction.
ii New Railway Yard for serving West Wharf berths is under construction.
iii A new road bridge serving 17 East Wharves Berths is under construction in replacement of the existing century-old Napier Mole Bridge connecting Keamari with the City.
iv New high throughput storage facilities have been added to the Port in 1976 comprising of 16,000 tons Transit Sheds at Berth No. 23, and 8,000 tons Transit Sheds at Berth No. 3.

HOLIDAYS: Eid-ul-Azha; Muharram; Defence of Pakistan Day (23rd March); Eid e Miland un Nabi; Independence Day (14th August) Defence of Pakistan Day (6th September); Jamat-ul-Wida; Eid-ul-Fitr; Anniversary of Death of Quaid-e-Azam; Christmas Day (25th December).

TIME: GMT plus 5 hours all year round.

AIRPORT: Karachi Airport, 7 miles from city. International connections to all parts of the world.

SHORE LEAVE: Shore passes are granted by Immigration Authorities when they first go on board and must be returned on departure of the vessel. These passes permit entry/exit to the docks until 11 p.m. This latter regulation is not strictly enforced.

Indian crew are not allowed ashore except in emergency. An Immigration policeman will remain on board in port where Indian crew are carried. This policeman will ask for some sort of accommodation. This need only be given if it does not cause inconvenience to the ship.

GENERAL: The Karachi Port Authorities advise that in order to avoid delays to ships requiring abreast berths for working cargo, it has been decided not to berth more than 1 vessel for receiving supplies of fresh water and bunkers. Ships due to call at Karachi are therefore *recommended to arrive with sufficient fresh water and bunkers to last for two or three weeks from the date of arrival at the outer anchorage.*

AUTHORITY: Karachi Port Trust.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Panama

ALMIRANTE (Chiriqui): 09.17 N. 82.23 W.

DOCUMENTS:
Clearance from Last Port.
Health Declaration.
1 Vaccination List.
10 Crew Lists.
6 Passengers Lists (or negative).
6 Ship's Provisions Lists.
6 Cargo Manifests (or Manifest of Ballast).
(Crew Personal Effects declaration is not required.)

PILOTAGE: Pilots are stationed at Boca del Toro town. There are three Pilots, working on daylight only. Pilotage service is compulsory, and arranged by the Agent. Three long blasts to call the Pilot on arrival. Pilot ladder on port side. The small pilot launch meets vessels off Cape Toro. This launch is white wooden hull, with a "P" on her bows. Speed limitations from Cape Toro to Mangrove Pt. due to depth. Pilot will remain on board until vessel leaves.

ANCHORAGE: It is recommended with Cape Toro bearing from 150 to 180 degrees and eight cables off.

RESTRICTIONS: Draft up to 22 ft. Minimum depths between buoys "A" and "B", 28 to 29 ft. Normal head swell about 5 ft.

Shipmaster's Report: The water depths on passing Bocas del Toro are greater than 30 ft., as long as you follow the charted course lines.

Proceeding at a reduced speed consisting of "dead slow" and "stop", with enough manoeuvrability, to minimise the vessel's pitching, you can enter or leave the Bocas del Toro with a draft of 26 ft. without any difficulties.

On entering and leaving, I was forced by cargo circumstances to berth with a 26 ft. deepest draft, and never had less than 10 ft. below my vessel's keel (deepest section), in low water.

HEALTH: Pratique given by doctor who boards on arrival, in case suspected disease on board, radio Agent in advance, advising details.

RADIO: Cables to and from Agent, via stations operated by Tropical Radio Telegraph Co., preferably Ojus Radio/WAX or WNU. VHF — not available.

TUGS: Not available.

BERTHING: One bananá pier, 650 ft. with four elevators. One general cargo pier, 350 ft. Starboard side alongside. Maximum draft alongside these piers 32 ft. but draft limited to 26 ft. at the entrance (Boco del Toro).

STEVEDORES: Agent has responsibility of making all arrangements for loading and unloading, stevedores working around the clock.

FRESH WATER: Fresh water is limited. It is restricted from December to April. Loading rate from the quay 2 t.p.h.

FUEL: Not available.

REPAIRS: No repairs can be carried out.

FRESH PROVISIONS: It is almost impossible to get them.

TIME: GMT minus 5 hours.

CONSULS: The following countries are represented: Costa Rica, El Salvador, Honduras and Nicaragua.

MEDICAL: All facilities available.

CUSTOMS ALLOWANCES: No restrictions as long as nothing is removed from the vessel.

TELEPHONES: Not available.

OPENING/CLOSING HATCHES: Performed by ship's crew or stevedores if required.

GANGWAY/DECK WATCHMEN: Available from shore if required.

DENSITY: Above 1005.

SHORE LEAVE: Allowed, no restrictions.

POLICE/AMBULANCE/FIRE: Telephone on the quay, connected to the exchange.

REPATRIATION: Can be arranged without difficulty.

AIRPORT: Domestic flights airport about 20 km. distance.

AUTHORITY: Capitania del Puerto.

BALBOA: Canal Zone, 08.58 N. 79.34 W. (See Plan)

(N.B. For items not listed below, see "Panama Canal".)

RESTRICTIONS: Port open throughout 24 hours.

MAX. SIZE: Harbour limitations generally unrestricted as to length and beam. Depth about 40 ft. low water. Vessels in excess of 38 ft. 6 in. draft not handled during period 2.5 hours before and 2 hours after low water.

Tankers working cargo restricted to 700 ft. length and 36 ft. salt water draft.

TUGS: Available and assigned for berthing by Pilot. Tug's lines used at no extra charge.

BERTHING: No specific requirements as to arrival times. Nine berths available.

(Pleasure yachts under 65 ft. length, may be permitted to dock at Panama Canal Yacht Club or Balboa Yacht Club after clearance by boarding officer and after Master has received permission from Port Captain, Customs authorities and Yacht Club Officials concerned. Chief Customs Inspector shall have authority to grant or deny such permission at his discretion.)

Rodman Naval Station: Piers can accommodate vessels of 700 ft. length and up to 39 ft. draft for oil discharge, bunkers or stores.

Panama Canal Co. Dock

Dock	Usable length	Maximum S.W. draft
4	492 ft.	30 ft.
6	742 ft.	36 ft.
7	1,058 ft.	34 ft.
8	470 ft.	26 ft.
14	775 ft.	36 ft.
15	1,146 ft.	40 ft.
16	742 ft.	38 ft.
18 –A	500 ft.	39 ft.
18 –B	500 ft.	35 ft.
18 –C, D	1,000 ft.	40 ft.

STEVEDORES: Endeavour arrange arrival to avoid cost of "stand by" as Agent arranges gangs for 0700 hrs. or 1700 hrs. commencement.

TANKERS: One berth for vessels up to 40 ft. draft.

FRESH WATER: Available.

FUEL: Bunker "C", diesel, light fuel and light diesel available at Government wharves from commercial companies. Rate of delivery 2,000 bbls. per hour.

Vessel's personnel are to connect and disconnect all fuel lines aboard the vessel. The vessel is also to supply necessary fittings to match U.S. standard 4 in. and 6 in. 150-pound flanges.

REPAIRS: Emergency repairs possible.

DRY DOCK: Length 1044 ft., generally reserved for Canal Company vessels, but arrangements may be made for emergency dry-docking.

POLICE/AMBULANCE/FIRE: Emergency tel. 110; routine Police business 2-1277.

TELEPHONES: May be placed aboard through arrangement with Port Captain.

SHORE LEAVE: Generally permitted.

CUSTOMS: Customs and Immigration Inspection Service available Monday to Saturday from 0700 to 1700 hrs. Charges for such service after hours and on Sundays and holidays set forth in Panama Canal Tariff. Number of inspectors required will be determined by Chief Customs and Immigration Inspector of port.

DELAYS: Delays in berthing, load or discharge or bunkering are minimal and infrequent. Eight hours is considered excessive.

AUTHORITY: Panama Canal Company.

AGENT: C. Fernie & Co., Inc. PO Box 212. Cable Address: "Fernie-Balboa". Also VHF. Telephone Nos.: Balboa 5657-5371. After office hours telephone numbers: Panama 21-2629, Panama 22-1037.

All correspondence should be addressed to Cristobal, Canal Zone.

COLON: 09.21 N. 79.54 E.

DOCUMENTS, and all general information, refer to "Panama Canal".

MAX. SIZE: Colon Harbour restricted to vessels with draft of 31 ft. or less. Draft 30 ft. if vessel's LOA exceeds 650 ft.

FUEL: Delivered by barge from Refineria Panama.

CRISTOBAL: Canal Zone, 09.21 N. 79.54 W.

(N.B. For items not listed below, see "Panama Canal".)

PORT LIMITS: Ship's arrival time is normally determined by their passage between the breakwater lights. Those that anchor outside the breakwater by arrangement with the Port Captain are timed as arrived when they drop anchor.

PILOTAGE (Also see "Panama Canal"): Pilotage into Cristobal not compulsory, although services of Pilot outside breakwater are available on request.

Vessels arriving outside Cristobal Breakwater who have requested an outside Pilot are required to *heave to and make a good lee.*

A pilot ladder rigged with appropriate spreaders and well illuminated at night to be provided by vessel. Accommodation ladders not acceptable for embarking Pilots outside breakwater.

Marine Director's Notice to Shipping Agents No. 8–74:

1. A vessel shall, weather permitting, have both an accommodation ladder and a pilot ladder rigged and ready for use upon arrival in Canal Zone Waters.
2. The pilot ladder shall conform to Regulation 17, Chapter V of the International Convention for the Safety of Life at Sea 1960 (SOLAS) and to all additional recommendations of the International Maritime Consultative Organisation (IMCO).
3. The accommodation ladder may be turned in and secured after the Pilot has boarded the vessel in the anchorage, provided the freeboard does not exceed 9 m. (30 ft.). If the freeboard exceeds 9 m., the accommodation ladder may not be turned in until the last Panama Canal employee boards prior to arrival at the locks.
4. A pilot hoist may be used provided the design and construction of the hoist and ancillary equipment are of such a standard as

to ensure an effective and safe means of embarkation and disembarkation. The pilot hoist should only be used when:

(a) A conventional pilot ladder is rigged and ready for immediate use but triced up well clear of the hoist;

(b) A lifeline attached to a safety stop and a lifebuoy fitted with a self-igniting light are ready for immediate use.

ANCHORAGE: Vessels will ordinarily proceed to anchorage area according to length and draft unless otherwise directed. Arriving vessels expected anchor as far to South and inward from main channel in their anchorage area as is consistent with safety. Vessels anchoring in non-designated areas may be required to move.

Anchorage Area "A". For all ships with a deep salt-water draft of not less than 34 ft. and not in excess of 39 ft. Minimum charted depth is 40 ft.

This area starting at Lat. 9° 23′ 21″ N., Long. 79° 55′ 21″ W.,
thence to Lat. 9° 22′ 48″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 22′ 14″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 21′ 56″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 21″ W.,

thence due North to starting-point. However, restricted area North and East of Buoy 2, as charted, must be observed. Explosive sector charted in this area to be avoided whenever possible.

Anchorage Area "B". For all ships with salt-water draft under 32 ft. Minimum depth is 29 ft. Explosive sector restricted to vessels carrying explosives or specially designated vessels. All ships of such length as to under no circumstances swing into Anchorage Area "A".

This area starting at Lat. 9° 22′ 48″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 22′ 32″ N., Long. 79° 56′ 41″ W.,
thence to Lat. 9° 21′ 42″ N., Long. 79° 56′ 41″ W.,
thence to Lat. 9° 21′ 52″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 56″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 22′ 14″ N., Long. 79° 56′ 15″ W.,

thence due North to starting-point.

Anchorage Area "C". Required pilotage waters for inbound vessels.

This area starting at Lat. 9° 21′ 25″ N., Long. 79° 55′ 21″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 20′ 48″ N., Long. 79° 55′ 57″ W.,
thence to Lat. 9° 20′ 27″ N., Long. 79° 55′ 21″ W.,

thence due North to starting-point. Restricted area East and South of Buoy 2, as charted, must be observed.

Anchorage Area "D". For all ships of over 350 ft. in length and a deep salt-water draft of less than 35 ft. except where minimum charted depth is 32 ft.

This area starting at Lat. 9° 23′ 19″ N., Long. 79° 55′ 15″ W.,
thence to Lat. 9° 22′ 55″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 02″ N., Long. 79° 54′ 55″ W.,
thence to Lat. 9° 22′ 02″ N., Long. 79° 55′ 15″ W.,

thence due North to starting-point.

Anchorage Area "E". For all ships less than 350 ft. and small craft. Minimum charted depth of water is 24 ft.

This area starting at Lat. 9° 22′ 55″ N., Long. 79° 54′21″ W.,
thence to Lat. 9° 22′ 27″ N., Long. 79° 53′ 54″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 53′ 54″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 54′ 21″ W.,

thence due North to starting-point.

Anchorage Area "F". For small craft and yachts. Pilotage for this area will be decided by Cristobal Port Captain, based on merit of each individual case. Under no circumstances may a vessel proceed to this area prior to being cleared by Boarding Officials. (Bounded by Channel Buoy "3" by a direct line through Buoys "A," "B," "C," "L4," "L2" and return to Buoy "3".)

Outer anchorage area. Established North-West of Cristobal breakwater have the following co-ordinates: Commencing at Lat. 09° 23′ 14″ N. Long. 79° 55′ 21″ W. (West breakwater light); thence to 09° 24′ 40″ N. 79° 56′ 00″ W. (buoy "A", whistle sea buoy); thence to 09° 24′ 40″ N. 79° 57′ 00″ W.; thence to 09° 23′ 14″ N. 79° 57′ 00″ W.; thence due East to starting point.

During periods of harbour congestion, large, deep-draft vessels and/or any vessel so directed may anchor outside the breakwater in the approved area. Such vessels must advise Cristobal Signal Station, by VHF Channel 12, the time of passing sea buoy, in order to establish order of transit. Masters will be given a definite time to enter the breakwater, where the vessel will be met by transit Pilot(s) and boarding officials.

Vessels must strictly adhere to the breakwater entry times as given, in order that transit schedule can be maintained.

Prohibited Anchorage. Eastern side of channel, Canal Zone waters South of Lat. 9° 22′02″ N. to Mole Buoy in order to give clear access to Colon Harbour. Also, no vessel or craft may proceed South of Latitude 9° 21′ 25″ N. prior to being cleared by Boarding Officials. No vessel may anchor with any part of the vessel in the main channel or closer than 300 yards to either East or West breakwater lights.

In cases due to harbour congestion, any vessel may be directed to anchor to Westward outside breakwater entrance and given an order as to the time it is to pass through the breakwater entrance.

RESTRICTIONS: Port open throughout 24 hours.

MAX. SIZE: Harbour limitations generally unrestricted as to length and beam. Draft 40 ft.

RADIO: The Port Captain may be contacted via VHF Channel 12. Commercial telephone calls and messages to Agents may be made via Panama Radio, VHF Channel 16.

TUGS: Available and assigned for berthing by Pilot. Tug's lines used at no extra charge.

BERTHING: No specific requirements as to arrival times. Fifteen cargo and bunkering berths.

STEVEDORES: Endeavour arrange arrival to avoid cost of "stand by" as Agent arranges gangs for 07.00 hrs. or 17.00 hrs. commencement.

TANKERS: Four berths available.

FRESH WATER: Available from piers.

FUEL: Bunker "C", diesel, light fuel and light diesel available at Government wharves from commercial companies. Rate of delivery 2,000 bbls. per hour.

The Southern part of Anchorage C, Cristobal Harbour, has been designated a limited bunkering area for vessels whose draft is too great to use the East breakwater bunkering area.

A large mooring buoy has been placed there. Vessels will anchor and use the buoy as a stern mooring.

Pilotage is compulsory out and into this area for vessels and bunkering barges.

Also see "Balboa".

REPAIRS: Emergency repairs possible.

DRY DOCK: Length 386 ft., breadth 60 ft., depth over blocks 20 ft. 6 in. MLW.

POLICE/AMBULANCE/FIRE: Emergency number 110. Routine Police business 3–2111.

TELEPHONES: May be placed aboard through arrangement with Agent.

SHORE LEAVE: Generally permitted.

CUSTOMS: Customs and Immigration Inspection Service available Monday to Saturday from 0700 hrs. to 1700 hrs. Charges for such service after hours and on Sundays and holidays set forth in Panama Canal Tariff. Number of inspectors required will be determined by Chief Customs and Immigration Inspector of port.

DELAYS: Delays in berthing, load or discharge or bunkering are minimal and infrequent. 8 hours is considered excessive.

AUTHORITY: Panama Canal Company.

AGENT: C. Fernie & Co., Inc. PO Box 5042, Cable address: "Fernie–Cristobal". Telephone Nos.: Cristobal 1772 – 1295 – 2914 – 2128. Telex Nos.: ITT–3482020, TR–9211 "Fernie Pa". Also VHF. After office hours telephone numbers. Cristobal 2468, Cristobal 2568.

PANAMA CANAL (entering **Cristobal** or **Balboa**) (See Plan)

BOARDING INSPECTOR: Arriving vessels will be boarded upon arrival inside the breakwater at the Atlantic entrance or off the seaward end of the dredged channel at the Pacific entrance by a Canal boarding inspector in accordance with procedures and boarding hours established for the boarding of vessels at the respective ports by the Canal authorities.

Vessels shall be entered at Canal Zone port of arrival by boarding inspector and it is not necessary for Masters to come ashore for that purpose. A transitting vessel entered at Balboa is required to clear from Cristobal, and vice versa.

Anchoring to await boarding inspector: When a vessel is not boarded immediately on arrival, it shall anchor in the appropriate, designated anchorage area and await the boarding officer. See "Anchorages".

VESSEL'S IDENTIFICATION: Every vessel shall hoist its signal letters when approaching and entering a terminal port, and those arriving at night shall promptly signal their names by flashing light to the signal station. This communication of the vessel's name by signal letters or flashing light is mandatory even though the vessel communicates by voice radio. (Also see "Radio").

OIL POLLUTION: Every vessel subject to the Federal Maritime Commission's oil pollution financial responsibility requirements, must maintain on board and make available to Panama Canal Company boarding inspectors the original or copy of its certificate. Any vessel that does not have the necessary certificate on board will not be permitted to transit the Panama Canal.

If pollution occurs the Master's appearance in court may be required with possible heavy fine and attendant delays.

ORDER OF TRANSIT: Canal authorities may dispatch vessels through Canal in any order and at any time they may see fit. Priority of arrival at a terminal does not give any vessel the right to pass through the Canal ahead of another that may arrive later, although order of arrival will be a consideration in determining order of passage.

N.B. A vessel in excess of 150 ft. in length that is not equipped with properly operating rudder-angle and engine-revolution indicators, so located as to be readily visible to a Pilot on the bridge, will be subject to delay in transitting to the extent the Canal authorities deem necessary or appropriate in order to minimize, in the light of the type and volume of Canal traffic and of other factors relating to the safety of Canal operations, the increased hazards of navigation resulting from failure of the vessel to be so equipped. (In practice this regulation requires that the indicators should be located on wings of bridge as well as inside wheelhouse for vessels over 80 ft. beam).

DOCUMENTS: All documents listed below shall be ready for immediate delivery to boarding inspector when he boards vessel upon each arrival of vessel in Canal Zone.

Documents required	*From ships which transit Canal but do not take on or discharge passengers or cargo at Canal Zone ports (number of sets)*	*From ships taking on or discharging passengers or cargo at Canal Zone ports (number of sets)*
(1) Ship's information and quarantine declaration (Panama Canal Form 4398)	1	1
(2) Clearance from last port	*1	*1
(3) All certificates of a sanitary nature	*1	*1
(4) Passenger list: Passengers transitting only (on Panama Canal Form 20)	**2	**2
(5) Passenger list: Passengers for discharge (on Panama Canal Form 18–9)	0	**4
(6) Crew list (on Panama Canal Form 1509–10)	2	2
(7) Store list	†1	†1
(8) Cargo declaration (Panama Canal Form 4363)	1	‡1
(9) Manifest of local cargo	0	4
(10) Panama Canal tonnage certificate	1	††1
(11) National register	1	1
(12) General arrangement, capacity, tank and engine room plans	‡1	††1
(13) Report of structural alterations and of changes in use of tanks or other spaces since last transit	1	††1
(14) Declaration by all vessels except ships of war of all arms and munitions of war aboard. Explosives are declared separately	**2	**2
(15) Declaration as to vessel's port(s) of departure, destination, and ports of call, within the last three months, with the corresponding actual or approximate dates	1	1

*For examination and possible retention.

**Not required unless such persons or cargo are carried.

†Required if ship during transit is laid up for repairs, regardless of whether passengers or cargo are taken on or discharged.

††Not required unless ship transits Canal.

‡For taking up and subsequent return through Agent or otherwise.

Documents required at ports. In case a vessel takes on or discharges passengers or cargo at only 1 Canal Zone port and does not transit Canal, documents indicated in column 2 are required. In case a ship docks or takes on or discharges passengers or cargo at both Cristobal and Balboa, or at a port other than port of entry, all documents in column 2 are required at first port and, in addition, 4 copies of document (9) required at second port.

Crew List. For purposes of additional identification of crew members, all copies of crew list shall include for each seaman the serial number of his certificate of identification, continuous discharge book, passport or other satisfactory identifying documentation. In addition, the given name and middle initial, as well as family name, shall be shown for all seamen.

Passenger list. All copies of passenger lists shall be accurate and legible and shall be delivered to boarding inspector. The list shall show passengers in alphabetical order. Passengers who are to be discharged at Canal Zone ports shall be listed separately from other passengers aboard who are only to transit Canal. In event any passenger listed for discharge fails to disembark, or any passenger listed for transit disembarks, notice shall be given promptly by Master through his ship's Agent to Port Captain and a supplementary passenger list (same number of copies as is required for an original list of disembarking passengers) showing required information concerning such passengers shall be furnished promptly to Chief Customs Inspector prior to clearing Canal Zone waters.

(It is understood that "Advance Documents" are no longer required by Authorities. However, Agents request copies of Crew and Passenger Lists in advance, which should, if possible, be airmailed from last Port).

PILOTAGE: Pilot is mandatory entering either from Balboa or Cristobal and is supplied without special request. Should vessel desire Pilot to meet it outside Atlantic Breakwater, it should remain there and make signal to that effect. Vessels shall furnish a safe, clean, well-lighted Pilot ladder, and will be required to make a lee in rough weather. Vessel normally boarded inside breakwater at a point North of the Mole Beacon at the Atlantic Entrance, and in Merchant Vessel Anchorage to seaward of Buoys 1 and 2 at Pacific Entrance.

Shelter for Pilots: Purpose of platform is to provide a shelter from sun and rain for Pilots working near bow of vessel and to provide adequate visibility around the locks to reduce danger of damage.

Platforms are required on:

(a) All vessels that are 100 ft. or more in extreme beam with bridge aft; and

(b) All vessels that are 95 ft. to 99.9 ft. extreme beam with bridge 600 ft. or more from the bow measured at the outside of the wheelhouse at the centreline.

Platform to be erected at position which is farthest forward at extreme beam and not more than 6 in. inboard from the vertical plane of shell plating. 1 on each side of the vessel. Awning made of suitable material. Deck of wood or other suitable material with non-skid surface.

Vessels equipped with previously approved design may continue to use platforms of that design until they require replacement.

Further inquiries on this subject should be directed to Port Captain Balboa/Cristobal.

The vessels mentioned above require 4 Pilots, 2 forward and 2 aft, when transitting the locks of the canal.

STEERING LIGHT: All vessels with the bridge more than 250 ft. from the stem must have a steering light at or near the stem. The light may be any colour except white, green or amber, must not be visible forward of the beam, and must be of such an intensity and so fixed as to be clearly visible from the navigation bridge.

ANCHORAGES: No vessel shall anchor within navigable waters of Canal Zone in other than a designated anchorage.

1. *Merchant Vessel Anchorages.* (a) *Atlantic entrance merchant vessel anchorage.* An area to the West of the Canal channel bounded as follows: Starting at a point "A", located in position 9° 21′ 25″ N., 79° 55′ 31″ W., and marked by gas buoy No. 2, thence 900 yd. 270° true to a point "B" located in position 9° 21′ 25″ N., 79° 55′ 58″ W., thence to lighted buoy "1", thence to lighted buoy "H", thence due North to a point "C" located in position 9° 22′ 07″ N., 79° 56′ 41″ W., thence 2,800 yd 59° true to a point "D" located in position 9° 22′ 50″ N., 79° 55′ 29″ W., and thence to the starting-point. The line extending due West from the Cristobal Mole through lighted beacon No. 1 and lighted buoy No. 2 (9° 21′ 25″ North) marks the Southern limit of the anchorage area. No vessel shall pass this line without having been passed by the boarding officer and without having a Canal Pilot on board.

(b) Gatun Lake anchorage basin. An area immediately East of the Canal channel line, bounded by a line extending to a point 450 yd., 120° true from the East wing-wall at the South end of Gatun Locks, thence 690 yd., 148° true to flashing white lighted buoy "A" thence 700 yards, 070° true to flashing white lighted buoy "1" thence 1,130 yards, 148° true to quick flashing white lighted buoy "3" thence 2,800 yards, 224° true through fixed white lighted buoy "5" and black can buoy "7" to the Canal channel line at flashing white lighted buoy "9"; the channel prism being the Westerly boundary line of the anchorage area.

(c) *Pacific entrance merchant vessel anchorage.* An area bounded as follows: beginning at a point in position 8° 51′ 50″ N., 79° 30′ 00″ W., marked by a lighted whistle buoy which is painted with alternating black and white vertical stripes and which shows short-long flashing white light every 8 seconds, i.e. light 0.4 seconds, eclipse 0.4 seconds, light 1.6 seconds, eclipse 5.6 seconds; thence due East to Long. 79° 28′ 00″ W.; thence due North to Lat. 8° 54′ 31″ N., thence due West toward Flamenco Island Light to a point 8° 54′ 31″ N., 79° 30′ 46″ W.; thence S.W. touching the N.W. corner of San Jose Rock to position 8° 53′ 27″ N., 79° 31′ 23″ W., marked by canal-entrance lighted buoy No. 2, thence S.E. to the point of beginning.

2. *Anchorage areas for ships loaded with hazardous cargoes.* (a) *Atlantic end.* Area included in rectangle 1,000 yd. wide immediately South of West breakwater, starting at a point on West breakwater 1,000 yd. from West Breakwater Light and thence extending Westward 2,000 yd. along breakwater.

Cristobal: Grade "A" Explosives Anchorage (over 5 tons) and all LNG and LPG Tankers loaded or not Gas free.

Area bounded by:

Lat.	09° 24′ 40″ N.	Long.	79° 57′ 00″ W.
Lat.	09° 24′ 40″ N.	Long.	79° 56′ 29″ W
Lat.	09° 23′ 53″ N.	Long.	79° 56′ 29″ W.
Lat.	09° 23′ 53″ N.	Long.	79° 57′ 00″ W.

(b) *Pacific end.* Area South of Naos Island bounded on the East by a line drawn South (True) from entrance gas buoy No. 1; on the South by a line drawn East (True) from Tortolita Island, and on the North and West by the curve of 30 ft. depth.

Vessels carrying explosive cargoes shall anchor in the explosive anchorage areas, on arrival at the Canal Zone, and there await instructions.

MAX. SIZE: N.B. The following paragraphs serve as an approximate guide to permitted size of vessel in transitting Canal, but Owners and Operators should always seek official clarification and ruling from: The Marine Director's Office, Panama Canal Company, Box 5012, Balboa, Canal Zone.

1. *General*

(a) Based on experience to date, the Panama Canal Company has determined that 106.0 ft. is the widest extreme beam commercial vessel acceptable for regular transit. Wider vessels, not exceeding an extreme beam of 107.0 ft., may be permitted to transit on a delivery basis only. The max. length is limited to 900 ft. except that container or passenger vessels will be accepted up to a max. length of 950 ft.

(b) Vessels of 100 ft. beam and over, whose handling characteristics are such as to endanger herself, Panama Canal appurtenances and/or a third party, may have such further limitations of draft and trim placed on her as Canal Authorities deem necessary to ensure reasonable safety.

(c) Draft of non self-propelled barges 550 ft. or more in length, and/or 100 ft. or more in beam, may be limited when in the opinion of Canal Authorities such limit is necessary to ensure reasonable safety.

(d) Because of the increasing need for despatching large vessels and tows as early as possible in the morning, consistent with safe practice, it is important that information provided in advance of initial transit of the vessel include capacity plans, general arrangement plans, engine-room plans and, whenever possible, photostatic copies of national register, load-line certificates and Panama Canal tonnage certificates. This advance information will minimise the time spent aboard the vessel by admeasurers before commencement of the initial transit.

2. *Initial Transit Draft*

This max. draft will be further limited as necessitated by the draft limits established by bilge radius, the max. TFW draft allowed for the Panama Canal as promulgated periodically by the Marine Director because of Gatun Lake Level, or by limitations deemed necessary because of restrictions in the waterway.

3. *Maximum transit draft.* Maximum draft for succeeding transits will be maximum allowable Panama Canal fresh water draft for particular vessel, based on all relevant factors. After initial transit, Owners, Operators or Agents will request authorised maximum draft from the Marine Director's Office. This request will be returned with approved maximum Panama Canal fresh water draft stamped thereon.

4. *Transit drafts for sister-ships.* Identical sisters are not limited to initial transit draft established in paragraph 2. Transits of such vessels will be permitted at maximum Panama Canal fresh water draft authorised an identical sister, lake level permitting.

5. *Procedure to obtain initial transit draft allowances.* Shipowners, Operators or Agents who desire arrange initial transits in excess of 34 ft. Panama Canal fresh water draft must correspond with the Marine Director's Office, Panama Canal Company, Box 5012, Balboa, Canal Zone, not later than two weeks prior to loading vessel in order receive designated initial Panama Canal fresh water transit draft.

6. *Release from liability.* Masters of vessels will be required to execute a form, undertaking to release Panama Canal Company from liability in case of accident and to indemnify Company for damages sustained in following instances (because of additional draft allowances granted to transitting vessel, these releases are required, generally, on a one-time basis):

(a) When transitting vessel is equipped with permanent fenders to breast her off the lock-wall batters, until trial transits have proven permanent fenders satisfactory;

(b) When vessel permitted transit at draft greater than her allowed Panama Canal fresh water draft or her mean authorised TFW load line. Vessels over draft will be subject to denial of transit or delay to extent Panama Canal authorities deem necessary in light of traffic conditions and safety of Canal operations;

(c) When a vessel transits at less than the minimum drafts specified below:

Over 425′ up to 475′	8′ fwd. 14′ aft
Over 475′ up to 525′	18′ fwd. 20′ aft
Over 525′ up to 580′	20′ fwd. 22′ aft
Over 580′ up to 625′	22′ fwd. 24′ aft
Over 625′	24′ fwd. 26′ aft

HEALTH: Application for radio pratique is available to all vessels arriving in Canal Zone waters. Radio pratique is a quarantine clearance by radio, based upon information from the vessel prior to its arrival at Balboa or Cristobal and past experience with the vessel and its personnel. A limited number of vessels will be sampled for compliance with the required standards of health and sanitation on board. The sampling will generally be done on a random basis and will provide a measure of the success of the programme.

It should be emphasised that radio pratique applies only to the quarantine section of the required forms and documents for the Panama Canal. All vessels must still complete the required boarding forms, and in most cases, be prepared to receive the Panama Canal Boarding Inspector on arrival in Canal waters. Such forms as crew and passenger lists, ship's information forms, and the cargo declaration must always be completed for presentation to the Panama Canal officials.

Attached is a listing of the items to be reported prior to arrival in the Canal Zone. The information is similar to that now required of vessels requesting radio pratique in U.S. ports. In addition, there are some special circumstances in the Canal Zone that make additional information necessary.

The manner of reporting the information required should be clear and orderly as specified in 35 CFR, section 123.4, listing information required in advance. The request for radio pratique should originate from the Master and can be submitted directly by radio or through the vessel's local Agent. The local Agent should submit his request with all the required information to the Quarantine Office at the port of arrival of the vessel. The local Agent will be notified when radio pratique is granted or refused and the Agent will communicate this information to the ship.

It is hoped that vessels will take advantage of radio pratique when arriving for transit or docking at the Canal Zone ports of Balboa and Cristobal, and that in as many instances as possible it may be able to grant this time saving privilege.

Radio Pratique Programme

1. *General*

(a) The granting of radio pratique is a Health Bureau responsibility designated to the Division of Public Health. (35 CFR 61.264)

(b) In order to process the details of this programme more expeditiously, communication may be held between the quarantine offices and the ship's Canal Zone Steamship Agent representing the vessel hereinafter called local Agent.

(c) All vessels coming to the Panama Canal may request radio pratique by means of the ETA radio message or through the ship's local Agent.

(d) Requests for radio pratique may be submitted to the quarantine office at the port of arrival at least 24 hours and not more than 48 hours before vessel is scheduled to arrive.

2. *Specific Requirement for Each Voyage*

(a) The vessel will be maintained free from rats and vermin.

(b) The Derating Certificate or Derating Exemption Certificate must be valid (i.e. date of issue not more than 180 days prior to date of arrival at the Panama Canal).

(c) Vessels arriving within 15 days from the ports designated in the Aedes Aegypti Indices Bulletins must be disinfected with the aerosol described in the Aedes Aegypti Indices Bulletin No. 8, 1970.

(d) The restrictions imposed in 61.281 through 61.302, "Importation of Certain Things", Title 35 CFR, must be strictly adhered to and followed.

3. *Action taken by the Quarantine Officer in Charge**

(a) Radio pratique *may* be granted by the quarantine office upon request from the vessel or through the ship's local Agent representing the vessel provided it is documented by ship's radio.

(1) If the information requested in the Appendix hereto is complete; *and,*

(2) If the quarantine officer in charge* is of the opinion that the vessel is reasonably free from any condition either from a health or sanitation standpoint that might introduce illness into the Canal Zone.

(b) Radio pratique may be denied by the quarantine officer in charge:

(1) If the requested information is incomplete; or,

(2) if the quarantine officer in charge* feels that medical or sanitary reasons prevail requiring careful inspection upon arrival of the vessel.

*Or designated representative.

4. *For Sampling and Surveillance of Compliance Purposes*

After the information supplied by the Shipmaster has been reviewed the quarantine officer in charge* will advise the ship's local Agent concerned whether radio pratique has been granted or denied and if any restrictions or limitations have been imposed. He will also inform the Marine Traffic Controller, and the Immigration and Customs office whether radio pratique has been granted or denied.

*Or designated representative.

5. *Action taken by Ship's Local Agent*

(a) The ship's local Agent may submit requests for radio pratique to the quarantine office if the vessel has not done so by radio. The information required is listed in the Appendix hereto. Such requests should be submitted, properly documented by ship's radio, not later than 24 hours before the vessel is scheduled to arrive nor earlier than 48 hours before the expected arrival of the vessel.

(b) The ship's local Agent will advise the vessel which he represents whether radio pratique has been granted or denied; and any restrictions or limitation imposed.

6. *Action taken by Panama Canal Company Boarding Inspectors*

On vessels that have been granted radio pratique, the Panama Canal Company Boarding Inspector will:

(a) Ascertain that the Ship's Master has completed the Ship's Information and Quarantine Declaration (Form 4398) *except* the "quarantine data" portion at the bottom of the form; and,

(b) Otherwise process the vessel (e.g. for Immigration, Customs, Admeasurement, and any other non-quarantine requirements) without any further questioning on quarantine matters. This processing may be either in the bay or at the dockside at the discretion of the Admeasurer Watch Supervisor. By agreement with the Chief Immigration Service, passengers that are disembarking from vessels may be processed by the Immigration Service at the docks.

(c) Vessels that are denied radio pratique or have failed to request radio pratique, will be cleared through Quarantine by the Panama Canal Company Boarding Inspector in the prescribed routine manner.

7. *Action taken by Shipmasters*

(a) Shipmasters should request radio pratique directly by radio or through the Agent representing them in the Panama Canal Zone and supply the information requested in the Appendix hereto.

(b) Shipmasters should take cognizance of the requirements listed in paragraph 2, "Specific requirement for each voyage", above.

(1) If granted radio pratique, they may enter the anchorage area or a Canal Zone port flying the quarantine flag; they must however comply with any restrictions or limitations imposed by the Quarantine Officer in Charge.

(2) Unless the boarding of docking vessels is scheduled to take place at the pier, vessels *must* await boarding by a representative of the Panama Canal authority.

(3) If denied radio pratique, vessels must be cleared for Quarantine in the prescribed routine manner; that is enter the Canal Zone waters or a Canal Zone port flying the Quarantine Flag and must await processing by the Panama Canal Company Boarding Inspector.

(4) It is important that the Shipmasters remember that in all instances all forms regularly required are to be completed prior to arrival for presentation to the Boarding Inspector.

Appendix

Information required by Quarantine Officer in Charge from Shipmaster requesting radio pratique through ship Agency representing him at the Panama Canal.

Full name of vessel.

Country of registry.

International radio call letters.

Estimated date of arrival and port.

Whether docking at Balboa or Cristobal and reason therefor.

List of ports of call within past *15* days prior arrival.

Report any illness or communicable diseases on board.

Report any death occurring on board since departure from last port and cause, if known or suspected.

Report the number of smallpox vaccinations required.

Report the number of passengers to be disembarked and port of disembarking (e.g. Cristobal or Balboa).

Report the date of the Derating Certificate or Derating Exemption Certificate.

Record the number, kind, and origin of all animals aboard and if any are scheduled for disembarking.

Report the origin or source of the meat in the ship's stores.

Only vessels in the following categories need still be subject to "on board" public health clearance upon arrival at Canal Zone ports:

A. Vessels which, during the 15 days prior to arrival in the Canal Zone ports, have or have had on board passenger or crews with any of the following conditions or symptoms of illness:

1. Temperature of 100° F (38° C) or greater *(a)* which persisted for 2 days or more: or *(b)* which was accompanied or followed by any one or all of the following: rash, jaundice, glandular swelling; *or*
2. *Prolonged diarrhoea* (lasting 1 full day or more).

B. Occurrence of death on board for any reason.

C. Vessels which have been in a country infected with smallpox during the 15 days prior to arrival in the Canal Zone.

D. Vessels which have been in a country infected with plague in the 60 days prior to arrival in the Canal Zone.

RADIO: Balboa Naval Radio NBA.

1. *Signal Stations.* (a) Visual-signal stations established for communication on arrival Canal approaches by International Code and/or flashing light, at seaward end of Pier 6 Cristobal, and on Flamenco Island at Pacific entrance.

(b) Flamenco Island also contactable on VHF Channel 12 frequency 156.6 Mc/s., and R/T 2182, 2638 and 2846 kc/s. – call letters WHC.

(c) Vessels of 85 ft. beam and above awaiting transit at Balboa anchorage should keep VHF radio watch on Channel 12 for transit orders.

(d) Arriving ships may communicate with Port Captain's Office, Cristobal through Cristobal Signal Station Radio communication is maintained on international maritime VHF Channel 12 (156.6 Mc/s.) through "Cristobal Radio".

2. *Advance information required by radio from vessels approaching Canal.* Vessels approaching Canal should communicate by radio to the Port Captain, through Balboa Radio Station, call letters NBA, at least 48 hours in advance of arrival in Canal Zone, the information required below. If radio communication can be established earlier than 48 hours in advance of arrival, required information should be furnished at time such communication is first practicable.

(a) All items of information listed below, unless previously communicated through Agents or otherwise to Canal authorities, shall be transmitted to Port Captain using phonetic alphabet letters to identify items, as follows:

ALFA – The Panama Canal Identification Number of the vessel.

BRAVO – Estimated date and time of arrival, port of arrival and request for Canal transit if desired.

CHARLIE – Estimated draft upon arrival, in feet and inches (fore and aft).

DELTA – Any changes in the vessel's name, country of registry, structure, or use of tanks that have occurred since the vessel last called in Canal Zone waters.

ECHO – Will the vessel dock at Balboa or Cristobal? What is the reason for docking? If it is for cargo operations, fuel or water, give the tonnage involved in each case. Is there any other reason the vessel will not be ready to transit upon arrival? What is the reason?

FOXTROT – The nature and tonnage of any deck cargo.

GOLF – If the vessel is a tanker, state names and grades of cargo carried. State names and grades of the cargo last carried in each empty tank which is not gas free.

HOTEL – If the vessel is carrying explosives as cargo, state the grade of each explosive and the amount, in tons of each grade.

INDIA – Quarantine and immigration information:

(1) Is radio pratique desired?

(2) State the ports at which the vessel has called within 15 days preceding its arrival at the Canal Zone.

(3) State all cases of communicable disease aboard and the nature of the disease or diseases, if known.

(4) The number of deaths which have occurred since departure from the last port and the cause of each death, if known.

(5) The number of smallpox vaccinations required.

(6) The number of passengers disembarking and their port of disembarkation.

(7) The number of ports of origin of any stowaway and a brief description of the identity papers of each stowaway.

(8) The number, kind and country of origin of any animals aboard. Are any animals to be landed?

(9) The country of origin of all meat, whether carried as cargo or as ship's stores.

(10) Has the vessel called at a port in any country, infected with foot-and-mouth disease or rinderpest during its present voyage? Countries considered to be infected are:

(a) All countries East of the 30th Meridian West longitude and West of the International Date Line except Australia, Channel Islands, Fiji, Greenland, Iceland, Japan, New Zealand, Northern Ireland, Norway, Republic of Ireland.

(b) All countries of South America;

(c) Curacao (the Leeward Islands of the Netherlands Antilles);

(d) Cuba;

(e) Martinique;

(f) Guadaloupe.

(11) Specify whether the vessel has a valid Derating Certificate or a Derating Exemption Certificate issued 180 days prior to arrival.

The following additional information shall be transmitted via radio to the Port Captain from all vessels as applicable:

(1) Vessels approaching from the Pacific shall report actual time of passing Cape Mala, or the latitude of Cape Mala, and the vessel's speed.

(2) Vessels approaching from the Atlantic shall report 12 hours prior to arrival at Cristobal any change of 1 hour or more in the expected time of arrival.

(3) Any other matters of importance and interest.

Timely receipt of the above information will facilitate the transit or docking of arriving vessels. Failure to comply with these reporting requirements may subject a vessel to delay since vessels which do comply will receive priority of service and handling over those which do not.

DENSITY: On several occasions vessels arriving for transit have been found to be over authorised draft after entering Gatun Lake. Overdrafts in these instances have been caused, it is believed, by assuming fresh water densities different from what actually exists in Canal.

Using distilled water as 1.000 at 3.98°C, water densities have been determined to be as follows:

	Density	
Location	*Gm./cc.* 85°F	*Lbs./ft^3* 85°F
(a) Gatun Lake*	0.9954	62.21
(b) Miraflores Lake†	0.9971	62.32
(c) Balboa Anchorage‡	1.0219	63.87
(d) Cristobal‡	1.0212	63.76

*Fresh water.

†Brackish water.

‡Salt water.

BOILER WATER: May be taken without charge from Gatun Lake subject Pilot's permission and draft.

FRESH WATER: Available Balboa or Cristobal cost about 48 cents per 100 cu. ft.

CERTIFICATES: See "Documents". *(a)* If a valid Derating Certificate or Derating Exemption Certificate is not produced with respect to any arriving vessel the quarantine officer shall:

(1) If he is satisfied that vessel is free of rodents or is kept in such a condition that number of rodents on board is negligible, issue a Derating Exemption Certificate; or

(2) If he is satisfied that a Derating Exemption Certificate should not be issued with respect to such vessel, require derating of vessel.

(b) When, pursuant to paragraph *(a)* (2) of this section, derating has been completed to satisfaction of quarantine officer, he shall issue a Derating Certificate.

CUSTOMS: *Hours:* The regular hours for the Customs inspection of baggage of landing passengers and for the Customs supervision of landing passengers are from 0700 to 1700 hrs. daily, excluding Sundays, and holidays. Such Customs services may be furnished during other hours, or on Sundays and holidays, only upon the request of the Master or authorised Agent.

2. *Marine Protests.* Marine notes of protest may be made and extended by Masters of American vessels before Customs officers without charge.

3. *Allowances.* Tobacco, Wine and/or Spirits at Master's discretion sufficient for immediate consumption. Alcohol not permitted to be taken ashore.

CONSULS:

Great Britain: British Consulate, Colon Office 38–7–7060;

Norway: Royal Norwegian Consulate General: Consul General for Panama, R. P., Terence O. Ford, Office: 28–25–2347. Residence: 28–24–1884.

Norwegian Consul, Cristobal, G. R. Morland, Fenton Bldg. 3–2819.

Norwegian Consul for Pacific Side, Canal Zone, Arne Hauge, Office 2–1965.

Republic of South Africa: Consul for the Republic of South Africa, Henry I. Darlington, Office: 28–23–0834. Residence: 28–23–6779.

Sweden: Royal Swedish Consulate General, Edificio Melinda, Via Argentina, Panama 28–23–9694.

Denmark: Royal Danish Consulate General, Consul General for Panama and Canal Zone, W. Ishoy, Office: 28–25–0524. Residence: 28–24–1537.

Royal Danish Consulate for Colon and Canal Zone, George R. Downing, Office: 38–7–1870. Residence: 3–2361.

Finland: Finnish Vice-Consul, Cristobal/Colon, Donald Francey, Fenton Bldg. 3–1781.

REPATRIATION: Crew members, of vessels other than vessels of United States registry or enrolment signed on before a shipping commissioner, may be discharged in Canal Zone only with consent of the Immigration Service. Before such consent may be given, the Chief Immigration Inspector at port concerned shall be furnished a memorandum in triplicate showing name, age, nationality, and rating of the crew members proposed to be discharge.

When crew members are signed on a vessel, other than crew members signed on a vessel of United States registry or enrolment by a shipping commissioner in the Canal Zone, a memorandum in triplicate showing name, age, nationality, and rating of crew members signed on shall be furnished to Chief Immigration Inspector at the port concerned.

Arriving crew members and particularly visiting Superintendents should if possible possess Panamanian visas.

AIRPORT: Tocumen International Airport located outside Panama City, 18 miles from Balboa; 48 miles from Cristobal, served by all major scheduled international airlines operating in Southern hemisphere.

HOLIDAYS: Sunday, January 1; February 22, Good Friday; May 30; July 4; First Monday in September; November 3; November 11; Thanksgiving Day; December 25; and such other days as may, pursuant to law, be declared to be holidays.

TIME: EST. No alterations to clocks necessary throughout the year.

LOCKS: Gatun Locks (Atlantic side) raise and lower vessels 85 ft., Miraflores (nearest to Pacific) 54 ft. and Pedro Miguel (Pacific side) 31 ft.

AUTHORITY: Marine Director, Panama Canal Company.

AGENT: See "Cristobal"

PUERTO LAS MINAS (Payardi): 09.24 N. 79.50 W.

DOCUMENTS:

5 Crew lists – visaed by Panamanian Consul.
5 Passenger lists – visaed.
5 Stores lists – visaed.
1 Panamanian Consular clearance.

Vessels arriving without a consular dispatch will be charged with twice the cost of these documents on arrival.

PILOTAGE: Refinery Pilot boards at the seabuoy in approximate position 09° 25′ 40″ N. 79° 49′ 42″ W.

ANCHORAGE: Vessels waiting for the pilot should anchor in the vicinity Eastward of the seabuoy.

APPROACHES: Las Minas Bay is situated approximately 6 miles East of Cristobal. The approach channel is 1 mile long and 1,000 feet wide with a max. draft allowed for entering of 39 ft. Leading lights covering approach channel on bearing 171° from seaward.

The inner harbour channel is 1 mile long and 300 ft. wide and has max. allowable draft for entering of 39 ft. up to the tanker berths. Leading lights covering the inner channel are on a bearing of 148° 45″ from seaward.

MAX. SIZE: Length 750 ft. LOA. Max. draft 39 ft. when destined for a tanker berth. For the general cargo dock the max. length permissible is 500 ft. LOA with a max. draft of 25 ft.

RADIO: See Panama Canal.

BERTHING: 2 tanker berths with a max. permissible draft of 39 ft. 1 general cargo berth with a max. permissible draft of 25 ft. This berth may accommodate vessels up to 500 ft. LOA. 1 barge dock with a max. permissible draft of 25 ft. and a max. permissible length of 250 ft. LOA.

FRESH WATER: Can be supplied ex pipe-line on all berths.

FUEL: Bunkering at the tanker berths is restricted solely to tankers loading or discharging. Vessels under 250 ft. LOA, can be bunkered at the barge dock. Vessels at the general cargo dock can be bunkered ex pipe-line.

Blended fuel oils in general are supplied ex barge.

Vessels calling for bunkers only are refuelled by barge (weather permitting) at the anchorage in the vicinity Eastward of seabuoy No. 1. From the storage tanks of Refineria Panama, S.A. fuels are loaded on barges and transported to Colon, Cristobal, Balboa and Taboga for delivery to vessels by barge.

The Refinery produces all types of marine fuels, Bunker "C", Marine Diesel, Light Marine Diesel, etc.

When a vessel is stemmed for bunkers by barge and this turns out to be impossible on account of adverse weather conditions or because of technical difficulties, she may get her bunkers supplied at one of the piers in Cristobal or Balboa.

AUTHORITY: Refineria Panama, S.A.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Papua New Guinea

GENERAL:

APPLICABLE TO ALL PORTS IN PAPUA NEW GUINEA
(See also details under individual ports) **(See Plan)**

DOCUMENTS: International conditions i.e. at the first port of call in Papua New Guinea the following inward Customs documents are required to be handed to Customs Department within 24 hours of ship's arrival.

- 3 Copies Inward Passenger List.
- 7 Copies Inwards Customs Manifest.
- 3 Copies List of Crew.
- 3 Copies Articles in private possession of officers and crew Form 5.
- 3 Copies Stores List.
- 2 Copies Immigration Restriction Ordinance List (Form 6) being complete list of passengers disembarking and in transit.

If other than first port of call:

- 3 Copies Inward Passenger List.
- 7 Copies Inwards Customs Manifest.
- Outward Customs Clearance from last port of call.

RESTRICTIONS: Night berthing is not recommended, but is possible at the discretion of the Port Authority.

HEALTH:

(a) Vessels Arriving Directly from Australia. Pratique is given by radio to vessels which voyage directly from Australia to a Papua New Guinea port, Master of vessel notifies Quarantine Officer at the port of entry to which he is proceeding of ETA, the number of passengers and crew and whether there is any sickness aboard. This notification from Master is sent not longer than 24 hours and not less than 12 hours of ETA. If there is no sickness aboard a reply is sent stating that pratique is granted, and when a vessel arrives the actual pratique form is delivered to Master of vessel or to Collector of Customs to hand to Master. Full pratique is given.

(b) Vessels Arriving from a Foreign Port. All vessels which arrive from a foreign port must anchor in the designated position and await arrival of a Quarantine Officer who boards the vessel by himself – no other person (except a Pilot) is to be allowed on board vessel until pratique has been granted. If a Pilot is on board he must remain on board until pratique is granted.

Smallpox: All passengers and crew are required to be in possession of a valid International Certificate of Vaccination against smallpox on arrival in the country.

Cholera: All passengers and crew are required to be inoculated against cholera if the vessel is expected to arrive at a port in the country within 7 days of leaving an area where cholera is either endemic or is present.

Note: The presence on board of a qualified doctor will normally assist in the granting of pratique.

RADIO: 2 radio stations are available.

(a) Port Moresby Radio – Call sign P2M operating between the hours of 2100 – 1000 hrs. GMT.

(b) Rabaul Radio – Call sign P2R operating 24 hours per day.

These stations are generally used for all contact with agents or Government Departments, etc.

VHF: VHF services are available in three (3) ports only.

(a) Port Moresby on Channel 16 – Call sign "Fairfax Harbour" for the Pilot and "Moresby Harbour Control" for the Port Office.

(b) Lae on Channel 16 – Call sign "Lae Harbour Control".

(c) Anewa Bay on Channels 6, 12 and 15 – Call sign "Anewa Bay Pilots".

Normal working hours are 0745 till 1606 hrs. local time, except for Anewa Bay where hours are 0700 till 2300 hrs. local time

RADAR: No port radar services exist in Papua New Guinea.

TUGS: Berthing. Tugs are available in Port Moresby and Anewa Bay. A small tug is also available in Lae but is low powered.

CRANES: There are no wharf mounted cranes in Papua New Guinea, however, mobile cranes are available in most main ports capable of lifting up to 20 tonne containers. Shippers are advised though to check this before shipping and with heavier loads prior advice and approval must be sought from the relevant Port Authority.

BULK CARGO FACILITIES: Except for Anewa Bay (copper concentrate) and the Jant Wharf at Madang (Woodchip), no bulk cargo facilities exist in Papua New Guinea. (Details of the above are given in the appropriate port summaries.

CONSULS: The following Consulate and Commission services are available.

American Consulate General, P.O. Box 3492, Port Moresby. Phone 242726
Australian Consulate General, P.O. Box 1180, Lae. Phone 423000
Australian High Commission, P.O. Box 9129, Hohola. Phone 259333
British High Commission, P.O. Box 739, Port Moresby. Phone 243331
Commonwealth Secretariat, P.O. Box 914, Port Moresby. Phone 243825
Fiji Honorary Consulate, P.O. Box 6144, Boroko. Phone 254185
German Honorary Consulate, P.O. Box 1549, Boroko. Phone 256311
Indonesian Embassy, P.O. Box 7165, Boroko. Phone 253116
Italian Consulate, P.O. Box 276, Lae. Phone 422593
Embassy of Japan, P.O. Box 3040, Port Moresby. Phone 242855
Netherlands Honorary Consulate, P.O. Box 1626, Boroko. Phone 255149
New Zealand Commission, P.O. Box 1144, Boroko. Phone 242031
Phillipines Consulate, P.O. Box 172, Port Moresby. Phone 242703
Sweden Honorary Consulate, P.O. Box 1228, Boroko. Phone 255411

MEDICAL: Medical attention is available in most Papua New Guinea Ports, however as much advance notice as possible should be given by contacting the nearest radio station.

DRY DOCK: No dry dock or major repair facilities exist in Papua New Guinea.

GANGWAY WATCHMEN: Not usually necessary.

HATCHES: Opening/closing usually carried out by crew.

CUSTOMS ALLOWANCES: Entry regulations permit 200 cigarettes or 1lb of tobacco, and 40 oz of wines or spirits.

Crew members may hold 200 cigarettes and 1 carton of beer (or 1 bottle of spirits) out of bond per week.

CARGO GEAR: Wharf equipment supplied by stevedores, load/discharge by ship's gear.

REPATRIATION: Possible, but not recommended.

TIME: Local time in all port is 10 hours ahead of GMT.

HOLIDAYS: The only days on which cargo cannot officially be worked are Good Friday and Christmas Day.

TELEPHONES: Not available at present for ship to shore connection.

SHORE LEAVE: Crew members are allowed ashore.

IDENTIFICATION CARDS: Generally a seamans book is held at the main entrance to the port. Individual passes are not normally required for crew.

BERTH RESERVATIONS: A berth reservation system applies for all overseas vessels at all Papua New Guinea Harbours Board ports.

At Anewa Bay cargo vessels must vacate berth for concentrate carriers.

AITAPE: 03.08 S. 142.21 E. (See Plan)

(See General section on Papua New Guinea ports).

PILOTAGE: Not available.

TUGS: Not available.

BERTHING: Position of wharf 03° 08.51′ S., 142° 21.24′ E. Length of berthing head 18.3 m. (60 ft.). Width 6.2 m. (20.3 ft.). Height of deck above L.A.T. 2.5 m. (8.3 ft.). Minimum depth of water at L.A.T. at wharf head 4.3 m. (14 ft.) – subject to seasonal change. Maximum tidal range 1.4 m. (4.6 ft.)

STEVEDORES: *Working hours:* 0700 – 1200 hrs., 1300 – 1800 hrs.

FRESH WATER: Not available to ships.

FUEL: Not available.

CUSTOMS ALLOWANCE: 200 cigarettes or 250 grams tobacco. 1 litre of spirits or 1 litre of wine or 6 beers (total 4.5 litres) for each 7 days.

AUTHORITY: Port Manager.

ALOTAU: 10.19 S. 150.27 E. (See Plan)

(See General Section on Papua New Guinea Ports)

PORT LIMIT: Seaward Boundary: From a position in 10° 20′ S. 150° 26′ E. bounded on the West by a straight line due North to the coastline. From the same point bounded on the South by a straight line due East to a position in 10° 20′ S. 150° 28′ E. thence bounded on the East by a straight line due North to the coastline.

PILOTAGE: Pilotage is not compulsory. There are no pilots stationed at Alotau but a pilot will attend from Port Moresby given 48 hours notice of the ship's estimated time of arrival.

Pilot boarding ground: Within 300 m. radius of a position with the light structure on the extreme West point of Sanderson Bay bearing 030° (T) distant 1,850 m.

ETA to be sent not less than 12 hours prior to arrival via Port Moresby Radio (P2M) and to be confirmed not more than 5 hours and not less than 4 hours prior to arrival again via Port Moresby Radio (P2M).

ANCHORAGE: There are no recommended anchorage areas for large vessels in the vicinity of Alotau.

BERTHING: Overseas wharf is 93 m. long, height of deck above L.A.T. 2.4 m., minimum depth of water at face at L.A.T. 10.0 m.

Vessels may berth either port or starboard side to at the discretion of the Port Authority.

Load/discharge is by ship's own gear (except under special arrangement).

STEVEDORES: 72 hours notice preferred, but a minimum of 24 hours required.

TANKERS: Discharge facilities are not available.

FUEL: Not available.

FRESH WATER: Available in limited quantities and restricted periods of the year. Prior application to be made to the Port Manager.

REPAIRS: No facilities available.

AIRPORT: Gurney Airport approximately 20 km. from Alotau is served regularly but not daily.

POLICE/AMBULANCE/FIRE: Police: Alotau 555. Hospital: (No separate Ambulance) Alotau 525. Fire: Service shortly to be in operation.

DELAYS: Delays at Alotau are most unlikely.

DEVELOPMENTS: Alotau is a new port and no further developments are likely in the foreseeable future, except a coastal barge ramp.

GENERAL: Covered Storage Area for Overseas Cargo – 1,874 sq.m. Open Storage Area – 7,640 sq.m.

AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Alotau.

ANEWA BAY: 06.11 S. 155.32 E.

(See General Section on Papua New Guinea Ports)

PORT LIMIT: Seaward Boundary: A line joining the Southern end of Takenupei Island and Karikiberia Shoal.

PILOTAGE: The pilot boarding ground is North of a line joining Takenupei Island and Karikiberia Shoal.

ANCHORAGE: Anchorages are available at Port Authorities advice.

BERTHING: Wharf is 77 m. long. The maximum draft permitted alongside is 12 m. and a d.w.t. of 40,000 tonnes.

Vessels may berth either port or starboard side to although normally the latter. Load/discharge is by ship's own gear (except under special arrangement).

STEVEDORES: The Port Authority operate their own stevedoring functions.

TANKERS: A bulk oil discharging gantry is sited at the Western end of the overseas wharf. Mooring dolphins are located 59 m. and 107 m. Eastward and 59 m. Westward of the wharf.

FUEL: Bunker facilities are not available.

FRESH WATER: Available up to a limit of 250 tonnes delivered at a rate of 25 t.p.h.

REPAIRS: No facilities available.

AIRPORT: Aropa airport is 32 km. distant and is served daily by Air Nuigini.

POLICE/AMBULANCE/FIRE: Police: 951222. Ambulance: 956166. Fire: 951333.

DELAYS: Delays are only likely if an ore carrier should make port and the consequent priority system is applied.

DEVELOPMENTS: Enlargement of general cargo facilities are planned by the Port Authority.

GENERAL: Covered Storage: 5,130 sq.m.

SHIPMASTER'S REPORT: July 1975

Documents:

Crew List. (2 Copies of Papua & New Guinea forms to be filled in on arrival at pilot station).

Ship's Stores List. (2 copies of P.N.G. forms to be filled in on arrival at pilot station).

Crew Declaration Form: – (2 copies of P.N.G. Form 5 – Articles in Private Possession of Officers & Crew to be filled in on arrival at pilot station).

Vaccination Certificates of all crew members for sighting.

Pilotage: Two Pilots, employees of the Bougainville Copper Company Ltd., are available 24 hours a day. Pilot boards in position 06° 07′ S. 155° 35′ 18″ E. Pilot vessel is a small tug called the "Loloho", which has a dark blue hull and white superstructure. Pilots listen on VHF Channels 6 and 16. ETA's will have been passed to the Pilots by the ship's Agents, as per charter party, but pilot boat should be advised by VHF when vessel is two hours and one hour respectively from Pilot station. Channel 6 is monitored by Pilots Monday–Friday, 1730–0215 hrs. and when vessels are expected. Pilotage is compulsory.

Max. Size: Restriction mainly on draft. Least water on berth is 40 ft. Although the problem has not as yet arisen, max. length is also restricted to about 700 ft.

Pratique: Immigration officer boards as vessel berths. International Code of Signals "Q" flag should be exhibited on arrival off port. Same officer deals with customs clearance.

Radio: ETA's to Pilots are best routed through Rabaul Radio, call sign P2R, who will pass the message direct to the Pilot office. Honiara Radio may also be used for messages to the ship's Agents.

Tugs: Only one tug, the "Loloho", is available. This is a very small tug which "assists" vessels when berthing and unberthing. No lines used. Tug of little use to larger vessels.

Berthing: Only one berth in the port, with a least depth of 40 ft. alongside. The berth is used for the loading of copper concentrates and the discharge of general cargo and containers. Vessels intending to load copper concentrates should ensure that their hatch covers are not more than 36 ft. above the water line on arrival, to enable the loader to be positioned over her holds. In some cases ballast hatches may have to be left filled until after loading has commenced. The berth is approached at an angle of 45° and a mooring boat will take one head rope ashore first. The back spring should be sent ashore by heaving line as soon as possible. All vessels berth starboard side to the quay. The berth itself is 250 ft. long. Dolphins stand 175 ft. Westward and 135 and 310 ft. Eastward of the ends of the wharf. The ore loader is not a movable fixture, and vessels are required to shift up and down the wharf to facilitate loading concentrates at the requisite hatches. When leaving the wharf the vessel is sprung off, using one head rope and the backspring.

Stevedores: Normal cargo hours for vessels loading are 0600 – 2300 hrs. but in cases where required cargo will be worked 24 hours a day. Stevedores are employees of the Bougainville Copper Company. Approx. loading rate for concentrates 750/1,000 t.p.h. Stevedores will render all possible assistance in shifting ship. For vessels discharging, mobile cranes capable of lifting up to 140 tonnes are available. Shore gangway is normally used.

Medical: There are good hospital facilities in both Anewa Bay itself and also in nearby Kieta. Advanced notice of required medical attention not normally necessary.

Tankers: Tankers are also discharged at Anewa Bay's only wharf. As with other vessels, draft is restricted to 40 ft., and length to about 700 ft.

Density: Varies between 1022 and 1025 according to season and amount of rainfall recently experienced.

Fresh Water: Available on the wharf except during periods of drought. Supplied by 3 in. hose at approximately 60 t.p.h. Can only be supplied at main wharf (not at Dolphins) and it is therefore sometimes necessary when loading concentrates to wait until after hatches are being loaded before hose can be put aboard.

Fuel: Not available.

Consuls: None.

Repairs: No facilities.

Dry Docks: None close by.

Surveyors: None.

Hatches: Steel hatch covers to be opened and closed by crew.

Customs Allowances: 200 cigarettes and one bottle spirits per person.

Repatriation: Regular flights from Kieta Airport (24 kms. distant) to Port Moresby, where possible to link up with international flights. Repatriation can therefore easily be arranged from this port.

Time: GMT plus 10 hours.

Shore Leave: All crew members are allowed ashore. No shore passes required.

Delays: No delays normally experienced, but possible up to 24 hours max.

General: Berth very exposed to S.E'ly winds. Moderate ground swell experienced on berth at times. Considerable rain experienced throughout the year, mainly during the night and early morning.

AUTHORITY: Bougainville Copper Ltd., Panguna, Bougainville. Port Superintendent/Harbour Master, Arawa, Bougainville.

KAVIENG: 02.35 S. 150.48 E. (See Plan)

(See General Section on Papua New Guinea Ports)

PORT LIMIT: Seaward Boundary.

Large vessels should approach from the Nusa Channel where the port limits are as follows:

From the beacon on Cape Siwusat by a straight line 220°(T) to the extreme North point of Usien Island thence by a straight line due West to position in 2° 37.87′ S., 150° 44.57′ E., thence by a straight line due North to the Western extremity of Edmago Island. From the Eastern extremity of Edmago Island the line of the port limit crosses the Eickstedt Passage in the direction 253° (T) to the Southern extremity of Nago Island.

PILOTAGE: Pilotage is not compulsory but a Pilot will attend from Rabaul given 48 hours notice of the ship's estimated time of arrival.

Pilot Boarding Ground: Within 300 m. radius of a position with the Eastern extremity of Edmago Island bearing due North 900 m.

ETA to be sent not less than 12 hours prior to arrival via Rabaul Radio (P2R) and to be confirmed not more than 5 hours and not less than 4 hours prior to arrival again via Rabaul Radio (P2R).

ANCHORAGE: Anchorage may be obtained in sand depth 20 m. in a position East Reef Light structure bearing 042° (T) distant 890 m.

BERTHING: Overseas wharf is 93.8 m. long, height of deck above L.A.T. 2.7 m., minimum depth of water at face at L.A.T. 7 m.

Vessels may berth port or starboard side to at the discretion of the Port Authority.

Load/discharge is by ship's own gear.

STEVEDORES: 72 hours notice preferred, but a minimum of 24 hours required.

TANKERS: Bunker facilities available for diesel at wharf from Caltex and Shell

FRESH WATER: Available in limited quantities, prior application to be made with the Port Manager.

REPAIRS: No facilities available.

AIRPORT: Kavieng airport is some 5 km. from the wharf and is served by daily Air Nuigini flights.

POLICE/AMBULANCE/FIRE: Police: 941222. Ambulance: 941234. Fire: 941222.

DELAYS: Delays at Kavieng are most unlikely.

DEVELOPMENTS: Development of Kavieng port is not envisaged at present.

GENERAL: Covered Storage Area: 750 sq.m. Open Storage Area: 3,000 sq.m.

AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Kavieng.

KIETA: 06.13 S. 155.38 E. (See Plan)

(See General Section on Papua New Guinea Ports).

PORT LIMIT: Seaward Boundary

By a straight line bearing 328° (T) from a point in 6° 10′ S., 155° 42.3′ E., on the seaward edge of Gero Reef to a point in 6° 07.1′ S., 155° 40.4′ E., thence due West to a point at the Northern most extremity of Banaru Reef.

PILOTAGE: Compulsory – Daylight hours only.

Pilot boarding ground: Within 400 m. radius of a position in 6° 07.6′ S., 155° 40.3′ E.

ETA pilot boarding ground not less than 12 hours prior to arrival via Port Moresby Radio (P2M) or Rabaul Radio (P2R). Confirm or amend ETA not more than 5 hours but not less than 4 hours prior to arrival again via Port Moresby or Rabaul. No VHF facility.

ANCHORAGE: There are no recommended anchorages for large vessels in Kieta harbour.

BERTHING: Overseas wharf 122 m. long (as from mid 1977), height of deck above L.A.T. 3.0 m., minimum depth of water at face at L.A.T. 7.5 m.

Vessels may berth either port or starboard side to at the discretion of the Port Authority.

STEVEDORES: 72 hours notice preferred, but a minimum of 24 required.

TANKERS: Tanker discharge is carried out at Anewa Bay.
FRESH WATER: Not usually available, however application can be made to the Port Authority in an emergency.
AIRPORT: Aropa airport is some 19 km. from the port and is served daily by Air Nuigini.
POLICE/AMBULANCE/FIRE: Police: 951222. Ambulance: 956166. Fire: 951333.
DELAYS: Delays can occur occasionally at Kieta but of fairly short duration rarely exceeding 48 hours.
DEVELOPMENTS: A recent extension to the overseas wharf completes the main development programme for the next few years.
GENERAL: Covered Storage: 2,230 sq.m. Open Storage: 1,720 sq.m.
AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Kieta.

KIMBE: 05.33 S. 150.09 E. (See Plan)

(See General Section on Papua New Guinea Ports)
PORT LIMIT: Seaward Boundary.
A line from Gigo Point due North for 1,695 m., thence in a straight line due East for 6,821 m., thence in a straight line due South for 2,438 m. to the Eastern extremity of Telagavu Point.
PILOTAGE: Pilotage is not compulsory but a Pilot will attend from Rabaul given 48 hours notice of the ship's estimated time of arrival. Pilot boarding ground: Within 400 m. radius of a position 5° 31.5′ S., 150° 12′ E.
ETA to be sent not less than 12 hours prior to arrival via Rabaul Radio (P2R) and to be confirmed not more than 5 hours and not less than 4 hours prior to arrival again via Rabaul Radio (P2R). No VHF facility.
ANCHORAGE: There are no recommended anchorage areas for large vessels in the vicinity of Kimbe.
BERTHING: Overseas wharf is 60.9 m. long, height of deck above L.A.T. 3.1 m., min. depth of water at face at L.A.T. 10.7 m.
Vessels may berth either port or starboard side to at the discretion of the Port Authority.
Load/Discharge is by ship's own gear (except under special arrangement).
STEVEDORES: 72 hours notice preferred, but a min. of 24 required.
TANKERS: Discharge facilities only, for oil products. Palm oil loading over main wharf.
FRESH WATER: Is available at a rate of 27 t.p.h., but may be restricted at times during the year.
AIRPORT: Hoskins airport is approx. 30 km. distant and is served by Air Nuigini several times a week.
POLICE/AMBULANCE/FIRE: Police: 935022. Ambulance and Fire: No services available.
DEVELOPMENTS: No further development is planned for the port in the near future.
GENERAL: Covered Storage: 745 sq. m. Open Storage: 6040 sq.m.
AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Kimbe.

LAE: 06.48 S. 147.11 E. (See Plan)

(See General Section on Papua New Guinea Ports)
PORT LIMIT: From a position Lat. 6° 44′ 12″ S., Long. 146° 59′ 52″ E. 175° T. for 2.2 cables, thence 270° T. for 9.3 cables, thence 017° T. to the shore. Time of arrival at Sugarloaf Anchorage, if berth is not immediately available, is accepted as time of arrival in port.
The Port Limits are due for revision.
PILOTAGE: Pilotage is compulsory – 24 hours a day.
Pilot Boarding Ground: within 400 m. radius of a position with the S.E. corner of the main wharf bearing 295° (T) distant 1850 m.
ETA at Pilot boarding ground not less than 12 hours prior to arrival via Port Moresby Radio (P2M) or Rabaul Radio (P2R). Confirm or amend ETA not more than 5 hours and not less than 4 hours prior to arrival (VHF Channel 16 – call Lae Port Control then to Channel 12 or 6 for working Channels.)
ANCHORAGE: Safe anchorage is available about 3 miles from Main Wharf in the Huon Gulf Area, called Sugarloaf Anchorage, at approximately 1.5 miles offshore between beacons:
Northern Beacon: Lat. 6° 47′ 10″ S., Long. 146° 57′ 20″ E.
Southern Beacon: Lat. 6° 48′ 20″ S., Long. 146° 57′ 06″ E.
Holding ground is good and 11 fathoms is found just South of the line with Northern Beacon bearing West True 1.5 miles distant. The depth varies within a fathom or two in seasons on account of the soft bottom.
Medium sized vessels up to 100 m. LOA may find Safe Anchorage 1.5 cables from N.W. end of the Overseas Wharf in position 6° 44′ 03″ S., 156° 48′ 8″ E. Depth of water 9.14 m.
RESTRICTIONS: Except for LPG and tankers, vessels berth and sail any time of the day or night, depending on availability of berths and number of vessels waiting for a berth.
RADIO: Radio contact is made through Port Moresby Radio or Rabaul Radio on 6280 kc/s.
TUGS: A 12.2 m. tug, 2×6.4 m. steel work boats are available for running lines to wharf and shore bollards.
BERTHING: Overseas wharf is 430 m. long, height of deck above L.A.T. 2.7 m., min. depth of water at face at L.A.T. 11.0 m. Max. draft 9.7 m.
Vessels may berth either port or starboard side to at the discretion of the Port Authority. Provided anchorage in Milfordhaven Bay is clear, ample swinging room is available off the N.W. end of the Wharf.
Load/discharge is by ships own gear (except under special arrangement).
STEVEDORES: 72 hours notice preferred, but a min. of 24 required. Working hours 0600–2400 hrs.
Advise number of gangs required, hatch tonnages and information of any particular heavy lifts or awkward cargo.
MEDICAL: Maximum possible notice should be given so that full arrangements can be made with regard to hospitalisation, etc. Full hospital facilities are available approximately 2.5 miles from the wharf.
TANKERS: Discharge and bunkering facilities are available for all ship requirements (See Developments).
FUEL: Available.
FRESH WATER: Sometimes restricted but generally available at the rate of 30 t.p.h.
REPAIRS: Only minor repairs can be carried out.
SURVEYORS: Lloyds Agent: Shipping Manager, Burns Philp (N.G.) Ltd., P.O. Box 79, Lae.
AIRPORT: Lae airport is at present only 3 km. from the main wharf, however the opening of a new airport at Nadzab will be approx. 30 km. distant. Serviced daily by Air Nuigini flights.
POLICE/AMBULANCE/FIRE: Police: 422222. Ambulance: 421211. Fire: 424333.
Fire alarms are connected to the Gatehouse which has a direct telephone link to the Police station for emergency purposes.
DELAYS: Lae is the largest and busiest of the country's ports (except for Anewa Bay) and at times delays for up to 48 hours can be expected.
DEVELOPMENTS: A new tanker discharge and bunkering facility is to be constructed at the East end of the main wharf.
Future development is based on the concept of a tidal basin to the West of the existing facility.
GENERAL: Covered Storage: 13622 sq. m. Open Storage: 37000 sq. m.
AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Lae.

LORENGAU: 02.01 S. 147.16 E. (See Plan)

(See General Section on Papua New Guinea Ports)
PORT LIMIT: Seaward Boundary.
From the Eastern extremity of Hauwei Island by a straight line due North for 2,050 m., thence by a straight line due East for 2,920 m., thence by a straight line due South for 2,000 m. to the Old Light House on Ndrilo Island.
PILOTAGE: Pilotage is not compulsory but a Pilot will attend from Madang given 48 hours notice of the ship's intention to call at Lorengau.
Pilot Boarding Ground: Within 400 m. radius of a position with Ndrilo Island Old Light House bearing 127° (T) distant 1,850 m.
ETA to be sent not less than 12 hours prior to arrival via Port Moresby Radio (P2M) or Rabaul Radio (P2R) and to be confirmed at not more than 5 hours and not less than 4 hours prior to arrival. No VHF facility.
ANCHORAGE: Anchorage may be obtained in soft mud in depths of about 30 m. anywhere in Seeadler Harbour but an anchorage in position Bear Point 210° (T) 2,600 m. is recommended.
BERTHING: Nabu wharf at Lorengau is 15.2 m. long with a berthing dolphin 25.9 m. from the Northern end of the wharf. The height of the deck above I.S.L.W. is 2.9 m., minimum depth of water at face at I.S.L.W. 5.1 m.
Nabu wharf is not suitable for large ships but overseas vessels occasionally use the wharf at Lombrum Navy Base in position 2° 02.1′ S., 147° 22.6′ E., which now lies within the declared port of Lorengau.
Berthing at Nabu wharf may be delayed during the N..W. season, December–March.
STEVEDORES: 72 hours notice preferred, but a minimum of 24 required.
TANKERS: Discharge facilities are available at Nabu wharf.
FRESH WATER: Limited supplies available, prior application to be made to the Port Authority.
AIRPORT: Momote airport is some 45 kms. from Lorengau and is served by Air Nuigini but not daily.
POLICE/AMBULANCE/FIRE: Police: Lorengau 22. Ambulance and Fire: No services available.
DELAYS: Delays at Lorengau are most unlikely.
DEVELOPMENTS: No development for the port is envisaged in the near future except for the erection of a transit shed.
GENERAL: Covered Storage: 780 sq. m. Open Storage: Very little.
AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Lorengau.

MADANG: 05.12 S. 145.49 E. (See Plan)

(See General Section on Papua New Guinea Ports)
PORT LIMIT: Seaward Boundary.
By a straight line due East from the Easternmost extremity of Kramket Island to position 5° 11.9′ S., 145° 51.5′ E., thence due South to position 5° 13.5′ S., 145° 51.5′ E., thence by straight line due West to a point on the Easternmost extremity of the Kalibobo (Schering) Peninsula known as Cape Kusseron.
PILOTAGE: Compulsory – Inwards during daylight hours only. Outwards during the hours 0600–2400 hrs.

Pilot Boarding Ground: Within 400 m. radius of a position with the Coastwatchers lighthouse bearing 260° (T) distant 1,800 m.

ETA pilot boarding ground not less than 12 hours prior to arrival via Port Moresby Radio (P2M) or Rabaul Radio (P2R). Confirm or amend ETA not more than 5 hours but not less than 4 hours prior to arrival again via Port Moresby or Rabaul. No VHF facility.

ANCHORAGE: Anchorage area is inside the Dallman Passage in the area to the North of the main channel bounded by Beliau Island to the West and Kramket Island to the East. Depth of water, 40 m. Good holding ground in soft mud. Ships should not proceed to anchorage area without Pilot's advice.

BERTHING: Overseas wharf 137.1 m. long, height of deck above I.S.L.W. 3.1 m., minimum depth of water at face at I.S.L.W. 10.1 m.

Vessels may berth either port or starboard side to at the discretion of the Port Authority.

Load/discharge is by ship's own gear (except under special arrangement).

A separate facility to serve woodchip vessels (and Caltex tankers) only is situated within Binnen Harbour West of the main wharf facilities.

STEVEDORES: 72 hours notice preferred, but a minimum of 24 required.

TANKERS: Discharge at main wharf for both Shell and Mobil. Caltex discharge by floating pipe-line while moored at the Jant woodchip facility.

FUEL: Bunkering for overseas vessels not available.

FRESH WATER: Only very limited supply available dependent on season, prior arrangement must be made to Port Authority.

REPAIRS: A coastal slipway at Madang but only minor deck repairs could be carried out to overseas vessels.

SURVEYORS: Lloyds agents, The Manager, Burns Philp (N.G.) Ltd., P.O. Box 605, Madang.

AIRPORT: Madang airport is 6 km. from the port and is served daily by Air Nuigini.

POLICE/AMBULANCE/FIRE: Police: 822222. Ambulance: 822022. Fire: 822777.

DELAYS: Although there is only one overseas berth at the main wharf, Madang delays are not common and are of short duration when they do occur.

DEVELOPMENTS: A new coastal facility has been completed, and when traffic justifies expenditure an extension of the overseas wharf Eastward will be undertaken.

GENERAL: Covered Storage: 25,000 sq.m. Open storage: 5,575 sq.m.

AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Madang.

ORO BAY: 08.54 S. 148.29 E. (See Plan)

(See General Section on Papua New Guinea Ports)

PORT LIMIT: Seaward Boundary.

From the extreme North point of the mainland on the South side of the entrance to Port Harvey by a straight line due North for 2,935 m. thence by a straight line due West for 2,760 m. to the coastline.

PILOTAGE: Pilotage is not compulsory but a Pilot will attend from Port Moresby or Lae given 48 hours notice of the ship's intention to call at Oro Bay.

Pilot Boarding Ground: Within 300 m. radius of a position with the North corner of Oro Bay wharf bearing 225° (T) distant 1,850 m.

ETA to be sent not less than 12 hours prior to arrival via Port Moresby Radio (P2M) and to be confirmed not more than 5 hours and not less than 4 hours prior to arrival. No VHF facility.

ANCHORAGE: In sand and mud at 15 m. depth may be obtained on the leading marks 239° (T) distant 400 m. from the North corner of the wharf.

BERTHING: Wharf is 60.3 m. long, height of deck above I.S.L.W. 2.5 m., min. depth of water at face at I.S.L.W. 11.4 m.

Vessels may berth either port or starboard side to at the discretion of the Port Authority.

Load/discharge is by ship's own gear (except under special arrangement).

Berthing may be delayed during the N.W. season, December – March.

STEVEDORES: 72 hours notice preferred, but a min. of 24 required.

TANKERS: No discharge facilities exist at present.

FUEL: Not available.

FRESH WATER: Not available.

AIRPORT: Popondetta airport is 40 km. from the port and is served by Air Nuigini,but not daily.

POLICE/AMBULANCE/FIRE: Police: 297122. Ambulance: No service available. Fire: 297122.

DELAYS: Delays at Oro Bay are most unlikely.

DEVELOPMENTS: The area around Popondetta is being developed as major palm oil plantations and this could eventually lead to expansion of the port.

GENERAL: Covered Storage: 739 sq.m. Open Storage: 4645 sq.m.

AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Popondetta.

PORT MORESBY: 09.28 S. 147.08 E. (See Plan)

(See General Section on Papua New Guinea Ports)

PORT LIMIT: Seaward Boundary.

A straight line bearing 300° (T) from a point at the South Western extremity of Nateara Reef to a point at the Southernmost extremity of Sinari Reef.

PILOTAGE: Pilotage is compulsory – 24 hours a day.

Pilot boarding ground: Within 300 m. radius of a position Basilisk Beacon bearing 065° (T) distant 1,500 m. *OR* in bad weather the pilot boarding ground will be withdrawn inside the Basilisk Passage to a position Basilisk Beacon 220° (T) 950 m.

ETA at Pilot boarding ground not less than 12 hours prior to arrival via Port Moresby Radio (call sign P2M).

Confirm or amend ETA not more than 5 hours and not less than 4 hours prior to arrival (VHF Channel 16 – call Moresby Pilot thence switch to Channel 12 for working Channel).

ANCHORAGE: Vessels may, subject to permission being granted by the Pilotage Authority, proceed inwards without a Pilot to an anchorage area in the outer harbour centred in position North Point Manubada Island 090° (T) 1275 m.

Depth of water 27 m. Good holding ground in soft mud and sand.

BERTHING: Overseas berth is 213.3 m., height of deck above. L.A.T. 4.4 m., min. depth of water at face at L.A.T. 7.6 m. on outer face, 4.6 m. on the inner North Eastern arm, 3.8 m. on the inner South Western arm.

The wharf is a "T" head structure and vessels may berth either side to at the discretion of the Port Authority.

Load/discharge is by ship's own gear.

STEVEDORES: 72 hours notice preferred, but a minimum of 24 hours required.

TANKERS: Tankers may discharge at Oil Company buoys N.W of the wharf area, max. draft 13 m. The discharge is through submarine pipe-lines.

FUEL: Bunkering facilities for overseas vessels is by road tanker only.

FRESH WATER: Available at the rate of 20 t.p.h.

REPAIRS: A small slipway for coastal vessels only is situated adjacent to the main wharf.

AIRPORT: Jacksons Airport, Papua New Guinea's only international airport is 13 km. from the wharf and is served by flights to and from Australia daily, to Manila weekly as well as daily flights to all main internal centres.

POLICE/AMBULANCE/FIRE: Police: 252222, 255555, 242000. Ambulance: 256822. Fire: 242255, 255188, 253400.

DELAYS: The main wharf can only just cope with two overseas vessels and consequently in peak periods delays can be expected up to 48 hours.

DEVELOPMENTS: A new deep sea berth backed by land fill reclamation is planned for the area North of the present facility.

GENERAL: Covered Storage: 4710 sq.m. Open Storage Area: 11,150 sq.m.

AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Port Moresby.

AGENTS: Burns Philp (N.G.) Ltd., P.O. Box 75, Port Moresby. Telex NE 22116. Cables: "Burphil Port Moresby".

Agents at all Papua New Guinea Ports.

RABAUL: 04.12 S. 152.10 E. (See Plan)

(See General Section on Papua New Guinea Ports)

PORT LIMIT: Seaward Boundary.

By a straight line due South from a point on the Easternmost extremity of Matupi Island for 4,375 m. to a position in Lat. 4° 16.8′ S., Long. 152° 11.8′ E., thence by a straight line due West to a point on the S.E. extremity of the land known as Vulcan.

PILOTAGE: Compulsory – 24 hours a day.

Pilot Boarding Ground: Within 400 m. radius of a position with Matupi Island light house bearing 360° (T) distant 1,830 m.

ETA at pilot boarding ground not less than 12 hours prior to arrival via Rabaul Radio (P2R). Confirm or amend ETA not more than 5 hours and not less than 4 hours prior to arrival (Rabaul Radio – (P2R)). No VHF facility.

ANCHORAGE: There are no recommended anchorage areas for large ships, but anchorage in approx. 30 m. of water may be obtained in good holding ground in a position lower leading light bearing 015° (T) distant 1,110 m.

BERTHING: There are two overseas berths. Bay Road wharf is 152.4 m. long, height above M.L.W. 2.8 m., min. depth of water at L.A.T. 7.9 m.

Vessels may berth either port or starboard side to at either wharf at the discretion of the Port Authority.

Load/discharge is by ship's own gear (Except under special arrangement).

STEVEDORES: 72 hours notice preferred, but a min. of 24 hours required.

TANKERS: Discharge facilities are available for overseas vessels at the Blanche Street Wharf.

FUEL: Available by road tanker and alongside Blanche Street Wharf.

FRESH WATER: Available at a rate of 25 t.p.h., supply sometimes restricted. Prior arrangement to be made with the Port Authority.

REPAIRS: Only light deck repair facilities available.

SURVEYORS: Lloyds Agent, Burns Philp (N.G.) Ltd., P.O. Box 87, Rabaul.

AIRPORT: Rabaul airport is 4 km. from the port and is served daily by Air Nuigini.

POLICE/AMBULANCE/FIRE: Police: 922222. Ambulance: 922162. Fire: 921411.

DELAYS: Delays at Rabaul are unlikely.

DEVELOPMENT: The only development planned at Rabaul for the next few years are new coastal facilities.

GENERAL: Covered Storage: 9,640 sq.m. Open Storage: 18,600 sq. m.
AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Rabaul.

SAMARAI: 10.36 S. 150.39 E. (See Plan)

(See General Section on Papua New Guinea Ports)
PORT LIMITS: Seaward boundary.

From a point on the Northernmost point of Samarai Island due North for 800 m. thence due West for 1,300 m. thence due South for 1,000 m. thence due East for 1,000 m. to a point on the N.W. coast of Samarai Island.
PILOTAGE: Pilotage is not compulsory but a Pilot will attend from Port Moresby given 48 hours notice of the ship's intention to call at Samarai.

Pilot boarding ground: within 300 m. radius of a position with the North corner of Samarai main wharf bearing 180° (T) distant 1,850 m.

ETA to be sent not less than 12 hours prior to arrival via Port Moresby Radio (P2M) and to be confirmed not more than 5 hours and not less than 4 hours prior to arrival. No VHF facility.
ANCHORAGE: There are no recommended anchorage areas for large vessels in the vicinity of Samarai.
BERTHING: Overseas wharf is 93.2 m. long, height of deck above LWOST 2.7 m., minimum depth of water at face at LWOST 7.8 m.

Vessels may berth either port or starboard side to at the discretion of the Port Authority.

Load/discharge is by ship's own gear.
STEVEDORES: 72 hours notice preferred, but a minimum of 24 hours required.
TANKERS: Discharge only at main wharf.
FUEL: Diesel available by pipe-line.
FRESH WATER: Very limited quantities available at times, prior arrangements to be made with Port Authority.
AIRPORT: There is no airport at Samarai. The nearest airport is at Gurney, outside Alotau.
POLICE/AMBULANCE/FIRE: Police: Samarai 225. Ambulance (Hospital) Samarai 222. Fire: No service available.
DELAYS: Delays at Samarai are most unlikely.
DEVELOPMENTS: A new coastal facility is being designed for Samarai and after construction the port will be closed to overseas vessels.
GENERAL: Covered Storage: 390 sq.m. Open Storage: 140 sq.m.
AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Samarai.

VANIMO: 02.41 S. 141.18 W. (See Plan)

(See General Section on Papua New Guinea Ports).
PILOTAGE: Not available.
TUGS: One tug 150 b.h.p.
BERTHING: Position of wharf: 02° 41.09′ S, 141° 17.84′ E. Length, 18.7 m. (61.5 ft.); width 6.1 m. (20 ft.). Minimum depth alongside at L.A.T. 4.9 m. (16 ft.).
FRESH WATER: Not available to ships.
FUEL: Distillate available by road tanker.

WEWAK: 03.34 S. 143.38 E. (See Plan)

(See General Section on Papua New Guinea Ports)
PORT LIMIT: Seaward Boundary.

From Wewak Point by a straight line due North for 2,900 m. thence by a straight line due East for 3,725 m. thence by a straight line due South for 4,780 m. to a point 800 m. due East of Cape Boram, thence to Cape Boram.
PILOTAGE: Pilotage is not compulsory but a Pilot will attend from Madang given 48 hours notice of the ship's intention to call at Wewak. A Pilot will shortly be stationed at Wewak.

Pilot Boarding Ground: Within 800 m. radius of a position in 3° 32′ S., 143° 39.5′ E.

ETA to be sent not less than 12 hours prior to arrival via Port Moresby Radio (P2M) or Rabaul Radio (P2R) and to be confirmed not more than 5 hours and not less than 4 hours prior to arrival. No VHF facility.
ANCHORAGE: There are no recommended anchorage areas for large vessels in the vicinity of Wewak.
BERTHING: Overseas wharf is 73.1 m. long, height of face above Chart Datum is 3.5 m., min. depth of face at Chart Datum is 6.7 m.

Vessels may berth either port or starboard side to at the discretion of the Port Authority.

Load/discharge is by ship's own gear.

Berthing may be delayed during the N.W. season December – March.
STEVEDORES: 72 hours notice preferred, but a minimum of 24 hours required.
TANKERS: No discharge facility exists.
FUEL: No facilities.
FRESH WATER: Not available.
AIRPORT: Wewak airport is 5 km. from the port and is served daily by Air Nuigini.
POLICE/AMBULANCE/FIRE: Police: 862222. Ambulance: 865188. Fire: 865055.
DELAYS: Delays at Wewak are unlikely but if they do occur are of short duration.
DEVELOPMENTS: The only planned development is to widen the pile causeways leading to the main wharf.
GENERAL: Covered Storage: 1,500 sq.m. Open Storage: 2,320 sq.m.
AUTHORITY: Papua New Guinea Harbours Board, Port Moresby. Port Manager, Wewak.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Peru

ATICO: 16.14 S. 73.43 W.

Atico is an open roadstead and unprotected. The main activity is the loading of fishmeal.

PILOTAGE: Not available.

ANCHORAGE: Vessels anchor in the open roads.

TUGS: 1 available.

LIGHTERS: 3 available, 100 tons each.

CRANES: None.

STEVEDORES: See "Pimentel" for working hours and overtime rates.

There are 2 gangs available.

MEDICAL: Available at Mallendo.

FRESH WATER: Not available.

FUEL: Not available.

GENERAL: *Swell Period:* Heavy swell in the Winter months, June–September.

AGENTS: See "Callao".

CALLAO: 12.03 S. 77.10 W. (See Plan)

DOCUMENTS:

Airmail copies must be presented to Port Authorities 72 hours before arrival of vessel as otherwise vessel will be fined. No docking is allowed until Cargo Manifests and Cargo Plan are presented.

Vessel copies to be delivered on Clearing vessel inbound on arrival when Health, Customs and other Authorities board.

	Airmail	*Vessel*
Cargo Manifests, including additionals. Must be faithful copies of Bills of Lading descriptions	5	*7
Same Manifests, but freighted	5	2
Cargo Manifests covering cargo shortshipped but manifested on previous vessels calling at Callao	5	*7
(If Hectograph Masters are airmailed, we can print the required number of Manifests)		
Transit Cargo Manifests	–	3
Freighted copy of each Bill of Lading	–	4
List of Containers with their numbers	2	2
Content List, each Container, properly identified with marks, numbers and Bills of Lading numbers	2	2
Dangerous Cargo Lists showing complete description of goods, Flash Point, IMCO Classification, Type of Label, marks, numbers and Bills of Lading numbers	3	3
Transit Dangerous Cargo Lists	3	3
Mail Manifests	5	5
Passenger Lists	1	*10
Transit Passenger Lists	–	*10
Tally Books	–	16
Stowage Plan	3	–
Consolidated Stowage Plan, prepared or checked on board	–	3
Visaed Tonnage Certificate or General Declaration from First Port receiving cargo for Peru and every port of call thereafter	–	1
Health Clearance, last port of call	–	1
Vaccination List	–	*1
General Declaration	–	*7
Crew List	–	*10
Crew Personal Effects Declaration	–	*3
Store List	–	*4
Sealed Consular Documents addressed to Customs, Envelope	–	1

*Must be made out on LAFTA Forms.

PILOTAGE: Pilots must be requested by Agent and board ships outside of port at anchorage. Various pilot launches painted white, black and red. Pilots will only board after free pratique granted by Port Captain and doctor.

ANCHORAGE: Very large area West of entrance buoys, North of Naval anchorage.

RESTRICTIONS: Vessels of up to 32 ft. draft may enter at any time. Vessels of more than 32 ft. draft must enter at high water. Pilots available 24 hours.

MAX. SIZE: Length and breadth practically unlimited, draft 32 ft. plus height of tide making allowance for keel clearance.

HEALTH: Cable Agent requesting free pratique. Agent must be notified in advance if disease suspected on board.

RADIO: "Habla Naves", OAA, 500, 8605, 6430, 1300, 468 Kc/s.

Arrival Advice: 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.

TUGS: Port Authority Tugs join vessel once inside mole, 1 or 2 as required, using vessel's lines, later passed to pier. 4 tugs available 2 at 175 h.p. 1 at 500 h.p. and 1 at 800 h.p.

BERTHING: There are 9 piers with a total of 22 berths, 20 for large vessels, and 2 for coasters.

Pier No.	*Number of Berths*	*Cargo*
1	2	General cargo
2	2	General cargo
3	2	General cargo
4	2	General cargo
5	3	Minerals and grain and general cargo
7	2	Petroleum products
9	4	Fish Meal, general cargo, vegetable oil
10	2	Coasters only
11	3	Wheat, vegetable oil, general cargo

All piers except the petrol pier are connected to railway system for unloading and loading to railway wagons.

Within port limits there are 2 anchorages normally used for discharge of livestock, scrap and occasionally for general cargo.

Piers equipped with conveyor belt for loading minerals and fish meal.

For discharge of grain there are 2 pneumatic suction pipes and silos with capacity of 23,000 tons. There is a silo capacity 35,000 tons under construction.

The rate of discharge of the pneumatic discharging bridges is 100/150 t.p.h. each. The port plans to have 3 more bridges.

There are 4 storage tanks for vegetable oil, total capacity 500 tons.

STEVEDORES: No particular advice necessary but Agent must receive Stowage Plan beforehand to advise Port Authority of planned operation.

Working Hours: 0700–1200, 1300–1600, 1700–2400 hrs.

Lighters: 10 with 50 tons capacity and 2 private with 60 and 70 tons capacity.

CRANES: 18 with 4–5 ton capacity, 4 with 10 tons and 1 with 27 tons capacity. The Peruvian Navy have a floating crane with lifting capacity of 80 tons.

MEDICAL: Advance information as to sick crew members not required but helpful. Ample first class facilities in Lima area. Smallpox vaccination cards required.

TANKERS: *Petroleum Pier: Pier No. 7:* Max. depth 35 ft., however, depth in approaches to berth is 33 ft. at HW and 31 ft. at LW, max. length about 200 m.

Discharge Pipe-lines:

(1) Pipe-line of 14 in. for clean (white) products, kerosene, diesel 1 and 2, turbo A, benzol and eventually gasoline.
(2) 16 in. for discharge of gasoline, inclusive aviation gasoline and solvents.
(3) 12 in. for LPG.
(4) 22 in. for dirty products, petroleum 4, 5, 6 and asphalt.
(5) 6 in. for chemical products, xylol, toluol, acrylonitril, etc.

These lines can be used simultaneously at the berth places A and B, but also depending on store facilities on shore or delivery into trucks.

Discharging pressure of the lines: 100 lb. per sq. in. for the lines with 12, 14, 16 and 22 in. On the pipe-line of 6 inches it is possible to reach a pressure of 250 lb. per sq. in., for discharge of LPG.

Connections: There are connections from 4 to 10 in. for all kind of flanges.

Water: Supply of water is possible, 40 t.p.h.

Discharge of ballast or slops inside mole prohibited. Tankers loading Fishoil must arrive free of ballast.

DENSITY: Sea water.

FRESH WATER: All berths equipped with fresh water supply at a rate of 30 t.p.h.

FUEL: The following are available from Petroleos del Peru, Bunker "C" 3,500 seconds, Petroperu No. 5 (intermediate 4) 400 seconds, Diesel 2 (marine diesel) 100 seconds.

FIRE PRECAUTIONS: Use of Port Authority Fire Equipment mandatory during discharge of petroleum products with charge for service.

GANGWAY/DECK WATCHMEN: Recommendable.

CERTIFICATES: All may be required but normally only Deratisation. If Ratguards are not used on all lines, vessel liable to fines.

CUSTOMS ALLOWANCE: Any amount over normal consumption usually cause difficulties including searching.

CARGO GEAR: No additional requirements.

IDENTIFICATION CARDS: Supplied by Agent and stamped by Immigration Authority required for all crew members.

REPAIRS: Normal Deck and Engine repair facilities.

DRY DOCKS: The naval dry dock has the following facilities:

(*a*) Dry dock – length 632 ft., width 82 ft., depth 21 ft.
(*b*) Floating dock 107 – length 408 ft., width 48 ft., depth 20 ft.
(*c*) Floating dock 106 – length 288 ft., width 46 ft., depth 14 ft.

SURVEYORS: H. M. Beausire and Co. S.A. are Lloyd's Agents.

REPATRIATION: All foreign crew members who do not have Peruvian Visas which only obtainable abroad, must be repatriated by quickest means (Air) by Agent, paying all detention expenses. Peruvian and foreign crew members available.

AIRPORT: Lima/Callao within city limits has regular direct international service to North and South America, Europe and Far East.

HOLIDAYS: Only 1st May when work is not available.

AUTHORITY: Port Captain, Terminal Maritimo de Callao.

AGENT: La Hanseatica S.A. – General Agents, Ship Agents, Brokers, Stevedoring. Jr. A. Miro Quesada 260 – OF. 406, PO Box 3049, Lima, Peru. Tel. 287850. Telex 25279–20029–20464. Cables "Hapaglloyd" and "Hanseat".

CHANCAY: 11.34 S. 77.16 W. (See Plan)

Chancay is an unprotected open roadstead about 31 miles North of Callao. The main activities are the loading of fishmeal and discharging of fertilisers.

PILOTAGE: Compulsory. The Port Captain currently acts in this capacity.

ANCHORAGE: There is a good anchorage, in 5 and 8 fathoms of water, on a sand and mud bottom, located in the outer area of the bay, which is 1 mile long by 0.5 miles wide.

RADIO: *Arrival Advice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.

TUGS: 2 Tugs of 56 h.p.

LIGHTERS: 12 lighters with a capacity of 40 tons each.

CRANES: 4 with maximum capacity of 14 tons.

STEVEDORES: The same system applies here as throughout the Republic, the tariff only altering according to the number of workers employed.

3 shifts and 2 more if necessary.

MEDICAL: Medical consultations possible.

FRESH WATER: Not available.

FUEL: Not available.

AUTHORITY: Port Captain.

AGENT: See "Callao".

CHIMBOTE: 09.05 S. 78.35 W. (See Plan)

Chimbote is a berth port with possibilities to load and discharge from and into lighters if berths are not available. Main activity: Loading of fishmeal and minerals; discharging of iron, steel, and general cargo.

DOCUMENTS:

For Entry

2 Entry Declarations (Form No.1).
1 Departure License of the last foreign port en route.
1 Maritime Health Declaration (Form No. 2).
2 Passenger Lists with entry baggage (Form No. 3).
1 Consular Roll of the last foreign port en route.
1 Consular Passenger List of the last foreign port.

Customs Administration

1 Original Cargo Manifest(s) with the Consular stamp. (Form No.4).
The envelope(s) from the Consul, enclosing copies of the Consular invoices, bill of lading and cargo manifest for the port with the Consular stamp.
1 Cargo Manifest (Form No.4).
1 Cargo Manifest of cargo, but with further destination for another national or foreign port (Form No. 4).
1 Cargo Manifest in transit.
1 Gross or Net Tonnage Certificate, with Consular visa.
1 Unaccompanied Baggage List (Form No. 5).

Customs

1 Entry Declaration (Form No. 1).
1 Cargo Manifest(s) for port without Consular visa (Form No. 4).
1 Manifest of Cargo for port, but with further destination for another national or foreign port, without Consular visa (Form No. 4).
2 Passenger Lists with entry baggage (Form No.3).
2 Not Accompany Baggage Lists (Form No. 5).
1 Crew Personal Effect List.
1 Store List, food and spirits.
1 Mail List.

Port Administration

1 Entry Declaration (Form No.1).
1 Passenger List with entry baggage (Form No. 3).
1 Not Accompany Baggage List (Form No. 5).
3 Cargo Manifests for the port, without the Consular visa (Form No.4).
3 Manifests of Cargo for port, but with further destination for another national or foreign port, without Consular visa (Form No. 4).
3 Sets of Bills of Lading.

Refer to "San Juan" for further information on Consular endorsement.

PILOTAGE: Compulsory. Official Pilot boards vessels at entrance to bay and leads ship to appropriate anchorage according to draft. Private Pilot to moor to the quays of the "Corporacion Peruana del Santa" and to "Sogesa". Vessels enter the inner roadstead, through Southern side of each channel. Depart through Northern side of channel.

ANCHORAGE: Good anchorages in bay according to draft. Anchorages are of mud and sand. Best place to anchor ship of medium draft is inner side of Paso del Norte, 6 fathoms deep, near port and safe. Another good anchorage for ship of medium draft is with Island bearing 170° and Rosas Blancas bearing 275°, 6 fathoms deep.

HEALTH: Masters apply according to International Regulations through Agents to Maritime Health Department in the first Peruvian port of call for free pratique by radio, in which case it will not be necessary for Sanitary Doctor to board on arrival. Pratique only essential at first port of call unless requested by Captain, in case of suspected illness on board.

RADIO: "Hablanaves" Station del Callao a Talara.

Arrival Advice: 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.

TUGS: 6 private, 3 of 80 h.p., 1 of 60 h.p. and 1 of 165 h.p. and 1 of 180 h.p. The Port Authority has two tugs, 1 of 400 h.p. and 1 of 200 h.p.

BERTHING: 3 Piers available.

No. 1 Pier: Length 180 m., width 15.10 m., depth alongside 28 ft.

No. 2 Pier: Used only for the loading and discharge of lighters (fishmeal). Length 54 m., width 18.40 m.

No. 3 Pier: Operated by Siderperu. Length 264 m., width 25.6 m., depth alongside 30 ft. There are two bridges for discharging coke and minerals by clamp. (Total capacity 300 t.p.h.)

LIGHTERS: 12 for dry cargo: 2 at 150 tons and 10 at 50 tons. 10 tanklighters with a total capacity of 1,300 tons.

CRANES: 10 cranes: 4 at 3 tons, 3 at 13 tons, 2 at 15 tons and 1 at 35 tons.

STEVEDORES: Agent arranges stevedores. Normally done when ship has arrived.

See "Pimentel" for working hours and overtime rates. 30 gangs of 9 men each available also 6 carpenters.

MEDICAL: Agent arranges emergency attention. Hospital and private clinic available.

TANKERS: Three zones for load/discharge of fish-oil and lubricants. Ship loads fish-oil by barges being anchored. Discharge of fuel when ship anchored to buoys by means of submarine lines.

FRESH WATER: Two barges to supply fresh water to ships, one of 40 metric tons and other one of 25 metric tons. Fresh water available at Pier No. 3.

FUEL: Available by tanker lorries if special arrangements are made.

DEVELOPMENTS New quays to be built.

GANGWAY/DECK WATCHMEN: The services of watchmen are necessary.

OPENING/CLOSING HATCHES: This job is carried out by stevedores.

CUSTOMS ALLOWANCE: Tobacco: 10 packets per person per week. Wine and/or Spirits: With approval of Customs, within normal consumption.

CARGO GEAR: Vessel's derricks used, the quay has fixed crane for 50 metric tons and three mobile cranes for 15 tons.

IDENTIFICATION CARDS: Needed for both crew and passengers.

CONSULS: Only the Vice-Consul of Spain and Panama.

REPAIRS: Only minor repairs are possible.

REPATRIATION: Facilities for crew changes and arranging any necessary repatriation.

AIRPORT: Port has landing place for planes, but it is only for national use, not for international flights.

TIME: GMT minus 5 hours, all year round.

HOLIDAYS: Cargo work can be arranged on holidays with an extra 100% charge over basic pay. The only exception is 1st of May, on which cargo work cannot be arranged.

TELEPHONES: No arrangements for placing telephones on board. They are about 50 m. from ship.

SHORE LEAVE: Crew members allowed ashore.

REGULATIONS: Not allowed to use wireless when ship is in port. Nor allowed to put any boat on the water without permission of Capitania del Puerto. Not allowed to throw any waste or litter into bay. Not allowed to make unnecessary sound signals.

GENERAL: *Swell Period:* February/March and June/October.

AUTHORITY: Capitan de Puerto – Direccion Capitania de Puerto Chimbote.

AGENT: See "Callao".

CONCHAN: 12.10 S. 77.00 W.

Tanker Buoy berth about 30 miles South of Callao.

DOCUMENTS: Tankers calling at Conchan must first call at Callao anchorage to be received and cleared by Authorities. Not necessary to call at Callao after discharge as clearance is simultaneous with reception. Pilot boards vessel at Callao anchorage and either remains on board or returns to take vessel out, as required by Master.

BERTHING: Vessels moor to buoys. One submarine line of 16 in. reducing to 12 in. at vessel's connection, running 1,000 m. from shore opposite Conchan refinery.

LAUNCH: Launch service between Conchan and Callao during vessel's stay in port.

GENERAL: Two Customs police and two refinery employees board at Callao and remain on vessel during discharge.

AGENT: See "Callao".

ETEN: 06.54 S. 79.48 W.

Eten is about 348 miles North of Callao. The port is an unprotected open road. All cargo operations are undertaken by lighters. The main activities are the export of sugar and import of fertiliser and general cargo.
PILOTAGE: Not available.
ANCHORAGE: Vessel anchor about 0.5 mile off the Mole Head in 7–8 fathoms, near the anchorage place of the lighters.
RADIO: *Arrival Notice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.
TUGS: 4 tugs of 80 h.p. each.
LIGHTERS: 13 lighters with a total capacity of 635 tons.
CRANES: 3 steam cranes, 2 × 2 tons and 1 × 15 tons. 1 diesel crane of 3 tons capacity.
STEVEDORES: See "Pimentel".
FRESH WATER: Not available.
MEDICAL: There is a hospital at Chiclayo 15 km. from the port.
CONSULS: Vice-consul of the Netherlands.
GENERAL: *Swell periods;* Eten being an unprotected open road port it frequently occurs that the port has to be closed due to heavy swell. The swell comes up suddenly and is not subject to any specific period, but it occurs more frequently during June/September and the Easter week.
AGENT: See "Callao".

GENERAL SAN MARTIN: 13.50 S. 76.16 W.
PISCO: 13.43 S. 76.14 W.

PILOTAGE: Compulsory.
RADIO: *Arrival Advice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.
TUGS: 16 tugs available. 10–800 h.p.
BERTHING: 1 quay with 4 berths each 175 m. in length. Max. draft 32 ft.
LIGHTERS: 28 wooden lighters for general cargo, total capacity 1,800 tons. 5 steel lighters (not immediately available), total capacity 600 tons. 3 lighters for liquid cargoes, total capacity 500 tons.
CRANES: 1 × 15 tons and 1 × 30 tons lifting capacity.
STEVEDORES: *Working Hours:* 0800–1200 hrs., 1300–1700 hrs., 1800–2400 hrs., 0100–0700 hrs.

109 stevedores available.
MEDICAL: There is a hospital available.
TANKERS: *Submarine Pipe-line:* The pipe-line belongs to "COPSA". Position 13° 36′ 20″ S., 76° 15′ 54″ W. Length of pipe-line 700 m., diameter 8 in. Pilotage is compulsory. Depth of water 7.5 fathoms. Pumping rate 70-75 t.p.h.
FRESH WATER: Available.
FUEL: Not available.
AGENT: See "Callao".

HUACHO: 11.08 S. 77.37 W.

Huacho is an unprotected open roadstead about 69 miles North of Callao. The main activity is the loading of fishmeal and minerals and discharging of fertilisers.
PILOTAGE: Not available.
ANCHORAGE: Vessels anchor in open roads.
RADIO: *Arrival Advice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.
TUGS: 4 tugs available, 1 each at 50, 60, 72 and 180 h.p.
LIGHTERS: 29 lighters, total capacity 1,450 tons.
CRANES: 3 cranes at 7 tons each.
STEVEDORES: See "Pimentel" for working hours and overtime rates.

4 gangs of 9 men each available.
MEDICAL: Assistance available.
FRESH WATER: Not available.
FUEL: Not available.
GENERAL: *Swell Period:* Frequently during the Winter months.
AGENT: See "Callao".

HUARMEY: 10.05 S. 78.09 W.

Huarmey is an unprotected open roadstead for the loading of fishmeal.
PILOTAGE: Not available.
ANCHORAGE: Vessels anchor in the open roads.
RADIO: *Arrival Notice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and Agent.
TUGS: 4 tugs available, 2 × 145 h.p. and 1 each at 120 h.p. and 165 h.p.
LIGHTERS: 18 at 50 tons each.
CRANES: 1 of 2 tons capacity and 1 mobile crane.
STEVEDORES: See "Pimentel" for working hours and overtime rates.

3 gangs of 9 men each available.
MEDICAL: Assistance available.
FRESH WATER: Not available.
FUEL: Not available.
GENERAL: *Swell Period:* June to August.
AGENT: See "Callao".

ILO: 17.39 S. 71.22 W. (See Plan)

DOCUMENTS:

6 Entry Declarations.
4 Passenger Lists (disembarking).
4 Passenger Lists (in transit).
3 Personal Effects Lists.
3 Stores Lists.
1 Maritime Health Declaration.
3 Sets Cargo Manifest.
10 Cargo Manifest.

Refer to "San Juan" for further information on Consular endorsement.
PILOTAGE: No pilot station; there is a Pilot in the Capitania del Puerto, who should be notified in advance by Agents. Two hours notice of ETA required. Pilot boards at anchorage 800 m. from extension of the SPCC quay.
ANCHORAGES: 400 m. to the North of the end of the SPCC quay, in 15 fathoms depth.
MAX. SIZE: See "Berthing".
HEALTH: Pratique given by captain of port. In cases of suspected illness a doctor should be requested in advance. When the ship arrives from another Peruvian port free pratique is automatic.
RADIO: Cables connect with National Communications network. ETA sent to Port Authority and to Agencies.
TUGS: No large tugs; some small tugs operated by Agencies.
BERTHING: Berthing anytime. There are two piers, one belonging to Southern Peru Copper Corp. and one to ENAPU.

SPCC: Two vessels are able to berth alongside. Length of pier 520 ft., width 60 ft. Depth alongside varies from 35 ft. to 50 ft.

ENAPU: Length of pier 300 m., width 20 m. Depth alongside varies from 18 ft. to 60 ft. Vessels able to berth both sides. South side depth 18 ft. at inner end, 54 ft. at outer end. North side depth 24 ft. inner end, 60 ft. outer end.
STEVEDORES: Stevedores come under the Capitania del Puerto and are ordered by Agents. *Loading Rates:* Copper sheets loaded 65 metric t.p.h. Fish-flour loaded at 100 metric t.p.h. in an 8-hour shift.

Working Hours: 0700-1200, 1300-1600, 1700-2400, 0100-0700 hrs., ten gangs available of nine men each.
MEDICAL: Medical assistance ordered by Agents. Hospital "El Centro de la Salud", and the Saint Geronimo Hospital.
TANKERS: *At Ilo:* Discharge line diameter 10 in., 2 lines, connection to the ship's manifold 8 in., connection and flexible line, working pressure 100 lb. A buoy mooring berth.

Depth of water 40 ft. pumping rate 80-90 t.p.h. Vessels of Petroperu have preference.

Punta Tablones: Discharge line diameter 12 in., connection to the ship manifold 8 in. Flexible connection line, working pressure 100 lb. or 400 barrels per hour. A buoy mooring berth.

Max. length 750 ft. Depth of water 40 ft.
DENSITY: Salt water.
FRESH WATER: Available.
FUEL: None available.
DEVELOPMENTS: Terminal quay of 900 ft. long is now being built.
GANGWAY/DECK WATCHMEN: Watchmen provided by Agents when necessary.
OPENING/CLOSING HATCHES: Strictly forbidden for the crew; must be done by stevedores.
CERTIFICATES: When the ship comes from foreign port it is compulsory to produce Certificate of Gross Tonnage.
CUSTOMS ALLOWANCE: Tobacco: 10 packets per person. Wine and/or Spirits: Sufficient for meal times. Normal crew consumption only.
IDENTIFICATION CARDS: Agents arrange for cards to be signed by Port Authority for each crew member.
CONSULS: None.
REPAIRS: Some minor repairs.
REPATRIATION: There are facilities for effecting crew changes and arranging any necessary repatriation. Those who are going to be repatriated must have a permit from the Port Authority to be allowed ashore.
AIRPORT: Ilo Airport, 8 kms. Scheduled flights twice a week on Tuesdays and Saturdays and regular airport in Tacna at 1.5 hours by taxi, scheduled flights twice daily to Lima.
TIME: GMT minus 5 hours. No alterations during the year.
HOLIDAYS: 1st January (New Year); Maundy Thursday and Good Friday (change every year); 1st May (Labour Day); 29th June (Saint Peter and Saint Paul); 28th and 29th July (Motherland Days); 30th August (Saint Rosa of Lima); 1st November (All Saint Day); 8th December (Our Lady); 25th December (Christmas).

Holidays which are not in the Calendar but are considered Holidays with reference to payments to the workers: 6th January (King's Day); 19th March (Saint Joseph); Corpus Christi (it varies every year); The evening of the 24th June (India man day); 30th July (Motherland Day); 15th August (Feast of the Assumption); 24th September (Las Mercedes); 12th October (Race Day); 27th November (Tarapaca Battle); 9th December (Ayacucho Battle).
POLICE/AMBULANCE/FIRE: Southern Copper Corporation operate fire service. Police, Tel. No. 3; Ambulance, tel. No. 3.
TELEPHONES: No arrangements for placing telephones on board.
SHORE LEAVE: Crew members allowed ashore and identify themselves with cards signed by Capitania del Puerto given through ship's Agents.
GENERAL: Tank cleaning and well cleaning must be done 5 miles leeward of port. Not allowed to unload explosive cargo.
DELAYS: Only delays when quay is occupied by two ships. In the load/unload operations the port can attend to 4 ships

simultaneously and 4 more when new quay (that is now being built) is finished.
AUTHORITY: Capitan del Puerto, who is a Navy Officer.

AGENT: See "Callao".

LA PAMPILLA: 11.55 S. 77.09 W.

Tanker Buoy Berth about 30 miles North of Callao.
DOCUMENTS, ETC.: As for Callao.
PILOTAGE: Tankers calling at La Pampilla must first call Callao anchorage to be received and cleared by Authorities. Not necessary to call Callao after discharge as clearance simultaneous with reception. Pilot boards vessel at Callao anchorage and either remains on board or returns by launch to take vessel out, as required by Master.
BERTHING: Vessels moor to buoys. 1 submarine line of 18 in. reduced to 10 in. at vessel's connection running 1,500 m. from shore opposite La Pampilla refinery.
LAUNCH: Launch service between La Pampilla and Callao during vessel's stay in berth.
GENERAL: 2 Customs police and 2 refinery employees board at Callao and remain in vessel during discharge.

AGENT: See "Callao".

MATARANI: 16.59 S. 72.07 W. (See Plan)

Matarani is a berth port. Main activity: loading of minerals, wool, coffee, skins, tin-ingots, discharging general cargo. Matarani is an important transhipment port for cargo to and from Bolivia.
PILOTAGE: Compulsory.
RADIO: *Arrival Advice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.
TUGS: 4 tugs available, 2 at 75 h.p., 1 at 690 h.p. and 1 at 800 h.p.
BERTHING: 1 quay with 3 berths. Length 450 m., width 20.15 m. Vessels of 570 ft. length can berth. Depth alongside 30 ft.
CRANES: 7 cranes. 2 at 7 tons, 3 at 10 tons, 1 at 15 tons and 1 at 20 tons lifting capacity.
MEDICAL: A hospital is available.
STEVEDORES: *Working Hours:* 0800–1200, 1300–1700, 1700–2400, 0000–0600 hrs.

9 gangs available of 15 men each.
FRESH WATER: Available.
FUEL: Not available.
GENERAL: *Swell Period:* From June to August.

AGENT: See "Callao".

PACASMAYO: 07.24 S. 79.33 W.

DOCUMENTS:

3 copies Voyage Log Extract.
2 originals and 5 copies of Entry/Exit Declaration, endorsed by Consul.
8 copies of Passenger Lists for the Port.
8 copies of Transit Passenger List.
4 copies of Store List.
4 copies of Personal Belongings Manifest.
13 copies of Cargo Manifest.
1 Maritime Health Declaration.
2 Crew Lists.
1 Vaccination List.
When this is the first Peruvian port, Gross Tonnage Certificates.
When having cargo for the port, Statement of Cargo, endorsed by Consul.
When Pacasmayo is the first or last port called, Lists or Manifests of cargo in transit (2 copies each).

Refer to "San Juan" for further information on Consular endorsement.
PILOTAGE: The port has no Pilots because it is an open bay. Vessels have free pratique after boarding by port officials.
ANCHORAGE: The most usual anchorage area is in position 7° 23′ 50″ S. 79° 35′ 10″ W. Bottom from 3.25 to 4.5 fathoms deep.
APPROACHES: Reference points are the lighthouse of Cruz Punta Pacasmayo with a range of 12 miles, and during the day the cylindrical tower of cement factory with a height of 50 m. situated in the S.E. of the bay. On the head of the quay there is also a small iron tower of 9 m. height with a permanent red light of 2 miles visibility. The quay is very old and only flat boats can moor.
MAX. SIZE: Wide anchorage without problems concerning length or breadth. Recommended draught 4 fathoms, but it is possible to find 6, 8 or 10 fathoms towards the West. Current from South to North at an average of 6 knots.
HEALTH: Sanitary control is carried out by the health doctor who comes on board with port officials. Normally, captains notify any suspected illness or any other information by telegraph.
RADIO: There is only 1 radio station. It operates in the premises of the Agency Juan Dalmau, call sign OC155 and frequency 40.400 kc/s.
TUGS: They only operate to bring or take out flat bottomed barges once the vessel is moored.
BERTHING: Vessels anchor in open bay.
LIGHTERS: 9 lighters with a total capacity of 400 tons.
CRANES: 1 × 2 tons, 1 × 3 tons and 1 × 4 tons. Max. length of cases 7 m. Max. weight 6 tons.
STEVEDORES: Agents order the number of gangs required. These gangs work at a tariff hour/ton and the amount is controlled by the Port Captain. The number of gangs (9 men each) depends on loading/discharging speed required and on the number of holds and winches available, For overtime rates see "Pimentel".
MEDICAL: Can be provided by Centro Preventivo del Area de Salud or by Hospital Regional de Chepen, 35 km. from port (150 beds).
DENSITY: Salt water.
FRESH WATER: Not available.
FUEL: Not available.
DEVELOPMENTS: When the mines of Micchiquillay (copper) start working, the embarking capacity of the port has to be 100,000 tons per month, consequently it is planned to build a quay for minerals or otherwise a floating island 6 miles from the port for embarking in gross raw materials by pipe-lines.
OPENING/CLOSING HATCHES: These operations are carried out by the stevedores.
SHIP CERTIFICATES: Deratisation or Fumigation Certificate; Vaccination Certificate for Crew and Passengers; Tonnage Certificate when coming from abroad.
CUSTOMS ALLOWANCES: Only tobacco, wines, spirits required for normal consumption, which must be included in vessel's stores list.
CARGO GEAR: Ships gear used.
IDENTIFICATION CARDS: Not required unless leaving the vessel.
CONSULS: There are no Consuls in the port.
REPAIRS: There is a small workshop in the port for minor repairs such as soldering, etc. There is no foundry.
DRY DOCKS: Nearest at Callao.
REPATRIATION: Members of crew of passengers can be repatriated subject to Port Authorities permission and passport control.
AIRPORT: There is a small emergency airport 2 km. from the port where biplanes can land.
TIME: GMT minus 5 hours. During the 3 months of Summer clocks advance 1 hour.
HOLIDAYS: Holidays have been restricted. The national official holidays are: 27th and 28th July (National Independence Days); 1st January (New Year); 25th December (Religious Fete); Maundy Thursday and Good Friday; variable days and 1st May (Workers' Day).
POLICE/AMBULANCE/FIRE: Police 2126; Ambulance 2225; Fire 2081.
TELEPHONES: It is not possible to instal telephones on board. Communication by walkie-talkie radio.
GENERAL: Fresh and dry provisions can be supplied, such as meat, poultry, vegetables and fruits.
SERVICES: There is no tank-cleaning equipment and the discharge of tank washing and any other kind of garbage is forbidden, for the bay is a bathing area.
SHORE LEAVE: Allowed.
DELAYS: The vessel is moored on arrival. Delays can occur due to heavy sea or rain in case of cement loading.
AUTHORITY: Captain of the Port.

AGENT: See "Callao"

PAITA: 05.05 S. 81.07 W. (See Plan)

DOCUMENTS:

5 copies Peruvian "Declaracion de Entrada".
13 Crew Lists.
5 Cargo Manifests, from each port where cargo loaded, or negative.
5 copies of each Bill of Lading.
3 Personal Effects Lists.
13 Stores Lists.
1 Tonnage Certificate from first and last port.
1 International Maritime Health Certificate.
13 Passenger Lists, disembarking, or negative.
13 Passenger Lists, in transit, or negative.
1 Clearance from last port.
1 Sealed envelope from Peruvian Consulate addressed to Customs.

(Documents should be visaed by Peruvian Consulate.)
PILOTAGE: Compulsory. There are two Pilots, on 24 hour service. Arranged by Agent. The boat is an old disembarking launch, hoisting blue flag with a white "P" Pilot will board after free pratique has been granted by Port Captain and Health authorities.
ANCHORAGE: Recommended 5.04 S. 81.07 W.
RESTRICTIONS: Draft restricted to 31 ft. at low water.
MAX. SIZE: Length and breadth practically unlimited.
HEALTH: Agent will notify Health Authorities about the vessel's arrival.
RADIO: Recommended Balboa Radio.

Arrival Notice: 24 hours Notice of Arrival should be sent to the Captain of the Port and Agent.
TUGS: 1 tug of 180 h.p. and one motor barge of 68 h.p. available.
BERTHING: One finger pier, length 365 m. width 36 ft. Four berths available, depths are as follows:

No. 1A (North-west Berth)	34.1 ft.
1B (North-east Berth)	34.4 ft.
1C (South-west Berth)	23.8 ft.
1D (South-east Berth)	22.9 ft.

A safety margin of 3 ft. should be observed. It is advisable to request (from Pilot) berths "B" or "D", if empty, due to the prevailing winds. The berths have good fenders.

STEVEDORES: Arranged by Agent at 24 hours notice.

Working Hours: 0800-1200, 1300-1700, 1700-2400 and 0000-0700 hrs.

Night Work: Possible, as long as it is ordered in plenty of time. 10 gangs of 9 men each available per shift.

MEDICAL: There is a local hospital with all facilities.

DENSITY: 1030.

FRESH WATER: Not available.

FUEL: Not available.

FIRE PRECAUTIONS: Port Authority fire equipment stationed at the end of the pier.

STORES: Fresh provisions available.

GANGWAY/DECK WATCHMEN: Available on request.

CERTIFICATES: Not requested.

CUSTOMS ALLOWANCE: Two cartons and one bottle per person.

CARGO GEAR: No additional requirements.

IDENTIFICATION CARDS: Not required.

CONSULS: Ecuador.

REPAIRS: No facilities.

REPATRIATION: Allowed on request to the Port Captain.

GENERAL: Painting and chipping ship's side restricted. Very strict concerning rat-guards, throwing of garbage, etc.

AIRPORT: Piura, airport 55 km. with domestic flights to Lima International Airport.

HOLIDAYS: 1st May only.

AUTHORITY: Captain del Puerto.

AGENT: See "Callao".

PIMENTEL: 06.50 S. 79.58 W.

Pimentel is an unprotected open road port, loading/discharging only from/into lighters. Clearance is possible day and night, including Sunday and holidays, but of course with overtime additionals. Main activity: Sugar export, import of fertilisers and general cargo.

PILOTAGE: Not available.

ANCHORAGE: Vessels usually anchor about 1.5 miles off the Mole Head in 7-8 fathoms, near to the anchorage place of lighters.

RADIO: *Arrival Notice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.

TUGS: 2 at 82 h.p., 2 at 120 h.p. and 2 at 134 h.p.

LIGHTERS: 15 lighters with a total capacity of 1,170 tons.

CRANES: On the mole there are 3 diesel cranes each 3 ton capacity, 3 steam cranes with 4, 6 and 15 ton capacity. Max. dimensions of Cargo 27 ft. (length)×15 ft. (wide)×21 ft. (height).

STEVEDORES: *Working Hours:* 0700–1100 and 1300–1700 hrs. Overtime (plus 100%) 1100–1300 and 1700–2400 hrs. Overtime (plus 200%) 0000–0700 hrs.

On Sundays and holidays an additional 100% to the above-mentioned tariffs.

MEDICAL: There is a hospital at Chiclayo 15 km. from the port.

TANKERS: *Submarine Pipe-line:* Diameter 8 in. max. draft 18 ft. 1 pipe-line for clean products and 1 for dirty products.

FRESH WATER: Not available.

FUEL: Not available.

CONSULS: Vice-consul of the Netherlands.

SURVEYOR: Mr. Manuel S. Reyes H., sub-agent of Lloyd's of London.

GENERAL: *Swell Periods:* Pimentel being an unprotected open road port it frequently occurs that the port has to be closed due to heavy swell. The swell comes up suddenly and is not subject to any specific period, but it occurs more frequently during June-September and the Easter week.

AGENT: See "Callao".

PUERTO CHICAMA: 07.50 S. 79.22 W.

Puerto Chicama is about 295 miles North of Callao. Fishmeal is loaded from lighters in an open roadstead.

PILOTAGE: Not available.

ANCHORAGE: Vessels anchor about one mile from the Mole.

RADIO: *Arrival Advice:* Advise general Agents in Lima who will telephone Port Agents.

TUGS: 3 tugs available, 1 of 65 tons and 2 of 80 tons each.

LIGHTERS: 20 lighters with a total capacity of 900 tons.

CRANES: 4 cranes, 2 of 2 tons, 1 cf 4 tons and 1 of 6 tons.

STEVEDORES: Working hours are from 0700-2400 hrs. These hours may be exceeded to complete loading. Five gangs of 9 men are available.

FRESH WATER: Not available.

FUEL: Not available.

GENERAL: *Swell Period:* During the months of June, July and August.

AGENT: See "Callao".

SALAVERRY: 8.14 S. 78.57 W. (See Plan)

DOCUMENTS: See "Callao".

PILOTAGE: Compulsory.

RESTRICTIONS: Harbour entrance is sand and liable to silting. Advisable to check draft requirements in advance, as depths are subject to latest dredging.

MAX. SIZE: Approx. 25,000 d.w.t. with up to 29 ft. draft.

HEALTH: Cable Agent requesting free pratique. Agent must be notified in advance if disease suspected on board.

RADIO: *Arrival Advice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.

TUGS: 4 tugs available, 1 each at 720 h.p., 160 h.p., 85 h.p and 40 h.p.

BERTHING: *No. 1 Pier:* Length 220 m. Vessels able to berth both sides. Max. draft 29 ft.

No. 2 Pier: Length 230 m. Vessels able to berth both sides. Max. draft 29 ft. This pier is specially for the loading of sugar in bulk, 2 loading bridges available, loading rate 200 t.p.h. each.

STEVEDORES: *Working hours:* 0700–2300. Sugar and molasses in bulk loaded 24 hours a day. 10 gangs available of 9 men each.

CRANES: 2 × 18 tons capacity.

MEDICAL: At Trujillo, 15 km. from the port.

TANKERS: *Submarine Pipe-line:* Diameter of 10 in., depth 26 ft.

FRESH WATER: Available.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Recommended.

CUSTOMS ALLOWANCE: Any amount held over normal consumption may result in Customs search being imposed.

IDENTIFICATION CARDS: Supplied by Agent and stamped by Immigration. Required for all crew members.

HOLIDAYS: Only 1st May when work is not available.

CONSULS: Nearest at Callao/Lima.

GENERAL: *Swell Period:* June to September.

AGENT: See "Callao".

SAN JUAN: 15.21 S. 75.11 W. (See Plan)
SAN NICOLAS: 15.14 S. 75.14 W. (See Plan)

DOCUMENTS:

Clearance	1
General Declaration (Form ALALC/OEA 1)	5 for arrival 5 for departure
Cargo Manifest. Only when authorities require it. (Form ALALV/OEA 2)	4 for arrival
Crew List (Form ALALC/OEA 3)	5 for arrival 5 for departure
Store List/Bazaar List (Form ALALC/OEA 5)	5 for arrival
Personal Effects Declaration	3 for arrival
Maritime Declaration of Health	2 for arrival
*Passenger List (Form ALALC/OEA 4)	6

*This document is not to be presented when vessel is not carrying passengers or cargo.

Note 1. If no Peruvian Consul exists at port of departure or within 50 km/s. radius, then the documents which require Consular visa should be signed by a Consul of a friendly nation stating that there is no Peruvian Consul. If no Consul of any nation exists at the port of departure, the documents above mentioned must bear a certificate signed by an official of the port stating that no Consul of any nation exists at the port of departure or within 50 kms. radius.

Note 2. In the case of a vessel merely transitting the Panama Canal, no new Peruvian Consular clearance is required. The Consular despatch from port of departure will be accepted provided it is correct and no changes have taken place. If, however, vessel stops for any business during the Canal passage, embarking or disembarking passengers, crew changes, loading or discharging cargo or the conduct of any business which causes a change in the Peruvian Consular documents, New Consular Dispatch must be obtained. Panama or Balboa, which ever applies, becomes the port of departure for Peru.

The following documents should be available for inspection:

Ship's Papers.

Valid Fumigation or Exemption Certificate.

Crew's Identity Documents.

International Vaccination Certificates of all persons aboard.

List with following data: date and port of issue of ship's register, date and port of issue of Health Certificate, date of vessel's building and yard, list of ports of call with dates during previous 4 months.

PILOTAGE: Pilotage is compulsory for berthing. No vessel may proceed to pier until permission to berth has been granted. No vessel is permitted to berth alongside Marcona Mining Company's pier without an authorised Docking Pilot on board. While loading, during periods of heavy swells and surge a Marcona Pilot will be on board permanently. Masters are requested to make arrangements and facilities available.

Upon arrival in port, vessels must anchor and wait for reception. Official time of arrival is the time of anchoring. The starboard accommodation ladder must be rigged for Port Officials and Marcona representatives. Ships approaching San Nicolas must fly their national and quarantine flags. Vessels proceeding to San Nicolas to load iron ore will radio Marcona Mining Company, Lima, Peru, cable address Marminco Lima, their ETA 5 days – 48 hours and again at 24 hours prior to arrival; when vessels have direct contact with station "OAS", a prestowage hatch list must be radioed to Agent, giving tonnage per hatch and loading sequence. The coast radio station "OAS" located in San Juan Bay should be contacted as soon as vessel is within range. Berthing instructions and other messages from Agent at San Nicolas will be transmitted via this station. Radio contact must be made 48 hours prior to arrival, specially on week-ends and holidays.

BREAKWATER: A 2,653 ft. long breakwater has been built in order to reduce the effects of the swell alongside the pier. The breakwater is at the West side of the pier 875 yards of distance on the South end, and does not run parallel to the pier, but at N. 36° 35′ 28″ E. angle. The North end of the breakwater is 1,430 ft. from the North end of the dolphin, but the perpendicular distance from the pier to the closest point of the breakwater is only 1,090 ft.

At the North end of the breakwater there is a lighthouse with the following characteristics: 1 green flash every 4 seconds, visibility 5 miles.

There are also 3 buoys indicating the end of the toe of the breakwater, and whose characteristics are as follows: 1 white flash every 4 seconds, visibility 3 miles.

ANCHORAGE: The anchorage recommended for vessels waiting for berth is in inner portion of the bay, East of meridian through San Nicolas point in depths of 15 to 20 fathoms. When anchoring, it is essential to leave sufficient sea room, about 0.75 miles for ships to manoeuvre in and about the berth.

Wreck of M/S *Templar* lies in position: Lat. 15° 13′ 53″ S., Long. 75° 09′ 48″ W. The obstruction lies in approximately 150 ft. of water. Clearance above the obstruction is 60 ft. Do not anchor in the vicinity of the wreck.

RADIO: Coast Radio Station "OAS" is located in port of San Juan and serves both San Juan and San Nicolas. This station listens on 500 kc/s. 1200/1400 GMT, 4345 kHz 0130–0200 GMT, 6,510 kHz 0045–0100 GMT, 8,680 kHz 0000/0045 – 0100/0115 – 1200/1230 – 1600/1630 – 2000/2100 GMT, 16,968 kHz 0115/0130 – 1330/1400 – 1630/1655. It handles traffic on 410, 425, 444, 448, 454, 468, and 480 kc/s. Antenna output is 300 w.

There is a transmitter with the following frequencies schedule:

4,365 kHz – GMT 0045; 0100; 1000; 0200.
8,680 kHz – GMT 0000/0045; 1200/1230; 1600/1630; 2000/2100
16,978 kHz – GMT 1330/1400; 1630/1700; 2100/2200 listening on 4, 8 and 16 M/rz.

TUGS: 2 tugs available at 500 h.p.

BERTHING: *Pier and Mooring Facilities:* The pier is located at the South side of the bay and is built on a North-South direction. It is constructed of pre-stressed concrete and steel pipe-lines with deck 1,000 ft. long and 50 ft. wide. The deck is 11 ft. 3 in. above mean low water.

At the pier head, a mooring dolphin has been constructed to make fast the stern lines of any vessel bigger than 900 ft. overall length, the diameter 50 ft. Distance from Northern end of pier to Northern end of dolphin 198 ft.

There is a wooden retractile fender around the dolphin of 7.5 ft. wide. There are 3 big bollards, 2 pelican hooks and an electric winch to make fast the stern lines. There is also a connecting bridge from the pier to the dolphin, which is 148 ft. long.

There is a fendering system on both sides of the pier consisting of wood pilings and a continuous rail of laminated lumber and rubber cylinders which keep vessels 5 ft. from the concrete pier. On the West side of the pier (ore-loading side) there are 28 mooring cleats, 12 bollards and 3 double mooring bitts. At the centre of the pier-head there is 1 bollard. On the East side of the pier there are 23 cleats, 2 bollards and 1 double mooring bitt. The loading berth on the West side of the pier has been deepened.

The original depth in the berth was 42 ft. at the shore end and 59 ft. at the seaward end. The new depth is 62 ft. all alongside the pier and up to 300 ft. Westward from the pier fender, except in the place known as anchor pocket which is located between the pier-head and the dolphin. The anchor pocket is 70 ft. deep, 250 ft. long and 300 ft. wide. When docking the 2 anchors are let go in that pocket where enough water exists to prevent any collision of the ship with her own anchors.

The East side of the pier still has the original depth.

The bottom alongside is mud and sand. The ore ship loader has a pier straddle clearance height of 14 ft. and width of 12 ft. thus restricting the size of cargo parcels placed on the pier when the gantry is positioned inshore.

Berthing and Mooring: Vessels calling at San Nicolas for the discharging of general cargo must berth on the East side of the pier with the starboard side of the ship to the pier. Such vessels use their own regular mooring lines. Only ore in slurry form is loaded at this side through 20 in. pipe-lines.

Ore vessels berth at the West side of the pier with the port side of the ship to the pier. In addition to the vessel's own regular mooring lines, heavy surge lines are compulsory for all vessels loading iron ore. Wires are not permitted as moorings to the pier except when attached to tension winches.

VERY IMPORTANT: While vessels are alongside the pier, engines must be ready for immediate use. Sufficient crew must be on deck at all times to tend mooring lines and heave in the slack as loading progresses. Failure to do so may result in a discontinuance of loading and the vessel being moved out from the berth.

Loading and Unloading: Loading is generally carried out at the rate of about 4,000 l.t.p.h. Vessels arriving with 50 tons of cargo or less may have a choice of barge rental while at anchor in the bay or have pier discharge subject to loading operation or other cargo vessels discharging at the pier.

San Juan Bay: 1 pier length 760 ft., width 50 ft., depth 36 ft.

Loading: Prior to commencement of loading the Master or Chief Officer will deliver to the port Agent a pre-stowage plan with the following information:

Total cargo required, calculated tonnage per hatch, sequence of loading, fuel on board, water and stores on board in long tons, and calculated draft and trim upon completion of loading.

Loading is generally carried out at the rate of about 4,000 l.t.p.h.

Tonnage on board at any stage of the loading is available from the Loading Master, the Pilot on board, or at the scale house at the upper end of the pier. In order to avoid last minute delays, it is very important that a constant check be made of vessel's draft, ballast left to discharge and cargo on board during the entire loading. Any change in tonnage of cargo required must be reported to the Port Agent or Loading Master not later than when there is approximately 2,000 long tons remaining for completion of loading, and always in writing.

It is convenient to check drafts, ballast and tonnage of cargo on board each time the loading gantry shifts from one hatch to the next. While loading is actually in progress in a hatch, no loading interruptions are permitted except in case of emergency. At the termination of each pouring, a slip stating cargo loaded and draft readings, will be delivered to the chief officer.

In calculating the tonnage required to fully stow a hold, it should be remembered that cargo is spout trimmed only. No trimmers are available at San Nicolas.

Vessels will depart from the pier immediately upon completion of loading. The Pilot will take the vessel out from the berth. If the Master wants to anchor in San Nicolas Bay prior to proceeding to sea, he must advise the Pilot who will in turn advise suitable anchorage. The Master will advise the Pilot of the estimated time of departure in order that this may be reported to the Port Captain.

Delays of port operations, as well as delays of other vessels waiting to berth, caused by a vessel which for any reason is not prepared and able to move from the pier when so ordered, are chargeable to the vessel which causes the delay.

Clearance papers, bills of lading, statement of facts and all necessary papers for clearance of the vessel will be delivered shortly after completion of loading. This can be accomplished while the vessel is being moved from the berth, or at anchor, but never alongside the pier when other vessels are waiting for loading turn.

Slurry: For the new Marcona flow system a 20 in. diameter pipe-line has been installed and vessels adapted for slurry transportation can load either at the East or West side of the pier, depending on size and draft of the vessel. Hourly loading rate has not been determined so far but is expected to make over 2,000 l.t.p.h.

CRANES: 2 at 25 tons and 2 at 50 tons.

MEDICAL: All medical attention may be arranged.

STEVEDORES: *Working Hours:* 0800–1200, 1300–1700, 1800–2400, 0100–0700 hrs.

TANKERS: On the West and East side piers there are 3 raisers to which 3×8 in. diameter hoses can be connected to a main pipe-line of 16 in. diameter for the discharging of bunkers C. Flanges are U.S. Standard (ASA). Location on the pier is for midship connection on vessels. Maximum pressure permissible is 125 lb. p.s.i. and maximum temperature 150° F. The length of the 16-in. pipe-line from the manifold on the pier to the storage tanks is 4,480 ft. There are 2 storage tanks of 167,000 bbls. each and 1 storage of 252,000 bbls. Total capacity 386,000 bbls. The height of the tanks above MLW is 142 ft. to the bottom and 190 ft. to the top of the tanks. The intakes to the tanks are at the top.

Diesel oil discharged on the East side of the pier, using one hose to an 8-in. diameter pipe-line. Flanges are U.S. Standard (ASA) with 8 bolt holes. The length of the 8 in. pipe-line from the hose connection to the storage tanks is 3,706 ft. Maximum permissible pressure is 125 lb. p.s.i. There are 2 diesel oil storage tanks of 7,340 bbls. each (total capacity 14,680 bbls.).

The height of the tanks above MLW sea level is 145 ft. to the bottom of the tanks and 177 ft. to the top of the tanks. Intakes to the tanks are at the top. There is no booster pump on the pipe-line.

There is a crew on the pier to sling the hoses; the vessel's crew is required to operate the winch, boom, hoist the hoses on board, and connect same to vessel's manifold.

BALLAST: Special attention is called to ballast requirements of vessels which do not need ballast in order to enter under the loading boom. Such vessels are required to carry sufficient ballast for safe handling during berthing. It is permissible to discharge clean ballast at the pier.

FRESH WATER: None available.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Recommended by crewmen to prevent stowaways.

OPENING/CLOSING HATCHES: Stevedores/crew.

CARGO GEAR: Ore-loading boom extends 60 ft. from face of pier fender, and can be retracted from this position to a minimum length of 29 ft. Gantry with loading boom is mobile. Range of its mobility is 900 ft. starting at a point 76 ft. from the head of the pier. Shifting of vessels during loading is therefore not required. Height from water to underside of boom is 41 ft. Vessels must be ballasted so that height of any coaming or any other objects in the vicinity of the hatch where loading is to start will not exceed 39 ft. above waterline.

IDENTIFICATION CARDS: Required.

CONSULS: At Lima.

REPAIRS: Except in extreme emergency, repairs cannot be effected at this port.

TELEPHONES: None available.

REPATRIATION: In cases where crew changes are to take place in San Nicolas, at least 7 days advanced cable notice is required to obtain the necessary Immigration authorities permission. The advanced cable must set forth name, nationality and passport number.

HOLIDAYS: See "Ilo".

GENERAL: Official hours for port officials are from 0700 to 1100 and 1300 to 1800 hrs. Upon request, port officials will board vessels at any time day or night, Sundays and holidays included. Overtime for such service is for account of vessels.

Emergency Signals: A number of short blasts on the whistle indicates an emergency. The whistle will not be used except for emergency in accordance with Peruvian regulations.

SHORE LEAVE: Shore leave may be granted at the Master's discretion. All crew members must be issued ship's passes before proceeding ashore. These must be shown to the Immigration authorities when required. Peruvian laws and Immigration Regulations must be strictly adhered to in order to avoid unnecessary difficulties. Crew members are not permitted to travel 100 km. outside of San Nicolas. – San Juan port areas without written authorisation or pass from the Master approved by Immigration authorities.

REGULATIONS: Cargo holds must be properly cleaned. In this respect special care must be taken where vessels prior to their arrival at San Nicolas have carried the following cargoes: Gypsum, Phosphate, Pyrite, Coal, Sulphur, Silica, Aluminium, Sand, Gravel, or Quartz, or any other ore containing Arsenic, Phosphorus, Sulphur, Silica, Aluminium, or Copper. Prior to commencement of loading, cargo holds will be inspected by a representative of the Shippers. It is recommended that the Master or a ship's officer accompany the cargo hold inspector during the inspection.

AGENT: Agentes Navieros San Nicolas, S.A. P.O. Box 1229 Lima. Cables: "Agnav Sannicolas".

SUPE: 10.50 S. 77.44 W.

Supe is about 84 miles North of Callao. Cargo operations are undertaken in an open unprotected roadstead. The main activities at the port are the loading of fishmeal and discharging of fertilisers, cellulose and chemical products.

PILOTAGE: Not available.

ANCHORAGE: Vessels anchor in the open roads.

RADIO: *Arrival Advice:* 24 hours Notice of Arrival should be sent to the Captain of the Port and the Agent.

TUGS: 8 tugs available, 1 of 65 h.p., 2 of 85 h.p., 4 of 134 h.p., and 1 of 165 h.p.

LIGHTERS: 32 (14 of wood and 18 of steel) for dry cargo only. The capacity of the lighters varies from 50 to 100 tons. Total capacity being 2,100 tons.

CRANES: 4 mobile cranes of 5 tons each.

STEVEDORES: See "Pimentel" for working hours and overtime rates.

5 gangs of 9 men available.

MEDICAL: There is a hospital at Barranca.

TANKERS: *Submarine Pipe-line:* One line 10 in. diameter for dirty products and one line 8 in. diameter for clean products. Depth of water 48 ft. At Paramonga there is a 10 in. line, depth 36 ft.

FRESH WATER: Not available.

FUEL: Not available.

GENERAL: *Swell Period:* June/August.

AGENT: See "Callao".

TALARA: 04.35 S. 81.17 W.

DOCUMENTS, and all general information, refer to "Callao".

PILOTAGE: Compulsory. In the vicinity of Talara there are several off-shore oil drilling platforms and near the entrance to the port there is a shallow of 24 ft.

ANCHORAGE:

Summer	04° 34′ 09″ S.	81° 17′ 36″ W.	9.25 Fathoms
Winter	04° 34′ 12″ S.	81° 17′ 29″ W.	10 Fathoms
3rd Place	04° 34′ 03″ S.	81° 17′ 42″ W.	6-10 Fathoms

RADIO: Arrival Notice should be sent at least 24 hours before arrival to Captain of the Port and Agent via the government radio station OAH. Station on 500kc/s. from 0800 to 2400 hrs.

TUGS: Three lighter tugs of 200 h.p., 1×160 h.p., 1×180 h.p. and 1 harbour tug of 600 h.p.

BERTHING: At Talara there are two berths for loading fuel and water; one is a regular quay, the other a petroleum berth in which vessels lie, moored to dolphins alongside hose platform.

Quay length 385 ft., depth alongside 18 ft. to 34 ft.

Petroleum berth, length 585 ft., depth alongside 34 ft.

Talara is mainly a bunkering port as it is the main port for the Northern Peru Oilfields. The little general cargo discharged is done at the quay; bunkering being done at the quay and at the dolphin berths.

Larger vessels load/discharge into lighters at anchorage. Five lighters are available, total capacity 1,160 tons.

CRANES: One crane of 5 tons, one mobile crane of 10 tons. For heavy lifts a floating crane with 40-ton capacity may be hired from Belco Petroleum Co.

TANKERS: See "Berthing".

Submarine Pipe-lines: 12-in. diameter. Vessels with a max. draft of 36 ft. can moor to the pipe-line.

STEVEDORES: It is possible to work 24 hours a day with interruptions at meal hours. Three gangs of 16 men each available. Overtime only charged for Sundays and holidays at 50%.

FRESH WATER: Available alongside berths.

FUEL: Available alongside berths. Bunker "C" 3,500 seconds, Petroperu No. 5 (Intermediate 4) 400 seconds, Diesel 2 (marine diesel).

MEDICAL: A private clinic is available.

CONSULS: Panama and Nicaragua.

GENERAL: Smoking is prohibited on deck, at the piers and near the refinery installation.

AGENT: See "Callao".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Philippines

GENERAL:

DOCUMENTS: *To be submitted in all Government & Private ports:*
1 copy of Quarantine Pratique.
6 copies of the Inward Cargo Manifest for all cargoes to be discharged in the Port.
2 copies of Cargo Storage Plan or Hatch List.
3 copies of Store List.
3 copies of Passenger List.
4 copies of the Crew List.
4 copies of the Crew Declaration List.
3 copies of Bonded Store List.
3 copies of Firearms and Ammunition Inventories.
3 copies of List of Drugs and Narcotics.

Original copies of all through cargo manifest destined to other ports to be deposited with the Customs Inspector on board and to be returned to the Master prior to the departure of the vessel.

Clearance from the last port.

AUTHORITY: The Ports of Cagayan de Oro, General Santos (Dadiangas) and San Fernando are now under the Philippine Ports Authority and eventually all ports in the Philippines wil be under the PPA.

SHORE LEAVE: Nationals of countries with whom the Philippines maintains diplomatic relations are allowed ashore after securing a pass from the Immigration Officer in the Port. This includes nationals of the U.S.S.R. and the Peoples Republic of China with whom the Philippines has already established diplomatic relations.

CERTIFICATES: Those required are.
Certificate of Registration.
Certificate to Operate.
Certificate of Officers and Engineers (Licenses).
Officers and Crew-Seaman's book.

CUSTOMS ALLOWANCE: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.

IDENTIFICATION CARDS: Essential.

REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.

TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.

HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th Juno); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December). When any holiday falls on a Sunday, the following day (Monday) is by law considered a public legal holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays. Cargo work on board vessels on these holidays can be arranged.

GENERAL: Customs Inspector and two guards accommodated on board during vessels stay.

AUTHORITY: Bureau of Customs.

ANTIMONAN: 14.00 N. 121.55 E. (See Plan)

SHIPMASTER'S REPORT: October 1976.

Berth in position 14° 00′ 30″ N., 121° 55′ 30″ E. Vessel required to be ballasted to one third deadweight. Tidal range 6 ft. Nature of bottom at berth, mud and sand. Density 1025. Anchorage 0.5 mile S.E. of jetty.

Terminal Information: Ship's hoses used to rail only. Length of shoreline, 3,000 ft. diameter 8 in. Products handled at the berth, coconut oil and pellets of copra.

Port Information: Pilotage compulsory. Notice of 24 hrs. and 12 hrs. required. Pilot boards from a small catamaran flying the pilot flag. Boarding position 2 miles S.W. of the port. Vessel is able to enter or leave at any stage of the tide. Vessel cannot enter after dark and it is not advisable to leave after dark as some of the piles on the sea bed near the jetty are broken. Also there are no navigation lights in the bay and many vessels are fishing. Max. LOA 650 ft. Max. beam 100 ft. Max. draft 44 ft. No tugs available. Radio station used, Manila, though messages delayed in receipt at Antimonan.

Facilities available. Fresh water in small quantities for cash. Fresh provisions, groceries and meats in small amounts, doctor and hospital.

No repair facilities, laundry, fuel or slop facilities.

Improvements: The face of the jetty is being piled and breasting dolphins created. Completion expected by mid 1977.

At the present time a barge is inserted between the ship and jetty as the piling is broken.

BATAAN, Limay: 14.30 N. 120.38 E.

See "General" before first port.

PILOTAGE: Pilotage is compulsory, pilots assigned by the Manila Pilots Association. Pilot boards vessel just off the berth.

ANCHORAGE: There is a good anchorage with depth of 9.1 m.-11.3 m.

RESTRICTIONS: Approaches are open deep water. Vessels may berth and unberth at any hour and any stage of the tide. Keel clearance of 10 ft. required.

MAX. SIZE: LOA 1,000 ft. Max. draft 50 ft.

RADIO: Manila Radio. At the berth, shore communication with vocaline JRC 475 transceivers on 465 Mc/s.

HEALTH: Port health officials board with the Pilot. Radio request for free pratique can be made prior arrival.

TUGS: Available.

BERTHING: *Crude berth:* Conventional buoy mooring, tankers moor to eight buoys, in depth of 60 ft. Hoses may be connected on either side. 4×12-inch hoses for crude oil discharge.

Products Pier: Inner berth depth 13 ft. Outer berth depth 32 ft. Can accommodate vessel up to 530 ft. length. No slop discharge facilities available.

Private Piers

	Length *(m.)*	Width *(m.)*	Depth *(m.)*
Bataan Refining Corp.	343.20	15.90	9.90 to 30.00
Planters Products	317.99	n.a.	14.60
LPG Pier	24.60	3.00	5.40

DENSITY: 1025.

MEDICAL: Doctor and hospital facilities available. Advance notice required of any medical attention needed.

FRESH WATER: Not available at berth. Can be supplied by barge.

FUEL: Bunkers, fuel and diesel, obtainable from berth, advance notice required.

REPAIRS: No facilities available.

BATANGAS, Luzon (including Tabangao): 13.45 N. 121.03 E.

See "General" before first port.

PILOTAGE: Pilotage for docking and undocking at government wharves and privately owned wharves in the Port of Batangas is compulsory for all vessels engaged in foreign trade. The vessel is met by the harbour Pilot approximately 2 miles South of the wharf. Pilotage for entering the Batangas Harbour and anchoring in the quarantine anchorage is optional but pilotage for shifting therefrom or changing in the stream is compulsory for vessel engaged in foreign trade.

ANCHORAGES: Bureau of Customs Administrative Order No. 191, dated January 13, 1955, defines the limits of Batangas Harbour for navigational and mooring purposes as follows:

> ". . . a navigational and mooring area a depth of 1 mile measured from Hagony River (near West boundary of refinery compound) Eastward along the coast by 0.75 mile seaward running perpendicularly from both points..."
>
> Within this navigational and mooring area a depth of 12 to 14 fathoms with good holding ground will be found at less than 400 yards from the beach. The bottom close to the beach is mainly sand and gravel. In the event of a strong S.W. monsoon, vessels may resort to the protection afforded by the mountains of Maricaban Island by anchoring on the Northern side of the Island along Maricaban Straight.

MAX. SIZE: Caltex Refinery: LOA 755 ft., draft 41 ft. Jetty designed for 45,000 d.w.t.

Tabangao Shell Refinery: LOA 900 ft., draft 48 ft.

HEALTH: Ships will clear for quarantine on arrival at the Batangas Harbour. Quarantine officers will normally board the vessel 2 miles South of the oil wharf.

TUGS: Tug service is not furnished by the two oil refineries. The use of a tug for berthing and unberthing is required. Although a tug is normally available at Batangas it may be necessary to dispatch a tug from Manila. Accordingly, it is important for Masters of vessels to provide at least 48 hours advance notice of ETA to ensure the availability of the tug boat.

BERTHING: Berthing may be done any time during the day or at night and Masters should exercise their own judgement in this respect. Vessels moor either port or starboard side to, depending on prevailing conditions.

	Length *(m.)*	Width *(m.)*	Depth *(m.)*
Pier I (concrete)	135	15	11
Pier II ,,	48	12	6
Pier III ,,	84	15	10

STEVEDORES: All vessels proceeding to Batangas should radio either Caltex or Shell, whichever is their destination, their estimated time arrival at Batangas as early as possible, but not less than 96 hours before arrival, amending this ETA subsequently if it varies more than two hours from the original estimate in order to arrange towing gangs with the Luzon Stevedoring Corporation. Stevedoring is usually handled by Luzon Stevedoring Corporation.

MEDICAL: Both refineries have a small hospital for handling emergency cases. Should any ship's personnel need prolonged hospitalisation, arrangement will have to be made to transfer the patient to Manila or to the Provincial Hospital of Batangas where suitable medical attention is available. Dental treatment can be obtained from local dentists in the town of Batangas.

TANKERS: *Shell Refinery, Tabangao.* Jetty 1; two hoses of 10 in. diameter. Jetty 2; four arms of 12 in. diameter. Slops acceptable at 500 t.p.h. up to limit of 3,000 tons.

Two wharves with the following dimensions:

(a)		(b)	
Length	336 m. Concrete	Length	700 m. Concrete
Width	9 m.	Width	9 m.
Depth	15 m.	Depth	15 m.

Crude oil is delivered by tankers of up to about 75,000 d.w.t.

Caltex Refinery: 2 wharves with the following dimensions:

(a)		(b)	
Length 84 m.	Concrete	Length 11 m.	Concrete
Width 13 m.		Width 9 m.	
Depth 14 m.		Depth 8 m.	

Crude oil is delivered by 200,000 to 300,000 d.w.t. supertankers.

DENSITY: 1.0261.

FRESH WATER: Fresh water is available to vessels loading, unloading or bunkering at Batangas Port. It is delivered to the vessel through hose connections. The water satisfies the physical and chemical requirements for drinking water.

FUEL: Bunkers are available from the two refineries. Prior advice should be given through the ship's Agent.

FIRE PRECAUTIONS: At both refineries smoking or open fires are prohibited on the wharves or on vessels alongside or within 100 yards of either wharf. Furthermore, each vessel's personnel is responsible for the safety of its own ship at all times.

DEVELOPMENT: Wharf under construction 15 m. × 48 m.

GANGWAY/DECK WATCHMEN: Not needed. The security guards on the gates of the two refineries serve the purpose.

OPENING/CLOSING HATCHES: This work is normally carried out by crew members of the vessel at the 2 refineries; off-loading hoses will be connected and disconnected on board by the vessel personnel under the direct supervision of a ship's officer with the assistance and advice of wharf personnel.

CUSTOMS ALLOWANCE: Sufficient amount for crew's consumption while in port.

CARGO GEAR: During berthing and unberthing, it is required that ship's engines, tackle and all other gear must be in operative condition and in a state of readiness for use at a moment's notice, as required.

After clearing with the Customs' representative, off-loading hoses will be connected and disconnected on board by the vessel personnel under the direct supervision of a ship's officer with the assistance and advice of wharf personnel. Wharf equipment will normally be used for handling hoses although vessel's gear may at times be required and must be made available for this purpose. A ship's officer must approve the hose connections on board before off-loading commences.

IDENTIFICATION CARDS: Not required in the Port of Batangas.

CONSULS: Consulates are stationed in Manila.

REPATRIATION: To expedite disembarkation and in order that proper arrangements can be made in case of repatriation, the Master should radio this matter to Caltex or Shell refineries or his Agents within 48 hours before arrival. The message should give the names of the crew to be repatriated and their destination.

AIRPORT: At Manila.

TIME: GMT plus 8 hours.

HOLIDAYS: New Year's Day (January 1st); Holy Thursday; Good Friday; Labour Day (May 1st); Independence Day (June 12th); P.I.U.S. Friendship Day (July 4th); Bonifacio Day (November 30th); Special holidays declared by the President of the Philippines are also included. If any other legal holiday falls on Sunday the following day is observed as a holiday. Cargo work can be arranged on any or all holidays with the vessel's agent.

POLICE/AMBULANCE/FIRE: Police, tel. 125-J; Ambulance, tel. 7-J; Fire Department, tel. 261.

TELEPHONES: At present placing telephones on board foreign vessels is not available; however, telephone service is available on the jetty of both refineries.

GENERAL: Discharge of ballast: No dirty ballast may be dumped into the territorial waters of the Republic of the Philippines. The refineries have provisions for off-loading a limited amount of oil water ballast. Rat Guards: Rat Guards shall be placed on all mooring lines to the wharf.

AUTHORITY: Collector of Customs.

BISLIG, Mindanao: 08.14 N. 126.22 E.

See "General" before first port.

PILOTAGE: Vessel should send direct advice to the Pilot or through its Agents 48 hours prior or at the very least 24 hours before ETA by commercial telegraphy.

There is no VHF operated by the Pilot.

Pilot boat is painted black (hull) and white (bridge and mast). International Code Signals used to call Pilot.

Pilot station is located at Lat. 8° 11.4′ N., Long. 126° 21.2′ E.

Pilot boat will be located (if by prior advice/arrangement by Master requiring specific service of meeting vessel outside of entrance and conducting vessel through channel to inner harbour) at Lat. 8° 16.85′ N., Long. 126° 26.50′ E. or 340°, 2.35 miles off Sanco Pt. Lighthouse.

Pilot will always board a vessel (outside of entrance) via the Pilot's or Jacob's ladder on the leeward side of the vessel.

ANCHORAGE: While waiting for a Pilot, the recommended anchorage (at entrance) is at Lat. 8° 16.1′ N., Long. 126° 26.1′ E. on or about this position and/or within an area of 0.5 miles radius from this point.

Quarantine anchorage or inner harbour is based on the point Lat. 8° 12.9′ N., Long. 126° 22.0′ E. to within 0.25 miles radius from this point as centre, otherwise 1 mile North of BBLCI Pier's end.

Working anchorage at stream. When vessel is through with all the port formalities, she has to go to a working area for loading/unloading operations, thus:

BBLCI. Vessels will anchor at least within a 0.5 mile radius from the tip of BBLCI pier.

PICOP. Is especially preferred during N.W. monsoon at least within a 0.5 mile radius from the foot/base of PICOP breakwater.

Bislig Bay. In general is bounded by a line from *(a)* Sanco Pt. to *(b)* Mawes I. to the N.W., thence to *(c)* the town of Bislig to the S.W., thence to *(d)* the village of Mangagoy to the S.W., and back to *(a)* Sanco Pt.

MAX. SIZE: 30 ft. at PICOP Pier.

HEALTH: Any vessel can be given free pratique if upon inspection everybody is healthy, vessel is clean and all certificates of vaccination are complete. However, if there is a suspicious quarantineable disease, a probationary pratique should be issued and after 6 days, if it was found out that there was no quarantineable disease at all, free pratique will be issued.

RADIO: RCPI, Clavecella and CRC.

TUGS: Tugs normally meet vessel with Pilot at the 5 miles limit and assist Pilot in docking, using ship's lines. 5 available. 4 at 225 h.p., 1 at 112 h.p.

BERTHING: Berthing is on a first-come first served basis. During the N.E. monsoon berthing is in daylight only for precautionary measures.

BBLCI and PICOP maintain 2 piers and 1 marginal pier.

BBLCI: Pier Position 8° 11′ 51″ N., 126° 21′ 55″ W. This is an all concrete pier 800 ft. long and 30 ft. wide with berthing space of 550 ft. on each side. Max. draft 28 ft. at seaward end, 22 ft. at shore end. Both sides are protected by dolphins constructed of pile fenders and large tyres as absorbers. Largest vessel to berth at pier at present is 18,500 tons gross. Lumber, veneer, plywood and logs are loaded at this pier.

BBLCI Marginal Pier. For vessels of less than 1,000 tons gross and 10 ft. draft.

PICOP Piers:

	Length (m.)	*Width (m.)*	*Depth (m.)*
Pier I (concrete)	244	8.0	8.8
Pier II	130	17.7	9.1

There are several patches of reefs projecting N.W. of the channel from Sanco Point to the fairway leading to the PICOP Piers. The port therefore should be entered only during daylight.

January, February and March, the season of the N.E. monsoon, makes it difficult for approaching and securing ship because of strong winds and heavy seas.

CARGO HANDLING FACILITIES: Both companies have ample equipment. Fork lifts, lighters, mobile cranes max. lift 50 ton (BBLCI), and 75 ton (PICOP), sideloaders, trucks and trailers.

STEVEDORES: ETA should be advised 2 days before ship's arrival stating workable hatches and gang requirement for berthing and gang arrangement.

20 gangs available, shifts change at 0600 and 1800 hrs. when port is full. If only few ships in port change at 0600, 1500 and 2300 hrs.

MEDICAL: It is necessary for the Agent to receive advance notice if there is serious medical attendance and hospitalisation. However, less serious medical attendance does not need notification. Port of Bislig has hospital facilities with complete smallpox, cholera, El Tor and typhoid vaccine available.

DENSITY: About 1.025 with tendency to become heavier during dry season and on flood tide.

FRESH WATER: Available at East end of BBCLI Pier. The connection is 2 in., situated 100 ft. from the approach, discharge rate 20 g.p.m.

FUEL: Small quantities available. BBLCI maintain 3 tanks for Caltex.

1. Bunker oil tank	30,000 bbls.
2. Diesel oil tank	11,300 bbls.
3. Gasoline tank	5,100 bbls.

Tank trucks available to deliver oil and gasoline.

DEVELOPMENTS: More berthing facilities are on the programme for the next 3 to 5 years when the pulp and paper mill is in operation. Installation of more log-processing plants to increase shipments.

GANGWAY/DECK WATCHMEN: P1.00 per hour for at least 3 men.

OPENING/CLOSING HATCHES: Rigging of booms is done by ship's crew, while opening and closing of hatches is carried out by stevedores.

CUSTOMS ALLOWANCE: 200 cigarettes and 1 bottle liquor for each man.

IDENTIFICATION CARDS: Needed.

REPAIRS: May be made to ship's gear and equipment by arrangement with BBLCI. The company have an engine repair shop, machine shop and foundry.

AIRPORT: 5 kms. distant; daily flights.

TIME: Local Standard Time is 8 hours ahead of GMT.

HOLIDAYS: On Christmas Day; New Year's Day and Good Friday. Cargo work may be arranged.

GENERAL: Engineering supplies available from BBCLI and PICOP. Dunnage available through BBCLI. Provisions available through chandler or market 1 km. from BBCLI Pier.

AUTHORITY: Collector of Customs.

CEBU, Cebu Island: 10.18 N. 123.53 E.

See "General" before first port.

PORT LIMITS: The seaward boundaries of the Port of Cebu within which a vessel is considered to be an "arrived vessel". North Entrance: between Pier No. 2 and Caltex Bunkering Station. South Entrance: between Shell Island and Kawit Island.

PILOTAGE: Advance notice 24 hours before arrival, giving draft, ETA Pilot station, whether coming via North or South Entrance. Pilotage compulsory. Pilot boarding South Entrance at Lauis Ledge of Black Buoy No. 1; Pilot boarding North Entrance between Bagacay and Bontolinao lights.

ANCHORAGE: Well protected with good holding ground. Controlling depth at South side is 10.0 m. and 8.0 m. on North side.

ENTRY RESTRICTIONS: No restriction on night entry. If draft above, North 26 ft. and South 30 ft. vessel cannot go alongside.

MAX. SIZE: Length 550 ft.; draft Shell Island 30 ft., Caltex 25 ft., General Milling Corp. 28 ft., and Mobil 28 ft.

HEALTH: Pratique obtained after Quarantine personnel have boarded, mustered crew and passengers, and examined ship's health documents. Pratique automatic if vessel coming from another Philippine port.

RADIO: Globe Mackay & Radio Corp. *Call letters DZM.*

Working frequencies: 4328 kc/s., 6492 kc/s., 8656 kc/s., 1298 kc/s.

Listening frequencies: 425 kc/s. and 500 kc/s.; 6265.5–6258.5 kc/s.; 8354–8374 kc/s.; 12531–12561 kc/s.

Call letters: DZG.

Working frequencies: 483 kc/s., 4308 kc/s., 6462 kc/s., 8616 kc/s., 1292 kc/s., 17232 kc/s.

Listening frequencies: 425 kc/s., 432 kc/s. and 500 kc/s.; 6265.5–6280.5 kc/s.; 8354–8374 kc/s.; 12531–12461 kc/s.; 16708–16748 kc/s.

Master may contact Cebu Stevedoring Company through Channel 1 (156.7 Mc/s.) and Channel 2 (157.8 Mc/s.) VHF.

TUGS: Tugs: 300 h.p. and 600 h.p. Tugs will assist berthing. Ship's lines always used.

BERTHING: Anytime except when current strong at a certain time on North side of Piers 1 and 2.

General Milling Corporation wharf, Port of Mactan, Cebu has a pneumatic suction pump for bulk cargoes like wheat and soyabean meal.

Suction rate (wheat), about 85 t.p.h.

Suction rate (soyabean), about 40 t.p.h.

All oil depot in Cebu (Shell, Caltex, Mobil, Esso and Filoil) has facilities in handling liquid chemicals or LPG carriers.

Government Piers:

	Length (m.)	*Width (m.)*	*Depth (m.)*
Pier I (concrete)	155	32.8	7.6
Pier II (concrete)	155	32.8	7.6
Pier III (concrete)	155	32.8	7.6

Wharf:

Government – 1,395 m. long, concrete.

CDC – 2,079 m. long, concrete.

BRIDGES: The Opon-Mandaue bridge crossing the North channel is completed and open to traffic. According to Cebu Pilots Association, clearance is 76 ft. at high water and 80 ft. at low water.

STEVEDORES: Ordered by Agents, no ETA to stevedores necessary from Master.

MEDICAL: No advance notice to Agents needed. Hospital facilities available anytime.

TANKERS: See "Max. Size".

FRESH WATER: Most berths supply by shore installation, otherwise by barge or trucks.

FUEL: All grades available.

FIRE PRECAUTIONS: Tankers discharging: smoking only allowed in saloon (officers), crew in the messroom.

DEVELOPMENTS: Reclamation project at the North side of Cebu.

GANGWAY/DECK WATCHMEN: Services of watchmen necessary subject/Master's recommendation.

OPENING/CLOSING HATCHES: Stevedores, with aid of ship's crew.

CUSTOMS ALLOWANCE: (Tobacco) 1 carton a week for each crew member. (Wine and/or Spirits) 1 bottle a week for each crew member.

IDENTIFICATION CARDS: Required by Immigration Authorities.

CONSULS: Norwegian 9–77–20; Chinese 7–45–85; American 7–31–51.

REPAIRS: Minor repairs possible.

DRY DOCK: Cebu Shipyard – max. 1,000 d.w.t. only.

REPATRIATION: Facilities available

AIRPORT: Distance 7 miles from port and regularly served by all domestic airlines.

TIME: Local time based on the 120 East meridian. GMT plus 8 hours.

HOLIDAYS: Cargo can be arranged during holidays, which are the following: New Year (January 1st); Maundy Thursday; Good Friday; Bataan Day (April 9th); Labour Day (May 1st); Independence Day (June 12th); Republic Day (July 4th); Bonifacio Day (November 30th); Christmas Day (December 25th); Rizal Day (December 30th).

DELAYS: Berthing on North side of piers depends upon tide and current. South side of piers, vessel can dock any time.

AUTHORITY: Dept. of Finance, Bureau of Customs.

AGENT: Smith, Bell & Co. (Phil.) Inc., Corner M.C. Briones and P. Burgos Sts., Cebu City. Tel. 7–52–98, after office hour 72630, 9–70–14. Lloyds Agents. Cables: "Bell Cebu".

CLAVERIA, Luzon: 18.37 N. 121.02 E.

See "General" before first port.

PILOTAGE: There are no telegraphic addresses of Pilot stations although Pilots could be contacted in the Port of Manila with at least 3 days advance notice.

ANCHORAGE: Very deep and wide, safe enough to accommodate 6 ships at a time.

RESTRICTION: No restriction whatsoever is imposed upon entry day or night time.

MAX. SIZE: Maximum length permissible is around 300 m.

HEALTH: Pratique is granted as soon as the ship's Master has presented all his crew for vaccination in case same has expired and/or verification of its crew's health record and the submission of the Maritime Declaration of Health of the ship duly signed by the Master.

RADIO: Cables could be routed through RCA or DZN Manila for ship's Agents.

TUGS: Only required for lighters. Upon anchorage tugs could be called by blowing the ship's whistle twice.

BERTHING: Private facility owned by Taggat Industries.

STEVEDORES: No particular ETA advice in order to arrange gangs.

MEDICAL: Not necessary for ship's Agents to receive advance notice of required medical attendance. Doctors available.

FRESH WATER: No fresh water available for ships in this port.

FUEL: Not available in this port.

DEVELOPMENT: The construction of a breakwater.

GANGWAY/DECK WATCHMEN: It is recommended that ships that call at this port employ watchmen.

OPENING/CLOSING HATCHES: Is carried out jointly by ship's crew and stevedores.

CUSTOMS ALLOWANCE: 200 cigarettes for each man a week, and 1 bottle wine/spirits.

IDENTIFICATION CARDS: Not needed in this port.

CONSULS: No Consuls could be contacted in this port, although they could be contacted in the City of Manila.

REPAIRS: Major repairs not advisable in this port.

REPATRIATION: Changing of crew can be carried out by ship's Agent in Manila, Cebu or in any other big ports in the Philippines.

AIRPORT: No government airport in this port, although there is 1 private but no regular flights.

TIME: GMT plus 8 hours.

GENERAL: See "Manila" for general information.

AUTHORITY: Collector of Customs, Aparri, Cagayan.

DADIANGAS (General Santos City): 06.06 N. 125.09 E.

DOCUMENTS:

4 Crew Lists.

3 Stores Lists.

3 Crew Personal Manifests.

Last Clearance.

Ship's Register, etc.

Immigration:

1 Visaed Philippine Crew List (and 1 copy).

Port Health:

Deratisation or Exemption Certificate.

International Health Form.

1 List of Vaccination Certificates – must be valid.

1 Crew List.

Department of Agriculture:

Certificate stating vessel free from Kaphra beetle.

PILOTAGE: Pilotage compulsory. Pilot boards about 0.5 miles from the berth. Uses a white painted launch as a rule. If berth occupied, Pilot takes vessel to anchorage off the town.

ANCHORAGE: Very deep water. Vessel lowers 7 or 8 shackles on the port anchor as vessel approaches shoreline. Anchor then takes hold on reef. This is about 200 ft. from shore, when vessel has swung stern-to.

RADIO: Messages regarding ETA, etc. are sent through Manila Agent.

TUGS: Not available.

BERTHING:

Government Marginal Wharf:

Length 215 m. concrete.

Width 9 m.

Depth 23 m.

Private Piers:

	Length (m.)	*Width (m.)*	*Depth (m.)*
Dole Philippines	145	18	11.5
General Milling Corp.	38	9	12.6

REPATRIATION: Possible, but very difficult via Manila.

AIRPORT: Wharf is approximately 7 km. from airport with Monday, Wednesday, Friday and Sunday flights to Manila.

MEDICAL: Small hospital in town.

STEVEDORES: 1 company only. Ship's gear used and a loading rate of about 1,500 tons per day. Exports are: fresh fruit, canned pineapple and concentrated pineapple juice.

CUSTOMS ALLOWANCE: 200 cigarettes and 1 bottle of spirits per man.

SHORE LEAVE: Allowed.

FUEL: None available.

DEVELOPMENTS: Rehabilitation of the existing wharf and extension of 300 m. including reclamation area is now underway and to be completed by the middle of 1977.

GENERAL: 1 Customs Inspector and 2 guards to be given accommodation and meals. When a vessel is expected, the Agent usually contacts VHF Channel 16 from a vessel alongside.

AUTHORITY: Philippine Ports Authority, General Santos City.

AGENT: See "Manila".

DAVAO: 07.04 N. 125.38 E.

See "General" before first port.

PILOTAGE: Pilotage at Davao port is compulsory. When vessel is due to call at Davao port, the Master should cable Agents of the vessel's ETA at least 24 hours before arrival. Licensed Pilots are available 24 hours a day. The Master may, likewise, cable the Pilot's Station addressed "Davao Pilots" either through Globe-Mackay or RCA frequencies. There are two pilot boats servicing the port of Davao and they fly the usual "red and white" Pilot Flag, visible in daytime.

ANCHORAGES: Davao port harbour limits embraces all that portion of Davao Gulf bounded by an imaginary line drawn from Dumalag Point running East (true) to the Western shoreline of Samal Island; Thence by shoreline of Samal Island to Bassa Point; thence by an imaginary line running straight to the mouth of Lasang River, and thence by shoreline of the mainland (Mindanao Island) to Dumalag Point, the place of commencement. Vessels normally drop anchor approximately one mile off the pier area. (Note: Davao Pilots conduct vessels to safest anchorage, away from traffic obstructions.)

RESTRICTIONS: Vessels entering port should be prepared to present required documents upon boarding of the Customs Boarding Party. No unauthorised persons must be allowed to go onboard before the customary entrance formalities are effected by the Government authorities, i.e. Quarantine Officers, Customs Boarding Party, Immigration Officers and other Government representatives.

MAX. SIZE: For entrance formality purposes, Davao port can accommodate vessels with a length of 700 ft. with a maximum draft of 40 ft. However, if the vessel should proceed alongside the wharf, the maximum length allowable will be approximately 500 ft. with a draft of 20 ft. to avoid touching the bottom at low tide, which is approximately 23 ft. Oil docks can accommodate oil carriers with a maximum length of 500 ft. and a maximum draft of 25 ft. at low tide to avoid touching the bottom.

HEALTH: Vessels entering port should display International flag "Q" at fore. Masters are advised to make ready the health book of each officer and crew for submission to the Medical Quarantine Officer when he boards the vessel. In the event of any suspected disease or fever onboard, International Code flags "E Z Q" should be displayed conspicuously, and in the event of death, Customs and Quarantine calls, or International Code flags "E N L" should be displayed.

Pratique is automatic after a vessel has called at another port of entry in the same country.

RADIO: Radio messages can be routed through any big stations like RCA or Globe-Mackay. Masters are advised, however, not to send messages when vessel is within a 3-mile radius of the port as defined in the regulations.

TUGS: The only tugs available are those belonging to the stevedoring company, and in most cases are not used in assisting vessels when coming in for berth. The Pilot's boat usually assists in handling ship's lines when docking at the wharf. There is a two-line service at the wharf receiving ships' lines and letting-go lines.

BERTHING: Berthing facilities of Davao port are limited. The present wharf accommodates two overseas vessels and two coastal vessels at the same time. Berthing arrangements are by "first to arrive – first to berth", and vessels are required to work 24 hrs. a day during weather-working days to give way to other vessels awaiting berth. In most instances the wharf is congested and vessels should advise their ETA at least 48 hours in advance.

Sasa Wharf (Government owned). Length 515 m. Depth 9.7 m. Width 18.2 m.

STEVEDORES: There are several stevedoring firms operating. The biggest, Luzon Stevedoring Corporation, is most reliable with adequate facilities in handling incoming and outgoing cargoes. Upon receipt of vessel's ETA, the Agents arrange the stevedore gangs required by the vessel and other requirements for discharging or loading operations.

MEDICAL: In any cases when vessels entering port requires immediate medical attention of her crew members, the Agents must be advised by cable and the Medical Quarantine Officer shall immediately arrange hospitalisation if necessary. Inoculations are performed by the Medical Quarantine Officers. There are first-class hospitals available with adequate facilities.

TANKERS: Only medium-sized tankers can dock at local oildocks, namely, Shell, Caltex and Esso. The lines are 3 and 4 in. Each oildock can accommodate one tanker at a time, and maximum permitted draft is 25 ft.

FRESH WATER: Davao port has no water connections at the wharf, and fresh water supply to the vessels is done by tank-trucks with average delivery of 15 t.p.h.

FUEL: Fuelling of vessels is done alongside, Shell or Caltex oil-docks with average viscosities 750 SSU 100°F. Vessels scheduled for fuelling should make 24 hours notice at least.

FIRE PRECAUTIONS: No fire boats are available in the port. Vessels docked alongside wharf are assisted by the Davao Fire Department and other ships docked alongside, in case of fire onboard.

DEVELOPMENTS: Development programme for the lengthening of the existing wharf by an additional 405 m. Completion expected early 1977.

GANGWAY/DECK WATCHMEN: There are numerous watchmen agencies operating in Davao port. Local shipping agents recommend only one agency at a time, and the rates are hourly for deck watchmen on patrol.

OPENING/CLOSING HATCHES: This is normally done by the stevedores.

CUSTOMS ALLOWANCE: Number of items allowed for the crew while the vessel is in port depends on how long the vessel stays in port and this should be arranged with the Customs Boarding Officer.

CARGO GEAR: Stevedoring company provides cargo gear and vessel may supply additional gear upon request of the stevedores' boss.

IDENTIFICATION CARDS: Not required.

CONSULS: Countries with consulates are Republic of China (Taiwan), Indonesia, U.S.A. (represented by the USIS).

REPAIRS: Only minor repairs are possible for deck and engines, and also refrigeration and electrical repairs.

REPATRIATION: There is an office of the Immigration Bureau which arranges repatriation and change of crew.

AIRPORT: Wharf is approximately one mile from airport with daily flights by Philippines Airlines.

HOLIDAYS: There are a number of official holidays (same as in Manila) being observed. Stevedores do not work on 1st May, Labour Day, and work half-day during Christmas Day, New Year's Day and Good Friday.

POLICE/FIRE/AMBULANCE: Contact should be made through the Customs Office which is at the wharf-side. There is a police outpost near the wharf.

TELEPHONES: No telephone connection to vessels at present.

GENERAL: Shipmasters should advise their crew not to bring along with them valuables when on shore leave. No visitors are allowed onboard without prior permission by the Customs Inspector onboard.

SERVICES: Special services available, e.g. tank cleaning and discharge of tank washings done by Luzon Stevedoring Company.

REGULATIONS: Local ship Agents will brief Shipmasters of the existing port regulations and also Customs Inspectors onboard will advise Shipmasters of these regulations when their assistance is sought.

AUTHORITY: Collector of Customs.

AGENTS: Smith, Bell & Co. (Philippines) Inc., PO Box 146, Davao City, Philippines. Cable address: "Smithbell Davao". Telephone numbers: 7-23-86, 7-36-42, 7-51-02.

HONDAGUA, Luzon Island: 13.56 N. 122.14 E.

SHIPMASTER'S REPORT 1974.

APPROACHES: B.A. Charts 3806 and 3475, neither of which are of very much use. There are no navigational marks by night, but the water is deep and we made a comfortable approach by Radar.

PILOTAGE: Minimum 12 hours notice required. Pilot boards at Siain, a village 10 miles West of Hondagua on the North coast of the mainland. Pilot boat is a small dug-out canoe fitted with outriggers and an outboard motor, and by day exhibits the pilot flag, and at night a single white light similar to a normal fishing canoe. Pilot shouts to attract attention when close to the vessel at night.

DOCUMENTS: Officials embark at Siain but not before 0630 hrs. due to curfew. Accommodation ladder required. All documents required as for first port of entry, excepting quarantine which is not performed twice.

10 Ships Store Lists.
8 Crew Personal Effects lists.
12 Crew Lists.
3 Health Declarations.
2 Visaed Crew Lists.
2 Plant Quarantine Lists.
2 Animal Lists.

Officials disembark again at Siain with the exception of the 3 Customs Officers, who remain on board and who require meals and accommodation.

BERTHING: One berth only, for grain discharge and for coastal tankers supplying fuel to the Mill. Berth lies East/West with approx. depth at L.W. East Dolphin 28 ft., Elevator about 34 ft. 6 in., and West Dolphin about 39 ft. The berth is thought not to be suitable for vessels exceeding 500 ft. L.O.A. The dolphins are of timber-pole construction, and the elevator is concrete. Arrival and departure from the berth is during daylight only. Mooring arrangement is 2 headropes to buoy, 2 breastropes to shore, spring-wire to bollard on elevator, 4 sternlines to concrete dolphin, and 1 spring-wire to bollard on elevator. An old landing-barge is used as a mooring boat, but this has only one engine on the port side and is not very manoeuvrable. A motorised dug-out canoe also assists, but is not powerful enough to pull a line very far. The elevator has two discharging suckers, but these are fixed and the vessel has to be shifted hatch to hatch. Combined capacity about 80 tons per hour which could be improved, but foundations of conveyor-belt system damaged by earthquakes.

TUGS: Not available.

FRESH WATER: Available at berth but not of very good quality. Ship's hoses required.

AIRPORT: None. There is a train service to Manila, about a six-hour journey.

CURFEW: Area is under Martial Law. Curfew from 2300 to 0600 hrs.

ILIGAN. Mindanao. 08.14 N. 124.14 E. (See Plan)

SHIPMASTER'S REPORT 1974

APPROACHES: B.A. Chart 3426. This is of not very much use as an approach chart as the scale is too small. However, the water is deep and therefore it does not matter too much. On this voyage we made an approach in darkness and solely on Radar. The only navigational light, a fixed red, being very hard to distinguish.

PILOTAGE: The Pilot boards about 1 mile N.W. of the piers. Pilot boat is a river-type launch about 50 ft. in length with a grey hull and a white funnel.

ANCHORAGE: 2 cables from old-harbour piers. 7 shackles in 50 fathoms.

RADIO: No VHF facilities.

OFFICIALS: Iligan is a Port of Entry. Officials board at the anchorage. Accommodation ladder required. Usual procedures take about 1 to 1 hour 30 minutes.

DOCUMENTS:

20 Ship's Stores Lists.
14 Crew Personal Declarations.
3 Vaccination, and inoculation dates.
3 Ports of Call and dates for previous 3 months.

Immigration: Before leaving last foreign port for the Philippines, obtain 4 official Crew List Forms from the Philippine Consul. Complete these forms and have them visaed by the Consul who will retain 2, and return 2 to the ship. Passes are required for crew members going ashore.

CUSTOMS ALLOWANCE: 1 bottle and 200 cigarettes per person. 3 Customs officers live on board all the time, and require accommodation and meals.

TUGS: Up to 4 tugs available if required, but it is advisable to give notice of requirements well in advance, since these tugs may be engaged in towing barges elsewhere around the island.

BERTHING: *Quinalang Cove.* 1 grain discharge berth. Depth at berth 40 ft. and ample room for a vessel of 600 ft. L.O.A. Discharge is by sucker direct to the Silo. There are 2 suckers with a combined average discharge rate of 100 t.p.h., but suckers are located in fixed positions requiring the vessel to be shifted hatch to hatch. Berth is well-fendered, with a shore gangway. Stevedores supply a good hatch-tent for working in the rain. 1 bulk-copra loading berth, 600 ft. in length and draft said to be 32 ft. 1 bulk-cement loading berth, reported to be capable of accommodating vessels of 25,000 g.r.t.

Camp Overton. Located South of Iligan, there is reported to be a steel-loading berth to accommodate vessels of 750 ft. length, and 36 ft. draft.

FRESH WATER: Available at most berths.

SHORE LEAVE: Crew members should take special care when proceeding ashore, and should not carry cameras or wear wristwatches etc. It is advisable to return aboard before darkness.

AIRPORT: About 20 miles distant. Daily flights to Cebu and Manila.

STORES: Fresh fruit available, also good supply of seafood.

REPAIRS: Only very minor repairs can be undertaken.

TIME: GMT plus 8 hours.

SHIPMASTER'S REPORT: September 1976.

Coconut Oil Berth: Located at "Quinalong Cove" Lat. 08.17 N. 124.15 E. Least depth of water in channel from sea to berth – 40 fathoms. Mean tidal range 5 ft. Density 1025. Nature of bottom at berth – mud. Vessels can berth in daylight only, unberthing anytime.

Anchorage: 3 cables S.W. of City Pier. Depth at L.W. 70 fathoms, cable should be "walked out".

Vessels hoses used, length of shoreline 300 m., size 12 in. No shore booster pumps used. Products handled, coconut oil and coconut products.

Pilotage: Compulsory. Pilot requires 24 hours notice and boards 1 mile N.W. of City Pier.

Max. size of vessel that can enter the port of Iligan is 100,000 d.w.t. and draft 45 ft. Keel clearance required, about 2 ft.

5 small and medium size tugs available.

Nearest consuls are in Manila.

Facilities available: Fresh water, 5 t.p.h. Fresh provisions. Laundry. No slop tanks, surveyor, repair facilities, fuel.

Documents required by shore authorities:

2 Visaed Crew Lists (Philippine) from previous port. If diverted at sea, a copy of the diversionary cable required.
6 Ordinary Crew Lists
6 Personnel Effects Lists
6 Store Manifests
6 Parcel Lists
6 Arms Lists
6 Mail Lists
6 Narcotics Lists
6 Animal Lists
6 Plant Lists
6 Cargo Manifests
6 Transit Manifests
6 List of Ports
6 Currency Lists

There is a cabin search by 4 Customs Officers, accompanied by 2 Ship's Officers. They collected an undeclared radio and two cameras. They did not impose any fine, as they said they had been courteously treated, and this was the vessel's first visit.

3 Customs Officers remain aboard, and have to be fed.

ILOILO, Panay: 10.41 N. 122.35 E.

See "General" before first port.

PORT LIMITS: Iloilo Harbour is defined as that portion of Iloilo Strait within the following boundaries: an imaginary line extending from the Northern bank of Dumangas River, Island of Panay, across Iloilo Strait to Navalas Point on the Northern coast of Guimaras Island; thence along the N.W. and West shore of Guimaras Island to Lusaran Point thence along an imaginary line extending from Lusaran Point to the South bank at the mouth of Siuaragan River in the municipality of San Joaquin, Province of Iloilo, Island of Panay, to the North bank of Dumangas River.

PILOTAGE: All foreign-going vessels required advise ETA 24 hours before arrival. Telegraphic address Iloilo Pilots. Pilot station: South entrance at Sinapsan Point; North entrance at Navalas Point. Pilot boat painted white with name "Pilot" on top, carries flag "H". Sound signals for calling Pilot, 2 long blasts and 1 short.

Northern entrance: Pilot boards vessels at Northern entrance to Iloilo Strait 2 miles East of Navalas Point. Maximum draft 24 ft. Entry and departure in daytime only.

Southern entrance: Pilots board vessel 1 mile West of Sinapsan Point. Vessels can be brought in and out of the harbour at any time, maximum draft 30 ft. Vessels with more than 30 ft. draft must wait for high tide.

RESTRICTIONS: Iloilo Strait, separating Panay and Guimaras Islands, has a width of about 0.9 mile at its narrowest part. This important thoroughfare leads to the port of Iloilo. Its shorelines are very irregular, and the navigable channels are narrowed by Iguana bank and Siete Pecados Islands on the Northern entrance and by Oton bank on the Southern entrance. Ocean vessels use only the South entrance when entering Iloilo Strait. Incoming vessels are met and boarded by Iloilo Pilot at Sinapsapan Point. Pilotage is compulsory. Oton bank is of soft muddy sand, about 0.1 mile W.S.W. of the Southern extremity of the flat on which Iloilo City stands and extends about 8 miles in a W.S.W direction. It is composed of shifting sand and said to be extending Westward; vessels should not attempt to cross it. There is a narrow channel between it and the Panay shore, used by coast-wise vessels, but the main channel into Iloilo is between the bank and Guimaras Island. It is the sand bar along this channel that limits the draft of ocean vessels, entering or leaving Iloilo Strait, to a maximum of 33 ft. on a 5.0 ft. tide.

ANCHORAGE: Anchorage is protected between Dapdap Point and Bondulan Point. Controlling depth is 27.4 m. to 34.7 m.; bottom is sandy.

MAX. SIZE: No restrictions on length and breadth. Vessels over 30 ft. draft dependent on height of tide.

HEALTH: All overseas vessels calling first port of entry are subject to quarantine until free pratique granted. Quarantine doctor boards on arrival and issues Bill of Health subject to Master's Health Declaration and clearance from last port. Agents must be advised by radio in advance if suspected disease or fever on board. Pratique automatic for vessels coming from another port in the Philippines.

RADIO: RCPI, PT&T, Telefast and Telecom (Gov't).

TUGS: Berthing assistance by tugs available if requested. Ship's lines used. Pilot boats normally assist berthing.

BERTHING: Limited berthing space at pier berths, accommodation for 2 vessels only. Advance information required for vessels loading bulk sugar or molasses, since only 1 vessel may berth at a time.

Guimaras Island: Molasses installation, the molasses loading pier, owned and operated by the Luzon Stevedoring Co., is easily picked out and distinguished by the 3 steel tanks and 1 concrete tank situated on a hill just above the pier and should not be confused with the Jordan municipal pier laying just South of it. The pier is T-shaped, being 25 ft. at the face with a row of 4 pile clusters in line with the face, with a total span of about 300 ft. and with ample mooring facilities. It is recommended that berthing be done at flood tide, with the assistance of a Pilot obtainable at Iloilo. Unberthing can be done at any time. The 3 steel and 1 concrete tanks have an aggregate capacity to store 52,400 tons of molasses. 3 of these 4 tanks are provided with pneumercator scales. The molasses outloading berth is located about 800 ft. North of the bulk sugar outloading berth and its outloading capacity is about 5,500 tons of molasses per day. Tankers with as much as 12,000 tons d.w.t. capacity have been handled here.

Bulk sugar installation. The berth has an average depth of water alongside of 40 ft., the shallowest portion being 33 ft. at the Southernmost part of the breakwater extending down to the inloading berth. Maximum length of vessel so far accommodated is 633 ft. (without utilising hatches 1 and 7). The outloading capacity for bulk sugar is from 7,000 to 8,000 tons per day, while the capacity to inload from barges into its 3 warehouses is about 4,000 tons per day. The 3 warehouses have a total capacity of 60,000 tons. Outloading of bulk sugar to ocean vessels is effected by means of conveyor system running from the warehouses to the outloading tower which has 2 retractable boom bridges fitted with ship trimmers. Height of boom bridge down to its base is 31 ft. with the water level during high tide being 1 ft. below this base. Carrier vessels coming alongside to load therefore should not exceed the height of 32 ft. from waterline to hatch coaming in order to allow boom bridge of the outloading tower clearance over the hatch opening.

STEVEDORES: Advise Agent before arrival details of cargo and number of gangs required.

MEDICAL: Agent should be advised 24 hours in advance of any medical requirements. Hospital facilities available. All crew require valid vaccination certificates.

FRESH WATER: Delivered by barge, minimum charge for 40 metric tons. Available from Guimaras Shore Installation, minimum charge for 40 metric tons.

FUEL: Bunker "C" available, subject to 3 days advance notice.

GANGWAY/DECK WATCHMEN: Services of shore watchmen recommended.

OPENING/CLOSING HATCHES: Normally done by stevedores

except for McGregor or other automatic hatch covers which are operated by the crew.
CUSTOMS ALLOWANCE: 200 cigarettes in an open carton allowed each man. No allowance for wine or spirits.
CARGO GEAR: Details of any heavy lifts should be advised to avoid delay.
IDENTIFICATION CARDS: Required for shore leave. Seamen's Books or passports usually deposited with Immigration.
CONSULS: Great Britain, telephone 5086. All other Consuls at Manila.
REPAIRS: Minor repairs can be effected. Dry docks for local barges and launches only.
REPATRIATION: Can be arranged subject to Immigration approval.
AIRPORT: Situated about 4 miles from the port with regular local services.
TIME: GMT plus 8 hours all year round.
HOLIDAYS: 1st January, Holy Thursday, Good Friday, 9th April, 1st May, 12th June, 4th July, 25th December, 30th December. Cargo work may be arranged on these days.
POLICE/FIRE/AMBULANCE: Police, tel. 55–21; Fire, tel. 30–11; Ambulance, tel. 26–12 or 25–61.
TELEPHONES: No facilities for placing telephones on board.
AUTHORITY: Collector of Customs.

AGENTS: Smith Bell & Co. (Philippines) Inc., tel. 28–51. Telegraphic Address: Bell Iloilo.

JOLO: (Jolo Island) 06.03 N. 121.00 E.

See "General" before first port.
PILOTAGE: Telegraphic advice to pilot station required 48 hours in advance. Pilot boards in quarantine anchorage.
ANCHORAGES: 4 miles N.W. of Piers I and II.
RESTRICTIONS: Entry permitted only before sunset and after sunrise. Vessel should wait 4 miles off Piers for quarantine or Pilot service.
MAX. SIZE: Up to 8,000 tons d.w.t.
HEALTH: Wait for quarantine doctor at quarantine anchorage. To obtain pratique, the ship's Master must advise the ship's Agent vessel's ETA in advance. The ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same and if the vessel is found to be free from all quarantinable diseases, pratique is granted.

Automatic pratique is granted only to naval vessels.

Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines immediately before.
RADIO: Radio Corporation of America or Mackay Radio.
TUGS: None available.
BERTHING: As may be directed by Wharfinger.
STEVEDORES: ETA advices required in order to arrange gangs.
MEDICAL: It is always necessary for ship Masters to notify their Agents of required medical attention at least two to three hours before arrival. Hospital facilities are available. Vaccination/Fever Certificates required, especially those against cholera, smallpox and yellow fever.
DENSITY: 1025.
FRESH WATER: Available, direct line to ship from all berths.
FUEL: Available. Delivery direct line to ship from pier.
GANGWAY/DECK WATCHMEN: Services of watchmen necessary.
OPENING/CLOSING HATCHES: This work is normally carried out by stevedores.
CUSTOMS ALLOWANCE: 200 cigarettes for each crew member, and one bottle of liquor for each crew member.
IDENTIFICATION CARDS: Essential.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
CONSULS: None.
REPAIRS: No facilities.
AIRPORT: Plane flight twice a day to Manila for international connections.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December). When any holiday falls on a Sunday, the following day (Monday) is by law considered a legal public holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays. Cargo work on board vessels on these holidays can be arranged.

Muslim holidays do not fall on fixed dates.
POLICE/AMBULANCE/FIRE: Telephone numbers can be supplied by Agent.
TELEPHONES: Cannot be connected on board vessels.
DELAYS: Availability of berthing space.
AUTHORITY: Collector of Customs, Jolo, Sulu.

JOSE PANGANIBAN, Luzon: 14.18 N. 122.40 E.

See "General" before first port.
PILOTAGE: Compulsory for entrance and for clearance. ETA must be forwarded to the Agency in Manila; the last telegram from the Master w/ETA will be transmitted by radio to Pilots at Jose Panganiban (mentioning Larap if the vessel goes direct to Larap, J.P., and also to the loader in Daet. (Daet is the Capital of North Camarines.) In case of change of time, the hour of expected arrival may be forwarded directly to the Harbour Pilot. Master to pilot his vessel 1.5 miles South of Tanao Island lighthouse and steer 180° at moderate speed to meet Pilot.
ANCHORAGE: Protected from all sides except the S.W.: controlling depth is from 5 to 7 fathoms and has a mud bottom.
RESTRICTIONS: Entrance can be at any time day or night, but during Northern monsoon advance notice should be given to consider the use of a motor-boat instead of small-motored *Banea;* in case of meeting outside harbour limits the request should be made to Pilot by the Master of vessel entering.
MAX. SIZE: Max. draft not to exceed 30 ft.
HEALTH: To obtain pratique, the ship Master must advise Agent vessel's ETA in advance. The foregoing advice is very important because the ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same, and if the vessel is found to be free from all quarantinable diseases, pratique is granted. Automatic pratique is granted only to naval vessels. Pratique is no longer necessary when the vessel entering the port has called at another port in the Philippines.
RADIO: RCPI (Radio Communications of the Philippines, Inc.).
TUGS: A motor-boat is used by the PIM (Phil. Iron Mines) in Larap for vessels to load for them in that bay, but it is not needed for Panganiban Bay.
BERTHING:

	Length (m.)	*Width (m.)*	*Depth (m.)*
Government Wharf	187 (concrete)	11.50	5.0
Private Wharf (Phil. Iron Mines)	15.85 (wooden & concrete)	11.58	9.76

MEDICAL: Good hospital facilities in Larap and in Daet. There is also rural Medical Officer in this locality.
FRESH WATER: Insufficient fresh water on the pier to supply ships.
GANGWAY/DECK WATCHMEN: There is watchmen service in this port; number of watchmen at ship's convenience.
OPENING/CLOSING HATCHES: An additional charge for this job is imposed if carried out by stevedores. The crew can, however, do the job.
CUSTOMS ALLOWANCE: 200 cigarettes for each member of the crew.
IDENTIFICATION CARDS: Only those which have to be shown to Immigration Officer with booklet are necessary. Immigration Officer will board vessel after the doctor's clearance.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.
AIRPORT: In Larap and in Daet. Daily trips to Manila.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: New Year's Day (1st January); Bataan Day (9th April); Holy Thursday (variable); Good Friday (variable); Labour Day (1st May); Independence Day (12th June); Republic Day (4th July); All Saints' Day (1st November); National Heroes Day (30th November); Christmas Day (25th December); Rizal Day (30th December).
AUTHORITY: The Collector of Customs.

LEGASPI: 13.10 N. 123.45 E.

See "General" before first port.
PILOTAGE: Send advance notice telegram to Harbour Pilot, Legaspi City, 48 hours before arrival. ETA should be tendered 48 hours and 24 hours in advance. No VHF available. Pilot boat has letter "P" painted white above water line. International Code signals used.

Pilot area is within the 3-mile limit from the harbour, whereby no extra charges will be solicited. However, if vessel requires services outside the harbour limits, extra pay is solicited. During inclement weather, Masters of vessels should notify their arrival in order to be met within or outside the 3-mile limit.

During bad weather a Jacob's ladder is more appropriate until vessel is at anchorage, thence accommodation ladder will be utilised for the purpose of Quarantine and Customs Officers.

No specific areas of anchorage in waiting for a Pilot; Master must use his discretion to drop anchor within the 3-mile limit with seven shackles in the water until Pilot arrives.
ANCHORAGE: After sunset and before no vessel is cleared by Customs.

Anchorage area is open to vessels of any draft. It does not offer good holding ground since the bottom is irregular, consisting of volcanic sand, rocks and mud.

Depth is from 4 to 31 m.
MAX. SIZE: Length 600 ft. draft 32 ft. During spring and neap tides current is strong. At Pilot's discretion when to dock and undock.
HEALTH: All crew members and officers should possess valid

vaccination certificates. In the event of suspected disease or fever on board, Quarantine Officers should be notified at port of call.

Pratique could be served by boarding Quarantine Officers. Pratique is not needed if vessel already called at port of entry within the jurisdiction of the Philippines.

RADIO: Following stations are normally used:

RCPI
FILTEL
TELEFAST
CLAVECILLA
CRC

TUGS: No tugs available. Motor launch is used to attend to mooring and unmooring.

BERTHING: At AiC Berth and Legaspi Berth. Mooring daytime only. Vessels moor stern to quay (Mediterranean mooring).

	Length (m.)	*Width (m.)*	*Depth (m.)*
Gov't. Marginal Wharf	360 Concrete	30	4.9
Legaspi Oil Co.*	106 Timber	48	12

*Equipped with a conveyor belt for copra coke shipments and pipe connection for oil bulk.

STEVEDORES: Stevedores are members of Union Oberara of Legaspi, Fraternal Obrara and Espinosa Estervering.

Bulk cargoes are handled and charged per ton. Hired shore personnel are paid per minimum wage rate daily as described by the Bureau of Labour Law.

TANKERS: Max. draft 30 ft. Diameter of Load Discharge Line, 4 in.

MEDICAL: Hospital available.

DENSITY: Salt water density 1036.

FRESH WATER: Fresh water is available by tank-truck, containing 6 tons.

FUEL: Fuel available at any time.

GANGWAY/DECK WATCHMEN: Services of watchmen are available at the Master's discretion.

OPENING/CLOSING HATCHES: In the absence of sailors to open/close hatches, shore union personnel are available with a rate based on Union Rate Tariff.

CUSTOMS ALLOWANCE: 1 carton of cigarettes for each crew member. 1 bottle of wine and/or spirits for each officer.

IDENTIFICATION CARDS: Required, also Seaman's Book.

REPATRIATION: Allowed upon approval by Commissioner of Immigration at Manila.

AIRPORT: There is an airport about 2 km. away. 1 flight per day or 7 flights per week.

TIME: Standard time. GMT plus 8 hours.

HOLIDAYS: 1st January (New Year's Day); 9th April (Bataan Day); Maundy Thursday; Good Friday; 1st May (Labour Day); 12th June (Independence Day); 4th July (Fil-American Friendship Day); 30th November (Bonifacio Day); 25th December (Christmas Day); 30th December (Rizal Day).

Cargo work can be arranged on these days with additional overtime charges covered by the Bureau of Labour Law.

POLICE/AMBULANCE/FIRE: There are telephones connected to the 3 mentioned services but they have no numbers. Only controlled by operator available for any call simultaneously.

GENERAL: Notice of vessel's should be sent 48 hours before the vessel's arrival.

AUTHORITY: Collector of Customs.

AGENTS: Smith, Bell & Co. (Philippines) Inc., Legaspi City.

MANILA, Luzon: 14.35 N. 121.58 E. (See Plan)

See "General" before first port.

PILOTAGE: The Pilot will board vessels in the quarantine anchorage at the completion of the quarantine inspection if vessels are proceeding to 1 of the 26 anchorages within the breakwater or to one of the piers.

Pilotage for anchoring or leaving anchorage within the breakwater is compulsory, as well as when docking and undocking at any of the piers.

ANCHORAGE: The position and bounds of the quarantine anchorage may be determined as follows: From the Manila Outer Harbour light buoy No. 1, approximate position, Lat. 14° 33′ 09″ N., Long. 120° 54′ 00″ E., thence on a range of 76° 24′ true, Custom House City Hall Towers 4,000 yds to approximate position Lat. 14° 34′ 50″ N., Long. 120° 56′ 00″ E., thence 180° true 119 yds. to approximate position Lat. 14° 34′ 14″ N., Long. 120° 50′ 00″ E., thence 242° 30′ true, 4,440 yds. to the Manila Outer Harbour lighted buoy No. 1 at point of commencement.

When approaching the quarantine anchorage during daytime, the ship should fly her registered signal letters. When the vessel arrives during night at the quarantine anchorage, vessel's call letters should be hoisted at daylight as well as the "Q" flag. If vessel is carrying mail also the "Y" flag should be hoisted until delivery is effected.

RESTRICTIONS: Vessels entering Manila Bay through the North channel shall pass midway between La Monja Island and Guardia Shoal and shall proceed directly through the middle of the channel between Corregidor Island and the mainland, steering 070° until 1 mile distance from the shore is cleared. The same route shall be followed by vessels when leaving Manila Bay through the North channel.

Vessels entering Manila Bay through the South channel should not approach any shore closer than 1 mile and shall keep South of the restricted area, South of La Monja, Corregidor and Caballo Islands, which is embraced within the North sector of the following 2 bearings: 296° from El Fraile Island and 236° from Caballo Island lighthouse; furthermore on the Southern side of the channel, they shall not approach the line joining El Fraile and the N.W. point of Limbones Island closer than 1 mile. The same restrictions apply to vessels leaving Manila Bay through the South channel.

There are no uncharted obstructions between the entrance to Manila Bay and the quarantine anchorage and the vessels should have no difficulty proceeding over this route. Frequent difficulty is experienced in picking up Sangley point light because of its low visibility and the background of shore lights.

MAX. SIZE: Pier 9, length 250 m., draft 20 ft. Pier 13, length 400 m., draft 32 ft. Pier 15, length 380 m., draft 35 ft. Tankers: Up to 40 ft. draft at Rosario Sea Berth.

RADIO: Weather information and Notices to Mariners are broadcast daily from the following local radio stations:

DZA	2,598 kc	0830;	1030;	1200 hrs.
		1830	2030 hrs.	
DZRH	650 kc	0520	0525	1620 to 1625 hrs.
DZAQ	620 kc	between	0500 to 0530 hrs.	
DZBB	580 kc	,,	0500 to 0530 hrs.	
DZBC	1,000 kc 9,550 kc	,,	0500 to 0530 hrs.	
	710 kc		0500 to 0530 hrs.	
DZFM	6,170 kc	,,	1000 to 1030 hrs.	
	11,840 kc		1600 to 1610 hrs.	
DZPI	800 kc 9,500 kc	,,	1700 to 1730 hrs.	
DZRC	950 kc	,,	1630 to 1635 hrs.	

Station DUS of the Coast and Geodetic Survey may be contacted for urgent nautical information at 0820 and 1350 hrs weekdays and 0820 and 1220 hrs. on Saturdays. DUS transmits on 8690 kc (CW) and receives on 8412 kc (CW).

TUGS: Available.

BERTHING: Vessels having 100 tons or more of general cargo for discharge (except those granted ship-side delivery permits) must berth at piers for such discharge. Ship-side delivery permits are issued by the Bureau of Customs on certain merchandise considered as bulk cargo.

	Length		*Width*	*Depth*
Pier 3	387.05 m.	concrete	103.32 m.	8.00 m. min. 10.00 max.
Pier 5	360.00 m.	,,	103.40 m.	,,
Pier 9	361.63 m.	,,	101.19 m.	,,
Pier 13	433.78 m.	,,	82.64 m.	,,
Pier 15	366.10 m.	,,	103.40 m.	,,

Pier 3 is exclusively used for handling containerized cargo.
Pier 5 and premises, for general cargo.
Pier 9 and premises, for general cargo and passenger. The passenger terminal is at this pier.
Pier 13 and premises, for general cargo, containerized cargo and for a roll-on/roll-off cargo ship berth.
Pier 15 and premises, for general cargo, passenger ships and naval vessels.

STEVEDORES: Stevedoring is handled by Luzon Stevedoring Co. and the Delgado Stevedoring Co., supply ample labour, lighters and tugs. Cargo averages about 10 t.p.h. and for the following bulk cargo: Copra, in bulk, 10/12 tons per gang hour. Copra cake and meal, 15/20 tons per gang hour. Desiccated coconut, 250–300 bags per hour. Hemp, 80/100 bales per gang hour. Sugar, 25 tons per gang hour. For the discharging of coal or gypsum, the rate is about 25 tons per hour.

TANKERS: Filoil refinery sea berth: Is located at the entrance to Manila Bay position: Lat. 14° 26′ 30″, Long. 126° 46′ 40″. This position is 2.5 miles off the shore of Rosario, Province of Cavite.

The mooring area is marked by 6 mooring buoys. A ship's guide buoy marks the point where the ship's starboard anchor will be dropped upon entry into the berth. 4 other buoys inside the berth at midport mark the end of the submarine pipe-line, centre of ship's manifold and the hose ends respectively. The bearing of the centre of the berth is N. 65° E. The depth is 50 ft. at high tide and 45 ft. at low tide approximately.

The weather is quite good during the dry season, but is unfavourable during monsoon season (May to November). Wind and swells are mostly from a S.W. direction and usually prevalent during monsoon season.

It is emphasied that vessels moored at the berth must be in good condition to clear the berth immediately in case of an emergency. Ship's engines and gear must be ready with full power for immediate use. Ship's personnel should be at their stations at all times during mooring, unmooring and cargo unloading operations.

Radio: Filoil Makati office may be contacted by dialling telephone Nos. 87-40-61 and 87-40-71. The Rosario refinery may be contacted by dialling telephone Nos. 47-95-51 and 47-95-53.

Communication from the sea berth with the refinery, Filoil's launch and Filoil representative on board is through VHF radio. If VHF radio fails, the Filoil launch will be despatched to bring the message either way.

Filoil representative on board maintains a radio watch and constant communication with the shore for general purposes and emergencies.

Luzon Stevedoring Company tugboats also maintain a constant radio communication with their representative at the shore. In case of emergency, messages can be relayed via these tugs.

Ship's Agent: All vessels carrying crude or other cargoes for discharge at Filoil refinery sea berth must appoint their local ship's Agent who will provide them with the necessary ship husbandry services.

Notice of Arrival: They must report their estimated time of arrival to Filoil Refinery Corporation, cable address' "Filoil", Manila, Philippines, 3 days after leaving port of loading and 72 hours before arrival at Manila.

Pilot and Boarding Parties: Pilots are arranged for by the ship's Agent. Generally, Pilots board the tanker at the Manila anchorage to assist the Master to moor in the berth and leaves at the sea berth after berthing.

Filoil representative boards the tanker 1 mile before the sea berth, but if it is the first voyage, he boards the tanker together with the Port and Government authorities at Manila anchorage.

Tugs: Tugboat service is arranged for by ship's Agent. Tugs generally come from Manila. Give at least 48 hours notice when ordering tugs.

Quarantine, Customs and Immigration: Manila is the port of entry for the Rosario sea berth. Therefore, entry and clearance must be arranged by the Ship's Agent at Manila. Boarding officers board the vessel in the Quarantine anchorage prior to arrival within the mooring area. Pertinent government officials should be given sufficient time,usually not less than 24 hours Monday to Friday, and 48 hours Saturday and Sunday. Generally, entry and clearance can be arranged by the Agent who should advise Customs well in advance of the vessel arrival.

Ballast, Bilge and Garbage Disposal: There are no ballast facilities at the refinery. Masters are advised that in Manila Bay, the Harbour-Pollution regulations are rigidly enforced. Therefore no bilge water, oil contaminated water, garbage or similar refuse which may pollute the sea water in any way, is to be discharged overboard while the vessel is within Manila Bay and approaches thereto. The staff at Rosario are required to report any violation of this Philippine Merchant Marine regulation.

Launch Service: Regular launch service for crew transportation is not available and has to be arranged through ship's Agent. The Luzon stevedoring launch is used to run lines, assist in picking up cargo hoses, etc. Filoil's owned or hired launch is for the exclusive use of Filoil representative and personnel boarding the vessel; however, transportation may be arranged through Filoil representative in cases of emergency.

Medical: Medical attention can be arranged by the ship's Agent. There is a clinic at the refinery. The nearest hospital is 0.5 miles from the refinery.

Heading for the Sea Berth: As soon as government clearance (pratique) is granted, vessel lifts anchor and heads for Rosario sea berth, a distance of about 16 land miles from Manila anchorage.

Vessel Mooring Gears and Facilities: The vessel's bow is secured in the moorings by the use of both bower anchors. Therefore, ship must have both bower anchors ready for immediate use, each with a minimum of 150 fathoms of chain. Anchors, chains and anchor windlass must be in good condition and capable of heaving ship ahead with the chain or letting 1 chain go out on the run while heaving in on the other. Mooring buoy No. 6 can be used instead of port anchor if 3 mooring lines are hooked up.

Vessels must be equipped with 10 in. manila or better mooring lines of not less than 8 in. circumference and not less than 90 fathoms in length of each line. 2 lines are required for each of 6 mooring buoys, 5 of which are aft to secure the ship's stern position. Therefore, 5 lines are to be available on the fantail for mooring to buoys Nos. 1, 2, 3, 4 and 5.

Vessels having wire moorings secured on warping winches with surge valve and brake are acceptable. Warping winches must be adequate to handle mooring line under heavy strain. Efficient stopper lines must be readily available to "stop" mooring lines for transfer from winch to bitts without loss of tension.

All chocks other than roller (if free) shall be fitted with chafing gear to protect lines before berthing operation commences, endeavouring to install chafing gear after the ship has been moored has proven impracticable. Old fire hoses or substitute is suggested.

If in the opinion of the Pilot, the vessel's mooring facilities lines and/or gear are inadequate, he will inform the Master and Filoil representative, and in such event the vessel will not be allowed to enter the moorings until such conditions are deemed satisfactory.

Docking procedure: To moor, the vessel approaches the mooring heading due South. When in proper position, the starboard anchor is dropped and the chain allowed to run until vessel crosses the mooring area to a point where the port anchor is let go or when the mooring lines are dropped to buoy No. 6. Then the engines are backed and the vessel with the assistance of the tug, manoeuvred into the mooring area where after lines are run to the 5 mooring buoys and then the anchor chains are brought tight simultaneously with the securing of the stern to the mooring buoys. The vessel is then heading due West parallel with the tide current flow.

When secured in the berth, vessel should not be closer than 10 m. from the end of the s ubmarine pipe-line. Bower anchor chains should have spread of not less than 30 degrees on either side of the ship's imaginary fore and aft line extended forward. Stern buoy moorings should be set as taut as possible and anchors form an approximate angle of 300° with water line.

Submarine Hose Lifting Gear and Manifold Connection: The derrick on the port side in way of the hose connection must be rigged to lift not less than 5 tons. The topping Lift shall be available to raise or lower the boom as required and the winch and whip shall be of a quality and nature to lift the hose exactly and evenly. The hose and fittings are considered to weigh 3 tons. The hose connecting gang and its supervisor are form Luzon Stevedoring Company and are under contract to Filoil. They will use the ship's machinery to raise the 2×10 in. hoses from the bottom and secure same to the ship's side. They will also disconnect the hoses and lower same to the bottom of the sea after completion of discharging of cargo. The ship's manifold must have 10 in. flanges for connection to 10 in. submarine hoses.

Safety Rules and Regulations:

Mooring lines must be in good condition and kept tight at all times.

Sparking smoke stacks must not be permitted. If for any reason a stack catches fire or emits live sparks, cargo operations must be stopped immediately on this and adjoining vessels.

Throw nothing overboard from deck or portholes while at sea berth.

During cargo and/or ballast operations, vessels shall show red flag by day and red light by night. No smoking amidships during cargo and/or ballast operations.

No chipping, repairs, welding or hot work is allowed on any vessel while at sea berth unless special permission is given and a safety permit obtained. The ship must always be ready to sail out at a moments notice.

Pumping crude oils must be stopped during electrical storms or if lightning appears in close vicinity.

In case of fire, shut down all pumping and sound alarm. Disconnect hoses so as to be ready to shift from berth. All vessels at berth must have main engines ready for use. Water, foamite and steam are never to be used on electrical fires. Use dry chemical or Pyrene. Use foamite, water fog, steam CO_2 or dry chemical on oil fires.

Avoid spilling oil on deck. If any oil is spilled, it must be cleaned immediately. Gasoline or naphtha is not to be used for cleaning.

Only Underwriter's laboratory approved flashlights permissible use in methane and air misures by the U.S. Coast Guard are to be used for loading, discharging, ballasting and/or repair work on vessels.

Ullage screens are to be kept in place during cargo and/or ballast operations.

Tugboats are not to be allowed alongside while discharging cargo or ballast.

No extension cord or portable cables which are connected to an electric power source shall be used on deck in way of cargo or fuel tanks unless vessel is certified gas-free.

Fire hose shall be laid out and suitable fire extinguishers available. Failure to comply with any of the above rules will result in the vessel being shut down. Sufficient copies are to be presented to the Master so that they may be posted in various places about the vessel. It is the Master's responsibility to see that these rules and regulations are enforced.

Discharge of Cargo; After hoses are connected, the Filoil representative will, after communication with the refinery, advise commencement of pumping. In the beginning the rate is to be slow and the Filoil representative will advise when pumping rate is to be increased to maximum. Discharge of cargo may be stopped due to adverse weather conditions. In which event, the hoses are disconnected and the submarine hose lowered to the sea bottom. Cargo discharge will be resumed when the adverse weather moderates.

Crude oil discharge through 2×10 in. hoses 255 ft. long through a 10 in check valve and 10 in. gate valve then into the 24 in. pipe-line which is 2.5 miles in length. The height of the shore tanks (foundation) above sea level if 15.5 ft. Pressure at the ship's side must not be less than 60 lb. Maximum pressure allowed is 120 lb. at the ship's side.

Stripping – Tank Draining: To keep a discharge time to a minimum, tanks should be stripped into one of the ship's tanks and the final stripping shall be from only one tank.

Board and Lodging Accommodation: Sufficient accommodation and meals are requested to be available and prepared for the Filoil's representative in the officers' quarters. He will remain with the vessel until casting off or until relieved to be of assistance to the crew.

FRESH WATER: Available, either at berth or by barge.

FUEL: Fuel oil can be obtained from the Esso, Mobil, Getty, Fil-Oil, Caltex and Shell Oil Companies. Delivery by barge is made either at one of the anchorages within the breakwater or at the piers. Where possible, prior notice of 72 hours should be given the oil companies. Maximum rate of loading is 100 tons of bunker fuel and 125 tons of diesel fuel per hour.

MEDICAL: Complete hospital facilities are available in Manila.

REPAIRS: The Mariveles shipyard operated by the National Shipyard and Steel Corporation located at Mariveles Harbour have facilities for the dry docking and repairs of vessels up to 10,000 g.r.t. and of length and draft up to 500 ft. and 25 ft. respectively.

SERVICES: The Atlantic Gulf and Pacific Co. is equipped to undertake cleaning of tanks for receipt of coconut and vegetable oils. Where the tanks have contained coconut or vegetable oils previously, the time required for cleaning is from 18 to 30 hours; where tanks have previously held wood oils or fuel oils, the time required to prepare them is from 48 to 60 hours.

Vessel requiring the services of a launch at any time of the night should use the following signal to which the harbour transport launches will answer: Searchlight, signal lamp or open blinker light pointed straight up slightly inclined shoreward and left on until launch arrives alongside.

DEVELOPMENTS: A stern-loading ramp for roll-on/roll-off vessels on Pier 9 and the installation of a gantry crane on Pier 3 with a capacity of 35 tons. At the Manila International Port, the first phase is to be completed by early 1977.

AUTHORITY: Head of Port Operations Service, Bureau of Customs.

AGENT: Smith, Bell & Co. Inc., POB 311, 5th Floor, Domestic Building, Bonifacio Drive, Port Area, Manila.
Tel: 49-21-11. Telex: RCA 722566. Cables: Shipping Manila.

MASAO: 09.06 N. 125.22 E.

See "General" before first port.
PILOTAGE: Pilotage is compulsory and appropriate notice should be sent to the Masao Pilots' Association at least 24 hours before the arrival of the vessel.
ANCHORAGE: The anchorage is wide and deep enough to accommodate as many as 20 vessels at one time. Depth, 10 to 35 fathoms.
RADIO: Any commercial radio systems would be sufficient, such as Globe, or Mackay or RCA.
TUGS: At Magallanes Bay, where majority of foreign vessels discharge, tugs are not needed, as anchorage is done along the stream. But at Nasipit, the pilot launch will handle the lines for mooring.
BERTHING: Vessels work cargo to lighters in Magellanes Bay. At Nasipit: Copra loading.
STEVEDORES: No particular ETA advices necessary; exporters will handle the advice of their stevedores.
MEDICAL: Necessary for Agents to receive advance notices for medical attention required; hospitals to handle major medical cases. The provincial hospital is in Butuan City which is about 12 miles away.
FRESH WATER: This is available at Nasipit, but notice should be given to the Agent who in turn will serve notice to Messrs. Nasipit Lumber Co. Water is delivered by truck.
GANGWAY/DECK WATCHMEN: Available and recommended.
OPENING/CLOSING HATCHES: This is normally carried out by members of the crew, but at Nasipit, in the case of American vessels, this is done by the stevedores, chargeable to the exporters.
CUSTOMS ALLOWANCE: 200 cigarettes and a bottle of wine for each crew member would be allowed during the duration of the vessel's stay in port. Request for additional needs could be arranged by the Master through the Customs Inspector on board.
IDENTIFICATION CARDS: Necessary.
CONSULS: None. Nearest at Cebu, and Manila.
REPAIRS: All types of repairs on deck require the permission of the Collector of Customs.
REPATRIATION: Can be arranged.
AIRPORT: Distance to the airport is about 4 km. and flights are daily to Manila. Philippine Airlines, Filipinas Orient Airways have their regular flights for Manila, Cebu, Cagayan de Oro, and Davao.
HOLIDAYS: Cargo can be worked on any day except New Year, Independence Day, 12th June, and Holy Week.
AUTHORITY: The Collector of Customs.

PUERTO PRINCESA: 09.44 N. 118.43 E. (See Plan)

See "General" before first port.
Puerto Princesa, a large irregular inlet between Bancaobancaon Point and Panagtaran Point, is 2 miles wide at the entrance, extending about 6 miles in a Northwesterly direction. Coral reefs about 0.5 mile wide making out on the entrance points narrow down the navigable width of the channel to about 1 mile, depths of 34 fathoms (62.2 m.), shoaling to 9 fathoms (16.5 m.) in the vicinity of the pier. The major portion of the Northwestern and Western part of the bay is mostly shoal. The shoreline is generally fringed with mangroves and fronted by mud flats. The surrounding land consists of extensive wooded plain, backed by a high mountain chain. Several small rivers navigable by launches and small boats empty into the bay. The inner part of the harbour is a good typhoon anchorage.
PORT LIMITS: About 1 mile South of the pier. This is the entrance to the inner harbour of Puerto Princesa.
PILOTAGE: Pilots can be contacted by radio message through the shipping Agent not less than 24 hours of ETA indicating among others the following information:

1. Name of vessel
2. Name of shipping lines
3. Country vessel is registered
4. Type of vessel
5. Overall length
6. Draft
7. GRT
8. Volume of cargo to be discharged and storage required
9. Nature of cargo
10. Passengers disembarking, transit and embarking if any.

When Pilot is aboard the pilot boat, an international flag "P" will be seen flying at her foremast.
ANCHORAGE: Vessels not going alongside the T-shaped pier may anchor Southwestward of Princesa Point in 12 to 16 fathoms (21.9 to 29.2 m.), mud bottom. A better protected anchorage may be had in 9 to 10 fathoms (16.5 to 18.3 m.) about 400 yards Northward of the end of the pier.
RESTRICTIONS: At night, in approaching Puerto Princesa from offshore, the lights in the vicinity of Canigaran, Northward of the entrance, may cause some confusion to strangers as they are visible long before the Puerto Princesa Light can be seen. The port light which is fixed red, visible 7 miles over an area of 041°, only becomes visible close in and just off the mouth of the harbour. At daytime a course Southward of the range Thumb Peak-Tidepole Point clears the reef on the North side of the entrance. Mount Beaufort on range with Tidepole Point clears the reef on the South side.
MAX. SIZE: Vessels not going to dock alongside the pier may anchor at 9 to 10 fathoms or 12 to 16 fathoms. For vessels going to dock alongside the T-shaped pier, permissible length and draft are the following: Length – 126 ft. (39.4 m.) draft – 27 ft. (8.2 m.)
HEALTH: Quarantine doctors are assigned in the Port to board the vessel and check any suspected disease or fever.
RADIO: Vessels at sea usually send their radio messages through the Association of International Shipping Lines in Manila to their Agents.
VHF: Not available.
RADAR: No radar station in the port.
TUGS: Tug service can be availed of by communicating with the local shipping Agent.
BERTHING: The town has a T-shaped concrete pier with a berthing face of 126 ft. (38.4 m.) Depths are 27 ft. (8.2 m.) alongside and 31 ft. (9.4 m.) about 6 yards off the face. The Northern and Southern ends of the "T" have depths of 11 ft. (3.3 m.) and 15 ft. (4.5 m.) respectively. The inshore arms of the T has depths of 11 ft. (3.3 m.) at each berth. Sailboats and other shallow vessels berth on each side of the concrete approach. The wooden piles, are 8 ft. (2.4 m.) and very close together, are about 120 yards N.E. of the offshore end of the pier. Vessels coming alongside should exercise caution to avoid these piles. Typhoon signals are exhibited from a pole at the foot of the pier.
CRANES: No cranes available.
STEVEDORES: Advise Agent on volume of cargo to be discharged, storage required and nature of cargo.
TANKERS: May drop anchor at anchorage area.
FRESH WATER: Water supply on a limited quantity.
FUEL: Diesel oil, gasoline and kerosene may be purchased in drums and tins.
FIRE PRECAUTION: No smoking is allowed when vessels are refuelling within a radius of 100 m.
CONSULS: Consuls from foreign countries in Manila.
REPAIRS: No repair facilities.
DRY DOCKS: Good for small boats only.
SURVEYORS: Lloyds and other classification societies in Manila.
GANGWAY/DECK WATCHMAN: Watchman can be hired from local Security Agencies of the Port.
HATCHES: Opening/closing of hatches is usually done by stevedores.
CUSTOMS ALLOWANCES: Quantity permitted for each crew member to be held out of bond are the following: Cigarettes – 5 packs. Liquor – 1 bottle.
CARGO GEAR: Loading/unloading is effected by ship's gear.
REPATRIATION: No facilities.
AIRPORT: The airport is about 2 miles from the pier with a schedule of two flights from Manila and back daily.
HOLIDAYS: The following are the Philippine National Holidays: January 1 – (New Year's day), Maundy Thursday, Good Friday, April 9 – (Bataan Day), May 1 – (Labour Day), June 12 – (Independence Day), July 4 – (Fil-Am Friendship Day), November 30 – (National Heroes Day), December 25 – (Christmas Day). Cargo handling operations may be arranged on these days at overtime rates.
POLICE/AMBULANCE/FIRE: Puerto Princesa town has all these facilities. There is a provincial hospital in Puerto Princesa. Private practising physicians and drugstores are available.
TELEPHONES: The town is connected to Manila by postal and radio communication but no telephone shore connection facilities for vessels docked at the pier is available.
SERVICES: No special services available.
SHORE LEAVE: Crew members are allowed ashore provided they always carry with them their Seaman's book or Passport.
IDENTIFICATION CARDS: Seaman's Book is sufficient for crews to identify them when ashore.
DELAYS: Due to lack of some Port facilities, delay in berthing, loading, discharging and bunkering is sometimes experienced.
DEVELOPMENTS: A proposed extension of 30 m. on the Northern end of the pier and 47.57 m. on the Southern end. Reclamation at the Southern foot of the causeway.
AUTHORITY: The Collector of Customs.

SAN FERNANDO, Luzon: 16.37 N. 120.18 E.

See "General" before first port.
PILOTAGE: Send telegraphic message (through the ship Agent) addressed to Port Pilot, San Fernando, La Union, Philippines, at least 24 hours before expected time of arrival. This is the only means by which the Pilot can be contacted.

The moment the Pilot receives the 24-hour advance notice of ETA he is under constant watch for the vessel to appear outside the harbour. When vessel appears, he meets the same in an ordinary outboard motor-boat, which is painted white and bearing International Flag "H".

The vessel, when calling the Pilot, flies the International Flag "G" or sounds a signal of 2 long and 1 short blasts.

The Pilot boards within 3 miles of the lower beacon. In case of bad weather or when pilot boat cannot be seen, the vessel can proceed to the quarantine anchorage as there is no specific anchorage for vessels awaiting a Pilot. The Pilot does not go out during stormy weather. He requires a rope ladder for boarding or disembarking when the sea is rough.
ANCHORAGES: The Port of San Fernando is one of the deepest in the Philippines, and the quarantine anchorage as well as the anchorage for vessels waiting to dock at the piers can accommodate vessels up to 30,000 d.w.t. Controlling depth 12 fathoms, holding ground good.
MAX. SIZE: The maximum permissible tonnage of a vessel which can be ordinarily accommodated at the piers is 10,000 tons

irrespective of the length, breadth, draft, and kind of the vessel. The state of tide does not affect the dimensions of the vessels. However, vessels with a tonnage of more than 10,000 tons up to 30,000 tons need the aid of tug-boats so that they can be manoeuvred into the pier area.

HEALTH: To obtain pratique the ship Master must advise the ship Agent vessel's ETA in advance. The foregoing advice is very important because the ship Agent must in turn advise the quarantine officer of the arrival of the vessel 2 to 3 hours before the vessel sails into port. When the vessel arrives at the quarantine anchorage, the quarantine officer boards and inspects the same, and if the vessel is found to be free from all quarantinable diseases, pratique is granted. Automatic pratique is granted only to naval vessels. Pratique is not necessary when the vessel entering the port has called at another port in the Philippines immediately before proceeding to San Fernando.

TUGS: It is the ship Agent of the vessel who furnishes tugs. Whenever needed, the tug-boat normally joins the vessel near the pier while the vessel is docking and at the pier when the vessel is undocking.

BERTHING: all berths are alongside piers.

STEVEDORES: ETA advices are useful but gangs can be easily arranged even at short notice. The average load rate per gang (12 men) per hour is 20 tons, while the average discharge rate is 25 tons.

MEDICAL: It is always necessary for ship Masters to notify their Agents of required medical attention at least 2 to 3 hours before arrival. Hospital facilities are available. There are 3 hospitals in the town of San Fernando. Vaccination/Fever Certificates are required, especially those against cholera, smallpox, and yellow fever.

TANKERS: There are no berths available for the exclusive use of tankers. Existing facilities for unloading oil have been installed alongside the piers by private oil companies for their own use.

FRESH WATER: Supply of fresh water is available at the government pier by pumping from shore-side to vessel at the rate of 15 t.p.h.

FUEL: All grades can be readily supplied by any of the oil companies with oil depots in the port area.

DEVELOPMENTS: There is an ambitious programme to improve the marine terminal of the port which, among other things, includes reclamation and construction of additional storage facilities. Works on the breakwater, marginal wharf for fishing boats, and an industrial estate complete with a new pier, as well as the removal of wrecks (parts of sunken ships) inside the harbour are expected.

GANGWAY/DECK WATCHMEN: The employment of gangway/deck watchmen though not compulsory is recommended.

OPENING/CLOSING HATCHES: An additional charge for this job is imposed if carried out by stevedores. The crew can, however, do the job.

CERTIFICATES: Those required are:
Certificate of Registration.
Certificate to Operate.
Certificate of Officers and Engineers (Licenses).
Officers and Crew-Seamen's Book.

CUSTOMS ALLOWANCE: 200 cigarettes for each crew member, and 1 bottle of liquor for each crew member.

IDENTIFICATION CARDS: Absolutely needed.

CONSULS: None at San Fernando.

REPAIRS: Deck and engine repairs are limited only to re-winding, welding, fixing electrical devices and connections, patching, and repainting.

DRY DOCKS: Except for the dry dock maintained and operated by the Atlantic Gulf and Pacific Company for the exclusive repair of U.S. Navy LCMs, no facilities of this nature in the port at present.

REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the Foreign Embassy concerned.

AIRPORT: An airport, which is served by the Philippine Air Lines on a daily schedule to and from Manila and other points in Northern Luzon, is located about 1 km. from the pier area.

TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.

HOLIDAYS: New Year's Day (January 1st); Bataan Day (April 9th); Holy Thursday (variable); Good Friday (variable); Labour Day (May 1st); Independence Day (June 12th); Republic Day (July 4th); All Saints' Day (November 1st); National Heroes Day (November 30th); Christmas Day (December 25th); Rizal Day (December 30th). When any holiday falls on a Sunday, the following day (Monday) is by law considered a legal public holiday. As a general rule, employees of the government in the Philippines do not work on Saturdays.

POLICE/AMBULANCE/FIRE: For Police and Fire, either call No. 99 (Phil. long distance tel.) or No. 0 (Gov't tel. System). For Ambulance, call directly for Lorma Hospital, Bethany Hospital or La Union Provincial Hospital on any of the 2 telephone systems above said.

TELEPHONE: Facilities for placing telephones on board vessels are not available at present.

AUTHORITY: Philippines Ports Authority, Poro Point, San Fernando.

TACLOBAN: 11.15 N. 125.00 E. (See Plan)

See "General" before first port.

PILOTAGE: Notice of ETA of vessel must be given at least 24 hours in advance and must be sent through cablegram direct to Collector of Customs, Tacloban City.

ANCHORAGES: Safe anchorage: low tide, 17 ft. draft; high tide, 19 ft. draft; area for anchorage, 300 ft. length.

ENTRY RESTRICTIONS: At the discretion of the Collector of Customs.

MAX. SIZE: Permissible length 300 ft. Draft low tide, 17 ft.; high tide, 19 ft.

HEALTH: Pratique is only necessary and required in the first port of entry; it is automatic when entering ports in the same country or state.

RADIO: Radio communication of the Philippines, Inc., Manila.

TUGS: Ship's Agent arranges tug's lines with watchmen.

BERTHING: Inform Customs Collector at least 24 hours before ETA of vessel so that berthing space can be reserved.

STEVEDORES: ETA advices should be furnished to stevedores through ship's Agent.

MEDICAL: Advance notice of required medical attention to ship's Agent essential.

FRESH WATER: Fresh water available delivered by water-tank truck.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Necessary for safety of vessel. Ship's Agent makes all necessary arrangements.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: All documents required by International Shipping Rules and Regulations.

CUSTOMS ALLOWANCE: One carton cigarettes per week for each man. Wines/spirits at the discretion of the Collector of Customs.

IDENTIFICATION CARDS: Needed for inspection by Immigration Officer.

REPAIRS: Not possible.

REPATRIATION: Immigration Officer effects crew exchanges and arranging necessary repatriations.

AIRPORT: Distance from airport, 9 km., and is regularly served by airlines.

TIME: GMT plus 8 hours. No alterations during the year.

HOLIDAYS: Depending upon agreement with stevedores, work may be performed during holidays.

POLICE/AMBULANCE/FIRE: All departments are within one minute's call from the harbour.

TELEPHONES: Can be connected on board if required.

AUTHORITY: Collector of Customs.

TANAUAN: 11.06 N. 125.01 E. (See Plan)

SHIPMASTERS REPORT: October 1976

N.I.D.C. Coconut Oil Pier: Location of berth 11° 06′ 15″ N. 125° 01′ 30″ E. The berth is 7 miles from the Pilot boarding point. Least depth of water in channel from sea to berth, 32 ft. At berth bottom is mud and sand. Density 1025. Docking and undocking in daylight only at any stage of tide.

Anchorage 1.5 miles North of Mariquitdaquit Light. Terminal Information: Use shore hoses. Length of pipe-line – 3,000 ft. connection at manifold – 8 in. Shore-booster pump not used. No steam. Product handled, coconut oil.

Port Information: Pilotage compulsory. Pilot requires 12 hours and 24 hours notice. Pilot boards 1 mile North of Mariquidaquit Island and comes from Tacloban. It is unsafe to enter and leave after dark. Vessels can enter and leave any state of tide. Max. LOA 1,000 ft. Max. beam 90 ft. Max. draft 31 ft. No tugs available. Vessel able to berth and unberth without aid of tugs.

Facilities available. Fresh provisions available from Tacloban, a small town, 20 km away. Chandler requires payment in cash for goods.

Airport at Tacloban. Doctor and hospital available. Groceries, meats and laundry available.

No fresh water, repairs, Lloyds surveyor or fuel available.

ZAMBOANGA: 06.54 N. 122.04 E. (See Plan)

See "General" before first port.

PILOTAGE: Vessels approaching the port use International Code Signals for calling Pilot.

Pilot Station: Telegraphic address is Zamboanga Pilots, Zamboanga City. Estimated time of arrival (ETA) must be radioed 24 hours in advance. Pilots always on duty. Pilot boat is wooden launch painted white with red trimmings and displaying the pilot flag. The exact area where a Pilot will board vessel is in the vicinity of Little Sta., Cruz Island, for vessels coming from West, and near the vicinity of Rio Hondo for vessels coming from East. Alternative area in the event of bad weather is in the vicinity of Zamboanga Pier at a distance of at least 1 mile either way. Vessels awaiting Pilot should not necessarily drop anchor, provided 24 hours notice of their ETA is given by local Agents or the Master, to the Zamboanga Pilots, for a Pilot is *always* on duty.

ANCHORAGES: Owing to the steep bank, strong currents and hard, uneven bottom, there are no good anchorages off Zamboanga. However, anchorage may be made anywhere Southward of the wharf at a distance of about 3 cables from shore Eastward of an imaginary line from the Tide Indicator, at a depth of between 25 and 30 fathoms and giving 7 shackles of chain in the water. This will hold vessel even at strongest current of 6 knots. In the event of very bad weather the vessel should transfer her anchorage to Caldera

Bay, which is approximately 7 miles West of the anchorage area.
MAX. SIZE: No limits for anchoring. For berthing, up to 32 ft. draft.
HEALTH: Quarantine Officer will board the vessel for the necessary inspection of all crew on board. Thereafter he issues pratique, if and when he finds that there is no disease or fever on board. The pratique is valid until after the vessel departs to a foreign port.
RADIO: Universal Telecommunication Service, the Capitol Radio Telecommunication, the Telefast Radio Communication, the Radio Communications of the Philippines and the Telecom, operated by the National Government for receiving and transmitting radio messages. Night and day services.
TUGS: The position where tugs normally join the vessel is in the stream and the usual ship's lines or tug's lines are used. There is no charge collected for the use of the tug's lines.
BERTHING: The Zamboanga Government wharf is about 800 ft. long with a depth at the latest survey of the following: East end 30 ft.; mid-section 25 ft. and West end 21 ft. There is a private wharf at Baliwasan and vessels of 15,000 g.r.t. can dock there with the following limitations: Draft forward must not exceed 32 ft.; draft aft must not exceed 36 ft., upon completion of loading. Vessels docking at this wharf can only be docked at *flood* tide (current running East to West) and can only be undocked in the same manner.

2 anchors must be used in berthing and vessels lay alongside the concrete pier port-side-to. This wharf in Baliwasan is for loading coconut oil and copra pellets only.

TANKERS: There are 4 oil depots at Gavilan Pt. and at Baliwasan. (Shell, Mobil, Esso and Caltex.) Max. tonnage of 4,000 gross with a draft of not more than 18 ft. can be moored for discharge.
STEVEDORES: The Master of the vessel shall wire to the local Agents of the vessel so that a contract could be made with the shipper to arrange gangs.
MEDICAL: It is necessary for Agents to receive advance notice of required medical attention. Hospital facilities are available at all times. Inoculations are also required by the Quarantine Officer upon boarding a vessel.
FRESH WATER: Fresh water can be obtained only at night-time due to low pressure. If there is no available space at the Zamboanga Pier the vessel has to wait at the anchorage for a berthing space to get water supply.
FUEL: Fuel, diesel, and crude oil available.
FIRE PRECAUTIONS: Smoking is entirely prohibited on board a tanker entering this port. The Master must advise all persons boarding his vessel.
DEVELOPMENTS: Improvements are carried out every year to the local wharf adding additional berths and dredging to increase draft.
GANGWAY/DECK WATCHMEN: The services of watchmen are necessary to foil looters from boarding the vessel.
OPENING/CLOSING HATCHES: Normally opening and closing of the hatches are done by the crew, and if the job is done by stevedores the vessel has to pay.
CUSTOMS ALLOWANCE: 200 cigarettes per man. Upon arrival in port the cigarettes are sealed in a bonded store by the Customs authorities, and can be opened only upon permission granted by the Collector of Customs.
IDENTIFICATION CARDS: All crew members to have identification cards for immediate identification in case of trouble while the crews are on shore.
CONSULS: None available.
REPATRIATION: Effecting crew changes and arranging necessary repatriation are carried out by the Immigration Office in the port with the assistance of the ship Agent and the foreign Embassy concerned.
AIRPORT: Distance from Zamboanga Pier to the airport is 3 km. Served by regular airlines. There is a daily flight from Zamboanga to Manila by Philippine airlines. Airport open to International flights.
TIME: Local Civil Time is 8 hours ahead of GMT. This time reckoning is constant throughout the year.
HOLIDAYS: Cargo work can be arranged with the Stevedoring Company through the shipper to work during holidays, including Sundays.
POLICE/AMBULANCE/FIRE: Police Department, tel. 06; Ambulance, Zamboanga General Hospital, tel. 08; and Fire Department, tel. 00.
TELEPHONES: Telephones cannot be installed on board when docked at the pier as is not allowed by the City Government.
SERVICES: Special services may be available, e.g. tank-cleaning equipment, facilities for discharge of tank-washings, compass adjusting, through representations to be made with the shipper or local Agent of the vessel.
AUTHORITY: The Collector of Customs.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Poland

GDANSK: 54.21 N. 18.39 E. (See Plan)

ICE: Efforts made to keep port open all year round. Only in very severe winter are difficulties experienced.

DOCUMENTS:

12 Copies Cargo Manifest.
2 copies Bills of Lading.
Discharge Books to be collected for presentation.
Ship's Register.
Maritime Declaration of Health.
Ship's Articles/Crew List.
Deratisation Certificate or exemption from Sanitary Certificates, covering food cargoes and/or of animal origin, destined for discharge here.
Specification of Dangerous Cargo even if in transit.
2 Stowage Plans.

PILOTAGE: Compulsory. Boarding in Gdansk road. Gdansk Pilot station available on VHF, Channel No. 14.

ANCHORAGE: Gdansk roads up to buoys NP1, NP2. No tides.

RESTRICTIONS: Approaches 36 to 40 ft. depth.

MAX. SIZE: Max. size of vessels permitted to enter: draft, 33 ft. brackish water; Max. LOA 220 m. Also see "Tankers" and "Bulk Handling Facilities".

HEALTH: Maritime Declaration of Health to be presented on arrival. In the event of suspected disease, the vessel should wire to "Quarantine Gdandsk", or via Agents.

RADIO: Messages should be sent via Gdansk Radio.

RADAR/VHF: Port Radar Service acting with pilot station, contactable on VHF Channel No. 14.

TUGS: Join in Gdansk roads. Vessel's lines must be used. Tugs compulsory for all vessels over 2,000 g.r.t.

BERTHING: Max. draft mentioned below is to be taken as normal water level. No tide.

Name of quay	*Length*	*Max. Draft*
King Wladyslaw IV Basin	1,190 m.	29 ft. 06 in.
Defenders of Westerplatte	1,442 m.	33 ft. 06 in.
Oliwskie	1,278 m.	31 ft. 00 in.
Defenders of Polish Post Office	330 m.	33 ft. 06 in.
Ziolkowski (Ro-Ro)	123 m.	20 ft. 00 in.
Iron Ore and Coal Quays	1,612 m.	32 ft. 02 in.
Administration Quay	80 m.	19 ft. 02 in.
20th Anniversary Quay	1,076 m.	32 ft. 00 in.
Timber Terminal	510 m.	25 ft. 09 in.
Chemist's Quay	250 m.	32 ft. 00 in.

CRANES: Floating cranes of 26–100 tons capacity. Many portal cranes up to 8 tons capacity.

BULK HANDLING FACILITIES: Bulk and liquid sulphur handled at Post Office Defenders Quay.

Coal/Ore quays equipped with 7×16-ton cranes and 10 ore bridges of 15 tons capacity. Grain elevator at Anniversary of the Republic Quay.

A conveyor system for fertilisers in bulk 20 ton grab cranes at Chemists Quay.

In the event of no accessible berth and/or grain elevator not being available, such bulk cargoes discharged by grabs. Vessels should be suitable for grab discharge.

North Port Bulk terminal: Coal-handling facilities capable of receiving vessels up to 100,000 d.w.t. max. daily loading rate 50,000 tons. Max. draft 49 ft. 03 in.

STEVEDORES: As gangs for the following day must be ordered before 1100 hrs., vessel's ETA should reach the Agents relevantly in advance.

Stevedores work 24 hours per day, which is considered to be between 2300 to 2300 hrs. following day. First shift from 2300 to 0700 hrs., second shift from 0700 to 1500 hrs., third shift from 1500 to 2300 hrs. Port works Sundays nd holidays at premium rates.

MEDICAL: No special notice required. Full hospital facilities available.

TANKERS: Oil Terminal at North Port.

Location: Southern part of the Gulf of Gdansk, Latitude 54° 21′ N. and Longitude 18° 40′ E. approximately. Vessels to use the roads between the end of peninsula Hel and anchorage South of Latitude 54° 25′ N., approximately 0.5 mile North of the terminal. Imports crude oil, exports fuel and refined oils, as well as other products of the Gdansk Refinery. No facilities for handling liquified gases.

Facilities: One L-shaped jetty for berthing consists of one main platform and four main dolphins, fitted with quick release hooks. The main platform is fitted with gangway tower and seven movable handling arms for loading and discharging purposes. Only one mooring place available. The jetty accessible for vessels having minimum 260 ft. (about 35,000 d.w.t.) and maximum 1,000 ft. length and 49 ft. draft. For towing purposes there are available two 2,500 h.p. and two 1,650 h.p. diesel tugs, if necessary further 1,200 h.p. tugs are at hand. All tugs equipped with fire fighting equipment.

Cargo Handling Equipment: The seven mobile handling arms, Luceat Production, are used as follows: No. 2, 3 and 4 for discharging of crude oil, speed about 10,000 cu.m/hr. No. 1 and 5 for loading bunker oil and water, efficiency about 2,000 cu.m./hr. No. 6 and 7 loading liquid fuels and refined products 2,000–2,500 cu.m./hr. Loading pressure of vessels pumps should not exceed 14.5 kg./sq.cm. at any time.

For the time being, as terminal is still under construction, no facilities for handling of vessels ballast water available.

Services: Marine diesel and fuel oil available at the jetty. Storage tanks located in the neighbourhood of the terminal and connected with central pipe-line system of Poland. Laboratory, for testing purposes and repairing facilities available.

DENSITY: Salt content: 0.54%

FRESH WATER: Available at hydrants.

FUEL: Heavy, intermediate and thin fuels, marine diesel oils and gas oils available ex-shore installation or lighter. 48 hours notice required.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Normally carried out by stevedores, crew allowed to handle.

CERTIFICATES:

Load Line Certificate.
Cargo Gear Certificates.

CUSTOMS ALLOWANCE: For 3 days – 160 cigarettes or 30 cigars or 150 gm. tobacco per crew member. Master is allowed double ration. 1 bottle wine and 1 bottle of spirits per crew member for each 3 days. Master is allowed double ration.

IDENTIFICATION CARDS: Each member must be in possession of a valid Discharge Book/Sailor's Book, and will receive a separate shore permit issued by the Immigration Authorities, entitling him to go ashore within the area of Gdynia/Sopot/Gdansk.

CONSULS:

Chinese People's Republic Consulate General, tel. 41–64–76.
German Democratic Republic Consulate General, tel. 41–43–66.
Soviet Consulate General, tel. 41–06–13.

REPAIRS: All types of deck and engine repairs performed by specialised ship repair yard.

Floating docks: No. 1, 6,400 tons lifting capacity, dim. 135×25.20 m. No. 2, 8,000 tons lifting capacity, dim. 156×27.20 m. No. 3, 11,000 tons lifting capacity, dim. 176×28.00 m. 1 floating jack of 1,700 tons capacity and 3 minor docking pontoons.

REPATRIATION: Crew change and repatriation can be arranged.

AIRPORT: Gdansk Airport.

TIME: Middle European Time, which is 1 hour ahead of GMT throughout the year.

HOLIDAYS: New Year's Day (January 1st); Easter Sunday (movable); Easter Monday (movable); Labour Day (May 1st); Corpus Christi (movable); National Holiday (July 22nd); All Saints' Day (November 1st); St. Barbara, only for workers loading coal. (December 4th); Christmas Day (December 25th); Second Christmas Day (December 26th). On Christmas Eve and New Year's Eve, work is generally suspended at 1500 hrs. In justified and approved cases, overtime on Sundays and holidays is arrangeable.

TELEPHONES: Available on most general cargo quays.

GENERAL: Cargo is handled around the clock in 3 shifts of 8 hours each. Saturdays are full working days. Sunday and holiday interruptions last from 2300 on Saturdays or days before holidays, and terminate at 2300 on Sundays or holidays.

POLICE/FIRE/AMBULANCE: Police: Gdansk-Nowy Port, Wladyslawa IV-3, tel. 31–48–61; Ambulance: Gdansk-Wrzeszcs, Al. Zwyciestwa 49, tel. 41–10–00; Fire: Gdansk-Nowy Port, Na Zaspy 57, alarm phone tel. 41–22–22.

AUTHORITY: The Port of Gdansk Authority.

AGENT: Morska Agencja, Harbour Office Gdansk, Oliwska 35 – Gdansk-Nowy Port. Tel. 430–921 (day and night service). Telex: 051–641.

GDYNIA: 54.32 N. 18.34 E. (See Plan)

ICE: Efforts made to keep port open all year round. Only in very severe Winter are any difficulties experienced.

DOCUMENTS:

10 copies Cargo Manifest.
2 copies B/Lading.
Discharge Books to be collected for presentation.
Ship's Register.
Ship's Articles/Crew List.
Maritime Declaration of Health.
Deratisation Certificate.
Sanitary Certificates covering food cargoes and/or of animal origin, destined for discharge here.
Specification of Dangerous Cargo (even if in transit).
2 Stowage Plans.

PILOTAGE: Compulsory. Boarding in Gdynia roads. Gdynia pilot station available on VHF in Channel No. 12. Traffic around the clock.

ANCHORAGE: Gydnia roads at buoy GD, up to 200-500 m. off port entrance. No tides.

RESTRICTIONS: Depth in main entrance 46 ft.

MAX. SIZE: No limit on length, max. draft 37 ft. 04 in. at French Quay, also see "Berthing".

HEALTH: Maritime Declaration of Health to be presented on arrival. In the event of suspected disease the vessel should wire "Quarantine Gdynia" or via Agents.

RADIO: Message should be sent via Gdynia Radio. Port Radar Service acting with the pilot station, contactable on VHF, Channel No. 12, Gdynia. Contact Agent VHF Channel 7.

TUGS: Join vessel in Gdynia roads. Vessel's lines must be used.

BERTHING: Max. draft is at normal water depth.

Name	*Length*	*Max. Draft*
Pomeranian Quay	629 m.	27 ft. 11 in.
Silesian Quay	434 m.	26 ft. 11 in.
Swedish Quay	715 m.	30 ft. 06 in.
Danish Quay	562 m.	26 ft. 11 in.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Portugal

AVEIRO: 40.39 N. 08.45 W.

PORT LIMITS: A vessel is considered "arrived" when she is 2 miles from the roads entrance.

DOCUMENTS: Health Certificate.

5 Crew Lists.
4 Lists of Passengers Disembarked.
2 Lists of Passengers in Transit.
5 Cargo Manifests.
1 Manifest of Cargo in Transit.
1 Provision List and Spares.

PILOTAGE: Send ETA to Agent by cable, 24 hours before arrival. Entrance depending on sea conditions and ship's draft. Contact Aveiro Pilots frequency 2182 and listen on frequency 2132 on the following periods: 0905/0915, 1105/1115, 1505/1515, 1705/1715 hrs. local time.

Pilots can be contacted by VHF Channel 16 during the same periods.

Pilot boat displays white flag, surrounded by narrow blue stripe, with black "P" in the centre. Pilot to be taken on board about 1 mile West of harbour entrance; vessel awaiting Pilot can anchor there, if weather permits.

Pilot station, located close to Aveiro lighthouse, hoists black cylinder on signal mast when entry not possible due to bad weather or any abnormal cause. Pilot station has radar that can assist vessels during approach to harbour entrance.

ANCHORAGES: Anchor W. of North Pier, at a distance of more than 0.75 mile.

RESTRICTIONS: Subject tide and bar conditions. Entering and sailing only during daylight.

MAX. SIZE: Max. draft between 16 to 18 ft. dependent on tide. Max. length 90 m.

HEALTH: Free pratique automatic for vessels coming from other Portuguese and Continental ports. Vessels coming from other countries; Health Certificate must be delivered to Agent.

RADIO: Call Aveiro Pilots during the hours above indicated, under "Pilotage". Radio station is Lisboa Radio.

TUGS: 2 tugs. 1 of 200 h.p. and 1 of 500 h.p.

BERTHING: A quay with 1,300 ft. length for handling general cargo; ten gangways in concrete for ocean fishing boats; four electrical cranes of 3, 6 and 12 tons and eleven mobile cranes for cargo-handling up to 8 tons.

SPECIALISED CARGO-HANDLING FACILITIES: A terminal for handling wine, chemicals and turpentine, another for handling liquid combustibles and chemicals.

STEVEDORES: Advise Agent 24 hours before vessel's arrival.

MEDICAL: Hospital and clinics in town. Advance notice not required. Required vaccination certificate, and when ship comes from affected regions, also yellow fever certificate.

TANKERS: Private quay of SACOR used by small-sized tankers.

DENSITY: About 1028.

FRESH WATER: Supplied by barges or tank-car or water net system. 20 t.p.h.

FUEL: Only diesel available. Smaller quantities supplied from trucks. Otherwise, from SACOR's private quay (pipe-line).

DEVELOPMENTS: Dredging harbour entrance.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Work usually done by crew.

CUSTOMS ALLOWANCE: 125 grams tobacco, and 1 bottle wine/spirits for each man.

CREW IDENTIFICATION CARDS: Crew members going ashore will need a special card issued by State Police. Ship's agent takes these cards aboard, where they are filled in accordance with crew list. See "Lisbon".

CONSULS: Nearest Oporto, 60 km.

REPAIRS: Minor repairs can be carried out.

DRY DOCKS: 1 for vessels up to 1200 d.w.t.

REPATRIATION: No difficulties for crew repatriations.

AIRPORT: Pedras Rubras (Oporto airport) at about 60 km., with 2 flights per day to Lisbon and 1 flight per week to London.

Lisbon airport at 250 km. is served by regular airlines covering all the world.

TIME: From September 26th to March 26th – GMT. From March 26th to September 26th – GMT plus 1 hour.

HOLIDAYS: New Year's Day; Portugal's Day (25th April); Workers' Day (1st May); 16th May (Municipal holiday); Race's Day (10th June); Corpus Christi (movable); Proclamation of the Republic (5th Oct.); All Saint's Day (1st Nov.); Independence of Portugal (1st Dec.); Immaculate Conception (8th Dec.); Christmas Day. No work allowed on Christmas Day and New Year's Day.

POLICE/FIRE/AMBULANCE: Police 22022; Ambulance 115; Fire 22333.

TELEPHONES: None available on board.

SHORE-LEAVE: Crew allowed ashore.

DELAYS: As a tidal port, arrivals respectively sailings subject tides. Delays may occur owing bad weather especially the Winter months.

AUTHORITY: Capitania do porto de Aveiro. Junta Autonoma do Porto de Aveiro.

AGENTS: A. J. Goncalves de Moraes, Lda, 49 Av. Dr. Lourenco Peixinho, Aveiro. Tel. 24550. Telex 22690. Cables: Amoras. Steamship and Forwarding Agents, Chartering and Brokers, Insurance Agents, Stevedores.

FIGUEIRA DA FOZ: 40.09 N. 08.52 W.

DOCUMENTS:

Health Certificate (the Pilot supplies form).
5 Crew Lists.
4 Lists of Passengers Disembarking.
2 Lists of Passengers in Transit.
5 Cargo Manifests.
1 Manifest of Cargo in Transit.
Provision and Spares List.
2 copies each Bill of Lading.

BERTHING: The port is in the mouth of the Mondego River. The anchorage is on sand and outside the harbour.

Concrete Quay: Length 360 m. Depth 6 m. Cranage : Three electric – two 6 ton at 20 m. and one 3 ton at 16 m. Four mobile – one 1.8 ton at 12 m. and three 1.5 ton at 8 m.

Wood Quay: Length 140 m. Depth 3 m. Cranage: One 6 ton crane.

Tidal Harbour: Water area 6 ha. Length of quayage 600 m.

Depths on Bar: M.H.W.S.T. 3.8 m. M.H.W.N.T. 3.00 m.

There is about 320 m. of quayage for small ships and fishing craft.

STEVEDORES: Advise agent 24 hours before arrival.

MEDICAL: No prior advice is necessary. All medical facilities available.

DENSITY: About 1028.

FRESH WATER: Each quay has its own installations.

FUEL: Only diesel available.

DEVELOPMENT: Dredging in progress.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Work usually done by crew.

CUSTOMS ALLOWANCE: No limit, but must be declared.

IDENTIFICATION CARDS: See Lisbon.

CONSULS: France, Spain and Great Britain.

REPAIRS: There is a shipyard and repair facilities, also a shipway for ships up to 4,000 tons.

REPATRIATION: No difficulty in crew repatriations.

TIME: From last Sunday September till last Sunday March (GMT) and the rest of the year GMT plus 1 hour.

HOLIDAYS: New Year's Day; Saint Friday; 25th April; 1st May; Corpus Christi (movable); 10th June; 15th August; 5th October; All Saint's Day (1st November); 1st December; 8th December; 24th December; 25th December.

Also holiday on 24th June.

POLICE/FIRE/AMBULANCE: Police 22022; Ambulance 22122; Fire 22122.

SHORE LEAVE: Crew allowed ashore.

DELAYS: As a tidal port, arrivals respectively sailings subject tides. Delays may occur owing to bad weather especially during winter months.

AGENTS: A. J. Goncalves de Moraes, Lda., Rua da Republica, 262- Figueira da Foz — Portugal. Tel. 22584. Telex: 1707. Agents, Chartering and Brokers, Insurance Agents, Travel Agents, Stevedores.

LEIXOES and OPORTO (Douro River): (See Plan)

Leixoes: 41.11 N. 08.43 W. Oporto: 41.09 N. 08.37 W.

DOCUMENTS:

Health Certificate.
5 Crew Lists.
Provision List — ship and individual.
Tobacco Declaration and Entrance Forms supplied by Agent on arrival.
5 Manifests and 2 copies of each B/L concerning cargo to be discharged.
1 Transit Manifest if cargo in transit exists.

PILOTAGE: Always compulsory for ships calling Oporto (Douro River) and Leixoes. Approximate ETA should be given to Agent with ample notice. Contact radar station or Pilot station VHF at any time, Channel 16. Boats black, white flag. Pilots to be taken on board in the roads. Entering or sailing Douro River only during daylight and subject to tide.

ANCHORAGES: Leixoes in the roads or outer-harbour. Douro in the roads or river.

RESTRICTIONS: Douro: subject tide and bar conditions.

MAX. SIZE: Douro River: Max. draft 14 ft. and length about 60 m. subject to Bar and weather conditions.

Leixoes: Can accommodate tankers up to 52 ft. and cargo ships of 31 ft.

HEALTH: Free pratique authorised for vessels coming from other Portuguese Continental Ports. For vessels coming from other countries. Health Declaration supplied by the Pilot must be filled in, and delivered to the Agent.

RADIO: Within 50 miles Estacao Radar Leixoes, or through Lisbon Radio Station.

RADAR/VHF: Estacao da Radar de Leixoes, Contacts radar/VHF. Range 50 miles. Channel 16, 13, 12 and 29.

TUGS: Normally join the vessel: *At Leixoes:* In the outer harbour up to 700 g.r.t.; from 700 up to 1,800 g.r.t. 1 tug compulsory. Over 1,800 g.r.t., 2 or more tugs required.

At Douro River: as a rule service necessary on arrival/sailings. Thus join the vessel after passing the bar.

BERTHING *Outer Harbour:* The depth of water at the entrance and in the centre of the outer harbour is 10.00 m. at MLWST; Maximum rise of tides 3.99 m.; Minimum rise of tides 0.07 m.; Total water area 117.36 ha.; Breadth of entrance (harbour) 220.05 m.; Breadth of entrance (dock No. 1) 70.10 m.

Dock No. 1: Length of North Quay 487 m.; South Quay 551 m.; Maximum draft 31 ft.

Dock No. 2: Length of North Quay 670 m. and South Quay 743 m.; Maximum draft 31 ft.

South Mole: Length of Quay 370 m.; Maximum draft 22 ft.

Dock No. 2 South Container Terminal: This facility has a quay length of 150 m. (492 ft.) with a depth of water alongside of 11 m. (36 ft.) There is a total area of 5.5 hectares (13.59 acres) of which 4.5 hectares (11.12 acres) are used for container marshalling and storage. It is equipped with one 30-ton Liebherr container gantry crane with an outreach of 24.38 m. (80 ft.), two 30-ton Karricon 3043 straddle-carriers, capable of stacking three high, two 35-ton side-loaders, capable of stacking two high, and two 12-ton container transporters.

CRANES: *Dock No. 1:* One 94-ton crane, two 5-ton cranes, eight 3-ton cranes and one 15-ton crane.

Dock No. 2: Two 15-ton cranes and thirty-one 5-ton cranes.

South Mole: One 50-ton crane; six 5-ton and one 2.5-ton crane.

BRIDGES: Bridge at Leixoes between Dock 1 and Dock 2 opening regularly.

STEVEDORES: Ordered by Agents according berth and cargo.

MEDICAL: Masters to advise by radio prior to arrival if medical attendance is required on board. Hospital facilities available.

TANKERS: *Berth A:* This is outside the outer harbour; depth of water 17.00 m.; deadweight capacity 135,000 tons.

Berth B; This is within the outer harbour; depth of water 9.70 m.; deadweight capacity 27,000 tons.

Berth C: Located within the outer harbour; depth of water 5.70 m.; deadweight capacity 5,000 tons.

DENSITY: 1026.

FRESH WATER: Can be supplied by shore installations or barge, according to quay.

FUEL: All grades available. Supplied by oil-carriers or pipe-line and by barge at all berths.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Work always done by crew.

CERTIFICATES:

Ship register. Safety Equipment.
Safety Radio. Load Line and Derating Certificates.

IDENTIFICATION CARDS: See Lisbon.

LISBON: 38.43 N. 09.11 W. (See Plan)

PORT LIMITS: A vessel is considered to be an "arrived vessel" when, after entering the Tagus Estuary, she has left behind the alignment between the Torre of S. Juliao and the Torre of Bugio.

DOCUMENTS:

Health Certificate.
6 Crew Lists.
10 Passenger Lists.
2 Lists of Articles held by the crew: cameras, binoculars, radios, cigarettes, spirits, etc.
2 Stores Lists.
All to be signed by ship's Master.

Certificates for vessels up to 500 tons: – tonnage register, loading and navigation certificates. For vessels over 500 tons: – tonnage register; loadline; radio; safety equipment and navigation certificates.

CARGO DOCUMENTS:

10 Manifests.
3 sets of Bills of Lading.
For cargo in transit: 2 Manifests.

PILOTAGE: Compulsory. Pilot boat anchored outside the river at Cascais Bay, day and night, but Pilot can also board vessel inside the river at Belem Station.

Pilots are to be requested not less than 6 hours or more than 24 hours prior to the ship's arrival, by a radiogram addressed to "Pilotos Lisboa", or by a radio call direct to the pilot boat stating ship's name, estimated time arrival at the pilotage area, the station where ship wants to take a Pilot, and vessel's draft. Any vessel failing to correct her ETA or arriving more than 2 hours after her ETA may have to wait at Cascais before a pilot is available to board.

Pilots can be contacted by VHF Channels 13 and 16, on permanent watch, and by radio-telephone 2182 kHz.

MAX. SIZE: Depth alongside piers varying between 15 and 34 ft.

HEALTH: Ordinary visit made at central area with vessel anchored, from 0800 hrs. to sunset. Master may ask for free pratique to get ship moored immediately on arrival. For this, necessary to cable the Health Authorities, addressing cable as follows: Estacao Maritima de Lisboa, Rocha do Conde de Obidos, max./min. respectively 15/6 hours prior to the ship's arrival. Text of cable: "ship's name, nationality, code (MIBDU), day and time of arrival" signed by the Master.

RADIO: ETA to be advised by Master, to Agent, 24 and 12 hours before ship's arrival. Lisboa Radio: call sign CUL, medium and short waves by code 720, 22, 24. By VHF Channels 5, 9, 21, 16 and 19.

BERTHING: Subject to berth availability.

SPECIALISED CARGO-HANDLING FACILITIES: *Container Terminal* at Santa Apolonia equipped with two portainers of 30 and 36 tons respectively, side loaders, semi trailers, tractors, etc., depth 8.5 m.

Roll-on/roll-off Terminal at Alcantara for ferry boats and cargo.

Grain Elevators and Silos at Poco do Bispo operated by Federacao Nacional dos Produtores de Trigo. Unloading by elevator up to 400 t.p.h.

Ore Terminal: At Barreiro there is a terminal for unloading ore from railway wagons to lighters, intended for carrying ore, in particular, to the national steel works (Siderurgia Nacional).

Cement Storage Terminal: This is at Poco do Bispo and is operated by Secil.

STEVEDORES: Ordered by Agents according berth and cargo.

MEDICAL: Masters to advise by radio prior arrival if medical attendance required on board. Hospital facilities available.

TANKERS: Shell, Petrogal and Esso berths exposed to 3–4 knots HWST current. Essential to use good new mooring lines.

Cabo Ruivo Terminal: This is operated, on a concession basis, by Soponata and has depths of 11 m., capable of mooring tankers up to 65,000 d.w.t. alongside its jetty.

Fuel Oil Facilities: The port of Lisbon fuel oil installations belong to private companies and are concentrated along both banks of the Tagus at the following points:

Sacavem and Cabo Ruivo (with oil refinery facilities), Montijo, Barreiro, Santa Iria, Porto Brandao, Porto dos Buchos.

DENSITY: 1025.

FRESH WATER: Usually supplied by barge unless vessel lying alongside a pier where water provided.

FUEL: Shell, Esso, Petrogal. These companies can supply through their own barges or alongside their private bunkering stations on pier.

IDENTIFICATION CARDS: Crew members going ashore will need a special yellow card issued by Agent and stamped with police visa. The cards are supplied by Agent to be completed on board in accordance with crew list particulars. With these shore passes crew members may circulate between Lisbon and Cascais, and Lisbon and Sintra.

Master and/or Owners will be fined Esc. $1,000 for any crew member found ashore without that card. A double fine will be imposed in case of recurrence.

Similar cards, but white, are required for passengers in transit.

CONSULS: Practically all countries are represented in Lisbon.

REPAIRS: There are several repair work-shops. The biggest is Lisnave Shipyard with several docks, one for vessels up to 300,000 tons and a new dock where vessels up to 1,000,000 tons can be repaired.

AIRPORT: Within the Lisbon area. Regular International services.

REPATRIATION: No difficulties for crew changes or repatriation.

POLICE/AMBULANCE/FIRE: Maritime Police 608104; Ambulance 115; Fire 322222.

TIME: September 26th–March 26th – GMT. March 26th–September 26th – GMT plus one hour.
HOLIDAYS: 1st January; 25th April; 1st May; 29th May; 10th June; 15th August; 5th October; 1st November; 1st December; 8th December; 25th December.
DEVELOPMENTS: In a second stage of the Santa Apolonia container terminal there will be a new wharf of 500 m. length, with water depths of 13.5 m. and a close levelled paved ground area of nearly 50,000 sq. m. will be prepared. This terminal will have, when completed, an 850 m. long wharf and a close paved area of 75,000 sq.m.

This second stage will also include two roll-on/roll-off berths, as well as lift-on/lift-off equipment. It is operated by the Port Authority.
AUTHORITY: Administracao Geral do Porto de Lisbon.

AGENTS: A. J. Goncalves de Moraes, Lda., 22, Rua do Alecrim – Lisbon-2. P.O. Box 2772. Tel. 364943–366671. Telex 12296/7/8. Cables: Amoras. Steamship and Forwarding Agents, Chartering and Brokers, Insurance Agents, Stevedores.

SETUBAL: 38.30 N. 08.55 W.

DOCUMENTS:
- 5 Crew Lists.
- 5 Passenger Lists.
- Personal belongings of the Crew (portable radio, binoculars, cameras, etc).
- Store List.
- Health Declaration.

For cargo: Dangerous Cargo List. Cargo Manifest. Transit Cargo Manifest (if any). Copy of B/L.
PILOTAGE: The pilotage service is supplied exclusively by the "Corporacao de Pilotos do Rio e da Barra de Setubal" which runs a permanent service.

To assure prompt attention requests for Pilots must be made in the following manner:

Entries: To send at least 6 hours beforehand a radiotelegram or a radiotelephone message preferably on S.S.B./AM to Pilotos de Setubal giving the name of the ship, ETA and draft.

This information must be confirmed on VHF or IF two hours before the ship arrives at the bar.

Departures and movement in the River: Between 0800 hrs. and 18.00 hrs. on weekdays and 0800 hrs. and 1300 hrs. on Saturdays. Sundays and holidays, to communicate by telephone or on VHF with the "Estacao de Pilotos de Setubal" at least one hour beforehand, giving the name of the ship, the time and place where the Pilot is required and the service needed.

Only in cases of emergency will requests be accepted outside these hours.

To effect requests for Pilots, the Corporacao de Pilotos de Setubal use the following means of communication:

VHF — Listening permanently on Channel 16 (156.80 m/cs.) being able to reply on any of the following Channels as requested: 6, 8, 13, 16, 18, 22, and 73.

IF — Listening in permanently on 2182 kc/s., replying Pilotos de Setubal on 2132 kc/s., their working frequency. Once contact has been established ships must change to this frequency. Communications can be made in SSB or AM according to the equipment of the ship.

Telephone of CTT — No. 22914.

The Pilots embark by motor launch based in Setubal and waiting near the fort at Portinho da Arrabida when necessary and the weather permits.

To increase speed and safety on embarking and disembarking, ships of more than 4,000 tons gross, when light, and those of greater capacity in any condition, unless they have a door in the side or other modern means for Pilots to board and leave, and if the weather permits, should lower the gangway to about 3 m. above sea level and fix a rope-ladder so that it stays alongside the lower platform of the gangway.

Bad weather from the South, causing breaking waves at the edge of the shoals, sometimes prevents the pilotage service from operating.

In such conditions, ship must contact the Pilotos de Setubal to discover the state of the bar and limitations imposed on the pilotage service.
ANCHORAGE: Only inside harbour with a Pilot aboard.
RESTRICTIONS: No restrictions on night entry. At low tide vessels only up to 22 ft. draft. Max. draft 27 ft., length/breadth no restrictions.
HEALTH: Free pratique automatically given when ships come from other Portuguese port. Otherwise, Health Certificate is to be handed over to Health Authorities during clearance procedures.
RADIO: Call through Lisbon Radio.
TUGS: 5 available.
STEVEDORES: Ordered by the Agent some time in advance.
MEDICAL: Prior to arrival and in order not to delay ship's clearance, Master should inform by radio if medical assistance required, this only in case of contagious or epidemic diseases.
TANKERS: Shell Maritime installation with private pier. Discharge lines 4 in., 6 in. and 8 in.
DENSITY: About 1026.
FRESH WATER: Supplied from shore to all piers.
FUEL: Ordinary fuel available at Shell Installation to ships holding contract with Shell; or fuel supplied from lorry if ship holds contract with other company.
FIRE PRECAUTIONS: No smoking on deck or piers.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: By crew unless otherwise specified in C/P. Stevedores usually help.
CUSTOMS ALLOWANCE: About 200 cigarettes and 2 bottles of spirits per man.
CARGO GEAR: Supplied by stevedores.
IDENTIFICATION CARDS: Supplied and filled in by the Agent. Crew members cannot leave Three Castles area (Setubal-Palmela-Sesimbra) without a special permit from Customs Guards obtained through Agency.
CONSULS:

Finland	tel. 26018
France	" 24612
Spain	" 22018

REPAIRS: All types available. Lisnave shipyard and dry docks at Lisbon within about 50 miles.
DEVELOPMENT: Setenave is presently building a Shipyard for new building and repairs for very large ships in the estuary of Setubal.

The facilities will consist of: 1 repair dock for ships up to 1,000,000 d.w.t. 1 repair dock for ships up to 350,000 d.w.t. New building berth for ships up to 700,000 d.w.t.
REPATRIATION: All facilities.
AIRPORT: Nearest at Lisbon, about 50 miles away.
TIME: From September 26th to March 26th — GMT. From March 26th to September 26th — GMT plus 1 hour.
AUTHORITY: Junta Autonoma do Porto, Setubal.

AGENT: — A. J. Goncalves de Moraes, Lda., 281, Av. Luisa Todi-Setubal. Tel. 22399. Telex 16212. Cables: Amoras. Steamship and Forwarding Agents, Chartering and Brokers, Insurance Agents, Stevedores.

VIANA DO CASTELO: 41.41 N. 08.50 W.

DOCUMENTS: Health Declaration.
- 3 Crew lists.
- Provision list (ships and individual).
- Tobacco Declaration and Entrance Forms supplied by Agents on arrival.
- 2 Manifests and 1 copy of each Bill of Lading concerning cargo to be discharged.
- 1 Transit Manifest if cargo in transit exists.

PILOTAGE: Always compulsory. ETA should be given to Agent with ample notice. Signals; during the day Flag "G" of International Code, and at night 3 long whistles. Boats black with white cabins. Pilots to be taken on board in outer or inner harbour respectively with bad or good weather.
ANCHORAGES: Outer or inner harbour according to weather conditions.
RESTRICTIONS: Entering and sailing only during daylight unless exceptionally good weather.
MAX. SIZE: Max. draft 15 ft. on HWST and 13 ft. on HWNT, with good sea conditions. Max. breadth 13 m.
HEALTH: Free pratique authorised for vessels coming from other Portuguese Continental ports. For vessels coming from other countries Health Declaration must be filled in and delivered to the Agents.
RADIO: Call Viana do Castelo Pilots frequency 2182 kc/s. and listen on 2132 kc/s.
TUGS: No tugs.
BRIDGES: One bridge which allows entrance/sailing at any time.
STEVEDORES: Ordered by Agents 8 hours in advance.
MEDICAL: No prior advice is necessary.
FRESH WATER: Supplied by shore installations.
FUEL: Only small quantities of gas-oil can be supplied.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Work usually done by crew.
CUSTOMS ALLOWANCE: No limit, but must be declared.
IDENTIFICATION CARDS: Required.
CONSULS: France 22412. Spain 23018.
REPAIRS: All types of deck, engine and electrical repairs can be carried out.
DRY DOCKS: Three dry docks available.

	Length	*breadth*	*draft*
Dock 1	203 m.	34.0 m.	18 ft.
Dock 2	127 m.	18.5 m.	18 ft.
Dock Eng. D. Pacheco	104 m.	11.0 m.	16 ft.
Fitting Dock	190 m.	65.0 m.	21 ft.

No special equipment for tank washing is available.
REPATRIATION: No difficulties for crew repatriation.
AIRPORT: Nearest Oporto airport at 55 km.
TIME: From September 26th to March 26th – GMT. From March 26th to September 26th – GMT plus 1 hour.
HOLIDAYS: 1st January; Holy Friday; 25th April; 1st May; Corpus Christi; 10th June; 15th August; 5th October; 1st November; 1st, 8th, 24th and 25th December.
POLICE/AMBULANCE/FIRE: Tel. 115.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: Junta Autonoma dos Portos do Norte.

AGENTS: Antonio C. Esperanca, Largo 5 de Outubro, 32 -Viana do Castelo. Tel. 22320 and 22100. Telegraphic address A. Esperanca. Agents, Stevedores, Insurance, Brokers.

VILA REAL DE SANTO ANTONIO:
37.10 N. 07.26 W.

DOCUMENTS:
- 2 Health Certificates.
- 3 Crew Lists.
- 1 List of Passengers in Transit.
- 2 Lists of Passengers Disembarking.
- 2 Dangerous Cargo Lists.
- 1 Ship's Register.
- 1 Tonnage Certificate.

PILOTAGE: Black boat, wooden hull, white "P" at bow. Stationed near buoy No. 1 (harbour entrance). All sea-going vessels entering or leaving harbour are obliged to avail themselves of the services of a Pilot. Latest 24 hours before prior arrival cable "Corporacao dos Pilotos de Vila Real de Santo Antonio" or to Agent. Departing vessels should apply for their Pilots at least 6 hours before the time of departure.

MAX. SIZE: Entrance channel 4,000 m. long, has a depth of 4 m. (12 ft.) at LW. Vessels drawing up to 5.5 m. (16 ft.) can enter under normal circumstances 1 hour before HW, a keel clearance about 1 ft. will be maintained.

TUGS: Tugs up to 105 h.p. available.

BERTHING: 1 pier 300 m. long. Depth at pier 20 ft.

STEVEDORES: Ordered by Agents. ETA to stevedores is necessary. No work allowed on Sundays.

MEDICAL: Inoculations in hospital Marques Pombal -Vila Real de Santo Antonio.

FRESH WATER: Obtainable alongside quay.

FUEL: Gas-oil can be supplied in small quantities.

GANGWAY/DECK WATCHMEN: Compulsory.

OPENING/CLOSING HATCHES: Crew allowed open and close.

CUSTOMS ALLOWANCE: About 200 cigarettes and 1 bottle of spirits per man.

CONSULS:
- Britain, Falconer, Rua Dr. Oliveira Salazar, No. 4
- Netherlands, Matias Gomes, Avenida da Republica, 73
- France, Santiago Ponce Medeiros, Avenida da Republica, No. 114
- Finland, Emilio Garcia Ramirez, Avenida da Republica, No. 133
- Greece, Jose Rodrigues Marques, Avenida da Republica, No. 109
- Italy, Mario Parodi, Avenida da Republica, No. 11

REPAIRS: There is 1 small ship-repair yard at Vila Real de Santo Antonio.

HOLIDAYS: 1st January; Holy Friday; April 25th; 1st May; 10th June; 15th August; 5th October; 1st November: 1st December; 8th December; 24th December; 25th December.

POLICE/AMBULANCE/FIRE: Police 66; Ambulance 202; Fire Brigade 202.

AUTHORITY: Junta Autonoma dos Portos and Delegacao Aduaneira de Vila Real de Santo Antonio.

AGENT: See "Lisbon".

NOTES

Please also advise Shipping Guides (Services) Ltd.

Puerto Rico

AGUADILLA: 18.22 N. 67.12 W.

DOCUMENTS:
- 1 copy of Inward Foreign Manifest (U.S. Customs Form 5727-A), Cargo for San Juan.
- 1 Stores List.
- 1 Crew Purchase List.
- 1 Passenger List (if any).
- 1 Crew List (U.S. Form 1-418).
- 1 copy of Ships in Transit Cargo Manifest.
- Clearance from Last Port.

PILOTAGE: Mayaguez's Pilots provide service in Aguadilla. Advise ETA in good time to Aguadilla Terminal.
RESTRICTIONS: Open port, very deep, safe in good weather. Cold fronts from North cause very heavy swells. Cannot berth during this kind of weather.
MAX. SIZE: 600 ft. long, 36 ft. draft.
HEALTH: Advise arrival to Aguadilla Terminal Inc. for free pratique.
BERTHING: The Aguadilla Shipping Terminal operates a bulk sugar-loading facility. Sugar-loading vessels tie-up on mooring buoys. There is 40 ft. or more depth at the outer end of the bulk sugar-loading berth. Ship ties up to 4 buoys and two bollards at main tower. Spring lines needed for shifting. Terminal boat handles lines, no charge; ship's lines not less than 600 ft. long.
MEDICAL: 24 hours notice preferred; 90 miles for nearest hospital except emergencies.
TANKERS: Molasses tankers -10 in. connection (loading only). Only sugar and molasses loaded at the only loading facility available. Rate 66 t.p.h. sugar; 500 t.p.h. molasses.

There is also a mooring buoys and pile clusters berth for the tanker traffic that supply aviation gas for Ramey Air Force Base.
FRESH WATER: Available. 2 in. pipe-line with meter, 40 c/ton.
GANGWAY/DECK WATCHMEN: Usually crew members are used.
OPENING/CLOSING HATCHES: Performed by stevedores.
CERTIFICATES/CUSTOMS ALLOWANCE: U.S. Customs regulations.
IDENTIFICATION CARDS: Required to go ashore.
CONSULS: No local representation.
REPATRIATION: Can be arranged.
AIRPORT: 20 minutes drive. Regular airlines.
TIME: Atlantic Std. Time, 4 hour less than GMT. No alterations during year.
HOLIDAYS: Refer to "San Juan".
SHORE LEAVE: Allowed.
DELAYS: No delays unless another ship is already berthed.
AUTHORITY: Puerto Rico Ports Authority, Harbour Master.

GUANICA: 17.57 N. 66.54 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: Port operations are under the control of the Captain of the port. Pilot services are available day and night.
ANCHORAGE: Harbour is located 8 miles Westward of Guayanilla Bay. Though small, it is one of the best hurricane harbours in Puerto Rico.
TUGS: Available from Guayanilla.
BERTHING: Pier facilities are owned by the Guanica Central and used for bulk sugar shipments and limited general cargo operations. On the East side of the harbour entrance there is a reinforced concrete bulkhead wharf 700 ft. long with depths of 28 ft. alongside for the handling of bulk fertilisers. Small craft landings and facilities are along the boulevard fronting the beach.
FRESH WATER: Available in limited quantities for emergencies only.
FUEL: Available by trucks from Ponce.
MEDICAL: Medical assistance is available; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally, nearest at Ponce, Puerto Rico.
AUTHORITY: Port Captain, Puerto Rico Ports Authority.

GUAYANILLA: 18.00 N. 66.46 W. (See Plan)

Oil Terminal owned by Commonwealth Oil Refining Co.
DOCUMENTS/GENERAL INFORMATION: Refer to "San Juan".
PILOTAGE: Port operations are under the control of the Captain of the port and pilot services are available day and night.
ANCHORAGE: It is the largest hurricane harbour and one of the best in Puerto Rico. Available for vessels of any draft. The harbour is protected at its entrance by extensive reefs which extend a mile or more offshore. The entrance channel between these reefs is about 1.5 miles long and about 0.4 mile wide.
MAX. SIZE: Tankers up to 680 ft. LOA, with max. draft 35 ft. 6 in. forward and 38 ft. aft.
TUGS: Available 24 hours daily, as requested by vessel.
BERTHING: Fuel dock. 2×680 ft. berths with 36 ft. 06 in. depth alongside. Mooring buoys placed to assist in clearing dock and mooring dolphins. No slop disposal facilities. The Union Carbide Company has berthing facilities for barge operations.

New port facilities for Commonwealth Oil Refining Co. and Pittsburgh Plate Glass are owned by the Puerto Rico Ports Authority.
FRESH WATER: Available whenever requested by the vessel.
FUEL: Available only whenever arranged by owners of the vessel and/or charterers prior to arrival.
MEDICAL: Medical service is available; hospitalisation at Ponce, which is only 15 minutes distance.
CONSULS: None available locally; nearest at Ponce, Puerto Rico.
AUTHORITY: Commonwealth of Puerto Rico — Harbour Master. Port facilities are operated and owned by the oil refinery.

JOBOS (Aguirre): 17.56 N. 66.13 W.

DOCUMENTS/GENERAL INFORMATION: Refer to "Ponce".
PILOTAGE: The Port of Jobos is served by the Pilots of Port Ponce. Services must be arranged in advance.
ANCHORAGE: A fine land-locked harbour, located on the South coast, approx. 42 nautical miles Eastward of Ponce and 20 miles West of Point Tuna. Anchorage inside the bay is Southward of the pier in depths of 19–24 ft. soft mud bottom.
RESTRICTIONS: The principal entrance is from Westward between Morrillo Cay and Ratones Cay, thence through buoyed channel to the bulk sugar-loading pier at Central Aguirre. Private range lights mark the dredged cuts. Controlling depth is 28.5 ft.
TUGS: No tug-boats available.
BERTHING: A 1,000 ft. finger pier at Central Aguirre, 29 ft. depth alongside. Pipe-lines for water and molasses, a conveyor belt for bulk sugar and a gantry crane are on the pier.
FRESH WATER: Fresh water is available at this dock.
FUEL: No bunkers are available at this dock.
MEDICAL: Medical assistance is available; if hospitalisation is required for any crew member, it will probably be necessary to arrange for admittance to a Ponce hospital.
CONSULS: None available locally; nearest available at Ponce.
AUTHORITY: Puerto Rico Ports Authority, port facilities owned and operated by Central Aguirre Sugar Company.

LAS MAREAS: (Guayama) 17.55 N. 66.10 W. (See Plan)

The Puerto de las Mareas Terminal is located on the South side of the island of Puerto Rico. It is located approximately 26 nautical miles East of the port of Ponce. The nearest city is Guayama. All vessels calling at Phillips Puerto Rico Core Inc., Puerto de las Mareas Terminal should be consigned to Phillips Puerto Rico Core Inc., and all official documents for such ships should show them so consigned. In conformance with port regulations, no vessel will be allowed to tie up alongside a pier without having first obtained a berthing permit from the Ports Authority Captain of the port.
DOCUMENTS: The following documents are required by the Customs and Immigration Authorities for entry and clearance:
- Master's Oath (Original and 1 copy).
- Stores List (Original and 2 copies).
- Crew Purchasing List (Curio List) (Original and 2 copies).
- Inward Foreign Manifest (Original and 3 copies).
- Quarantine Free Pratique (will be furnished by Doctor).
- Deratisation Certificate (in date).
- Crew List (1 certified and 2 not certified copies).
- Clearance from Last Port (depends on sailing port).
- Crewmen Landing Permits (for each crew member without the plastic Form I-189).
- Passenger List (if any passengers).

The Passenger List must show full names, sex, age, nationality, and occupation of passengers landing at Puerto de las Mareas. The ultimate destination of in-transit passengers must also be shown in the passenger list.

Deratisation Certificates can be renewed at the port.

In most cases, outward clearance and cargo documents can be delivered on board by the Ship's Agent, making it unnecessary for Masters to obtain such clearance in person from the U.S. Customs Office.
PILOTAGE: The use of Pilots is compulsory for all vessels, with the

exception of American Flag vessels bound to or arriving from a U.S. port which may dispense with Pilots provided the vessel has on board a deck officer qualified and licensed by the United States Coast Guard, as a harbour Pilot for Puerto de las Mareas. Vessel's Agent will arrange for Pilot, upon notification in the arrival notice, who will board inbound vessels off the entrance to the harbour about 1 mile off-shore.

When approaching the dock and channel, vessels must have one anchor, to be designated by the Pilot, free of the hawse pipe and ready for quick release if necessary to stop the vessel.

Every vessel requiring a Pilot must provide, properly rigged and secured, a pilot ladder which conforms to international safety standards. When picking up or dismissing the Pilot, the vessel must heave-to and provide a lee with the pilot ladder rigged on the lee side.

APPROACHES: The harbour is entered through a channel 250 ft. in width and its narrowest portion, bearing N. 25° E. It is protected on the Eastern side by a rubble mound breakwater extending approximately 700 ft. from the shore line. The dredged channel extends out to the 40-ft. depth contour and has a width at this contour of approximately 900 ft., narrowing to 250 ft. approximately 2,100 ft. inshore from the 40-ft. contour. The 250-ft. wide portion of the channel is approximately 1,000 ft. long. At the inshore end of the 250-ft. wide channel, the harbour itself extends for a length of 2,300 ft. and a maximum width of 950 ft. The harbour has a depth of 38 ft. below mean low water. The above dimensions are given to the bottom of the channel; the sides of the channel and the harbour are sloped at 1 in 3.

NAVIGATIONAL AIDS: (A) Seabuoy: The Seabuoy is located 300 ft. West of the centre line of the channel 2 miles offshore from the end of the rubble mound breakwater. It displays a white light through 360° flashing 0.4 second on and 3.6 second off. The buoy is painted with black and white vertical stripes and is fitted with a radar reflector.

(B) Channel Marker Buoys: 2 lighted channel marker buoys are provided, located 550 ft. on either side of the centre line of the channel, 2,024 ft. offshore from the end of the rubble mound breakwater. These are lighted and marked as follows:

(i) Port-to (inbound vessels). This buoy has a 360° green light, flashing 0.5 second on and 2.0 seconds off. It is equipped with day-boards 3 ft. square, and painted black with green reflective perimeter.

(ii) Starboard-to (inbound vessels): This buoy is a 360° red light, flashing 0.5 second on and 2.0 seconds off. It is equipped with triangular day-boards 4 ft. by 4 ft., painted red.

(Both these buoys are located at the 40-ft. depth contour.)

(C) Channel Marker Navigation Lights: There are 4 channel marker navigation lights, 3 of which are located on piling, and 1 on the end of the rubble mound breakwater.

(i) Port-to (inbound vessels): This marker is located on piping 400 ft. from the centre line of the channel, 2,024 ft. inshore from the channel marker buoys. The light is located 20 ft. above MLW, and is displayed through 360°. It is a green light, flashing 0.5 second on, 2.0 seconds off. The marker is fitted with 3 ft. square day-boards, painted black with reflecting green perimeter.

(ii) Starboard-to (inbound vessels): This marker is located on a tower at the end of the rubble mound breakwater, 50 ft. above MLW. The light is displayed through 360°, red, flashing 0.5 second on and 2.0 seconds off. The marker is equipped with 4 ft. by 4 ft. red triangular day-boards.

(iii) Port-to (inbound vessels): This marker is located 175 ft. from the centre line of the channel 1,000 ft. inshore from the end of the rubble mound breakwater. It is equipped with a green light showing through 360°, flashing 0.5 second on and 2.0 seconds off. The light is located 20 ft. above MLW. The marker is equipped with 3 ft. square day-board, painted black with green reflective perimeter.

(iv) Starboard-to (inbound vessels): This marker is located 175 ft. from the centre line of the channel, 1,295 ft. from the end of the rubble mound breakwater, and is mounted on piling with the light 20 ft. above MLW. It is equipped with a 360° red light, flashing 0.5 second on and 2.0 seconds off. The marker is equipped with red day boards 4 ft. by 4 ft. triangular in shape.

(D) Obstruction Light: This light is mounted on the turning dolphin and displays a 360° steady red light.

(E) Range Lights: The front range light is mounted on a tower located on the centre line of the channel. It consists of a set of double red aircraft warning lights 75 ft. above MLW. It is fitted with 4 ft. by 8 ft. day-boards, painted with red-orange reflective coating. The light is located 3,500 ft. inshore from the end of the rubble mound breakwater.

The back range light is located on the centre line of the channel, 5,500 ft. inshore from the end of the rubble mound breakwater. The light consists of a set of double red aircraft warning lights, 110 ft. above MLW. The tower is fitted with 6 ft. by 12 ft. day-boards painted with red-orange reflective coating with a 3 ft. white stripe down the centre.

RESTRICTIONS: The entrance channel has a depth below MLW of 40 ft. and the harbour itself has a depth of 38 ft. below MLW. Shipmasters are cautioned that swells in the approach channel can increase the draft of their vessels, therefore caution must be exercised in entering the channel in periods of heavy weather.

RADIO: Agents of vessels or owners or its representatives should advise Phillips Puerto Rico Core Inc. by telex, cable or telephone, 72 hours, 48 hours, and again 24 hours before their expected arrival at the sea buoy.

ITT Telex No. 385347 "Philcorgya".
Puerto Rico Communication Authority-Telex No. 347.
Telephone (809) 864-1515.

Incoming vessels should advise the Agent by radio 48 hours and again 24 hours before their expected arrival at the sea buoy. Coast stations available for such advice are:

Lantana Radio (WOE) -Lake Worth, Florida. (Equipped with RCA automatic land-line circuit direct to New York City, San Francisco, California and Washington, D.C.)

New York Radio (WNY) -New York City. (Equipped with RCA automatic land-line circuit direct to New York City, San Francisco, California, Washington, D.C. Also equipped with teletypewriter (TWX) for direct communication with steamship companies in the United States having this equipment.)

Chatham Radio (WCC) -Chatham, Massachusetts. (Equipped with RCA automatic land-line circuit direct to New York City, San Francisco, California, Washington, D.C.)

San Juan Radio (WCT) -Radio Corporation of Puerto Rico Marine Station, Transmits at 2530 kc/s., receives at 2134 kc/s., watch at 2182 kc/s.

In addition to the above commercial radio facilities, incoming vessels may contact the port through facilities on tug stationed at the port. These facilities are as follows:

HF radio:	range 2 to 300 miles. 2182 kc., working frequencies 2638 and 2738.
VHF radio:	range 30 miles. Channel 16 (156.8 Mc/s), working frequency Channel 14 (156.7 Mc/s).
SSB radio:	12 Mc/s, 8 Mc/s, 4 Mc/s.

Vessels diverted to Puerto de las Mareas must furnish the required 48-hour and 24-hour notices of arrival, unless notice of diversion is received when less than 48 hours before anticipated arrival, in which case the notice of arrival will be given as soon as notice of diversion is received. In such cases, however, Phillips Puerto Rico Core Inc. reserves the right to refuse to load or unload such vessels if tankage is not available for the cargo, or if cargo is not available to loading.

TUGS: As a safety measure, Masters of vessels calling at Las Mareas are advised to engage tugboat assistance on arrival, turn ship around, and tie up alongside the pier, heading bow out to sea. Arrangements for the use of tugboats should be made well in advance of vessel's arrival of the sea buoy.

BERTHING: The dock at the terminal consists of a finger pier approximately 1,122 ft. in length inside the harbour with a tanker loading berth on each side. The finger pier consists of a cargo platform 45 ft. by 90 ft., with fitted fender piling and dolphins. The cargo platform is connected to shore by a driveway 12 ft. 6 in. wide. The mooring and breasting dolphins outboard of the cargo platform are connected to each other and to the platform by a walkway. No launches are required to handle mooring lines. The top of the cargo platform is 12 ft. above MLW level. Water depth alongside the finger pier is 38 ft. at MLW. There is no current at the dock or in the harbour.

The fender system and breasting dolphins are designed to withstand the forces exerted by a vessel of 81,300 tons displacement approaching the dock with a velocity component perpendicular to the dock face of 0.30 ft. per second.

Bollards for mooring lines are provided on the breasting dolphins, the mooring dolphins and the turning dolphins. Each of the bollards and their associated dolphins are designed to withstand 120,000 pounds of mooring line tension.

Vessels will be required to vacate berths promptly on completion of loading or discharging cargo. Permission to use a berth when not loading or discharging cargo may be granted under special circumstances, and must be requested in writing to captain of the port.

Vessels will be allowed 1 hour in which to vacate the berth after completion of cargo handling, to start when the last hose is disconnected.

Three hours will be allowed for ballasting at the berth after completion of discharging cargo. Vessels awaiting cargo papers and/or Customs clearance must vacate the berth on expiration of allowed time and move to anchorage to wait for delivery of the papers.

If the vessel fails to vacate the berth on the expiration of the allowed time, it will be held liable for payment of any demurrage and/or damages incurred by Phillips Puerto Rico Core Inc., as a result of delays to other vessels waiting berths, or for any other consequence of its failure promptly to vacate the berth.

Turning basin 1,100 ft. wide and 1,060 ft. long, outboard of the turning dolphin, is provided. The turning basin has a depth over its entire area of 38 ft. at MLW. The turning dolphin at the end of the finger pier is designed to assist vessels in turning in the basin. Normal procedure will be for vessels to enter the harbour and turn prior to docking. In the case of loaded vessels entering the harbour, they may, at the Master's discretion, wait until they have discharged, and turn just prior to leaving the harbour.

HURRICANES: The South coast of Puerto Rico is subject to winds of hurricane force, accompanied by abnormally high tides, during the late Summer and Fall. In the event of such abnormal conditions, vessels may be required to put out additional moorings, or if necessary, to suspend all operations and put to sea until normal conditions prevail.

MEDICAL: U.S. Public Health Service doctors will be available for attendance on vessels at Puerto de las Mareas, upon receipt of notice 48 hours prior to arrival. If hospitalisation is required for any crew member, arrangement could be made through the ship's Agent with hospitals located in the municipality of Guayama. Ambulance service can be furnished through request to Agent.

TANKERS: The various cargoes available at the Puerto de las Mareas terminal include motor fuel, cyclohexane, benzene, paraxylene, orthoxylene, mixed xylenes, paraffinic naphtha, and other special products. Feedstock for Phillips Puerto Rico Core Inc. facilities is naphtha, and there is a fuel oil unloading line. Cargo handling is accomplished through various sizes of lines, as follows:

Product	*Hose size (in.) (each side of dock)*	*Line size*	*Loading/ discharging rate with one pump*
Naphtha feedstock	4-8	20	13,700 bph
Motor fuel	3-8	20	12,000 bph
Motor fuel	2-8	12	5,700 bph
Benzene	1-8	12	2,000 bph
Cyclohexane	1-8	10	3,000 bph
Mixed xylene	1-8	12	3,400 bph
Orthoxylene (high purity)	1-6	8	800 bph
Orthoxylene (standard purity)	1-6	8	2,600 bph
Paraffinic naphtha	2-8	16	7,500 bph
Paraxylene	1-6	8	2,000 bph
Toluene	1-8	8	2,000 bph
Fuel oil	1-8	12	2,000 bph
Ballast	1-8	8	3,000 bph
Domestic water	1-2	2	7 tph

CONNECTING/DISCONNECTING HOSES: A crew will be provided by the terminal to connect and disconnect hoses on the ship. Vessels are requested to have blanks removed from the cargo lines and hose handling booms rigged on arrival at the dock.

READINESS: Notice of Readiness to load or discharge is warranty that the vessel is in all respects ready to receive or discharge cargo, and that the vessel's equipment is ready and capable of loading or discharging petroleum or petrochemical products. Phillips Puerto Rico Core Inc. reserves the right to refuse to accept such notice of readiness if, upon inspection, the vessel is found not to be ready to receive or discharge cargo. Vessels will be accepted loading or discharging on a "first come, first served" basis. Vessels may tender notice of readiness upon arrival, berth or no berth, according to the terms of the charter party or contract of affreightment under which they have been engaged.

BALLAST: Ship's Masters are reminded that they are prohibited by Puerto Rico law from pumping dirty ballast overboard when within the Puerto Rican limits. Facilities are provided for disposing of dirty ballast ashore at Puerto de las Mareas. Vessels provided with separate clean ballast systems completely segregated from the cargo system and reserved for clean ballast only, may pump ballast overboard from such systems while at the dock, provided the tanks are inspected and approved for such pumping by the Dockmaster. Heavy fines are enforced for any discharge of dirty ballast, and due to the limited area of harbour, any violations will be quickly detected and reported.

Ballast is pumped ashore through an 8-in. line, capable of receiving at a pressure at the ship's rail of 100 psi. The ballast facilities are sufficient to accommodate 30,000 barrels of dirty ballast. Vessels are requested to arrive with minimum of dirty ballast.

FRESH WATER: Available at the dock in limited quantities.

FUEL: No bunkers available at Puerto de las Mareas. In an emergency, bunkers may be delivered by barge from Ponce. In such cases, however, special permission must be obtained from the Harbour Master to take bunkers from the barge while loading or discharging cargo. Lubricating oils may be obtained from Ponce.

STORES: May be ordered through the ship's Agent for delivery at the terminal, but must be ordered at least 48 hours prior to vessel's arrival.

CONSULS: Consular representatives of the following nations are available in Ponce:

Venezuela Dominican Republic Spain
France Netherlands Sweden
Panama Honduras

Further information can be obtained through the Agent.

REPAIRS: Complete repair and dry dock facilities are available in San Juan. Limited facilities for emergency repairs are availabe at Ponce. Requests for such services should be made to the Agent 24 hours prior to arrival.

SURVEYORS: There are no classification society surveyors stationed at Puerto de las Mareas, but they are available on call from Ponce or San Juan. Requests for survey services should be made through the vessel's Agent at least 24 hours prior to arrival.

CARGO INSPECTION: Representatives of Chas. Martin Inspectors of Petroleum Inc. will be available for cargo quantity and quality inspection as required. Address: POB 1017, Guayama, Puerto Rico 00654. Telephone: (809) 864-0428, 864-1515.

CUSTOMS: U.S. Customs and Immigration Authorities will board vessels at the dock, except in unusual circumstances, in which case they will board the vessel at anchor outside the harbour. The vessels will be required to furnish an accommodation ladder.

American Flag vessels will not require Customs entry or clearance unless arriving or departing to a foreign port.

HEALTH: The usual regulations concerning sanitation apply to the Harbour of Puerto de las Mareas. The use of rat guards on all lines is compulsory, under penalty of fines for failure to comply. Trash and galley refuse may not be dumped into the waters of the harbour and must be kept on board until the vessel has sailed. Discharge of toilets and bathrooms into waters of the harbour is prohibited. Sanitary facilities are provided on the dock for use by crew members while their vessels are at berth.

FIREARMS: All firearms and ammunition should be shown on the stores list and may not be removed from the vessel during its stay in Puerto Rican waters. Any violations of this regulation will result in fines and confiscation of firearms and ammunition.

SAFETY: The provisions of Part 35 "Operations" of the Rule and Regulations to Tankvessels, Subchapter D (CG-123) published by the U.S. Coast Guard are in force at Puerto de las Mareas, and must be observed under penalty of fine and imprisonment as provided therein.

Particular attention is called to the following safety precautions:

(1) Vessels must be, and remain, in readiness to sail from the dock at any time. In the event of engine repairs, which might interfere with such readiness to sail, being required, written permission must be obtained from the Harbour Master before such repairs may be undertaken.

(2) Scuppers must be plugged during cargo-handling operations.

(3) Absolutely no smoking or open lights will be permitted on the dock or open decks.

(4) Screens in good conditicns must be used over gauging hatches when not actually gauging.

(5) Operations may be suspended at the discretion of the Master, or may be required to be suspended by the Harbour Master, during severe electrical storms.

(6) In the event of a breakdown of communications between dock and the shore terminal during loading operations, and the need to shut off the flow of cargo to the vessel, an emergency signal consisting of a continuous sounding of the ship's whistle shall be given. The signal shall not be discontinued until the flow of the cargo has been shut off.

(7) An electrical bonding cable will be provided from the dock to the ship. This bonding cable must be firmly secured to a clean metal surface of the vessel's hull or cargo piping before hoses are connected, and must remain in place until the hoses are disconnected.

Violations of these and other safety regulations, as described in Parts 35 of Subchapter D will result in the suspension of cargo-handling operations by the Harbour Master, or the PPRC dock personnel or safety inspectors, without recourse. Such suspension of cargo operations will continue until the violations are corrected or the safety hazards removed.

MAIL: Official and personal mail may be addressed to the vessel in care of the Agent, and will be delivered to the vessel by the Agent on arrival. The Agent will accept official and personal mail from the vessel, and will ensure its delivery to the local U.S. Post Office, upon receipt of a mail transmittal slip to support disbursements.

SHORE LEAVE: Normally, there are no restrictions on shore leave. In order to avoid sailing delays, due to late return of crew members, Masters are requested to ensure that all crew members are aboard at sailing time.

Crew of foreign vessels must present valid passports, current individual International Vaccination Certificates, and a copy of Form I-95, properly filled out, in order to be passed through the terminal gates.

Taxi service is available from Guayama and may be called from the gate.

AUTHORITY: Puerto Rico Ports Authority; port facilities operated by Phillips, P.R. Core, Inc.

MAYAGUEZ: 18.12 N. 67.09 W.

DOCUMENTS: If vessel staying less than 24 hours:

Crew List.
Stores List.
Cargo Manifest.
Crew Purchase List.
Valid Load-line Certificate.
Ship's Register.
Clearance from Previous Port.

Vessels working cargo. 2 sets of documents to be prepared as follows:

Original:

1 copy of Inward Foreign Manifest (U.S. Customs Forms 5727-A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form 1-418).
1 copy of Ship's in Transit Cargo Manifest.
Clearance from Last Port.

Duplicate:

Same as original except the in-transit Cargo Manifest.
If vessel has on board cargo for another American port, an extra copy of the original Cargo Manifest is required.
Crew members to declare individually all articles such as souvenirs, etc.

Agents require:

3 sets of Bills of Lading.
2 copies of Manifest (for San Juan only).
1 copy of Crew List.
1 copy of Stores List.
1 copy of Crew Purchases List.
1 copy of Narcotics List.
1 copy of Passengers List.

Certificates:

Valid Load Line Certificate.
Ship's Register.
U.S. Tonnage Tax Certificates (if any).

PILOTAGE: Ships Agents must make arrangements with Captain of the Port Office at Mayaguez Pier well in advance, not less than 24 hours, of arrival of vessel at harbour entrance. Pilot boats are painted black (hull) and white (topside) as required, showing the letter "P" on each bow. Pilots board 1 to 2 miles offshore of sea buoy depending on weather conditions. Pilot service available day and night.

ANCHORAGES: Close to the entrance channel and boundaries. Sufficient depths for larger vessels.

RESTRICTIONS: The bay is easily entered day or night and is a good harbour in any weather, except in a hurricane. The harbour is 3.8 miles wide, and offshore is protected by shoals which extend across the harbour entrance in a general North by West direction.

The principal channel is about 0.4 mile wide, with depths at the entrance of about 47 to 120 ft. and it is marked by lighted buoys and the range. Depth in the inner channel is approximately 30 ft. and close alongside the pier from 28 to 29 ft.

MAX. SIZE: Cargo vessels 600 ft. or more in length call at the port. Safe draft for operations at the wharf is 27 ft.

RADIO: Communication to all points, including ships at sea, is available through commercial systems. Cables-Telex via RCA Communications, Inc., a global service of Radio Corporation of America. ITT World Communications, Inc., tel. 830-3316. Puerto Rico Telephone Company, local and overseas communications services, 129 and 128.

TUGS: Not used at Mayaguez Port.

BERTHING: Berthing permit required from the Ports Authority. The Puerto Rico Ports Authority operates the terminal facilities which consist of a bulkhead wharf approximately 1,200 ft. long, apron width, 30 ft., and transit sheds. There are other berthing facilities in the port which are owned by the tuna packing plants.

STEVEDORES: Arrangements are made by the ship's Agents or representatives.

MEDICAL: The Agent should know in advance any medical needs so that he can make the necessary arrangements with the U.S. Public Health Service. Good medical and hospital services available.

TANKERS: See "Port of Guayanilla". Regular calls from Esso and Texaco to unload fuel by means of barges in order to supply tanks on land by means of pipes located at berthing facilities.

FRESH WATER: Available at pier facilities alongside the berth in 4 outlets to supply any amount required at any time. Hose connections of 2.5 in. or less, maximum pressure.

FUEL: All grades available.

FIRE PRECAUTIONS: Standard fire and safety precautions throughout. U.S. Coast Guard regulations.

DEVELOPMENTS: it is planned to locate a heavy lift crane on the berth facility.

GANGWAY/DECK WATCHMEN: Ship provides own gangway watchmen.

OPENING/CLOSING HATCHES: By stevedores.

IDENTIFICATION CARDS: Required to go ashore.

CONSULS: Dominican Republic, France, tel. 832-4322. Others at San Juan.

REPAIRS: Call San Juan facilities where complete salvage equipment is available. Service to other ports of the island.

REPATRIATION: Arranged by ship's Agents.

AIRPORT: Mani Airport, 15 minutes from pier, served by regular airlines daily from Mayaguez to San Juan.

TIME: GMT minus 4 hours all year round.

HOLIDAYS: Refer to "San Juan".

POLICE/AMBULANCE/FIRE: Telephone numbers: Police, 343-2020, 832-2300; Ambulance, 832-0496, 832-3212; Fire, 343-2330, 832-2330.

TELEPHONES: Can be arranged by Puerto Rico Telephone Company.

SHORE LEAVE: Allowed.

AUTHORITY: Puerto Rico Ports Authority.

PONCE: 17.58 N. 66.37 W.

DOCUMENTS: If vessel staying less than 24 hours:
Crew List.
Stores List.
Cargo Manifests.
Crew Purchase List.
Valid Load Line Certificate.
Ship's Register.
Clearance from Previous Port.

Vessels working cargo: 2 sets of documents to be prepared as follows;
Original:

PILOTAGE: Port operations are under the supervision of the Captain of the Port and pilot services are available day and night.

ANCHORAGE: Harbour is protected from the prevailing Easterly trade winds by enclosing reefs. To the Southward the harbour is exposed and for this reason is not safe in a hurricane.

RESTRICTIONS: Depths: Entrance channel 36 ft.; turning basin, 31 ft.; anchorage, 40 ft.

BERTHING: The municipal pier is a concrete and steel construction 430 ft. long by 100 ft. wide, with a steel and cement transit shed. The municipality has also built a concrete bulkhead wharf extending East-West for 2,260 ft. from the pier. To the North of the bulkhead wharf there is a manoeuvring basin 30 ft. deep. Depth alongside: Pier 1A, 30 ft.; Pier 2, 29 ft. 6 in.; Pier 3, 30 ft.; Pier 4, 30 ft.; Pier 5, East-side, 33 ft.; Pier 5, West-side, 32 ft.

FRESH WATER: Water is available whenever ordered in advance for 24 hour daily service or at request during office hours.

FUEL: Available by pipe-line: (Texaco only) diesel, gas oil, No. 6 fuel oil. By trucks (Chevron, Shell, Esso).

MEDICAL: Ambulance permanently available at dock area, hospital and doctors service available as requested to the Agent.

CONSULS:
Colombia
Denmark
Dominican Republic
France
Honduras
Holland
Panama
Spain
Sweden
Switzerland

REPATRIATION: Arranged by ship's Agents.

TIME: GMT minus 4 hours.

HOLIDAYS: Refer to "San Juan".

DEVELOPMENTS: The expansion of the 260 ft. N.-S. bulkhead is completed and length increased to 600 ft. There is a 76 ton gantry crane in operation.

The Trailer wharf is completed but not operational as no crane available.

The Port Board is working on the development of a dry dock for ship repair.

AUTHORITY: Muelles Municipales de Ponce.

SAN JUAN: 18.28 N. 66.07 W. (See Plan)

DOCUMENTS: Foreign vessel calling for fuelling purposes and staying less than 24 hours:
Crew List.
Stores List.
Cargo Manifests.
Crew Purchase List.
Valid Load Line Certificate.
Ship's Register.
Clearance from Previous Port.

No Customs formal entry or clearance is required if vessel departs before 24 hours and transacts no other business related to cargo or passengers.

Vessels working cargo. 2 sets of documents to be prepared as follows:
Original:
1 copy of Inward Foreign Manifest (U.S. Customs Form 5727-A), Cargo for San Juan.
1 Stores List.
1 Crew Purchase List.
1 Passenger List (if any).
1 Crew List (U.S. Form I-418).
1 copy of Ship's in-transit Cargo Manifest.
Clearance from Last Port.
Duplicate:
Same as original except the in-transit Cargo Manifest.
If vessel has on board cargo for another American port, an extra copy of the original Cargo Manifest is required.
Crew members to declare individually all articles such as souvenirs, etc.

Agents require:
3 sets of Bills of Lading.
2 copies of Manifest (for San Juan only).
1 copy of Crew List.
1 copy of Stores List.
1 copy of Crew Purchases List.
1 copy of Narcotics List.
1 copy of Passengers List.

U.S. Customs clearances: Documents required:
Outward Foreign Manifest.
Crew List in duplicate (American vessels only).

(Functions of admeasurement and documentation of American vessels are performed by the office of Marine Inspection, U.S. Coast Guard, Post Office Building, San Juan, Puerto Rico).

Consular clearances for the Dominican Republic:
5 copies of Crew List.
5 copies of List of Weapons and Ammunitions on board.
5 Lists of Passengers.

Consular clearances for Venezuela:
6 copies of Store List.
8 copies of Crew List.
7 copies of Passengers List.

Purser shall supply the Agents with necessary information to fill the inward and out bound cargo reports which have to be filled at Customs House after departure of the vessel.

Customs Inspector requires:
Valid Load Line Certificate.
Ship's Register.
U.S. Tonnage Tax Certificates (if any).

PILOTAGE: Compulsory. Ships Agents must make arrangements with Pilot station well in advance – not less than 24 hours – of arrival of vessel at harbour entrance. Pilot boats are painted black (hull) and white (topside). Show the letter "P" on each bow. Pilots board 3 miles offshore of sea buoy. Call Pilot station on Channel 16 VHF. There is no inner anchorage for incoming vessels to wait for the Pilot.

ANCHORAGES: Deep draft anchorage "E", on the S.W. shore of Isla Grande, is for vessels awaiting Customs or quarantine, and no vessel shall remain more than 24 hours without a permit from the Commonwealth and U.S. Coast Guard Captain of the Port. Restricted Anchorage "F" (Fox), shoreward of the West margin of Anegado Channel, is for vessels discharging explosives. No vessel shall anchor without a permit from the Captain of the Port. Anchorage "D", East end of San Antonio Channel, is for yachts, schooners and small craft.

RESTRICTIONS: Besides the harbour entrance channel (Bar Channel) and the main ship channel (Anegado Channel) with depths of 42 ft. and 36 ft., respectively, there are 4 other navigable channels in the inner harbour:

The Army Terminal Channel, which runs in a straight North to South direction is approximately 1 mile long and 300 ft. wide. Charted Depth in the Army Terminal Channel and alongside Piers 1 and 3 is 35 ft., safe draft 33 ft. Depth in other channels varies 30 to 32 ft. and alongside pier facilities 28-30 ft.

The Puerto Nuevo Channel, approximately 1 mile long, 300 ft. wide, with an average depth of 32 ft.

The Graving Dock Channel, approximately 1 mile long, 300 ft. wide, with an average depth of 30 ft.

San Antonio Channel, approximately 1.5 miles long, 300 yards wide, mid-channel average depth 35 ft.

MAX. SIZE: Cargo vessels 750 ft. in length call regularly at the Port of San Juan. Channel to tanker's berth, 36 ft.

RADIO: Radio communication to all points, including ships at sea, is available through commercial systems. Cables-Telex via RCA Communications, Inc., a global service of Radio Corporation of America, tel. 723-6170, San Juan, Puerto Rico.

The signal station at Fort San Cristobal in San Juan harbour is manned around the clock for radio-telephone communication with incoming and outgoing ships traffic. Transmitting vessels can communicate with the station through 156.8 mHz (Channel 16) for call and reply and working Channel 14, 156.7 mHz.

Vessels approaching to enter San Juan Harbour shall remain outside not less than 3 miles Northerly of the harbour entrance to pick up the Pilot, and vessels about ready to depart shall inform the signal station via radio-telephone of their intentions.

TUGS: Caribe Tugboat Corp., tel. 724-2427, and Port San Juan Towing Company, tel. 724-2360, operate a fleet of tug-boats. Tugs join vessel just inside harbour entrance.

Use of tug-boats compulsory for docking and undocking vessels 8,000 tons displacement and over unless equipped with bow or side thrusters.

BERTHING: All vessels must request and obtain well in advance before arrival a berthing permit from the Ports Authority.

Pier 1: North shore of the harbour, in the Old San Juan waterfront, East of Customs Building and next Westerly to the ferryboat landing. Modern twin berth, 770 ft. long, double deck, cruise and passenger vessels terminal, pierside passenger and baggage gangways, elevators, parking and shopping. Water and light facilities available.

Ferry Terminal: Next Easterly to Pier 1. Ferry terminal for the San Juan-Catano ferry fleet.

Pier 3: North shore of the harbour, Old San Juan waterfront next Easterly to the ferry terminal. Tourists ships terminal similar to Pier 1. Depths in the approaches and alongside tourist piers 35 ft.

Wharf No. 6: An extension of the open bulkhead Easterly of Pier 3 marginal wharf, 940 ft. long, accommodates cruise and passengers vessels. Water and light facilities available.

Pier 7: Northerly continuation of Pier No. 6, 472 ft. long, 1 berth, general cargo pier. Operated by the San Juan Dock Company.

Pier 8: East of Pier 7, finger pier, 3 berths, general cargo pier. Transit shed area and other covered storage 175,508 sq. ft. open area 40,000 sq. ft. Water and light facilities available.

Pier 9: East of Pier 8. Finger pier, 3 berths, general cargo pier. Net storage space pier shed 133,738 sq. ft. open area 40,000 sq. ft. Water and light facilities available.

Pier 10: North shore of San Antonio Channel. East of Pier 9. Finger pier, 1 berth, tug and barge terminal. No transit shed space. Water, fuelling facilities and light available.

Wharf No. 11: East of Pier 10, marginal wharf, 1 berth, 580 ft. of bulkhead, general cargo pier. Transit shed area 100,000 sq. ft. ample back area. Gulf Puerto Rico Lines' pier. Water and light facilities available.

Wharf No. 12: An extension of Wharf No. 11 Bulkhead 550 ft. long, wide apron, 15,000 sq. ft. transit shed area, 37,000 sq. ft. open storage. General cargo wharves. Water and light facilities available.

Wharf No. 13: Prolongation of Wharf No. 12: 28,000 sq. ft. transit shed area, 55,000 ft. open storage area, general cargo wharf. Water and light facilities.

Pier 14: Extension of Piers 12–13 bulkhead; marginal wharf, general cargo pier, wide apron. 446 ft. long, 40,000 sq. ft. transit shed area, ample back area. Water and light facilities available.

Frontier Base Pier: Navy facility operated by the Puerto Rico Ports Authority under contract. 2 berths for sea-going vessels. Depth alongside 30 ft. Principally used for the handling of open storage cargo and the berthing of cruise vessels and conventional ocean carriers handling open storage cargo.

Isla Grande Terminal: South shore of San Antonio Channel. Marginal wharf. 1,500 ft. long bulkhead. Wide aprons. Transit shed 32,000 sq. ft. with 240,000 sq. ft. of paved open area. Easterly section of bulkhead for shallow draft vessels.

Container terminals:

(a) In Westerly section P.R. Maritime Shipping Authority lift-on-lift-off trailership terminal; bulkhead wharf 950 ft. long. Wide apron, ample trailers marshalling yards. 2×45 tons capacity container handling cranes.

(b) On the South shore, berthing facilities, 300 ft. bulkhead wharf with adjacent areas for TMT's roll-on/roll-off operations. Shoreside concrete ramp extending out seaward. Tug-barge operation, loading and unloading through bow and side ramps. Max. draft approximately 18 ft.

(c) Interisland Intermodal Inc. roll-on/roll-off shoreside ramp, barge-tug operation; loading and unloading at bow. Max. draft 18 ft.

U.S. Navy property under lease and operated by the Puerto Rico Ports Authority.

Pier 15/16: General cargo pier. Dry dock, floating dock, ship repairs, foundry. 1 wooden floating dry dock of 1,000 tons capacity. Floating crane 25 tons lifting capacity. 4 mobile cranes 45 tons capacity. Reinforced concrete graving dock. Fuel and water available. United States Navy installation under lease to Abarca Dry Dock and Marine Terminals for commercial ship repair and dry-docking operations. Bulkhead wharf and finger pier used by commercial vessels.

Puerto Nuevo Docks: Terminals "A" and "B" marginal wharves. 2×500 ft. berths. 102,000 sq. ft. transit shed area. 2 cargo sheds. 30 ft. depth alongside. General cargo piers. Limited open storage area.

Trailership Terminals: (3 at Isla Grande port zone, above, 10 at Puerto Nuevo port zone. Berths C, E, F, G, H, J, K, L, M and N and West side Army Terminal).

Berth "C": P.R. Maritime Shipping Authority's roll-on/roll-off terminal. Shoreside movable ramps for side loading and unloading. Extra wide pier platform, ample trailer marshalling yards. 30 ft. depth alongside, approximately.

Berth "D": 100,000 sq. ft. of transit shed space for break-bulk operations and cargo stripping. Marginal wharf 40 ft. wide, 600 ft. long. Ample cargo shed used for distributing cargo coming in trailers for different consignees. Ample trailer marshalling yard. 30 ft. depth alongside, approximately.

Berths "E", "F", "G", "H", "J", "K", "L", "M" and "N": 600 ft. each, continuous bulkhead wharves, lift-on/lift-off operation. Max. draft alongside 30 ft. Extra wide pier platforms. Ample trailer marshalling yards. Five 25 ton capacity pierside cranes are installed at Berth "E" to "H".

Army Terminal Pier: Finger pier; 3 berths. Approximately 50,000 sq. ft. transit shed area. East and West berths 600 ft. each. North berth 200 ft. Under the control of the Ports Authority. West side, ramp for roll-on/roll-off operation.

Isla de Cabras Pier: Explosives handling pier at Isla de Cabras. Ports Authority property.

Bulk Grain Handling Facilities: Berthing, silos and other shoreside installations for the receipt of shipments of bulk grains (Nebraska Mills, California Rice Mills, Red Seal, etc.).

STEVEDORES: Arranged by the ship's Agents.

MEDICAL: Medical attendance and services are available for seamen at the United States Marine Hospital in San Juan (out-patients). The Presbyterian Hospital handles internal cases.

TANKERS: Caribbean Oil Refinery pile clusters berth, max. permitted draft 33 ft.; Navy Oil Pier, max. permitted draft, 29 ft.

FRESH WATER: Most of the piers have adequate installations to supply water.

FUEL: Served in barges either alongside the vessel at the pier or at anchor. Other combustible liquids are delivered in tank trucks by Shell, Esso and Texaco.

REPAIRS: Abarca Dry Dock and Marine Terminals handles dry docking and major vessel's repairs. San Juan Shipyard and Marina, at Isla Grande, and Vaello Shipyard at La Puntilla, Catano, operate marine railways for dry-docking and repairs of small vessels. The Puerto Rico Lighterage Company handles minor ship repairs.

DEVELOPMENTS: 2 additional trailership berths are under construction at the Puerto Nuevo port sector.

GANGWAY/DECK WATCHMEN: Ship provides own gangway watchmen.

OPENING/CLOSING HATCHES: By stevedores.

IDENTIFICATION CARDS: Required to go ashore.

DOHA: 25.17 N. 51.32 E.

DOCUMENTS: The following documents will be required at this port:

Agents:

1 copy of the Arrival Report (Supplied by the Agent on boarding).
1 copy of the Crew List.
1 copy of the International Declaration of Health.
1 copy of the Passenger List (if applicable).

Port Health:

1 copy of Crew List.
1 copy of Dates and Types of Inoculations.
1 copy if the International Declaration of Health.

Immigration:

4 copies of Lists of Passengers Landing (if applicable).

Customs:

Bonded Store List (Bond will be sealed but issues are available).
Port Clearance Certificate should be procured before the vessel sails.

PILOTAGE: Application for a Pilot should be made through the Agent in Bahrain at least 24 hours before arrival.

Pilot station keeps a VHF watch 24 hours a day on Channel 16. Call sign DOHA PORT. Similar watch kept on R/T 2182 K/cs.

Pilot boat proceeds to the vicinity of the Doha Outer Buoy, position 25° 17′ 06″ N. 51° 41′ 26″ E. when the pilot is required. Pilot launches are painted white. When the vessel is underway the Pilot requires a pilot ladder complete with manropes. When the sea is calm and the vessel is at anchor the accommodation ladder may be used.

ANCHORAGES: Near the Outer Buoy and Southerly from it only. Min. depth of water 5 fathoms.

RESTRICTIONS: Compulsory pilotage for all vessels of 14 ft. draft or more. Naval vessels exempted. Depth of water in entrance is 27 ft. plus tide and the min. depth of water required under the keel for manoeuvring in the channel is 3 ft.

Max. draft for normal or average high waters is 28 ft. 9 in.

MAX. SIZE: Max. length 525 ft., max. breadth 75 ft. max. draft 28 ft. 9 in. Vessels of 560 ft. have been accepted in favourable conditions.

HEALTH: The International Flag signals for pratique must be flown and remain up until the vessel is cleared by the Port Health Authorities. A Port Health Official will board the vessel in the anchorage or at the Deep Water Jetty when the vessel is alongside. There is no automatic or radio pratique available.

RADIO: ETA and Agents messages should be routed through Bahrain Radio. Radio-telephone communications through Doha Port signal station. Calling and listening 2182 kHz. Working frequencies, 2638 kHz, 2738 kHz, 2570 kHz.

TUGS: One Government tug M. T. *Raiyan* Is normally available to assist in berthing operations . The only exception being when the tug is under repair.

BERTHING: Berthing alongside the Deep Water Jetty (30 ft.). It is 2,400 ft. in length and can accommodate four vessels at any one time with drafts of up to 28 ft. A further two berths may be constructed at a later date.

Normally berthing and unberthing to and from the deep water jetty is not at any time without certain reservations:

(*a*) Draft and trim of vessel.
(*b*) Height of tide.
(*c*) Visibility from Navigation Bridge.
(*d*) Prevailing weather conditions.

The duty Pilot has the option to berth or unberth a vessel at his discretion after consultation with the Senior Pilot, when the above mentioned conditions are unfavourable.

STEVEDORES: ETA advice is required on the number of gangs workable. Advance notice is required for any heavy lifts (say in excess of 10 tons) and the consignees name if possible as special arrangements have to be made for handling. Average discharge rate is 75 tons per hook day.

MEDICAL: Unless an emergency no advance notice is required. Hospital facilities do exist and a doctor will visit on request. Current Vaccination and Cholera Certificates are required.

DENSITY: The density of the water is salt (1025) at all states of the tide.

FRESH WATER: Fresh water is available in small quantities (50 tons) at the anchorage and larger quantities when alongside the jetty and is supplied by motor tankers.

FUEL: At present time no fuelling available.

GANGWAY/DECK WATCHMEN: The Public Security Department (Police) post a guard at each gangway, but it is advisable the ship also supplies a watchmen. Before landing *every* crew member must lodge his passport or seamen's identity card with the guard when alongside the jetty and at the dock Police Station when at the anchorage.

OPENING/CLOSING HATCHES: This work may be carried out by either crew or stevedores, but usually by the latter.

CUSTOMS ALLOWANCE: Qatar is "dry" and no official allowance is made. The bond is sealed on the ship's arrival.

CARGO GEAR: No additional requirements apart from those required by International Law.

IDENTIFICATION CARDS: Discharge Books or Passports are required to be handed to the Police before any crew member may proceed ashore.

CONSULS: The following countries maintain embassies in Qatar:

Iran
Great Britain
Saudi Arabia
Kuwait
Iraq
U.S.A.
Egypt
France
India
Jordan
Yemen
Netherlands
Tunisia

REPAIRS: Only minor repairs can be carried out. Metal-locking, bottom brushing and underwater welding.

REPATRIATION: Crew changes can be carried out. The Agents will require to know the names, discharge book or passport numbers and necessary information of dates, etc. well in advance for the authorities. Repatriation is normally by air, but Asian crews can be repatriated to Pakistan and India by sea.

AIRPORT: It is about 3 miles from the port to the airport. There are regular flights to Europe, U.K. and India by British airways, M.E.A. Air India, P.I.A. etc.

TIME: The standard time in Qatar is GMT plus 3 hours.

HOLIDAYS: The holidays in Qatar are usually religious and therefore fall on movable dates. As far as shipping is concerned there are only two days when work is not possible under any circumstances.

POLICE/AMBULANCE/FIRE: Police 4646; Ambulance 5151; Fire 5252.

TELEPHONES: Telephone available at the new Jetty. No. 25782.

GENERAL: Particular attention must be paid to:

(1)The Qatari flag must be flown at all times at the fore mast.

(2) Liquor is not allowed ashore and it is a serious offence to offer alcohol to a Qatari.

(3) Smoking is not permitted in any public places during the month of Ramadan.

SHORE LEAVE: Shore leave is permitted after the Immigration Authorities have cleared the ship and given permission, in writing, on the Crew List. Seamens' documents or passports must be deposited with the police at the gangway and retrieved on returning aboard.

DELAYS: The only delays that can be expected for berthing are on draft. No delay exists for vessels up to 22 ft. 6in. Over this delays may occur awaiting tides. Congestion delays for the discharge of cargo do occur from time to time but the max. that can be expected is 1/2 days.

AUTHORITY: Port Department, Ministry of Communications & Transport.

AGENTS: The Qatar National Navigation & Transport Co. Ltd., PO Box 153, Doha, Qatar, Qatar Arabian Gulf. Telex: DH 206. Tel.: 23864. General Manager: 22245. Shipping Manager: 21138. Cargo Supervisor: 21213. Cable address: "Navigation Dohao".

HALUL ISLAND: 25.38.55 N. 52.25.33 E. (See Plan)

Halul Terminal S.B.M.

Qatar national flag should be flown during hours of daylight.

DOCUMENTS: Master required provide 2 copies of crew list and show Light Dues receipt. All other necessary papers will be supplied on arrival, by Berthing Master.

PILOTAGE: Berthing Master will board incoming vessels in approximate position with Halul lighthouse bearing 270°×2.5 miles (that is to the Eastwards of the island) only. Vessels are requested *not* to pass to the Westwards or the Southwards of the island when approaching the anchorage or pilot cutter, as this is a hazardous area due to numerous underwater pipe-lines. Masters requested provide a good lee for the launch to facilitate boarding of Berthing Master and the lifting on board of equipment.

ANCHORAGE: To the Eastwards of Halul Island centred in a position with Halul lighthouse bearing 270°×2.3 miles. Depth about 80 ft. and bottom sand.

MAX. SIZE: SBM No. 1 up to 65 ft. draft (240,000 tons). SBM No. 2 up to 100 ft. draft (500,000 tons).

HEALTH: If sickness on board, details should be included in ETA message. No Doctor on Halul. In emergencies the services or advice of Company's Medical Officer based in Doha may be obtained. If Medical Officer or patient has to be flown to or from Doha, the tanker concerned will be charged for helicopter hire. Round trip is approximately £80.

RADIO: Vessels should establish communications with Shell Company of Qatar Ltd., Doha, at least 48 hours before arrival Halul Terminal, giving ETA local time and quantity of cargo required in metric tons. Message to "Shell Qatar Doha" via Bahrain Radio. Any changes in ETA should be passed via Bahrain Radio, or if within range through station "A7S" (see below).

A private radio station, call sign"A7S", operated by Shell Company of Qatar Ltd., situated in position 25° 17′ 12″ N. 51° 34′ 39″ E. A continuous listening watch maintained on 500 kHz. Incoming tankers should listen for the "A7S" traffic list which is transmitted on 438 kHz at 0400, 0800, 1200 and 1600 hours GMT after first calling on 500 kHz. Other details shown in Admiralty List of Radio Stations Volume 1.

A standard information cable is passed to all incoming tankers by station A7S (Alpha-seven-Sierra).

Ship's radio station must not be used while tanker moored to SBM.

VHF: A VHF station on Halul Island, call sign "Halul Control", maintains a continuous watch on the International Marine Band, Channel 6. The station has a range of approximately 50 miles and incoming tankers should establish communications with this station as soon as possible. Ship-to-shore communication during loading is by portable VHF Radio telephone provided by the terminal.

TUGS: Not available.

BERTHING: Approach is from the open sea, passing to the Eastwards of Halul. There are 2 single buoy moorings. Number 1 SBM in position 25° 39′ 00″ N., 52° 25′ 55″ E. fitted with 2×810 ft.×16 in. floating hose strings and connected to 1×30 in. shore submarine and one double 15 in.×150 ft. nylon floating mooring lines from the buoy. This berth will primarily accommodate vessels up to 120,000 d.w.t., but however, may be used for larger vessels if required. Loading rates of up to 8,000 cu.m. may be given. Number 2 SBM in position 25° 38′ 36″ N., 52° 27′ 35″ E. fitted with 2×885 ft.×24/20 in. floating hose strings and connected to 2 double 15 in.×150 ft. nylon mooring lines from the buoy. This berth will accommodate vessels of over 120,000 d.w.t. with up to a draft of 100 ft. Loading rates of up to 15,000 cu.m. will be given. In both berths, mooring lines from the buoys are secured on the forecastle head using equipment provided by the terminal. A suitable messenger rope should be ready for use. No moorings are used aft. The Berthing Master will advise in detail the mooring procedure.

Hose Connections: No. 1 SBM amidships port side 2×16 in. hoses. Hose derrick should be rigged to lift at least 5 tons and 2×16 in. reducers should be fitted on the port side only.

No. 2 SBM amidships, starboard, side 2×20 in. hoses. Hose derrick must be rigged to lift at least 10 tons and 2×20 in. reducers should be fitted on starboard side only.

Hose connection carried out by ship's personnel with advice from Berthing Master. Tankers *not* permitted to immobilise main engines or auxiliaries whilst moored to SBMs.

DENSITY: At berth, 1028/1030 (approximately).

CARGO: Flash point below 32° Fahrenheit.

H_2S content. Masters should refer to the International Oil Tanker and Terminal Safety Guide Section 1. 4. 2. on the subject quoted here for easy reference.

1.4.2. Hydrogen Sulphide – H_2S. Hydrogen sulphide has a disagreeable odour characteristic of rotten eggs which quickly deadens the sense of smell so that a dangerous concentration may be present which cannot be detected by odour.

If exposure to hazardous concentrations of this gas is likely to occur, appropriate safety precautions should be taken. Suitable respiratory protection should be available during ullaging and sampling.

The TLV is given as 10 p.p.m. but concentrations in enclosed spaces should be reduced as far below this level as practicable and if men are to work without breathing apparatus, a nil concentration should be achieved before entry is permitted and effective ventilation should be maintained.

On tankers regularly committed to the carriage of sour crude, H_2S gas indicators should be provided.

It is important to realise that the concentration of H_2S can be measured and expressed in two different ways.

the p.p.m. in the liquid, by weight;

the p.p.m. in the air, by volume.

Producing and processing departments at terminal often use the liquid measure for H_2S content, and this could be confusing to tanker officers who usually think of H_2S as expressed in air volume measure. There can be a vast difference between the two measures. The measure in air is higher and can be very much higher. For example, chemists have measured a concentration of 7,000 p.p.m. (deadly) in the vapour stream coming out of ullage opening when a tank is being topped off with a crude oil containing only 70 p.p.m. H_2S in the liquid. Therefore, it is of vital importance to appreciate that a sour crude can release a lethal concentration of H_2S into the air.

The following guide to the effects on exposed persons of various atmospheric concentrations of H_2S gives some indication of its dangers:

Measured in air by volume	
50 to 100 p.p.m.	Eye and respiratory tract irritation after exposure of 1 hour.
200 to 300 p.p.m.	Marked eye and respiratory tract irritation after exposure of 1 hour.
500 to 700 p.p.m.	Dizziness, headache, nausea, etc., within 15 minutes; loss of consciousness and possible death after 30 to 60 minutes exposure.
700 to 900 p.p.m.	Rapidly produces unconsciousness and death occurs a few minutes later.
1000 to 2000 p.p.m.	Death is apparently instantaneous.

Apparent death from H_2S is not irreversible as prompt and efficient artificial respiration may restore life.

The terminal should advise the Master if the cargo to be loaded contains H_2S in concentrations which cause the gases vented during loading to be hazardous if inhaled. When handling cargo with noticeable H_2S content or when ballasting after discharge of such cargo, it is recommended that the following precautions should be taken.

The officer supervising the operations should keep a sharp watch on personnel for signs of fatigue or distress.

Lifelines, breathing apparatus and resuscitator should be readily available.

Loading through the pumproom should be avoided where possible to reduce the possibility of H_2S contamination of the pumproom atmosphere.

Gas should be vented through the cargo tank venting system and, if open ullaging is necessary, the ullage plugs should be kept open only for a minimum period of time.

When ullaging tanks, personnel should work in pairs and stand at right angles to the wind direction in relation to the ullage opening.

Personnel should not enter a pumproom without first starting the ventilation, checking that there is no gas present, and without someone else standing by. If any gas concentration is recorded, a self-contained breathing apparatus should be worn.

Other spaces into which H_2S may have been drawn should be ventilated and checked before entry.

Persons overcome by H_2S should be moved to a gas free area immediately and artificial respiration should be administered at once.

Gas tests should be made on deck and in accommodations at regular intervals and particularly during the topping-off periods. If concentrations exceed 10 p.p.m. inside the accommodations or 50 p.p.m. on deck more than 10 ft. from a gas outlet, the loading rate should be adjusted and if this does not result in a decrease of the gas concentration, loading should be stopped until conditions have improved or other suitable measures are taken.

During discharge, the pumproom bilges should be kept dry.

During loading or ballasting operations, conspicuous notices warning of potential danger should be posted on deck and at pumproom entrance, and at the entrance to any other space which could be affected.

TIME: Local time is GMT plus 3 hours.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS/STORES/LAUNDRY: Not available.

TANK CLEANING: No facilities available and ships must arrive with clean ballast, lines and pumps.

CUSTOMS: Trading in liquor is *strictly* prohibited and no alcoholic drink should be offered to Arab nationals.

SHORE LEAVE: Not permitted.

AGENT: The Shell Company of Qatar Ltd.

UMM SAID: 24.54 N. 51.34 E. (See Plan)

DOCUMENTS:

Health Declaration.
Crew Lists.
Light Dues Receipt.
Other necessary papers supplied on arrival.

BUOYED CHANNEL: All vessels wishing to navigate the Umm Said buoyed channel must obtain prior clearance from Umm Said Control who can be contacted on VHF Channels 14 or 16 or by Telex via Bahrain Radio, addressed to Petroqat Umm Said. This precaution is essential to avoid unexpected encounters with deep-laden oil tankers.

APPROACHES:

Umm Said Approaches

Approach to Umm Said Terminal: With Halul Island peak astern steer 235° for a distance of 31.5 miles to (K) 'Kareinein' light buoy in position Lat. 25° 24′ 21.5″ N., Long. 51° 56′ 20.6″ E., thence 226°, 12 miles to (M) 'Mishut' light buoy in position Lat. 25° 15′ 55″ N., Long. 51° 46′ 48″ E.

From 'Mishut' light buoy steer 214° for a distance of 8 miles to (W) 'Wakrah' light buoy, leaving this light buoy on the port hand.

From 'Wakrah' light buoy steer 180° for a distance of 6.4 miles, to (H) 'Hul' light buoy leaving this buoy to port.

From a position of two cables West of (H) 'Hul' light buoy, steer 164° for a distance of 1.9 miles to pass between Nos. 1 and 2 Outer Channel buoys, thence 158° 30′ 0.3 miles to pass between Nos. 3 and 4 Outer Channel buoys, thence 178°, 0.9 miles to leave No. 6 Outer Channel buoy on port hand, thence 173°, 1.6 miles to pass between Nos. 7 and 8 Outer Channel buoys, thence 191° 30′, 1.6 miles to pass between Nos. 9 and 10 Outer Channel buoys, thence 176°, 0.8 miles to pass between Nos. 11 and 12 Outer Channel buoys.

From a position midway between Nos. 11 and 12 Outer Channel buoys, steer 157° for a distance of 2.2 miles, leaving 'S.E. Arrif' buoy on the starboard hand, thence 217° for a distance of 3.25 miles, leaving 'S. Arrif' buoy on the starboard hand.

After rounding 'S. Arrif' buoy, steer 335° for a distance of 1.7 miles, passing close West of No. 1 Inner Channel buoy, thence 003°, 1.1 miles, passing close East of No. 2 inner Channel buoy.

From a position close East of No. 2 Inner Channel buoy, steer 348°, 0.5 miles to pass between Nos. 3 and 4 inner Channel buoys thence 323° to round 'Turning' buoy, leaving this buoy on the port hand.

From 'Turning' buoy steer 264°, 2.7 miles to pass Northward of 'East Anchorage' buoy, thence about 250° for the anchorage.

The inward passage with cargo ships of moderate draft or light tankers, should present no difficulty.

Outward Passage: The reverse track is followed as for the inward passage described above.

Speed must be reduced before rounding the 'Turning' buoy and the passage in the Inner Channel must be made at slow speed to avoid increase of draft due to 'draw down' or 'heel under helm'.

The Outer Channel should also be taken at moderate speed to avoid 'draw down' and 'canal action' when passing close to shoal patches.

Charts: Admiralty Chart No. 3787 – Ras Abu al Mishut to Fasht al Arrif.

Admiralty Chart No. 3950 – Fasht al Arrif to Ras Laffan.

Depths: In the Outer Channel there are least depths of 37 ft. (11.28 m.) in the vicinity of Nos. 1 and 2 buoys, 3 and 4 buoys and Nos. 9 and 10 buoys.

Between the Outer and Inner Channel the depth varies from 40 ft. (12.2 m.) at Nos. 11 and 12 Outer Channel buoys through 72 ft. (22.0 m.) and 78 ft. (23.8 m.) between 'S.E. Arrif' and 'S. Arrif' buoys to 47 ft. (14.3 m.) close to No. 1 Inner Channel buoy.

In the Inner Channel the least depth is 38 ft. (11.6 m.) between Nos. 3 and 4 Inner Channel buoys.

From the Inner Channel to the Anchorage the depths vary from 43 ft. (13.1 m.) between the Channel and 'Turning' buoy to 48 ft. (14.6 m.) at the Anchorage.

Tidal Streams: In general the flood stream sets to the S.S.W. and the ebb stream to the N.N.E. the rate being up to two knots at Springs.

Cross sets will consequently be experienced in the channel, more particularly in the Northern part of the Outer Channel, between the Outer Channel and 'S.E. Arrif' buoy and between 'S. Arrif' buoy and the 'Turning' buoy. It should be noted that at the Outer Channel entrance the flood stream continues to set to the Southward for some time after the tide has started to fall.

Tides: The tides in this area have a large diurnal component and at times there is only one high water and one low water in the twenty-four hours. This irregularity is more pronounced at Umm Said than at the Outer Channel entrance for which predictions are made.

In December the higher high water, or the only high water during periods of single day tides, occurs between 0500 and 1400 hrs.; in March between 2200 and 0900 hrs.; in June between 1800 and 0100 hrs. and in September between 0900 and 2100 hrs.

At Umm Said there are a few days in the year when the tide does not rise above 5 ft. (1.52 m.) and there are considerable periods each day when the predicted height of the tide is greater than 3 ft. (0.91 m.).

In the vicinity of Nos. 3 and 4 Inner Channel buoys, High Water occurs about 1 hour after High Water at the Outer Channel entrance and the rise of tide is slightly more than at the Outer Channel entrance.

The Higher High Water is normally 5 ft. (1.52 m.) or better rising to 8 ft. (2.44 m.) at exceptional Springs.

Abnormal Meteorological conditions may affect all the above tides by ±2 ft. (0.61 m.).

PILOTAGE:

Inward: Except on special request Pilots are not provided for the inward passage. Tankers should proceed to Eastern Anchorage, having first received clearance from Umm Said Terminal to enter channel. This is to ensure that all outward bound vessels are aware of traffic movements in channel. Pilot will board incoming vessels at "W" Wakrah Buoy, if requested.

Outward: Compulsory.

N.B. It is requested that tankers of 40,000 d.w.t. and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft. above the water. This can be adjusted to suit conditions. A Pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable Pilot to ascend Pilot ladder clear of launch, and then step on to lower platform of accommodation ladder. Vessels should comply with the current U.K. Merchant Shipping (Pilot Ladders) Rules.

When automatic Pilot hoists are used a responsible English-speaking officer must always be in attendance.

Pilotage is compulsory for dry cargo ships bound for Umm Said anchorage. Pilotage performed by Doha Pilots.

ANCHORAGE: Eastern Anchorage. Depth 48 ft.

MAX. SIZE: Draft of laden tankers leaving Umm Said controlled by depth at outer end of Outer Channel. This is 37 ft. (11.28 m.) below Chart Datum and Zero of Predictions. Tide rarely falls below 1 ft. above datum, so that there is normally 38 ft. (11.58 m.) or more in the channel.

Even under worst weather conditions there is no appreciable movement on larger ships in Outer Channel. As deep-draft vessels always reduce speed between Nos. 3 and 4 Inner Buoys and in Outer Channel, there is very little "draw down". Deep-draft vessels should endeavour to pass between Nos. 1 and 2 Outer buoys at higher high water for the Outer Channel entrance.

In general, limitations are as follows:

- *(a)* Ships drawing 35 ft. (10.67 m.) or less can sail at any time on any day.
- *(b)* Ships drawing 36 ft. (10.97 m.) will rarely have to use tides.
- *(c)* Ships drawing 37 ft. (11.28 m.) will usually have to use tides.
- *(d)* Ships drawing 38 ft. (11.58 m.) always have to use tides.
- *(e)* Ships drawing 39 ft. (11.89 m.) will occasionally be neaped.
- *(f)* Ships drawing 40 ft. (12.19 m.) will be neaped 120 days + a year.
- *(g)* Ships drawing 41 ft. (12.15 m.) can sail occasionally. The best months are June and July.
- *(h)* Ships drawing 42 ft. (12.80 m.) are not worth programming as on the few days when predictions indicate they could sail, meteorological conditions may well cut the tides.

Underkeel Clearance: The following table stipulates the *minimum* underkeel clearance for vessels using the Umm Said Channels entering inward and departing outward.

Vessels up to 99,999 d.w.t.	—	3 ft. Clearance
Vessels from 100,000 to 149,999 d.w.t.	—	4 ft. Clearance
Vessels over 150,000 d.w.t.	—	5 ft. Clearance
L.P.G. Carriers (all sizes)	—	5 ft. Clearance

Navigation in shallow waters: The navigation of deep drafted vessels at high speeds in shallow waters introduces certain hazards. Pilot/Mooring Masters and Masters of ships should be guided by the following:

- *(a)* Due consideration should be given to the effect of draw down at speed on vessel's draft in shallow water, bearing in mind vessel's trim.
- *(b)* If possible, confirm actual height of tide against predictions and if not, bear in mind that after strong winds the actual height of tide may be reduced and extra caution must be exercised for a few days during and after bad weather.
- *(c)* Ensure accuracy of vessel's draft reading, including the midship drafts, having in mind the tendency of vessels to sag and the adverse effect of a small list.
- *(d)* Reduce to a minimum safe speed to pass over and near shoal areas.
- *(e)* Reduce to a minimum safe speed when negotiating turns in order to reduce heel under helm.
- *(f)* Note that list can mean an appreciable increase in draft.
- *(g)* When strong tidal streams are running across a channel, extra vigilance is required, and allowance made for set, particularly at reduced speed, to ensure vessel proceeds along mid-channel.

HEALTH: (Quarantine and Medical Clearance). The Medical Officer of Qatar Petroleum Company Ltd. will carry out these duties. Medical attention to Masters and crews of ships arranged by Qatar Petroleum Company's Medical Officer when asked for by Master.

RADIO: When advising their ETA ships must state their last port of call and if there is any sickness on board. If the last port of call is Bahrain or Ras Tanura, the previous port must be stated.

Vessels are requested to inform Petroqat, Umm Said by cable of their ETA at (W) Wakrah Light buoy and whether or not Pilot required, 72 hours and confirm 24 hours prior to their arrival. It should be clearly indicated that times quoted are in GMT. They should also state the quantity of cargo, in long tons, and the maximum loading rate required.

These cables should be addressed to Petroqat, Umm Said, and passed via the Bahrain Coast Radio Station.

VHF: The Umm Said Terminal is equipped to operate on five channels of the International Maritime Mobile Telephone Service as follows:—

Channel No.	Transmit Frequency mc/s	Receive Frequency mc/s
9	156.45	156.45
11	156.55	156.55
12	156.60	156.60
14	156.70	156.70
16	156.80	156.80

A continuous listening watch is maintained on Channels 16 and 14, the call sign being "Umm Said" and the range of station is approximately 50 miles.

Berth Radio Frequency: Tanker berthing/loading operations are carried out using Pocketfones on a frequency of 155.975 mc/s transmit and receive. These Pocketfones are classed intrinsically safe and also have the facility of use on Channels 14 and 16.

TUGS: Given sufficient prior notice a tug can usually be made available on request.

A mooring barge is available to assist in raising and connecting hoses.

BERTHING: Pilots act in same capacity as Mooring Masters in the berthing, after which they supervise raising of flexible hoses and connection to ship's manifold. During loading operation they act as company's representatives.

Vessel's crew are expected to assist with hose connecting.

Mooring, loading and unmooring carried out night and day and necessary standards of safety can only be maintained if vessels have equipment suited to terminal requirements.

North Berth is a Single Buoy Mooring in Position 24° 53′ 37.2″ N., 51° 34′ 54″ E. connected to the shore installation by a 36 in. submarine pipe-line. The seaward end of the pipe-line and buoy terminates in two 16 in. flexible hoses. Vessels are moored by a single hawser from bow to buoy.

The following equipment should be carried by each vessel:

(a) An 8 in. circumference × 120 fathom nylon hawser trailed by a similar hawser, ready to run out from the bow. Also 1 spare 8 in. × 120 fathom nylon hawser.

(b) 1 good boat rope 4.5 in. circumference at least 200 ft. long at portside.

(c) Derrick or crane rigged over the starboard side manifolds should be capable of lifting 16 in. float hose to a height of up to 30 ft. above deck.

(d) Reducers or adaptors to be bolted to 2 ship's flanges so as to take 12 in. hoses.

Warning: Ship's anchors must never be used within 0.5 mile of this berth or the 36 in. submarine pipe-line and must therefore be well secured at all times.

The South Berth consists of a Conventional Buoy Mooring, connected to the shore by a 24 in. submarine pipe-line. The seaward end of the pipe-line terminates in two 12 in. flexible hoses.

Following equipment should be carried:

(a) Port and starboard anchors to be fitted with marker buoys and sufficient line.

(b) 2 good boat ropes 4.5 in. circ., at least 200 ft. long.

(c) A good line by the Pilot ladder for hauling on board equipment such as hose clamps, wrenches, reducers and elbows.

(d) 4 good mooring lines aft, of a suitable size for the vessel on which they are used. Each line should consist of 120 fathom hawser, tailed by a similar hawser and ready to run out if required.

(e) 2 good mooring lines forward similar to the after lines for use on breast buoy if necessary.

(f) 2 good rope stoppers to be available forward. 4 good rope stoppers to be available aft.

(g) Derricks or cranes reaching over hose connection should be capable of lifting flexible hose from sea-bed to a height of up to 30 ft. above deck.

(h) Reducers or adaptors to be bolted to ship's flanges, so as to take 12 in. hose.

(i) Carpenters stoppers are provided on loan by Q.P.C. for use with Company's 4.75 in. wires and chain stoppers should not be used.

Note. Where a vessel has 2 or more loading connections, the ship's flanges should not be less than 4 ft. apart.

TERMINAL INFORMATION:

Berth	*Max. t.p.h.*	*Fixed sea-line*	*Overrall hoses*
North (SPM)	4,300	One – 36″	Two – 12″
South (CBM)	3,800	One – 24″	Two – 12″

Depth of water: Available depth of water at seaward end of sea-line is as follows:

North Berth (SPM) 65 ft. (19.6 m.)
South Berth (CBM) 44 ft. (13.41 m.)

An allowance of 8 ft. for South Berth has been made for height of sea-line end cradle above the sea bed.

Berth limitations:

North Berth (SPM) – Bow to manifold 550 ft.
South Berth (CBM) – Head North – All vessels under 900 ft.
Head South – All vessels under 1,100 ft.

After the vessel has been securely moored in berth, the hoses are lifted and connected to the ship's manifold.

The Mooring Master will not transmit any loading instructions to the shore until the officer-in-charge of the deck is satisfied that the hoses are connected correctly and that all valves have been set for receiving cargo.

While in berth, ships should be ready to move under their own power in the event of their breaking adrift, catching fire, fire in adjacent berths or other emergency. No repairs should be carried out while in berth which would immobilise the ship or impair her fire-fighting efficiency.

The Mooring Master will instruct the Master of the vessel as to any signals needed for local requirements.

The Mooring Master brings a portable radio to the ship.

The radio may not be used for private conversation. Use of the ship's radio while at the loading berth is strictly prohibited.

When loading is completed, hoses will be disconnected and lowered, under the supervision of the Mooring Master.

Ships will then proceed to an anchorage allocated by the Mooring Master or direct to sea.

L.N.G. Jetty: This is a 'T' type jetty with breasting dolphins flanked either side by two mooring dolphins. Water depth at the berth is 42 ft. Chart Datum.

BULK HANDLING FACILITIES: A Government Jetty has been constructed in Umm Said Bay connected to a Fertiliser Production Plant and grain mill. There are facilities alongside the quay for loading bulk urea and bagged urea; for loading refrigerated liquid ammonia; discharging bulk grain.

Vessels up to 60,000 d.w.t. may be accepted alongside.

The jetty is 700 ft. long, 100 ft. wide; the deck level being 20 ft. 3 in. above. Admiralty Chart datum. There is a least depth of 40 ft. alongside.

Government Pilots provide berthing assistance. See "Doha".

Operational Equipment:

Ammonia Arm: One 10 in. liquid ammonia loading arm and one 6 in. vapour loading arm at a fixed point serving the North berths.

Ship Loaders: 2 loading mobile machines (ship loaders) serving the whole of South side of the jetty, one of which is capable of loading bulk urea.

Grain Unloading: 6 unloading points for connecting 2 mobile grain unloading machines.

Conveyor: System for export of bagged and bulk urea and import of grain.

Crane: 10-ton swl dockside mobile crane serving the whole of the North side of the jetty.

CARGO:

1. Flash Point. Flash point of Qatar crude is below 32° Fahrenheit.

2. H_2S Content. Qatar crude contains concentrations of H_2S (sulphuretted hydrogen). This is an evil-smelling poisonous gas which can be lethal depending on concentration of gas in the air inhaled. It can be detected normally by smell, but unfortunately a high concentration of the gas rapidly paralyses sense of smell and may lead to a false sense of security. It is, therefore, important that when the presence of the gas is detected the area or compartment concerned must be left with all possible despatch until adequate ventilation can be carried out. *The explosimeter will not detect this type of gas.* The under-noted precautions have been evolved as necessary to provide against a possible accident.

(a) During loading gas should only be allowed to escape via the agreed venting arrangements.

(b) When ullaging tanks, personnel should keep windward of the tank opening and avoid breathing fumes as much as possible. If H_2S is inadvertently inhaled the man should leave the area and not return until his sense of smell has been restored.

(c) No one should enter any pump room or any compartment where gas could collect unless another person is standing. by.

(d) Lifelines, breathing apparatus and resuscitator should be readily available.

(e) As a precautionary measure, the gas ejector for the pump room should be put into operation at any time entry is made into this space whilst the possibility of H_2S gas entering pump room from cargo or empty tanks exists.

LOADING:

(a) Readiness. Notice of Readiness will be received by Company Representative provided vessel ready to load. Lay time will commence as stipulated in the export agreement between purchasers and vendors. A full cargo is deemed to be the maximum cargo which can be loaded in your ship at Umm Said consistent with safe underkeel clearance on sailing.

The Company will make every effort to load tanker on arrival provided berth available and weather permitting.

Advice from vessel which states she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard vessel has been completed. As soon as possible after such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship'sovalves ae not open at the start of loading. To prevent excessive pressure from surge to ship/shore connections, ship's valves should be operated slowly.

Full cargo is deemed to be the maximum cargo which can safely be loaded in the vessel at Umm Said. Completion of loading is subject to the normally accepted tolerances above or below the required cargo.

(b) Pipe-lines. Each berth connected to shore installation by 1 or 2 submarine pipe-lines. The seaward ends of pipe-lines terminate in 12 in. flexible hoses, there being 2 such strings of hoses at each berth.

(c) Tank Dips. When loading, dips shall be taken frequently of vessel's tanks, thereby preventing loss of oil through a leaking hose. This particularly applies at night, as seepage of oil is practically invisible on the water during darkness. Inspection of vessel's tanks will be made before loading commences by a ship's officer and a representative of the Terminal. Opening dips and closing ullages will be taken and the quantity of cargo calculated. Particular care must be exercised by ship's personnel, towards completion of loading, in the "topping-off" of tanks to ensure that Terminal given timely advice of any decrease in pumping rate required. Adequate "Stand-by" notice should be given before the final "Stop".

(d) Loading Pumps. Two 1,200 h.p. pumps are used to load crude oil and it is important to note that any rapid changes in the oil velocity may cause pressure surges in the loading system. A pressure surge may rupture the flexible hoses connected to your vessel spilling dangerous quantities of crude oil onto the decks or surrounding areas. To avoid these risks, valve operations and tank switching should be done with extreme care. Please ensure that 15 minutes notice is given for 'Slow Speed' and/or 'Stop' instructions.

BALLAST: When a vessel enters port waters in ballast, the ballast water for overside discharge must be clean and a declaration signed by the Master and delivered to the representative of the Terminal to this effect. Ashes, oil, oily water or other refuse must not be discharged overboard in port waters. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard whilst in port waters.

The attention of Masters is drawn to the volume entitled 'International Conference on Prevention of Pollution of the Sea by Oil' 1962 and subsequent publications issued by the International Maritime Consultative Organisation.

Vessels are subject to heavy fines and liabilities for claims arising from pollution of the sea and shore areas.

In Umm Said the 'load on top' system is normal procedure and Masters of all tankers are required to certify quantity of slops on board and their intention of 'loading on top'. If 'load on top' system is not used the Master will be required to certify adequate reasons for not doing so, e.g., vessel drydocked in last port, etc.

1. Essential that vessel is adequately ballasted to ensure safe handling and manoeuvring. Please comply with Mooring Master's requests as to ballast quantity and disposition.
2. Umm Said is an open roadstead and subject to sudden changes in weather. On occasions it is of great advantage to commence loading whilst discharging ballast or prior to completely deballasting to avoid having the vessel in a flying light condition.
3. No cleaning of boiler tubes whilst ship is in port.
4. All pump-room seacocks must be closed before commencement of loading.

FUEL: Bunkers not available.

FRESH WATER: Not available.

CUSTOMS ALLOWANCE: The State Laws of Qatar are very strict about the import of liquor and its consumption both on the mainland and on vessels in the harbour. Under special guarantees the Company is permitted to import a limited quantity of liquor for consumption by certain categories of senior employees only. No employee, whether senior or junior, is permitted to import any liquor direct or to bring any liquor ashore from vessels, and under no circumstances should liquor be offered for consumption on your vessel to any company employee unles he is of staff status. At the present time vessels enjoy the privilege of not having to seal their liquor stocks whilst in port, but you will readily appreciate that this privilege would be withdrawn if the above rules are not strictly observed. We invite your co-operation in ensuring that this rule is strictly observed whilst your vessel is at Umm Said.

REPATRIATION: Immigration/Transit facilities for arriving or departing ship personnel are good. Ample notice should be given on passport details to ensure minimum delay to travelling personnel.

DERATISATION: No facilities.

DISCHARGE CERTIFICATE: The Master of every vessel loading at Umm Said is handed a Discharge Certificate for completion by the Customs or Port Authority at port of discharge and return by air mail to the Director of Petroleum Affairs, Government of Qatar, Doha, c/o Q.P.C. Umm Said within 40 days of sailing from Umm Said. It must be emphasised that failure to comply with this requirement may result in delay or even boycott of the vessel upon return to Qatar. It is therefore in best interest to ensure that Agent at port of discharge attends to despatch of this certificate with least possible delay and by *airmail.*

AGENT: Agency carried out by Qatar Petroleum Company Ltd.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Reunion Island

POINTE DES GALETS: 20.55 S. 55.18 E.

PILOTAGE: Compulsory for all vessels of over 50.0 m. LOA. Pilot is normally ordered by ship's Agent, or in particular cases by the Harbour Master if contacted by VHF beforehand. Pilot launch carries regulation pilot signals. Pilot boards at the entrance to the port about 1 mile from the breakwaters.

APPROACHES: *Channel and Buoyage:* The leading line 102° 30′ for entry is determined by day, but 2 rectangular white signs, bordered in red with a thick black line denoting the centre line. At night the leading line is 2 red lights. In the channel the depth is 10 m., 70 m. wide and is buoyed by 4 spars, 2 on each side.

The leading marks for access to the North Port, South and Fishing Port, respectively 009°, 189° and 260°, are marked as shown below:–

North Port:– by day, 2 red rectangular signs, with a thick white line marking the centre line, at night, 2 fixed red lights.

South Port and Fishing Port:– 2 rectangular white signs with a black vertical line marking the centre line by day. 2 fixed green lights by night.

ANCHORAGE: There are 3 anchorages in the roads near the port.

(*a*) In Baie de St. Paul in depths of about 40 m., well marked and safe except in very strong swell.
(*b*) South of the port entrance in the immediate approaches, depths of 40 m., only used in fine weather and calm sea.
(*c*) In Roads of La Possession unmarked anchorage and little used.

If vessel requires a Pilot for anchoring, then anchorage dues are incurred. Vessels anchoring by their own means do not incur charges.

RESTRICTIONS: Manoeuvring is best done in the evening because during the day a wind can make movement difficult. The current in the channel varies in strength (between 1 and 2 knots) and direction. Its direction can only be determined by careful observation during the approach. As a consequence ships should be ready to anchor on instruction from the pilot while transitting the channel. Vessels swing in the outer port using starboard anchor.

MAX. SIZE: Under certain conditions, the topography of the port and jetties access is limited to the sizes below:–

North Port: length 160 m. width 22 m. draft 8.50 m.
South Port: length 180 m. if draft less than 7.50 m.
175 m. if draft less than 8.50 m.
160 m. if draft less than 9.00 m.
(On departure only)
Fishing Basin: length 55 m. draft 4.50 m.

Otherwise entry or departure will depend on the pilots advice. Normally entry only occurs at the following times depending on the season.

Maximum daylight 0500 hrs. – 1845 hrs.
Minimum daylight 0600 hrs. – 1800 hrs.

RADIO: Saint Denis Radio. Harbour Master's Office equipped with VHF. Call on Channel 16.

TUGS: Only used to assist vessel manoeuvring in the port. Tugs join vessel in outer harbour. Ship's lines always used.

BERTHING: Berth assigned by Harbour Master, basis vessel's length and draft. Tankers berth in the outer harbour at dolphin berth. No slop facilities.

Fore Port: (Channel: 70 m. usable width. Turning circle 270 m. Dredged to 10 m. Berth H, 170 m. long, dredged to 9 m.).

North Port: Access lock: 30 m. width, 9 m. depth.
Berth 1: 160 m. length, 8.50 m. depth.
Berths 2, 3, 4: total length 366 m., 9.00 m. depth.
Berth 5: 150 m. length, 8 m. depth.
Berth 6: (National Marine Berth) 140 m. length, 6 m. depth.
Berth 7: 210 m. length, 9 m. depth.

South Port: Berths 8, 9: Each 190 m. length, 10 m. depth.
Berth S: 120 m. length, 10 m. depth.

Fishing Basin: 6 berths, 70 m. length, 5 m. depth.

The depths above are dredged depths.

Facilities for handling 22 ton containers.

STEVEDORES: Normal working hours 0700–1700 hrs.

DENSITY: 1025.

FRESH WATER: Available by pipe-line at the quays. Rate 10 t.p.h. Not available at tanker berth.

FUEL: Large quantities available at berths Nos. 5, 8 and 9. Small quantities at other berths.

MEDICAL: Doctor and hospital facilities available.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally performed by ship's crew.

REPAIRS: Only minor repairs can be effected.

REPATRIATION: All facilities available for crew change and repatriation.

AIRPORT: 30 km. away, daily connections to Africa and Europe.

TIME: GMT plus 4 hours. No alterations during the year.

HOLIDAYS: Same as for "France".

SHORE LEAVE: Crew are allowed to go ashore.

AUTHORITY: Capitain du Port.

AGENT: SCAC La Reunion P.O. Box 705, 97474 Saint Denis De la Reunion, Tel. 21.01.32., Telex 37.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Romania

CONSTANTZA: 44.12 N. 28.41 E. (See Plan)

DOCUMENTS: As soon as vessel is boarded by the border control commission, the Master fills in a form of declaration in 4 copies, which together with Stowage Plan, Cargo Manifests, Sanitary Certificates, is handed to representative of the Agency. Also following documents are to be handed over at Harbour Master's Office:

Derating Certificate.
Certificate of Nationality.
Tonnage Certificate.
Safety Equipment Certificate.
Load Line Certificate.
Safety Radio-telegraph Equipment Certificate.
Ship's Register.
Safety Construction Certificate.

N.B. These documents will not be returned to the vessel until sufficent funds, in U.S. dollars, have been deposited by Owners to cover all vessel's disbursements.

Crew Lists and Passenger Lists must be typed in several copies (up to 7).

Purser's Report: August 1976.

The Authorities require all the ship's certificates, discharge books, health declaration, and vaccination certificates. At least 10 copies of crew list, personal declaration and 2 copies of stores list containing all items of foodstuff, bonded goods and canteen.

PILOTAGE: Upon arrival in roads, a cable must be sent through radio coast station to Agent, stating hour of arrival and asking for Pilot. If entrance is not possible immediately due congestion Agent will call back the vessel advising when Pilot may board near the port entrance in order to berth vessel.

A pilot is required for shifting in port, even for warping along the quay. Pilot-boat has black hull with "Pilot" in white on sides, and white upperworks. Pilots operate 24 hours a day on VHF Channel 14 only.

MINEFIELDS: Danger Area No. 3B (Constantza South). The area enclosed by the coast and by lines joining the following positions:

(a)	44° 09′.81 N.	28° 38′.25 E.	*(b)*	44° 08′.99 N.	28° 39′.96 E.
(c)	44° 08′.50 N.	28° 39′.96 E.	*(d)*	44° 08′.50 N.	28° 54′.01 E.
(e)	44° 00′.17 N.	28° 54′.01 E.	*(f)*	44° 00′.17 N.	28° 39′.88 E.

Danger Area No. 3A (Constantza North). The area enclosed by the coast and by lines joining the following positions:

(a)	44° 21′.79 N.	28° 41′.10 E.	*(b)*	44° 21′.79 N.	28° 52′.69 E.
(c)	44° 21′.14 N.	28° 54′.01 E.	*(d)*	44° 10′.19 N.	28° 54′.01 E.
(e)	44° 10′.19 N.	28° 42′.18 E.	*(f)*	44° 10′.48 N.	28° 42′.16 E.
(g)	44° 10′.99 N.	28° 40′.76 E.	*(h)*	44° 09′.77 N.	28° 39′.55 E.

ANCHORAGE: Anchorage areas in Constantza roads are just near the new port works in an area up to 44 ft. depth. Length and breadth have no special restrictions. Actual official permitted draft for tankers 30.6 ft. will be soon improved in new tanker berths. Constantza anchorage – East approach Nr. 2. Approach is between limits of Danger Areas Nos. 3B and 3A. Width 1.7 miles, length 15.3 miles, direction 270°–90°. Centre line joins following positions.

C1: 44° 09′.35 N. 29° 02′.20 E. At. 17.5 miles on bearing 91° 12′ from Constantza main lighthouse (nr. 1.5).

C2: 44° 09′.35 N. 28° 41′.00 E. At 2.25 miles on bearing 99° 12′ from Constantza main lighthouse (nr. 1.5).

On this approach non-degaussed vessels with a max. draft 12 m. may navigate.

MAX. SIZE: Vessels up to a max. draft 35 to 36 ft. may berth in Constantza. See "Tankers".

TUGS: Tugs normally join vessel near port entrance assisting them until berthing.

RADIO: Constantza coast radio station, call sign YQ1, frequency 462 kc/s. Operation – daily starting at 0650, 1250 and 1850 hrs. GMT.

TANKERS: 5 oil wharfs under construction capable of berthing tankers up to 80,000 d.w.t.

MEDICAL: Crew members are offered medical assistance on all working days between the hours of 0900–1200 and 1300–1700 hrs.

GANGWAY/DECK WATCHMEN: Watchmen recommended for special general cargoes. Cost will be arranged through Agent.

CUSTOMS ALLOWANCE: Small quantity permitted for each crew member out of bond but may be renewed if vessel stays longer in port.

REPAIRS: Largest dry dock in Constantza has 15,000 tons lifting capacity, second dock up to 8,000 tons.

TIME: Local time is GMT plus 2 hours.

HOLIDAYS: Official holidays in Romania: New Year's Days (1st and 2nd January); Easter Orthodox Monday (April); Labourer's Days (1st and 2nd May); Liberation Days (23rd and 24th August); Anniversary of Socialist Revolution (7th and 8th November); Christmas (25th and 26th December); Proclamation of the Republic (30th December).

STEVEDORES: Working hours 0800–1700 and 2000–0500 hrs. Saturday afternoons, afternoon of days before holidays, Monday mornings and days after holidays until 0800 hrs. usually exempted in C/P although work may be effected. Loading and discharging are generally effected by shippers and receivers, respectively at their own expense and they may work also on holidays, Sundays and Saturday afternoons, no overtime expenses being charged to the vessels for shore labourers but without payment of overtime to vessel's crew and without counting the time.

SHORE LEAVE: On completion of border inspection, crew can go ashore taking their Seaman's Books (or Passports) and the permits they receive from the soldier at the gangway. The permits must be returned to soldier upon coming back on board. In the event that crew members desire to visit another place outside Constantza they must inform Agent.

GENERAL: From the time a vessel enters the territorial waters of Romania until she leaves the respective zone, i.e. 12 miles, it is compulsory to fly the Romanian flag. Ships that call at Constantza for the first time and have not got the Romanian flag on board must have it ordered through the Agent immediately upon berthing.

SHIPMASTER'S REPORT: Rate of exchange is "Tourist Rate" which is approximately 3 times official rate. It is illegal to take Romanian money into or out of the country, any money which has not been spent must be returned to Agent in front of Customs when clearance is being given.

Any stages, gantlines or painting scows must be taken inboard at night. First opening and closing of hatches are for ship's account. Motor-boats operate a "taxi" service in harbour at a cost of 8 Lei per person per trip.

Bunkering barge *nr Monteoru* delivers oil at approximately 60 metric t.p.h. Control will only issue clearance after all cargo work, bunkering, etc., is completed.

At Mineral Berth iron ore is discharged by 2 large Gantry Cranes operating grabs, each working at approximately 200 t.p.h. Rate of discharge is frequently disrupted by shunting of railway trucks – 2 tracks serve five berths.

GENERAL: Following is an extract from "Notice to Sailors" issued by authorities at Constantza:

1. Crew members are required to observe international rules covering work protection, port sanitation and customs regulations, and in addition, Romanian law, both within the port and outside that area.

2. In order to avoid accidents concerned with port equipment, cranes, trucks, tractors and trains etc., crew members walking inside the port area are permitted to walk only on the main streets and between the berths where their vessels are moored, and/or to entrance/exit No. 1, the Navlomar Agency, the Harbour Station, the Navlomar tax-free shop or the Seamen's clinic.

3. Crew members are required to enter or leave the port area at gate No. 1.

4. Crew members are required to be back aboard their vessels by 0400 hrs.

5. Crew members wishing to visit other zones in the country are required to obtain a visa from the ship's Agent.

6. Transportation with the port by motor-boat which leaves the Harbour Station every fifteen minutes and calls at all berths in the port, is available subject to crew members being in possession of the proscribed ticket issued by ship's Agent and duly signed and stamped by the ship's Master.

7. The tax-free shop is located next to the Harbour Station. All purchases must be retained aboard under customs control until the vessel has sailed.

8. It is forbidden, either to bring-in or to take-out Romanian currency. Such currency is obtainable from Navlomar Agency at Master's request and for Owner's account. All Romanian currency remaining in crew members possession must be returned to the Master before sailing, and the Master is required to return the currency to Navlomar.

9. The port Polyclinic is available for medical attention to crew members at the following times: Monday, Wednesday and Friday, between 1300 and 1600 hrs. Tuesday, Thursday and Saturday, between 0800 and 1300 hrs. In cases of emergency, assistance is obtainable by telephoning 16528.

10. Crewmail and messages are delivered daily by ship's Agents, and outgoing crewmail is collected for despatch at the same time.

AGENT: Navlomar Shipping Agencies, Telex 014-259. Cables "Navlomar Constantza".

SULINA (including Galatz and Braila): 45.09 N. 29.39 E.

DOCUMENTS: Within maximum 1 hour from fulfilment of arrival formalities the Master or Chief Mate reports at the Harbour Master's Office where he hands the following documents:

Certificate of Nationality.
Tonnage Certificate.
Safety Equipment Certificate.
Load Line Certificate.
Safety Radio-telegraphy Equipment Certificate.
Safety Construction Certificate.
Cargo Gear Certificate.

The above certificates are to be valid and not to expire before ship's sailing the port, Load Line Certificate and Cargo Gear Certificate not to be older than 12 months, and same remain with the Harbour Master until ship's departure when returned through the representative of the Agency that accompanies the Control Commission on departure.

PILOTAGE: Notice of arrival to Pilot station at Sulina is to be sent in due time through Navlomar Sulina.

Sulina – S.E. approach nr. 5. Width 1.6 miles. Length 7 miles. Direction 146°–326°. Centre line joins the following positions:

S1: 45° 03′.01 N., 29° 53′.4 E. At 11.5 miles on bearing 124° 24′ from Sulina lighthouse (nr. 1.20).

S2: 45° 08′.9 N., 29° 47′.9 E. At 5.75 miles on bearing 95° 42′ from Sulina lighthouse (nr. 1.20).

Thence on the No. 01 Sulina black light and whistle buoy, and afterwards on the line of Sulina Entrance leading lights (301° 12′) into Sulina Channel and so to harbour. On this approach non-degaussed vessels with max. draft 7 m. may navigate.

The port of Galatz is situated on the left side of the Danube 79 miles from the Black Sea.

RESTRICTIONS: Vessels calling at Danube ports are obliged to wait in roadstead of Sulina, at least 1 mile away from the black buoy (a black floating cylinder marked 01 in white, which is lighted at night by green flashing light). All vessels both entering and going out of Sulina channel as well as during navigation in the channel and Danube, are obliged to have on board a Danube Administration Pilot. As a rule, entering and leaving the Sulina channel, as well as navigation in the channel, is prohibited after night-fall.

MAX. SIZE: The draft at Sulina bar is 23 ft. passable. Any other changes of official draft are broadcast daily, at 1150 hrs. on 1935 m. long wave. Galatz: Max. passable draft River Danube is 23 ft. (7.01 m.) for vessels up to 180 m. LOA.

MINEFIELD: Danger Area nr. 7 A (Sulina). The area enclosed by the coast and by lines joining the following positions:

(a)	45° 13′.27 N.	29° 40′.42 E.	*(b)*	45° 11′.77 N.	29° 41′.42 E.
(c)	45° 09′.17 N.	29° 57′.22 E.	*(d)*	45° 07′.37 N.	29° 57′.22 E.
(e)	40° 03′.07 N.	29° 54′.82 E.	*(f)*	45° 03′.07 N.	29° 39′.34 E.

CLEARANCE: On arrival in Sulina harbour vessel has to stop to complete border and sanitary formalities and after vessel has completed same, with Danube Administration Pilot on board, proceed to destination. After the vessel has completed manoeuvring to come alongside berth, she is boarded by the sanitary commission. If the vessel has passed the sanitary inspection she is boarded by border control commission which includes a representative of the Agency, the latter assisting the Master in fulfilling arrival formalities and facilitating meeting of any requirements on ship's part. The Master fills in a form of declaration in 3 copies which together with the Stowage, Plan, Cargo Manifest, etc., are handed to representative of the Agency upon his leaving ship. A supplementary declaration is to be completed by the Master, stating: 1. Who supports disbursements expenses (name, mail address, telegraphic address, number of telex). 2. Who supports the supplies of bunkers, provisions other services, etc. (name, mail address, telegraphic address, number of telex).

RADIO: Constantza – coast radio station. Call signal YQ1, frequency 462 kc/s. Operation daily, starting with 0650, 1250 and 1850 hrs. GMT. Contents of transmission: meteorological and navigation notices. Weather forecasts are broadcast in clear English or codified; radio notices to mariners and navigation warnings are broadcast in Romanian, Russian and English.

BERTHING: After arrival in Galatz roads and port Pilot boarded, the berthing of the vessel is done as ordered by the Port Authorities according to the possibilities of operation (loading/discharging) and to the availability of berths.

MEDICAL: Crew members are offered medical assistance if necessary when the Master requests, and they have to come to the Agency Office between 0800 and 0900 hrs. every day, except Sundays and holidays.

STEVEDORES: Working hours: 0700–1500 and 1500–2300 hrs.

CUSTOMS ALLOWANCE: For releasing cigarettes from Customs seal it is necessary to notify the Agent who, in turn, will arrange with the Customs House. Attention is drawn to the fact that bringing into or taking Romanian currency out of the country is prohibited. According to requirements of crew, the Master gets from Agent any sum of Romanian currency. The respective sum is charged in the disbursements account at official exchange rate +200% premium granted to seamen. Before departure from port the Master is obliged to return to Agent the sums of Romanian currency unspent against receipt. The sums are returned in front of the representative of the Customs during the control for departure.

OPENING/CLOSING HATCHES: Opening and closing of the hatches is to be performed by crew whenever requested due to weather conditions.

CARGO GEAR: Rigging of derricks, the good working condition of the winches and derricks, are permanent obligations of the vessel according to requirements of working gangs. The hatch ways must be opened or closed to their full size. The removable beams or covers shall always be stowed on deck on the side where work is not being carried on, so that they may not hinder working gangs or cause accidents. During operations, the vessel is recommended to close the hatches with rain tents, ship's property, if bad weather. If cargo handling gear gets out of order during operations, the waiting time of workers is charged against vessel and such time lost for breakdown of winches not to count as laytime.

SHORE LEAVE: On completion of border inspection crew can go ashore taking their Seamen's Books (or Passports) and the permits they receive from the soldier at the gangway. The permits must be returned to the soldier upon coming back on board. In the event that Crew members desire to visit another place of Galatz they shall inform the Agent.

GENERAL: From the time a vessel enters the territorial waters of Romania until she leaves the respective zone, i.e. 12 miles, it is compulsory to fly the Romanian flag. Ships that call at Galatz for the first time and have not got the Romanian flag on board must have it ordered through the Agent immediately upon berthing at Sulina Harbour. Throwing garbage overboard or pumping out dirty ballast or bilge water is allowed only beyond the territorial waters of Romania. Non-observance of these rules may result in fines varying between 3,000 and 10,000 lei imposed by the Harbour Master.

AGENT: Navlomar Shipping Agency.

Galatz: 20, 13 Junie. Telex 225. Cables "Navlomar Galatz".
Braila: 2 Imparatul Traian. Telex 10. Cables "Navlomar Braila".

St. Lawrence Seaway

ST. LAWRENCE SEAWAY (See Plan)

DOCUMENTS: For Agent in Montreal, 3 unfreighted copies of Complete Manifest for Seaway Toll purposes covering all cargo to be discharged in the Great Lakes.

The St. Lawrence Seaway Authority requires one Transit Declaration Form. Also for cargo to or from overseas one unfreighted copy of the complete Manifest is required.

In first U.S. port, a "Traveller" is made up by the Customs Inspector with the following documents:

2 complete sets of U.S. Cargo Manifests, plus 6 copies for Agents.
1 set Manifest of Cargo for first U.S. port.
4 Stores Lists.
4 Personal Effects Lists.
4 Firearms and Ammunition Lists.
4 Crew Lists, Form 1–418.
4 Narcotics Lists.
4 Vessel's Itinerary Lists.
Vessel's Registry and copies of Paid Tonnage Tax Certificates.
Health Pratique.
Clearance from previous port.
2 sets Bills of Lading.
3 copies Stowage Plan.

In subsequent U.S. ports the following are required:

5 sets Manifest of Cargo for that port.
The Traveller and Permit to Proceed issued in previous port.
2 Stores Lists.
2 Personal Effects Lists.
2 Firearms and Ammunition Lists.
2 Crew Lists.
2 Narcotics Lists.
2 Sets Bills of Lading.
3 copies Stowage Plan.

Vessels navigating St. Lawrence Seaway are required to complete applications for:

(1) Certificate of financial responsibility.
(2) Certificate of Insurance, form FMC 225,
(3) Oil discharge assurity Bond, form FMC 226,
(4) Guarantee in respect of liability for discharging oil, form FMC 227.

These applications have to be filed with the Secretary of the Federal Maritime Commission before a certificate is issued. The oil pollution liability certificate should be retained aboard the vessel.

ICE ADVISORY SERVICE: Ships inbound from seaward between December 15th and April 15th should advise the Ice Information Officer, Sydney, 36 hours prior to entering Cabot Strait, stating their position, destination, whether loaded or in bulk. This procedure will facilitate the passing of ice information to the ship as necessary. Ice information is also available from radio stations at Halifax, Seven Islands, Wirringate and Grindstone. The Canadian Broadcasting Corporation Maritime Network also broadcasts ice information daily during the winter navigation season. Supplementary ice information may also be obtained from the Canadian Marine Service Icebreakers.

During the ice season, radio broadcasts of ice information are made twice daily from Marine radio stations as follows: Cape Race, Newfoundland; Fox River, Quebec; Mont-Joli, Quebec; Halifax, Nova Scotia.

PILOTAGE: The first Pilot station when entering the St. Lawrence River is at Les Escoumins, 80 miles West of Father Point. This Pilot will take the ship to the Quebec Pilot station 121 miles to the West. Off Quebec a new Pilot boards to take the ship to Trois Rivieres, where there is another change of Pilot for the remaining trip to Montreal.

Pre-clearance: Vessels intending to transit the St. Lawrence Seaway must be pre-cleared by a representative who shall assume responsibility to the authority for payment of all tolls and charges to be incurred.

Application for pre-clearance Form SLS 429 may be obtained from the St. Lawrence Seaway Authority, Cornwall, Ontario, or from the St. Lawrence Seaway Development Corp., Massena, New York.

RESTRICTIONS: The average navigation season in the Montreal–Lake Ontario section of the St. Lawrence River is from April 1st to December 18th.

Locks Nos. 1 to 7: length 860 ft., width 80 ft., depth 30 ft., channel depth 27 ft.

Welland Canal Locks: No. 1: length 865 ft., width, 80 ft. Nos. 2 to 7: length 859 ft.; width, 80 ft. No. 8: length, 1,380 ft.; width, 80 ft.; channel depth 27 ft.

St. Mary's River Locks: MacArthur: length, 800 ft.; width, 80 ft. Poe: length, 1,200 ft.; width, 110 ft.; depth, 32 ft. Davis: length, 1,350 ft.; width, 80 ft. Sabin: length, 1,350 ft.; width, 80 ft. Canadian: length, 900 ft.; width, 59 ft. The channel depth (lower end) to the Canadian Lock is 20 ft., with a normal depth of 18 ft. 3 in. over the sill. As Easterly gales raise, and Westerly gales lower the water levels below the Lock temporarily, it is recommended that Masters of larger vessels ascertain the available depth from the canal office prior to locking.

Speed Limits: 10 m.p.h. upbound, 12 m.p.h. downbound in the Beauharnois Canal; 9 m.p.h. Port Weller Harbour and Welland By-Pass Channel; 7 m.p.h. in all other canals. The speed limits vary from 10 m.p.h. to 18 m.p.h. in most remaining sections of the St. Lawrence River; Lower Detroit River 12 m.p.h.; St. Clair River 9 m.p.h. to 12 m.p.h.; St. Mary's River 10 to 15 m.p.h. Speed limits are detailed in a seaway notice issued early in the year.

MAX. SIZE: Length 730 ft., beam 75 ft. 6 in., draft 26 ft. Masts must not exceed 117 ft. above water level.

HEALTH: All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels entering the Seaway direct may receive quarantine inspection and clearance from the Canadian authorities at Montreal while at anchor awaiting entrance to the Seaway.

RADIO: *Notice of Arrival.* Master must give at least 24 hours notice to commander, 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also at least 24 hours notice of ETA at first U.S. discharge port is required.

Welland Canal: Whenever an approaching vessel arrives at calling-in-point (CIP) 15 or 16 it must call Seaway Welland on Channel 14, 156.7 mHz. It shall inform the Traffic Control Centre of its destination. The Traffic Controller will obtain the particulars required before transit is permitted and will give the necessary dispatch information to the vessel.

Great Lakes: It is recommended that vessels within a radius of 35 miles of a shore station use their FM transmitting and receiving equipment to ensure better connections. This pertains especially to vessels at anchor or in the proximity of a port or berth.

Radio Stations: Buffalo, New York, marine operator. Port Burwell, Ontario, marine operator. Geneva, Ohio, marine operator. Loraine, Ohio, marine operator. Rogers City, Michigan, marine operator.

IDENTIFICATION CARDS: In the first U.S. port, the immigration officer requires an alphabetical crew list made up on Form 1–418 and visaed by the American consul in the last overseas port. This crew list should contain the name of every crew member on board. Also needed are 3 copies of this crew list on the same form. The Immigration Officer will require all seamen's books and passports, to issue the completed crew landing permits made out on Form 1–95A. The Master will be given a crew list receipt which will indicate the names of crew members detained on board, if any. In case a crew member is detained on board, he cannot go ashore, and at irregular times an officer of the Immigration Service will check if the crew member is on board. A fine of $1,000.00 will be imposed on the vessel for each detained Crew member who is not on board.

TUGS: Whistle signals differ from those in international usage and are as follows:

1. Ship to Tug: 1 Long and 1 short (—.) = ship ready to proceed, O.K. or all right. 1 Long and 2 Short (—..) = let go the bow tow-line. 1 Long and 3 Short (—...) = let go the stern tow-line.
2. Both Ship to Tug and Tug to Ship: 1 Short(.) = work propeller ahead when stopped, *or,* stop propeller when working, either ahead or astern. 2 Short (..) = work propeller astern. 3 Short (...) = slow down or check. 4 Short (....) = work propeller strong in the same direction it is working at the time the signal is blown. 5 or more Short blasts (.....) = the standard danger signal.

SEAWAY EQUIPMENT: *Radio-telephone Equipment:* All vessels, other than pleasure craft of less than 65 ft. in overall length, must be equipped with VHF radio telephone equipment, in addition to the FM equipment otherwise required. The radio transmitters must have sufficient power output to enable the vessels to communicate with Authority Stations from a distance of 30 miles and must be fitted to operate from the wheelhouse and to communicate on 156.55, 156.6, 156.65, 156.7 and 156.8 mc/s.

Stern Anchors: Every vessel of more than 350 ft., the keel of which was laid after January 1, 1975 is required to be equipped with a stern anchor.

Propeller Direction in Alarms: Vessels in excess of 260 ft. in overall length shall be equipped with propeller direction and shaft r.p.m. indicators or visible and audible wrong-way propeller direction alarms located in the wheelhouse and in the engine-room.

Sewage and Galley Waste Disposal Systems: Sewage retention tanks and galley waste grease traps are required for vessels not otherwise equipped with containers for ordures. At Montreal, or at Port Colborne, vessels without retention tanks intending to call at Chicago must put on board chemical toilets which are offered for rental by 2 chemical companies. 2 to 10 chemical toilets are required for each ship at a rental charge of $75.00 each per trip into the Lakes.

Oily Water separators: Vessels which cannot contain waste oil products are required to be equipped with oily water separators or other such equipment for the extraction of oil products from waste water before discharge.

Rudder Angle Indicators: Vessels in excess of 260 ft. in overall length shall be equipped with rudder angle indicators located in the wheelhouse.

Gyro Compass: It is recommended that vessels be equipped with a gyro compass.

Radar Equipment: It is recommended that vessels be equipped with radar.

Vessels not fitted for the Seaway as prescribed above, will incur expenses for the rental, installation and removal of compulsory fittings.

REGULATIONS: For additional information on regulations and procedures, Masters and Owners are urged to refer to the Seaway Handbook and Seaway Notices.

AUTHORITY: The St. Lawrence Seaway Authority.

St. Pierre and Miquelon

ST. PIERRE: 46.47 N. 56.10 W. (See Plan)

DOCUMENTS: Formalities completed on arrival. Advise Port Service beforehand of vessels ETA, length, tonnage and draft.

Declaration of Health.
Derat Certificate.
2 Crew Lists.
2 Passenger Lists.
2 Cargo Manifests of any cargo to be discharged.
2 Crew Declarations (tobacco, liquor, souvenirs).
Certificate of Registry.

PILOTAGE: Contact Pilot 1 hour before arrival calling TXU by radio telephone on 2182 kc/s. or VHF Channel 16. Permanent watch kept. Pilot boats equipped with VHF Channel 12, radar, and radiotelephone. Pilot launch available at entrance to N.E. channel in position 46° 48' N. 56° 08' W. in the vicinity of the Land Fall Buoy.

Pilot launch named *Radar*, length 45 ft. The hull is black and superstructure white with "Pilote" painted on each side. Pilot launch carries the International Signals for pilot launch day and night.

When the weather is bad contact Pilot on Channel 12 for instructions.

Pilot is compulsory for vessel of 150 g.r.t. and over.

ANCHORAGE: In the roads, depth 13 m., not secure in strong East winds.

Shipmaster's Report: The anchorage in the roads where fish is loaded ex-trawlers is absolutely not secure, even with moderate winds from any direction, and engines should be on stand-by continuously. Several ships have gone on the rocks in a matter of minutes.

MAX. SIZE: Max. draft 8 m. New Port: max. length 110 m. Old Port: max. length 70 m. Channel depth 5 m. below chart datum.

HEALTH: If suspected disease on board contact St. Pierre Health Service, tel. 279.

Masters of vessels arriving at St. Pierre may obtain free pratique via TXU. Message to be sent to Harbour Master Saint Pierre 12 hours before arrival.

In the message the Master has to specify name of vessel, total number of crew member,. where ship coming from, and if everybody on board healthy; in these conditions flag "Q" is not necessary on arrival, but if any suspected disease or fever on board, advise Health Authority as well as Agent, and stand by instructions for berthing. Flag "Q" has to be flown on arrival in the roads.

RADIO: St. Pierre Radio, call sign TXU, receiving on 2182 kc/s. transmitting on 2410 kc/s.

Masters of vessels arriving are requested to send their ETA to Harbour Master Saint Pierre 12 hours before arrival and corrected by a further message if necessary. The ETA should be GMT. Also advise maximum draft and length.

Saint Pierre Radio is equipped with VHF Channels 16, 24 and 26 and maintains permanent watch on Channel 16.

TUGS: No tugs available but the pilot launch (230 h.p.) will assist on Master's request.

BERTHING: Mole du Commerce; length 170 m., depth alongside 8.50 m.

Quai de Peche: length 135 m., depth alongside 6 to 7 m.

Mole Frigorifique: 3 berths, No. 1; 120 m. length, 7 m. depth. No. 2; 85 m. length, 6 m. depth. No. 3; 120 m. length, 5.5 m. depth.

Old Port: Quai de la Douane: length 123 m., depth 6 m.

Quai de l'Alysse: length 50 m., depth, 6 m.

Pilot will inform Master of berthing prospects and any special requirements.

STEVEDORES: ETA notices are to be sent to Agent 24 hours prior arrival. Stevedore in Saint Pierre is Paturel Freres (tel. 604 and 295). Cable Address "Reltupa Saint Pierre". Telex Reltupa 20 QN.

Approximately 100 men are available for working on board vessels when loading/discharging or transhipping in the port. Crew are allowed to work only when no gangs are available.

One normal shift 0730 to 1600 hrs. every week-day, Saturday 0730 to 1200 hrs.:

Day overtime, Saturday 1200 to 1600hrs.
Night overtime, every day after 1600 until 2400 hrs.
Extra overtime, night after 2400 until 0700 hrs., and Sundays and holidays.

Work done with ship's derricks.

It is requested that a net be put under the gangway before starting work.

Pallets, slings, fork-lift and crane (5 tons) available at a charge.

TANKERS: 1 berth alongside dolphins in depth of 8.50 m.

MEDICAL: All facilities available.

FRESH WATER: Available at berths. Supplied by hoses, rate 25 cu.m./hr.

FUEL: Only diesel oil SG 825/840 at 15° C available at all berths.

OPENING/CLOSING HATCHES: Normally carried out by crew.

IDENTIFICATION CARDS: Each man to carry passport or seamen's book.

CONSULS: Local representatives for Canada, Netherlands, Norway, Portugal and Spain.

REPAIRS: Small repairs can be effected. Floating dock, capacity 750 tons, for vessels up to 13 ft. 6in. draft.

REPATRIATION: Can be arranged.

TIME: GMT minus 3 hours all the year round.

AMBULANCE: Telephone: 279.

AIRPORTS: Connections from St. Pierre to Sydney (Nova Scotia) International Airport.

TELEPHONES: Not possible to place telephones on board. It is possible to contact the shore on Channel 16 via Saint Pierre Radio.

SERVICES: Compass adjusting, radar repairs, radio, Decca, Loran and gyro-compass repairs and maintenance possible.

AUTHORITY: Officier de Port.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Samoa

APIA, Western Samoa: 13.50 S. 171.45 W.

DOCUMENTS:

1 Clearance from previous port of call.
3 Crew Lists.
3 Passenger Lists.
2 Health Documents.
1 Manifest.
Bills of Lading.
Ship's Papers (stores and poisons).

PILOTAGE: 24 hours ETA is required. Pilotage is compulsory for merchant vessels. Pilot boards 1.5 miles outside harbour on line of leading beacons. Pilot boat painted white with red awning. "Pilot" written on both sides of wheelhouse in brass lettering.

By night, in addition to usual navigation lights, Pilot boat carries standard identification, i.e. a red light on foremast with all-round visibility. Exemption from pilotage may be granted to Masters of vessels trading regularly to Apia, but pilotage dues are still payable.

ANCHORAGES: In 20 fathoms outside a line drawn between the 2 reefs and preferably on line of leading beacons. Bottom is coral.

RESTRICTIONS: No night-time or tide restrictions. Turning basin dredged to 36 ft., extending to 1,200 ft. from each end of the wharf. Arrivals preferred during daylight hours.

MAX. SIZE: Shore bollards to take stern and bow lines for vessels up to 800 ft. in length. Maximum draft 35 ft. Maximum length 600 ft. if moored to buoy. No limit to beam. Tankers only use the buoy.

Present arrangement for tankers not considered satisfactory now that there is a wharf. Oil companies are considering an alternative arrangement.

HEALTH: Doctor boards vessel on arrival.

RADIO: Signals to incoming ships by radio or radio-telephone from Apia radio station 5WA. For radio, ships should call on 500 kc/s. and operate on 483 kc/s. For radio-telephone, ships should call on 2182 and operate on 2162 or other available frequency as may be arranged once contact has been established. Apia maintains continuous service. Call sign "Apia Radio" repeated.

Apia radio maintains continuous service, and the Port Administrator and Harbour Master can be called on Channel 16 during normal working hours. The tug and pilot launch also operate on Channel 16 and all can switch to Channel 14 or 12 on request.

TUGS: 2 tugs available, *Pualale*, 460 h.p. and *Savaii*, 400 h.p.

BERTHING: Small charge made for use of hawsers and moorings. Export Wharf – reinforced concrete wharf 604 ft. in length on the East side of inner harbour. Maximum draft alongside 36 ft. All loading and discharging is carried out with ship's gear. No wharf cranes available. This wharf and all surrounding areas enclosed by fence is Customs area and all vessels trading to or from places outside Western Samoa must depart from or arrive at this wharf.

Buoy – 1 mooring buoy (red with white top) for use by tankers only. Usual to moor to buoy by the stern, using 2 wires and not less than 2 ropes. Length of moorings will be advised by Pilot or Harbour Master having regard to sea conditions and interval between swells.

New wharf 604 ft. long, vessels up to 700 ft. may be berthed.

STEVEDORES: Arranged by ship's Agents.

MEDICAL: Advance notice to Agents preferable. No private doctors but good general hospital where seamen may be admitted.

TANKERS: Shell, Mobil, and B.P. operating in Samoa, and have own discharging facilities. Tanker terminal situated on West reef. Vessel's stern moored half way between reef and buoy. Discharge line is 6 in. diameter. Launch service may be provided between ship and shore at a small charge.

TIDES: Mean high water intervals 6 hrs. 27 mins., Spring range 3.2 ft., mean range 2.6 ft. Tidal stream normally slight, but after heavy rain outflow from rivers and streams can cause it to become quite strong.

The current across the harbour entrance about 600 m. off the reef can be variable, but is predominantly Westerly and velocities up to four knots have been reported but this is not normal.

FRESH WATER: Available at wharf from shore installation.

FUEL: Only light diesel fuel available.

FIRE PRECAUTIONS: Fire services available on wharf, station is 0.5 miles distant.

GANGWAY/DECK WATCHMEN: Recommended and available.

OPENING/CLOSING HATCHES: Opened and closed by stevedores.

CUSTOMS ALLOWANCE: No enforcements.

IDENTIFICATION CARDS: Not needed.

CONSULS: The New Zealand High Commissioner represents all British subjects; French Consul, tel. 156.

REPAIRS: Minor repairs only.

AIRPORT: 25 miles from Apia on Western side of Island. Regular and frequent mail and passenger services.

TIME: GMT minus 11 hours. No alteration to clocks.

HOLIDAYS: No cargo on Sundays between 0300 and 2100 hrs. The recognised holidays are Christmas, New Year, Boxing Day, Good Friday, Easter Monday, Whit Monday, Anzac Day and Independence holidays from 1st June to 3rd June.

TELEPHONES: Police and public telephones near wharf and provisions are available for telephone connection to tourist vessels berthed at the wharf.

POLICE/AMBULANCE/FIRE: Hospital 364; Police 390; Fire 200.

GENERAL: *Supplies:* Provisions available. Deck and engine room supplies can be obtained in limited quantities.

Divers: No divers other than scuba divers are available, and skin divers may be recruited for up to 50 ft. diving.

Oil Pollution: The pumping of bilges, etc., within harbour limits is not permitted and *heavy penalties will be imposed for any breach.*

Garbage Disposal: The dumping of refuse of any kind within harbour limits is strictly prohibited. Properly covered receptacles will be made available and rubbish disposal vans will clear them as necessary. A small charge will be made for this service.

AUTHORITY: Port Administrator and Harbour Master.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Saudi Arabia

TRAVEL FROM BAHRAIN: Travel is permitted from Bahrain to Saudi Arabia, *provided* travellers *(a)* hold a valid International Vaccination Certificate showing that the holder was immunised at least 5 days before travelling to Saudi Arabia, but not more than 3 months previously; *(b)* that any traveller proceeding to Saudi Arabia from Bahrain should have taken the prescribed doses of Tetracycline over the 48-hour period immediately before travelling. The fact that the passenger has taken the Tetracycline should be certified by the Bahrain Health Department.

DAMMAM: 26.30 N. 50.12 E.

LOCATION: Situated on the East coast of Saudi Arabia, in the Arabian Gulf, is operated by the Saudi Government Railroad.

FLAG: In addition to the quarantine signals which are to be shown until pratique is granted, the Saudi Arabian Flag must be flown from vessel's foremast while in port of Dammam.

DOCUMENTS: In order to cope with Port, Customs and Agent's requirements, following documents should be airmailed to Agents prior to arrival of vessel at Dammam port:

12 copies of Cargo Manifest for each port of loading, all typed, stamped and signed.
2 copies of Freight Manifest.
3 copies of Hatch List.
3 copies of Stowage Plan.
1 copy of each non-negotiable Bill of Lading.
List of Dangerous Cargo on board, if any.

The particulars of the certificates required by the SOLAS regulations are entered in SGRRO Form No. 805 on the arrival of the vessel at the anchorage and the certificates are sighted after berthing. Also see "Health".

PILOTAGE: Pilotage at Dammam port is compulsory. Manoeuvring of vessels in the vicinity of pier or in anchorage will always be performed under supervision of a Dammam port Pilot.

The Dammam port Pilot will board vessels at anchor off approaches to port or when they are abeam of Dammam Beacon No. 2 (approximate position 26° 33′ N., 50° 11′ E.), and will then pilot vessels to anchorage or berth at pier.

ANCHORAGE: The approach anchorage area is situated South of parallel 26° 34′ 00″ N., and may be demarcated on the East by the 6 fathoms contour starting in proximity of Beacon No. 1 coming up to light buoy No. 3, and thereafter remaining West of line drawn from light buoy No. 3 to Beacon No. 6. On the West, the approach anchorage area extends within the 6 fathom contour, starting from Beacon No. 2 up to Beacon No. 4 and thence remaining North of line joining Beacon No. 4 and Beacon No. 6.

The vessels anchored in approach anchorage are required to keep fairway clear for access to and from port.

WEATHER: The peninsula of Saudi Arabia is almost of an equatorial climate. In Winter the temperature is rather low but in Summertime it rises over 50 degrees Centigrade. Rain is generally scarce. During major part of year, but especially during Summer, the relative humidity is high. From July to September it frequently exceeds 85%.

Winds in this area are not predictable for more than a few hours. They vary in strength and direction, although prevailing winds are from N.W.

Visibility is generally good. There are times, however, when it is reduced to a very short distance due to fog or dust held in suspension in the atmosphere.

TIDE: The Diurnal tide rise at port of Dammam is approximately 8 ft. at springs, and 5 ft. at neaps. Currents generally drift with tide, and run in or out of the port in counter clockwise rotation. Depending on weather conditions and other contributing factors, these currents are slow moving at all times, speed reaching maximum of 3 knots.

MAX SIZE: See "Berthing".

HEALTH: In accordance with international practice, quarantine signals must be displayed by all vessels approaching Dammam port. These signals shall be displayed continuously until pratique granted. Such signals are the following: Sunrise to sunset – Quarantine Flag; Sunset to sunrise – Signal Lights – red over white.

The Port Doctor or Quarantine Officer will board the vessel either at anchorage or at pier. Documents required for immediate inspection are the following:

Maritime International Health Certificate (from the last port).
Valid Deratisation or Deratisation Exemption Certificate.
Crew List (3 copies).
Passenger List, if any.
Valid Smallpox Vaccination Certificates (of a date not exceeding 3 years) for all crew members and passengers.
Valid Cholera Certificates (of a date not exceeding 3 months) for all crew members and passengers.
Valid Yellow Fever Certificates for all crew members and passengers.
Certificates of Inoculation against any communicable diseases prevailing at the ports of departure.
Ship's Log Books.

RADIO: (Also see "Agents"). Vessels bound to Dammam are required to notify their Agents 72 hours steaming-time prior to arrival, giving ETA in GMT, total weight tons of cargo for discharge at Dammam, number of workable hatches, Max. arrival draft and overall length of the ship. ETA notice should then be confirmed 48 hours and again 24 hours before arrival.

Vessels' messages to Agents can be given by contacting via wireless Aramco Radio Station "HZY" on 500 kc/s, which station provides free of charge service.

VHF: V.H.F. system has been installed in the Harbour Master's Office. Its international calling and answering frequency is on Channel 16. Masters of vessels on approaching Dammam are required to give the positions of their ships to the Port Radio Control.

TUGS: In all there are 10 high powered Tug Boats available in the port. Two of them are 1500 h.p. and two 1350 h.p. The remaining are between 800 to 1000 h.p. They are available to assist vessels in mooring or unmooring. Whenever such assistance is provided, Master and crew of tug shall, in the performance of such services as they render to the vessel, become and be deemed to be the Agents and servants of the Owners and/or charterers of the vessel assisted.

BERTHING: The Port has 19 working berths. Of these, 2 at North Pier 744 ft. 06 in. long and 501 ft. long respectively and have a depth of 12 to 14 m. Of the remaining 17 berths 1, 2, & 3 are 240 m. long, 14 m. depth and berths Nos. 4, 5, 11, 12 and 13 are 180 m. long 11 to 14 m. depth.

(a) Other port facilities (tugs – lighters – railway cars). 10 tug boats, 14 lighters of from 150 to 250 tons capacity each, 10 reefer railroad cars of 1300 cu. ft. capacity, 1 railroad flat car of 80 tons capacity. A large stock of railroad cars of any type of 45 tons capacity each.

No floating cranes, no water or oil barges, no repairs facilities, no transhipment facilities.

(b) Priority: There is no berthing priority at Dammam Port for any ship or type of cargo carried whatsoever. However, vessels carrying small quantities of cargo, may be berthed, irrespective of turn, at the Main Pier No. 4 berth, immediately on arrival if such a berth is available and provided that there are no other vessels in port within such category.

(c) Registration. Incoming vessels are assigned berth on a "first come, first served" basis. Every possible effort is made to berth vessels immediately upon arrival. If no berth available, vessels will be listed "in turn" in accordance with time of arrival at prescribed anchorage area (South of Beacon No. 2), pratique granted and presentation of cargo documents to the Port Authorities.

In the event of long delay in berthing due to port congestion or otherwise, vessels once "in turn", may be allowed to take up registration and proceed for any other Gulf port for any intended purpose, and return thereafter to Dammam still keeping their position "in turn". In order, however, that a registered vessel may be still considered in turn, is necessary that she return to Dammam within the time limit intimated to the Master at time the ship was cleared out. Failure to return to Dammam within such time limit, will automatically result in loss of ship's turn and postponement to bottom of waiting list.

CRANES: *Main Pier;* Capacity 3–6 tons. *North Pier;* None available.

DISCHARGE RATE: General cargo 100/125 tons per hatch per 24 hours. Bagged cargo 150/175 tons. Steel products, 125/150 tons.

STEVEDORES: Stevedoring operations at Dammam are performed by the Saudi Stevedoring Company. Charges are levied on weight/measurement basis, in accordance with current tariff.

A limited amount of stevedoring gear and equipment can be made available by Saudi Government Railroad on request of Master or Agents. A charge is levied for rental of this equipment.

MEDICAL: Masters may obtain medical attention for ship's personnel from port doctor who may in case of serious illness or injury recommend treatment to local hospitals. The port doctor ordinarily will treat minor illness or injuries on board ship.

Masters of vessels at sea may use services of Aramco Radio Station "HZY" without charge to obtain medical advice at any time.

WATER: Well water is obtainable at all Dammam piers at the rate of 4/5 t.p.h.

Both well water and distilled water, though in limited quantities, may be also obtainable in Ras Tanura but only in conjunction with and during bunkering operations. The maximum quantity of distilled water obtainable is 15 tons per vessel.

Fresh water also available from private barge.

FUEL: Vessels requiring bunkers have to call at nearby port of Ras Tanura where bunkers facilities are operated by Aramco. No bunkers supplied however unless a nomination is made available at Ras Tanura through Aramco New York. To obtain such nomination, Owners/Charterers/Operators are required to handle the necessary arrangements in advance of time directly with Aramco New York or one of its off-takers.

Fuel oil and marine diesel available from private barges.

CUSTOMS: All materials to be either exported from or imported into Saudi Arabia are subject to examination by Customs Authorities. The importation of certain articles, such as the following, is strictly prohibited:

Alcoholic beverages, including beer and wines.
Explosives.
Firearms.
Implements of war of any kind, including antiques.
Religious matter not pertaining to the Moslem faith.
Playing cards and gambling devices.
Narcotics.

Trafficking in these items between ships or between ships and shore is strictly prohibited, regardless of whether they are alongside the piers or at anchor.

CONSULS: Except for the U.S. Consulate-General residing in Dhahran, no other foreign consulates are available.

DEVELOPMENTS: 9 additional berths Nos. 14-22 have been provided in the East port, 4 have already been put into commission and the remaining 5 are nearing completion. 5 of them will be 180 m. long, draft 7 to 12 m. and the other 4 will be 240 m. long, draft 14 m.

Berths Nos. 14, 21 and 22 have been earmarked for handling of

Ro/Ro, timber and steel ships respectively. They will have 14 m. of water alongside.

Berth No. 14 has already been put into commission and generally used for berthing of conventional Ro/Ro ships and those requiring stern docking. The limitation for stern docking ships is 32 ft. wide. The quay at high water is approximately 1 m. and at low water approximately 3 m. above the water level.

Berths Nos. 15, 16 and 17 have also been put into commission and are generally used for ships carrying direct delivery cargo.

Six warehouses at berths Nos. 12, 13, 14, 15, 16 and 18 are under construction, their floor area will be 5,640 sq. m. respectively.

Under Phase 3 of the port expansion plan 16 more berths will be constructed (23-38) on West side of the port. 9 berths will be 180 m. long, 12 m. deep and 7 will be 240 m. long, 14 m. deep. Berths Nos. 23 and 24 have been earmarked for container ships.

Also included in the plan is the construction of 6 covered warehouses with a floor area of 5,740 sq.m. respectively. Further 6 side open warehouses with similar floor area will also be constructed.

Shortly a cold storage warehouse opposite berth No. 19 will be constructed having a floor area of 3,248 sq.m. temp. 23° F and one chamber for chilled cargo – floor area 377 sq.m. temp 1° F.

The work for installing electric shore cranes on berths Nos. 1, 2, 3, 4, 5, 11, 12 and 13 has commenced and is expected to be completed by the end of this year.

Each berth will have 4 cranes – 3 of 6 tons capacity and 1 each of 15 tons capacity. These will be placed in such a way that for special loads 2 of the 15 ton cranes can work at tendum. These cranes have been supplied by Messrs Sothert and Pitt of England and are being erected by their Engineers.

REPAIRS: Relatively limited repair service is available from local business concerns and replacement parts are practically unavailable.

Deep-sea divers, operating from modern and well-equipped diving boats, are available at Dammam.

A Lloyds representative is available in Dammam.

AIRPORT: Very good airlines facilities available. Daily departures for any part of the world.

TIME: GMT plus 3 hours all year round.

POLICE/AMBULANCE/FIRE: Ambulance 3182; SGRR Police 3771; SGRR Fire House 2211.

SHORE LEAVE: Ship's personnel and passengers are not permitted ashore for any purpose whatsoever until pratique has been granted. All shore leave is contingent upon compliance with quarantine regulations and subject to proper permission granted by Immigration Authorities. The necessary arrangements can be made by ship's Agent on Master's request. While in port, the vessel's personnel is under jurisdiction of the Law of Saudi Arabia.

GENERAL:

(a) General Port Charges. Vessels arriving at Dammam port are required to pay for: Pilotage in and out; Handling of mooring lines; Harbour dues; Quarantine fees; Dockage charges; Stevedoring; Tallying; Car and launch hire; Supplies and services as otherwise required; Agency fee and commission.

(b) Port working hours. Work at Dammam port is performed 7 days a week, from Saturdays to Fridays, Friday being the regular week holiday. 3 shifts are normally worked each day: from 0700 to 1500 hrs., from 1500 to 2300 hrs. and from 2300 to 0700 hrs.

(c) Dangerous cargo. Vessels carrying explosives, ammunition, highly inflammable liquids and/or any other cargo of dangerous natures, will not be berthed alongside piers. All discharging operations will have to be performed in anchorage into barges as available and weather permitting. Only daylight work is permitted.

(d) Lubricating oils. Lubricating oils are available in limited drum quantities if ordered in advance by letter or cable through Agent.

(e) Provisions. A large variety of frozen, fresh and canned goods is available in the local market. Supplies can be arranged through recommended ship chandlers upon Master's request.

(f) Laundry. Modern washing and dry cleaning facilities are available at Dammam and Al-Khobar. Deliveries can be arranged within 24 hours.

AUTHORITY: Director-General, Saudi Government Railroad Organisation

AGENT: Gulf Agency Co. (Saudi Arabia) Ltd., POB 86, Dhahran, Saudi Arabia, Cables "Confidence Bahrain" stating for Dammam or "Confidence Dammam".

Vessels equipped with VHF, can communicate, when within range, with Agent on stand-by Channel 16 by calling "Confidence Dammam". Voice contacts may be also established via VHF, on the same channel as above, with Ras Tanura office, by calling "Confidence Ras Tanura". Once contact is established on Channel 16, communication will continue by switching on available working channels as directed.

Telephone: Normal working hours 23425 and 23426; After office hours 23526 and 41742.

JEDDAH: 21.28 N. 39.11 E.

LOCATION: The port stands to S.W. of the city, on an island called Jazirat al Mafsaka approximately 600 acres in area. The island is connected with mainland by a causeway.

The harbour is sheltered by several long lines of coral reefs and islands. The access is through 2 narrow channels.

PORT LIMITS: The limits encompass all waters, islands, channels, passages, piers, wharves, jetties, landing-places, sheds, warehouses, workshops, basins, slipways and bridges, etc., contained within the parallels extending from shore seaward to 39° 06′ East Long. and between 21° 27′ and 21° 31′ North Lat. including Qaham and the approach beacons, Mismari and Shib el Kabir.

CLIMATE: Tropical desert, hot climate. Humidity very high during Summer months, but Winter is mild and pleasant. Rainfall is negligible and does not exceed more than 3 to 4 in. per annum.

General direction of wind is mostly N.W., mild in intensity. Winds of gale force occur very rarely. The effect of high winds when they do occur in the harbour is not felt due to barrier reefs breaking force of waves. Waves inside harbour not generally above 1 to 2 m., although waves up to 6 m. may sometimes occur beyond outer reef.

Tides of Indian Ocean do not affect Red Sea due to construction of the Bab-el-Mandab. There is, however, a local semi-diurnal tidal oscillatory motion of the sea along its length, giving a high tide at one end and at the same time a low tide at the other. Jeddah Port is hardly affected by these tides and there are almost no currents produced by these movements.

The variation between Summer and Winter water levels is approximately 50/60 cm. only.

Visibility in the port area is generally good, occasionally obstruction to vision occurs due to dust, but such occurrences are seldom of long duration.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
Last Port Clearance.
Vaccination Certificates.
Stores List.

Prior to the vessel's arrival the following documents are required for translation and submission to the various authorities:

7 copies Cargo Manifest.
1 copy Freight Manifest.
2 copies Stowage Plan.
2 copies Hatch List.
1 copy each non-negotiable Bill of Lading.
7 Lists of Dangerous Cargo, whether for discharge or in transit.

PILOTAGE: The Pilot station is off Kaham beacon (Lat. 21° 27′ 02″ N., Long. 39° 06″ 32″ E.). Pilotage is compulsory and available during daylight hours only. Pilots do not usually keep station unless expecting a vessel.

ANCHORAGE: If vessel arrives Pilot station too late for entry, anchorage may be made 0.5 mile North or South of the Kaham Beacon.

Arriving vessels will remain at Outer Anchorage until turn for berthing, or proceeding into Inner Anchorage for discharge into lighters.

RESTRICTIONS: No navigational aids marking approaches to port, and therefore there is no night navigation. A lighthouse and lighted marker buoys are scheduled for positioning in the development of the new port.

Only Saudi nationals are allowed to board vessel.

HEALTH: Doctor boards vessel before arrival at berth and grants free pratique.

(a) Cholera: All arrivals from infected or endemic areas are required to possess a certificate showing 2 injections made not less than 7 days and not more than 30 days before arrival. For re-vaccination carried out within 6 months of a recorded vaccination or re-vaccination, a single injection renders the certificate valid for a further 6 months.

In addition, arrivals must submit a certificate dated not more than 7 days before their departure recording the negative results of stool culture. This certificate must be delivered by a licensed laboratory and attested by the Health Authority.

(b) Smallpox: All arrivals are required to submit a valid vaccination certificate in accordance with International Sanitary Regulations.

(c) Yellow Fever: All arrivals from infected or endemic areas are required to submit a valid vaccination certificate in accordance with International Sanitary Regulations.

(d) Mecca: All Muslim crew members who wish to visit Mecca and Medina should have in their possession 2 recent passport-size photos. These should bear the crew member's name and C.D.C. number to enable Agent to obtain permission for the pilgrimage. Crew members must also have in their possession the above-mentioned medical certificates, otherwise permission may not be granted to them to visit Mecca and Medina.

RADIO: Masters should give their Agents an ETA not later than 48 hours before arrival. Jeddah Radio "HZH" operates on 500 kc/s. with limited working hours.

TUGS: There are 2 port department tugs 1 of 1,000 and 1 of 700 h.p. These tugs are supplied free for assisting berthing/unberthing of vessels.

REGISTRATION: System in effect.

BERTHING: Berthing Priority. Generally priority in order of arrival, but also following priorities:

- *(a)* Vessels in distress.
- *(b)* Vessels carrying pilgrims and passengers.
- *(c)* Vessels carrying army stores and equipment.
- *(d)* Vessels instructed to have a special priority by the Ministry of Communications.
- *(e)* Vessels carrying livestock.
- *(f)* Vessels carrying explosives and other dangerous goods.
- *(g)* Vessels carrying freezer cargo, fruit, vegetables and perishable goods, foodgrains and flour.
- *(h)* Vessels carrying less than 100 tons of cargo.
- *(i)* Regular mail vessels.

In the inner harbour there is a finger pier connected to the main quay by a Trestle Bridge. The pier accommodates large vessels with a draft of 29 ft. on the Southern side and 32 ft. on the Northern side.

The main quay consists of 8 berths for large vessels with a depth of 30 to 34 ft. alongside. These berths have large warehouses adjacent to each berth. There are 3 more berths which are used by coasting vessels.

Roll-on/Roll-off: Max. draft 8.0 m. Length of berth, 170 m. (4 vessels can berth at one time). Height of Quay, 7.0 m. No linkspan, no tide.

The Petromin Jetty can take 2 vessels at its floating pipe-lines. Vessels moor to 2 anchors with stern moorings to buoys. This is solely an oil berth used for discharging/loading tankers and bunkering other vessels.

Container Vessels: The following is part of a Jeddah Port Administration Circular to all Agents in the port.

1. Cellular Container vessels, if self-sustained by ships gear and required shore handling equipment can be considered for preferential berthing on Fridays, when general cargo vessels are not being worked. If a general cargo vessel is displaced by a preferential vessel on a Friday, the general cargo vessel must be back on the berth and working by 0800 hrs. Saturday whether or not the preferential vessel has completed.

There are presently 10 berths available. Vessels are assigned priority by the Government on the basis of national requirements and generally includes vessels carrying passengers, animals, foodstuffs, reefer cargoes and national defence items. There is also a commitment to discharge lift-on lift-off automobile carriers on Fridays.

In this respect kindly note that Ro/Ro vessels are given preferential berthing — not priority — on the basis that they occupy only a short length of quay, if their cargo is on some form of trailers, or in Containers which can be rapidly placed on trailers, or is wheeled equipment which can be rapidly transported to the Ro/Ro park without congesting the berth.

2. Containers may be handled from barges fitted with ramps, capable of working in a similar manner to Ro/Ro vessels.

3. The operator must supply sufficient lift trucks of required capacity to handle loaded Containers of the vessel and the shore area, as well as sufficient road transport to move the containers from the vessel to the allocated shore area.

4. Allocated shore areas for transit cargoes and not for storage.

5. The Head of Jeddah Customs has instituted a procedure for the rapid clearance of full Containers for one consignee, destined to Jeddah or up-country. Agents are requested to familiarize themselves with this procedure.

6. Failure to move Containers rapidly from an allocated shore area could result in delay in berthing a following vessel of the same line.

7. Kindly note that for several months to come, operators will be required to provide lift trucks for loading Containers on to road transport for delivery to consignees.

8. The Port is preparing suitable land area for the handling and distribution of loaded Containers and a separate area for empty Containers. Handling equipment has been ordered, but, until further notice please be guided by this Circular.

9. Lines presently shipping Containers to Jeddah are requested to confirm their frequency of service and number of units per voyage.

Lines planning expansion of existing services, or the introduction of new services are requested to send details to the Jeddah Port Administration in order to allow proper planning and discussion with the Line concerned to ensure maximum utilization of space and facilities and avoid lengthy delays.

STEVEDORES: *Working Hours:* Normally every day except Friday, first shift 0700–1600 hrs., second shift 1800–2400 hrs. Arrangements can be made to work overtime outside these periods. Discharging on barges can be continuous.

BARGES: The Port Department operates about 16 barges of capacities 200 to 400 tons. These are supplied free to the vessels and are used for off-loading steel, drums, heavy lifts and marble.

Sambouks are used for discharging timber and are supplied free but private barges may be used to expedite for which a charge will be made.

CRANES: There are sheerlegs situated on the tip of the finger pier with a lifting capacity of 40 short tons. Vessels can use this appliance for the discharge of heavy lifts.

In addition there are several port department mobile cranes with capacities from 2 to 30 tons used for rehoisting cargoes discharged on barges and handling cargo in the storage areas. These are not normally available to ships. With the exception of heavy lifts discharged by sheerlegs all cargo is handled by ship's gear.

MEDICAL: Doctors, dentists, eye specialists and hospitals are available.

FRESH WATER: Only available alongside berths as no water barges are available. Rate about 25 t.p.h.

FUEL: Owners requiring bunkers should ask their normal suppliers to arrange the stem through Arabian-American Oil company, New York. The latter will advise their Jeddah office who will in turn confirm the stem with Petromin. Spot bunkers are usually available on cash payment. If the Petromin Jetty is occupied by tankers, vessels requiring bunkers will have to wait until the berth is vacant. Private barges can also supply bunkers and prices are reasonable with no shifting expenses incurred.

FIRE PRECAUTIONS: A fire-float is available.

REPAIRS: Very limited, due to the difficulty of enabling non-port workers to enter the port area. Facilities exist for repairs to Decca radar.

GANGWAY/DECK WATCHMEN: 2 coastguards are stationed permanently on board and require accommodation and food. Coastguards keep constant check on liquor seals and may search personnel going ashore.

CUSTOMS ALLOWANCE: The consumption of alcohol including beer is prohibited. Ship's bonded stores are sealed by the Coastguard after the vessel has been granted free pratique. Any alcohol found after this will be confiscated and a fine imposed of Riyals 1,000.00 per bottle and possible imprisonment for the offender(s).

REPATRIATION: Several flights daily from Jeddah. A visa is required for entering or leaving the country.

AIRPORT: Situated close to the city. A new airport is under construction about 40 km. to the North.

TIME: GMT plus 3 hours.

HOLIDAYS: Every Friday is a holiday, although vessels can be worked from 0700 to 1000 hrs. to finish, at overtime rates.

SERVICES: Good laundry and ship-chandlering facilities.

SHORE LEAVE: Permitted.

IDENTIFICATION CARDS: Discharge books or passports must be left at the gate, and collected when re-entering the port area.

GENERAL: The Saudi Arabian flag (in good condition) must be flown from 0600 hrs. to sunset.

Communications by cable are lengthy, and about 3 days should be allowed to receive a reply to a cable. Exterior telephone calls require 1 day's notice.

Vessels carrying explosives for discharge Jeddah or any other port are not permitted to berth inside harbour. Such vessels will be discharged at the Outer Anchorage and must be capable of discharging all cargo with ship's gear.

SHIPMASTER'S REPORT No. 1: August 1975

The port of Jeddah is heavily congested and cargo vessels may expect to wait up to five weeks for a berth. Passenger vessels wanting a berth alongside should request this well before the expected call.

Berths: These are good, well fendered, and have depths of 33 ft. alongside most of them.

Anchorages: These are both protected and restricted by the series of coral reefs off the port. Due to congestion, the anchorages are very crowded and it is necessary for ships to moor rather than lie to single anchor. Holding ground is not good and when the afternoon breezes blow strongly it is sometimes prudent to have engines on stand by. At night it is frequently calm and fenders are required as ships make contact.

Bunkers: Bunkers are available by barge. On this vessel's last call ships calling at Jeddah for bunkers only were waiting up to 3 days. On our first call, although bunkers were ordered in good time, they were not delivered at all.

Tugs: There seems to be 2 harbour tugs and a number of smaller ones for towing lighters etc. They seldom appear when ordered, this was confirmed by the pilots.

On our last call, although ship was manoeuvring with difficulty, tugs were not available either for entering port or berthing.

Pilots: Pilots are excellent. Pilot boat waits in El Hariq, North of Qaram Reef. Under no circumstances will Pilot meet ships further out. Departing, Pilot leaves in "Middle Gateway" or before.

Navigation Aids: Port only operates in daylight and there are no lights. The airport radio beacon is very useful especially as in the reduced visibility so often encountered in the Red Sea, nothing is seen visually until the ship is inside the outer dangers.

There are a number of chimneys and water towers visible to the North of the port, but these are not marked on the charts.

The radar picture can be misleading when compared with the coastline on the chart. The strongest echo is given by the anchored ships.

Qaram beacon is lying on its side at present. The wreck on the next reef to the South, which looks like a small ship under way, is usually seen first.

Agency Service: All requests for water, cash, shore labour etc. must be made in good time. At anchor, Agent's launch visits only infrequently. On vessel's last call, Agents did not board ships in the anchorage at all, even though the ship was in a certain amount of trouble. The normal practice seems to be for the Master to go to the agency office himself to chase things up. The office staff are all most pleasant and helpful.

There is good telex communication, except on Fridays, but telephone calls to UK are all but impossible. By local custom, the agency closes at 1400 hrs., reopens at 1900 hrs. daily.

SHIPMASTER'S REPORT No. 2: April 1976. Report on New Clean Oil Terminal.

Charts Required: BA 2599 Approaches to Jeddah BA 2577 Jeddah Harbour.

Pilot Station: Lat. 21° 27′ 15″ N. Long. 29° 06′ 00″ E.

Position of New Clean Oil Terminal: Lat. 21° 26′ 55″ N. Long 39° 09′ 20″ E.

Approach to Terminal: Through Middle Gateway, Inner Gateway then South for 10.5 cables.

Depths: Least depth in approach channel 50 ft. and at berth 40 ft.

Moorings at Berth: Both anchors down with 6 shackles of cable on each. 8 Stern lines to buoys, viz 2 lines on each quarter to stern buoys. 2 Quarter lines on Starboard side to Starboard Quarter buoy. 1 line from main deck to Starboard Quarter buoy. 1 line from main deck to Port Quarter buoy.

Cargo Hoses: 3×8 in. Floating cargo hoses connected to Port side manifolds, viz, one for Mogas/Jet fuel, one for A.D.O./Kero and one for Fuel oil. Shore ends of hoses connected to manifolds on causeway. Shore line sizes given as Mogas/Jet Fuel 8 in. A.D.O./Kero 12 in. and Fuel Oil 12 in.

Back Pressure: Back pressure allowed 100/115 p.s.i. giving the following discharge rates. Mogas/Jet Fuel 160 m/t.p.h., A.D.O. 320 m/t.p.h., Kero 340 m/t.p.h. Fuel Oil 300 m/t.p.h.

Bunkers: Fuel Oil and Diesel Oil are shipped at berth after discharge of cargo.

Fresh Water: Not available at berth.

Accommodation Ladder: Rigged on Port side.

Shore Leave: By boat, takes 20 mins to cover the 1 mile distance. No one is allowed to land on the causeway.

Seamens' Identification: To leave dock area seamen must deposit their Seamans I.D. Card, C.D.C. Book or passport at the dock gate. Documents are picked up on return to dock gate.

Communications: Jeddah Radio H.Z.H. can be contacted on 500 kHz. and no traffic lists are sent.

Jeddah Port is now operating a VHF Station "Jeddah Signal Station" which can be contacted on VHF Channel 16, but meantime is only concerned with berthing of dry cargo ships. This VHF station is British manned, but is not in contact with Pilots by radio or telephone.

Tanker Operations Communications: Jeddah Oil Refinery can be contacted on VHF Channel 11 when approaching Pilot station and will pass messages to Agent and inform Pilot when requested to do so. Unfortunately information supplied by using this method is not always reliable as sometimes they don't know what tanker movements are scheduled. Usually Pilot will take vessel into anchorage if discharging berth is not available. No berthing operations are conducted in the Port of Jeddah between the hours of sunset and sunrise.

AUTHORITY: Saudi Government Railroad Organisation.

AGENT: Gulf Agency Company (Saudi Arabia) Limited, King Abdul-Aziz Street, POB 2038, Jeddah, Saudi Arabia. tel. 31481, 22080, 31435, after hours 39434. Telex: 40047 ("GACSHIP SJ"). Cables: "GulfAgency Jeddah".

Copies of correspondence to the Jeddah Office should be sent to Ras Tanura Office.

JU'AYMAH: 25.56 N. 50.03 W.

OPERATORS: Arabian American Oil Co.

FLAG: In addition to the quarantine signals which are to be shown until pratique is granted, the Saudi Arabian flag must be flown from the vessel's foremast while at Ju'aymah. Vessels should provide themselves with this flag before arrival but, if circumstances render this impossible, such flag may be purchased from the vessel's Agent.

The Saudi Arabian flag is properly displayed when the writing appears on top and the sword on the bottom.

CHARTS AND PUBLICATIONS: It is recommended that vessels scheduled to call at Ju'aymah should have on board suitable navigation charts such as the following: British Admiralty Charts 2847, 2858, 2882, 2883, 2886, 3776, 3777 and 3788; U.S. H.O. Charts 62032, 62410, 62414 and 62415. Up-to-date "Sailing Directions", "Pilot Book" and "Light Lists" should also be consulted.

IMPORTANT FEATURES: 1. The Ju'aymah loading facilities are located approximately 20 miles N.N.W. of the Port of Ras Tanura and 7 miles offshore in Saudi Arabian waters. The loading facilities consist of an oil platform, a control platform and three single point mooring berths.

2. Pilots/Mooring Masters advise on the mooring and unmooring at the buoy moorings and supervise the movement of all vessels in the vicinity of the loading facilities. Presently no charge is made for this service.

3. Mooring and unmooring, connecting and disconnecting of the cargo and bunker hoses are to be performed by the crew of the loading tanker under instructions from the Pilot/Mooring Master.

4. Safety rules are strictly enforced. The Mooring Master will make a thorough inspection of the tanker prior to and during loading operations.

5. When vessels are scheduled to load cargo at both Ras Tanura and Ju'aymah, Aramco reserves the right to advise the vessel at which berth the loading shall start and finish.

6. Aramco maintains a radio station (call letters HZY) for the exchange of messages with ships. For frequencies and transmission times, see "Radio". All incoming tankers should establish early contact with this station at least 72 hours before arrival in order to transmit ETA data and other information as requested in "Radio".

7. Unless instructed otherwise, vessels must arrive at Ju'aymah with propellers almost covered and trimmed not more than 8 ft. by the stern. Masters are urged to maintain radio contact with HZY or ship-to-shore communication by VHF voice radio in order to obtain the latest weather information.

8. The consumption of alcoholic beverages is prohibited within the Kingdom of Saudi Arabia. All alcoholic beverages are to be under lock and key during the vessel's stay. Vessels moored at a Ju'aymah berth or anchored at the anchorage are considered to be in the kingdom of Saudi Arabia.

9. Displays of quarantine signals on approach to Ju'aymah must be maintained until pratique is granted. Ships will not be berthed until the information requested in the quarantine message has been received. The flag of Saudi Arabia must be flown throughout the vessel's stay in port.

10. To permit more rapid ship turnaround, an Early Departure Procedure is available. This procedure permits a quick departure of the vessel after loading, with no delay to await delivery of documents at anchorage.

11. No medical facilities are available at the Ju'aymah Terminal. Requirements for medical assistance or hospital service should be addressed to the ship's Agent. The Aramco radio station HZY, may be used at any time, without charge by vessels at sea to obtain medical advice.

12. Small craft are not allowed in the vicinity of a tanker and no one is permitted to board or leave a tanker while cargo loading operations are in progress.

13. Water, galley fuel and diesel fuels are not available at the Ju'aymah Terminal loading buoys.

DOCUMENTS: Some of the tankers which will load at Ju'aymah will have called at Ras Tanura first and will have been cleared by Saudi Arabian Government authorities there. The Ras Tanura Quarantine Customs and Coast Guard clearances will continue in effect at Ju'aymah and no further Goverment formalities will be required. Seals placed on ships stores at Ras Tanura must remain intact until the tanker has completed loading at Ju'aymah and been completely cleared for departure.

Those tankers which call only at Ju'aymah will require appropriate arrival clearances. After loading operations are completed at the time of unmooring the tanker must have on board port clearance documents, bill of lading and export manifest.

To permit more rapid ship turnaround, an Early Departure Procedure is available by which a ship may clear the port and depart without the necessity of waiting for the delivery of documents at anchorage. Use of this special service is encouraged and it should be requested and arrangements with the Agent should be made at the earliest opportunity. When operating under Early Departure Procedure, it is imperative that, after departure, HZY Traffic Lists be copied until cargo quantities are resolved and the ship's Agent is authorised to approve documents.

Port Clearance and Cargo Documents: The port clearance documents consist of the following:

(a) Permit of Departure: This form (in English) is filled out with information supplied by tankers in their quarantine radio message.

(b) Port Clearance Application. This form (in Arabic) is filled out with information from the Permit of Departure form.

(c) Saudi Arabian Government Port Clearance. This official port clearance form (in Arabic) must be filled out with information provided by the Port Clearance Application.

Both the Permit of Departure and Port Clearance forms are to be aboard the tanker at the time of unmooring.

The cargo documents consist of the following:

(a) Bill of Lading. This is an Aramco prepared document. The required information, except for the cargo quantity, will be filled prior to the arrival of the tanker and a copy will be given to the Master by the ship's Agent upon arrival of the ship. After the ship finishes loading, Shipping and Documentation Unit will radio the cargo quantities to the Master who will fill in these quantities on this copy of the Bill of Lading and will instruct his Agent to sign, on the Master's behalf, the original Bill of Lading.

(b) Export Goods Manifest. This is a Saudi Arabian government document required for every ship which has loaded cargo in Saudi Arabia. The Master will receive from the ship's Agent the original export goods manifest forms covering each consignment of cargo loaded. It is imperative that the Master deliver these papers to the consignee upon arrival at the discharge port(s).

PILOTAGE/ANCHORAGE: The Northern Holding Anchorage and Ju'aymah Pilot Boarding Area have been laid out to expedite shipping and provide ready access to the Ju'aymah berths. The anchorage area varies in depth from 12 to 28 fathoms (72 to 168 ft.) and holding ground is only fair.

Vessels which have anchored at the Northern Holding Anchorage should immediately advise Aramco, via radio HZY, of the following information:

(a) Time of arrival at the anchorage area (in GMT).

(b) Approximate position in the anchorage area in relation to Ju'aymah light beacon J1 and Ras Tanura light beacon No. 3.

They should then contact Aramco Terminal Planning office and Ras Tanura Pilot Office by VHF radio Channel 16 if vessel is equipped with VHF.

NAVIGATION AIDS:

Light Beacon: "J1" – black and white gp. fl. (3) every 8 secs. Radar reflector position: 27° 02.0′ N. 50° 07.8′ E.

Light buoys: (all fitted with radar reflectors):

"J2" – Can red – flash red every 6 sec. Position 27° 01.9′ N. 50° 10.8′ E.

"J3" – Conical black – flash white every 10 sec. Position: 27° 00.4′ N. 50° 07.3′ E.

"J4" – Can red – group flash (3) red every 12 sec. Position: 26° 57.45′ N. 50° 09.8′ E.

"J5" – Conical black – group flash (3) white every 12 sec. Position: 26° 58.7′ N. 50° 04.6′ E.

"J6" – Can red – flash red every 5 sec. Position: 26° 54.6′ N. 50° 07.8′ E.

"J7" – Conical black – flash white every 6 sec. Position: 26° 58.7. N. 50° 02.7′ E.

"J8" – Pillar red – flash red every 3 sec. Position: 26° 54.35′ N. 50° 03.6′ E.

"JE" (Exit buoy) – Can red – flash white every 2 sec. Position: 27° 10.5′ N. 50° 12.6′ E.

"JD" (Departure buoy) – Can red – flash white every 4 sec. Position: 27° 10.5′ N. 50° 24.2′ E.

Red light float: marked "Ju'aymah"

Red – flash white every 10 sec. Racon x-bands (3 cm.) – code response Morse letter Zulu – Response pulse length is 22 ml, sweep time is 48 sec. Position: 27° 10.5′ N. 50° 36.0′ E.

Ras Tanura Channel

Light buoy: (Mid-Channel Marker at Caution Area):

"RT 1" – Spherical black – intermittent quick flash white. Position: 26° 56.2′ N. 50° 12.6′ E.

A Northern holding anchorage: area bounded by:

	North	East
(a)	27° 08.5′	50° 13.5′
(b)	27° 08.0′	50° 20.0′
(c)	27° 02.05′	50° 17.0′
(d)	27° 03.0′	50° 11.5′

Ras Tanura channel caution area: area bounded by:

	North	East
(e)	26° 58.7′	50° 13.0′
(f)	26° 57.0′	50° 15.2′
(g)	26° 54.7′	50° 13.0′
(h)	26° 56.6′	50° 10.7′

Ju'aymah Pilot boarding area: area bounded by:

	North	East
(i)	26° 58.7′	50° 13.0′
(j)	26° 56.5′	50° 10.7′
(k)	26° 58.0′	50° 09.5′
(l)	27° 01.0′	50° 10.7′

INBOUND TRAFFIC PROCEDURES: Arriving tankers which will be loading at Ju'aymah, should proceed as follows:

(a) Vessel with no Special Instructions: The vessel should make for a position approximately 2 miles North of Ras Tanura Light Float position 27° 05.6′ N. 50° 57.5′ E. and then enter the inward channel. This will take the vessel past the Approach Buoy to the Entry Buoy. The vessel should then proceed to the Northern Holding Anchorage. The anchor time and position should be passed to the Aramco Terminal Planning Office and Ras Tanura Pilot Office.

(b) Vessel Proceeding to Ju'aymah: The vessel should make for a position approximately 2 miles North of the Ras Tanura Light Float position 27° 05.6′ N. 50° 57.5′E. and enter the inbound channel. Proceed past the Approach Buoy and Entry Buoy and make for a point approximately 2.5 miles N.E. of Buoy 3A position 26° 56.3′ N. 50° 11.5′ E., and proceed into the Ju'aymah Pilot Boarding Area. The vessel should notify Ras Tanura Pilot Office on passing the Ras Tanura Light Float and will in turn be advised of berthing prospects. Should the Pilot not be boarding immediately on the vessel's arrival, the vessel may be instructed to anchor in the Pilot Boarding Area, and to pass the anchoring time and position to the Ras Tanura Pilot Office.

(c) Vessel Proceeding from Northern Holding Anchorage to Ju'aymah: On receiving instruction to proceed to Ju'aymah, the vessel should heave up anchor and re-enter the inbound channel making for a point approximately 2.5 miles N.E. of Buoy 3A position 26° 56.3′ N. 50° 11.5′ E. and proceed to the designated Ju'aymah Pilot Boarding Area. If the vessel has been advised that the Pilot will not board immediately on arrival, it may be instructed to anchor in the Pilot Boarding Area and await further instructions. The anchoring time and position should be passed to the Ras Tanura Pilot Office.

(d) Vessel Proceeding from Ras Tanura to Ju'aymah: The vessel should depart Ras Tanura and follow the departure channel towards the mid-channel marker buoy, R.T.1, position 26° 56.2′ N. 50° 12.6′ E. The vessel should proceed into the Ju'aymah Pilot Boarding Area, exercising due diligence in this area. If the vessel has been advised that the Pilot will not board immediately on arrival, it may be instructed to anchor in the Pilot Boarding Area and await further instructions. The vessel should inform Ras Tanura Pilot Office of its anchor time and position.

(e) Vessel Proceeding from Ras Tanura to Northern Holding Anchorage: The vessel should leave Ras Tanura and follow the departure channel observing the separation scheme to the Approach Buoy, 27° 06.5′ N. 50° 42.0′ E. and then proceed to the Northern Holding Anchorage. The vessel should inform Ras Tanura Pilot Office of its anchor time and position and await further instructions.

DEPARTURE FROM JU'AYMAH: A separate departure channel has been provided for all vessels using the Ju'aymah facilities. The Pilot will disembark and the vessel will proceed via the departure channel between Light Beacon J 1, 27° 02.0′ N. 50° 07.8′ E. and J 2 buoy 27° 01.9′ N. 50° 10.8′ E. The vessel should then proceed towards the exit buoy JE 27° 10.5′ N. 50° 12.6′ E. and from there set an Easterly course North of JD buoy 27° 10.5′ N. 50° 24.2′ E. to the Ju'aymah Light Float, 27° 10.5′ N. 50° 36.0′ E.

MAX. SIZE: 750,000 d.w.t. Also see "Developments".

HEALTH: Quarantine information request (see "Radio") must be received prior to berthing. Vessels failing to supply necessary information may incur extensive delays.

In accordance with international practice, quarantine signals must be displayed by all vessels approaching Ju'aymah. The following signals must be displayed continuously until pratique is granted:

Sunrise to sunset – Quarantine flag
Sunset to sunrise – Signal lights, red over white

Radio Pratique: A modified radio pratique procedure is in use at Ju'aymah. Port conditions permitting, vessels supplying requested quarantine information (see "Radio") may be moored on arrival and proceed with hose connecting operations prior to arrival on board of a Quarantine Officer. Vessels failing to supply information may be delayed at anchorage until cleared by the Quarantine Officer. Extensive delay can be incurred by vessels failing to supply requested information promptly.

RADIO: Vessels must keep Aramco Tanura fully advised via HZY regarding estimated time of arrival (ETA) at the Northern Holding Anchorage, as well as actual arrival time and position in the anchorage. All messages, of any nature whatsoever, to radio station HZY must be addressed to "Aramco Ras Tanura". It is required that vessels provide a minimum of three notices of ETA information at about 72, 48 and 24 hours "steaming time" from the Northern Holding Anchorage. Shorter notices may result in delays. If loading part cargoes at other Arabian Gulf ports prevents a vessel from furnishing an accurate ETA, steps should be taken to dispatch a message either directly to HZY or through the ship's Agent giving the best estimate possible at the time. This message should then be followed by an accurate ETA immediately upon departure for Northern Holding Anchorage. Failure to give at least 24 hours notice will result in vessel delays for which Aramco will hold no responsibility.

Radio Messages: Upon first contact with an inbound tanker scheduled for Ju'aymah berthing, HZY will transmit the following three standard messages of 237, 50 and 32 words:

237 word message:

Master Rastanuraradio/HZY

Contact HZY soonest advising one ETA GMT Northern Holding Anchorage two any later ETA changes three Agents name and requirements four arrival departure draft fore and aft five deballasting hours six maximum loading rate fullstop vessel urged to accept highest possible loading rate stop advise if cargo or residue aboard to be commingled with Ju'aymah cargo fullstop if VHF aboard call Aramco Terminal Planning for berthing instructions when 100 miles out on 156.80 Channel 16 stop if no VHF aboard contact HZY 500 kHz and copy traffic lists on odd hours for berthing instructions stop on arrival anchorage advise HZY official arrival readiness time and position relative beacon 3 and beacon J1 stop radio messages without charge stop Pilots require sufficient clean ballast for manoeuvring and will board in pilot boarding area for mooring stop recommend propellers almost covered and trim limited to 8 ft. stop vessel will moor to loading buoy using one headrope forward from buoy terminating in three inch chafing chain stop have one ship 3 inch minimum circumference messenger line or mooring rope forward for passing to launch stop have derrick rigged on port side at cargo manifold for lifting mooring gear cargo and bunker hoses stop ships two cargo manifolds to be 16 inch ANSI 150 and after bunker connection on midship manifold to be 12 inch ANSI 150 stop advise if reducers required and derrick lifting capacity. Aramco

50 word message:

Master Rastanuraradio/HZY

Please advise any epidemic diseases or illness on board and status of crew's International Certificates of Immunization and all ports called past thirty days also destination stop Agent stop flag stop net registered tonnage stop vessel will not be allowed to berth until this information is received. Aramco

It is important that you send a reply to the above two messages as soon as possible after receipt.

32 word message

Master Rastanuraradio/HZY

Imperative that any ship operating under early departure procedure copy Aramco HZY traffic list after departure until cargo quantities are resolved and Agent is authorised to approve documents. Aramco

The HZY Marine Station transmits on frequencies of 430; 8480; 12811 and 16960 kHz.

The number of operators on duty varies with the traffic load. During the peak period from 0400 to 1200 hrs. GMT there are 3 operators and a traffic clerk on duty. From 1200 to 2000 hrs. GMT there are two operators on duty and from 2000 to 0400 hrs. GMT one operator handles the station.

The hours of operation on the various frequency bands is as follows:

16 mHz Band 0600 to 1300 hrs GMT (Traffic List sent at 0600, 0800, 1000 and 1200 hrs. GMT)

12 mHz Band 0600 to 1800 hrs. GMT (Traffic List sent every even GMT hour on the hour)

8 mHz Band 1800 to 0400 hrs. GMT (Traffic List sent every even GMT hour on the hour)

Medium Frequency Band 24 hour continuous operation with a speaker watch on 500 kHz. (Traffic List sent every odd GMT hour on the hour)

From 0400 to 2000 hrs. GMT there is one operator that works exclusively on the MF Band and the station transmits to the ships on 430 kHz and receives on any agreed to ship working frequency. One or two HF operators are assisting this MF operator in monitoring the speaker watch on 500 kHz.

From 2000 to 0400 hrs. only one operator is on watch in the station. He keeps speaker watch on 500 kHz, works ships on 430 kHz and 8 mHz. The Traffic List is also sent at 0430 hrs GMT daily on 430 kHz and 8 mHz and at 1630 hrs. GMT on 430 kHz and 12 mHz. Available Weather/Hydros are also sent at these times.

It is requested that all vessels forward their local weather observations to this station, either in code or plain language, to assist in preparation of the Arabian Gulf forecasts.

VHF: VHF radio working Channels 11, 12 and 14, and calling Channel 16 are available for ship-to-shore communications at Ju'aymah. Channels 12, 13, 14 and 16 are monitored 24 hours a day at the Aramco Terminal Planning Office, which is located in Dhahran. Ras Tanura Pilot Office can be contacted on Channel 16. VHF equipped vessels should try to contact the Aramco Terminal Planning office on Channel 16 when they are within 100 miles range of Ju'aymah and while at anchor. Use of the high frequency radio transmitter or radar equipment is not permitted while vessels are moored at an oil loading berth. Use of the VHF is permitted to contact Pilots, Agents or the Aramco Terminal Planning Office.

RADAR: *Radar Surveillance Advisory System:*

Radar Surveillance Advisory System is now operational in Ras Tanura Arrival and Departure Channel, Ras Tanura East Channel, Ras Tanura Anchorage area and Juaymah area.

All ships must contact Ras Tanura Pilot Office on Channel 16 when approaching these areas and maintain VHF watch on Channel 10 when inbound and outbound in these areas.

All ships movements will be observed within the dependable range of the radar (12 to 14 miles).

Each ship arriving and departing Ras Tanura will be tracked and identified when possible.

Radar Surveillance Advisory System will communicate with ships in English on VHF Channel 16 and 10 in order to provide the following services:

1. Advise ships' Masters of channel and port condition, congestion, weather, tides, navigational aids, etc.
2. Ships' Masters will be informed of movement of other vessels.
3. Ships' Masters will be advised of Ras Tanura Port Regulations pertaining to vessels' movements and vessels violating port regulations.
4. Incoming vessels will be advised of the port regulations pertaining to movement of deep draft departing vessels. It may be necessary for incoming vessels to reduce speed to permit safe passage of outgoing deep draft vessels.
5. Masters of departing vessels from Ras Tanura into dredged channel will be informed of priority of movements of their vessel and other vessels.
6. Ships' Masters will be advised of berthing prospects and anchoring conditions.
7. Ships' Masters will be warned when dangerous manoeuvring situations appear to be developing.

The Radar Surveillance Advisory System had been established in order to increase the safety of ships navigating in the Ras Tanura area. It is an information and advisory service only, and in no way assumes control of ships navigating in the area.

To make this radar assistance effective, the cooperation of ships' personnel is expected and appreciated.

TUGS: There are two mooring launches available.

BERTH DESCRIPTION AND FACILITIES: Ju'aymah is an Aramco crude oil and fuel bunker loading facility designed for loading and topping-off deep-draft tankers. The port area is located approximately 20 miles N.N.W. of Ras Tanura and 7 miles offshore in Saudi Arabian waters.

The offshore platforms consist of the following:

(a) An Oil Platform (130 ft. by 190 ft.) located in 50 ft. of water at Lat. 26° 54′.8 N. and Long. 50° 01′.2 E. This platform receives crude oil and fuel bunkers from the onshore storage tanks through two 56 in. submarine crude pipe-lines and one 24 in. submarine bunker pipe-line, each being about 35,770 ft. long. The crude oil and bunkers are metered on this platform. The platform is well lighted with general purpose lighting. In addition, one fixed white light has been established on each corner of the platform, with a range of visibility of approximately 5 miles.

(b) A control platform (70 ft. by 70 ft.), located 150 ft. North of the Oil Platform and connected to it by a walkway bridge, houses the communications and radar equipment, testing laboratory, offices, control system and meteorological equipment. This platform is marked by a fixed red aircraft warning light.

3 single point mooring buoys have been established. Crude oil and bunkers are received at each buoy from the oil platform through 1 bunker and 2 crude oil submarine lines which are connected to the buoy by flexible submarine hoses. The floating hoses, which extend approximately 1,100 ft. from each buoy, consist of two 24 in. crude loading hoses with 16 in. tails and one 12 in. bunker loading hose, each with ANSI flanges for connection to the ship's manifold. The max. loading rates through each buoy are 130,000 barrels per hour for crude oil and 5,000 barrels per hour for bunkers. Each buoy is marked by a white flashing light with a range of visibility of approximately 5 miles.

The 3 mooring berths at Ju'aymah are as follows:

(a) Ju'aymah Berth No. 31 located at Lat. 26° 55′.6 N. and Long. 50° 02′.4 E. Min. water depth in the berth is 93 ft.

(b) Ju'aymah Berth No. 32 located at Lat. 26° 56′.4 N. and Long. 50° 02.1′ E. Min. water depth in the berth is 102 ft.

(c) Ju'aymah Berth No. 33 located at Lat. 26° 57′.0 N. and Long. 50° 02′.7 E. Min. water depth in the berth is 103 ft.

BERTHING PROCEDURE: A Pilot and a Mooring Master will board the arriving tanker assigned a berth at Ju'aymah at the Pilot Boarding Area located approximately 8 miles East of the Ju'aymah berths. They will carry portable VHF radio sets to be used while on board the tanker for communications with the Ju'aymah Control Platform and the mooring boats. They will advise the Master on all manoeuvres and operations relative to berthing, connecting and disconnecting the hoses and unberthing. The services of the Pilot and Mooring Master and of the mooring launches and their crews are provided without charge and upon the express understanding that they become the agents and servants of the owners and/or charterers of the vessel in every respect. Aramco shall not be responsible and shall be held harmless from all liability for any damage resulting from or caused by any action taken, order given or decision made (or any omission thereof) by the Pilot, Mooring Master or launch crew, or in any respect to the handling of such vessel. Damage or injury to any Aramco facility, equipment or personnel by any vessel calling at any loading terminal of the Port of Ras Tanura shall be the responsibility and liability of the owners and/or charterers of the vessel.

Mooring equipment and other equipment supplied at Ju'aymah will be lifted aboard the tanker from the mooring launch which transports the Pilot and Mooring Master to the Pilot Boarding Area. This equipment will include such things as special mooring gear to be used at the bow, various gaskets, bolts, tools, adapter spool pieces (when required); and portable radios to be used for communications with the Ju'aymah Control Platform during loading operations.

A number of forms related to the oil loading operation will be carried aboard the tanker by the Pilot and Mooring Master. These include a form for description of pertinent parts of the tanker's loading manifold, an ullage calculation sheet for use by the First Officer of the loading tanker and forms for maintaining a log of the berthing, loading and unberthing operations. One form entitled "Instructions to Vessels and Conditions of Use of Loading Facilities" outlines the conditions of the use of the loading facilities and must be signed by the Master of the tanker prior to the start of the berthing operation.

During the approach and while mooring, the tanker's anchors must be secured by stoppers to prevent accidental dropping with subsequent damage to the loading buoy mooring chains or the undersea pipe-lines. Mooring boats will normally assist in the berthing, mooring and hose handling operations. A boat will approach the tanker's bow, take the messenger line and secure it to the end of a 10 in. polypropylene "pickup" line from the mooring arrangement. The "pickup" line will be hove through the centre of port mooring chock until the chafing chain is in the chock. A 15in. nylon strop which previously will have been secured to the tanker's bollards will then be secured to the chafing chain using a 3 in. bow shackle between the strop and the chafing chain. On tankers equipped with a Smit's towing bracket or brackets, the chafing chain will be secured to an open link in the bracket using a bow shackle. *Mooring and unmooring, connecting and disconnecting of the cargo and bunker hoses is to be performed by the crew of the loading tanker under the direction of the Pilot and Mooring Master.* Communications between the Pilot and the Mooring Master or the bridge and forecastle will be by means of portable VHF radio.

PRELOADING PROCEDURE: Upon completion of berthing, a Pilot/Mooring Master, who will remain on board throughout the loading and unberthing of the tanker, will carry out activities related to Aramco safety requirements and planning, and monitoring of the loading operation.

In order to avoid delays in connecting hoses, tankers scheduled to load cargo and bunkers at Ju'aymah should have an adequate number of reducing spools to fit 16 in. and 12 in. standard 150 pound ANSI flanges on the portside manifold.

Aramco is a member of the International Oil Tanker Terminal Safety Group and participates vigorously in a programme developed to ensure adequate safety aboard tankers during the time they are at Aramco piers or berths. A part of this programme involves use of a check list by the Mooring Master to make a thorough inspection of tankers both prior to and during loading operations. This programme is in effect at Ju'aymah, and Mooring Masters who board tankers will be making necessary inspections, posting authorised smoking locations, issuing letters of protest for violations, and shutting down loading or refusing to load a tanker if unsafe conditions are not adequately corrected.

BALLAST REQUIREMENTS: Due to the exposed location of the Ju'aymah berths, tankers scheduled to load crude at Ju'aymah should arrive with adequate clean ballast for safe handling having due regard for existing weather and sea conditions. Tankers will be required to arrive with propellers almost covered and sufficient clean ballast tanks available to allow a trim of 8 ft. by stern. Masters should contact Ras Tanura Pilot Office for weather conditions at the loading facilities.

Aramco is particularly interested in having vessels complete the deballasting operation promptly after berthing in order to minimise time at berth. Simultaneous loading and deballasting is encouraged on properly equipped vessels. Owners/operators or charterers of vessels requiring time to deballast in excess of what Aramco considers standard will be so notified by letter with a copy to the Master.

Discharge into the sea of oil or oil base products in combination with ballast water is not allowed. Since the Ju'aymah Terminal does not have facilities to receive any oil residues or oily ballast water, tankers arriving with such materials on board will be sent to anchorage to await further orders unless the vessel agrees to load on top of such material or unless the ship's Master agrees to segregate such materials in a separate tank. Ships which release oil or oil residues including oily ballast water in either berth or anchorage area will be held responsible for all clean up costs.

LOADING PROCEDURES: The oil loading operation will be controlled by VHF radio voice communications between the Mooring Master on the loading tanker and the Ju'aymah control platform. All operations including switching of tanks and topping off must be directly and personally supervised by a ship's officer. The max. crude loading rate at any of the berths will be 130,000 b.p.h.

Upon being informed by the loading tanker's personnel that the tanker is ready to start loading, the Mooring master will request the loading operation to proceed according to previously agreed plan with respect to start-up rates, max. loading rates and topping off rates. Need for emergency shut down of loading aboard the tanker must be communicated via VHF from the loading tanker to the Ju'aymah control platform.

In the event of the failure of the VHF communications system, the tanker will sound 5 long blasts on the ship's whistle followed by 1, 2 or 3 short blasts for a tanker at berth 31, 32 or 33 respectively. Loading operations will be stopped and will not be resumed until communications have been re-established.

UNMOORING PROCEDURE AND DEPARTURE: Upon completion of loading, documentation procedures, disconnection and removal of hoses, the tanker will be unberthed by the Mooring Master. To unmoor from the buoy, the pickup rope is taken to the winch and the weight is taken off the chain. The chain is then unshackled and the rope is slacked as the tanker backs out of the berth. The end of the pickup rope is cast off and floats free.

Upon completion of unmooring, the tanker will make a lee, the mooring and hose connecting equipment will be transferred to the mooring launch and the Pilot/Mooring Master will disembark.

The tanker will then be free to leave the port via the Ju'aymah Departure Channel if the Early Departure Procedure is being followed and all cargo and port clearance documents are completed and on board. Otherwise, the tanker must proceed to the Northern Holding Anchorage to await port clearance and document delivery by ship's Agent.

FUEL: Fuel bunkers are available at each Ju'aymah berth through 12 in. hose. Failure of a vessel to provide adequate advance notice of fuel bunker requirements could result in vessel delays.

DENSITY: 1025.

GENERAL: *Onshore Facilities:* The tank farm with all its associated facilities is located along the coast of Ras Al Ju'aymah, 11 miles N.W. of the Ras Tanura Refinery. A small boat pier for the use of pilot boats, mooring launches and Agents' launches is located 8 miles N.W. of the Ju'aymah Tank Farm.

Oil Inspection: No independent inspection service is available at Ju'aymah. In cases of an abnormal difference between ship and terminal cargo quantities, it is essential that Aramco personnel investigate ship measurement of cargo.

Ship Agencies: Vessels calling at Ju'aymah should address all ship's business messages to their Agent through "Aramco HZY". Matters concerning provision supply, minor repairs, local medical or hospital services, mail, crew changes, etc. are to be handled by the ship's Agent.

Time Zone: The company generally bases its local time on the 45th meridian (3 hours East of Greenwich). In order to avoid any confusion, all communications should be quoted in GMT.

Arab League Ban: All member states of the Arab League prohibit the export through their ports of any material consigned to Israel. Further, all ships having called at Israeli ports subsequent to April 25, 1952, are banned from Saudi Arabian ports.

Security Patrol Boat: An Aramco Security Patrol Boat will patrol the Ju'aymah offshore area.

Saudi Arabian Government Regulations: Saudi Arabian Government Regulations are strictly enforced, and Masters having any doubts concerning the interpretation of these regulations are urged to consult their Agent. While in port, whether at anchorage or at berth, the vessel's personnel are under the jurisdiction of Saudi Arabian laws.

Consumption of alcoholic beverages, including beer and wine, is prohibited in Saudi Arabia. Penalties are severe and major delays to vessels can be incurred for violations.

Port Officials: Saudi Arabian Government Port Authorities are located in the Customs House, the Port Office and the Quarantine Office at Ras Tanura. A Coast Guard Detachment is located at Ju'aymah.

A United States Consulate General is established at Dhahran, which is approximately 50 miles by road from Ras Tanura.

A British Political Agent is established on Bahrain Island. It is very difficult, however, to contact Bahrain Island by shore telephone from Ras Tanura of Ju'aymah, and Masters having business there usually arrange to call at the port of Sitrah (sometimes spelt Sitra).

Inbound Clearance: The ship's Agent will develop information necessary to fill in clearance application and port clearance forms. Cargo requirements will be reconfirmed, and information required to expedite mooring, hose connection and other operational details will be exchanged with the Ras Tanura Pilot Office on VHF radio prior to the tanker's arrival at Ju'aymah.

Swimming: Or other activities involving life boats in the vicinity of a tanker are not permitted.

SAFETY REGULATIONS: *General:* The Port of Ras Tanura (including the Ju'aymah Loading Facilities) maintains a vigorous safety programme. Aramco is a member of the International Oil Tanker Terminal Safety Group (IOTTSG) and as such follows the procedures recommended by this organisation. As is done at other Gulf oil ports, the Pilot/Mooring Master as terminal safety representative will discuss in detail with the tanker Master, each item of the "Declaration by Master" which reviews safety requirements and procedures. Prior to start of loading cargo and at several times during the loading, the Pilot/Mooring Master, in company with one of the ship's officers, will check to ensure that safe loading practices are being observed.

Procedure in Case of Fire or Explosion: What will be done in the event of a fire or explosion on board a vessel which is berthed at a Ju'aymah buoy, depends upon the particular facts and circumstances of the incident. It is impossible to indicate exactly what practices will be applied before an evaluation of the specific emergency situation can be made by the Pilot/Mooring Master. His decisions will be based on the following principles:

(*a*) An evaluation of the particular emergency will be made by the Pilot/Mooring Master. His decision as to course of action will be based on the location, type and extent of fire, or explosion, taking into account tide and wind conditions, buoy location and proximity of other vessels.

(*b*) Circumstances permitting, a burning vessel will not be permitted to remain moored to the buoy, and the Master will unmoor the vessel when directed to do so by the Pilot/Mooring Master.

(*c*) Assistance will be rendered by available launches, tugs and other craft to the extent possible, as requested by the Pilot/Mooring Master.

(*d*) Prime consideration governing action to be taken will be to protect personnel, terminal facilities and other vessels, and to contain and control the emergency.

Should a fire or explosion occur at a buoy mooring, the oil loading platform or control platform, all cargo operations will be stopped and all vessels should stand by to disconnect and unmoor when so instructed by the Mooring Master, or when the need to take such action becomes self evident.

The signals for emergency are a continuous ringing of the ship's alarm bells supplemented by six short blasts followed by one long blast of the ship's whistle or siren. Assistance may be summoned on VHF Channel 16. Location, nature of emergency and type of assistance required should be given.

It is the responsibility of the tanker's personnel to watch its tanks at all times and to give ample warning to reduce the loading rate or shut off the pumping.

DEVELOPMENTS: SALM Berths No's 34 and 35 in operation for vessels up to 750,000 d.w.t. Depth at No. 34 – 129 ft. and No. 35 – 117 ft.

Loading through two 48 in. pipe-lines to each SALM and two 16 in. hoses. Loading rates up to 18,000 t.p.h. Bunker line 12 in. available.

AGENT: Gulf Agency Company (Saudi Arabia) Ltd. PO Box 621, Ras Tanura, via Dhahran. Cable Address: Confidence Bahrain, stating "for Ras Tanura".

Agent will be responsible for all ships business, which includes obtaining inward and outward clearance, pratique, medical facilities, provisions, repatriation, repairs and diving services.

JUBAIL: 27.05 N. 49.40 E.

New port under construction.

The completed port will comprise an Open Sea Tanker Terminal, Industrial Harbour, and Commercial Harbour with protective rubble mound breakwaters.

Dredging is proceeding for both harbours including entrance channels. The Industrial Causeway extends some 6 miles out to sea and is in progress. Work will shortly start on the East Breakwater, followed by the North Breakwater and Open Sea Tanker Terminal.

The ends of structures under construction or other obstructions will be marked by lighted buoys with White Flashing Light Characteristics. All vessels are requested to give a wide berth when in the vicinity of the construction work.

Note: Shipping approaching Jubail from the centre of the Gulf are advised to keep to the East of the Rennie Shoals and to avoid the Ras Tanura and the Juaymah Departure Channels when proceeding towards Jubail.

RAS-AL-KHAFJI: 28.25 N. 48.32 E.

Ras-al-Khafji is situated in divided Neutral Zone approximately 60 miles South of Kuwait, this area is under joint jurisdiction of the Saudi Arabian and Kuwaiti authorities; vessels are therefore required to fly the flags of both Governments from the foremast, Saudi Arabia starboard side. Kuwait port side of mast. Onshore base situated in approximately 28° 25′ North, 43° 31′ East, and within a distance of 6 miles (10 km.) offshore, the Company has laid two conventional sea-berths and two single-buoy moorings for loading tankers and also an anchorage area for cargo ships working cargo. Outside this distance is an anchorage area for tankers.

In addition to exporting crude oil, fuel oil and naphtha are also exported.

OPERATORS: The Arabian Oil Co. Ltd. (Japan).

APPROACHES: Approaches to Ras-al-Khafji marked on appropriate U.S.H.O. and British Admiralty Charts, and are deep enough for majority of vessels using the port to proceed with normal caution using the buoys as centreline markers. A single patch with a depth of 56 ft. (17.07 m.) exists North of courseline between Buoys Nos. 2 and 3, and this necessitates caution on the part of large tankers leaving Ras-al-Khafji in loaded condition.

For tankers arriving Ras-al-Khafji without necessary charts, the full information will be given by telegram if request is sent to "Arabia-oil Kuwait" (via "9KK", Kuwait Radio Station) a few days before arrival. Alternatively, if vessel has VHF, the buoy positions will be given to them upon request to "Ras-al-Khafji" as the vessel approaches, but prior notice of requiring this service should be given in vessel's arrival message.

NAVIGATIONAL AIDS: All geographical positions given although approximately correct, are intended for reference purposes only as certain differences are known to exist between these positions and those shown on the U.S.H.O. and British Admiralty Charts of the area.

Conspicuous Marks. Flare stacks in offshore field and ashore normally visible at a great distance, but may occasionally be extinguished.

No. 1 Flare	Lat. 28° 28.3′ N.	Long. 48° 57.0′ E.

All buoys have radar reflectors.

Khafji Channel:

With the installation of No. 4 sea berth, Khafji Channel for ocean tankers entering to and leaving from AOC berths has been established in a water area North side of the old channel which was removed. The channel area Eastward of Light Buoy No. 2 has never been changed.

For the purpose of securing safe navigation of 250,000 ton tankers with normal caution using the above aids to navigation, sufficient depth of water, 73 ft. at least, and passable channel breadth, 2,100 ft. as minimum corresponding to two times overall length of the mammoth tanker, are allowed.

A "Z" formed patch with the least depth of 70 ft. (21.30 m.) exists at the centre of the channel S.S.E. of Light buoy No. 8, hence deep tankers sailing from berth No. 4, especially under the condition of prevailing tide current, should take caution to the shoal.

If required, a Mooring Master on duty will guide a deep tanker to the favourable position in the channel.

DOCUMENTS: *(a)* Clearance. Master should submit following documents to Saudi Arabian Government through Agent (2 copies each):

Maritime Declaration of Health.
Health Condition of Crew.
Details of Air-conditioning.
Crew List.
Vaccination List.
Passenger List (if any).

Note Forms 1–3 are supplied by the Agent.

(b) Cargo. All cargo documents and shore figures are usually prepared on shore, and this takes about 1.5 hours with a further 30 minutes before the documents arrive at the ship. Ship's Statement of Cargo is, however, prepared on board. Wherever necessary Mooring-Master will sign documents on behalf of the Company.

Following cargo documents are to be completed after loading:

Notice of Readiness.
Bill of Lading.
Time Sheet.
Ship's Statement of Cargo*.
Certificate of Delivery‡.

Note: *Ship's Statement of Cargo includes the items for "clean ballast declaration" and "dry inspection" altogether in one form.

‡Certificate of Delivery should be handed to ship's Agent at port of discharge for certification by Customs Authorities. Agent should then return Certificates to the Company as soon as possible. Non-compliance with this requirement could involve vessel in serious difficulty. Masters therefore advised to ensure that their Agents at each discharging port return the Certificates at the earliest possible moment.

All certificates are to be sent direct to Arabian Oil Company and the Agents should be notified accordingly. It is understood that Arabian Oil Co. do not require legalised certificates and only certificates attested by the Customs at discharging ports will suffice.

EARLY DEPARTURE DOCUMENTATION: This documentation system aims to assist ships to depart early from this port after they complete loading by saving time awaiting documents. For this reason, relevant tanker documents will be signed previously by ship's Master or signed by their Agents at this port, depending on Master's choice on the request sheet. Completed tanker documents, therefore, will not be despatched to ships after completion of loading.

It must be noted that this system is not compulsory at this port, but it is at Master's option on condition that ships can communicate on Harbour Service VHF Radio or Marine Communication Band 2150 mc/s. to receive shore figures and time after departure.

READINESS: Master should present Notice of Readiness to load to Company's Mooring Master who will sign it on behalf of the Company. The Notice should be tendered as the time of the vessel's arrival at tanker anchorage area, which is, in principle, understood to be either time of dropping anchor in anchorage, or if vessel does not anchor, the time that Mooring Master boards to commence berthing.

MOORING MASTER: Compulsory for berthing and unberthing at Ras-al-Khafji, and Company's Mooring Masters will board vessels at anchorage area to take them to allocated berths. After berthing, Mooring Master will remain on board vessel until it is unberthed and cargo documents are completed. During this time he will act as the Company's representative in charge of all operations and shore personnel where the Company is concerned.

Notwithstanding presence of Company's Mooring Master on board, the Master of the vessel remains responsible for his vessel at all times and in all respects. In event of any emergency, however, the necessary steps should be taken by joint action between the Master and the Mooring Master.

The Master of each vessel shall give to Mooring Master all information necessary for safe handling and safe operation of vessel while it is in berth.

BALLAST: All vessels required to have on board sufficient clean ballast to give safe draft for manoeuvring purposes. Vessel arriving with too little ballast may be required to increase quantity, should Mooring Master feel that it would not be safe to berth vessel in its arrived condition. Recommended arrival condition is with propeller completely or almost completely immersed and vessel trimmed not more than 10 ft. (3.05 m.) by stern.

In good weather conditions, Mooring Masters will normally permit vessels to start deballasting as they approach the berth in order to save ship's time.

BOARDING: All vessels required to provide safe means of access for personnel boarding and leaving and should have accommodation ladder rigged on port side. In the case of vessels assigned to Berth No. 3, an accommodation ladder which leads down forwards is liable to be blocked by floating hoses, and in such cases the ladder should be rigged on starboard side. A ladder aft is always suitable on the port side.

For the benefit of people boarding at the anchorage area, vessels should provide a safe means of access on the lee side.

ANCHORAGE: *(A) Tankers:* Within 1 mile radius of position 28° 29.5′ N. 48° 39.0′ E. The Western extremity of tanker anchorage is marked by No. 10 Lighted Buoy. The depth of water varies from 65 ft. (19.81 m.) to 79 ft. (24.08 m.), the major depth of water is more than 70 ft. (21.33 m.), with a generally good anchor holding ground of clay mud. Vessels should anchor as close as possible to this lightbuoy to await berthing.

(b) Dry-cargo. Anchorage for dry-cargo ships located about 4 miles to West of tanker anchorage, and is centred in position 28° 26′ 08″ N., 48° 33′ 04″ E. and marked by a flashing white buoy. Cargo ships should anchor within 0.5 miles radius of this buoy, where depths are between 36 ft. (10.97 m.) to 50 ft. (15.24 m.) in good holding ground of clayey mud.

(c) Prohibited Area. An area bounded by straight lines joining following points is prohibited to anchoring and fishing due to presence of well-heads, Flow Stations, Gathering Station, etc. and numerous pipelines and power transmission cables on the sea bed. Additionally, the area bounded by five light-buoys is prohibited to navigation by all vessels or craft except those operating on direct instructions from the Company.

(k)	28° 26′ 53″ N.	48° 52′ 00″ E.	
(l)	28° 23′ 13″ N.	48° 31′ 48″ E.	

HEALTH: No radio pratique will be given. Vessels must be cleared by quarantine office on arrival. (In the past, tankers were given free pratique at the request of Agents and on the production of the copy of telegrams from vessels confirming that all crew members possess valid cholera and vaccination certificates and that there is no sickness on board. This procedure has changed recently and all vessels are boarded by quarantine officer and pratique is given only after checking the documents concerned.)

RADIO: (Also see "Approaches"). Advise ETA Khafji at least 4 days, and again 1 day, before arrival through normal radio services. As an alternative to the route through Kuwait Radio Station (call sign: 9KK), vessels may send their first message through Singapore, Bombay or Bahrain Radios. Confirmation of ETA should be made a few hours before arrival by calling "Ras-al-Khafji" on Channel 16 VHF. All cables should be addressed to "Arabia-oil Kuwait".

The first message should be sent according to following form, but any items which are the same as a recent previous voyage to this port may be omitted.

(1) ETA Ras-al-Khafji
(2) Last port
(3) Deballasting time
(4) Quantity and type of cargo and bunkers required
(5) Maximum loading rate
(6) Diameter of cargo and bunker connections
(7) Distance from manifold to ship's side
(8) Derrick capacity

(9) Whether Ras-al-Khafji is first or second port (when taking part cargo)

Note: Item (9) should only be answered in cases where vessels are taking part cargo at Ras-al-Khafji. If second port, the first loading port should be mentioned.

Communications between shore and loading berth mainly sent and received by means of FM wireless telephone, which is brought on board tankers at time of arrival.

VHF: Short-range communication can be made with Terminal Office by calling "Ras-al-Khafji" on VHF Channel 16. Working channels are 9, 11, 12, 13 and 14. Vessels should call Ras-al-Khafji several hours before arrival to confirm ETA and receive berthing instructions. After anchoring they should advise their anchoring time and then maintain watch on Channel 16 until the Mooring-Master boards. Terminal VHF normally operative between 0400–1400 hrs. GMT, and is used outside these hours by special arrangements with individual ships.

TUGS: The undermentioned tug-boats are available for mooring and unmooring purposes: "Chiyoda Maru No. 2" 200 g.r.t., 1,320 b.h.p.; "Chiyoda Maru No. 3" 175 g.r.t., 1,320 b.h.p.; "Chiyoda Maru No. 4" 236 g.r.t., 2,200 b.h.p.

One of these tugs stands by near the berths as long as any vessel remains moored. Two mooring boats are used for handling ropes and hoses.

BERTHING: 1. Personnel. After vessels berthed, Company's Loading Operator and Mooring Crew will board. Loading Operators work shifts and there will always be one on board vessel while in berth. This man acts as assistant to Mooring-Master, and should be treated as such at all times. In particular he will carry out Safety Inspections and handle communications between ship and shore, particularly those communications regarding cargo.

Ship's personnel requested to give Loading Operator all required information and necessary assistance to allow him to do his job properly. Any disputes arising from his actions should be referred to Mooring-Master for final decision.

Mooring Crew will connect and disconnect hoses as required, but may at any time be transferred to another vessel for the same purpose. While they remain on board, vessels are requested to provide them with following: use of Smoking Room, toilet and washing facilities; hot and cold drinking water; utensils for eating and drinking (it is not normally necessary to supply food).

2. Description of berths.

(a) Sea-Berth No. 1

Position: 28° 26′ 10″ N., 48° 34′ 57″ E.

Depth: 53 ft. (16.15 m.) at Indian Spring Low Water.

Permitted draft: 47 ft. (14.33 m.) max.

Type of berth: conventional four-buoy system where vessel moors to two anchors and one buoy forward and to three buoys aft.

Length: Designed for tankers of 800 ft. (245 m.) length but can be used by tankers of any size, although tankers of less than 650 ft. (200 m.) overall length sometimes experience difficulty in mooring if their lines are less than a full 720 ft. (220 m.).

Submarine Pipelines and Hoses: From the ex-Loading Dock one 26 in. crude oil line and one 18 in. fuel oil line have been laid to the manifold position. Two 10 in. rubber hoses for crude oil and one 12 in. rubber hose for fuel oils are connected to ship's manifold. These hoses approximately 225 ft. (69 m.) long and maximum lifting weight of the two crude oil hoses together is 4.5–5 tons. For bunkering purposes one section of 6in. hose is attached to the end of the 12 in. fuel oil hose.

(b) Sea-Berth No. 2

Position: 28° 25′ 55″ N., 48° 35′ 28″ E.

Depth: 53 ft. (17.07 m.) at Indian Spring Low Water.

Permitted draft: 47 ft. (14.32 m.) max.

Type of berth: As Berth No. 1.

Length of berth: As Berth No. 1.

Submarine Pipelines and Hoses: From the ex-Loading Dock one 26 in. crude oil line, one 10 in. bunker line and one 4 in. marine diesel line have been laid to the manifold position. Two 10 in. rubber hoses for crude oil, one 6 in. rubber hose for bunkers and one 4 in. rubber hose for marine diesel oil are connected to ship's manifold. All these hoses approximately 225 ft. (69 m.) in length, and the maximum lifting weight of two crude oil hoses together is 4.5–5 tons.

(c) Loading Rates at Berths No. 1 and No. 2

Crude oil rate is 30,000 bbls/hr or 4,000 tons/hr.

Fuel oil loading rate at Berth No. 1 is 7,000 bbls/hr or 1,000 tons/hr.

(d) Preparation on board before Berthing at Berths No. 1 and No. 2

Vessels should have ready:

(i) Both anchors.

(ii) 3 ropes forward and 9 ropes aft.
Some wires are acceptable in place of equivalent number of ropes. No shore wires used from buoys to ship. All ropes and wires should be in good condition and preferably without splices.

(iii) Port derrick rigged for minimum lift of 5 tons, using a wire runner and a hook.

(iv) Two 10 in. ASA 150 hose connections for crude oil, and one 12 in. ASA 150 for fuel oil cargo (at Berth No. 1 only), at the ship's port side manifold.
If ASA 150 is not available, the Company should be advised before arrival.

(e) Mooring and Unmooring at Berths No. 1 and No. 2

On approaching berth a ship's line is passed to one tug from centre fairlead aft. This line should be of good strength and well made fast on board.

When in position off berth, starboard anchor is let go and slacked away easily to about 9 or 10 shackles on deck. Port anchor is then let go and paid out easily as vessel swings round into berth using tugs and engines as required. At same time, starboard anchor is hove-in to about 6 or 7 shackles on deck and then made ready for slacking away again.

As vessel backs down berth the anchors are slacked away as necessary, and ropes sent to forward (No. 4) buoy. When stern passes close to starboard quarter (No. 1) buoy, ropes are sent away to this buoy, hove-in tight and put on bitts ready for slacking if necessary. Ropes then run to port quarter (No. 3) buoy, hove tight, and lateral position in berth adjusted between port and starboard quarter buoys. Lastly, ropes are run to the stern (No. 2) buoy and tug line also passed to this buoy. The fore-and-aft position is then adjusted between the anchors and the sternlines. A second tug is used to assist in lateral positioning of the vessel, and two mooring boats are used for running lines to buoys, normally taking two ropes at a time.

In Wintertime 3 ropes are used to each buoy, but in summer 2 of these may be dispensed with at Mooring Master's discretion.

When properly positioned in berth, distance from ship's side to manifold marker buoy should be about 50-66 ft. (15–20 m.).

When hose disconnection completed, vessel unmoors by letting go all lines on buoys No. 3 and No. 4, followed by those on buoy No. 2 and lastly those on buoy No. 1. Vessel then heaves both anchors as necessary until they are up and clear, and vessel can leave berth.

Tugs used as required to keep vessel away from manifold marker and mooring buoys.

Mooring-Master may vary this procedure according to prevailing weather.

(f) Hose Connection and Disconnection at Berths No. 1 and No. 2

After completion of mooring, mooring boat will pull hosemarker buoys to ship, and connect to ship's port derrick runner. The two crude oil hoses are lifted together from seabed by ship's derrick, and connected directly to manifold by Company's Crew.

Fuel oil hose at Berth No. 1 is lifted separately and connected in similar manner.

Time taken for hose connection about 1–1.5 hours depending on number of hoses connected. Hose disconnection takes about 1 hour, and is done in reverse manner to connection.

(g) Loading Restriction at Berths No. 1 and No. 2

Due to there being only one cargo pipeline between ex-Loading Dock and the shore, it is not possible to load vessels in berths No. 1 and No. 2 simultaneously. Therefore, when these berths both occupied, one vessel will be loading while the other is deballasting; the latter arranging to finish ballast about 1 hour before the other vessel finishes cargo.

(h) General Description of Berth No. 3

Position: 28° 27′ 06″ N., 48° 36′ 28″ E.

Depth: 62–64 ft. (18.90–19.51 m.), but 59 ft. (17.98 m.) over pipelines, at Indian Spring Low Water.

Permitted draft: Normally 54 ft. (16.46 m.), but 56 ft. (17.07 m.) permissible using rise of tide.

Type of berth: Single-buoy-mooring system consisting of a buoy 30 ft. (9.14 m.) in diameter, moored to 8 pendant legs of 3.5 in. high strength chain shackled to anchor piles at a radius of 575 ft. (175 m.), and having a rotating deck carrying pipeline and mooring connections.

Moorings: Attached to mooring connections on the buoy are two 12 in. nylon ropes (97 mm. dia., breaking strain 150 tons). These ropes are 120 ft. (37 m.) long, and have at their free end a length of stud link chain which includes a "sister-plate" for receiving the shackles used on deck of tanker. From outer end of this chain is connected a 10 in. polypropylene "pick-up" rope about 180 ft. (55 m.) in length. Rope supported by "doughnut" floats, and chain hung by large plastic buoys 5 ft. in diameter, coloured red and green.

Submarine Pipelines and hoses: One 36 in. crude oil line and two 12 in. fuel oil lines have been laid approximately 30,000 ft. (9 km.) from shore to position close under buoy. From underwater manifold the crude oil goes to the buoy through 20 in. underwater hose; fuel oil lines joined at manifold and fuel oil led to buoy through one 10 in. submarine hose. From deck to buoy 20 in. crude oil hose and 10 in. fuel oil hose are supported by floats, and have a length of 690 ft. (210 m.) to a hose raft, at which position the 20 in. hose is divided into 3 strings of 12 in. floating hose. These, together with the 10 in. fuel oil hose, extended for a further 180 ft. (55 m) making a total length of 870 ft. (265 m.) including the raft. At their free end the hoses are paired and connected to 2 large plastic buoys each 4 ft. in diameter.

Loading Rate: Maximum loading rate of crude oil is 45,000 b.p.h. or 6,200 t.p.h. The fuel oil loading rate is 5,000 b.p.h. or 700 t.p.h.

(i) Preparation on Board before Berthing at Berth No. 3

Before arriving at anchorage, vessels assigned to Berth No. 3 should have ready:

(a) Two mooring ropes forward, together with rope stoppers, and also one or two steel crowbars.

(b) Port derrick rigged for 10 tons, or maximum lift if 5–10 tons.

(c) Three 12 in. ASA 150 hose connections for crude oil, and one 10 in. ASA 150 for fuel oil cargo, at the port side manifold. If ASA 150 is not available, the Company should be advised before arrival.

(j) Mooring at Berth No. 3

Mooring Master will board from tug which carries mooring and hose connection materials. Vessels should have crew standing-by ready to receive these materials, and should maintain a lee until this is completed.

Mooring Master will instruct crew in setting-up of forward mooring, where two 12 in. nylon ropes are made fast round port and starboard bitts with their attached shackles about 12 ft. (3.66 m.) inboard from the fairleads of panama leads as far forward as possible. Size of fairlead opening should be at least 12 in. to prevent chain jamming in fairleads.

Approaching berth, tanker should lower a mooring rope from each bow as a messenger. Mooring boat will take port rope first, and connect it to the port "pick-up" rope which should then be hove-in while the boat returns to take the starboard rope for connection to its "pick-up" rope. These two ropes are then hove-in until the chains come into the fairleads, and the shackles can be made fast in the "sister-plates". The "pick-up" ropes are then slacked back until the nylon ropes have the weight.

Usual time from sending away first line until all fast is about 20 minutes.

(k) Unmooring from Berth No. 3

After hose disconnection completed, the weight is taken on "pick-up" ropes, nylon ropes are unshackled, and as vessel backs off berth the "pick-up" ropes are slacked off and then dropped into the water. The tug will come alongside either before or after vessel backs off berth, whichever is convenient, and the nylon ropes and the 2 big shackles are passed to the tug. Unmooring time usually 10 minutes.

(l) Hose Connection and Disconnection at Berth No. 3

After completion of mooring, the mooring boat which has been holding the hoses clear during berthing, will bring the hoses to the ship and connect the derrick runner to the buoy having two 12 in. crude oil hoses. These are usually lifted aboard together and connected directly to ship's manifold, making any necessary separation of hoses as may be required according to lifting capacity of ship's derrick.

The hoses are hung off on 2 in. diameter nylon ropes and lashed to the rail to prevent shock loads due to wave action being transmitted to manifold flanges.

After the first pair of hoses have been connected, the second buoy is lifted and the remaining crude oil hose and the fuel oil hose connected in similar manner to the first 2 hoses. If a vessel requires a loading rate of 5,000 t.p.h. or less, only 2 crude oil hoses are connected. According to the number of hoses to be connected, connection takes 1.5–2.5 hours.

Hose disconnection is done in a reverse manner to connection, and takes about 1–1.5 hours.

(m) Berth No. 4 (S.B.M.).

The S.B.M. is located in a position Lat. 28° 27.9′ N. Long. 48° 38.6′ E., approx. 12,300 ft. E.N.E. of Berth No. 3.

Tanker manoeuvring area is designated within 2,000 ft. (609 m.) radius from the S.B.M. Since two loading pipe-lines are trenched under sea bed, the area is imposed on prohibition of vessels' anchoring.

The water depth in the area has been recorded 70 – 73 ft. (21.33 – 22.25 m.) except 69.5 ft. (21.18 m.) above the pipe-lines by precise echo-sounding.

The deepest draft of tanker is normally 64 ft. (19.50 m.), but 66 ft. (20.10 m.) is permittable using rise of tide.

Berth Loading Control Platform: An oil-well jacket type Berth Loading Control Platform with a rotating light-beacon, a typical of offshore valve station, is located in a position Lat. 28° 27.0′ N., Long. 48° 35.8′ E., about 3,600 ft. (1,500 m.) Westward of Berth No. 3. The light, Fl. R. ev. 10 sec. 16 M. (Ra. Ref.), is visible at a great distance.

Crude floating hose: From S.B.M. to floating manifold length 810 ft., diameter 24 in., test pressure 200 p.s.i., 1 line weight 3,460 kg.

From floating manifold to hose line close to tanker: Number of hoses 3. Nominal size 14 in., length 150 ft. Test pressure 200 p.s.i., weight 2,080 Kg.

Floating Bunker Hose: One line of 10 in. diameter. Length 260 ft., test pressure 200 p.s.i., weight 1,210 kg.

Loading rate: Crude 40,000 – 60,000 b.p.h. Bunker light fuel min. 1,860 b.p.h., heavy fuel min. 2,000 b.p.h.

Weight of Hose Lines:

Height of Loading Deck above sea surface	Hose Length	Weight One 14 in. Hose Line (Kg.)	One 14 in. + One 10 in. Hose Lines (Kg.)
30 ft (9.14 m.)	40 ft. (12.2 m.)	3,600	5,500
40 ft. (12.20 m.)	50 ft. (15.2 m.)	4,600	6,100
50 ft. (15.24 m.)	60 ft. (18.3 m.)	5,600	6,700
60 ft. (18.29 m.)	70 ft. (21.3 m.)	6,600	7,300

Note: The above figures include the weight of crude oil, marker buoy, lifting chains and fittings.

LOADING: Loading crude cargo on top of oily residue is acceptable.

(a) Dry Inspection. Upon completion of deballasting the Mooring-Master will inspect the tanks.

If the tanks are not satisfactory, he may require further pumping until such time as they reach the required standard.

(b) Loading Operations. When ship is ready for loading, ship's officer must inform Loading Operator who will transmit necessary orders to Control Room on shore.

Loading is started by booster pump, and after everything has been checked and found satisfactory on board loading rate will be gradually increased by starting further booster pumps and then main pumps in sequence until the required loading rate is reached; provided always that required rate is within capacity of the pumps.

Loading rates can be varied at any time during loading upon 5-10 minutes notice to the Mooring-Master or Loading Operator on board.

In emergency, the immediate stopping of all loading can be accomplished.

When loading is completing, the rate is gradually reduced first by stopping the main pumps and latterly the booster pumps, one by one according to the request of the ship's officer. At the final stage of loading only booster pumps should be on the line, and the ship's officer should tell the Loading Operator to "Stand-by" at least 5-10 minutes before finishing cargo.

Shore pumps will stop about 15 seconds after their control buttons are pressed, but the oil will continue to flow for several minutes, depending on amount of time since main pumps were stopped.

All stops for cargo completion must be given by the ship, as "shore-stop" is *NOT* practised at this port.

(c) Overflows and Spillage. In the event of overflow or spillage during loading, cargo will be stopped immediately and will remain stopped until such time as Mooring Master considers it safe to resume loading. This will normally be when all the overflowed oil has been cleared off the deck and there is no longer any unusual danger involved. It is ship's responsibility to clear oil away as soon as possible after occurrence.

(d) Ullaging and Gauging. After loading completed, Mooring Master will witness final ullaging on board so that ship's figures can be calculated.

On shore a group of Government and Company gaugers will take manual gauges of the shore tanks before and after loading, and from these gauges the Bill of Lading figures will be calculated.

(e) Saybolt Inspection. The oil inspectors of E.W. Saybolt & Co., S.A., based in Mina Abdullah, Kuwait, are available at this port upon consignee's special request. They will carry out or witness gauging of the shore tanks, dry inspection and ullaging of the ship's tanks, calculation of shore and ship's figures, analysis of oils, etc., issuing the necessary certificates according to consignee's requirements.

STEVEDORES: Dry-cargo vessels calling Ras-al-Khafji to give at least 72 hours notice to Agents to arrange labourers. Stevedores will be arranged from Kuwait. Ship's gear used for discharging which takes place at anchorage into barges.

MEDICAL: Company operates a clinic and a hospital at Ras-al-Khafji. Medical and dental treatment can be given in cases of emergency or serious illness or injury. Epidemic diseases or cases of serious injury or disease requiring operations, etc. are normally transferred to State hospitals in Kuwait. Company's doctor will not normally attend on board unless patient is incapable of attending clinic. Requests for medical attention should be given to ship's Agent as early as possible before arrival.

FRESH WATER: Not available except in cases of extreme emergency.

FUEL: (Also see "Berthing").

(a) Grades. Marine diesel oil (MDO), light bunker oil (LBO) and heavy bunker oil (HBO) are supplied. Each loading berth has pipe-line which can deliver light and heavy bunker oils, but only Berth No. 2 has marine diesel line. At Berths No. 1 and No. 3, marine diesel oil supplied from barge for which no extra charge made.

"Bunkering Information" booklet, which gives full details of bunkering services at this port, is available from the Company upon request.

(b) Bunker Nomination. Owners, Operators or Charterers should nominate their vessels' bunker requirements *to the Company's Head Office in Tokyo.*

Vessels requested confirm grade and quantity of bunkers required *direct to "Arabia-oil Kuwait"* (via "9KK") through normal radio services at least 4 days before arrival; or in cases where vessels receive instructions less than 4 days away, they should advise bunker requirements as soon as possible.

(c) Bunkering Operation. Bunkers normally supplied to vessels in berths while they are discharging ballast or loading crude oil. At Berths No. 1 and No. 3 MDO supply from a barge will be done usually before loading cargo.

Except in special circumstances when previously agreed, bunker supply is Stopped Onshore when requested quantity has been pumped according to shore tank gauging.

Berth	*Marine diesel oil*	*Light and heavy bunker oils*
No. 1	4″ 80 t/hr*	6″ 400/300 t/hr
No. 2	4″ 40	6″ 400/300
No. 3	4″ 80*	10″ 400/300

Note: *(a)* *Supply from a barge with 4″ rubber hose.

(b) In Winter time the rates for light and heavy bunker oils decrease due to the low sea-water temperature increasing the viscosity of these oils.

Bunkering for Cargo Vessels.

Bunker supply to cargo ships from a barge or a coastal tanker is available.

CUSTOMS: Upon arrival Master required submit to Customs a manifest of any cargo to be landed at Ras-al-Khafji and to sign a declaration that no intoxicating liquors or drugs will be landed. After loading completed, Customs will sign an Outward Manifest and issue Port Clearance. These will be handed to Master by Agent.

In normal circumstances Customs Officers do not board tankers, but board cargo ships and leave a Customs Guard on board throughout vessel's stay.

Import of following articles forbidden:

Alcoholic beverages.
Pornographic literature, photographs, pictures and films.
Explosives.
Firearms or implements of war of any kind.
Religious matters not pertaining to the Moslem faith.
Playing cards and other gambling devices.

REPAIRS: Some minor repairs may be made on board using shore assistance in case of extreme emergency, but such repairs must be made only with prior permission of Company's Terminal Office should it be required to do them in berth. Preferably all repairs should be carried out at anchorage. In all cases when shore assistance is required Master should notify ship's Agent well in advance.

DRY DOCKS: None.

REPATRIATION: May be accomplished by making special arrangement through the ship's Agent, well in advance of vessels arrival.

Marine Superintendent of Owners, or Owners Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

AIRPORT: Crew joining must be routed through Dhahran. Kuwait Airport 110 km. Dammam 325 km.

TIME: GMT plus 3 hours throughout year.

TELEPHONES: No facilities for placing on board.

SERVICES: Swedish Welfare for Seamen, Lloyd's Surveyor, Butterworth Tank Cleaning Machines and Equipment and Underwater cleaning.

Provisions and deck stores are available from ship chandlers in Kuwait in limited kinds and quantities. Prices at Khafji may be a little more expensive than in Kuwait due to the transportation charges made. In all cases the ship's Agent should be advised of the requests at the earliest possible time before arrival.

SHORE LEAVE: Not normally permitted by Authorities except by arrangement through the ship's Agent.

AUTHORITY: Arabian Oil Company.

AGENT: See "Ras Tanura"

RAS TANURA: 26.38 N. 50.10 E. (See Plan)

OPERATORS: Arabian American Oil Co. ("Aramco").

FLAG: Saudi Arabian flag must be flown from vessel's foremast while in port. Vessels should provide themselves with this flag before arrival but, if circumstances render this impossible, such flag may be purchased from the vessel's Agent. Saudi Arabian flag is properly displayed when writing appears on top and sword or swords on the bottom.

IMPORTANT FEATURES:

1. There are 2 piers and a Sea Island having a total of 18 oil-loading berths. In addition, a small oil-loading pier is located on West side of Ras Tanura peninsula. A 20,000 d.w.t. bunkering vessel is stationed in the anchorage area to refuel vessels that require bunkers only.
2. Aramco Harbour Pilots moor, unmoor and supervise movement of all vessels in vicinity of piers except coastal tankers loading at West Oil Pier. Normally no charge made for this service.
3. Safety rules strictly enforced. Receipt of instructions must be acknowledged before vessel will be berthed.
4. Aramco maintains radio station (call letters HZY) for exchange of messages with ships. All incoming tankers should establish early contact with this station order transmit ETA data, etc.
5. Vessels arriving at Ras Tanura shall retain sufficient clean water ballast on board for the safe handling of the vessel from the anchorage area to the piers. Every effort should be made to reduce the quantity of ballast on board to a minimum and to have the ballast in as few tanks as practical in order to reduce the time spent draining. During adverse weather conditions sufficient ballast shall be retained on board the vessel to assure easy handling and good steering qualities. Ballast pumping equipment should be ready to commence discharging ballast when the vessel is in position in the berth.
6. Consumption of alcoholic beverages prohibited within Kingdom of Saudi Arabia. Local officials carry out inspection to confirm that all alcoholic beverages under lock and key during vessel's stay. Vessels moored at loading piers or anchored in harbour considered to be in Kingdom of Saudi Arabia.
7. Display of quarantine signals on approach to Ras Tanura must be maintained until pratique is granted. The flag of Saudi Arabia must be flown throughout the vessel's stay in port. Ships cannot be berthed until the quarantine message has been received (see "Radio").
8. To permit more rapid ship turnaround, an "Early Departure Procedure" is available. This service provides for a quick departure of the vessel after loading, without necessity of waiting for delivery of documents at anchorage. This special service should be requested and arranged with Agent at earliest opportunity.
9. All vessels transitting the "deep-water departure channel" must maintain a minimum 5 ft. keel clearance.

LOCATION: Aramco's shipping and refining facilities situated on Saudi Arabian coast of Gulf on Peninsula known as Ras Tanura. The peninsula, which has a total length of 13 statute miles, has as Southern extremity a 5 mile-long sandspit with max. width about 5 miles. Near its tip are Company's piers, shipping tanks, and terminal offices. Refinery and its storage tanks located about 7 miles to the North. There is a survey reference point located at Southern tip of peninsula, over which a beacon tower has been erected. Exact position of this beacon is Lat. 26° 37′ 25″ N., Long. 50° 09′ 50″ E. All bearings are referenced to this point, which is officially known as Ra's at Tannurah. The name "Ra's-at-Tannura" (variously spelled) appears on most charts and publications.

Port of Ras Tanura is a roadstead and there are only open anchorage areas for oil tankers and other vessels. Some protection is afforded by land on the West and shoals to the North, East and South. These shoals tend to keep the sea down to such an extent that vessels do not ordinarily register heavy movement.

APPROACHES: The inner channel at Ras Tanura port has been buoyed for the safe navigation of deep-drafted outward bound vessels where marine navigation aids, in accordance with international standard, have been installed. The channel has a certified depth of 69 ft. at ISLW.

The Port of Ras Tanura should be approached from the North. Vessels approaching in ballast should pass Westward outside, but close to, the buoyed deep-water departure channel in order to provide adequate sea room within the lines of buoys. The buoyed channel, designated as the "deep-water departure channel", has a clear swept depth of 69 ft. at ISLW. The buoyed width of the shoal area passage between buoys 15, 16, 17, and 18 is 800 ft.

Caution:

All vessels approaching the Ras Tanura anchorage from the North or South, shall reduce their speed sufficiently to ensure the safety of other vessels and themselves, and when passing through the anchorage the speed shall not exceed 5 knots per hour.

All vessels approaching the ports of Ras Tanura and/or Dammam are to stay clear of the "deep-water departure channel". The lighter draft vessels approaching should give way and endeavour to avoid getting into crossing situations that might require an outward bound vessel to alter course. Such vessels may be extremely limited in their room to manoeuvre due to their deep draft. Vessels departing the ports of Ras Tanura and/or Dammam are required to use the "deep-water departure channel".

The areas around the approaches to Ras Tanura and Northward along the Arabian coast have many drilling platforms, wells and other structures which may be hazards to navigation. Appropriate navigation charts should be kept up to date and consulted when sailing in this area.

Separation Zone (arriving vessels):

- *(a)* All arriving vessels should stay within the IMCO Designated arrival lane.
- *(b)* From Approach Buoy or Entry Buoy to Buoy No. 4 the separation zone is 0.75 mile.
- *(c)* From Buoy No. 4 to Buoy No. 5 the separation zone is 0.5 mile.
- *(d)* From Buoy No. 5 to Buoy No. 7 the separation zone decreases to nil.
- *(e)* From buoy No. 7 to buoy No. 17 all arriving vessels are to keep to the West of Buoys, No. 7, 9, 11, 13, 15 and 17.

Separation Zone (Departing Vessels):

- *(a)* All departing vessels should stay within the IMCO Designated Departure lane.
- *(b)* From Buoy No. 17 to Buoy No. 5 all departing vessels are to keep to the East of Buoys No. 17, 15, 13, 11, 9, 7, and 5.
- *(c)* The separation zone starts at Buoy No. 7 and increases to a width of 0.5 mile at Buoy No. 5.
- *(d)* Buoy No. 4 to Buoy No. 5 the separation zone is 0.5 mile wide.
- *(e)* From Buoy No. 4 to the Entry Buoy or Approach Buoy, the separation zone width is 0.75 mile.

Ras Tanura East Channel: A new channel with a least known depth of 40 ft. I.S.L.W. has been established. The channel is marked by Light Buoys fitted with Radar Reflectors. This channel is now open for ships not exceeding 35 ft. in draft and 800 ft. in length.

Use of this channel will relieve the congestion experienced when smaller ships used the Ras Tanura Northern channel and anchorage.

The channel is marked by buoys as indicated below:

Name of Buoy	Position	Day Mark	Light Characteristics
RTE 1	Lat. 26° 42.5′ N.	Black Pillar	Fl. W. ev. 10 secs.
	Long. 50° 50.0′ E.		
RTE 2	Lat. 26° 46.9′ N.	Red Can	Gp. Fl. W.2 ev. 10 secs.
	Long. 50° 34.1′ E.		
RTE 4	Lat. 26° 45.5′ N.	Red Can	Fl. W. ev. 3 secs.
	Long. 50° 24.6′ E.		
RTE 5	Lat. 26° 40.1′ N.	Black Conical	Gp. Fl. W.3 ev. 10 secs.
	Long. 50° 22.3′ E.		
RTE 6	Lat. 26° 41.5′ N.	Red Can	Fl. Red ev. 5 secs.
	Long. 50° 23.8′ E.		
RTE 7	Lat. 26° 37.3′ N.	Black Conical	Qk. Fl. W. (60 per min.)
	Long. 50° 16.1′ E.		
RTE 8	Lat. 26° 36.6′ N.	Red Can	Fl. Red ev. 3 secs.
	Long. 50° 15.8′ E.		

Buoy Light Visibility:

White 7 miles
Red 5 miles

Directions:

Inbound vessels passing Bahrain Light-ship should steer a course to pass about 1.5 miles North of Buoy RTE 1; thence steer a course of 285° for a distance of about 14.75 miles to a position about 1 mile North of Buoy RTE 2. From this position, steer a course of 259° for about 9.5 miles to a position about 1 mile Northwest of Buoy RTE 4. From this position steer a course of 191° for about 6.5 miles to a position about 0.25 mile East of Buoy RTE 5. From this position steer a course of 243° for about 6.5 miles to a position about 0.2 mile South of Buoy RTE 7; thence alter course to make the Port of Destination.

Special Notes:

The following regulations and special notes are promulgated for the use of ship's Masters entering and leaving Ras Tanura and Dammam ports:

Inbound Vessels:

1. Vessels fitted with the appropriate VHF radio equipment are requested to monitor Channel 16 when in the vicinity of Ras Tanura channel and anchorage area.

2. Vessels shall report time of passing Beacon No. 3 to Ras Tanura Pilot station.
3. Vessels shall report time of passing Buoy No. 7 to Ras Tanura Pilot station.
4. Vessels proceeding within the area bound by Channel Buoy No. 9 and the Southern extremity of Ras Tanura anchorage should limit speed to a maximum of 5 knots.
5. No overtaking is permitted in the Ras Tanura arrival channel after passing buoy No. 9.
6. A minimum distance of 1 mile shall be maintained between vessels proceeding in the same direction after passing Buoy No. 9.
7. Vessels passing Buoy No. 17 must navigate with extreme caution and give way to vessels departing from the berths.
8. Freighters transitting the Ras Tanura port area, bound for Dammam, should alter course Eastward after passing clear of Buoy No. 17 and keep to the Eastern sector of the tanker anchorage.
9. Under no circumstances shall inbound vessels navigate in the buoyed deep-water departure channel.

Outbound vessels:

1. All vessels are to monitor Channel 16 when in the vicinity of Ras Tanura channel and anchorage area.
2. Vessels departing from Ras Tanura anchorage must advise Ras Tanura Pilot office of their intentions 30 minutes before departing.
3. Freighters outbound from Dammam shall, when passing Dammam Channel Beacon No.1, alert Ras Tanura Pilot office of their estimated time of arrival at the Southern extremity of the tanker anchorage. Freighters should keep to the Eastern sector of the tanker anchorage and avoid the manoeuvring area from the anchorage to the piers.
4. Vessels manoeuvring within the area bound by the Southern extremity of the Ras Tanura anchorage and the entrance to the departure channel (Buoys 17 and 18) should limit speed to a maximum of 5 knots.
5. Any departing vessel shall not overtake any vessel ahead until both vessels have passed clear of Buoy No. 5.
6. A minimum distance of 1 mile is to be maintained between vessels proceeding in the same direction until clear of Buoy No. 5.
7. Under no circumstances shall outbound vessels navigate in the arrival channel.

Keel Clearance: No vessel may transit either channel unless it has at least 5 ft. of keel clearance.

Communication – VHF Radio: Maintaining a continuous radio watch aboard all vessels in the Ras Tanura vicinity cannot be overemphasised, particularly in the event of unforeseen circumstances developing the port area. A two-way exchange of information is an essential prerequisite to a safe, efficient port operation. Vessels in the Ras Tanura anchorage that are not fitted with VHF radio are requested to maintain a radio watch with the local station HZY.

RADAR: *Radar Surveillance Advisory System:* Radar Surveillance Advisory System is now operational in Ras Tanura Arrival and Departure Channel, Ras Tanura East Channel, Ras Tanura Anchorage area and Juaymah area.

All ships must contact Ras Tanura Pilot Office on Channel 16 when approaching these areas and maintain VHF watch on Channel 10 when inbound and outbound in these areas.

All ships movements will be observed within the dependable range of the radar (12 to 14 miles).

Each ship arriving and departing Ras Tanura will be tracked and identified when possible.

Radar Surveillance Advisory System will communicate with ships in English on VHF Channel 16 and 10 in order to provide the following services:

1. Advise ships' Masters of channel and port 'condition, congestion, weather, tides, navigational aides, etc.
2. Ships' Masters will be informed of movement to other vessels.
3. Ships' Masters will be advised of Ras Tanura Port Regulations pertaining to vessels' movements and vessels violating port regulations.
4. Incoming vessels will be advised of the port regulations pertaining to movement of deep draft departing vessels. It may be necessary for incoming vessels to reduce speed to permit safe passage of outgoing deep draft vessels.
5. Masters of departing vessels from Ras Tanura into dredged channel will be informed of priority of movements of their vessel and other vessels.
6. Ships' Masters will be advised of berthing prospects and anchoring conditions.
7. Ships' Masters will be warned when dangerous manoeuvring situations appear to be developing.

The Radar Surveillance Advisory System has been established in order to increase the safety of ships navigating in the Ras Tanura area. It is an information and advisory service only, and in no way assumes control of ships navigating in the area.

To make this radar assistance effective, the cooperation of ships' personnel is expected and appreciated.

DOCUMENTS:

(a) Following documents required for immediate inspection by boarding officials:

Maritime International Declaration of Health. (1 copy from last loading port to be surrendered).
Valid Deratisation or Deratisation Exemption certificate.
Vaccination List (2 copies).
Stores List (2 copies).
Crew List (3 copies).
Passenger List.
Smallpox Vaccination Certificate, of a date not exceeding 3 years, for all passengers and crew members.
Certificates of Inoculation against any communicable diseases prevailing at the ports of departure.
A complete set of Log Books covering the period since the vessel's last call at Ras Tanura. In the case of a first visit, log books must cover the period from the date of a vessel's first sailing or from April 25, 1952, whichever date is most recent.

(b) "Early Departure Procedure." To permit more rapid ship turnaround an "Early Departure Procedure" is available. This service provides for a quick departure of the vessel after loading, without the necessity of waiting for delivery of documents at anchorage. This special service should be requested and arranged with Agent at ship's earliest opportunity. When vessel is ready to leave port a Ministry of Health permit and port clearance will be given to Master by ship's Agent.

(c) Export Goods Manifest. Master will receive from Agents, Export Goods Manifest forms covering each consignment of cargo loaded. A letter addressed to the consignee will accompany these forms. This letter provides detailed instructions as to requirements and disposition of the Export Goods Manifest forms. It is imperative that Master delivers these papers to consignee upon arrival at the discharge port(s).

(d) Discharge Certificates. According to local procedure, certificates showing details of cargo loaded at this port on any tanker, are airmailed by Agents to the receivers of cargo at the port of discharge along with a self-addressed envelope, and returned to the Arabian American Oil Company in Ras Tanura signed by the recipient Customs Authorities

PILOTAGE:

(a) Channel Pilots. Approach channels well marked by lighted, radar-reflecting beacons and buoys. For these reasons, Channel pilots not provided.

(b) Harbour Pilots. Harbour Pilots provided for assistance to Masters of vessels using the Port. Aramco Pilots are on duty continuously. If a berth is available and the ship's radioed quarantine message and notice of arrival and readiness have been received, an Aramco Harbour Pilot will board the incoming vessel while it is underway. The point of boarding will be South of Buoys 17 and 18 and East of the Sea Island. Aramco Harbour Pilots will pilot vessels to berth at all piers. All manoeuvring of vessels in vicinity of or at the piers will be under supervision of an Aramco Harbour Pilot. VHF radio contact may be made between ships and the Port Control and the Pilot's Office at frequencies listed under "Radio".

The services of the Pilots are presently provided without charge, but the Company reserves the right to charge for these services.

If the freeboard of a vessel exceeds 30 ft., an accommodation ladder is required in conjunction with the pilot ladder. This requirement does not involve vessels equipped with *approved* pilot hoists. The deck of the Ras Tanura pilot launch, from where the Pilot boards, is approximately 6 ft. above the water.

Upon request from ship's Master, additional pilotage assistance to transit the Ras Tanura departure channel is available to all VLCC vessels of 150,000 d.w.t. and above which have a deep draft of 60 ft. or more when fully loaded.

On departure from Ras Tanura, an Aramco Harbour Pilot remains on board such vessels until the vessel is headed on a safe Northerly course in line with the axis of the departure channel, providing the Pilot conning the vessel can disembark safely. In the event of adverse weather and/or sea conditions, the Master and Harbour Pilot shall arrive at a mutual agreement as to when and where a proper lee can be provided in order to allow the Pilot to disembark safely. In this event, however, the Pilot shall not disembark until he has discussed thoroughly with the Master, weather conditions, channel entrance identification, and the manoeuvers required to transit the dredged section of the departure channel safely.

Pilot Ladder requirements:

1. The ladder should be kept in good order, cleaned and should be of adequate length and strength.
2. The vertical distance between steps should not exceed 15 in. The outboard edge of the step should project from 5 to 6in. from the hull. Ladders must be so constructed that the steps will remain flat or at right angles to the hull while supporting the weight of a person.
3. Spreaders at suitable intervals should be provided to prevent the ladder twisting and the ladder should be properly secured with the steps level.
4. The deck in the vicinity of the ladder should be clean and free of oil and grease.
5. When possible on vessels so equipped, the pilot ladder shall be made fast alongside of an area where there is a break in the rail or an opening in the bulwark. This allows a person to step directly on the deck and is considered most desirable. The boarding position should be as near midships as possible.
6. During the hours of darkness, it is necessary that the pilot ladder be adequately lighted. It is emphasised that not only the ladder but the deck area close by the head of the ladder should be illuminated.
7. A manrope or safety line should be rigged in the close proximity of the ladder.
8. Responsible deck department personnel are to be in attendance when the Pilot boards or leaves the ship.

ANCHORAGES: All vessels must have anchors well secured when approaching or departing from the Sea Island facilities. No anchor or chain clearing operations are permitted while alongside any berth.

The suggested anchorages in the port of Ras Tanura have been laid out to facilitate shipping in general. They provide vessels with ready access to the piers. The anchorage area ranges in depth from 5 to 12 fathoms. Holding ground in these areas is only fair, as the bottom is varied in character, it is recommended that anchored vessels lie to a long scope of chain whenever the weather is unfavourable.

Any vessels having anchored in the suggested anchorage area should immediately advise Aramco, via Radio HZY, the following information: *(a)* Time of arrival in the anchorage area (GMT). *(b)* Approximate position in the anchorage area in relation to the North Pier. *(c)* Contact Aramco Terminal Planning Office by VHF radio Channel 14 or 16 if vessel is so equipped.

Holding anchorage: Due to the increase in the ship traffic and congestion in the port of Ras Tanura, an area designed as a "Holding Anchorage" has been established outside of the port. When a tanker is nominated to load at Ras Tanura and the port anchorage is congested, the tanker may be instructed to proceed to the "Holding Anchorage" to await instructions and its turn for a loading berth. Normally, this procedure will only be instituted when a port anchorage is congested or will become congested and it is anticipated that the vessel will have an extended period.

The perimeter lines for the port of Ras Tanura "Holding Anchorage" join the following points:

Points	*Lat. N.*	*Long. E.*	*Directions*
1	27° 08′ 30″	50° 13′ 30″	East to
2	27° 08′ 30″	50° 20′ 00″	South to
3	27° 02′ 30″	50° 17′ 00″	West to
4	27° 03′ 00″	50° 11′ 30″	North to Point 1

The area designated as the Ras Tanura anchorage for tankers is also being expanded. The new perimeter lines for the Ras Tanura tanker anchorage join the following points:

Points	*Lat. N.*	*Long. E.*	*Directions*
1	26° 41′ 00″	50° 12′ 45″	East to
2	26° 41′ 00″	50° 14′ 00″	South East to
3	26° 37′ 45″	50° 15′ 15″	West to
4	26° 37′ 45″	50° 11′ 15″	North East to Point 1

MAX. SIZE: Vessels up to 250,000 d.w.t. (part-cargo) have been handled. Departure channel 69 ft. ISLW – see "Approaches". Water depth at Sea Island berths is minimum of 85 ft. at ISLW, but depth of water in departure channel and not depth of Sea Island berths limits the draft of vessels calling at Ras Tanura.

HEALTH: A modified Radio Pratique procedure is in use. Vessels supplying requested quarantine information can be berthed on arrival and proceed with normal loading operations prior to arrival on board of quarantine officer. Vessels failing to supply information will be delayed at anchorage until cleared by quarantine officer. Extensive delay can be incurred by vessels failing to supply requested information promptly. Quarantine information (see "Radio") must be received prior to berthing. In accordance with international practice, quarantine signals must be displayed by all vessels when approaching Ras Tanura. These signals shall be displayed continuously until pratique granted. These signals are: Sunrise to sunset, quarantine flag. Sunset to sunrise, Signal lights, red over white.

Quarantine officer may board vessels awaiting berth in prescribed anchorage area; however, vessels proceeding directly to a berth at one of the piers will be boarded at the pier after being tied up. Pier personnel are normally allowed on board prior to arrival of quarantine official. Vessels at anchor awaiting berth should not rig an accommodation ladder, but instead should provide a safe pilot ladder in good repair, properly secured. At night, the pilot ladder must be adequately lighted.

RADIO:

(a) Station. Aramco owns and operates marine radio station call letters HZY, maintained for transacting company business with "in-or-outbound vessels" and is open 24 hours daily. Station HZY will also accept and forward messages concerning ship's agency matters to Agents. However, agency messages to Masters are not permitted. No charge for either incoming or outgoing messages. Marine transmitting antenna of HZY located at Lat. 26° 18′ 36″ N., Long. 50° 07′ 12″ E.

Due to its inland location Masters strongly advised *not* to use this antenna for radio direction-finding purposes since inaccurate bearings will be obtained due to coastal refraction.

(b) Messages. All vessels must keep HZY fully advised regarding estimated times of arrival at Ras Tanura, as well as times of actual arrival and position in anchorage. It is required that vessels provide HZY with minimum of 3 notices of ETA information at about 72, 48 and 24 hours "steaming time" from Ras Tanura. Shorter notices may result in berthing delay. If loading part cargoes at other Gulf ports prevents a vessel from furnishing an accurate ETA, steps should be taken to dispatch a message either direct or through ship's Agent giving best estimate possible at the time. This message should then be followed by an accurate ETA immediately upon departure for Ras Tanura. Failure to give at least 24 hours notice will result in an addition to allowable laytime in the event a demurrage claims is filed against Aramco.

Upon first contact with an inbound tanker, HZY will transmit the following two standard messages of 181 and 50 words;

181 word message

Master Rastanuraradio/HZY

Contact HZY soonest advising 1 ETA GMT Rastanura 2 any later changes 3 Agent's name and requirements 4 arrival departure draft fore and aft 5 arrival displacement tonnage 6 deballasting hours 7 maximum loading rate full stop vessel urged to accept highest possible loading rate stop vessels loading cargo advise previous cargo and if cargo or residue aboard to be commingled with Rastanura cargo fullstop if VHF aboard call Aramco terminal planning for berthing instructions when 100 miles out on 156.8 Channel 16 or 156.7 Channel 14 stop if no VHF aboard contact HZY 500 kHz and copy traffic lists on odd hours for berthing instructions stop on arrival anchorage advise HZY official readiness time and position relative North Pier stop radio messages without charge fullstop Pilots require sufficient clean ballast for manoeuvring and will board in anchorage for mooring stop recommended propellers almost covered and trim limited to 15 ft. stop have gangway ready stop all tanks and lines must be gas free prior loading white products fullstop suggest copy HZY traffic lists several days after departure.

Aramco

50 word message

Master Rastanuraradio/HZY

Please advise any epidemic diseases or illness on board and status of crew's International Certificates of Immunisation and all ports called past 30 days also destination stop Agent stop flag stop net registered tonnage stop vessel will not be allowed to berth until this information is received.

Aramco

It is important that you send a reply to the above 2 messages soonest after receipt.

(c) The HZY Marine Station transmits on frequencies of 430; 8480; 12811 and 16960 kHz.

The number of operators on duty varies with the traffic load. During the peak period from 0400 to 1200 hrs. GMT there are 3 operators and a traffic clerk on duty. From 1200 to 2000 hrs. GMT there are two operators on duty and from 2000 to 0400 hrs. GMT one operator handles the station.

The hours of operation on the various frequency bands is as follows:

16 mHz Band 0600 to 1300 hrs. GMT (Traffic List sent at 0600, 0800, 1000 and 1200 hrs. GMT)

12 mHz Band 0600 to 1800 hrs. GMT (Traffic List sent every even GMT hour on the hour)

8 mHz Band 1800 to 0400 hrs. GMT (Traffic List sent every even GMT hour on the hour)

Medium Frequency Band 24 hour continuous operation with a speaker watch on 500 kHz. (Traffic List sent every odd GMT hour on the hour)

From 0400 to 2000 hrs. GMT there is one operator that works exclusively on the MF Band and the station transmits to the ships on 430 kHz and receives on any agreed to ship working frequency. One or two HF operators are assisting this MF operator in monitoring the speaker watch on 500 kHz.

From 2000 to 0400 hrs. GMT only one operator is on watch in the station. He keeps speaker watch on 500 kHz, works ships on 430 kHz and 8 mHz. The Traffic List is also sent at 0430 hrs GMT daily on 430 kHz and 8 mHz and at 1630 hrs. GMT on 430 kHz and 12 mHz. Available Weather/Hydros are also sent at these times.

N.B.– To facilitate contacting a vessel after departure, it is suggested that vessels copy HZY traffic lists for several days after leaving Ras Tanura.

(d) It is requested that all vessels forward their local weather observations to this station, either in code or plain language, to assist in preparation of the Gulf forecasts. No charge for the incoming traffic or for weather observations from vessels.

(e) Agents. Messages to ship's Agents are handled by HZY, free of charge. However, the shipping Agents are not permitted to use HZY for outgoing traffic. Address message to Aramco and indicate Agent's name as the first words of text.

(f) Beacon. An aircraft radio beacon, call sign RT, which transmits on 335 kc is located at Lat. 26° 37′ 36″ N., Long. 50° 09′ 47″ E.

VHF: VHF/RT/VHF radiotelephone Channels 13, 14, and 16 are available for ship-to-shore communication at Ras Tanura. Channels 13, 14, and 16 are monitored 24-hours-a-day in the Aramco Terminal Planning Office which is located in Dhahran, approximately 25 miles South of Ras Tanura. Harbour Pilots can be contacted on Channels 14 and 16. VHF equipped vessels should try to contact the Aramco Terminal Planning Office when they are within 100 mile range of the port and while at anchor. Use of VHF while alongside the oil piers to contact the Aramco Terminal Planning Office, Pilots, or Agents is permitted.

HZY will, on request via CW, utilise voice radio, transmitting on 4372.4 and 8780 kHz and receiving in the 2, 4, 8, and 12 mHz bands.

Radio Silence. The Main wireless and radar equipment of any ship must not be operated while the vessel is alongside oil piers. Use of VHF while alongside the oil piers to contact Aramco Terminal Planning Office, Pilots, or Agents is permitted.

TUGS: Under normal operating conditions, no tow-boat or other craft is to come alongside any vessel before Harbour Pilot boards vessel. Should Harbour Pilot deem assistance of a tug to be necessary, he will give proper signal. Ship's personnel must not signal for tugs or boats to come alongside except as directed to do so by the Pilot. Mooring and unmooring assistance is provided by diesel tugs, which are regularly stationed in immediate vicinity of piers. At present no charge is made for these tugs when employed in normal mooring and unmooring operations, but a charge is made for additional or unusual services. Tugs are fitted with fire pumps and water/foam monitors to assist in fighting fires.

Aramco operates 4×4,000 h.p. tugs, bollard pull capacity of 65 tons each, 3×2,000 h.p. tugs with bollard pull capacity of 35 tons each, and 1×1,600 h.p. tug with bollard pull capacity 29 tons.

BERTHING: Harbour Pilot will direct the manoeuvring of the vessel to the assigned berth. Berthing draft should be sufficient to immerse or almost immerse the propeller, with a maximum of 10 ft. stern trim. Full power and manoeuvrability should be available.

(a) Turn. Incoming ships are assigned berths in accordance with

time of arrival, product to be loaded, size of vessel, and loaded draft. Vessels loading crude oil or crude blends will normally be assigned berths as follows: Below 60,000 d.w.t. Usually assigned to North Pier (or South Pier in case of some refined products). 60,000 to 100,000 d.w.t. May be assigned either to North Pier or Sea Island depending on berth availability. Above 100,000 d.w.t. Usually assigned to Sea Island. Endeavour is made to berth vessels immediately upon arrival and Master should maintain radio contact with station HZY. If no berth available, vessels to anchor in prescribed anchorage and maintain radio contact with station HZY or Ras Tanura Port Control office by VHF radio frequencies listed under "Radio".

(b) Ballast. Storage space is extremely small for dirty ballast and residue. Prior clearance must be arranged for discharge of reclaimed oil or dirty ballast ashore. The Sea Island does not have facilities for handling this material. Aramco strongly recommend the "Load on Top" procedure wherein such residues are commingled with crude cargo whenever possible and that new vessels be built with ballast system independent of cargo tanks. A separate ballast system shortens time in port by about 5 hours. Vessels should arrive with minimum clean ballast to enable manoeuvring under prevailing weather conditions. Masters are encouraged to take advantage of the favourable weather which prevails much of the time, particularly during summer and fall months, to minimise ballast in order to reduce turn-around time. Masters should maintain radio contact with HZY or ship-to-shore communication by voice radio in order to obtain latest weather information and advice on appropriate ballast. Aramco particularly interested in having vessels complete deballasting promptly after berthing in order to minimise time at berth. Simultaneous loading and deballasting is encouraged on properly equipped vessels. Vessels requiring excessive time to complete deballasting will be given Letters of Deficiency. To avoid any possible pollution of local waters, all tankers calling at Ras Tanura to load must do necessary tank cleaning prior to arrival. Prior to arriving at a loading berth Masters must assure themselves that all tanks, pipe-lines, and pumps are free of oil. All tank cleaning must be done East of 52nd meridian. Regulations in this regard strictly enforced to protect local fishing and pearling and reduce fire hazards. If, after arriving alongside, a vessel is found to have oil ballast water on board, it will be sent to sea to accomplish necessary tank cleaning. A new notice of readiness to load must then be given.

(c) Gangway. All vessels required to furnish their own gangway which should be made "ready" prior to berthing at North or South Pier. At the Sea Island, Aramco can furnish a gangway in some berths.

OIL LOADING PIERS: There are 2 "T" head piers (piers project from Eastern face of peninsula and are commonly referred to as South Pier and North Pier) and a Sea Island.

(a) South Pier. Designed to handle T-2 class tankers. Ships up to 25–30,000 d.w.t. are efficiently handled. An 8 ft. tide permits some flexibility in loading. Ships up to 35,000 d.w.t. will be topped off and unberthed on rising tide. The pier is mainly used to load refined products and has 1×15,000 b.p.h. crude loading system to service small crude ships. South Pier connected to peninsula by causeway and trestle, 2,300 ft. in length. Pier has 4 berths and is 1,200 ft. long and 105 ft. wide. Depths South Pier as follows: Berth 1, 33 ft. at ISLW; Berth 2, 33 ft. at ISLW; Berth 3, 33 ft. at ISLW; Berth 4, 31 ft. at ISLW.

(b) North Pier. This pier handles mainly crude shipments with loading rates up to 60,000 b.p.h. Some refined products as well as refrigerated propane and butane are also available, The berths were designed for 45,000 d.w.t. tankers; however, vessels in excess of 100,000 d.w.t. have been safely handled, berthed and loaded with sufficient attention given to approach velocities and tidal conditions. North Pier located about 0.75 miles to North of South Pier, and has causeway and trestle that extends some 3,600 ft. from the peninsula. Pier is 2,200 ft. long and 110 ft. wide, and comprises 6 berths. Depths North Pier as follows: Berth 6, 46 ft. at ISLW; Berth 7, 40 ft. at ISLW; Berth 8, 47 ft. at ISLW; Berth 9, 47 ft. at ISLW; Berth 10, 49 ft. at ISLW; Berth 11, 43 ft. at ISLW.

(c) Sea Island. Located about 5,600 ft. N.E. of the North Pier. The Sea Island has 8 berths in service. Sea Island No. 4, berths 19 and 20, the largest of these off-shore loading installations with 4 hydraulic crude oil loading arms, was inaugurated on 9th December, 1972. Berths 12–17 are capable of routinely handling vessels up to 200,000 d.w.t. Berth 18 is designed to handle vessels between 65 and 400,000 d.w.t. Larger vessels can beberthed under special conditions. Depths Sea Island as follows: Berth 12, 85 ft. at ISLW; Berth 14, 85 ft. at ISLW; Berth 15, 85 ft. at ISLW; Berth 16, 85 ft. at ISLW; Berth 17, 85 ft. at ISLW; Berth 18, 85 ft. at ISLW. Each island, or pair of berths, consist of 4 mooring dolphins and a platform with 4 breasting dolphins on each side. Length of Sea Island No. 1 (Berths 12 and 14) is 1,250 ft. whereas length of Sea Islands Nos. 2 and 3 (berths 15, 16, 17 and 18) is 1,400 ft. and length of Sea Island Berth No. 4 (Berths 19 and 20) is 1,750 ft. each between outer mooring dolphins. Sea Island facility equipped with 8 submarine crude loading lines having a combined capacity of 680,000 b.p.h. and 1 black diesel oil line having a capacity of 400 b.p.h. Prevailing wind is from a N.N.W. quarter. Sea Island design is for berthing of ships at wind velocities up to 30 m.p.h. and wind pressure of 5 lbs./sq.ft. on pier structure, and 3 lbs./sq.ft. on vessel.

(d) West Oil Pier. A small oil-loading pier with maximum water depth 32 ft. Located on West side of peninsula. However, the departure channel is presently limited to 16 ft. at ISLW. Pier is used for fuelling small craft and loading coastal tankers. Vessels taking cargo subject to same safety regulations applicable to other piers.

MOORING:

1. Full power must be available for manoeuvring to and from wharves.
2. An Aramco Pilot will pilot vessel to berth assigned.
3. All manoeuvring in vicinity of, or at piers, will be under supervision of an Aramco Pilot.
4. Aramco tugs will assist in mooring and unmooring.
5. All tank tops, ullage plugs and sighting ports will be closed before berthing.
6. Vessel's Master must notify the Pilot of any special conditions, diffculties or peculiarities such as defective equipment, lines or gear which might impose special hazards in connection with handling mooring or loading of vessels.
7. Steering gear, engine-room telegraph, whistle and all navigational equipment must be tested before any manoeuvring to or from piers is started.
8. Pilot will decline to moor vessel with unsatisfactory equipment, lines, gear, etc.
9. Aramco will loan additional mooring lines if Pilot deems them necessary.
10. Vessels must be moored to entire satisfaction of Pilot.
11. Vessels must be ready to put out more lines as required by weather changes or at request of Pilot or oil-loading personnel.
12. Winches must be ready at all times for immediate use.
13. Except in emergency, no mooring lines will be let go without permission of the Pilot.
14. While alongside wharves, maintain engines and propulsive machinery ready at all times to leave wharf on short notice under full power.
15. No repairs are permitted that will delay or interfere with this manoeuvring.
16. Non-compliance with 13 and 14 constitutes a serious safety hazard. Any towage and delay resulting from non-compliance will be for vessel's account.
17. If fire or other grave emergency occurs or danger appears imminent on either the vessel or pier, do not await arrival of Pilot – immediately let go mooring lines and personally remove vessels from pier in such manner as to best avoid damage to pier or other vessels.
18. Upon completion of loading and/or bunkering and immediately after disconnection of hoses, vessel must leave berth and await clearance in stream.

Note: Most vessels will be loaded using all-metal Chiksan arms. The use of nylon or other highly elastic line is prohibited. Mooring lines should be checked frequently and kept tight to prevent excessive movement of vessel in berth. All vessels moored with automatic tension winches shall set manual brakes on these winches. Pier crews on duty continuously to handle oil hoses/arms and mooring lines. Mooring lines on board vessels will not be handled by Aramco personnel. All loading connections equipped with electrical insulating flanges. Therefore ship-to-shore bonding cables are not used.

LOADING: A commonly-used design criterion for tanker loading rates is as follows:

> Loading rate in barrels per hour equals dead weight tonnage of vessel (b.p.h. equals d.w.t.). This rate results in loading a vessel in 7 to 8 hours.

This criterion can be achieved for vessels up to 60,000 d.w.t. at the North Pier, for vessels up to 90,000 d.w.t. at Sea Island berths 12, 14, 15 and 16 and for vessels up to 120,000 d.w.t. at Sea Island berths 17 and 18. With the installation of the fourth 16 in. loading arms in berths 15 and 16, the max. loading rate at these berths will also increase to about 120,000 b.p.h. Achieving these loading rates will depend upon availability of loading systems, whether vessel's manifold permits connecting all the arms at a berth, and the loading rate at which excessive arm vibration begins to occur.

Note: Diurnal tidal rise approx. 8 ft. at spring and 5 ft. at neaps. If at any time a ship's draft approaches to within about 3 ft. of the depth of water at the berth, loading will be suspended until an incoming tide increases the depth to permit resumption of loading and provide for safe draft of the fully loaded ship on departure.

ARAMCO's Load on Top Monitoring Programme at Ras Tanura: Independent Petroleum Inspectors will visit the vessel on berthing at Ras Tanura in order to obtain following data concerning load on top procedure:

1. Vessel's particulars.
2. Loading information.
3. Type of slop tank.
4. Total volume of contents of slop tank.
5. Amount of free water in slops.
6. Amount of oil/water mixture floating on top of the free water.
7. Express amount of oil/water mixture as per cent of vessel's d.w.t.

Vessels are requested to co-operate in providing this information to the Petroleum Inspectors and to permit measuring and sampling of the recovered slop oil.

(a) Loading Rates. Following table shows products available at each berth and nominal loading rates:

Cargo	*Available at Berths*	*Barrels per Hour*
Crude oil	12, 14, 15, 16, 17, 18, 19, 20	40,000 to 280,000
Crude oil	6, 7, 8, 9, 10, 11	15,000 to 90,000
Crude oil	1, 2, 3, 4	12,000
Fuel oil	6, 7, 8, 9, 10, 11	12,000 to 22,000
Fuel oil	1, 2, 3, 4	12,000 to 22,000
Black diesel	1, 2, 3, 4	5,000
White diesel	8, 9	12,000
White diesel	1, 2, 3, 4	8,500 to 15,000
Gasoline	1, 2, 3, 4,	6,000

Cargo	*Available at Berths*	*Barrels per Hour*
Kerosene (see X-2-34)	1, 2, 3, 4	6,500
Jet fuel (see X-2-34)	1, 2, 3, 4, 8, 9	10,000
Bunker fuel oil	1, 2, 3, 4	5,000
Bunker fuel oil	6, 7, 8, 9, 10, 11	5,000
Bunker fuel oil	12, 14, 15, 16, 17, 18, 19, 20	7,500
Bunker diesel	1, 2, 3, 4,	1,400
Bunker diesel	6, 7, 8, 9, 10, 11	1,200
Bunker diesel	15, 16, 17, 18, 19, 20	400
Refrigerated LPG	6 (8 & 10 in the near future)	8,000 to 28,000
Naphtha	7 and 8	15,000

Products can be loaded simultaneously at the respective berths if shown above as being available. It is expected that most ships will be able to receive any cargo, except crude oil, as fast as it can be delivered. Officers in charge of loading must have due regard for all safety precautions as well as for individual ship hazards. If loading of crude oil or products is too slow, Aramco will advise the vessel. Should a demurrage claim be filled against Aramco the slow loading may result in an addition to allowed lay time.

To prevent ignitions by static electricity the loading rates for kerosene, jet fuel and similar white products will be reduced.

(b) Responsibility. All operations in connection with starting of loading, discharging, switching tanks and topping off must be directly and personally supervised by a ship's officer. Upon completion of loading vessel will normally be required to leave berth immediately after disconnecting hoses/arms to await clearance in tanker anchorage.

(c) Manifold Connections. Since most tankers have manifolds located near midships, the berths at Ras Tanura are designed accordingly. Aramco recommend midship manifolds for all vessels loading at Ras Tanura. Cargo loading arms at the North Pier have 12 in. and 16 in. standard 150 lb. ASA raised-face flanges. The two refrigerated LPG loading arms at North Pier Berth 6 have 12 in. and 8 in. standard 150 lb. ASA raised-face flanges. Cargo loading arms at the Sea Island have 16 in. and 24 in. standard 150 lb. ASA flanges. Cargo loading hoses/arms at the South Pier have 8 in. standard 150 lb. ASA raised face flanges. All vessels calling at Ras Tanura should be equipped with reducing spools to fit these loading connections. These fittings should be in place prior to berthing to help expedite ship turnaround time.

(d) Refrigerated LPG. Facilities for loading Refrigerated LPG located in Berth 6. LPG loaded at approximately – 40°F. for propane and 30°F. for butane. Maximum loading rate 8,000 b.h.p. for butane and 20,000 b.h.p. for propane for simultaneous loading through separate systems. Ships arriving for Refrigerated LPG cargo should have cargo tanks chilled to desired temperature upon arrival. Before loading can start the atmosphere in cargo tanks must be too rich to explode, as shown by a combustible gas indicator, or must contain less than 9% oxygen. RLPG loading facilities consist following:

(i) Two 22-in insulated loading lines each with a 6-in. liquid return line from pier to storage tanks. 4,800 ft. lines manifolded to permit loading propane in one, and butane in the other simultaneously.

(ii) Two PCMA Chiksan loading arms, one 8-in. and one 12-in. The arms are 9 ft. 5 in. centre to centre and are located about 11 ft. 6 in. from ship's rail (12-in arm is on the North side). The 48-ft. long arms designed for maximum operating elevation of 61.5 ft. above ISLW. Arms equipped with 150 lb. USAW raised face flanges. The 8-in. and the 12-in arms manifolded to permit propane or butane loading through either arm. Using 12-in. arm propane can be loaded at rates up to 17,500 b.p.h. of —40°F. (20,000 b.p.h. equivalent 60°F. liquid). Alternatively butane can be loaded through same arm at rates up to 10,000 b.p.h. of +24°F. liquid (10,000 b.p.h. equivalent 60°F. liquid). Using 8-in. arm propane or butane can be loaded at rates up to 8,000 b.p.h. of −40°F. C_3 or +24° F. C_3.

(iii) One 20-in. ship-to-shore LPG vapour return line with 12-in.hose connection to ship's vapour manifold. The 12-in vapour return riser is located 9 ft. North of 12-in. LPG. loading arm.

(e) Blended Cargoes.

(i) Fuel/Crude. If vessel's draft permits, a full cargo of fuel or a split cargo of fuel and crude can be loaded at the North Pier. In the latter case vessel design should permit simultaneous loading of both fuel oil and crude. The maximum fuel oil loading rate on the North Pier is 25,000 b.p.h. No facilities to load fuel oil cargoes at Sea Island. However, fuel portion of split cargo could be loaded at North Pier after which vessel would be shifted to Sea Island to load crude portion. Bunker "C" fuel oil is available at Sea Island at rates up to 7,500 b.p.h., metered.

(ii) Crude/Crude Blends. Many large vessels calling at Sea Island load 2 or more segregated parcels of crude and/or crude blends. Order assure satisfactory loading rates under these conditions, the piping arrangements aboard vessels should be such as to permit loading each parcel consecutively, at rates of 60 m.b.p.h., through 2 or 3×16-in. Chiksan arms. Simultaneous loading of another non-blended crude is possible if ship's manifold allows this.

(iii) Commingled. A 60 m.b.h. blender is used to supply blends of crude oil/products/LPG to both North Pier and Sea Island. A 30 m.b.h. blender is used to load blends at North Pier only. Both blenders required full time to load blends containing LPG where homogeneity is critical. Blends that do not contain LPG not required to be homogeneous during loading. Therefore whenever possible Aramco use "batch blend" method, sometimes referred to as "commingling" or ship board blending". Blenders used to supply Sea Island with blends containing naptha.

(iv) Spiked Crude. Blends of Arab Light and Arab Medium crudes and LPG are commonly referred to as spiked crude. Order assure that boiling mixtures are not delivered to a ship at any time, blend vapour pressure calculations are made prior to each loading taking into consideration such factors as crude vapour pressure, LPG vapour pressure, and Blend temperature. LPG and crude stream rates carefully controlled in In-line Blender and spiked crude blend continuously monitored by a Hallikanen Vapour Pressure Analyser so as to at no time exceed a Reid Vapour Pressure of 13 lb. or a True Vapour Pressure of 14.7 p.s.i.a. For the amount of vapour to be vented, a non-boiling mixture with a True Vapour Pressure equal to atmospheric pressures will have only about 10–20% more than for a stabilised crude of 4–5 lb. RVP.

(f) Loading Arms/pressure.

(i) Piers. Chiksan loading arms used extensively for loading crude, crude blends, bunkers, and refrigerated LPG at Ras Tanura over North Pier. Hoses used at South Pier and for occasional product and bunker loading at North Pier. North Pier has 6 berths handling vessels up to 150,000 d.w.t., equipment as follows: Type of Arms: Chiksan HMLA* arms for crude oil, crude blends, and bunkers; Chiksan PCMA** arms for refrigerated LPG (one 8-in. arm and one 12-in. arm – both at North Pier berth 6). Number and Size; Most North Pier berths have four 12-in. arms per berth for cargo with an additional 8-in. or 12-in. arm for bunkers. The bunker arm is located South (aft) of cargo arms (except for 11 berths where arm Located North of cargo arms). 1 berth (No. 8) has 12-in. arm for loading white products (located North of cargo arms) and 3 berths (Nos. 6, 8, and 9) each have a 12-in. arm in dual service for fuel oil cargoes or bunkers. Berths 8, 9, 10 and 11 each have two 12-in arms through which fuel oil cargo can be loaded. Spacing of Arms: All arms on North Pier with exception of LPG loading arms are spaced 66 in. apart, centre to centre. Capacity: Each 12-in. arm has a capacity of 15,000 b.p.h. The point at which vibration of arm and ship's manifold becomes excessive limits loading capacity. Flanges: All 12-in. arms have 12-in., 150 lb. USAS raised face flanges. All 8-in. arms have 8-in. 150 lb. USAS raised face flanges.

*HMLA – Hydraulic Marine Loading Arm.

**PCMA – Pantograph-counterweighted Marine Arm.

(ii) Sea Island. Double Counterweighted Marine Arms. Number of Arms: Sea Island berths 12 and 14 have three 16-in. arms for cargo and one 10-in. arm for bunkers in each berth. Bunker arm located South (aft) of cargo arm in each berth. A hose length is used if vessel bunker connection is forward of manifold. Sea Island Berths 15 and 16 have four 16-in. Chiksan cargo loading arms. Berths 17 and 18 have four 16-in. cargo loading arms. 2 loading arms in Berth 18 are 72 ft. long. All other loading arms 60 ft. long. Two 10-in. bunker arms (one on each side of the cargo arms) provided in each of these 4 berths. Berths 19 and 20 are each equipped with four 24-in. crude loading arms and two 16-in. bunker arms are limited to ships of 150 m.d.w.t.– 500 m.d.w.t. sizes. Spacing of Arms: All arms on Sea Island spaced on 11 ft. centres. This large space required to permit rotating travel of counterweights. Elevation of Arms: 60 ft. arms designed for maximum operating elevation of 72 ft. above ISLW whereas 72-ft. arms operate 97 ft. above ISLW. Capacity: Capacity of each of 16-in. arms is 30,000 b.p.h. Actual capacity limited by vibration – thus ship's manifold design should be adequate and well supported. Flanges: Flanges on 16-in. arms of Sea Island Berths 12 and 14 are 16-in., 150 lb. USAS *flat* faced. Flanges on 10-in. arms of Sea Island berths 12 and 14 are 10-in., 150 lb. USAS *flat* faced. Flanges on 16-in. and 10-in. arms of Sea Island Berths 15–18 same as above except that they are *raised* face. An alarm sounds when pressure in loading arm reaches 100 p.s.i.g. and pier operator shuts down loading. A motor-operated valve upstream of loading arms is throttled during "topping-off" operations to prevent over-pressuring. In addition to alarm which sounds when loading system pressure reaches 100 p.s.i.g. at Sea Island, loading pumps shut down automatically when pressure reaches 125 p.s.i.g. This feature does not protect against high surge pressures associated with sudden shut-off against a high loading rate. Loading rate control is by means of an hydraulic coupling between pump and motor of each loading system. Speed of pump (and thus loading rate) is remotely controlled from Sea Island. Push button controls at loading arms and in control room shuts down loading pumps and closes a motor-operated valve in loading line. Pump discharge pressure on shore is 150 p.s.i.g. Pressure at ship's manifold depends on size and number of ship's lines, number of tanks being loaded, loading rates, etc. Aramco design basis is for pressure of 30 p.s.i.g. at ship's manifold when loading at 75,000 b.p.h. through Chiksan arms. Aramco recommended this same ship's manifold pressure for higher rates, also.

(g) Valves. Calculations indicate valves closing in *less than 30 seconds* when loading at high rates will cause excessive surge pressure and will possibly damage Chiksan arms and ship's loading manifold. Aramco strongly recommend that hydraulically controlled valves be adjusted to close in no less than 30–40 seconds. Several ships which have called at Ras Tanura have

hydraulically operated valves in their cargo handling systems which close in 5 to 10 seconds. Closure of valves in 5 to 10 seconds while loading at high rates will result in momentary surge pressures well above pressure rating of ship's loading system fittings and maximum pressure rating of Chiksan arms. Aramco presently limits loading rate of ships equipped with fast closing hydraulic valves. As an example, ships with rates of 22,000 b.p.h. per system.

LPG–REGULATIONS: Refrigerated LPG is loaded at Ras Tanura at North Pier Berths No. 6 and No. 8 only. (Also Berth 10 commencing March 1977. See below). The water depth at Berth No. 6 is 46 ft. at ISLW and 49 ft. at ISLW in Berth No. 8. LPG is loaded via 12 in. Chiksan arms at a maximum rate of 20,000 b.p.h. for propane and 8,000 b.p.h. for butane. The butane loading rate will be increased to 20,000 b.p.h. in the near future. A vapour return line to shore is provided and vessels must be connected to it during all loading operations.

A check of the ship's fire-fighting equipment will be made prior to start of loading and periodic safety inspections will be made by Aramco personnel throughout the loading operations.

The following specific regulations will be followed:

1. Prior to starting any RLPG cargo loading, the Ras Tanura Terminal Shift Co-ordinator shall confer with the vessel's Master and/or Responsible Loading Officer to determine the following:

   (a) Quantity and type of product in each ship tank and whether it is part cargo or residue required for cooling.

   (b) Temperature and pressure of each ship tank.

   (c) Product to be loaded in each ship tank.

   (d) Residue in the ship tanks will be measured by the Independent Inspector assigned to the ship and witnessed by an Aramco Inspector.

2. Facilities at Ras Tanura *are not* designed for loading pressure LPG and *no* LPG will be loaded into ship's tanks that are not equipped with refrigeration facilities and are not adequately chilled. Ships' tanks must be cooled to minus 38° F. maximum for A-140 propane loading and from 0° F. minimum to plus 32° F. maximum for A-160 butane loading.

3. Butane may be loaded into ships' tanks containing residues up to 10% of the cargo to be loaded.

4. Propane may be loaded into ships' tanks containing propane residue of up to 10% of the cargo to be loaded.

5. There shall be no loading of dissimilar products into the same ship tank, i.e. butane shall not be loaded into ships' tanks containing propane and propane shall not be loaded into ships' tanks containing butane.

6. Part cargo on board at the time of the ship's arrival must be measured by the Independent Inspector and witnessed by an Aramco Inspector regardless of whether Aramco cargo is to be loaded on top or not. Quantities over 10% of the cargo to be loaded are considered part cargo. Prior authorisation must be obtained to allow butane or propane loading into ship tanks containing part cargo.

7. Should the vessel be unable to comply with the above regulations owing to extremely unusual circumstances, Aramco operations and engineering management representatives shall confer with the vessel's Master and/or Responsible Loading Officer to develop a loading plan/procedure for the safest possible loading for the tanks containing dissimilar residue. The plan shall be in writing, agreed to by both parties and take into consideration loading rates, temperatures, pressures and all possible safeguards to ensure minimising the dangers to ship and shore installations. It must be understood that this procedure will involve delays to the vessel and will impose additional work-loads on both shore and ship personnel.

8. In no case will loading be permitted into ship tanks containing liquid product of a different grade in *excess of 10 tons.*

9. When a vessel requires special handling as described above, the vessel shall be given a letter of protest with copies to owners and operators. The letter shall state that the vessel has been handled on a one time basis and advise that upon its next arrival at Ras Tanura it will have disposed of any residual cargo or have a nomination which will preclude loading dissimilar products.

10. RLPG vessels with warm cargo tanks are not normally handled at Ras Tanura. When special circumstances warrant, new ships and other vessels with warm tanks may be accommodated under the following conditions:

   (a) Ship's tanks must be inerted. A sample must be taken by Aramco personnel from each of the vessel's tanks to ensure that it has been properly inerted. Tests must indicate a reading of 7.5% oxygen or lower taken by Orsat analysis or J-W oxygen indicator.

   (b) Vapour returned during chilling operations will be sent to the shore flare system.

   (c) The loading rate during the chill down period will be kept low and may be reduced if deemed necessary to minimize the amount of vapour sent to the flare or otherwise lost.

   (d) The amount loaded for chilling purposes will be measured in the ship tanks by the Independent Inspector assigned and witnessed by an Aramco Inspector.

   (e) After cargo for chilling tanks has been loaded aboard, the ship must proceed to anchorage and complete chilling of the other ship tanks before returning to berth to load cargo.

   In case the cooling operation involves cooling of these additional tanks with an oxygen content over 7.5%, the vessel must leave the port anchorage area.

   (f) Upon return to berth for continuation of RLPG cargo loading, all tanks which are to receive cargo will be ullaged by the Independent Inspector and witnessed by an Aramco Inspector.

11. During loading of refrigerated A-140 propane or A-160 butane, shipboard readings of loading compartment temperatures and pressure by grade of cargo loaded shall be witnessed several times routinely by the Ras Tanura Terminal Shift Coordinator to ensure that the ship stays within the safe loading limits for temperature and pressure for each grade listed in regulation 2.

12. At completion of loading, the designated Independent Inspector will measure all cargo tanks. These ullage measurements will be witnessed by the Aramco Inspector. These measurements will be taken on all ship tanks regardless of whether cargo was loaded into these tanks at Ras Tanura.

13. Vessels with part cargoes on board of products other than A-140 propane or A-160 butane must be equipped to keep any liquid or vapour from those cargo parcels completely self-contained. There must be neither any return of non-compatible vapour to shore recovery systems nor any venting of such vapour to atmosphere while at berth. No mixing of dissimilar refrigerated liquids is allowed at berth.

14. Vessels loading either propane or butane are expected to use the appropriate shore vapour return line but only for excess vapour which the vessel vapour recovery equipment cannot handle. Should excessive vapour be returned to shore and the situation cannot be promptly corrected aboard ship, the loading shall be shut down. Loading shall be resumed only after the loading plan has been reviewed with the Master or Responsible Loading Officer by the Ras Tanura Terminal Shift Coordinator and corrective action has been agreed upon.

15. In the event of a spill of liquid propane or butane on board the vessel, shore loading shall be shut down until proper corrective action to clean up the spill and to avoid future recurrence has been agreed upon by the Master or Responsible Loading Officer with the Ras Tanura Terminal Shift Coordinator.

16. There are no facilities at Ras Tanura for the return of either liquid propane or liquid butane cargo. Vessels must pay strict attention not to overload either of these grades.

Berth No. 10: LPG loading expected to start at this berth in March 1977.

Specifications are as follows:

LPG Loading Arms for ship connection:

No.	*Diameter*	*Length*
4	12 in.	37 ft.
2	—	—

Bunker Loading Arms for ship connection:

No.	*Diameter*	*Length*
1	8 in.	37 ft.

Bunker and LPG Arms outreach:

Max. Elevated Reach	*Min. elevated Reach*
+90 ft. at ISLW	+30 ft. at ISLW

Riser Spacing:

Bunker Line	– No. 2 LPG Line	11 ft.
No. 2 LPG Line	– No. 3 LPG Line	11 ft.
No. 3 LPG Line	– No. 4 LPG Line	11 ft.
No. 4 LPG Line	– No. 5 LPG Line	8 ft.
No. 5 LPG Line	– No. 6 LPG Line	11 ft.
No. 6 LPG Line	– No. 7 LPG Line	7 ft.

Maximum Allowable Drift:

Fore and Aft	15 ft.
Off berth	32 ft.
Manifold Range	20 ft.

MEDICAL: When necessary, Master may obtain medical attention for ship's personnel from port doctor (quarantine officer), who may in the case of serious illness or injury recommend treatment at Dammam Government Hospital, Government or private clinics in Ras Tanura, or Al-Sharq hospital in Al-Khobar. Port doctor ordinarily will treat minor illness or injuries on board ship. A charge is made for medical attention or supplies furnished by port doctor or other private sources. Medical facilities of Aramco made available in emergency only when referral is warranted medically. A charge is made for medical attention or supplies furnished by the Company. Aramco radio station, HZY, may be used without charge by vessels at sea to obtain medical advice at any time.

WATER: The natural well water obtainable in Ras Tanura is quite brackish and is used mainly for washing. Well water obtainable at all berths on North and South Piers at a rate of 50 t.ph. Water is not available at Sea Island. Vessels will be supplied with well water usually up to a limit of 100 tons at a cost of approximately $1.25 per ton. Distilled water also obtainable at all berths on North and South Piers, at a rate of 20 t.p.h., but supply usually limited to 25 tons per vessel. The cost is $4.00 per ton. Private water or bunkering barges in port of Ras Tanura.

FUEL: The maximum viscosity of fuel oil bunker is 60 SF at 122°F. The maximum viscosity of black diesel bunker is 55 SU at 100°F. About 72 hours advance notice is needed for large lifting of these fuel grades.

It is recommended that vessels taking bunkers only, call at Ras Tanura prior to loading cargo elsewhere. By following this recommendation vessel will avoid delays caused by draft and berth assignment problems.

Bunkering facilities are operated by Aramco. Failure of a ship to provide advance notice of bunker requirements could result in vessel delays. Majority of bunkering effected through temperature-compensated positive displacement meters which record on print-out forms the net barrels at 60°F. delivered. Galley fuel is available at all berths at the North and South Piers. Not available at Sea Island. Lubricating oils available in limited drum quantities if ordered in advance by letter or radio through ship's Agent.

Sea Island. One 20/22 in. line supplying bunker "C" bunkers up to a maximum of 7,500 b.p.h. Bunkering is simultaneous with cargo loading. A diesel supply line (black diesel) has been extended to berths 15 to 16 of Sea Island for bunkering vessels when alongside to either one of such berths.

SAFETY: Master should acquaint himself with Aramco's safety regulations, and obtain copy of regulations from terminal representative. Port of Ras Tanura maintains vigorous tanker loading safety programme. Arabian American Oil Company is a member of International Oil Tanker Terminal Safety Group (IOTTSG) and as such follows procedures recommended by this international organisation. Each ship's Master is presented with a "Declaration by Master" by pier safety representative who discusses each item in detail with Master. Prior to start of loading cargo and at several times during loading, pier safety inspectors will personally visit vessel and, in company with one of ship's officers, will check to ensure that safe loading practices are being observed by both ship and shore.

Hydrogen Sulphide Hazards: Aramco crudes may contain dissolved hydrogen sulphide in concentrations which would cause the gases vented during tanker loading to be hazardous if inhaled. Aramco recommend that Masters review instructions issued by Owners/Charterers about hydrogen sulphide hazards. If loading of H_2S bearing crude oil is not covered by such instructions, Aramco has available, upon request, a list of recommendations to aid Masters.

Signals for Emergency: *(a)* Ship should sound an "Emergency Stations" signal consisting of a continous ringing of ship's alarm bells supplemented by a series of short blasts of ship's whistle or siren. *(b)* Telephone is fitted on jetty. Normally, Aramco personnel will telephone for assistance. If no Aramco personnel available, ship's personnel may call for emergency assistance by dialling telephone number 3100 from any berth. *(c)* Assistance can be summoned on VHF radio if necessary. Use International Channel 16 on VHF. Give location and extent of assistance required. *(d)* Shore signal in event of an emergency is either a fire siren or a series of short blasts on an alarm or horn.

CUSTOMS: All materials to be either exported from or imported into Saudi Arabia subject to examination by Customs authorities. Importation of certain articles is strictly prohibited. Such articles include: alcoholic beverages, including beer and wines; explosives; firearms; implements of war of any kind, including antiques; religious matter not pertaining to the Moslem faith; playing cards and gambling devices; narcotics. Trafficking in these items between ships also strictly prohibited. This applies to ships at anchor as well as to ships at piers. Almost without exception, all other commodities subject to close examination and to Customs Duty if imported. Saudi Arab Government discourages trafficking between members of ship's crews and shore personnel.

CONSULS: United States Consulate General established at Dhahran, about 50 miles by road from Ras Tanura. British Political Agent established on Bahrain Island. It is very difficult, however, to contact Bahrain Island from Ras Tanura, and Masters having business there usually arrange to call at port of Sitra.

REPAIRS: Relatively limited repair service available from local business concerns. Aramco will assist in making emergency repairs on vessels only if approved by Aramco Marine Superintendent or Port Captain. Suggested that Master discuss repair charges with ship's Agent prior to authorising or requesting any repair work. Deep sea divers, operating from modern and well-equipped diving boats, available under same conditions as repairs services. When alongside Aramco piers, vessels must maintain engines and propulsion machinery in readiness to leave the pier under full power on short notice. No repairs permitted which would interfere with this requirement. Violation of this rule will entail towage from the berth at the vessel's expense and Aramco will not accept responsibility for the resulting delay to the vessel.

REPATRIATION: Arrangements can be made through ship's Agent. All crew leaving or joining vessel require valid passport or Saudi Arabian visa.

The following countries are considered cholera-infected areas: Burma, Cambodia, India, Indonesia, Laos, Nepal, Pakistan, Philippines, Singapore, Thailand, Vietnam.

All concerned persons, including regular passengers and crew members, must bring in a stool culture Certificate, and 5 day stay in a cholera-free area Certificate, in addition to the usual Health Certificate, for entry into Saudi Arabia. Persons not possessing the above-mentioned Certificates will be denied entry by Immigration Authorities, and returned to the place of their embarkation.

AIRPORT: Ras Tanura terminal about 50 miles from Dhahran Airport. This airport is serviced by many international airlines.

TIME: Company generally bases local time on 45th meridian (3 hours East of Greenwich). In order to avoid any confusion all communications should be quoted in Greenwich Mean Time.

HOLIDAYS: Ras Tanura port operates 24 hours a day, 365 days a year, irrespective of holidays.

EMERGENCY TELEPHONES: Emergency (fire, serious injury), 110; Harbour Pilot's Office (24 hours) 81495; Pilots' Office (Sea Island No. 4), 81234; Pier Foreman: North Pier, 81440; South Pier, 81461; Sea Island, 81452.

SERVICES: *(a)* Recreation Centre. Seaman's Recreation Centre located at shore end of South Pier causeway. The route to the centre and area itself is prescribed and no one should attempt to violate these limits, as Coast Guard personnel guard the route. Violators subject to arrest. Arrangements may be made through ship's Agent for launch transportation from North Pier. During limited hours, soft drinks and ice cream available at nominal cost. Motion pictures, games, and a barber shop also located at this facility. *(b)* Provisions. Ship's chandlers available through ship's Agent at piers, but are not allowed to board vessel. *(c)* Oil Inspectors. Oil inspection service maintained by following independent agencies: Charles Martin Inspectors of Petroleum Inc., 61 Broadway, New York, New York 10006; E. W. Saybolt & Co., S.A., 400 Swenson Drive, Kenilworth, New Jersey 07033; B. & R. Redwood, Orchard Lea, Winkfield, Nr. Windsor, Berks., England; U.S. Navy. *(d)* Surveyors. American Bureau of Shipping and Lloyds of London maintain a marine surveyor at nearby Manama on Bahrain Island.

SHORE LEAVE: Ship's personnel and passengers not permitted ashore for any purpose whatsoever until pratique granted. This regulation includes going to pier to read arrival draft. Personnel may go to pier if actually engaged in duties connected with discharging of ballast, loading, etc., but only after pratique granted. All shore leave contingent upon compliance with quarantine regulations. Direct transit to or from Seamen's Recreation Centre requires no special government approval. Centre is open to seamen usually between the hours of 1430 and 2230 local time each day (during summer months of May through September, Centre is open between hours of 1330 and 2130 local time.) Saudi Arab Government regulations strictly enforced, and if Masters have any doubts with regard to these regulations they are urged to consult their Agent. While in port, vessel's personnel under jurisdiction of Saudi Arab laws.

POLLUTION: Discharge into the sea of oil or or oil-base products either alone or in combination with ballast water is not allowed. Since the terminal does not have facilities to receive any significant amount of oil residues or oily ballast water, tankers arriving alongside with such materials on board will be sent to anchorage to await further orders unless the vessel has prior clearance to load on top of such materials or unless the ship's Master agrees to segregate such materials in a separate tank. Ships which release oil or oil residues including oily ballast water in either berth or anchorage area will be held responsible for all clean up costs.

Aramco vigorously observes, investigates and documents all cases of oil discharge to the sea and reports such releases to the Saudi Arabian Government in accordance with its requirements.

VISITORS: *Ras Tanura – Shipowners' Representatives requiring special permission for visits to port areas:* The Port Authorities in Ras Tanura and Dammam state that in the future they will strictly follow the regulations for the ports, stipulating that unauthorised personnel will not be allowed to enter the port areas under any circumstances.

This will also apply to temporary visitors, the purpose of whose visits partly might be to see the ports, e.g. shipowners' representatives. However, exceptions to this rule will be made, provided applications for special permits are sent to the port authorities in Dammam well in advance of the visit. As regards visits to the port area the shipowners must themselves apply for a permit with the head office of one of Aramco parent companies, i.e. Chevron, Esso, Mobil, Texaco, etc.

AUTHORITIES: The Arabian American Oil Company, Dhahran, Saudi Arabia. Cable Address, Aramco, Dammam. Port Officials: Saudi Arab Government port authorities located in Customs House, Port Office, and Quarantine Office at Ras Tanura.

AGENTS: Mail Address: Gulf Agency Co. (Saudi Arabia) Ltd., Aramco Mail Box 621, Ras Tanura, via Dhahran, Saudi Arabia. Telephones: 33171, 33132 (24 hour service). Telex: Bahrain 8211. Stating "For Ras Tanura", answerback "Gacship GJ 8211". Cables: "Confidence Bahrain". Stating "For Ras Tanura". Radio: Vessels can communicate with SSB radio station, frequencies 3539 and 6910, call-sign "Confidence Ras Tanura".

For ship to shore communication, Ras Tanura office is also equipped with VHF radio, call-sign "Confidence Ras Tanura", on Channel 16, switching to Channels 13, 6, 9 or 14 for communication.

Tanker Crew mail: To be directed to: c/o Gulf Agency Co. (Saudi Arabia) Ltd., Rahima P.O. Box, Ras Tanura, via Dhahran, Saudi Arabia, The Gulf.

YEMBO (Yenbo): 24.05 N. 38.03 E.

FLAG: Saudi Arabian flag must be hoisted.

LOCATION: On Red Sea coast, about 218 nautical miles North of Jeddah.

CHANNEL: Ships entering port pass a channel of the following measurement: Length 1647 m., width varying between 70 to 130 m., width at entrance between beacons 310 m.

BEACONS: 11 miles outside port, beacon at Al-Sharm. Height 23 ft. White flash every ten seconds. At entrance of port channel two beacons, height 15 ft. Starboard-hand beacon (black), green flash every second. Port-hand beacon (red), red flash every second.

795 m. from channel entrance on port hand is another beacon, height 15 m. (black and white squares), white flash every second.

BUOYS: Channel is buoyed with red and green port and starboard-hand buoys.

PILOTAGE: Compulsory. Vessels requiring Pilot should exhibit code flag or International light signal.

DOCUMENTS: All vessels calling Yembo should provide authorities with the following:

Passenger Vessels

- Certificate of Registry.
- International Safety Certificate (issued and validated from one of the signatory states of the pact).
- Radio-telegraphy Safety Certificate.

Cargo Vessels
- Certificate of Registry.
- Load Line Certificate.
- Safety Construction Certificate.
- Safety Equipment Certificate.
- Safety Wireless Certificate for vessel of 1,600 tons d.w.t. or more
- Safety Wireless and Telephone Certificate for vessels of 300 tons to 1,600 tons d.w.t.

Requirements of Cargo and/or Pilgrim Documents:

For Doctor
- 2 copies Passenger List – Landing.
- 2 copies Passenger List – Transit.
- 2 copies Crew List.
- 2 copies Declaration of Health.

For Customs
- 2 copies Passenger List – Landing.
- 2 copies Passenger List – Transit.
- 2 copies Crew List.
- 2 copies Ship's Bond (tobacco, spirit, wine and beer).

For Immigration
- 6 copies Passenger List – Landing.

For Agents
- 6 Copies Passenger List – Landing.
- 1 copy Crew List.

Prior to the vessel's arrival the following documents are required for translation and submission to the various authorities:
- 7 copies of the Cargo Manifests.
- 1 copy of Freight Manifest.
- 2 copies of Stowage Plan.
- 2 copies Hatch List.
- 1 copy each non-negotiable Bills of Lading.
- 1 List of dangerous cargo whether for discharging or in transit.

HEALTH: All incoming vessels should abide by health regulations and present necessary documents to the authorities in accordance with international laws, i.e. as under: Q if the health condition is clean. QQ if there is a suspicious case in the vessel. QL if there is an infectious or epidemic case on board.

RADIO: Until the implementation of a Beacon Station for navigation all ships entering port before passing the channel should contact Port Department by radio/telephone during following times: 0500 to 0600 hrs. GMT; 1000 to 1100 hrs. GMT; 1400 to 1500 hrs. GMT.

These are the decided times during normal days, but during the Hajj Season a new publication is issued to cover additional times:

BERTHING: The port has two quays built at right -angles. The Northerly berth is 170 m. long and the Easterly berth is 210 m. long. The depth is 28–29 ft. The port can accommodate 2 big and 1 small ship or 4 small ships. Turning circle is 360 m.

Mobile cranes with a capacity of between 1 and 5 tons are available. There is also a supply of fork-lifts to meet with present port requirements. Discharge is mostly carried out by ship's own gear.

There are no barges at Yembo, but 70 native lighters (sambouks) with a capacity of between 5 to 80 tons are available. The total capacity of these native lighters is 1,034 tons.

STEVEDORES: Like Jeddah, stevedoring at Yembo, is based on daily paid basis. There are no stevedoring companies and labour is engaged on day to day basis.

There is one custom warehouse at the moment (at Easterly berth) which can accommodate about 10,000 tons of cargo. This shed is near quay and can receive cargo direct into shed from vessel.

FRESH WATER: Ships receive fresh water alongside quay and a 24 hours advance notice by the Master should be given. There are no facilities to supply water at anchorage.

CUSTOMS ALLOWANCE: Each crew member may have 200 cigarettes or 0.5 lb. tobacco, but all alcohol and wine, beer, etc., must be sealed. This applies to all persons on board. For each flask/glass/bottle containing alcohol found by the customs, there is a penalty of £100 sterling.

SHORE LEAVE: Passengers may only go ashore if they have a valid visa. Crew may go ashore if they have written permission from Master and leave their passports with passport office at the port.

DEVELOPMENTS: Contracts have been signed for the construction of 5 quays and 5 mobile platforms.

AGENT: Head Office. Gulf Agency Co. (Saudi Arabia) Ltd., Shipsbrokers and Agents, POB 86. Airport Post Office, Dhahran, Saudi Arabia. Cables: "Confidence" Bahrain (stating for Dammam) or "Confidence Dammam". Tel. 23425/26. After office hours. 41742 and 23526. Telex: 60069, 60016 ("GAC SJ").

ZULUF TERMINAL: 28.23 N. 49.14 E.

TERMINAL CLOSED DOWN APRIL, 1976. THE STORE BARGE HAS LEFT. NO FURTHER OPERATIONS WILL TAKE PLACE AT ZULUF.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Senegal

DAKAR: 14.40 N. 17.26 W.

PORT LIMITS: *North:* from the point of Bel-Air by a parallel from N.E. of the N.E. Jetty of the harbour, to 1 mile N.E. by a meridian passing 2,900 m. East of the Round-Point determined by the crossing of Felix Eboue and Avenue de la Jetee Nord and by the parallel passing 2,060 m. North of Goree Island.

East: By the meridian passing 1 mile East of Goree.

South: By a line joining the Cape Manuel from the South point of Goree prolonged until it encounters the meridian passing 1 mile East of Goree.

DOCUMENTS:

5 Crew Lists.
2 Lists of Vaccinations.
6 Lists of Passengers in Transit.
6 Lists of Passengers Disembarking.
4 Lists of Crew Personal Effects.
4 Lists of Ship's Stores.
1 Maritime Declaration of Health.
2 Lists of Ports of Call.
5 Ship's Report Inwards.
1 Hatch List.

PILOTAGE: Pilots meet vessels off the North point of the Island of Goree in a naturally sheltered area.

RESTRICTIONS: During the rainy season, all vessels with a draft of more than 32 ft. 6 in. could be delayed due to the effects of swell to stay at anchorage in outer-roads and await meteorological conditions permitting their entry into the harbour.

Use of whistle signals to call Pilot is forbidden between 2200 and 0600 hrs. The harbour area is dredged to a depth of 10 to 11 m.

MAX. SIZE: Ships of 33 ft. draft are able to enter at all stages of the tide by day and night. Vessels up to 36 ft. draft may enter at high tide except possibly during the stormy season, between mid August and mid October.

HEALTH: Health Officials board vessel immediately after berthing alongside. For passenger vessels, these formalities are effected before berthing to avoid delays. Vessels at sea may obtain medical advice by VHF via Dakar Radio.

Inoculation/Vaccination can be arranged through Agent during weekdays.

Free pratique can be granted via radio by Agent, by using international Code Words "MIBDU/MIJMA".

VHF: The Port Captain's Office, pilot station and tugs are equipped with VHF, with the following channels: Channel 16 used by vessels approaching to contact pilot station or Port Captain's Office; Channel 12 used during manoeuvres for communications between Pilots and tugs; Channel 6 used only by the tug station.

TUGS: Operated by a private company, 4 tugs available up to 2,000 h.p. Compulsory for loaded tankers.

BERTHING: 9,000 m. of quay length available of which more than half has depths of 8 to 12 m. alongside.

Mole D'Escale: 6 berths, depth alongside 10 m., can be used for vessels refuelling simultaneously with cargo operations.

Pier 718 Phosphate quay (Pechiny). 215 m. long, max. draft of 25 ft. 7 in., loading average of 200 T/hour.

Pier 52 Phosphate quay (TA IBA). 170 m. long, max. draft of 36 ft., loading average of 1,000 T/hour.

The South area has three wharves with a depth of 26-33 ft.

Dock I is 460 m. long.

Berth	No.	12	Draft	26 ft. 3 in.
"	"	13	"	28 ft. 7 in.
"	"	14	"	28 ft. 7 in.
"	"	15	"	33 ft.
"	"	17	"	33 ft.

Dock II

Berth	No.	21	Draft	27 ft. 3 in.
"	"	22	"	26 ft. 11 in.
"	"	24	"	26 ft. 3 in.
"	"	25	"	25 ft. 11 in.

Dock III

360 m. long. Max. draft of 32 ft. 10 in.

TANKERS: The Petroleum Basin is dredged to a depth of 10 to 11 m. Two jetty berths can receive tankers up to 200 m. length, max. draft 32 ft. 6 in. Petroleum Wharf: 4 berths, depth alongside 12 m. (depth in approaches 11 m.) can receive tankers up to 250 m. length with a draft of 36 ft.

STEVEDORES: Normal working hours, weekdays from 0800 to 1200 hrs. and from 1400 to 1800 hrs. Saturdays from 0800 to 1200 hrs. Overtime, weekdays from 0500 to 0800 hrs.; from 1200 to 1400 hrs.; from 1800 to 2200 hrs.; from 2200 to 0500 hrs. Holidays and Sundays from 0000 to 0500 hrs.; from 2200 to 2400 hrs.

MEDICAL: *Vaccinations;* Possible from 0800 to 1200 hrs. and 1500 to 1700 hrs. Sundays and holidays excluded. *Doctors:* All kinds of specialists available. *Hospitals:* With qualified doctors and good equipment.

FRESH WATER: All quays are fitted with water hydrants. Water supplied by 3 hoses simultaneously, with a rate from 60 to 100 cu. m.p.h. Can also be supplied by barge up to 400 tons capacity.

FUEL: All grades can be supplied from the quays up to 1,000 t. p.h. Fuel can also be supplied by barge. Also see "Shipmasters' Report".

REPAIRS: All types of repair can be effected by the Naval Arsenal or by private companies.

DRY DOCK: At the Naval Arsenal, one dry dock length 189 m., width 23 m., depth up to 9.50 m.

REPATRIATION: Seamen can be repatriated to Europe without delays by air.

AIRPORT: International airport with regular services to Europe.

TELEPHONES: All berths are equipped with telephone apparatus which is placed on board vessels without charge.

HOLIDAYS: New Year (1st January); Tabaski (Variable Date); National Day (4th April); Easter (Variable Date); Labour Day (1st May); Ascension Day (7th May); Whit Monday (Variable Date); Maouloud (Variable Date); National Day (14th July); Assumption (15th August); All Saints' Day (1st November); Korite (Variable Date); Christmas (25th December);

SHIPMASTER'S REPORT: With a draft in excess of 15 m. it is not possible to anchor in the inner roads due to the swell. The swell is worst from July to October (rainy season).

The Pilot directed us to an anchorage 0.5 miles N.E. of I. de Goree but in my opinion it is a little too close. However, the nearer a vessel can anchor N.E. of Goree the better. The holding ground is very good.

It is possible to talk to Mory Fuel Company direct on VHF Channel 2. They have a barge which is able to deliver fuel oil and diesel oil, capacity 500 tons.

Three tugs available, be sure to order one well in advance before completion of bunkering or the vessel may have to wait. Bunkering undertaken day and night.

AUTHORITY: Port Autonome de Dakar.

AGENT: Socopao Senegal, 47 Avenue Albert Sarrault, B.P. 233. Tel. 26600/7. Telex 521-621-622. Cables "Freight Dakar".

KAOLACK: 14.09 N. 16.06 W.

DOCUMENTS:

2 Crew Lists.
2 Store Lists.
2 Manifest pacotille (tobacco, wine, etc.). Agents deposit to Customs office.

PILOTAGE: Pilot taken on board, and lands in Dakar. When vessels do not require tank-washing, the Pilot disembarks in roadstead.

ANCHORAGES: Sufficient for three vessels only. About 6 m. deep.

RESTRICTIONS: Night navigation forbidden in River Saloum.

MAX. SIZE: Length 105 m. (because of River Valor).

HEALTH: Agent signals to Harbour Master. Provisionally vessels quarantine in Dakar. No hospital.

TUGS: No tugs. (Only from Dakar.)

BERTHING: Signals by flag when berth available. Vessels enter at flood tide so that they can turn at anchorage to be ready for sailing.

MEDICAL: Yellow fever vaccinations only at Dakar. No hospital facilities.

DENSITY: August to December: sea water. January to July: 1.55.

FRESH WATER: Available at 10 t.p.h.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Arranged by Agent.

OPENING/CLOSING HATCHES: By stevedores.

CUSTOMS ALLOWANCE: Tobacco, No restrictions, but Customs control on board (declaration on manifest). Crew going ashore only allowed cigarettes marked "Vente au Senegal". Wine and/or Spirit, Not limited, Customs controlled.

IDENTIFICATION CARDS: Not necessary.

CONSULS: None (Dakar only). French Consulate Agent: Mr Jean Guillemot. UTRAM. Tel. 87. Telex Mafic 781 SG.

REPAIRS: None (only Dakar).

REPATRIATION: Not possible (Dakar only).

AIRPORT: None.

TIME: GMT Permanent.

HOLIDAYS: Independence Day (4th April) no loading. Tabaski (dependent on moon phase).

FIRE: Tel. 324.

TELEPHONES: Not possible to place on board.

SHORE LEAVE: Crew members allowed ashore.

REGULATIONS: Vessels must hoist Senegalese flag and notify Agent before entering port.

AUTHORITY: Harbour Master.

AGENT: See "Dakar".

Seychelles

PORT VICTORIA, Mahe: 04.37 S. 55.28 E.

DOCUMENTS:
Maritime Declaration of Health – forms obtainable from Medical Officer.
Deratisation Certificate.
5 Crew Lists and Passengers' Lists.
Dangerous Cargo List.
Ship's Register.
Crew Declaration Form.
Declaration of Stores.
Parcels List.
Firearms List.
List of Animals remaining on board.
Un-manifested Cargo List.
Cargo Manifested.

PILOTAGE: Compulsory in inner and outer harbour for any vessel of or exceeding 150 tons net burdened register.

24 hours notice, giving draft and length. Telegraphic address "Demarine" through Cable & Wireless (on schedule 500 kc/s. and 8714 mc/s. Schedule published in Radio list. Harbour control equipped with VHF Channels 16, 12 and 6).

Pilot Boat: White hull with blue cabin, with "H" flag.

Signals for Pilot: "G" by flag and/or whistle and by night "G" by morse. Pilot boat stationed inshore and proceeds to sea to meet approaching vessels. Pilot can board in any weather. While awaiting Pilot; vessel can anchor in any suitable anchorage in the pilotage area. Vessels should call "Harbour Control" on VHF, Channel 16, two hours before arrival between 0700 and 1800 hrs. Between 1800 and 0700 hrs. the station may not be manned.

ANCHORAGES: (1) Anchorage A. In depth of 66 to 72 ft., fine sand and shells. Good holding, 9.75 cables, 058 degrees from Victoria Lighthouse.

(2) Anchorage B. In depth of about 64 ft., sand and coral. Good holding, 8.25 cables, 074 degrees from Victoria Lighthouse.

(3) Anchorage D. In depth of 78 ft. coral and sand. Good holding, 3 cables, 048 degrees from Victoria Lighthouse.

(4) Anchorage E. In depth of about 78 ft., sand and shells. Good holding, 1.25 miles, 089.5 degrees from Victoria Lighthouse. Super tankers and large vessels anchor outside the Fairway Buoy in any suitable anchorage. The Master should always contact Harbour Master for anchorage instructions.

RESTRICTIONS: All shipping movement in Inner Harbour to take place during daylight hours only. In Outer Harbour, night movement at discretion of Master. No tide restrictions.

HEALTH: "Q" Flag or international red over white. Medical Officer boards vessels at anchor and before entering Inner Harbour. Crew Lists with vaccination dates against smallpox, yellow fever and cholera if vessel from infected places. Health clearance given at Port Victoria only. Hospital facilities available. Vessels proceeding to the inner harbour may be disinsectised.

RADIO: Cable and Wireless, Port Victoria, Mahe. Call sign ZCQ. Harbour Control equipped with VHF, Channels 16, 12 and 6.

TUGS: One twin-engine 2,000 b.h.p. tug in full operation. Vessels of up to 650 ft. are able to berth alongside.

BERTHING: Due to limited space no berth can be reserved either alongside or at anchorage. All assistance given to position every ship in best available place.

Mahe Quay (New deep water port) is now in full operation. Two vessels can berth alongside. Berth No. 1 is allocated to oil and cement tankers and Berth No. 2 to cargo and passenger ships. Maximum depth of water at all berths is 35 ft. There are connections for fuel, fresh water and telephones at all berths. Passenger terminal, Port Offices and Customs are situated at the New Port area.

A tanker berth at Seychelles International Airport supplies fuel to the Airport.

STEVEDORES: ETA advice required two to three days before ship's arrival in port. Loading and Discharging: General Cargo: average 8 to 10 t.p.h. per gang (subject weather conditions). Bagged Cargo: average 10 to 15 t.p.h. per gang (subject weather conditions).

TANKERS: Usual safety requirements. Max. length 400 ft. No night discharge at present. Discharge line 6 in.

DENSITY: Average 1025 at all states of tide.

FRESH WATER: In good supply. By mains when alongside and steel barges when at anchor. All water supplied is chlorinated. Two special steel water barges with capacity of 100 and 80 tons each with pumping capacity of 40 t.p.h. per barge. Vessels should request water at least 72 hours before arrival.

FUEL: Marine diesel, viscosity Redwood 42 secs. at 100° F. Gas oil viscosity Redwood 35 secs. at 100° F. Due to limited stock, it is advisable to give one week's notice, preferably through Shell International, London.

GANGWAY/DECK WATCHMEN: Customs Officer on duty at all times if vessel is discharging cargo.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCE: At Custom Officer's discretion.

CARGO GEAR: All cargo slings and gears supplied by ship.

IDENTIFICATION CARDS: Not required.

CONSULS: French, Mr. Alain Brugere, Arpent Vert, Mont Fleurie, Mahe, Seychelles.

Netherlands, Norway, Sweden, Denmark, Finland and Iceland. Mr. Harold Hunt, Port Victoria, PO Box 83, Mahe. Tel. 2353.

REPAIRS: Only minor repairs to deck: gas welding, pipe bending, etc.

DRY DOCKS: None.

REPATRIATION: Crew changes for British ships and nationalities represented. Repatriations for same by Agents.

AIRPORT: In operation. Several flights weekly.

TIME: GMT plus 4 hours, throughout year.

HOLIDAYS: *Public and Estate:* New Year (1st and 2nd); Good Friday; Easter Monday; Official Anniversary of the Birth of the Sovereign (8th June); Corpus Christi (15th August); All Saints' Day (November 1st); Immaculate Conception (December 8th); Christmas Day (December 25th).

POLICE/AMBULANCE/FIRE: Police 2011; Fire 2555; Ambulance 2555.

A telephone is placed on board ships alongside. Rate as follows: Warships Rs 40/-per day. Other ships Rs 30/-per day.

SERVICES: No tank-cleaning equipment, no facilities for discharge of tank washing, no compass adjusting, radar or radio engineer available for small repairs.

SHORE LEAVE: All members of the crew are allowed ashore. No limit to shore leave. Crew to be in possession of identity card or discharge book.

DELAYS: Berthing: limited berth. Loading or discharging: weather conditions. Bunkering: space alongside.

REFUSE: No refuse to be dumped in the harbour and approaches. When alongside Mahe Quay, adequate bins for garbage collection are available.

AUTHORITY: Ministry of Ports and Marine Services.

AGENT: The Union Lighterage Company Limited, PO Box 38, Mahe, Seychelles. Tel. 2424 and 2425. Telex Unilight SZ 219. Cable address: "Lighterage Mahe Seychelles."

NOTES

Please also advise Shipping Guides (Services) Ltd.

Sierra Leone

FREETOWN: 08.30 N. 13.14 W (See Plan)

DOCUMENTS:

5 Crew Lists.
5 Ports of Call Lists.
5 Passengers in Transit Lists.
5 Passengers Landing Lists.
1 Crew Declaration (signed by Crew Members).
1 Store List.
1 Arms Ammunition List.
1 Port Health Declaration.
1 Vaccination List (smallpox, cholera and yellow fever).

Port Health Declaration, Crew Declaration Form and Arms and Ammunition List, all special forms, which obtained from boarding party or, if required, mailed in advance to ship's owners.

1. *For vessels working cargo (discharging):*

(a) From each port of loading, by air mail to vessels Agent: 2 copies of Cargo Manifest, 1 copy of Freighted Manifest.

(b) On arrival: 5 copies of Cargo Manifests, 1 copy each Bill of Lading (non-negotiable).

Note: Customs and Port Authority insists on documents in English, and that Manifests should show weights and measurements. Non-compliance with these instructions places vessel's Agent in difficult position, and vessel may not discharge without payment of fine.

2. *Required by Port & Stevedores for vessels working cargo:* 4 copies Stowage Plan, 4 copies Hatch Lists. List of all lifts over 3 tons.

PILOTAGE: Vessels can enter and leave port anchorage without Pilot. Pilotage only compulsory for vessels berthing alongside Queen Elizabeth 2nd Quay or Kissy Oil Jetty. Upon Master's request, Pilot available at Fairway Buoy with 24 hours notice. Normally only at daylight hours. Port entrance is between Cape Sierra Leone to South and Fairway Buoy to North. Is approx. 1 mile wide and min. draft 36 ft. To West harbour is protected by sand shoals, nearest to entrance is O'Farrell Shoal about 1.5 mile North of Cape Sierra Leone.

Pilots board from a launch painted black, with white superstructure, with letter "P" on each bow.

Aberdeen Signal Station will give an anchorage to every vessel arriving or, if a vessel is berthing on arrival, will advise where the Pilot is boarding. This is normally off the quay. The Signal Station is equipped with VHF, standing-by on Channel 16, switching to Channel 12 for communication.

The Pilot Office, Queen Elizabeth II Quay, is also equipped with VHF, standing-by on Channel 16, switching to Channel 12 for communication. The Port Operations Manager is available on this link.

ANCHORAGE: With Falconbridge Point Beacon bearing as follows (all bearings true): Note: Falconbridge Point Beacon circular steel tower 8 ft. high, painted white with 2 horizontal black bands; Fl. white every 2 seconds.

Anchor Berth	Bearing (T)	Distance (Cables)
E. 3	138	10.5
E. 4	154	9
E. 5	180	8
E. 6	207	8
F. 5	136	7
F. 6	154	6
F. 7	184	5
F. 8	210	5
F. 9	232	7
F. 10	242	9
F. 11	249	11
G. 1	99	15
G. 2	100	12
G. 3	104	7
G. 4	126	3
H. 1	184	2
H. 2	234	3
H. 3	252	5
H. 4	258	7
B. 1	236	11 (Vessels bunkering ex-barge)

With Cline Point bearings as follows

Anchor Berth	*Bearing (T)*	*Distance (Cables)*
D. 1	*232*	*5.5*
D. 2	*253*	*7*
D. 3	*253*	*3*
D. 4	*273*	*5.5*
C. 1	*244*	*4*
C. 2	*270*	*5*
B. 3	*280*	*7.25*

With Kissy Oil Jetty bearing as follows (T):

Anchor Berth	*Bearing (T)*	*Distance (Cables)*
B. 2	*235*	*1 mile*

No draft restriction at anchorage, also no length and beam restrictions and vessels can arrive and sail any hour day and night.

RESTRICTIONS: *Draft Limits for Deep Laden Vessels: (Draft Limits:* 38 ft. (11.6 m.) plus height of tide to a maximum of 48 ft. (14.6 m.).

Time Limits:

1. From 5 hours flood tide to high water.
2. From low water to 1 hour Flood Tide.
3. During hours of daylight only.

Vessels of 36 ft. draft and over must keep to the time limits.

Vessels of under 36 ft. draft may navigate the channel at any time but attention is drawn to the strong cross currents.

(H.M.S. Hydra has commented strongly on this danger).

HEALTH: Pratique by radio or on boarding. See "Agents Cable Requirements".

RADIO: *Freetown Radio, Coast Station:*

Watch is maintained on 500 kc/s from 0700–2200 hrs. GMT on week-days, and 1200–1400 hrs. GMT on Sundays and Public Holidays.

The working frequency is 421 kc/s and traffic lists are broadcast on this frequency after preliminary announcements on 500 kc/s at 0730, 0830 hrs., etc.: up to 2130 hrs. GMT. On Sundays and holidays, traffic lists are broadcast at 0800, 1200 hrs. and 1700 hrs. GMT.

Time GMT	*9LL Freq.*	*Search-band for reply*
0800–0900 hrs.		
1300–1430 hrs.	6411	6 mc/s
1700–1830 hrs.		
0900–1000 hrs.		
1200–1300 hrs.	8710	8 mc/s
1830–2000 hrs.		
1000–1100 hrs.	13042.5	12 mc/s
1530–1700 hrs.		

On Sundays and other holidays the H.F. Schedules are as follows:—

0830–0900 hrs.	8710	8354 to 8374 kc/s
0930–1000 hrs.	13042.5	12531 to 12561 kc/s
1330–1400 hrs.	6411	6 mc/s
1600–1630 hrs.	13042.5	12531 to 12561 kc/s
1700–1730 hrs.	8710	8354 to 8374 kc/s

Traffic lists are broadcast at the commencement of every HF Schedule and repeated at intervals during the Schedule.

Ships Radio telephone and Harbour Service: Watch is kept on 2182 kc/s for casual R/T traffic from 0800–2000 hrs. GMT on weekdays, and 0800–1730 hrs. GMT on Sundays and holidays.

Ships are advised to arrange their calls in advance by W/T where possible so it can be ensured that the called party is available. Calls can be connected to or from any number on the Freetown Telephone Exchange. Longer range contacts should be in the 8 mc/s maritime band, the frequency of 9LL in this band being 8768.9 kc/s.

Other Services: Navigational warnings issued from time to time by the Harbour Master are broadcast on W/T. Spoken telegrams are accepted at ordinary W/T rates on RT.

VHF: *Freetown Radio:*

A 24-hour watch is kept on Channel 16 switching to Channel 26 for communication. Calls can be connected to the Freetown Exchange. Masters are advised the fullest use should be made of this service, particularly after office hours and during the early hours of the morning or late at night when no cable service is available. The Authority tugs are also equipped with VHF, watch being kept on Channel 16 switching to Channel 12 for communication. The same is applicable to the Lighterage service, which keeps watch and communicates on Channel 12.

Signal Station	Channel 16
Pilot Office (Freetown Pilot)	Channel 16
Harbour Master	Channel 16
Operations Manager (OPMAN)	Channel 16

AGENTS CABLE REQUIREMENTS: Masters requested cable ETA as early as possible. Following information required:

(a) For vessels working cargo: 1. Discharge or Loading Hatch distribution. 2. Gangs required. 3. If Explosives on board for Freetown or in transit.

(b) For vessels bunkering: Bunkers and water required.

(c) For Tankers discharging: 1. Total Displacement. 2. Draft. 3. Cargo particulars (quantity and grade).

(d) For vessels embarking/disembarking krooboys: 1. If krooboys provisions required and for how long. 2. Cash requirements. 3. If service on arrival if arriving between 2200 hrs. and 0700 hrs., bearing in mind the high costs for Customs overtime and port service.

(e) In general: 1. Cash requirements. 2. Water requirements. 3. Medical attendance, if required on arrival.

When ETA received and confirmed agent will cable vessel informing despatch prospects and if not berthing on arrival, anchor berth.

Note: For vessels returning to Freetown from round trip to coast, information should be cabled if any over-carried cargo, etc., to be discharged.

TUGS: Two tugs available, *Sewa* (2,200 h.p.) which is sea-going and *Bintimani* (2,200 h.p.). Both are twin-screw with diesel engines and are equipped for salvage having fire-fighting equipment and a 10-ton derrick. Normally 1 tug used for berthing and unberthing operations, but 2 if necessary. Charges for berthing and unberthing include use of 1 tug, whether required or not. Tugs' lines £3.50.

BERTHING: All alongside berths: between hours of 0630 and 2330. Kissy Oil Jetty; vessels of 15,000 tons and upwards, berthing flood-tide only.

Queen Elizabeth II Quay No. 1: Berthing length: no restriction;

breadth: no restriction; max. draft 31 ft. 6 in. At this draft vessels must be 180 ft. from steps East end of quay. Vessels up to draft not exceeding 24 ft. may berth as far East as steps. Unberthing not permitted from 1 hour after high water until 1 hour after low water. Pilots may at their discretion, under favourable conditions, extend these times.

Berth No. 1A: As for Berth No. 1, max. draft 31 ft. 06 in.

Berth No. 2: Berthing and unberthing, length and breadth no restrictions. Max. draft 31 ft. 06 in. No tidal restrictions.

Berths No 3 and 4. Max. draft 32 ft. 06 ins.

Berths No. 5 and 6. Max. draft 30 ft.

Facilities for loading Palm Kernel Oil available only at Berth No. 1.

Bulk Grain: No. 1 Berth is equipped for discharging grain in bulk through a conveyor built on No. 1 Shed to the Flour Mill. The actual discharge is effected by mobile vacuvators. Four such units are available with total potential of 80 t.p.h., though a more realistic figure would be in the region of 60–70 t.p.h. Grain vessels are worked around the clock.

Pilotage also undertaken to and from Kissy Cold Store Jetty, a private jetty, but pilotage not compulsory.

King Tom Jetty: Berthing *not* allowed.

Kissy Cold Store Jetty: Berthing and unberthing in daylight hours only, restricted as follows: Length of vessel 290 ft. Breadth, no restriction. Maximum draft, 14 ft. 06 in. Favourable weather conditions. Berthing Port side alongside Pontoon/lighter; Starboard anchor to be used. Berthing: 30 mins. to H.W. Unberthing: 1 hour after H.W. Tug must be used for both operations.

Dispensation will only be granted in exceptional circumstances to berth or unberth vessels before 0600 hrs. and after 2330 hrs.

During discharging and/or loading, Customs Officers, normally 2, as well as 2 Port Authority Discrepancy Clerks (only when discharging) will be on board. In accordance with regulations same should be provided with food during normal meal hours. Recommended that vessels provide food in order not to encounter unnecessary delays.

Sherbro River: Anchorage daylight only. Length of vessel up to 470 ft. Breadth, no restrictions. Max. draft, 24 ft. 06 in. The passage between No. 1 Buoy and No. 8 Buoy and between No. 1 Buoy and Yangsai anchorage must be navigated in daylight hours only.

The Channel between Buoy Point and Yangsai must be navigated only during period two hours to H.W., and on a rising tide, buoy point being area which restricts draft. Bagru River Anchorage Buoy 8, length and breadth unlimited. Max. draft 24 ft. 06 in. Limitations as regards vessel's dimensions, drafts and times at which movements may be carried out should not be deviated from without prior permission of the Harbour Master.

MECHANICAL EQUIPMENT:

Type	*Capacity*	*Complement*
Portal Quay Crane	3 tons	2
Portal Quay Crane	5 tons	1
Mobile Crane	15/30 tons	1
Mobile Crane	3 tons	1
Mobile Crane	4 tons	12
Mobile Crane	5 tons	2
Mobile Crane	7 tons	2
Fork Trucks	10 tons	2
Fork trucks	4,000/5,000 lbs.	30
Tractors	—	26
Trailers	6 tons	24
Trailers	8 tons	3
Trailers	10 tons	48
Trailers (Pole)	10 tons	4
Landrover Fire Engine	—	2
Lancer Boss Fork Lift Trucks	26 tons	1
	10 tons	1
	5,000 lbs.	10

Additional fork lift trucks on order including 1 of 27 tons capacity.

Berths 3 to 6 are not equipped with Portal Cranes.

DANGEROUS CARGO: Dangerous cargo, explosives, small arms, ammunition, *must not* be unloaded either alongside or into lighters unless Port Authority has been notified on approved form, and has given permission for cargo to be discharged. Vessels should cable prior arrival if dangerous cargo for discharge on board.

LIGHTERAGE: Lighterage operations have now virtually ceased to exist. 1 covered lighter of 100 d.w.t. 5,000 bale capacity is available if required.

A specially fitted pontoon (PM2) is also available for the disembarkation/embarkation of Kroo labour for vessels at anchorage. This service is available throughout the day and night, as is the water supply by barge.

STEVEDORES: (See "Agents Cable Requirements") ETA as soon as possible. Discharge/loading hatch distribution. Gangs required. Bunkers and water requirements information re explosives. For tankers discharging — total displacement and draft. Work ashore undertaken by Sierra Leone Ports Authority on cargo quay, Queen Elizabeth II Quay, whilst work on board as well as discharging and/or loading to or from lighters at stream undertaken by Sierra Leone National Shipping Co., stevedoring division.

Working hours alongside quay: Normal working hours from 0800 to 1200 hrs., from 1300 to 1700 hrs., Saturdays: from 0800 to 1200 hrs.

No meal-break but the hour 1200 to 1330 hrs. counts overtime.

Working at Stream: Discharging and/or loading to or from lighters effected 24 hours a day. Gangs can be arranged at anytime between 0730 hrs. and 1800 hrs. week-days. On Sundays and holidays work must be arranged on the previous day.

MEDICAL: Hospital facilities available.

TANKERS: No special requirements. Two berths, maximum length 600 ft. (may be extended by arrangement with Pilot). Maximum draft 32 ft.

Berth 6: There is a draft restriction of 30 ft. Crude Oil tankers at this draft discharging through the temporary facilities must berth on the first of the ebb tide (Starboard side alongside). Other ships at this draft must berth from 1 hour prior to H.W. to H.W. slack (either side alongside).

Kissy Oil Jetty: The following Rules and Regulations on Berthing and Unberthing are now in force. No deviation under any circumstances from these is permitted.

Mooring Buoys: Berthing and Unberthing are restricted as follows:— Vessels are to moor to head, stern and starboard quarter mooring buoys off Kissy Oil Jetty. Vessels anchor to be used. Vessels are only allowed to berth/unberth beginning of Flood Tide in favourable weather conditions between hours of Sunrise and Sunset. Pilots are to ensure that a Berthing or Unberthing operation must be completed before darkness. No Unberthing during hours of Darkness or Ebb Tide.

Distance between Head (West) and Stern (East) buoys 1,100 ft. Length of vessel to within this limit allowing safety factor for length of mooring ropes to Head and Stern buoys. Breadth no restriction. Maximum draft 32 ft. Mooring restricted to vessels up to and not more than 27,000 tons displacement.

Under no circumstances are vessels allowed to rest against any part of Kissy Oil Jetty centre section or East and West Dolphins.

Moorings from vessel to Shore Bollards can be used to position vessel as close to Kissy Oil Jetty as possible. No moorings are to be used on any part of Kissy Oil Jetty.

DENSITY: 1018 to 1025.

FRESH WATER: Good fresh water is available at all quay berths and at Kissy Oil Jetty. There are also 3 water barges with a total capacity of approximately 400 tons.

(Supply Rates:—	Old berths	Approx: 20/25 t.p.h.
Dependent on	New berths	Approx: 40/50 t.p.h.
Ships intake)	Kissy Oil Jetty	Approx: 15/20 t.p.h.
	Barges	Approx: 25/30 t.p.h.

FUEL: A 24 hour Shell/Mobil bunkering service is available at all berths. The supply rate is up to 200 t.p.h. dependent on ships intake.

The supply rate at Kissy Oil Jetty is 100 t.p.h. Thin fuel oil is not available at the latter jetty but is obtainable at Queen Elizabeth II Quay.

A Limited supply of Gas Oil (Shell) is available ex-bowsers on the Quay berths. Sufficient notice should be given to the Oil Company for this service.

Texaco/BP supply bunkers to vessels at anchorage with 3 barges of 750 tons capacity each supply rate 200 t.p.h. 1 of their tugs also has a storage capacity of 40 tons.

A 24-hour Pilotage service is available (including Pilotage from the Fairway Buoy if requested) for all vessels requiring bunkers only.

GANGWAY/DECK WATCHMEN: Strongly recommended, available through Agent.

OPENING/CLOSING HATCHES: By stevedores, except mechanical hatches.

CERTIFICATES:

- Ship's Register.
- Deratisation Certificate.
- Deck Passengers Certificate.
- Radio Certificate.

CUSTOMS ALLOWANCE: Tobacco, 40 cigarettes *or* 0.25 lb tobacco. Wine and/or Spirits, 0.25 bottle of spirits. Master — 200 cigarettes and one opened bottle of spirit.

IDENTIFICATION CARDS: Not required.

REPAIRS: All repairs if spares supplied.

DRY DOCKS: No dry docks in Freetown. Slipway of 600 tons capacity.

REPATRIATION: Can be arranged.

AIRPORT: By bus and ferry to Lungi Airport, 1 hour journey. Served by regular airlines.

TIME: GMT throughout year.

HOLIDAYS: Several religious and anniversary holidays. Port works every day except Good Friday and Christmas Day.

POLICE/AMBULANCE/FIRE: For all emergencies dial 009.

TELEPHONES: Not available for placing on board.

GENERAL: Always confirm time of entering harbour with the Aberdeen Hill Signal Station to ensure turn for berthing. Draft should be indicated.

SERVICES: Tank cleaning. Tank and hull scaling.

SHORE LEAVE: Allowed.

DELAYS: Berthing, loading or discharging — up to 1 day. Bunkering — up to 12 hours.
AUTHORITY: Sierra Leone Ports Authority.

AGENT: Sierra Leone National Shipping Company, PO Box 935, Freetown, Sierra Leone. Tel. 5637. Telex 273. Cables "Leoneship Freetown".

PEPEL: 08.34 N. 13.04 W.

IMPORTANT: SEE "AUTHORITY"
On Sierra Leone River, 15 miles upstream from Freetown. Approach Channel between Freetown anchorage and Pepel is fully buoyed. No night navigation.
DOCUMENTS: See "Freetown".
PILOTAGE: Private pilotage undertaken by mining Company's Pilots who board Freetown anchorage, 48 hours ETA required, cable "Mags Freetown Sierra Leone", giving ETA Fairway buoy, quantity water/fuel required, asking free pratique, and if Pilot required to Freetown anchorage.
ANCHORAGE: See "Freetown".
RESTRICTIONS: Draft only, decided at discretion of berthing master. Entry daylight hours only. Channel between Pepel and Freetown is now deepened so that depth in channel is 38 ft. plus height of tide. According official tide tables, range of high tides is approximately 7 ft. to 11 ft. above Admiralty Chart Datum.
MAX. SIZE: Length 840 ft., beam 128 ft., depth water 38 ft. plus height of tide which ranges from 7 to 11 ft. above Chart Datum. September to December additional draft restrictions due channel silting.
HEALTH: See Freetown. 48 hours advance warning for free pratique.
TUGS: Not used.
BERTHING: Milton Margai Pier only. Loading up to 3,000 t.p.h. according to size of vessel.

New dolphin mooring system installed to permit handling larger ships. Depth alongside 45 ft.

Shiploader max. boom height when in horizontal position is 71 ft. above Chart Datum, with max. outreach 87 ft. from berthing line. Loading rate now increased to 4,000 t.p.h.

Under the new conditions, limiting dimensions for ships (which must be equipped with satisfactory mooring equipment): Length overall 840 ft. Moulded breadth 128 ft.

Allowance must be made for safe navigation, permissible sailing draft of all ships will, as at present, remain absolutely at discretion of Berthing Master at Pepel or his deputy. It is possible that yearly during the months of September to December an additional draft allowance will have to be imposed by reason of seasonal silting of the channel, but it is intended to carry out annual maintenance dredging.

Company will be prepared to consider acceptance of ships having dimensions in excess to those above but only after specific approval of fully detailed plans of each ship concerned and, in any event, not in excess of dimensions Length overall 870 ft. Moulded breadth 136 ft. Moulded depth 73 ft.

Berthing displacement 63,000 tons on an even keel ballast draft of 23 ft. forward and aft on berthing.
STEVEDORES: Available.
FRESH WATER: Available, 48 hours notice required.
FUEL: Limited supplies available, 48 hours notice required.
GENERAL: See Freetown for all general information.
TIME: GMT throughout year.
TELEPHONES: None available.
SHORE LEAVE: Not allowed. Customs and Immigration regulations prohibit any member of crew from disembarking at jetty or other works.
DELAYS: First come first served.
AUTHORITY: The Sierra Leone Development Company Limited (In Liquidation), P.O. Box 491, Freetown, Republic of Sierra Leone. Telephone Freetown 24139.

(The Sierra Leone Development Co., Ltd. went into voluntary liquidation on the 31st October, 1975. A Care and Maintenance Party is stationed at the Port of Pepel maintaining the shiploading plant in operational condition).

At the time of liquidation, the conditions above existed.
AGENTS: Mining & General Services Ltd., PO Box 68, Freetown. Tel. Freetown 24427; Telex Freetown 3226. Cables "Mags" Freetown.

Singapore

SINGAPORE (incl. Jurong, Pulau Bukom, Pulau Ayer Chawan, Sembawang and Tanjong Penjuru):

01.16 N. 103.50 E. **(See Plan)**

DOCUMENTS:
6 Ship's Passenger Lists.
5 Crew Lists.
5 Cargo Manifests.

Customs Declaration of duty free liquor and tobacco Form (C and E 117) to be furnished by Master to Customs boarding officers. Master, mate, or authorised officer required to furnish information asked for by Officer i/c of Customs Boarding Party for Boarding Officer's Report (this only required if ship is to be searched).

Immigration: 4 copies Crew List and 2 copies each of Disembarking and Through-passenger Lists on arrival. At departure, 2 copies Crew List and 2 copies Passenger List.

Declaration regarding presence on board of any stowaway, unauthorised person and/or repatriate.

PSA: All vessels: General Declaration on arrival or departure.

Port Health: Entry Declaration. Deratisation or Exemption Certificate. Vaccination Certificate requirements. Smallpox: from all countries, except children under 1 year of age if they arrive from a non-infected area or under 6 months of age if they arrive from an infected area.

Crew Lists. Passenger List.

PSA (The Port of Singapore Authority): Arms and Explosives, and Dangerous Goods and Petroleum Declaration.

TRAFFIC LANES:

Inwards only

1. *The Sisters Fairway* is the navigable water bounded by the line drawn from Beacon 15 (Terembu Selegi) to the Northern extremity of Pulau Tekukor, thence from the Southern extremity of Pulau Tekukor to the Northern extremity of West St. John's Island to position Lat. 01° 12′ 33″ N., Long. 103° 50′ 30″ E., thence to Beacon 15 (Terembu Selegi).

2. *The Middle Channel* is the navigable water bounded by the line drawn from the charted position of Sisters Buoy to position Lat. 01° 12′ 09″ N., Long. 103° 49′ 19″ E., thence to position Lat. 01° 12′ 16″ N., Long. 103° 49′ 41″ E., thence to position Lat. 01° 13′ 09″ N., Long. 103° 48′ 41″ E., thence to the charted position of Sisters Buoy.

Outwards only

3. *The Jong Fairway* is the navigable water bounded by the line drawn from the charted position of Sisters Buoy to position Lat. 01° 12′ 09″ N., Long. 103° 49′ 19″ E., thence to Beacon 45, thence to Pulau Jong Triangulation Station, thence to the charted position of Sisters Buoy. Only those vessels which are inward bound and owing to their draft and other considerations preclude the safe use of the above mentioned *inward channels* may use the Jong Fairway.

Eastbound and Westbound

4. *The Southern Fairway* is the navigable water bounded by the lines drawn from Beacon No. 45 to the Southern extremity of West St. John's Island, thence to Peak Island Light Beacon, thence with Beacon No. 39 in transit with Peak Island Light Beacon to the Southern port limit, thence Westwards along the port limit until Beacon No. 45 bears 313°, thence along that line to Beacon No. 45. The Southern Fairway is to be considered sub-divided by a median line extending from the Western limit to the Eastern limit of the fairway.

The Southern Fairway is designated for the passage of vessels as follows:

(a) Vessels from sea East/Eastern sector of the port proceeding to the Western sector to keep Northwards of the median line:

(b) Vessels from the Western sector of the port bound for the Eastern sector to keep Southwards of the median line;

(c) Vessels from the Western sector of the port bound for the sea East to keep Southwards of the median line and to proceed beyond the Easternmost limit of the Southern Fairway. Vessels after having proceeded beyond the Easternmost limits of this Fairway shall enter Main Straits only when it is safe and practicable to do so.

Vessels proceeding from/to the following areas need not follow the Southern Fairway but may proceed as stated:

(a) Vessels from sea Westbound for the Western sector of the port via the Middle Channel or Sisters Channel may cross the Southern Fairway when it is safe and practicable to do so.

(b) Vessels from the Western sector of the port bound for sea West may cross the Southern Fairway and on reaching the port limit enter the Main Straits when it is safe and practicable to do so.

PILOTAGE: Compulsory in Keppel Harbour, including East Lagoon, the Western sector and Sembawang from Johore Shoal Buoy to the Causeway. Request for Pilot must be made not less than 6 hours before arrival. Confirmations of arrival and amendment of ETA must be further notified to "Singapore Port Operations" not less than 2 hours before arrival. Telegraphic Address: PORTMASTER SINGAPORE. VHF Singapore Port Operations Channel 20 or 12.

Pilot Boarding and Disembarkation Grounds:

(a) *Eastern Boarding Ground:* 2.5 miles East of Pulau Sekijang Pelepah (St. John's Island Lighthouse).

(b) *Western Boarding Ground:* 1 mile S.W. of Sultan Shoal Lighthouse;

(c) *Southern Boarding Ground:* 1 mile S.W. of Beacon 45 (used only by special arrangement); and

(d) *East Johore Straits Boarding Ground:* S.E. of Johore Shoal Buoy in position 01° 18′ 00″ N., 104° 05′ 30″ E.

ANCHORAGES: Masters are required to notify "Singapore Port Operations" on Channel 12, their final anchoring positions giving bearings and distances from the following positions: Fullerton Lighthouse (Eastern sector), Tg Rimau Light (Beacon 47a) – (Western sector), Sultan Shoal Lighthouse – Jurong and Special Purpose Anchorage. Ships changing their location within port limits are also required to report their new positions. Ships leaving should report their departure time prior to leaving.

Orders for Pilots will be declined to vessels in the anchorages which have not reported their positions.

MAX. SIZE: Length, no restrictions. Breadth, no restrictions. Draft, Keppel Harbour 33 ft. at zero tide; Empire Dock 28 ft. at zero tide; Jurong Wharves being dredged to 38 ft. at zero tide.

Oil Installations: see "Tankers".

CLEARANCE: The Master of any vessel entering Singapore may apply for radio pratique to the Port Health Office through his local Agent, not less than 12 hours or more than 24 hours prior to arrival in Singapore (exceptions allowed).

All applications should be accompanied by answers to the Port Health Questionnaire.

Free Radio Pratique will not be granted in the following cases:

(a) Vessels with a case or suspected case of infectious disease on board.

(b) Vessels with a dead body on board.

(c) Vessel which has visited plague-infected ports during the current voyage.

(d) Passenger vessels, other than those approved by Public Health Officer.

The provisional pratique by radio is a quarantine clearance by the Port Health Officer on duty. The clearance permits a vessel to proceed directly to berths or working anchorages and begin normal business activities without the inspection of the Port Health Officer.

The granting of radio pratique clears the vessel only as far as the Port Health Officer is concerned, and it neither exempts the vessel from the requirements of other government agencies prior to commencing operations, nor a vessel from quarantine inspection and other control measures, subsequently deemed necessary by the Port Health Officer.

Vessels wishing to communicate with the Port Health Officer should do so on VHF Channel 14.

All ships other than gazetted mail ships, arriving within 5 days of departure from a smallpox infected port, or from a plague infected territory, should await health clearance at Quarantine Anchorage displaying appropriate signals.

All ships with suspected infectious disease on board should radio information to Port Health Officer and await clearance at Quarantine Anchorages. All vessels from infected ports upon arrival are required to anchor in Eastern Quarantine Anchorage (alternatively Western Quarantine Anchorage during the N.E. monsoon, approx. December to March), unless Health and Immigration exemption have previously been granted. Vessels from non-infected ports can obtain free pratique. Vessels from infected ports must fly "Q" flag for Port Health. Vessels must also fly pennants 2 over 5 (alternatively 3 over 4 when there are passengers aboard) for immigration.

Corresponding night lights red over white for Port Health and 2 green for Immigration. Once vessel has been cleared by Port Health and/or Immigration she must proceed to allotted berth/anchorage. On sailing, unless exemption granted, vessels must return to Principal Anchorage for Immigration Clearance; 2 hours notice required of departure.

The Port Master, Port of Singapore Authority has issued the following regulations regarding vessels requesting Immigration and Port Health Clearance:

(1) All Masters, Owners and Agents are reminded that vessels when requesting Immigration and Port Health Clearance must anchor in the designated Immigration and Quarantine Anchorage and exhibit the appropriate signals.

(2) The Senior Health Officer has advised that delays have occurred due to ships not anchoring at the designated anchorage or not displaying quarantine signals.

(3) Failure to comply with the above may result in action being taken against the vessels.

RADIO: Medium range (HF) telephone service is available continuously and normally provides satisfactory communication up to a range of about 800 miles. Ships wishing to contact Singapore radio may do so on any of the following carrier frequencies:

Station	*Call sign*	*Frequency kHz Coast*	*Ship*	*Hours*	*Remarks*
Singapore Radio	9VG4	2182	2182	24	Call, reply and Safety
	9VG40	4434.9	4136.9		
	9VG8	6204	6204		
	9VG5	2760	2527	24	Working
	9VG38	4364.7	4066.1		
	9VG43	8751.2	8217.2		

After establishing contact, the call will be booked and both stations will change to one of the following Frequencies prior to connection with the Subscriber:

Station	*Call sign*	*Frequency kHz Coast*	*Ship*
Singapore Radio	9VG39	4377.4	4078.8
	9VG44	8757.6	8223.6
	9VG45	8799.2	8265.2

VHF:

Station	Hours of watch	Channel	Functions
Singapore Radio	24	16	Distress, Safety and Calling Frequency
Singapore Port Operations	24	12	Reporting ETA's, anchored positions, departures, etc.
Singapore Port Operations	24	20	Pilotage Services other than East Johore Straits
Bukom Operations	24	19	Berthing/unberthing at Pulau Bukom and Shell SBM
Esso Operations	24	5	Berthing/unberthing at Pulau Ayer Chawan and Esso SBM
Jurong Control	24	21	Berthing/unberthing in Jurong wharves
Sembawang Control	24	21	Pilotage services and berthing/unberthing in East Johore Straits within Singapore port limits
Immigration/ Port Health	24	14	Immigration & Port Health Clearances
Waterboats	24	18	Supply of fresh water to vessels at anchor
Public Correspondence	24	24	For connection to Singapore Telephone Exchange
Public Correspondence	24	25	For connection to Singapore Telephone Exchange
Public Correspondence	24	26	For connection to Singapore Telephone Exchange
Public Correspondence	24	28	For connection to Singapore Telephone Exchange

TUGS: PSA operates 10 tugs – 3 of 3,000 b.h.p., 6 of 1,100 b.h.p., and 1 of 650 b.h.p. Shell operates 2 tugs approximately 1,500 b.h.p. A number of privately owned salvage tugs make the port their base.

Tugs join anywhere in port limits by pre-arrangement with Pilots. Normally ship's line used. All PSA and Shell tugs carry tow ropes for use if required. PSA charge for use of tow rope.

BERTHING: Vessel's Agents should submit to Authority a Schedule "A" (Application for Berth) giving overall length, maximum draft alongside, ETA and ETD of, and Schedule "B" listing out dangerous cargo on board vessel at least 48 hours before berth required.

CARGO HANDLING FACILITIES: *Keppel Wharves:* Vessels working only general cargo will normally be berthed at the Keppel Wharves. This is the largest of the six gateways of Port of Singapore Authority, having marginal wharves of 4.8 km. that are capable of accommodating 31 vessels at one time. There are well-ventilated transit sheds and warehouses totalling 158,472 sq.m., and 83,336 sq.m. of concrete hardstanding for open storage.

East Lagoon Container Port: Length of main berth 914 m., depth 13.4 m. at zero tide. Able to handle three third-generation vessels at one time. Four container quay cranes of 35 tonnes lifting capacity available. Feeder berth length 213 m., draft 13.4 m. for coastal vessels and a cross berth of length 213 m., draft 10.4 m. There are also three freight stations covering an area of 21,000 sq.m. for consolidation and unstuffing of containers. The stacking yard of approximately 14 hectares can accommodate 8,000 containers (20 ft. equivalents).

Bunkering facilities available. Bunker fuel pumped at the rate of 1,000 tonnes per hour through 18 in. (4.6 dm.) diameter mains. There are 11 outlets along the quay with 10 in. (2.5 dm.) tap-offs. Marine diesel and fresh water also available.

Sembawang Port: The Port of Singapore Authority operates five berths, at the Sembawang Port, situated North of Singapore. The length of the berths totals 823 m. with minimum depth of 10.4 m. at zero tide covered storage space available totals 23,000 sq.m. The Port is geared towards handling of low-value, high volume homogeneous cargoes like bulk sawn timber and logs.

Jurong Port: The Port as a bulk-handling facility to serve the Jurong Industrial Estate. The marginal wharves have five berths. Total length 914.4 m. and depth 1.6 m. at zero tide. In addition, there is a 384 m. wharf with minimum depth of 4.9 m. for coastal shipping. There are 23,132 sq.m. of covered storage and 70,931 sq.m. of open storage space.

The terminal has facilities for the discharge of grain (by elevator), sugar, fertilizers, cement, clinker, sulphur, etc. Shore bulk-handling cranes are used.

The equipment includes a kangaroo crane conveyor, unloading capacity of 304 tonnes per hour.

Two gantry type unloader cranes each with capacity of 457 tonnes per hour.

An iron ore hopper/conveyor loading system with a capacity of 304 tonnes per hour.

Grain silos with capacities up to 20,320 tonnes (20,000 tons).

Bulk grain suction – conveyor unloading system with discharge rate of 203 tonnes per hour and loading rate of 101 tonnes per hour.

Pasir Panjang Wharves: 680 m. of wharves with minimum depth of 2 m. which can accommodate 20 lighters, six LASH (Lighters-Aboard Ship) barges, and seven coastal vessels at any one time. There are four large modern transit sheds covering 38,000 sq.m. and some 240,000 sq.m. of covered storage space.

Telok Ayer Basin: This gateway caters for coastal vessels and lighters/barges. There are 640 m. of wharves for coastal vessels and more than 963 m. of basin area for lighter/barges. The finger pier provides another 384 m. of wharves for coastal shipping. However, with land reclamation carrying on at this place, five berths have been immobilized.

STEVEDORES: Labour should be ordered by 0900 hrs. for 2nd shift (1500 to 2300 hrs.) on same day and by 1300 hrs. for 1st shift (0700 to 1500 hrs.) for next day, by 1100 hrs. for 3rd shift (2300 to 0500 hrs.) on same day.

No work is performed during meal hours, 1100–1200 hrs. and 1830–1930 hrs.

MEDICAL: When infectious disease not suspected, permission will be granted by Port Health Officer to Agent to take doctor on board and remove the case, if necessary, to hospital. Preferably as much notice as possible. Several hospitals, General hospital, Gleneagles, Mt. Alvernia to name a few. Cholera, smallpox, plague, etc., are not endemic in Singapore.

TANKERS: Bunkering and discharge facilities available at Eastern and Western petroleum anchorages or installations at Pulau Bukom. Pulau Ayer Chawan, Tanjong Penjuru, Tanjong Berlayer, Jurong and Pulau Merlimau.

PSA operates a Slop and Reception Treatment Centre at Pulau Sebarok with facilities for the discharge of slops from crude oil, black oil, white oil, tank cleaning and ballast water.

Smoking not permitted during period tanker alongside PSA wharves. Grades permitted for discharge along PSA wharves: (a) marine diesel oil, (b) fuel oil.

Shell

Pulau Bukum – 10 berths and conventional buoy mooring.

Berth	Draft (m.)	Max. length (m.)	Max. displacement (tons)	Remarks
1	9.75	173.7	33,000	Continuous Jetty
2	9.75	91.4	33,000	
3	10.95	82.3	33,000	
4	12.19	189.0	43,000	
5	12.50	193.6	45,000	
6	14.63	243.8	92,000	
7	12.34	185.9	65,000	
8	12.95	230.1	65,000	
9	13.10	198.1	33,000	
10	15.54	243.8	84,000	Min. length acceptable 172.2 m.
SBM	22.36	—	352,990	

Esso

Refinery on an island Pulau Ayer Chawan 2.4 km. South of Jurong Industrial Complex. Refining capacity of 231,000 barrels per day. Lubricant plant 5,000 barrels per day. The jetty has an overall length of 982.1 m. and consists of 4 loading and bunkering berths.

Berth 1	length 82.4 m.	draft 7.6 m.
Berth 2	length 189.1 m.	draft 10.7 m.
Berth 3	length 225.7 m.	draft 12.8 m.
Berth 4	length 250.1 m.	draft 15.9 m.

Caltex

Operates berths (No. 1 and No. 2) at Tanjong Penjuru which can accommodate vessels alongside up to 13.71 m. max. draft. No. 1 Berth (4 breasting dolphins) capable of handling vessels of any size. No. 2 Berth (4 breasting dolphins) can handle any vessels exceeding 91.4 m. flat sides, up to 32,000 tons displacement and length not exceeding 182.8 m.

Mobil

Provides 4 berths 713 m. long for vessels up to 85,000 d.w.t.

Berth 1	14.3 m. LWOST
Berth 2	12.8 m. LWOST
Berth 3	6.7 m. LWOST
Berth 4	6.1 m. LWOST

B.P. Refinery

Refinery with 3 berths situated at Pasir Panjang. Small jetty inside harbour known as Jetty No. 2 can receive small vessels up to 1,000 tonnes as water depth only 6.1 m. below ACD.

No. 1 Jetty at S.W. side of Tanjong Berlayer can accommodate vessels up to 33,000 tons at off-shore mooring where dredged channel 10.97 m. below ACD. Berthing cannot be effected for 43 days of year due strong tidal currents.

At Jetty No. 1A which is Northwards extension from Jetty No. 1 trunkway, vessels up to 5,000 tonnes can be berthed; water depth 7.62 m. below ACD. Simultaneous mooring of vessels at Jetties No. 1 and 1A not allowed as floating hose used to connect Jetty No. 1 to ship at mooring buoys.

Singapore Petroleum

Provides 3 berths for bunkering and other services on Pulau Marlimau, an island off the S.W. coast of Singapore. The marine berth can accommodate vessels up to 90,000 d.w.t. and 14.3 m. draft, refining capacity 65,000 barrels per day.

DENSITY: Usually between 1019 and 1022 unaffected by tide or temperature variations. Variation due to periodic heavy run-off of rain water.

FRESH WATER: Fresh water available at any point of PSA's wharves. PSA also has a fleet of 9 waterboats to supply fresh water to ships anchored within the port limits.

FUEL: All grades available alongside PSA wharves and ex installation, otherwise by barge. Marine diesel oil 40 sec. to 100 sec. Heavy fuel oil 700 sec. to 1,000 sec. Thinned fuel 433 sec. to 450 sec. Blended fuel 200 sec. to 430 sec.

FIRE PRECAUTIONS: Normal precautions with respect to cargo vessels, vessels under repair, etc. Fire boats available. Oil companies apply own regulations at installations.

GANGWAY/DECK WATCHMEN: Recommended, particularly in Roads. Agents normally arrange. Cost varies.

OPENING/CLOSING HATCHES: Conventional hatches by stevedores. Mechanical hatches usually by ship's crew.

CERTIFICATES: If dangerous drugs on board, an export authorisation from country of origin and an import authorisation from country to which drugs being conveyed should be available for sighting and endorsement.

All vessels	Certificate of Registry or Tonnage Certificate. International Load-line Certificate or equivalent.
Passenger ships	Passenger Safety Certificate issued under international Convention for Safety of Life at Sea 1960 or the Simla Rules 1931.
Cargo ships	Safety Equipment Certificate (if over 500 tons gross) or equivalent. Radiotelegraphy Certificate or Radiotelephony Certificate whichever is applicable.

CUSTOMS ALLOWANCE: Tobacco: for crew and transit adult passengers. First day of arrival 50 cigarettes or 15 cigars or other tobacco 60 gms.; and for each subsequent day to the maximum of 7 days. 25 cigarettes or 7 cigars or other tobacco 30 gms.

Wines: 1 bottle per day to maximum of 8 days. Spirits: 0.875 reputed quart (in opened bottles) on first day of arrival and 0.125 reputed quart per day for rest of 7 days.

CARGO GEAR: Possession of valid test certificates. At PSA wharves, if gear appears faulty, an inspection by competent Port Officer may be required.

IDENTIFICATION CARDS: Sect. 22 (1) (c) of Ordinance provides for issue of Seamen's Identification Card as set out in First Schedule to the Immigration Regs. 1966, but rarely issued nowadays. Normally accept passports, discharge books or any identification cards issued by Masters of vessels for purpose of granting shore leave to Crew members, provided these documents sufficiently identify person concerned

Gate Passes issued against crew list at wharves and installations. No passes required from roads, although some form of identification advisable.

CONSULS: Consuls, Embassies and High Commissions. Arab Republic of Egypt, Argentina, Australia, Austria, Bangladesh, Belgium, Brazil, Bulgaria, Burma, Canada, Czechoslovakia, Denmark, El Salvador, Finland, France, Democratic Republic of Germany, Federal Republic of Germany, Great Britain, Greece, Hungary, India, Indonesia, Iran, Ireland, Israel, Italy, Japan, Democratic People's Republic of Korea, Republic of Korea, Malaysia, Nepal, Netherlands, New Zealand, Norway, Pakistan, Philippines, Poland, Romania, Spain. Sri Lanka, Sweden, Switzerland, Thailand, Trinidad and Tobago, Turkey, Union of Soviet Socialist Republic, USA, Yugoslavia.

REPAIRS: All types of repairs (hull, engine and electrical including navigational aids) carried out. Facilities also available for repairs out afloat while vessel in anchorages.

DRY DOCKS: Several shipyards offering building, repairing and engineering facilities, for example:

Jurong: 2 dry docks: No. 1, length 270 m.; breadth, 40 m.; capacity 90,000 tons d.w.t. No. 2 length 350m.; breadth 56 m.; capacity 300,000 tons d.w.t. 1 floating dock length 86 m.; breadth 18 m.; lifting capacities 2,000 tons.

Keppel Shipyard: 6 dry docks, the largest length 270 m., beam 28 m., depth 10.1 m., can accommodate vessel up to 40,000 d.w.t.

Sembawang Shipyard: 400,000 d.w.t. super graving dock, 100,000 d.w.t. graving dock, 4 floating docks from 5,000 d.w.t. to 30,000 d.w.t. capacities. 1,330 m. of repair berth with 12 m. of water.

REPATRIATION: Ships' Agents responsible for repatriating seamen. Mercantile Marine Office undertakes repatriation of distressed British seamen on behalf of Board of Trade, United Kingdom, whenever necessary. Seamen who hold proper documents which ensure entry into their countries of origin, citizenship and destination are normally granted Special Passes after discharge for purpose of repatriation.

AIRPORT: 11.2 km. from city. Regular and frequent services to all parts of the world.

TIME: Singapore time, GMT plus 7.5 hours. No seasonal change.

HOLIDAYS: Work can be arranged on all 11 Public Holidays. New Year's Day; Chinese New Year; Hari Raya Haji; Good Friday; Labour Day (1st May); Vesak Day; National Day (9th August); Deepavail; Hari Raya Puasa; Christmas Day.

POLICE/AMBULANCE/FIRE: City Police 999; Fire/Ambulance only, 328111; Flag signal: CB3. VHF Channels 12 or 16. PSA Police 222; Fire 209 or 333; Ambulance 76021.

Police assistance at anchorage:

For your information we quote the contents of Port Circular No. 28/73 issued by the Port of Singapore Authority:

(1) In circumstances arising on board ships at anchor within port limits which require the assistance of Marine Police, ships suitably equipped with VHF radio-telephony in the 156-174 mHz frequency band are to communicate this requirement on Channel 12 to "Singapore Port Operations" which maintains a continuous listening watch.

(2) In order to facilitate and arrange for police assistance to the ship, the following information shall be transmitted by the ship when radio contact has been established on Channel 12:
  (a) Name of ship.
  (b) Location (from a reference point).
  (c) Brief description of incident.

(3) The ship making this request for police assistance shall also as soon as possible hoist up the appropriate flag signals by day and light signals by night. Day signal: International Code Hoist "CB3". Night signal: Red-Red-White (Red at top).

(4) The ship is required to sound on her whistle or siren at intervals of about 1 minute 3 long blasts so that the police on patrol duties and other ships in the vicinity are alerted.

(5) Adherence to the procedures described in the above will enable assistance being given to the ships in the quickest possible manner.

TELEPHONES: Available on board vessel at PSA wharves only.

GENERAL: Master of any vessel in territorial waters of Singapore shall obey any signal from a preventive vessel and any instruction from officers of Customs. Customs officers shall have free access to any part of vessel and have powers to mark, lock or seal any dutiable goods on import including sea stores.

SERVICES: Following additional services available: Cleaning and preparing ship's tanks. Cleaning, scaling and painting. Insulation. Interior decorating and furnishing. Refrigeration and air-conditioning. Chemical cleaning of boilers, etc. SCAMP underwater cleaning service.

Services of following Classification Societies available: Lloyds Register of Shipping. Det. Norske Veritas. American Bureau of Shipping. Bureau Veritas. Nippon Kaiji Kyokai. Germanischer Lloyd. Polski Register Stratkow. China Corporation Register of Shipping.

Compass adjusting and DF Calibration. Radar and Radio servicing depots.

SHORE LEAVE: No restriction on crews landing after Immigration and Health formalities have been satisfactorily completed. With rare exception (e.g. CPG Crew), all *bona fide* crew of a vessel allowed shore leave on strength of their passports, discharge books or identification cards.

The following circular was issued in May 1973 by the Singapore Port Authority.

"In line with the Government's decision that action should be taken to deal with the 'long-hair' problem as part of a campaign against undesirable alien influences, the Port of Singapore Authority would be most grateful for your co-operation in implementing this decision by advising all your employees, including ships' officers and Crew members, wishing to come ashore to be more tidy in their general appearance.

"To assist you to decide whether an individual's hair is long, the following definition of long hair may be used as a guide:
(i) Hair reaching below an ordinary shirt collar;
(ii) Hair covering the ears;
(iii) Hair falling across the forehead and touching the eyelashes."

POLLUTION: No oil or mixture containing oil shall be discharged into Singapore waters from any vessel. The Master or person in charge of the vessel committing such an offence shall be liable on conviction to a fine not less than 500 dollars and not exceeding 500,000 dollars or to imprisonment for a term not exceeding 2 years or to both such fine and imprisonment.

No refuse, garbage, waste matter, substance of a dangerous or obnoxious nature or trade effluent is to be discharged from any vessel into Singapore waters. The Master or the person in charge of the vessel committing such an offence shall be liable on conviction to a fine not exceeding 10,000 dollars or to imprisonment for a term not exceeding 2 years or to both such fine and imprisonment.

Any person who puts, throws, cast or deposits into Singapore waters, or causes to be put, thrown, cast or deposited there into, any oil mixture containing oil, refuse, garbage, waste matter, carcase, substance of a dangerous or obnoxious nature, or trade effluent, shall be guilty of an offence and shall be liable on conviction to a fine not exceeding 10,000 dollars or to imprisonment for a term not exceeding 2 years or both such fine and imprisonment.

If any oil or mixture containing oil is discharged into Singapore waters:

(a) for the purpose of securing the safety of the vessel or of preventing damage to the vessel or her cargo, or of saving life; or

(b) is found to be escaping, or to have escaped into Singapore waters from a vessel in consequence of damage to the vessel, or by reason of leakage, the Master or the person in charge of the vessel shall report the occurrences to the Director of Marine and the Port Master. Failure to do so shall be an offence and shall be liable on conviction to a fine not exceeding 5,000 dollars.

Slop Reception: The P.S.A. Slop Reception and Treatment Centre at Palau Sebarok has a total tank capacity of 62,000 cu.m. (395,000 barrels).

Berthing facilities consist of three piers – Piers 1 and 2 and the Barge Pier.

The depths of water alongside the piers are 7.6 m. (25 ft.), 12.8 m. (42 ft.) and 9.7 m. (32 ft.) at LWOST respectively.

The Centre can accommodate vessels up to an overall length of 259 m. (850 ft.) and a displacement of 51,000 tonnes (50,000 tons).

The average rate of discharge to the storage tanks through the Centre's 0.3 m. (12 in.) pipe-lines is 500 tonnes (490.2 tons) per hour at an operational pressure of 10.6 kg./sq.cm. (150 p.s.i.).

Communications: VHF Station Channel 2". Mobile Radiotelephone – Kapal 57.

Safety and security at the island is well provided and maintained by both the Authority's Police Force and Fire Brigade.
DELAYS: Normally none. Occasional congestion due to prolonged rainy weather or other abnormal conditions.
AUTHORITY: Port of Singapore Authority (PSA).
AGENT: Intrasea (Pte) Ltd., 234E Faber House, Orchard Road, Singapore 9. Tel. 2352611 Cables: Freight. Telex: RS 24010.

NOTES

Please also advise Shipping Guides (Services) Ltd.

Society Islands

BORA BORA (Vaitape): 16.31 S. 151.45 W.

DOCUMENTS: All vessels arriving in French Polynesia must first call for clearance at Papeete, or at Uturoa, or at Taiohae. See "Papeete" for documents required.
PILOTAGE: There is no pilotage station at Bora Bora; a Pilot will be provided at Papeete. Vessels are requested to advise their Agents at least 15 days before arrival of their ETA, length and draft of ship. In addition, Masters should confirm their ETA to the Port Captain of Papeete at least 3 days before arrival. Telegraphic address is Capitaine de Port, Papeete.
ANCHORAGE: Vessels may anchor in the port roads in depths of 34-21 m. Good holding ground in sand and coral.
RESTRICTIONS: Night pilotage is impracticable due to the absence of lighted navigation marks.
MAX. SIZE: Lengths 220 m., beam 30 m., draft 9.60 m.
HEALTH: Vessel should ask for free pratique by radio message to Sante Maritime Papeete, via coast station Mahina. This message to be sent 24 hours before arrival.
RADIO: Mahina Radio, call sign FJA, operating 24 hours a day on 500, 2,182 and 8,230 Khz.
TUGS: No tugs available at Bora Bora.
BERTHING: One quay, 132 m. length, situated in Faanui Bay. Depth alongside 7.30 m. This quay was constructed during the 2nd World War and is in poor condition, only used by small warships and yachts. One other quay 40 m. long and with depth alongside 4 m. Situated at Vaitape. Used by barges.
MEDICAL: No doctor available, but there is a local infirmary.
FRESH WATER: Not available.
FUEL: Not available.
CUSTOMS ALLOWANCE: No restrictions for crew members, but all tobacco and alcohol must be declared. Crew men going ashore may not take more than 2 packets of cigarettes.
AIRPORT: Situated 7 kms. from Vaitape, only inter-island services.
TIME: GMT minus 10 hours. No change during the year.
HOLIDAYS: See "Papeete".
SHORE LEAVE: Allowed.
AUTHORITY: Chef de Post, Bora Bora.

PAPEETE: 17.33 S. 149.34 W. (See Plan)

DOCUMENTS:
Required by Port Health:
Maritime Declaration of Health (form provided by the Pilot).
Required by Police:
Crew List.
List of Passengers Disembarking.
List of Passengers in Transit.
Required by Customs (2 copies of each):
Manifest of Cargo for Discharge.
Provisions List.
Mail List.
Crew Personal Effect List.
Bonded Stores List.
Ship's Spares List.
Crew List.
List of Passengers Disembarking.
List of Passengers in Transit.
List of Animals Disembarking.
List of Animals in Transit.
Complete Cargo Manifest.
Required by Port Captain:
Entry Declaration (form supplied on arrival).
Crew List.
List of Passengers Disembarking.
List of Passengers In Transit.
PILOTAGE: Vessels are requested to advise their Agents at least 3 days before arrival giving their ETA, length and draft of the ship, amount of cargo for discharge and any other requirements. In addition, Masters must give their ETA 24 hours before arrival to Capitaine de Port, Papeete. Pilot station and pilot launches are equipped with VHF and may be contacted on Channel 16 when within 30 miles. Pilot launches have grey painted hull with a white band, with wheelhouse on the fore part. The pilot flag is described as the colours of code flag "W" upside-down. International code flag signals may be used to call Pilot. Pilot boards about 1.5 miles from the entrance channel. There is no anchorage outside the port for ships awaiting a Pilot.

Pilotage is effected from 0500 to 2200 hrs. for entering vessels. For departing vessels, pilotage available up to 2400 hrs.
ANCHORAGE: Vessels up to 170 metres length can anchor in the port roads in depths of 18-25 metres. Good holding ground in mud.
MAX. SIZE: Length 245 m., beam 30 m., draft 10 m.
HEALTH: Vessels should ask for free pratique by radio to Sante Maritime Papeete, via Coast Station Mahina Radio. This message should be sent 24 hours before arrival. Pratique is automatic for vessels coming from another Polynesian port.
RADIO: Mahina Radio, call sign FJA, operating 24 hours per day on 500, 2,182 and 8,230 kHz.
VHF: The Port Captain's Office is equipped with VHF. Watches are kept on Channel 16 when a ship is expected.
TUGS: Tugs join ships as soon as they are in the entrance channel. Generally, tow-lines are not required, as tugs push the vessels only. There are three tugs available up to 1,200 h.p. belonging to the Port Authority, and in addition, there are two naval tugs up to 700 h.p. which may assist if required.
BERTHING: Passenger Quay: 233 m. length, two berths, depth alongside 9 m.

Cargo Quay: 450 m. length, depth alongside 10.50 m.
STEVEDORES: Cargo information should be confirmed to the Agents with ETA 48 hours before arrival.
MEDICAL: Advance notice required if medical attendance needed on board. Two hospitals available. Passengers disembarking must present a valid vaccination certificate.
TANKERS: One tanker berth, 105 m. long. Max. allowed draft 9.60 m. Discharging hoses are: Mobil Oil 8 in., Standard Oil 6 in.
FRESH WATER: Available from pipe-lines on all quays. Loading rate is 50 t.p.h. at passenger and cargo quays and 30 t.p.h. at the tanker berth.
FUEL: Diesel available subject to one week's notice.
DEVELOPMENTS: Construction of a new quay for passenger vessels up to 300 m. length.

Dredging harbour entrance to widen channel to 160 m. width 12.50 m. depth.

A quay is to be constructed in the fishing harbour, length 100 m., depth 6 m.

A Container Quay is to be constructed, length 200 m., depth 12 m. (1977-78).
GANGWAY/DECK WATCHMEN: Services of shore watchmen are necessary.
OPENING/CLOSING HATCHES: Hatches opened and closed by crew if they are of mechanical type, otherwise the stevedores will perform this operation.
CUSTOMS ALLOWANCE: No restrictions for crew members but all tobacco and alcohol must be declared. Crew members going ashore must not take more than two packets of cigarettes. Passengers disembarking may take 200 cigarettes or 50 cigars or 400 grammes of tobacco and one bottle of alcohol.
CONSULS: The following countries maintain representatives at Papeete:
Austria
Belgium
Chile
Denmark
Italy
Finland
Netherlands
Norway
Sweden
REPAIRS: Woodwork, electrical and welding repairs can be effected. There are two floating docks for vessels up to 3,800 tons.
REPATRIATION: Can be effected.
AIRPORT: Tahiti — Faaa Airport is situated 6 kms. from the port. Regular international flights.
HOLIDAYS: 1st January, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 11th November, 25th December. No work is carried out on Sundays or on 1st May. All other holidays can be worked on double overtime rates.
TIME: GMT minus 10 hours. No alterations during the year.
POLICE/FIRE/AMBULANCE: Police 17; Fire 18; Ambulance 2 96 74.
TELEPHONES: Can be installed on board vessels at all quays.
SHORE LEAVE: Allowed without restriction.
AUTHORITY: Capitaine de Port.

Solomon Islands

GIZO: 08.05 S. 156.52 E.

Gizo is the copra and cocoa receiving centre for Western Solomons. Situated on Gizo Island West of New Georgia. Entrance to harbour is beaconed and a jetty with depth alongside of 9 ft. Sheltered anchorage available in 16 fathoms. The British Solomons Trading Company Ltd. provides stevedores and conducts a lighterage handling and warehousing service to Importers and Exporters.

1 Crew List.

PILOTAGE: 24 hours notice ETA stating number of passengers, dangerous cargo, etc., to Harbour Master, Honiara, via Honiara Radio. Usual signals. Pilot boards from launch about 0.75 mile N.E. Pelope Shoal. Vessels normally berthed port side to. Pilot uses port gangway in calm weather.

ANCHORAGES: East of Port Main Leading Lights. F1. white and fixed green, in about 20 fathoms; coral bottom.

Local boats are available for transporting crew from anchorage to the shore. The landing stage is at Joanna Jetty on the East side of the main pier at Point Cruz. Height above water level is 2 ft. at high tide and 4 ft. at low tide.

APPROACHES: Approaches free from dangers provided vessels keep at least 2 cables off Point Cruz Beacon, identified by quick flashing red light. On foreshore in front of Shell Oil Storage Tanks is beacon with fixed green light, and above on Vavaya Ridge is white light flashes every 5 seconds from Tower on radio station building. When in line these 2 lights give correct approach to anchorage in 20 fathoms on, or East of, the line. Prevailing winds during S.E. season blow from N.E'ly direction sometimes reaching force 4 to 5 in early afternoon. During N.W. season direction and force variable generally between North and West up to force 4 and occasionally force 5.

RESTRICTIONS: Berthing in daylight hours only – departure any time.

MAX. SIZE: New Wharf, up to 650 ft. long and max. 29 ft. draft. Old Wharf, up to 200 ft. long and max. 13 ft. draft. Tankers, mooring at buoys, 600 ft. long and 27 ft. 6 in. draft.

HEALTH: Pratique can be obtained by radio. Cable Port Health. Suspect vessels should inform Health Authorities and Harbour Master by radio for doctor to board on arrival.

Cable to Quarantine Officer Honiara between 12 and 4 hours before arrival the following message: "Request Radio pratique negative answers all health questions maritime declaration of health Master." Normally, the P & T Radio Officer may grant pratique immediately whilst he is in radio contact with the ship. After arrival the Health Officer will check for rhinocerus beetle and will clear.

RADIO: Radio Honiara VQJ (Vee Kiu Jay). Watch continuous. kHz 6204, kHz 2182, kc/s 500. GMT Schedule 0020–0030 transmits 11560 kHz receives 8 or 16 mHz.

TUGS: There is a small 100 h.p. tugboat assisting with mooring when necessary.

BERTHING: At Point Cruz, berth length 235 ft., depth alongside 30 ft. Vessel berths port side alongside.

STEVEDORES: At least 24 hours notice, usually 3 gangs, indicate any extra gangs required. To facilitate quick turn around advisable have cargo in middle holds evenly distributed not at extreme end or massed in one hold only.

MEDICAL: Notice should be given in advance if medical attendance required on board. Smallpox vaccination required by all arriving on ship. Inoculations available at clinic on Fridays only. Limited hospital facilities available.

Cholera: required if arriving from infected area. Vaccination certificates are checked individually by those passengers permanently disembarking.

For all other passengers and the crew ship's doctor must provide a statement advising that all passengers and crew comply with the health regulations and vaccinations required.

In case some passengers have for health reasons not been vaccinated, a letter from their doctor giving reason why no vaccination given must be produced. Passengers will be allowed to go ashore.

Central Hospital, tel. 09–61.
Emergency and Ambulance, tel. 09–33
Doctors, tel. 09–44
Dentist, tel. 09–43

All medical facilities are provided from the Hospital. One private doctor available: Dr. J. Higgs, tel. 566.

TANKERS: Tanker buoys, 8 in. pipe-line, max. draft 32 ft. New Wharf, 4 in. pipe-line, max. draft 27 ft. 6 in. Old Wharf, 4 in. pipe-line, (ADO), max. draft 13 ft.

DENSITY/TIDE: Approx. 1025. Tidal range about 3 ft.

FRESH WATER: At wharf by hoses. 40 t.p.h.

FUEL: Diesel and gas oil available. 48 hours notice, butane gas.

FIRE PRECAUTIONS: Normal fire precautions, with gang standing by with fire pump.

GANGWAY/DECK WATCHMEN: Watchmen to be recommended. Customs provide a preventive office for duty at a charge.

OPENING/CLOSING HATCHES: Stevedores assist crew. Crew to rig gear.

CERTIFICATES: Certificate of Registry.

CUSTOM ALLOWANCE: 200 cigarettes or 0.5 lb. tobacco per crew member. 3 quart bottles of beer per crew member.

IDENTIFICATION CARDS: Required.

CONSULS: Australian.

REPAIRS: Limited facilities only.

DRY DOCKS: Nil.

REPATRIATION: Facilities available.

AIRPORT: Situated approximately 10 miles from the wharf. TAA flights 3 times per week from Sydney via New Guinea, and Air Pacific have two flights a week from Suva via New Hebrides. One flight from Port Moresby.

TIME: GMT plus 11 hours all year round.

HOLIDAYS: Cargo work can be arranged on all holidays except Christmas Day and Easter period.

POLICE/AMBULANCE/FIRE: Emergency phone numbers: Police 666; Ambulance 933; Fire 299.

SERVICES: Labour can be hired for assistance with painting and cleaning. Other services not normally available. 24 hours notice required.

SHORE LEAVE: Permitted.

FRESH WATER: Not available.

FUEL: Not available.

STEVEDORES: Vessel to give accurate ETA at least 24 hours in advance to enable Agent order necessary gangs. No shore facilities; all cargo to be loaded and unloaded with ship's gear.

MEDICAL: No advance notice for medical attention required at vessel's arrrival. Hospital facilities available, but specialised treatment and surgery is not. Smallpox vaccinations and yellow fever Certificates inspected on arrival.

GANGWAY/DECK WATCHMEN: Gangway watchmen service carried out by the Custom Police; food on vessel's account.

OPENING/CLOSING HATCHES: Normally carried out by stevedores with the help of the crew. Vessel's crew may, if required by the vessel, do so. Crew may close the hatches prior to sailing.

CUSTOMS ALLOWANCE: 200 cigarettes, or 5 lb. tobacco or 0.5lb. cigars. One bottle spirits opened. Bond sealed but can be reopened upon application. Cigarettes and spirits trafficking alongside and between vessel and shore strictly prohibited. It should be noted that tea, coffee and sugar are sealed in bond in addition to the usual items of spirits, cigarettes, tobacco and cigars.

AIRPORT: Situated 8 km. from the port. Regular international flights.

TIME: GMT plus 3 hours all year round.

HOLIDAYS: Muslim Edd-Al-Duha (say between 15th and 20th of Febuary); Muslim New Year (about 21st-23rd March); African Solidarity Day (15th April); Labour Day (1st May); Prophet Mohamed's Birthday (22nd May); Independence Day, Northern Somalia (26th June); Independence Day of the Somali Democratic Republic (1st July); National Flag Day (12th October); United Nations Day (24th October); Human Rights Day (10th December); Revolutionary Day (21st October).

DEVELOPMENTS: A new deep-water harbour is under construction at Mogadiscio, expected to be ready 1976.

AUTHORITY: Harbour Master.

NOTES

Please also advise Shipping Guides (Services) Ltd.

South Africa

CAPETOWN (Table Bay): 33.56 S. 18.26 E.

(See Plan)

PORT LIMITS: Westwards by a straight line between Green Point and Robben Island lighthouses, and Northwards by a straight line from Robben Island lighthouse East (true) to the Eastern shore of Table Bay, thence Southwards along high water mark, so as to include the foreshore to the Castle, thence back to Green Point lighthouse.

DOCUMENTS:

Customs:
Form DA.1, Report Inwards/Outwards for Ships.
Form DA.3, Certificate of Clearance for Ships.
Form DA.4, Transire – for a destination in the R.S.A.
Form DA.5, List of Sealable Goods on board ship.
Ships Crew List (Customs Department).
Livestock Form (Customs Department).
Post Office:
P.160, Notification of Departure of Vessel.
P1/27, Certificate of Departure of Vessel.
P1/149, Ship's Mail Declaration.
P.21, Post Office Certificate.
Port Health:
Maritime Declaration of Health.
Crew List with last vaccination dates.
Deratisation Certificate.
Port Authority:
T.958, Report of Arrival.
T.962, Departure/Shifting Notification.
Ship's Manifest.

PILOTAGE: Compulsory. One hour advance notice to be given to the Port Captain through VHF radio, call sign Port Operations, on Channel 16, working Channel 12. Pilot boat fitted with multi-channel VHF. Motor pilot boat, black hull, white housing. Pilot taken aboard at port entrance.

HELICOPTER SERVICE: Available for mail and small items of stores for vessels not wishing to enter harbour.

LAUNCH SERVICE: For vessels not wishing to enter harbour, Agent may arrange launch service for mail, stores, etc. In this case service only permissible in area North and West of position at least 5 miles due West of Robben Island.

ENTRY RESTRICTIONS: Vessels not permitted to enter unless Agents have been appointed. Oil tankers and ships carrying explosives or dangerous goods restricted to daylight hours.

MAX. SIZE: Passenger and dry cargo vessels: max. length up to 1,000 ft. overall; draft 36 ft. Tankers: max. length 820 ft. overall; draft 43 ft. (tidal).

HEALTH: Pratique granted at first port of entry in South Africa. Pratique message 24 hours prior to arrival to "Port Health" at port of entry. If radio pratique not granted "Q" flag to be flown until ship has been cleared. Valid certificates must be held for smallpox and yellow fever. Ships from Eastern ports must also have valid certificates for cholera and typhoid.

RADIO: Capetown Radio, call sign ZSC.

TUGS: Join vessel approximately 0.25 mile from harbour entrance. Tug's wires used at no extra charge.

New basin under construction adjacent to Duncan Dock will provide additional 7 deep-sea berths including 2 berths fully equipped for containers. Completion date 1977.

CRANE: *Floating crane:* Lifts 60 tons at 24.4 m. radius.

A new floating crane, capacity 120 tons, expected to be operational by mid-1977.

BULK HANDLING FACILITIES: *Grain Elevator:* 1 terminal grain elevator of 27,220 tons storage capacity, with loading conveyors to the Collier Jetty. Continuous intake capacity of elevator, 750 t.p.h.; shipping capacity, 1,000 t.p.h.

MEDICAL: Unrestricted hospital facilities. Medical assistance must be arranged through Agents.

TANKERS: Diameter of line 8 in. 2 Tanker berths, max. length 820 ft., max. draft 43 ft. (tidal). Slop tank available for oily ballast from tankers back-loading white oil.

DENSITY: 1025.

FRESH WATER: Delivery by hose ex-wharf hydrants. 50 t.p.h.

FUEL: 48 hours notice required. All grades of fuel available.

DEVELOPMENTS: An outer harbour is to be constructed initially providing 8 berths for dry cargo ships with a depth alongside of 42 ft. at LWOST.

GANGWAY/DECK WATCHMEN: Ship's Agent makes necessary arrangements.

OPENING/CLOSING HATCHES: Mechanical hatches opened/ closed by crew. Other types of hatches by stevedores.

CERTIFICATES: Safety Certificates in respect of construction and gear.
Radio Certificate.
Load Line Certificate.
Deratisation Certificate.
Certificate of competent officers (passenger ships only).

CUSTOMS ALLOWANCE: 200 cigarettes per man. Officers allowed 1 bottle spirits.

CARGO GEAR: All cargo handling equipment must be in good condition and certificates available for inspection.

IDENTIFICATION CARDS: Required, otherwise National Identity Cards, if available.

REPAIRS: All types of repairs can be undertaken.

DRY DOCKS:

Sturrock Graving Dock: Situated at S.E. end of Duncan Dock:
Dimensions— Overall docking length 360.0 m.
Length on keel blocks (first to last keel block) 338.3 m.
Length on bottom (dock floor) 350.4 m.
Width at coping 47.5 m.
Width at entrance top 45.1 m.
Maximum width at bottom 38.4 m.
Depth on entrance sill, HWOST 13.7 m.
Depth on inner sill, HWOST 15.1 m.

A docking length of 369.6 m. can be obtained by placing the caisson in the emergency stop at the entrance.

The dock can be divided into 2 compartments of either 132.5 m. and 216.1 m. or 205.7 m., and 142.9 m. respectively.

One 50 ton and one 10 ton electric crane on 7.6 m. gauge track, two 5 ton electric cranes on 4.9 m. gauge track and one 4 ton electric crane on 4.9 m. gauge track are available.

The dock can be emptied in 4 hours.

A landing wharf 548.6 m. in length is provided on the port side of the graving dock to facilitate the dry-docking of ships.

A repair pier 457.8 m. in length with a depth along both sides of 10.7 m. at LWOST is provided off M berth. One 15 ton electric crane on 9.1 m. gauge track is available.

Robinson Graving Dock: Situated in Alfred Basin:

Dimensions—	Overall docking length	161.2 m.
	Length on keel blocks (first to last keel block)	142.6 m.
	Length on bottom	152.4 m.
	Width at coping	27.4 m.
	Width at entrance top	20.7 m.
	Maximum width at bottom	17.2 m.
	Depth on entrance sill, HWOST	8.3 m.
	Depth on inner sill, HWOST	7.9 m.

Three 4 ton electric cranes on 4.1 m. gauge track and one 15 ton electric crane, on 4.1 m. gauge track are available.

The dock can be emptied in 3 hours.

Floating Dock No. 2:

Dimensions—	Extreme length	62.8 m.
	Length on bottom	61.0 m.
	Length on keel blocks	58.2 m.
	Extreme width	19.2 m.
	Width at entrance	13.7 m.
	Height of keel blocks	1.2 m.
	Draft on keel blocks, HWOST	5.6 m.
	Lifting capacity	1,016 tons

A 4 ton electric crane is mounted on a side wall of the dock.

Syncrolift Situated in Alfred Basin:

Dimensions—	Lifting capacity	1,750 tons
	Maximum length of vessel	61 m.
	Maximum width of vessel	15 m.

Repairing facilities are available for 1×15 m., 1×30 m. and 2×61 m. vessels provided the maximum light displacement of the vessels does not exceed 1,750 tons.

Slipways:

There are 4 boat slips for yachts and small craft.

REPATRIATION: All facilities available.

1. *Vessels docking*
   - *(a)* Any personnel arriving to join a vessel at Capetown should possess a valid travel document and a brief letter of introduction. Entry Permits can be extended if the vessel is late in arriving.
   - *(b)* Application to spend time (longer than 48 hours) in South Africa prior to repatriation should be made to the local immigration authorities.
2. *Vessels calling off Port Limits*
   - *(a)* The same requirements apply as for 1(a) with the exception of personnel who have entered the country from a vessel calling off Port Limits.
   - *(b)* The following applies to all personnel disembarking from vessels calling off Port Limits.
     - (i) Repatriation must be made within 48 hours from time of offsigning.
     - (ii) In order to comply with local immigration authorities the agency requires the following details, for each individual, at least 72 hours before disembarkation:
       - *(a)* Full name and nationality.
       - *(b)* Rank and, if Technician, name of employers.
       - *(c)* Passport number, place and date of issue.
       - *(d)* Place and date of birth.
       - *(e)* Destination and class of travel.
       - *(f)* If air ticket held on board, full details of routing.
       - *(g)* Reasons for disembarkation.

In the case of personnel transferring from one company vessel to another, the same conditions apply except the maximum time permitted for such transfer is 78 hours. If they have not joined the vessel within this period, repatriation must be arranged forthwith.

There are no difficulties for any personnel disembarking for medical reasons.

AIRPORT: D.F. Malan Airport – 15 miles from harbour. Daily flights to Johannesburg connecting with overseas flights by regular airlines.

TIME: GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January); Good Friday, Easter Monday, Ascension Day (date varies); Republic Day (31st May); Settlers' Day (1st Monday in September); Kruger Day (10th October); Day of the Covenant (16th December); Christmas Day (25th December); Boxing Day (26th December). Cargo is not worked on Christmas Day and New Year's Day.

POLICE/AMBULANCE/FIRE: Police, 38-3471; Ambulance, 51-5151; Fire, 438-2978 or 438-3431.

TELEPHONES: Telephones can be supplied at all berths. Arrange through Agents.

SHORE LEAVE: Allowed.

SHIPMASTER'S REPORT: Off limits launch (and helicopter) service.

Port, Immigration, Customs and Health Authorities have made it clear that this service is a privilege and not a right. It is therefore of the utmost importance that the regulations are strictly adhered to.

The Agent must apply to the Port Captain for permission to service the vessel and the following details must be submitted. Name of vessel, time and date of arrival, draft, where from, where to, stores required and other reasons for call.

Launch is only allowed to be alongside vessel for 1 hour maximum otherwise vessel will have to enter port limits and incur port dues. Tariff R.15.00 per half hour, minimum R60.00.

If personnel embarking, Immigration Authorities require name of vessel, tonnage, whether ballast or loaded and names of persons embarking. If persons disembarking then full names, dates and places of birth, nationality, passport or discharge book number and expiry date, whether South African visa held and comprehensive reason for leaving vessel, arrangements made for departure from South Africa (usually 24/48 hours allowed), and flight number. This does not apply to medical cases. Guarantee from Agent accepting full responsibility and liability regarding maintenance and repatriation expenses. Persons disembarking must report immediately to Passport Control. Failure to report or leave South Africa on the booked flight is an offence and in addition to any fine or imprisonment the Owners will be refused any further off limits service for *any of their vessels*.

Port health require application for radio pratique 48/24 hours before arrival. Customs require all bonded stores loaded to be signed for and ship's stamp applied. Stores or spares being landed must have prior notification to Agent and an accompanying letter giving full description and disposal instructions.

Agents require 168, 96, 48, 24, and 12 hours' notices followed by any amendment to ETA. Stores requirements should be sent at least 96 hours before arrival. Three copies of Crew List to be sent ashore with launch (or helicopter).

Services operate 24 hours per day and usual rendezvous position is 5 miles West of Green Point lighthouse for launch (and 12 miles West for helicopter). Launch can carry up to 30 tons stores (and helicopter up to 2,000 lb.). Vessels should not anchor but provide a good lee and have derrick rigged. Contact should be made with the launch (or helicopter) one to two hours before arrival rendezvous point using Channel 16.

AUTHORITY: South African Railways, Port Captain, Table Bay Harbour.

AGENT: Freight Services Ships Agency Co., 2nd Floor Cape Town Centre, Heerengracht, POB 702, Cape Town. Tel: 45-4011. Telex: 5-7614. Cables: Seafreight Cape Town.

DURBAN (Port Natal): 29.53 S. 31.02 E. (See Plan)

PORT LIMITS: The area of sea bounded by: (1) to the North, a line drawn from the coast in position: 28° 48′ 42″ S. 31° 02′ 32″ E. in a 090° (True) direction to position 29° 48′ 42″ S. 31° 7′ 30″ E.; (2) to the South, a line drawn from the coast in position; 29° 54′ 06″ S. 31° 02′ 30″ E. in a 090° (True) direction to position 29° 54′ 06″ S. 31° 7′ 30″ E.; (3) to the East, a line joining the seaward positions in (1) and (2).

DOCUMENTS:

Customs:

Form DA.1, Report Inwards/Outwards for Ships.
Form DA.3, Certificate of Clearance for Ships.

*81 ton crane can move at right angles to quay only.

CRANES: *Floating Cranes:* 2, lifting capacities of 25 tons and 40 tons, respectively.

Mobile Cranes: Diesel-electric road cranes: One 6.5 tons, four 12.5 tons, four 15/35 tons, one 15/43 and one 33-ton crane. Two 25-ton side-loaders (for container handling).

BULK HANDLING FACILITIES: *Grain elevator:* 1 terminal elevator of 38,100 tons storage capacity, with shipping gallery. Intake capacity of elevator, 1,000 t.p.h.; shipping capacity 1,271 t.p.h.

Privately owned facilities:

(1) Manganese Ore Loading Facilities. Electrical conveyor plant at Congella. Shipping capacity 318 t.p.h.

(2) Sugar Terminal. At Maydon Wharf. Storage capacity of 520,000 tons and shipping rate of 711 tons to 762 t.p.h.

(3) Alumina Handling Facilities. At the Crossberth. Storage capacity of 33,000 tons and conveyor system with discharge rate of 300 t.p.h. Max. size 45,000 d.w.t., max. draft 38 ft.

(4) Bulk Soda-Ash Facilities. At Maydon Wharf. Storage capacity of 20,865 tons and conveyor system with discharge rate of 91 tons to 136 t.p.h.

Bulk-loading Facilities: Electrically-driven appliances for the loading of coal, pig iron, manganese ore, iron ore, etc., are provided at the Bluff. There are 3 dumpers with capacity of 1220 tons, 711 tons and 1,220 t.p.h., respectively. 2 belt loaders capable of loading at the rate of 610 t.p.h. and 3 bucket transporters with an aggregate capacity of 1,220 t.p.h. are available. The overhead storage bins have a capacity of 10,160 tons, while concrete bins are provided for ground storage with the following capacities:

1. Anthracite throughout–64,630 tons.
2. Mixture of anthracite and pig iron: Anthracite–48,000 tons.
   Pig iron–43,345 tons.

Anthracite Storage Facilities: Concrete ground storage bins of 18,290 tons capacity at Salisbury Island.

STEVEDORES: Stevedoring undertaken by private enterprise stevedores appointed by ship's Agent.

MEDICAL: Unrestricted hospital facilities. Medical assistance must be arranged through Agents.

TANKERS: Off-shore Single Buoy mooring suitable for tankers up to 200,000 tons situated in position 30° 0′ 30″ S., 30° 58′ 29″ E.

Mooring Master boards in position 2 miles East of SBM. Rope messengers should be available on forecastle, and manifold prepared to connect two 16-in. hoses ASA 150 flanges. Stores launch can be arranged for up to 30 tons stores, provided that vessels anchor outside port and territorial limits. No bunkers, no fresh water, and no shore leave for vessels at single buoy mooring.

In harbour 4 tanker berths, for vessels of max. length 800 ft., max. draft 38ft. Slop tanks available. Crude discharge through 10in, hoses, white oil 8 in. hoses, loading products through 8 in. hoses.

Additional Crude Oil Discharge Berth with depth alongside of 42 ft. under construction, but maximum permissible draft 38 ft.

DENSITY: 1025.

FRESH WATER: Delivery by hose ex-wharf hydrants. Rate of delivery 100 t.p.h.

FUEL: All grades of fuel available. 48 hours notice required. Fuel may be obtained alongside berths or by barge. No barging outside harbour area.

OPENING/CLOSING HATCHES: Mechanical hatches opened/closed by crew. Other types of hatches by stevedores.

CERTIFICATES:

Safety Certificates in respect of construction and gear.
Radio Certificate.
Load-line Certificate.
Deratisation Certificate.
Certificate of competent officers (passenger ships only).

CUSTOMS ALLOWANCE: The following are allowed for Master, officers and crew respectively: Tobacco in any form, 8 oz., 6 oz., 4 oz. Spirits: 26.7 fl. oz., 26.7 fl. oz., nil. Wine: 106.6 fl. oz. each. Beer: 106.6. fl oz., 106.6 fl. oz., nil.

CARGO GEAR: All cargo handling equipment must be in good condition and certificates available for inspection.

IDENTIFICATION CARDS: Required, otherwise National Identity Cards, if available.

CONSULS:

DRY DOCKS: *Prince Edward Graving Dock:*

Dimensions—	Overall docking length	352.044 m.
	Length on keel blocks	327.660 m.
	Length on bottom	352.044 m.
	Width at coping	42.215 m.
	Width at entrance top	33.528 m.
	Maximum width at bottom	33.528 m.
	Depth on entrance sill HWOST	12.497 m.
	Depth on inner sill HWOST	13.106 m.

A docking length of 364.44 m. can be obtained by placing the caisson in the emergency stop at the entrance.

The dock can be divided into 2 compartments:
Outer 206.906 m. and inner 138.684 m.

One 25 ton electric crane with 27.342 m. radius and one 10 ton crane on 7.925 m. gauge track and one 10 ton and two 5 ton electric cranes on 4.572 m. gauge tracks are available. The dock can be emptied in 4 hours.

Floating Dock No. 3:

Dimensions—	Extreme length	106.680 m.
	Length on bottom	106.680 m.
	Length on keel blocks	104.546 m.
	Extreme width	26.822 m.
	Width at entrance	19.482 m.
	Height on keel blocks	1.219 m.
	Draft on keel blocks, HWOST	5.334 m.
	Lifting capacity	3.629 tons
	Crane	4 tons

REPATRIATION: All facilities available.
AIRPORT: Louis Botha Airport – 15 miles from harbour. Daily flights to Johannesburg connecting with overseas flights by regular airlines.
TIME: GMT plus 2 hours.
HOLIDAYS: New Year's Day (1st January); Good Friday, Easter Monday, Ascension Day (date varies); Republic Day (31st May); Settlers' Day (1st Monday in September); Kruger Day (10th October); Day of the Covenant (16th December); Christmas Day (25th December); Boxing Day (26th December). Cargo is not worked on Christmas day and Good Friday.
POLICE/AMBULANCE/FIRE: Police, 310-2716 or 887; Ambulance, 62333 or 310-2104; Fire, 310-2104 or 62333.
TELEPHONES: Telephones can be supplied at all berths. Arrange through Agents.
GENERAL: A copy of the Regulations for the Republic of South Africa and of South West Africa supplied gratis to Masters on arrival.
SERVICES: Tank-cleaning facilities, compass adjustments and repairs to all electronic gear can be undertaken.
SHORE LEAVE: Allowed.
AUTHORITY: South African Railways, Port Captain, Durban.

AGENT: Freight Services Ships Agency Company Limited, 17th Floor – Durban Bay House, 333 Smith Street, P.O. Box 1020, Durban; Tel. No. 318174/80; Telex: 6–2540; Cables: Seafreight Durban.

EAST LONDON: 33.02 S. 27.55 E. (See Plan)

PORT LIMITS: These are defined in the "Regulations for the Harbours of the Republic of South Africa" as follows:

The area of the sea bounded by a line drawn from the Nahoon Point in position 32° 59′ 50″ S. 27° 57′ 07.5″ E. in a 114° direction for 1 sea mile to a position 33° 00′ 13.9″ S. 27° 58′ 12.8″ E. thence in a 216.5° direction to a position 33° 03′ 14.46″ S. 27° 55′ 37.18″ E. and thence in a position 295° direction to the coast in position 33° 02′ 36″ S. 27° 53′ 57″ E. (All bearings are true.).

For Harbour Revenue purposes, a vessel "arrives" when it passes into the harbour proper.

DOCUMENTS:
Customs:
- Form DA.1, Report Inward/Outward for Ships.
- Form DA.3, Certificate of Clearance for Ships.
- Form DA.4, Transire – for a destination in the R.S.A.
- DA.5, List of Sealable Goods on board ship.
- Ships Crew List (Customs Department).
- Livestock Form (Customs Department).

Post Office:
- P.160, Notification of Departure of Vessel.
- P1/27, Certificate of Departure of Vessel.
- P1/149, Ship's Mail Declaration.
- P.21, Post Office Certificate.

Port Health:
- Maritime Declaration of health.
- Crew List with last vaccination dates.
- Deratisation Certificate.

Port Authority:
- T.958, Report of Arrival.
- T.962, Departure/Shifting Notification.
- Ship's Manifest.

PILOTAGE: Compulsory. One hour advance notice to be given to Port Captain through VHF radio – Port Operation – calling Channel 16, working Channel 12. Pilot boats fitted with multi-channel VHF. Motor pilot boat – black hull, white housing "Pilot-Loods" painted in black on housing. Steam pilot boat – black hull, brown housing and yellow funnel. Pilot taken aboard at outer anchorage.
RESTRICTIONS: Vessels not permitted to enter unless Agents have been appointed.

Port operates from: 0600 to 2200 hrs. Mondays to Fridays 0600 to 1300 hrs. Saturdays 0600 to 1900 hrs. Sundays. Tankers are handled in daylight only.
MAX. SIZE: Tankers: max. length 670 ft. overall, draft 32 ft. 6 in.

Passenger and dry cargo vessels: max. length 800 ft. overall, draft 32 ft. 6 in.
HEALTH: Pratique granted at first port of entry in South Africa. Pratique message 24 hours prior to arrival to "Port Health" at port of entry. If radio pratique not granted "Q" flag to be flown until ship has been cleared. Valid certificates must be held for smallpox and yellow fever. Ships from Eastern ports must also have valid certificates for cholera and typhoid.
RADIO: East London Radio, call sign ZSA.
TUGS: Two tugs available. Join vessel in entrance channel. Tug's wires used at no extra charge.

*Suitable for small fishing craft only.

TANKERS: Conventional buoy mooring designed for 32,000 d.w.t. vessels up to 670 ft. length. Situated offshore at Voorbaai. No slop facilities.

Vessels use both anchors (approx. 9 shackles on each). There are 5 mooring buoys which are kept underwater when not in use. Vessels should have 10 full coils of rope. They should be well ballasted at all times as there is very little warning of strong winds which may suddenly come up.

DENSITY: S.G. 1025.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: Cape St. Blaize lighthouse on 24-hour watch. Requests for medical assistance passed through lighthouse to Harbour Master and Pilot.

Hospital facilities available. Vessels in port should arrange medical facilities through Agent.

CUSTOMS ALLOWANCE: 200 cigarettes for each man. No alcohol.

CARGO GEAR: All cargo handling equipment must be in good condition and certificates available for inspection.

IDENTIFICATION CARDS: Required. Otherwise National Identity Cards, if available.

REPAIRS: Only minor repairs can be undertaken.

TIME: GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st Jan.); Van Riebeeck Day (6th April); Good Friday, Easter Monday, Ascension Day (dates vary); Republic Day (31st May); Family Day (2nd Monday in July); Settler's Day (1st Monday in September); Kruger Day (10th October); Day of the Covenant (16th December); Christmas Day (25th December); Boxing Day (26th December). Cargo is not worked on Christmas Day and Good Friday.

SHORE LEAVE: Allowed.

AUTHORITY: South African Railways. Port Captain, Mossel Bay.

AGENT: See "Durban".

PORT ELIZABETH: (Algoa Bay): 33.58 S. 25.37 E. (See Plan)

PORT LIMITS: Bounded on the Southward by a line drawn from Cape Recife, East (true) to a point in the Indian Ocean, distant 1,609 m. on the Northward by a line drawn from the extreme point of the East bank of the Zwartkops River, East (true) distant 1,609 m.; on the Eastward by a line drawn between these 2 points, and shall embrace the foreshore between high and low water marks from Cape Recife lighthouse to the aforesaid line at East bank of the Zwartkops River, including that portion of the said river which lies on the seaward side of the bridge carrying the railway line to Alicedale.

DOCUMENTS: *Customs*

REPAIRS: Minor deck and engine room repairs.

REPATRIATION: All facilities available.

AIRPORT: Airport 2 miles from harbour. Daily flights to Johannesburg connecting with overseas flights by regular airlines.

TIME: GMT plus 2 hours.
HOLIDAYS: New Year's Day (1st January); Van Riebeeck Day (6th April); Good Friday, Easter Monday, Ascension Day (dates vary); Republic Day (31st May); Family Day (2nd Monday in July); Settlers' Day (1st Monday in September); Kruger Day (10th October); Day of the Covenant (16th December); Christmas Day (25th December); Boxing Day (26th December). Cargo is not worked on Christmas Day and Good Friday.
POLICE/AMBULANCE/FIRE: Police 50-2781; Ambulance 2-2222; Fire 2-1111.
TELEPHONES: Telephones can be supplied at all berths. Arrange through Agents.
SHORE LEAVE: Allowed.
DEVELOPMENTS: *Charl Malan Quay* is being converted for containerisation. Berths 6 and 7 are currently out of commission. The project will be operational in March 1979 and completed by March 1980.
North Jetty is under re-construction into a roll-on/roll-off berth for car ferries.
St. Croix: Ore loading facility for large bulk carriers to be constructed, completion expected 1978.
AUTHORITY: South African Railways. Port Captain, Port Elizabeth.

AGENT: Freight Services Ships Agency Company Limited, 3rd Floor African Eagle Centre, 162 Main Street, P.O. Box 1108, Port Elizabeth. Tel. No. 523620/4. Telex: 74–7181. Cables: Seafreight Port Elizabeth.

RICHARDS BAY: 28.48 S. 32.06 E. (See Plan)

LOCATION: The port is located some 200 km. North of Durban. Mid point of the bay is approximately 28° 48′ S. and 32° 02′ E.
DOCUMENTS: The following documents should be prepared and ready on berthing:
Port Health:
1 Maritime Declaration of Health.
1 Vaccination List.
1 Crew List.
1 Valid Derat Certificate.
Immigration:
3 Crew Lists.
Customs:
2 Crew Lists.
1 Ship's Stores List.
1 Crew Declaration of Bonded Stores, etc.
Agents:
2 Crew Lists.
Loading Certificate.
Safety Radio Certificate
Safety Equipment Certificate.
Customs: All vessels using the port, will be subject to Customs Inspection and must obtain a Customs Clearance.
PILOTAGE: Pilotage is compulsory and Pilots are provided by the Marine Department of South African Railways and Harbours.

Boarding points are determined by the Pilot, but generally speaking will be within an area approximately 3 km. East of the Harbour Entrance.

At the present time vessels can only enter and leave during daylight. Later this position will be reviewed to consider a 24 hour service.
ANCHORAGE: 3 to 5 miles off Port but not opposite Entrance (precise area not yet demarcated).
Quality of Bottom: Sandy.
Note: Anchorage is similar to Durban and in high S.W. winds anchorage is safe, but in high N.E. winds caution should be exercised.
MAX. SIZE:
LOA Max. 314 m. Beam max. 47.25 m. Draft max. 17 m. D.W. Limit max. 150,000 d.w.t.
Note: SAR have laid down temporary instructions on vessel size. Because the Port is new, shiphandling experience in various weather conditions needs to be gained. This the reason for the following limitations.
July 1976 – March 1977: Max. d.w. – 100,000 tonnes.
From April 1977: Max. d.w. – 150,000 tonnes.
Minimum Ballasted Condition on Entry:

Length	*Draft – Fore*	*Draft – Aft*
600 ft.	20 ft.	24 ft.
700 ft.	25 ft.	28 ft.
800 ft.	26 ft.	30 ft.
900 ft.	27 ft.	32 ft.
over 900 ft.	28 ft.	34 ft.

HEALTH: Radio Pratique can be obtained by cabling Port Health – Durban using the standard international procedure for working. See "Radio".
RADIO: *Arrival Advice:*
To "Porthealth Richardsbay" – direct through Durban Radio – 24 to 48 hours prior arrival – advising ETA, last port, date sailed, number of crew, full inoculation/vaccination status, and state of health of crew, and requesting Radio Pratique. Porthealth will cable vessel directly, either granting pratique or requesting further details. These messages are free of charge.

To "Portcaptain Richardsbay" – direct through Durban Radio – 48 hours prior arrival, advising ETA, draft, freeboard and reason for call at Richards Bay.
VHF: Vessels can communicate with Port Control, on Channel 16 VHF during daylight hours only. When at anchor, listening watch should be kept to receive berthing instructions.
TUGS: Tug attendance is compulsory.
Tugs are owned and operated by South African Railways and Harbours and consist of the following:

1. Voigth Schneider	4,200 h.p. Bollard Pull 43 tons.
2. Diesel Electric	2,270 h.p. Bollard Pull 30 tons.

BERTHING: Line boats are provided by the Harbour Authorities, as are berthing gangs.

Coal Terminal:
Berths No's 301 & 302. Owned and operated by the Richards Bay Coal Terminal Company (Pty) Limited, and is used solely for the export of South African Steam Coal.

Length	700 m.
Depth	19 m.
Quality of bottom	Sandy to hard
Density of sea water	Between 1000/1025 (Fresh to salt)
Height of quay above HWOST	3.2 m.

Shiploaders: Two. (Dimensions apply to one machine)

Loading capacity (nominal)	6,500 m/t.p.h.
Loading capacity (average)	3,500 m/t.p.h.
Loading capacity of Trimmer	3,000 m/t.p.h.
Working Range of Boom	15° up to 15° down
Height of Boom above HWOST with Loader in best working position	21.0 m.
Height of Boom above HWOST with Loader at max. working elevation	21.6 m.

Clean Cargo Berth:
On the North side of the harbour 1,300 m. of quay wall is being constructed. The first 250 m. of this quay, berth 703, was opened on 1st October 1976, the next 250 m., berth 702, will be opened about mid January 1977 and the balance, berths 701 and 609 in June 1977. Depth at berths 703 and 702 will be – 19 m. and the balance at – 12.8 m. All of these berths have adequate back up areas, railway tracks etc. but it is not intended to provide warehousing and cranes at this stage.

Berth 703 will be provided with a pipe-line to load bulk phosphoric acid ex-storage tanks.
MEDICAL:
Hospital: There is a modern and well equipped hospital at Empageni. (Approx. 25 km. from the berth).
Doctor/Dentist: Usual port services available on 24 hour basis.
FRESH WATER: Fresh water is available at the berth. Rate approx. 25 t.p.h.
FUEL: Heavy and Medium Fuel Oil. Diesel Oil and Gasoil are available by pipe-line at the berths 301 and 302 only. Bunkering can take place concurrently with loading.

Stems for bunkers should be placed with normal bunker suppliers who will arrange delivery through the Bunker Supply Company at Richards Bay.
REPAIRS: Written approval must be obtained from the Port Authorities, via the Agents for vessel to immobilise engines to carry out repairs. Repairs may be carried out at the berth.
CUSTOMS ALLOWANCE: Customs, on vessels berthing, allow each member of the crew 200 cigarettes. They normally allow also 1 part bottle spirits and 8 cans (or dumpy bottles) of beer to each officer. No alcohol allowed for rated crew members except in the case of vessels belonging to countries where provision is made for wine in the statutory list of rations.
AIRPORT: There is an airport at Richards Bay 26 km from the Coal Berth, and there are 2 flights per day to Durban, where international connections can be made.
HOLIDAYS: *Local Holidays:*
New Year's Day, 1st January; Good Friday; Easter Monday; Ascension Day; Republic Day, 31st May; Settler's Day, 6th September; Kruger Day, 10th October; Day of the Covenant, 16th December; Christmas Day, 25th December; Family Day, 26th December.

Where such a holiday falls on a Sunday, the Monday following becomes a Public Holiday.
POLLUTION: The Port Authorities demand that no vessel using the port shall discharge any garbage, refuse, vegetable or food matter, deck cleanings polluted bilge water, oil or rubbish of any description in the vicinity of or in the port of Richards Bay.

Heavy penalties will be imposed for breach of the regulations.

Vessels arriving in Ballast must have clean ballast on board, as deballasting takes place alongside the berth. Dirty ballast pumped into the harbour will incur heavy penalties for pollution.
TELEPHONES: Telephones are available at the berth. Application for the service should be made through the Agents in advance.

All telephone calls made will be charged to the vessel's account.

Caution: With direct dialling available internationally it is strongly recommended that telephones are placed in the custody of a responsible officer to avoid abuse.
SHORE LEAVE: There are no restrictions on shore leave for crew. Entertainment in the Richards Bay area is very limited. Durban, 2.5 hours drive away, however, can offer very much more.
DEVELOPMENTS: The above embraces stage 1 of the Richards Bay Harbour Development plan, later stages will include further berths, repair facilities etc. Extension of the town and surrounding areas is taking place rapidly together with large scale industrial and commercial developments.
GENERAL: The harbour and the quays are owned by South African Railways and Harbours.

Provisions: Stores and provisions can be obtained through Ships Chandlers. At present all the Chandlers are situated in Durban but will supply to Richards Bay on request.

Game Parks: National Parks Board Game Reserves (Hluhluwe and Umfolosi) are within easy reach of Richards Bay by car.

Car Hire: Cars can be hired, through the Agents at reasonable cost to officers and responsible crew members only. An International Driving Licence is required to make use of this service.

Navigational Aids: Lighthouse (500,000 candlepower) to be constructed North of the harbour at position 28° 48′ S., 32° 06′ E.

Leading lights – Front 28° 47′ 24.725″ S., 32° 02′ 44.711″ E.

Breakwater tip lights (2 flashes per 5 secs.) South light Red, North light White.

Tides: Tidal change between HWOST and LWOST is approximately 2 m.

Prevailing Winds: South Westerly; North Easterly.

AUTHORITY: South African Railways, Port Captain, Richards Bay.

AGENT: Freight Services Ships Agency Company Limited, P.O. Box 247, Richards Bay. 3900. Telephone 5225, 5319. Telex: 6–0434. Cables: Baybulk.

SALDANHA BAY: 33.02 S. 17.58 E. (See Plan)

DOCUMENTS: *Port Health:*

1 Maritime Declaration of Health.
1 Vaccination List.
1 Crew List.
1 Valid De-ratting Exemption Certificate.

Immigration:

3 Crew Lists only.

Customs:

1 Crew List
1 Ship's Stores List.
1 Crew Declaration.

Agents:

2 Crew List.

Customs: Arrangements have been made with Customs that loading shall commence before Customs Entry is completed. Customs will normally board on arrival for the purpose of checking and sealing Bonded stores, etc.

Immigration: On arrival at the port, any vessel which is not cleared by Immigration shall show the 'I' flag. No persons may disembark or embark without the express permission of the Immigration Officers until such time as Immigration formalities have been completed.

PILOTAGE: Pilotage is compulsory at Saldanha Bay, and will be undertaken by fully qualified Master Mariners employed by the South African Railways and Harbours.

Pilots will normally board vessels in a vicinity between North Head and South Head.

APPROACHES: The navigational channel will be dredged to 23.25 m. below chart datum, and 275 m. wide on each side of the jetty. The exit from the jetty will be 24.00 m. below chart datum, with a min. width of 375 m.

HEALTH: Vessels requesting free pratique should cable Port Health, Cape Town, via Cape Town Radio (ZSC) at least 24 hours before arrival. There is no charge for messages addressed to Port Health. When free pratique cannot be granted, then the vessel will be required to show the 'Q' flag on arrival and will be boarded by Port Health Inspectors at the anchorage in Saldanha Bay.

RADIO: Saldanha Bay will be served by Cape Town Radio (ZSC).

Arrival: Vessels calling at Saldanha Bay to load ore will be required to send their ETA 96 hours prior to arrival, stating the approx. tonnage of ore required, the type of ore and the loading programme. Further messages will be required to be sent at 48 hours and 24 hours prior to arrival, updating the ETA. These ETA's are to be sent via Cape Town Radio (ZSC) addressed to Iscor Harbour Control and also to the Agent.

Vessels calling at Saldanha Bay after leaving Cape Town will be required to send by telex their ETA 24 hours before the expected time of arrival at Saldanha Bay, together with their final tonnages of cargo required, type of ore and loading programmes.

With the final 24 hour ETA the Master will be required to provide the draft forward and aft, and the de-ballasting time required on arrival. If there is any change to this programme a further message should be despatched as soon as possible after any such change is known.

48 hours prior to arrival, in addition to the updated ETA, the vessel must indicate her requirements, i.e. fuel, fresh water, other services to Iscor Harbour Control and the Agents. Final advice of loading programme:

1. Quantity
2. Grading
3. Sequence

to be provided at least 24 hours before Notice of Readiness is given. Failure to provide this information may result in a delay of 12 hours before loading commences. Vessels are to request docking instructions from Iscor Harbour Control 6 hours before arrival. Instructions will be given promptly and concisely.

Vessels will be loaded in regular turn subject to cargo availability and Charter Party Lay Days, providing they berth with hatches open and are ready for loading in all respects.

VHF: *Port Control:* Saldanha Bay Port Control will be equipped with VHF and contact can be made direct using Channels 16, 14, 12.

Tugs: The tugs will operate with VHF Channels 16, 8, 6, and radio telephone.

TUGS: There are two tugs presently on order for Iscor, and will be operated by Safmarine. Each tug will be propelled by Voith Schneider gear, and will be of 4,000 h.p. In January, 1977 one further tug, to be built in Durban, will be delivered.

BERTHING: The jetty construction is of the caisson type, spanned with a deck construction between the caissons. The total jetty length will be 727 m. and the total mooring length available will be 650 m. at a depth of 23.22 m. below chart datum. Vessels can be accommodated on both sides of the jetty and the jetty will be equipped with adequate quick release hooks and fenders.

The design of the jetty makes provision for the mooring of 350,000 d.w.t. loaded vessels with a max. theoretical approach speed of 18 cm./sec. In practice, the approach speed of a vessel will be limited to between 10 and 12 cm./sec. as a maximum. The approach speed and relative position of a vessel to the jetty will be measured by docking sonar equipment, suitably positioned on the jetty and information will be relayed to the pilot by means of light indication, radio and a portable instrument.

In the initial stages, vessels will be loaded from the jetty simultaneously with construction work. The programme for this will be in accordance with details below.

Iscor Ore Loading Jetty: Completion Phases:

Phase number	*1*	*2*	*3*
Period	*26 September 1976 to 14 October 1976*	*15 October 1976 to 28 February 1977*	*1 March 1977 to some future date still to be determined*
Maximum vessel L.O.A. – metres	275	300(2)	350
Vessel's maximum allowable draft loaded – metres	East 18.0	East 19.5	East 19.5 West 18.0
Depth of water at berth metres below chart datum(3)	East 20.6	East 22.0(4)	East 22.0(4) West 20.5(5)
Available side of jetty	East side only	East side only	Both sides, i.e. East and West
Number of shiploaders in operation (on berth side)	1 East	2 East	2 East or West
Maximum loading rate per shiploader – tons per operational hour	10,000	10,000	10,000
Average loading rate per shiploader – tons per operational hour	3,750	8,000	8,000(6)

(1) Restrictions are due to the fact that equipment will be in the process of construction, erection and commissioning.
(2) Depending upon the draft this can be increased to 310 m.
(3) Chart datum is M.L.W.S. minus 3 cm.
(4) Increase in depth beyond 22 m. will depend upon the success of experiments to determine the most economic method, and the time of execution will be related to the demand for availability of such greater depths.
(5) It is planned to restrict the depth to 20.5 m. subject to demand for any increase in depth.
(6) On one side of the berth at a time only.

Loading: Bulk ore loading will be effected by means of two luffing, slewing and travelling ship loaders, together capable of loading continuously at a rate of 8,000 t.p.h. average, at a peak rate of 10,000 t.p.h.

MEDICAL: *Hospitals:* There is a fully equipped hospital in Vredenberg, 13 km. from Saldanha Bay. Serious medical cases, however, will normally be referred to one of the hospitals in Cape Town.

Doctors: There are several doctors available in Saldanha Bay and nearby Vredenberg. To expedite appointments, however, and to arrange for attendance on board, Agents should be consulted.

Dentist: There are several dentists available in the area, and in order to expedite appointments, Agents should be consulted.

FRESH WATER: Fresh water will be delivered at the rate of 35 t.p.h., and at a cost of 25 cents per kilolitre. Application for the supply of water should be made to Iscor through the Agents.

FUEL: Bunkers, at the initial stages, will not be available ex the jetty.

CONSULS: There are no Consulates established in Saldanha Bay, but the following countries are represented at Cape Town:

Argentina
Australia
Austria
Belgium
Bolivia
Brazil
Canada
Chile
China (Taiwan)
Denmark
El Salvador
Finland
France
Germany
Greece
Holland
Italy
Japan
Monaco
Norway
Panama
Peru
Portugal
Rhodesia
Spain
Sweden
Switzerland
United Kingdom
U.S.A.
Uruguay

CUSTOMS ALLOWANCE: Customs normally allow 200 cigarettes per person. No alcohol allowed for crew but one part bottle and eight cans of beer allowed for each Officer on arrival. Re-issues are made every four days.

HOLIDAYS: The following are recognised Public Holidays in the Republic of South Africa:

New Year's Day, January 1st; Good Friday; Easter Monday; Ascension Day; Republic Day, May 31st; Settlers' Day, September 1st; Kruger Day, October 10th; Day of the Covenant, December 16th; Christmas Day, December 25th; Boxing Day, December 26th.

Should any of the abovementioned days fall on a Sunday, the following Monday is observed as a Public Holiday.

TELEPHONES: Telephone facilities will be made available from the jetty. In order to obtain a telephone, however, arrangements will have to be made by the Agents. In this respect we would point out that many foreign countries have direct dialling facilities with South Africa, and in all cases arrangements should be made for lockable telephones to be placed on board, and the use of that telephone placed under the control of the Master.

GENERAL: *Removal of Rubbish:* Arrangements are available for the removal of rubbish and can be made through the Agents.

Weather: The climate is temperate. Average high temperatures year round are 20°C (68°F) and average low temperatures are in the region of 11°C (52°F). Sea water temperatures average 16°C. Prevailing winds are S.S.W'ly. Rainfall figures are approximately 300 m.m. per annum. Saldanha Bay is a Winter rainfall area. Fog occurs generally in the March to August period. Currents – there are no sea or thermal currents in the harbour area. Tidal currents generally will not exceed 0.05 km./hr.

Currency: The standard unit is the Rand. One Rand divided into 100 cents. Exchange rates vary, but for practical purposes at the time of writing, one can use the figure of $1.15 equals R1.

Electricity: Can be made available ex jetty on application to Iscor via the Agents.

Compressed Air: Will be available ex quay on application to Iscor via the Agents.

Cranes: A mobile crane will be made available through Iscor via the Agents.

Ship Chandlers: All of the major ship chandlers in Cape Town will operate from Cape Town for the initial period until the volume of callers reaches a level which will warrant establishing stores etc., at Saldanha Bay. The transit time from Cape Town to Saldanha Bay is normally in the region of 2 hours. All orders for provisions should be submitted either direct to the ship chandlers or through the Agents. Price lists for Saldanha Bay will be made available from ship chandlers when required.

AGENT: See "Capetown".

WALVIS BAY (South West Africa): 22.57 S. 14.30 E. (See Plan)

PORT LIMITS:

The area bounded on the West by a line drawn from Pelican Point Lighthouse to a point North (true) for a distance of 4 km; on the North by a line from this point drawn East (true) to the mainland; together with the foreshore therein and the jetties, harbour works and harbour lands vested in the Government of the Republic of South Africa. For the purposes of calculating port charges a vessel is regarded as an "arrived ship" when it enters the dredged channel in Walvis Bay Harbour.

DOCUMENTS:

Customs:

Form DA. 1 – Report Inwards/Outwards for ships;
DA. 3 – Certificate of Clearance for ships;
DA. 4 – Transire – for a destination in R.S.A.;
DA. 5 – List of Sealable goods on board ship;
Ship's Crew List (Customs Department);
Livestock Form (Customs Department).

Post Office:

Form P. 160 – Notification of Departure of Vessel;
P. 1/27 – Certificate of Departure of Vessel;
P. 1/149 – Ships Mail Declaration;
P. 21 – Post Office Certificate.

Port Health:

Maritime Declaration of Health;
Crew List with last vaccination dates;
Deratisation Certificate.

Port authority:

Form T 958 – Report of Arrival;
T 962 – Departure/Shifting Notification;
T 942 – Clearance Certificate;
Ship's Manifest.

PILOTAGE: Pilotage is compulsory. The vessel's Master must radio his ETA to his local Agent, who completes form T.958 for submission to the Port Authority.

Channel 16 on VHF radio can be used to call the Port Control Office. Pilot boats are normally black with a white superstructure and have a yellow funnel with horizontal green stripes.

The Pilot boards at a point approximately 1 km. from the Fairway Buoy (entrance channel buoy) in the direction of the Bell Buoy (Pelican Point Spit Buoy).

The Pilot will inform the Master by means of the VHF on which side the pilot-boarding ladder and man ropes are required.

ANCHORAGE: Varying in depth from 9 – 14 m. at LWOST. Bottom – sand and silt. (Please also see "Africa Pilot" Vol. II).

RESTRICTIONS: The movement of Oil Tankers and vessels carrying explosives or dangerous goods are restricted to daytime hours. The maximum permissible draft is 9.33 m.

MAX. SIZE: Draft of vessels is the major restricting factor (9.33 m.). The maximum permissible length at the tanker berth is 198.12 m. (650 ft.).

HEALTH: Same procedures apply as at R.S.A. ports.

RADIO: Call sign ZSV. VHF radio in Port Captain's Office.

VHF: VHF Radio is used by Pilots and Channels 11, 12 and 13 are available.

RADAR: Radar is fitted to the harbour tugs and pilot boats. The Port Captain's Office is being provided with radar for port-operating purposes.

TUGS: Two first-class tugs equipped with radar, wireless telegraph and telephone direction-finding apparatus and salvage and fire-fighting appliances; and 2 Pilot boats.

Tugs normally join a vessel in the entrance channel and are secured by means of the tugs' wires. There is no charge levied for the use of the tugs' lines.

BERTHING:

		Depth at	Cranes	
Wharf	*Length*	*LWOST*	*No.*	*Capacity*
Berths 1, 2 & 3	487.68 m.	10.06 m.	3	3 tons
(Working Portion 457.2 m.)			7	4 tons
			1	7 tons
			1	15 tons
Berths 4–8	926.6 m.	10.67 m.	17	4 tons
			1	3 tons
			1	15 tons

BULK-LOADING FACILITIES:

(i) Travelling ore loader for handling zinc, lead and copper concentrates for export. (This appliance is privately owned).

(ii) Privately-owned Bulk Fishmeal Loader.

(iii) A fish-oil pipe-line at Berths 1, 2 and 3.

SPECIALISED CARGO-HANDLING FACILITIES: There are no Ro/Ro facilities available. At present containers are only handled by means of ships' gear. Liquid chemicals are handled in tank containers.

STEVEDORES: Stevedoring is undertaken by private enterprise and stevedores are appointed by Ships' Agents.

MEDICAL: Hospitals are available but prior arrangements have to be made with Agents for medical assistance.

TANKERS: See "Max. Size" and "Restrictions".

Tankers up to 192.12 m. in length can be accommodated. Depth alongside 10.06 m. at LWOST.

Storage and pumping facilities are privately owned.

DENSITY: 1026.

FRESH WATER: Available and delivered by hose ex-wharfside – hydrant at 15 t.p.h.

FUEL: Diesel fuel is available but heavy oil is only available if special arrangements are made with the local oil companies.

FIRE PRECAUTIONS: When berthed alongside a wharf or jetty, a ship having explosives or any other goods of a dangerous nature, the Master shall, if the Port Captain so directs, have a fireman in attendance, the cost whereof shall be borne by the Owner of the ship and the Master of any such ship shall also, at the expense of the Owner of the ship, adopt such other or further precautionary measures as the Port Captain may consider reasonably necessary for ensuring the safety of the harbour, the ship or the cargo.

CONSULS: Norwegian and Belgian Consulate.

REPAIRS: Undertaken by private enterprise on a small scale.

DRY DOCK: There are no dry-docks available at this port. A syncrolift with a lifting capacity of 2,000 tons, maximum permissible length of 80 m. and a depth of 10 m. is operated and owned by the Department of Sea Fisheries.

SURVEYORS: Available for various classification societies.

GANGWAY/DECK WATCHMEN: Arrangements have to be made with vessel's Agents to secure services of gangway/deck watchmen.

HATCHES: Arrangements have to be made with stevedores in connection with opening/closing of hatches.

CUSTOMS ALLOWANCE: As per Customs Tariffs.

CARGO GEAR: Loading/discharging of cargo is effected by means of shore cranes.

REPATRIATION: All facilities available.

AIRPORT: The nearest International Airport is at Windhoek 445 km. from Walvis Bay.

TIME: GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January); Good Friday; Easter Monday; Ascension Day; Republic Day (31st May); Settlers Day (first Monday in September); Day of Covenant (16th December); Christmas Day; Boxing Day (26th December).

Cargo is now worked on Saturdays, Christmas Day and Good Friday.

POLICE/AMBULANCE/FIRE: South African Police Tel. 2055; Ambulance Tel. 2309; Fire Department; Municipal: Tel. 3117; South African Railways: Tel. 8-200.

TELEPHONES: Arrangements have to be made with Post Office to have a telephone connected.

SERVICES: Tank-cleaning, compass adjustments and minor-repairs can be undertaken.

SHORE LEAVE: Allowed.

REGULATIONS: A copy of the Regulations for the Republic of South Africa and of South West Africa are supplied gratis to Masters on arrival.

DELAYS: Dependant on weather conditions.

DEVELOPMENTS: The reconstruction of the old quay has become a matter of urgency and the old reinforced concrete-piled structure of Berths 1, 2 and 3 is being rebuilt as a modern structure with a depth alongside of 12.80 m. at LWOST to allow for future deepening of the channel.

AUTHORITY: South African Railways and Harbours Administration, Port Captain, Walvis Bay.

AGENT: W. Woker Freight Services (Pty) Limited, 166 Third Street East, P.O. Box 4, Walvis Bay. Tel. 2211/8; Telex: 56-747; Cables: Freights Walvis Bay.

South Atlantic Islands

ASCENSION ISLAND, GEORGETOWN:
07.55 S. 14.20 W.

DOCUMENTS: Crew and Passenger lists, Health documents, Manifests and Bills of lading if discharging cargo.
PILOTAGE: No pilots are available and not required as it is an open anchorage. Require 48 hours notice of ETA. Ascension Radio operated by Cable & Wireless will reply.
RESTRICTIONS: None – but if vessel has not been here before it would be advisable to wait until daylight.
ANCHORAGE: Only 1 ship can anchor at a time. There is 14 fathoms of water in the anchorage and vessels of 28,705 tons have used this anchorage. The other anchorage used by tankers is at English Bay and there is a special berthing procedure which the Oil Company give to Captains of tankers.
HEALTH: Pratique should be requested when giving the ETA and will be granted by either Cable or VHF.
RADIO: If coming from the North via Freetown Radio, and from the South via Cape Town. VHF Channel 16 available.
TUGS: No tugs available.
BERTHING: Open anchorage only, no berthing alongside.
MEDICAL: Facilities available, if possible 48 hours notice required. There is a 12-bed hospital in Georgetown and a second for American personnel at the U.S.A.F. Base. Inoculation, vaccination and yellow-fever certificates not required. Other than Government personnel no one is allowed to land on Ascension without an entry permit.
TANKERS: Only 1 berth available at anytime.
FRESH WATER: None available.
FUEL: None available.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Usually done by stevedores.
CONSULS: No Consulates. British Administrator attends to all requirements.
REPAIRS: Only minor repairs can be effected.
REPATRIATION: No facilities for crew changes. Repatriation can be arranged but only in the case where a person has been hospitalised. If a ship puts in with a medical case on board an M.O. will visit the ship. Fees paid to the Cable & Wireless representative. If the patient is hospitalised the Master must guarantee in writing that all hospital fees and the air fare to Antigua will be honoured by his shipping line Agent. As so few ships call at Ascension no hospitalised patients can be evacuated by sea. All patients received from ships are evacuated on M.A.C. flights to Antigua. These flights are run weekly.
AIRPORT: Airport 2 miles. U.S.A.F. No civil airlines call here.
TIME: Always GMT.
HOLIDAYS: Cargo vessels are discharged during public holidays – no night work.
GENERAL: There are no facilities for visitors on the island. Anchorage must be vacated when a mail vessel is due.
SHORE LEAVE: Not permitted.
AUTHORITY: The Administrator.

FALKLAND ISLANDS, PORT STANLEY:
51.50 S. 58.56 W.

PORT LIMITS: West of the line joining Mengeary Point and Cape Pembroke.
DOCUMENTS: Crew Lists, Passenger Lists, Customs, Health Documents, Manifests, Bills of Lading, Ship's Papers, Ship's Certificates.
PILOTAGE: Pilotage should be requested via Cable & Wireless Radio Station. 24 hours notice of arrival required. Frequency 2182.
ANCHORAGES: For large vessels, the anchorage is somewhat confined; except S. of Navy Point, where there is good swinging room in depths of from 8.2 m. to 10.4 m. (27 ft. to 34 ft.), it is necessary for a long vessel to moor. There is good anchorage N.N.E. of the cathedral, but, owing to the prevailing strong W. winds, a vessel may have some difficulty in turning, when leaving this position. The best time to leave is after 1800 hrs. or before 0800 hrs. as, unless there is a widespread area of bad weather over the islands, the wind, which is local, is seldom strong between these hours. The holding ground is good, and vessels have not dragged during winds of up to force 8, though a second anchor is often necessary.

The bottom of the harbour is stiff mud, which is very noisome and sticky; it is necessary to allow plenty of time for cable washing when weighing.

There are 3 mooring buoys off the S. and E. of the town; numerous hulks and lighters, none of which exhibits a riding light at night are moored in the vicinity.
RESTRICTIONS: No restrictions on entry.
RADIO: Cable & Wireless Ltd.
RADAR: No port radar service.
TUGS: No harbour tugs.
BERTHING: Falkland Islands Company jetty with a depth of 1.5 m. at its head. T shaped Head.
CRANES: 1 × 5-ton crane.
BULK CARGO FACILITIES: Nil, drummed cargoes only are handled.
STEVEDORES: 1 week's notice required. If Falkland Islands Company charter vessel (4 voyages a year) is being worked then stevedores will not be available until work on the charter vessel has been completed.
MEDICAL: Advance notice required.
TANKERS: Advance information should be sought.
ENSITY: Full salt water.
FRESH WATER: Available at night. Delivery by direct hose. Cost £1 per ton +33% of the cost of the labour involved.
FUEL: Fuel is available only by special arrangement with the Ministry of Defence. Grade 47 Cetane (viscosity cSt 100° F – 1.8; s.g. at 15° C – 0.840). Delivery by lighter and pump.
FIRE PRECAUTIONS: Normal safety requirements.
CONSULS: Norwegian, Uruguayan.
REPAIRS: Minor repairs to machinery.
DRY DOCKS: Nil.
SURVEYORS: Not available.
GANGWAY/DECK WATCHMEN: Recommended. Cost max. £1.50 per hour.
OPENING/CLOSING HATCHES: By ship's crew.
CUSTOMS ALLOWANCE: Quantity permitted by crew is one bottle of spirits, 200 cigarettes or 1 lb. of tobacco, 6 bottles of wine, 1 case (24 cans) beer.
CARGO GEAR: There is 1×5-ton crane. Ships gear may be used.
REPATRIATION: With a weekly Air Service repatriations could be arranged.
AIRPORT: 3 miles from Port. Feeder airlines connect with Comodoro Rivadavia, Argentina.
TIME: GMT minus 4 hours. Summer time from October to end of March.
HOLIDAYS: Cargo can be handled on the 10 public holidays.
POLICE/AMBULANCE/FIRE: Police – 95; Fire – Exchange; Ambulance – 54 (2 rings).
TELEPHONES: Connection possible at rate of £20 a year.
SHORE LEAVE: Allowed.
IDENTIFICATION CARDS: Seamans book sufficient.
REGULATIONS: No particular or unusual regulations.
DELAYS: Delays may be experienced if berthing alongside only commercial jetty if firms charter vessel is being handled. Four voyages a year: – turn around 1 week.
DEVELOPMENTS: No port developments under way.
AUTHORITY: Harbour Master.

ST. HELENA, JAMESTOWN: 15.56 S. 05.40 W.

DOCUMENTS:
3 copies of Crew List.
3 copies of Passenger List.
10 copies of Manifest.
1 Health form.
PILOTAGE: No official pilot. Agents sometimes hire a Pilot (retired Union Castle Captain) for ships requiring one.
ANCHORAGE: The harbour consists of an open roadstead with anchorages shown on charts.
MAX. SIZE: Any size vessel can anchor in the roadstead. Depth up to 20 fathoms.
HEALTH: Pratique will be granted by the boarding party or by telegram from Port Health Officer. If suspected disease or fever, the Port Health should be informed by telegram in advance of anchoring so that the necessary precautions can be taken.
RADIO: ETA message should be relayed through Cape Town Radio. Agents have VHF service.
TUGS: None. There are 3 towing launches (from 16 to 28 h.p.) for harbour use only.
BERTHING: Vessels anchor in 18–20 fathoms offshore, in open roadstead. There is deep water (sufficient for ocean-going vessels) right into the area where cargo lighters and other small craft are moored.
STEVEDORES: 48 hours notice required by Agent, also particulars of tonnage of cargo.
MEDICAL: Agent should be notified if medical attention required. A resident staff of three doctors, plus nursing staff, in a well-equipped modern hospital. The basic requirements for intending visitors is a certificate of vaccination against smallpox.
FRESH WATER: Delivered by floating pipeline at a rate of approximately 14 t.p.h.
FUEL: No stocks of marine fuel. Ordinary diesel oil is available in drums of 45 gallons (supplied ex South Africa) and only limited stocks for local needs are held.
OPENING/CLOSING HATCHES: Stevedores can do this, but preferable for crew to open on arrival so that work can start as soon as stevedores arrive on ship.
CERTIFICATES: Vaccination certificates required for all crew. Derating certificate should be valid.
CUSTOMS ALLOWANCE: No restrictions. Free use on board.
CARGO GEAR: All discharge carried out by vessels derricks into lighters. Agents provide own cargo nets, etc.
CONSULS: French Consul. Appointed representatives for Denmark and Norway.
REPAIRS: Small repairs can be carried out (welding or turning pipes, etc.).
REPATRIATION: No facilities for crew changes. Only for those left behind for hospitalisation.
AIRPORT: No airport on St. Helena.
TIME: GMT throughout the year.

HOLIDAYS: New Year's Day (1 January); Good Friday; Easter Monday; St. Helena Day (21 May); Whit Monday; Queen's Official Birthday; August Bank Holiday; Christmas Day (24 December); Boxing Day (25 December). Cargo work can be arranged except on Christmas holidays.

POLICE/FIRE/AMBULANCE: No telephone numbers. Must ring exchange.

SHORE LEAVE: Allowed. No restrictions provided vessel has free pratique.

DELAYS: No delays in berthing. Loading or discharge can be delayed by bad weather due to swell alongside wharf.

AUTHORITY: Harbour Master.

AGENT: Solomon and Company (St. Helena) Ltd., Jamestown, St. Helena. Cables: "Solomon St. Helena."

NOTES

Please also advise Shipping Guides (Services) Ltd.

Spain

AGUILAS and HORNILLO: 37.24 N. 01.35 W.

(See Plan)

DOCUMENTS: See "Almeria".
PILOTAGE: Hornillo port has no Pilot. The Pilot of port of Aguilas which is less than a mile from Hornillo, does pilotage services of both. To enter both ports Hornillo and Aguilas, anchor mile or a mile and half distance from entrance of Aguilas. Wait for Pilot with engine stopped. To call Pilot give three long blasts several times. Pilot's launch is small motor boat painted white, with letter "P" painted on both sides of boat. During night it carries white light on top of mast, and 8 ft. lower a red light, besides the usual lights.
RESTRICTIONS: It is not possible to enter Hornillo port during dark. Wait till dawn outside Aguilas.
MAX. SIZE: Length up to 110 m., draft about 22 ft.
HEALTH: See "Almeria".
TUGS: None in port. Not necessary for either port.
BERTHING: Aguilas port has a commercial quay with a berth area about 200 m. and depths of between 8–12 m. Hornillo port has a pier to handle minerals with berth area of 90 to 100 m. and depths between 6–10 m.
BULK HANDLING: Two conveyor belts each of 100 tons grain per hour capacity. May be used for other bulk cargoes.
STEVEDORES: Team of stevedores who belong to "Port Workers' Trade Unions" (Sindicato de Obreros Portuarios).
MEDICAL: Captain can send cables to consignee requiring this kind of service. There are a number of doctors and a hospital.
FRESH WATER: In Aguilas port are small supplies of water. It is supplied by the town hall by means of tank lorries.
FUEL: There are no supplies of fuel in either port.
GANGWAY/DECK WATCHMEN: Not necessary, usually this is done by crew.
OPENING/CLOSING HATCHES: Usually this is done by crew.
CONSULS: There is only Vice-Consul of Norway in Aguilas. Tel. 411035.
REPAIRS: No facilities.
REPATRIATION: Facilities for effecting crew changes exist. Repatriation can be done by train to Madrid and by plane from there.
TIME: GMT plus 1 hour.
HOLIDAYS: See "Almeria".
POLICE/AMBULANCE/FIRE: Ambulance and fire services can be requested from Port Authority. If the police services are required call to "Caseta de Vigilancia" of the Civil Guard in either port.
GENERAL: Hornillo port is used only for loading and discharge of minerals, and for this purpose a pier is provided with a railway. The nearest port of Aguilas, less than a mile distant on the West, is the commercial port, with a quay for loading/discharging and a crane of 10 tons capacity.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Ayudante de Marina o Capitan del puerto (Port Authority or the Assistant) Aguilas.

ALGECIRAS: 36.07 N. 05.26 W.

(See Plan)

DOCUMENTS:
- Maritime Declaration of Health.
- 5 Crew Lists.
- 2 Manifests of Cargo for the Port.
- 2 Manifests of Cargo in Transit (if coming from Spanish port a Manifest is sent by the Customs officials of that port).
- 1 Bill of Lading of cargo for the port.
- 2 Ship's Stores Lists.
- 2 Lists of Crew Personal Effects.

If the vessel carries passengers the following are required:
- 8 Lists of Passengers Disembarking with baggage declaration for each passenger.
- 5 Lists of Passengers in Transit.
- 2 copies of Arrival Report.
- 1 Manifest of Vehicles belonging to Passengers Disembarking.

If the vessel is a tanker the following are required:
- Certificate of Quantity of Cargo.
- Certificate of Quality of Cargo (or Ballast Certificate).

PILOTAGE: Vessels entering the port call Pilot by international code signals, sound or light. Notice of ETA should be radioed to Agent 72, 48 and 24 hours before arrival. Pilots cannot be contacted by radio, and are ordered by Agents on the basis of Master's ETA.

Pilot boat is painted white with a letter "P" in black on both sides. By day they carry a blue flag with the letter "P" in white. By night they carry regulation pilot lights. The pilot boarding zone is a circle of 0.5 mile radius with centre 1 mile East of the Northern breakwater head (red light).
ANCHORAGE: Vessels waiting for a Pilot may anchor North of the parallel of the Barranco beacon in depths of 30 m.
RESTRICTIONS: Vessels may enter by day or night.
MAX. SIZE: Puerto de Algeciras – no length restrictions, max. draft 29 ft. Refineria Gibraltar – maximum length 283 m. Draft up to 65 ft.
HEALTH: Free pratique is obtained automatically when authorities board on arrival and Maritime Declaration of Health is completed. In case of suspected disease or fever on board full details should be sent by radio to Sanidad Maritima, Algeciras, before arrival.
RADIO: Aranjuez Radio and Cadiz radio. Vessels proceeding to Refineria Gibraltar should announce their arrival by VHF to the Capitania of the port using Channel 16 for calling and Channel 13 for communication.
TUGS: Four tugs are available up to 1,500 h.p. and assist according to Pilot's directions. Ship's tow lines used.
STEVEDORES: Ordered by vessel's Agent on basis of Master's ETA.
MEDICAL: Doctors and hospital facilities available. International vaccination certificates only required if vessel is proceeding from an infected area.
TANKERS: Refineria Gibraltar – 5 berths for tankers up to 283 m. length, 2 of which can accept draft up to 65 ft. The other 3 berths can accept vessels up to 57 ft. draft. Loading/discharge lines are 12 in., 10 in., 8 in., 6 in. and 4 in. Refineria Gibraltar has 2 slop tanks each of 600 cu. m. capacity which can accept oily residues.
FRESH WATER: Available from all berths in Algeciras and at Refineria Gibraltar at a rate of 40 t.p.h. Can also be supplied by barge at the rate of 15 t.p.h.
FUEL: All grades can be supplied with 3 hours notice. Loading rate 250 t.p.h. for fuel and 150 t.p.h. for diesel and gas oil. Supply is effected by barge at all quays which are not connected by pipe-line.
DEVELOPMENTS: In Algeciras Commercial Port a new berth is under construction in the South part of the dock for vessels up to 9 m. draft. It is planned to dredge the whole commercial port to 10 m. depth.

A new container terminal has been inaugurated, total length of berth 498 m.
GANGWAY/DECK WATCHMEN: Not available from shore.
OPENING/CLOSING HATCHES: Opened and closed by ship's crew.
CUSTOMS ALLOWANCE: Max. quantity of tobacco permitted in ship's stores is 3 kilos per crew member and 2 kilos per passenger. The quantity that may be held out of bond is 40 grammes tobacco per person per day. Wine/Spirits. 1 decilitre per person per day may be held out of bond.
CONSULS:

Great Britain	tel. 67.14.50	Germany	tel. 67.22.37
Morocco	tel. 67.36.98	Denmark	tel. 67.27.95

Norway, Italy, France, all tel. 67.27.20.
REPAIRS: Small repairs afloat can be effected. No dry docks.
AIRPORT: Nearest is at Malaga, 120 kms. from Algeciras.
TIME: GMT plus 1 hour all the year round.
HOLIDAYS: New Year's Day, 6th January, 19th March, Maundy Thursday, Good Friday, Easter Saturday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 15th August, 1st October, 12th October, 1st November, 8th December, 25th December.
POLICE/FIRE/AMBULANCE: *Algeciras:* Police, tel. 67.15.55; Fire, tel. 67.20.20; Ambulance, tel. 67.22.90. *Refineria Gibraltar:* Police, tel. 67.15.55; Fire, tel. 76.17.00; Ambulance, tel. 76.12.47.
SHORE LEAVE: Crew members are permitted to go ashore subject to police control.
AUTHORITY: Comandancia de Marina.

ALICANTE: 38.23 N. 0.28 W.

PORT LIMITS: The line drawn from Cabo de las Huertas and Cabo de Santa Pola.
DOCUMENTS:
- 3 Crew Lists.
- 6 Passenger Lists.
- 2 Manifests for Cargo, including cargo in transit as well as cargo for Alicante. Tobacco and Cargo Manifests to be visaed by Spanish Consulate in port of origin.
- 3 Stores Lists, for Customs.

For the Agent
- 4 Manifests of cargo destined for Alicante, with one copy of each Bill of Lading.

PILOTAGE: Pilotage service is permanent and Pilots are summoned by displaying international code flag "G", (same signal at night-time by light), or by sounding three long blasts on ship's whistle.

Pilot launch is a white-painted motor launch with a black letter "P" on both sides. The launch flies a black flag with white letter "P" by day, and shows usual pilot lights at night. The launch will meet arriving vessels about 1 mile from breakwater entrance in good weather.

In bad weather from the East, the launch goes out as far as the breakwater and meets vessel opposite the green light at the breakwater head. Pilot boards on the lee side, which is generally the port side.
ANCHORAGE: Vessels waiting to enter port may anchor at a distance of 0.5 mile East of the breakwater in depths of 16 m.
MAX. SIZE: Vessels of up to 225 m. length and 33 ft. draft can be berthed alongside. For tankers, max. draft. 29 ft.
HEALTH: Report in advance to Pilot if there is any problem. If situation is normal, then after ship berths the health inspector boards and quickly grants pratique. In the event of any suspected disease or fever on board the Pilot (without boarding) will show the anchorage area then Health Inspectors and Authorities will board and give necessary instructions.

Vessels entering after calling at another Spanish port have no problems obtaining pratique.
RADIO: Radio-telephone communication through Radio La Costera, Alicante, medium range approx. 220 miles and short range approx. 40 miles.

Port Radio station situated at the Western end of Muelle B, is equipped only to receive messages by R/T. Messages received by this station are passed to destinations within the port by telephone lines. VHF communication in operation.

TUGS: Only 1 tug available to assist berthing of 176 g.t. and 1295 h.p. Normally ship's lines used for connection with tug.

BERTHING: The breakwater extends in a S.W. direction and vessels berth within the breakwater. Max. depth being available at the outer end of the breakwater, decreasing in the N.E. direction.

Muelle 14: Extends along the length of the N.E./S.W. breakwater and depths vary alongside the berth from 11 m. at the S.W. end to 8 m. at the N.E. end. Depths in the outer port vary from 12 m. at the S.W. end to 9 m. at the N.E. end.

Muelle 12: Depth alongside 7.5 m., depth for the berth 9 m.

Muelle 10: Depths alongside the berth vary from 6 to 8.75 m.

Muelle 9: Depth alongside berth 8.75 m.

Muelle 7: Depth alongside berth 8.75 m.

Muelle 11: A combined tanker and dry cargo berth. Depth alongside berth 8.75 m.

STEVEDORES: Agents should be advised of ETA and shore cargo gear requirements.

Grain Discharge: effected by grabs normally at Muelle 11. Discharge 3 to 4 tons per gang per hour.

General Cargo: discharge about 10 tons per gang per hour.

Bagged Cargo: discharge about 150 tons per gang per hour.

MEDICAL: Many hospitals and medical services available.

TANKERS: Tankers discharge takes place at Muelle 11 (see "Berthing"). There is no refinery and the only products unloaded are fuel oil. diesel oil, gasoline and aviation spirit. There are 3 pipelines available for cargo discharge.

DENSITY: 1025.

FRESH WATER: Available from hydrants at the quays at the rate of 10 t.p.h., per hydrant.

FUEL: Supplied by Campsa. Vessels requiring fuel are requested to berth alongside Muelle 11 and will incur delays if that berth is already occupied. Maximum advance notice is essential. Owners of vessels requiring fuel are required to pay a bank deposit in foreign currency.

GANGWAY/DECK WATCHMEN: Agent normally arranges watchmen.

OPENING/CLOSING HATCHES: Normally opened by crew and closed by stevedores using cranes.

CUSTOMS ALLOWANCE: Total tobacco allowed on board, 3 kilos per crew member, 2 kilos per passenger. All must be declared in ship's provision list and any in excess of these amounts declared in a separate visaed manifest as tobacco in transit (see "Documents").

CARGO GEAR: All berths have cranes, varying from about 6 tons capacity. There is 1 heavy lift crane capacity 30 tons, and 1, capacity 10 tons.

REPAIRS: Only minor repairs available. If dry docking, or undertaking major repairs, vessels should proceed to Cartagena.

AIRPORT: About 8 km. distance from Alicante, and serviced by international flights.

IDENTIFICATION CARDS: Additional identification cards only required by crew members of communist-flag ships.

TIME: GMT plus 1 hour.

TELEPHONES: Telephones may be connected, provided sufficient notice is given, subject to payment of installation costs of about 7,500 Pts. plus the cost of calls.

AUTHORITY: Comandante Militar de Marina.

ALMERIA: 36.52 N. 02.30 W.

DOCUMENTS:

4 Crew Lists.

4 Passenger Lists or negative.

2 Cargo manifests of goods destined to Almeria, as well as other cargoes in transit.

Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.

Details list in duplicate of all personal effects of crew and passengers (tobacco, spirits, cameras, radios, etc.).

Note: Tobacco. In case vessel carries more than 3 kilos of tobacco per man, excess must be declared in a separate manifest, which must be visaed by a Spanish Consul. In absence of Consul, said document will have to be visaed by an Authority of former port of clearance. Otherwise, the vessel would be fined.

PILOTAGE: Is compulsory and service is permanent. Pilots board vessels by motor-boat in roads, near entrance formed by two breakwaters. This entrance is 287 m. wide. Pilot boats are painted white and letter "P" is painted in black on each bow. Also boats have a blue flag hoisted on mast, with letter "P" in white on both sides of flag. At night, boats have white light, under this light is a red light. When weather is bad vessels approach as close as possible to entrance so that Pilot can easily board the vessel.

ANCHORAGE: When harbour is congested, vessel can anchor at West Mole while waiting for berth.

MAX. SIZE: Only limitation is draft (max. 30 ft.).

HEALTH: Pratique is obtained immediately after berthing, when Health Officer boards vessel, In case of suspected disease or fever on board Master must send a radio message to Agents, in order that they advise the Health Officer. Following documents are required by Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.

RADIO: Nearest important radio stations are Cadiz-Radio and Palos-Radio.

TUGS: One available but not compulsory, is employed according to Master's requirements.

BERTHING: Prior to ship's arrival and in accordance with Master's ETA Agent attends port Authorities to procure a proper available berth. Commercial quays have a length of 500 m. with double sheds, 360 m. with single shed with max. depth 24–25 ft., and about 700 m. uncovered for goods in bulk with depth between 24–30 ft.

Iron Ore Berth: Max. size 38,000 d.w.t. Max. draft 11.0 m. 1 ship loader, rate 2,000 t.p.h.

STEVEDORES: It is necessary that Master sends ETA so that Agent can inform Receiver's stevedores accordingly and arrange for proper reception of cargo and berth. Timetable of shifts available at the port; Daytime, normal working hours, from 0800–1200 hrs. and 1400–1800 hrs. (1 shift), 0800–1400 hrs. (1 intensive shift), 1400–2000 hrs. (1 intensive shift). Night time, from 1800 to 2400 hrs.; Sundays and holidays, from 0900 to 1200 and 1400 to 1800 hrs.

MEDICAL: Medical facilities are available; only it would be appreciated for Master to send a radio message if a crew member is in need of urgent medical attention.

FRESH WATER: Always available. Deliveries from quay available at all berths, supplying about 30 t.p.h.

FUEL: Ordinary fuel oil and gas oil is available at local refinery of "Campsa". It is advisable that Shipowners stem bunkers through their own Contractors, with an ETA of 48 hours, so that the order can be received in time.

FIRE PRECAUTIONS: Tankers perform their operations at the berth of "Campsa" at East Pier, which has the necessary fire precautions. No special precautions at other piers.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: This work normally carried out by crew.

CERTIFICATES: Vessel should have the usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by Authorities.

CUSTOMS ALLOWANCE: The quantity allowed per each crew member is 3 kilos tobacco. (See "Documents".) Wine and/or Spirits: Only one bottle for each crew member.

CARGO GEAR: All commercial piers are served by electric shore cranes able to lift 3/6 tons (18 cranes in total), and one crane with a lifting capacity of 15/25 tons situated on Pier Costa.

IDENTIFICATION CARDS: Not required.

CONSULATES:

Panamanian, Jaul 27	,,	220073

REPAIRS: All types deck and engine repairs available.

REPATRATIONS: Good facilities available.

AIRPORT: Airport is located about 6 km. from town, well served by regular airlines.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; 19th March; (St. Joseph) Good Thursday afternoon; Good Friday; 1st May (Labour Day); Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (National Holiday); 15th August; (Ascension Day); 12th October; 1st November; 8th December; 25th December and 26th December (second Christmas Day).

POLICE/AMBULANCE/FIRE: Police 214081; Ambulance 215780; Fire 220044.

AGENT: Hijo De Alfredo Rodriguez, Ltda., Alvarez de Castro 22, PO Box No. 28. Telegrams "Calvache". Tel. 212245, 213306, 214475. Almeria.

AVILES: 43.35 N. 05.56 W. (See Plan)

DOCUMENTS:

3 Crew Lists.

2 Passenger Lists or a negative.

1 Cargo Manifest of goods destined for the port.

Another Manifest covering transit cargo.

2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.

Safety Wireless Certificate and Safety Equipment Certificate.

If vessel carries over 3 kilos tobacco per crew member, the excess to be declared in a separate manifest, which must be visaed by the Spanish Consul at the last port, otherwise vessel exposed to heavy fine.

PILOTAGE: Telegrams to be sent to Corporacion de Practicos, San Juan de Nieva – Aviles Tel. 563013 or 566856.

Send ETA 2 hours in advance, confirming by VHF when vessel some 10 miles off. Pilots listen continously on Channels 16 and 12. When vessel in sight of lookout, give preferably audible signals in accordance with International Code. Pilot craft are painted black with a white "P" on each side and cabin. They are equipped with VHF and listen out on Channel 12, having also available Channels 16, 14, and 6. When coming alongside a vessel they hoist the "H" flag. Normally they remain within the port, going out to vessels up to 1 mile from La Forcada.

ANCHORAGE: Outside the port vessels can use the sector between N.W. and W.N.W. of La Forcada and at a distance of 0.5 mile from it, in 15 to 25 m. depth and sandy bottom. There are no sheltered anchorages. When awaiting a berth, vessels must remain at anchorage with one or two anchors.

RESTRICTIONS: Entrance channel 90 m. wide, 1,000 m. long up to San Juan de Nieva Dock. Depth at low water from 6 to 9 m.

MAX. SIZE: Length 150 m., draft 9 m.

HEALTH: Yellow flag to be hoisted, and once Health Authority has boarded, and the Marine Health Certificate completed, provided this is negative, clearance is automatic. This also applies if vessel is arriving from another Spanish port.

Health documents required: Marine Health Declaration if coming from another country, but if from another Spanish port, the Health Clearance Document from that port suffices.

Deratting certificate, or exemption certificate.

If coming from country where epidemic is in force, certificates of vaccination for each crew member.

If sickness on board, patient will be examined immediately and decision taken as as to clearance or isolation.

RADIO: If the vessel has short wave radio, messages can be sent to Aviles, but via Aranjuez Radio, Cadiz Radio (EAC s/5), Teneriffe Radio (EAC 2/5) and Vigo Radio (EAF 2/5). If close to the coast, and medium wave radio is available, then messages can be sent to any of the other Spanish coastal stations. Messages sent purely with the telegraphic address "Pilots" are sent on by telephone to the Pilotage Authority.

TUGS: 5 tugs available up to 1,800 h.p.

BERTHING: 10 berths available.

Berth	*Length (m)*	*Depth (m)*
Raices	822.84	8.0
S. San Juan	300.00	6.0
W. San Juan	277.70	3.5
S.W. San Juan	90.25	2.0
New Fish Quay	303.00	5.0
Aviles Fish Quay	515.94	2.0–1.0
E. Ensidesa	300.00	9.0
E. and S. Ensidesa	715.00	7.0
S. Ensidesa	107.50	5.0
Endasa	132.84	7.0

CUSTOMS ALLOWANCE: Normally Customs permit 200 cigarettes or 3 kg of tobacco per man out of bond. Additional quantities needed on the stay of ship in port. 1 bottle of spirit per man.

DRY DOCKS: 1 dock at Las Canteres, owned by Entrecanales Y Tavora, length 50 m., width 9.50 m. Capacity 600 tons.

FRESH WATER: Supplies available in the San Juan de Nieva zone and at Ensidesa Quay in San Agustin Dock.

FUEL: Fuel and gas-oil can be supplied by barge at 200 t.p.h.

AIRPORT: Asturias Airport — 15 km. from the port under the control of the Aviles Customs Office at the airport.

TIME: GMT plus 1 hour, except during Summer when GMT plus 2 hours.

HOLIDAYS: Work can be arranged on 6th January, 19th March, 15th April (from 1400 hrs. onwards), 19th April, 28th August, 27th May, 29th June, 8th September, 12th October, 16th July (Mercantile Marine).

No work available on 1st January, 16th April, 1st May, 17th June, 1st November, 8th December, 25th December.

Important notes: The above dates refer to 1976 and does not show, since they fall on Sundays, 18th and 25th July when no work is available. It should be be borne in mind that these are movable holiday dates, and amongst those on which no work is available are Good Friday, Corpus Christi, and those when work can be arranged are Holy Thursday, Easter Monday, Ascension Day.

POLICE/AMBULANCE/FIRE: Police 561646 and 561174.

AUTHORITY: Junta del Puerto de Aviles.

BARCELONA: 41.25 N. 02.10 E. (See Plan)

DOCUMENTS:

(1) Manifest of Barcelona cargo: 1 set covering all loading ports; make sure that this manifest is in perfectly good order before ship's berthing, as Customs will board the vessel immediately and take it away as it is; thereafter any omission or excess of pages may lead to a fine. It is important that the Master has copies as Manifests mailed by Agents in loading ports sometimes arrive too late or not at all.

(2) Manifest of Transit Cargo: 2 sets (same recommendations as above).

(3) 3 Crew Lists.

(4) 1 Negative of Passengers.

(5) 2 sets of Bills of Lading of the Barcelona cargo.

(6) 2 Provisions Lists.

Of items (3), (4) and (6) above several copies will be required for distribution among various authorities, therefore it would be well for the Master to have at least 3 copies of each ready at hand on arrival. Tobacco allowed per crew member is 3 kg.

All tobacco in excess of the 3 kg. allowed by the Spanish authorities should be manifested and signed by the Spanish Consul at the last port of call before Spain. If there is no Spanish Consul at the last port before calling at Spain, then the consulate of a country friendly to Spain or the port authorities could carry out the same formality. The same procedure must be followed when the vessel loads a cargo of tobacco for discharge in Spanish ports, or when the tobacco cargo is loaded in transit.

If any item of cargo manifested for Barcelona should be discharged in error at any other port in the ship's itinerary before arrival at Spain, there would be a fine imposed here for shortage of goods if no advice of such shortage is given before arrival.

PILOTAGE: Pilot boats painted black, with letter "P" in white on each bow. Telegraphic address: "Pilot Station-Barcelona". Required notice of ETA 24 hours before arrival. Signals to be made by vessels requiring Pilot: the letter "G" in sound and/or light.

Pilot boats have no radar and are reluctant to venture more than just outside port entrance in poor visibility. Pilots give priority to vessels nearest port entrance. Pilotage is compulsory and the service is permanent. In case of port congestion vessels remain at anchor at the roads.

ANCHORAGES: In the Outer port for small vessels only, with depths over 50 ft. Also at the roads 0.5 miles away from breakwaters where vessels usually remain at anchor.

MAX. SIZE: Only limitation is draft: max. 39 ft.

HEALTH: Pratique obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease or fever on board Master must send a message to Agent, to advise Health Office. Following documents are required by Health Officer upon berthing; Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.

RADIO: Aranjuez Radio, call sign EAD.

VHF: Barcelona Radio can be contacted on VHF Channel 16, 3 hours before arrival and Channel 26 for long distance calls.

TUGS: Tugs join vessel at entrance of port. Usually use ship's lines; if tug's lines used usual charge 10% of official tariff. It is normal for 2 tugs to be used for vessels from 5,000 to 15,000 g.r.t.

10 tugs available, from 800 h.p. to 1,800 h.p.

BERTHING: Commercial quay, length 12,100 m. and depths min. 8 m. max. 14 m. dependent location. Depth alongside Grain Elevator in Pier Contradique is 37 ft. Pier Barcelona, berths for transoceanic maritime passenger traffic, depths 26 ft. and 31 ft. Shore fenders keep vessel about 1 m. off quay.

CARGO-HANDLING FACILITIES: For unloading grain, there is a silo with a 65,000 ton storage capacity, provided with 4 suction pumps capable of unloading vessels at a rate of 400 t.p.h. and loading rail or road trucks at the rate of 200 t.p.h.

Liquid methane reception and gasification plant with a storage capacity for 249,000 cu. m. of liquid gas. Potash reception and loading plant with mechanical loading bridges which can load up to 450 t.p.h. of this product.

General cargo handling is fully mechanised and, apart from the pier cranes, there are fork-lift trucks, truck cranes and a palletisation process.

A container wharf with a berthing frontage of 365 increasing to 1,115 m., 14 m. water depth, 9.8 acres surface area, with a capacity for 1,250 20-ft. containers. 2 cranes available at 50 tons and reach of 35 m. There will be a terminal with berthing space for 6 ferries for operating a roll-on/roll-off service.

TANKERS: There are 6 berths for oil tankers, max. size 60,000 d.w.t., discharge rate 1,000 t.p.h., depth alongside 12 m. (2), 11 m. (2), 8.5 m. (2). Diameter of loading lines 4 in. and 8 in., diameter of discharge lines 10 in., 12 in. and some of 18 in.

There is 1 natural liquid gas berth, depth alongside 12 m.

There are 5 berths for inflammable liquids, asphalt, vegetable oil and tallow, depth alongside 12 m.

STEVEDORES: *(a)* Daytime, normal working hours, from 0800–1200 and 1400–1800 hrs. (1 shift); *(b)* 0800–1400 and 1400–2000 hrs. (2 "intensive" shifts). Night-time, from 2000–0200 and 0200–0800 hrs. (2 intensive night shifts). Extra costs are involved for intensive shifts. Nightwork is paid on an overtime basis. Average rates for discharge of grains in bulk are about 7,500/8,000 tons per day of 24 consecutive hours; for general cargo a rate of 100 tons within normal working hours.

MEDICAL: All medical facilities are available; it would be appreciated for the Master to advise in advance if crew member is in need of urgent medical attention. Contact Barcelona Radio in an emergency.

FRESH WATER: All piers have water available by shore pipes or by barge. Rate of delivery about 16/20 t.p.h. Rate 150 t.p.h. by barge.

FUEL: Fuel oil and gas oil available at "Campsa", installation. It is advisable that Shipowners stem bunkers through their own contractors, with advance notice of 48 hours. Delivery either by barge, or at the bunkering pier of "Campsa". Bunker barges allowed alongside vessel during cargo-handling.

DEVELOPMENTS: Lengthening under construction of breakwater Dique del Este, and pier Contradique. A wharf for 6 berths for tankers only, plus 4 berths for vessels loading/unloading crudes in bulk with a depth of 39 ft. Dry dock planned for vessels up to 215 m. length and 40,000 tons.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew, except in liner vessels which is contracted for by stevedores.

CERTIFICATES: Vessels should have all usual certificates aboard but only the Safety Wireless. Safety Equipment and Deratisation Certificates are required by authorities.

CUSTOMS ALLOWANCE: Quantity allowed for each crew member is 200 cigarettes and 1 bottle wine/spirits.

CARGO GEAR:

57	Quay cranes up to	3 tons
55	,, ,, ,,	6 tons
6	,, ,, ,,	10 tons
8	,, ,, ,,	15 tons

REPAIRS: All types deck and engine.

DRY DOCKS: 1 floating dock, length 111 m., lifting power 6,000 tons; belonging to Port Management.

SURVEYORS: Lloyd's; 2410400. A.B.S.; 2399275. N.V.; 3192906 and 2463164.

REPATRIATION: Good facilities available.

AIRPORT: Located about 7 km. from town, well served by regular airlines.

TIME: always GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January, The Three Kings; 19th March, St. Joseph; Good Thursday, after 1400 hrs.; Good Friday; Resurrection Day; 1st May, Labour Day; Ascension Day; Whit Monday; Corpus Christi; 24th June, local holiday; 29th June, St. Peter and St. Paul; 18th July, National Holiday; 25th July, St. James; 15th August; 24th September, local holiday; 12th October; 1st November; 8th December; 25th December and 26th December, second Christmas Day.

POLICE/AMBULANCE/FIRE: Police 091; Harbour Police 3026367; Ambulance 3171717 (Also 24 hour medical service); Fire 080 and 2535353 (080 is best).

TELEPHONES: Only at Terminal Station.

SERVICES: Carpenters, lashing, hatch and tank cleaning all available.

AUTHORITY: Junta del Puerto de Barcelona.

BILBAO: 43.17 N. 02.55 W. (See Plan)

DOCUMENTS:

3 Cargo Manifests.
2 Negative Passengers.
3 Crew Lists.
2 Stores Lists.
2 Crew Personal Effects Lists.

The maximum quantity of tobacco and/or cigarettes allowed per crew member, Master included, is 3 kilos. Any surplus must be separated and manifested as cargo in transit and the manifest duly visaed by a Spanish Consular Representative at the loading port. Should there be no Spanish Consular Representative of a friendly nation, Port Authority (Custom House) or Chamber of Commerce in the sailing port. In case a vessel carrying an excess amount of tobacco or cigarettes and not in possession of a Manifest duly visaed by the competent Authority is diverted at sea to a Spanish port while on voyage to another, the Master should cable to the Administratcr de Aduanas of Bilbao, notifying the diversion and the excess of tobacco manifested without offical visa. On arrival the Master should submit the Manifest and other documents to the Custom Authorities.

PILOTAGE: Pilotage is compulsory for vessels entering and leaving Bilbao Port. Pilot will board incoming deep laden or ballast tankers within a radius of 2 miles from the new Punta Lucero Light. The Pilot ladder for boarding is usually rigged off port side. If the Pilot is unable to board on account of bad weather, the Pilot boat will display the signal "follow in my wake" and lead the vessel into sheltered harbour.

Pilots keep on watch 24 hours on Channel 12.

ANCHORAGE: Good anchorage in Outer Harbour inside old breakwaters. Depths of LW about 28-33 ft. Also anchorage outside old breakwaters, between Santurce Breakwater and New Lucero Breakwater, lightening operations sometimes performed when weather good. The recommended anchorage zone for deep-laden vessels is 1.3 miles S.W. of Punta Galea Lighthouse in 12 fathoms, sand.

RESTRICTIONS: None, except when draft exceeds 13-14 ft. and proceeding to berths inside river, which case must await tide. See "Max. Size".

MAX. SIZE: No restrictions length or breadth. Max. advisable draft 30-31 ft. Tankers: Largest vessel entered 323,087 d.w.t. Length 347.94 m. Draft 23 m.

HEALTH: If proceeding direct to berth, pratique obtained immediately after berthing. Otherwise, at anchorage on arrival. Cases suspected disease or fever on board, Master must radio Agent, to advise Health Office. On berthing Health Authorities require Health Declaration, Derat Certificate and Crew List.

RADIO: Cabo Mayor Radio.

TUGS: No tugs required for entering port, only for berthing or shifting inside river. Ship's lines used, the tug employed according Pilot's advice. 28 tugs available, 125 h.p.-4,000 h.p.

BERTHING: Canal de Duesto 26 ft. alongside. Tankers: Vesels will berth day and night, but vessels deep laden must be on Pilot station 2 hours before HW. Mooring lines should be of polypropylene or fibre, etc.; if wires are used they should have a fibre pennant. For average weather conditions 18 mooring lines are recommended, 5 head ropes, 5 stern, 4 breasts and 4 springs.

Operated by the Port Authority:

General Cargo:

800 m. of berthing with depth of more than 12.0 m.
1,633 m. of berthing with depth between 8 m. and 10.0 m.
362 m. of berthing with depth between 6 m. and 8 m.
1,798 m. of berthing with depth betweem 4 m. and 6 m.

Bulk Cargo:

543 m. of berthing with depth of more than 12.0 m.
1,372 m. of berthing with depth between 6 m. and 8 m.
121 m. of berthing with depth between 4 m. and 6 m.

Containers:

250 m. of berthing with depth of more than 12.0 m.
500 m. of berthing with depth between 8 m. and 10 m.

Passenger:

180 m. of berthing with depth between 10 m. and 12. m.

There are also 2 Ro/Ro ramps available.

CRANES: Gantry Type: 4 with over 12 tons capacity, 9 of 12 tons capacity, 36 of 6 ton capacity, 62 of 3 tons capacity.

Mobile type: 20 mobile cranes with capacity from 3.5 tons to 100 tons.

Floating Cranes: 10 floating cranes with capacity up to 400 tons.

STEVEDORES: Very important send advance messages giving ETA. Agent then informs Shippers or Receivers' stevedores. Official working hours Monday/Saturday 0800–1200;1400–1800 hrs.

MEDICAL: Medical service must be arranged by the Agent. In emergency send cable in advance to Agent.

TANKERS: "Campsa" have private berths at Santurce and Zorrosa. Cargo manifest must be visaed by Spanish Consul, or in absence of Consul by Authority at loading port. Petronor Terminal is located at Santurce, at the entrance of Abra Bilbao. There is a pier of 645 m. with 2 berths, No. 1 (West) and No. 2 (East). Both berths are fitted with good rubber fenders. The pier is dredged to 14 m. in LW. For crude vessels to discharge, there are 4 booster pumps on the jetty, reaching a rate of about 1,000 LT per hour.

The West berth is equipped with a bank of 5 metallic arms, 2–12 in. for unloading crude oil/ballast-deballasting/loading fuel oil; 2–8 in. for loading white products and 1–6 in. for bunkering.

The East berth is equipped with a bank of 4 metallic arms; 2–12 in., 1–8 in. for loading white products, 1–6 for bunkering.

Masters are requested to advise "Petronorbilbao" by cable on departure and 72 hours in advance and if any changes in the vessel's ETA additional advice is required. Petronor Terminal keeps watch 24 hours on VHF Channels 16 and 12.

Two new oil berths in operation, depth 32 m. and 19 m.

DENSITY: 1025.

FRESH WATER: Always available. Delivery by tugs. Minimum 10 tons.

FUEL: Ordinary fuel oil and gas oil available at local "Campsa" refinery. Advisable that Shipowners stem bunkers 48 hours prior arrival. Delivery by barges, or at the bunkering pier. Bunkers available at Petronor. Advise Agent in advance.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally by crew, except in liner vessels, when contracted by stevedores.

CERTIFICATES: Have usual documents on board, but only Safety Radio, Safety Equipment and Deratisation Certificates required by authorities.

CUSTOMS ALLOWANCE: Normally, Customs permit 200 cigarettes, and 1 bottle wine/spirits per man.

CARGO GEAR: Usually shore cranes employed in loading or discharging but if require lightening then ship's derricks used as only 1 floating crane is available.

IDENTIFICATION CARDS: Not required.

CONSULS:

REPAIRS: Good repair facilities, and several important shipyards.

DRY DOCKS: 5 graving docks. Biggest: length 166 m., breadth: 20 m. (naval shipyard).

REPATRIATION: Good facilities.

AIRPORT: About 10 km. from town. Regular services to Madrid and Barcelona. Also direct flights London and Paris.

TIME: GMT plus 1 hour (permanent).

HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday afternoon; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (National Holiday); 31st July (local holiday); 15th August; 12th October; 1st November; 25th December.

POLICE/AMBULANCE/FIRE: Police 091; Ambulance (hospital) 41.87.00; Fire 21.30.00.
AUTHORITY: El Comandante Militar de Marina de Bilbao.

CADIZ: 36.30 N. 06.20 W. (See Plan)

DOCUMENTS:
Entrance Declaration.
Health Declaration.
List of Crew on Arrival.
List of Crew on Departure.
List of Passengers on Arrival (if applicable).
List of Passengers on Departure (if applicable).

All vessels must be represented by a local Agent who will be responsible for completing the required Customs, Health and Port Authorities documentation.

PILOTAGE: International Code Signals used to call Pilot. Pilot can be contacted by VHF or through telegraphic address. "Practicos Cadiz". 6 to 8 hours notice of ETA preferred.

Pilots operate a steam launch and a diesel launch both painted black with yellow funnel on which letter "P" is painted in white on both sides. Pilot boat does not remain at station but comes out when ordered. Pilot boards in an area between the Rota light and San Sebastian light. In case of bad weather the Pilot will board nearer Los Cochinos shore and meanwhile signal instructions to the vessel until the Pilot is able to board.

ANCHORAGE: Vessels waiting for a Pilot may anchor in any safe position according to draft and weather conditions. Tankers or deep draft vessels may anchor West of the Diamante buoy in 16-18 m. depth where the Pilot boards at first opportunity.

RESTRICTIONS: Entry is restricted only by the depth of the entrance channel, maximum safe draft 30 ft.

HEALTH: Master should radio, not more than 50 hours and not less than 5 hours before arrival, the following information to the port authority: name and nationality of ship, date and time of arrival, last port of call, number of passengers and crew aboard, if doctor on board and details of any sickness noted on voyage. Message to be addressed to "Sanidad Maritima Cadiz". International code quarantine signals to be shown on arrival when free pratique will be given provided health situation is satisfactory.

TUGS: Normally join vessel off the berths. 7 tugs available, up to 1,500 h.p.

BERTHING:
Mole No. 1. 220 m. length, depth alongside 10 m. L.W.
Mole No. 2. 460 m. length, depth alongside 10 m. L.W.
Mole No. 3. 440 m. length, depth alongside 10 m. L.W.
Generalisimo Franco Mole: 365 m. length, depth alongside 10 m.
Muelle Armamento: 200 m. length, depth alongside 9.50 m.
Muelle Embacadura: 110 m. length, depth alongside 9.50 m.

TANKERS: 3 Tanker berths for vessels up to 27 ft. draft at the piers in the Zona Franca, operated by Campsa. Hoses: Fuel oil 10 in., gas oil 8 in., gasoline 8 in. No slop discharge facilities.

International Terminals Corp. Berth, length 170 m., depth 9.5 m.

FUEL: Fuel, gas oil and several types of marine diesel can be supplied.

REPAIRS: There are 3 shipyards – Astilleros Espanoles SA, at Cadiz and Matagorda. Empresa Nacional Bazan-Carraca, and several workshops of Auxiliar de la Construccion Naval. All types of repairs can be effected.

DRY DOCKS: Largest is 245 m. long, 57 m. wide. In addition Astilleros Espanoles have 2 floating docks, 1 of 231 m. length, 24 m. breadth, lifting capacity 39,400 tons, and the other 100 m. length, 17.54 m. breadth lifting capacity 4,500 tons.

At Matagorda, there is a dry dock of 150.97 m. length, 19 m. width, and 6.23 m. max. draft.

OPENING/CLOSING HATCHES: This work is normally effected by the stevedores.

CONSULS: Argentina, Belgium, Bolivia, Colombia, Denmark, France, Germany, Greece, Italy, Liberia, Netherlands, Norway, Sweden and Finland, Portugal, Venezuela.

CUSTOMS ALLOWANCE: Max. of 3 kilos of tobacco for each person on board. All to be declared. Wine or spirits, 1 decilitre per man per day.

AIRPORT: Nearest at Seville, about 150 kms. away. Daily flights to Madrid, Barcelona and overseas.

TIME: GMT plus 1 hour all the year round.

TELEPHONES: Connection to vessels can be arranged by Agents.

SHORE LEAVE: Crew are permitted to go ashore subject to police control.

DEVELOPMENTS: Astilleros Espanoles is building a new dry dock to accommodate vessels up to 400,000 tons.

AUTHORITY: Comandante Militar de Marina.

CARTAGENA: 37.35 N. 00.59 W. (See Plan)

DOCUMENTS:
6 copies of the Crew List.
6 copies of the Passenger List, or 2 negative copies as the case may be.
2 sets copies Manifests covering cargo destined to Cartagena and carried in transit.
Store Provision List, in duplicate, including items such as: tobacco, spirits, radios, coffee, tea, bunkers, and any other items belonging to the vessel.
2 copies of all Personal Effects Lists, from passengers and ship's crew.

The amount of cigarettes allowed for each member of crew/passenger is 3 kilos; any amount over has to be manifested as tobacco in transit, and this manifest must be visaed by a Spanish Consul in the last loading/discharging port. If there is no Spanish Consul in the port of call before Cartagena, the Master is requested to send a cable to: Direccion General de Aduanas, Madrid, quoting as follows: "m.v.' . . .' coming from . . . order to proceed to Cartagena tobacco manifest unlegalised = Master".

This cable is to be inserted in the radio log-book, and copy of same to be delivered to local Customs Authorities when boarding the vessel.

PILOTAGE: Compulsory. Position of Pilot station 37° 34.6′ N. 0° 59′ W. Position with green light of Dique de Curra bearing 000°, and the white light of Las Losas bearing 090°. This is the position at which the Pilot normally boards.

Vessels bound for Escombreras wait for Pilot in position 37° 34.2′ N., 0° 59′ W., with green light of Dique de Curra bearing 000° and the green light of Dique Bastarreche bearing 090°.

Pilot launch is a motor-boat with cabin, about 9 m. long, white hull, red below water line, black letter "P" painted on both sides.

When bad weather prohibits Pilot boarding in the above position, vessel may be required to embark Pilot inside the harbour breakwaters.

Vessels call Pilot in daytime by code flag "G", or by sounding 3 prolonged blasts on the whistle.

At night, Pilot may be called by flashing code signal "PT", or by 3 prolonged blasts on whistle.

Radio messages, with ETA, may be sent direct to Practicos Cartagena with 24 hours' notice, and confirmed 12 hours before arrival, messages should include vessel's seawater draft and, if calling for the first time, vessel's length overall. Pilot station equipped with VHF.

APPROACHES: Escombreras bank with datum depth of 9.5 m. situated West of Escombreras Island, extends from 200 to 400 m. West of the Eastern tip of the island. This bank is unmarked.

Area of underwater obstructions exists between the coast, the meridian of Santa Ana buoy, and the parallel of Las Losas beacon.

There is a zone used for submarine exercises which is marked on the charts. Occasionally, naval divers carry out exercises in the vicinity of the port entrance. These are accompanied by naval vessels showing appropriate signals.

Ships bound for Escombreras, to enter the port, should steer for a point situated at the intersection of the N.S. line of the red light at the extremity of Curra Pier, and the E.W. line through the green light at the extremity of the Bastarreche Pier, at which point, approximately, the Pilot boards the vessel.

The least recorded depth in the entrance to the port is 25 m. The approaches to the port of Escombreras do not present any difficulties.

ANCHORAGE: Vessels anchored within the port limits should not carry out repairs affecting main engines as the possibility of sudden storms in Winter may make it necessary to move to a sheltered anchorage North of Cabo Tinoso, or to put to sea.

Vessels under 29 ft. 6 in. draft may anchor inside the breakwater provided they do not obstruct other vessels' movements.

Anchorage for larger vessels in Cartagena Roads, approx. position 37° 35′ N., 0° 59′ 30″ W. in depths of 40 m.

Anchorage for tankers off Escombreras in approx. position 37° 34′ N., 0° 58′ 23″ W., in depths of 42 m.

MAX. SIZE: No length limitations. For Cartagena max. draft 31 ft. 6 in. For Escombreras max. draft 68 ft.

HEALTH: Free pratique is immediately obtained when vessels berth any time from sunrise to sunset. Port Health Officers, require Maritime Health Declaration, Deratisation Certificate, and copy of crew and passenger lists.

RADIO: Cabo Palos Radio, Aranjuez Radio, and/or Gibraltar Radio.

TUGS: 3 tug-boats 500–1,000 h.p. with fire-fighting capabilities. All 3 tugs on duty 24 hours duly equipped, with 2 shifts of crew.

Tugs join vessels in vicinity of port entrance, vessel's lines normally used.

The tugs available to assist berthing tankers in Escombreras are all diesel tugs, equipped with fire-fighting equipment. 5 tugs available of up to 2,400 h.p.

BERTHING: Total length of general cargo quays 679 m. Depth alongside 8–10 m. Solid bulk materials: total length of berthing 717 m. Depth alongside 8–10 m.

CRANES:

No.	*Capacity*	*Type*
7	3–20 tons	Electric Gantry
2	3 tons	Mobile-Diesel
1	6 tons	Mobile-Diesel
2	25 tons	Mobile-Diesel
1	90 tons	Mobile-Diesel

STEVEDORES: In the case of a vessel calling at Cartagena at night time, Sundays or holidays, it is important that Master cable 24 hours in advance to advise his ETA in order that Agents are able to arrange stevedores' operations. Gangs can be called on as follows: on weekly working days 0800 and 1330 hrs. On Sundays/holidays 0800 hrs. (with prior advice to Union by 1200 hrs. on Saturdays or day preceding holidays). The official working hours are: Monday/Saturday 0800 to 1200 and 1330 to 1730 hrs. – Sundays/holidays: from 0800 to 1400 hrs.

MEDICAL: Medical services rendered as soon as requested but, in case of emergency, Master required to send urgent cable in advance.

TANKERS: These vessels call at port of Escombreras 2 miles away from Cartagena port, this port owned by Refineria de Petroleos de Escombreras S.A. Slop discharge facilities available at Escombreras.

For ships of 250,000 d.w.t Berth Number 7, of recent construction, consists of 4 dolphins, in a line parallel to Bastarreche Pier. Between the first and third dolphin is situated a loading platform with loading/discharging lines. The centre of this platform is situated at a distance of 230 m. from the head of Bastarreche Pier, bearing 140°.

The least depth in Berth No. 7 is 21.45 m. or 70 ft. 4 in. at the extreme South of the berth. The rest of the area has a depth of between 24 to 28 m.

The maximum length foreseen for tankers of 250,000 tons d.w.t. is 250 m. or, 1,145 ft., since the total length of the berth is 430 m.

The maximum allowable draft is 21 m. or 68 ft. 1 in.

Shore lines for crude oil are 1 of 40 in. diameter and 3,500 m. length, and another of 24 in. diameter and 3,500 m. length.

The Woodfield hose-handling gantry has four 16-in. hoses of which the 2 outside hoses should be used for loading bunkers as well as for discharging. Connecting flanges of 16 in. diameter, type 150 ASA.

Fresh water can be supplied by pipe-line at all berths at a rate of 45 t.p.h.

Only vessels up to about 100,000 d.w.t. may be berthed at night.

8 berths suitable for tankers from 29 ft. 6 in. to 43 ft. draft.

2 berths for LPG carriers up to 29 ft. 6 in. draft.

FUEL: At Cartagena, only gas oil available from tank trucks. At Escombreras all grades of fuel available subject to advance notice given.

FRESH WATER: Available from quay by hose connections, only on working days. On Sundays/holidays notification to be required before 1400 hrs. preceding day.

FIRE PRECAUTIONS: The port area has its own Fire Department under supervision of Port Director. Although there is no water-borne equipment available, tug "Brio" will assist as required as well as Cartagena City Fire Department.

DEVELOPMENTS: There is a big programme to increase berthing-places by building new piers close to breakwaters, available for 3 vessels.

CONSULS: The following countries are represented in Cartagena:

Finland
France
Sweden
Panama
Peru
Italy
Denmark
Greece
Norway
Holland
Belgium

GANGWAY/DECK WATCHMEN: Not compulsory, only used when required by Master under Immigration Police Supervision.

OPENING/CLOSING HATCHES: Usually by ship's crew.

CUSTOMS ALLOWANCE: 200 cigarettes per each crew member, out of bond. The excess to be declared as cargo in transit. Wine and/or spirit: 1 bottle for each crew member or passenger.

CREW IDENTIFICATION CARDS: Not required.

REPAIRS: There are very good repair facilities. A private shipyard "Empresa Nacional Bazan" and 2 other private repair shops.

DRY DOCKS: 1 dry dock can accept vessels of 566 ft. length and 73 ft. beam. 2 floating docks for vessels up to 333 ft. in length.

REPATRIATION: All facilities available.

AIRPORT: San Janvier airport situated 27 miles from Cartagena with daily service to Madrid, Barcelona and Almeria.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; 19th March (St. Joseph); Good Thursday from 1400 hrs.; Good Friday; 1st May (Labour Day); Ascension Day; Corpus Christi; 29th June (St. Peter and St. Paul); 18th July (National holiday); 15th August; 12th October; 1st November (All Saints' Day); 25th December.

POLICE/AMBULANCE/FIRE: Police tel. 501456. Ambulance 503470; Red Cross 510727; Fire Department 501111; Port Fire Department 503100.

AUTHORITY: Capitan de Navio, Comandante Militas de Marina de Cartagena, Comandancia de Marina.

CASTELLON DE LA PLANA: 39.58 N. 00.01 W. (See Plan)

DOCUMENTS:

- Manifest of Castellon cargo: 1 set covering all loading ports; make sure that this manifest is in perfectly good order before ship's berthing, as the Customs will board the vessel immediately and take it away as it is; thereafter any omission or excess of pages may lead to a fine.
- Manifest of the Transit cargo: 2 sets (the same recommendations as above).
- 3 Crew Lists.
- 2 Negative of Passengers.
- 2 sets of Bills of Lading of Castellon cargo.
- 2 Provisions Lists.
- 2 Manifests of personal effects.

PILOTAGE: Compulsory, and service is permanent. Pilots board vessels by a cutter in roads near entrance formed by the 2 breakwaters.

Pilot cutters are painted white and have the letter "P" in black on each bow. Cutters have a blue flag, with letter "P" in white. Signals to be made by vessels requiring Pilot: 3 long blasts. Telegraphic address: "Practicos, Comandancia Marina, Castellon".

ANCHORAGE: Vessels can remain at anchor at the roads. Recommended anchorage: 0.5 mile East of lighthouse in depth of 12 m.

RESTRICTIONS: Max. draft 22 ft. for vessels of about 110–120 m. length. For vessels of more 120 m., to 140 m. length, max. draft is 20-21 ft.

HEALTH: Pratique obtained immediately after berthing, when Health Officer boards vessel. In case of suspected disease or fever on board Master must radio Agent to advise the Health Office. Following documents are required by the Health Officer upon berthing: Maritime Declaration of Health, Deratisation Certificate, 1 Crew List.

RADIO: Aranjuez Radio, call sign EAD, 36–48 hours prior arrival nearest radio station is El Grao Radio, call sign EAV.

TUGS: Tugs join vessels at entrance of port. Vessels of more than 100 m. length normally use 1 or 2 tugs. Ship's ropes used.

STEVEDORES: Very important that Master sends in advance short radio notice regarding vessel's ETA so Agent can inform Shippers or Receivers' stevedores accordingly. Official working hours of port are: Monday/Saturday 0830–1230 and 1400–1800 hrs.

MEDICAL: All kinds of medical services can be arranged. In case a crew member needs medical attendance urgently, it is advisable that Master sends a radio message in advance.

TANKERS: "Campsa" berth in Muelle Serrano Lloberes.

Esso Petroleos Espanoles, S.A. Refinery Terminal. Breasting Island; Lat. 39° 56′ 7″ N. Long. 00° 01′ 6″ E. for tankers with unlimited length. Depth of water in the berth is about 12.5 m. (41 ft.).

Vessels berth heading either E. or W. The Breasting Island is built on piles. A central platform about 70 m. (230 ft.) long and 15 m. (49 ft.) wide will accommodate the loading arms and the island services. 2 mooring dolphins are located at about 128 m. (420 ft.) from the centre of the platform. They are linked with the main platform by a walkway. The platform elevation from the sea level is an average of 6.8 m. (22 ft.).

Both sides of the Breasting Island central platform and the Eastern dolphin are provided with a resilient fendering system. No fendering system is installed on the Western dolphin. Vessels can be docked at both sides of the Breasting Island.

2 "swamped" breasting wires are anchored about 200 m. (640 ft.) off both sides of the Breasting Island. Quick-release hooks are provided on the platform corners and on both mooring dolphins.

Hoses: 2 loading arms of 10″–150 lbs/ASA and two 8″ loading arms 150 lbs/ASA.

Any vessel from 3,000 d.w.t. through 37,000 d.w.t. can be accepted at the Breasting Island having a deepest draft of 37 ft. 6 in.

Sea berth: For crude oil cargoes with submarine pipe-line: Lat. 39° 56′ 4″ N. Long. 00° 02′ 7″ E. Unlimited length.

Depth of water in the berth is about 25 m. (82 ft.). Vessels berth heading 075/080 true using both anchors forward, with about 280 m. (900 ft.) of chain out on each anchor and 2 swamped mooring legs if it is necessary.

The stern is secured to 5 Iamgar buoys equipped with 2 release hooks on each. These buoys have flashing lights.

1 navigational range consisting of 2 lighted buoys, is used to proceed to the sea berth and drop the anchors.

Any vessel from 27,000 d.w.t. to 165,000 d.w.t. can be accepted in the sea berth.

Bunkering available. Water available by barge. Provisions available. Pilotage compulsory – Esso Pilots. Tugs: 2 tugs compulsory.

BALLAST: All ballast must be discharged to shore tanks, no exception will be made to this rule. A total of 17,000 cu. m. (110,000 bbls) can be received by the Refinery ballast tanks.

FRESH WATER: All piers have water available by shore pipes. The rate of delivery is about 8–9 t.p.h.

FUEL: Available with 5 days notice and subject to "Campsa" berthing availability.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Vessels should have usual documents on board, but only the Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.

CUSTOMS ALLOWANCE: Normally, Customs permit 200 cigarettes per man out of bond and 1 bottle of spirit per man.

CARGO GEAR: All commercial piers served by electric shore cranes able to lift 3, 6 and 8–9 tons.

IDENTIFICATION CARDS: Not required.

CONSULS Italian, postal address Plaza Huerto Sogueros, 2-3 -2 , tel. 212288; France, Plaza Borull, 9, 220180; Sweden, Maestro Ripolles, 28, 220053; Norway, Trinidad 85, 224511.

REPAIRS: Work shop for small repairs.

REPATRIATION: Good facilities exist.

AIRPORT: Valencia, 70 km. away.

TIME: Always GMT plus 1 hour.

AGENT: Geronimo Mallach Paches, General Aranda, 22, Castellon De La Plana. Telegrams "Gemapa". Tel. 220061, 220064, 222806, 221830 (Shipbroker and Stevedore.) Telex; 65541-Gemap-E.

CASTRO-URDIALES: 43.24 N. 03.14 W.

DOCUMENTS:

3 Cargo Manifests. 1 visaed by the consular authority.
3 Cargo Manifests for other ports if the vessel has called at and loaded in other ports.
3 Ballast Manifests (if the vessel has arrived in ballast).
5 Passenger Lists (if passengers are carried).
5 Captain's Certificates to the effect of "No Passengers" if no passengers are carried.
5 Crew Lists.
5 Stores Lists.
5 Crew's Store Lists – cameras, radios, spirits, cigarettes, etc.
Health Certificate.
Certificate of Derating and fumigation against insects.
4 Bills of Lading.
International Freeboard Certificate.
International Safety Certificate.
International Radio Certificate.
Certificate of Stowage of cargo.

PILOTAGE: *To request pilotage:* 1. Advise the arrival of the vessel 24 hours in advance. 2. Hoist flag G of the International Flag Code. 3. Anchor within the pilotage limits of the port.

Port pilotage limits: Coastal zone comprised between the Onton meridian and that of the Punta del Rabanal at one mile from the coast. The Pilot goes out to a limit of one mile outside the port. There are no means of radio communication with the pilot boat or pilot station. ETA to be given 24 hours in advance. Sound signals to summon the Pilot – 3 long blasts. In the event of bad weather, the Pilot does not proceed to sea, and the vessel must enter the port and anchor in the bay.

Anchorage to await Pilot: In the mouth of the port at 1 mile distant. The pilot boat carries a blue flag with the white letter "P" upon it. The pilot boat is blue and is a small motor-launch.

ANCHORAGES: The best anchorage is 045°–800 m. from the green coloured beacon of the breakwater at the port entrance, in a depth of 12 m.

RESTRICTIONS: There are no entry restrictions. Vessels with a draft greater than 6 m. cannot enter the port.

MAX. SIZE: Length 105 m., draft 5 m., depth at the entrance 9.14 m.

HEALTH: The Health Official boards the veseel as soon as it is berthed alongside. In the event of suspected illness or fever, advise Agent by radio and anchor near the port until the Health Doctor authorises entry.

RADIO: The best radio station to pass the ETA telegram to consignees or Agents is Santander radio station call sign "EAS". Frequency 500 kHz.

TUGS: None available.

BERTHING: Irrespective of tide. The S.E. pier has a total length of 980 ft., of which 500 ft. forms the commercial wharf, mainly for coasters sundry cargoes. No cranes. Fresh water supply. Depth 17 ft. at low water.

Iron ore loading tips: Along open coast adjoining Castro-Urdiales are several cantilever piers connected with the Iron Ore Mines, partly sheltered in creeks or small coves. All vessels bound to load iron ore there should clear and apply at Port of Castro Urdiales. Steamers cannot remain at these berths during rough weather but may find good anchorage in roads, or immediate shelter at the port of Castro-Urdiales, or better at Bilbao Harbour 9 miles East.

The Iron Ore Loading berths (no length limit) are as follows:

Name	*Situation*	*Approx. ebbtide draft*	*Loading rate per working hour*
Dicido	1 mile E.	21 ft.	800 tons
Saltacaballo	1.5 miles E.	22 ft.	800 tons
Onton	2 miles E.	21 ft.	1,000 tons

STEVEDORES: Ordered by Agent or Shipper. No ETA to stevedores necessary.

MEDICAL: It is not necessary for Agent to receive advance notice that medical attention is required. In the port there is a corps of doctors and 1 of them is always on duty for any emergency. Futhermore, there is a permanent Spanish Red Cross service with ambulances to transport any patient to a large hospital centre. There is also a hospital in this town.

In the case of serious illness, patients are taken by ambulance to the Cruces Medical Aid Centre (province of Vizcaya-Bilbao) 18 k. from Castro Urdiales.

International Vaccination Certificates are required.

DENSITY: 1016.

FRESH WATER: Water may be taken on board at the San Luis Quay (also known as the Ocharan Mazas Quay). By means of hoses and at a rate of delivery of about 40 t.p.h.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Carried out by Crew.

CERTIFICATES: Safety Wireless, Safety Equipment, and Deratisation generally inspected.

CUSTOMS ALLOWANCE: Normally 200 cigarettes per man. For longer stay, new allotment out of bond obtainable. Wine/and/or Spirit: 1 bottle per man.

CARGO GEAR: At the small commercial wharf ship's derricks are used. At the iron ore loading berths along the coast with Cantilever Piers, conveyor belt employed with spout at the tip.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: Limited.

REPATRIATION: Crew changes and repatriation can be effected, bearing in mind that any consular negotiation must be made in Bilbao, since there are no Consulates in this port.

AIRPORT: Nearest Sondica (Bilbao) 40 km. by road.

TIME: Always GMT plus 1 hour.

HOLIDAYS: Sundays; 1st January; 19th March (Saint Joseph); April, Holy Thursday and Friday (variable each year); 1st, 23rd May; 13th and 29th June; 18th and 25th July; 15th August; 12th October; 1st November; 25th December. On holidays, work may proceed if requested.

POLICE/AMBULANCE/FIRE: Police C.G. Tel. 861146; Ambulance Red Cross 861147 and 861191; Hospital 860196; Fire 861294.

TELEPHONES: No arrangements for placing telephones on board.

SHORE LEAVE: Crew allowed ashore.

DELAYS: The only delays that can normally be expected are those due to bad weather.

AUTHORITY: Military Marine Adjutant – Port Captain.

AGENT: J. Ibanez, Castro-Urdiales, Muelle 6. Tel. office 860193, home 861176. Telegraphic address "Ibanez".

CEUTA: 32.54 N. 05.17 W.

DOCUMENTS:

Health Declaration.
2 Cargo Manifests.
2 Stores Lists.
4 Crew Lists.
5 Passenger Lists.

PILOTAGE: Radio Agent advising ETA 24 hours in advance. International code signals used to call Pilot, or give 3 long blasts. Sound signal used day and night. Pilot boards within one mile of the breakwater. Pilotage compulsory.

ANCHORAGE: N. W. of the harbour in depths from 10 to 12 fathoms, at about 2.25 cables off breakwater but vessels should leave this anchorage with strong winds from E. or W. The bottom off the N. W. side of Muelle de Poniente is mostly rocky. The existence of submarine cables is marked by a hemispherical buoy painted in white, moored at about 3.25 cables bearing 74° from the red light at the head of Muelle de Levante. No light is exhibited. For this reason, anchorage is prohibited to the North of a line extending from the root of Muelle de Levante bearing 298° to position of the buoy already mentioned.

MAX. SIZE: Length, 220 m. Max. draft, 33 ft. 6 in.

HEALTH: Pratique obtained immediately after berthing when vessel boarded by health officials.

RADIO: Tangier, or Cadiz Radio.

TUGS: Usually 2 available of 1,200 h.p. Tugs use ship's lines.

BERTHING: West Mole 5 berths for vessels up to 33 ft. 6 in. draft. East Mole: 2 berths for vessels up to 31 ft. draft. Dato wharf, 2 berths, up to 20 ft. draft.

STEVEDORES: Accurate advance notice of ETA necessary to order gangs required. Gangs are ordered at 0730, and 1630 hrs. For Sundays and holidays, gangs ordered before 1730 hrs. previous day. Average cargo handling rates: General cargo, 7 tons per gang/hour; bagged cargo, 10 tons per gang/hour; drums, 13 tons per gang/hour. Overtime from 2000 hrs., Sundays and holidays, 40% surcharge.

MEDICAL: Advance notice by radio preferred. Hospital facilities available.

DENSITY: About 3.64%.

FRESH WATER: Available, but may be some restriction in Summer months.

FUEL: All grades available, to be ordered in advance.

GANGWAY/DECK WATCHMEN: Available but not essential.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCE: Maximum 3 kilos tobacco for each crew member. Normal daily consumption of wine and spirits allowed.

IDENTIFICATION CARDS: Not required.

CONSULS:

Sweden	,, 511801	Norway	,, 511700

REPAIRS: Only minor repairs can be effected. Slipways for vessels up to 500 tons.

REPATRIATION: All facilities available.

Seamen's Books, in lieu of passports, accepted by Spanish Immigration Authority for Seamen of the following nationalities only:

Belgium, Federal Republic of Germany, France, Greece, Holland, Italy, Ireland, Luxembourg and Portugal.

Seamen of other nationalities will require valid passports and it is advisable to check with Agent regarding visas required in some cases.

AIRPORT: Nearest international airports at Tangier, 100 km. away, and at Malaga, 137 km. away.

TIME: GMT plus 1 hour in Winter, GMT plus 2 hours in Summer.

HOLIDAYS: New Year's Day, 6th January, 19th March, Holy Thursday (afternoon), Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 5th August, 15th August, 12th October, 1st November, 8th December, Christmas Day. All holidays may be worked by voluntary labour.

POLICE/FIRE/AMBULANCE: Police, tel. 513324; Fire, tel. 513333; Ambulance, tel. 514509.

TELEPHONES: No arrangements for placing telephones on board.

AUTHORITY: Harbour Master.

AGENT: Ybarrola, Depositos de Aceite Combustible, S.A. Avenida de Espana, 11. PO Box 46, Ceuta. Tel. 511800. Cables, Ybarrola Ceuta. Telex: 78026.

CORUNNA: 43.23 N. 08.22 W. (See Plan)

DOCUMENTS:
3 Crew Lists.

AUTHORITY: Junta del Puerto Gijon.

HUELVA: 37.16 N. 06.55 W. (See Plan)

DOCUMENTS:

3 Crew Lists.

2 Passenger Lists or a negative.

1 Cargo Manifest of goods destined to Huelva.

Another Manifest covering transit cargo.

2 Store Lists, including tobacco, cigars, cigarettes, coffee, spirits, radios, cameras, etc., in possession of crew. In all cases make and number of radios to be indicated.

Safety Wireless Certificate and Safety Equipment Certificate.

If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest, which must be visaed by the Spanish Consul at the last port, otherwise vessel is exposed to heavy fine.

PILOTAGE: Compulsory. Services from middle to high tide, depending on draft of vessel on arrival or departure. Pilot's motorboat painted white. Letter "P" in black at both bows. Agent must be in close contact with Pilot Office. Pilots are informed by Agent of ETA at bar. In rough weather Pilots will not be available for entries or sailings. Depths of water depend on location, ranging from 15 ft. to 30 ft. in high tide. Pilot station equipped with VHF Channel 16.

Telegraphic address of Pilots – "Practicos–Huelva", 24 hours notice of ETA required.

At night the regulation lights are exhibited. Contact must be made by VHF to take Pilot on board. Regulation ladder required.

In the event of bad weather the Pilot will board at Cascajera.

MAX. SIZE: Max. length for entry to Cascajera, 200 m. Max. length for entry from Punta del Sebo to Tharsis Quay, 180 m. Max. draft, permitted 28 ft. 05 in. up to 32 ft. 05 in. depending on the tide.

The entry to port is always subject to tides and maximum sizes of vessels able to proceed to inner quay berths will depend upon the berth and the tidal constant.

For max. sizes of tankers, see below.

HEALTH: As long as Captains of vessels notify Medical Office by cable that there are no sick on board and that the ship proceeds from an area free from contagious diseases as specified by the International Sanitary Regulations, free pratique will be granted to the vessel, although this does not eliminate all the sanitary measures specified in the Exterior Sanitary Regulations in force.

Notice should be given en-route towards the Port of Huelva and sufficiently in advance to permit the free pratique to be granted.

When there is any sickness on board, no operation will be carried out until the vessel or its personnel have been inspected by the Medical Authorities.

The granting of free pratique does not signify that the Yellow Flag may be lowered. This will be done once the Medical Authorities have carried out their inspection or are in possession of the Maritime Health Declaration Form signed by the Captain.

RADIO: Local coastal radio station Huelva-Radio. Working frequency: 1700 kc/s. on VHF. Listens out permanently on 2182 kc/s. and Channel 16.

Hours of service 24 hours (continuous).

National and International Radio traffic – radio conversation, radio-telegrams, advice to navigators.

TUGS: Only used inside harbour. Ship's lines employed, 4 tugs available. Number required to assist vessels at the discretion of the Pilot in charge.

BERTHING: Mineral loading quay – 435 m. mooring length and 12 m. depth of water at LWST. Has two loaders of 1,200 t.p.h. each.

Jetty belonging to "Energia e Industrias Aragonesas S.A. for movement of liquid and solid bulk cargo. Has 150 m. mooring, with 8 m. depth of water at LWST. For movement of solids, a gantry crane of 6 tonnes is available, together with three tubes for liquids.

Extension of the Fosforico Espanol S.A. jetty consisting of fitting out liquid quay for movement of solid bulk cargo. Has a 7 ft. depth of water, 3×15 tonnes gantry cranes and pipes for conveyance of phosphoric and sulphuric acids.

"Reina Sofia Quay" of the Union Explosivos Rio Tinto S.A. for the movement of liquid bulk cargoes, is 500 m. long and 8 m. draft at LWST. Has two berths for vessels up to 6,000 d.w.t., one berth for vessels up to 3,000 d.w.t. and two berths for lighters and tugs.

STEVEDORES: 48 hours advice to Agent necessary to engage labour.

MEDICAL: Agent must give at least 24 hours advance notice where medical aid is required. There is a provincial hospital. Vaccination certificates against fevers and cholera are issued by the Provincial Health Authority.

TANKERS: Rio Gulf de Petroleos operate a SBM tanker-mooring 7 miles offshore, about 20 miles distant from Huelva. Mooring is suitable for vessels 900 ft. long with draft up to 70 ft. salt water. Mooring 66 ft. is used for discharging only. Discharge rate is about 1,300 t.p.h. through two 12 in. lines and a 30 in. submarine line.

Within Huelva port, Rio Gulf have 2 tanker berths, and Campsa have 1. The 2 berths at the "Torre Arenillas" quay permit a draft of 12 m. at low water but the max. length permitted at the oil quay is 200 m.

Berth No. 1 (North) loading/discharging:

LPG	8 in. line
Gasoline	10 in. ,,
Naphtha	10 in. ,,
Diesel	10 in. ,,
Fuel oil	10 in. and 12 in. lines

Berth No. 2 (South) loading/discharging:

Benzine	8 in. line
Cyclohexan	8 in. ,,
Gasoline	10 in. ,,
Diesel	10 in. ,,
Distillates	10 in. ,,
Fuel oil	10 in. and 12 in. lines

Residues: there is a receiving station near the oil quay for tank residues, together with a product separator. Connection lines are 10 in.

Product	*S.G.*	*A.P.I.*
Propane	0.507	—
Butane	0.573	—
Gasoline 85-Ron	0.693	72.68
Gasoline 96-Ron	0.735	61.02
Campsa G.O.	0.832	38.57
R.D. 2494	0.789	47.84
Industrial F.O.	0.945	18.24

DENSITY: Water at this port is salt water. Fresh water, in quantity of 1 in. to 7.5 in., only present in heavy rainy weather.

FRESH WATER: The supply of drinking water is made at the Eastern (Levante) quay at the rate of 20 t.p.h. per vessel. This can also be provided by means of tugs at a rate of 50 and 30 t.p.h.

FUEL: Fuel oil and diesel available in main port. Not available at offshore tanker terminal.

DEVELOPMENTS: Projects are in being to increase depth of water down to 35 ft. for tankers using the Rio Gulf berths, but this implies dredging of bar and channel, a distance of 8–9 miles; it is not known when the project will be completed.

Sand Retention Mole: Once the access road to the mole has been finished which runs through the islands of Cacuta and Slates (right bank of the rivermouth) with a length of 11.5 kms., the construction of the mole proper, 12 kms. long, will start, as far as the last of buoys 1 and 2 at the port entrance. In this way, after a deepening programme of drafts in the access channel, these will be stable with 10.5 m. of water at LWST.

Ingeniero Juan Gonzalo Quay: At the end of 1976, quay will be finished with 902 m. length and 11.5 m. depth of water. It will be used for bulk and general cargo.

GANGWAY/DECK WATCHMEN: The employment is at the discretion of Masters, who are free to either employ or do without any watchmen.

OPENING/CLOSING HATCHES: Normally effected by crew, liner vessels excepted.

CERTIFICATES: Safety Wireless, Safety Equipment and Deratisation Certificates should be at hand for production if requested.

CUSTOMS ALLOWANCE: 200–300 cigarettes per man out of bond. If necessary permit may be obtained from Customs Authorities to open bond and provide crew with fresh supplies, if stay in port justifies procedure. Wine and/or Spirit Allowances: Two bottles per man.

IDENTIFICATION CARDS: Not necessary.

CONSULS:

Belgium
Denmark
Finland
France
Germany
Greece
Holland
Italy
Norway
Panama
Portugal
Sweden

REPAIRS: Any kind in engine room, and hull above water.

DRY DOCKS: Only one small dry dock available for vessels up to 3,500 g.r.t.

REPATRIATION: No difficulty in this respect.

AIRPORT: The nearest is at Seville – San Pablo. a distance of 100 km. from Huelva.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; 20th January; 19th March; Thursday preceding Good Friday as from 1400 hrs. Good Friday; 1st May; Corpus Christi; 29th June; 18th July; 3rd August; 15th August; 1st October; 12th October; 1st November; 8th December; 25th December.

Permit to work on any of the mentioned holidays (1st January Good Friday and 25th December excepted) can be obtained, but sufficient reasons must be given to justify permission.

POLICE/AMBULANCE/FIRE: Police and Civil Guard 215175, 213136; Fire-brigade 214421; Customs 215174.

SHORE LEAVE: Permitted.

TELEPHONES: No arrangements exist, for the time being, to place telephones on board vessels.

AUTHORITY: Marine Military Commandant.

IBIZA: 38.54 N. 01.28 E. (See Plan)

DOCUMENTS: *Passenger Liners:*
5 Crew Lists (Customs, Comandancia de Marina, Health, Police and Consignee).
6 Passenger Lists (Customs, Police, Guardia Civil, Obras del Puerto, Health and Consignee).
2 Lists of Crew and passengers personal effects (Customs).
2 Store Lists (Customs).
Health Certificate (Health Department).
2 Cargo Manifest, if any. (Customs).
2 Negative Cargo manifest, if no cargo.
Cargo Ships:
5 Crew Lists.
2 Lists of Crew personal effects.
2 Store Lists.
Health Certificate.
2 Cargo Manifests.

PILOTAGE: Pilotage compulsory. No ships allowed to go further than imaginary line between Botafoch lighthouse and Isla Negra del Este, without a Pilot. Advisable to give 24 hours notice of ETA. Shortly VHF will be installed in Pilot station and boats. Pilot's boat is of the canoe type with white sides and letter "P" in black on both sides. Vessels requiring a Pilot must give three long whistles. By night flash morse "G".

Pilot will board between Botafoch lighthouse and Isla Negra del Este. In bad weather vessel should follow Pilot's canoe till he is able to board.

ANCHORAGES: Anchorage area situated inside imaginary line: Botafoch-Negra del Este with depths of 40 to 50 ft. Pilot required to anchor.

MAX. SIZE: Max. length for berthing, 135 m. Maximum draft 21 ft.

HEALTH: Report in advance to pilot if there is any problem. If situation is normal, then, after ship berths the health inspector boards and quickly grants pratique. In event of any suspected disease or fever on board, the Pilot (without boarding), will show the anchorage area, then health inspectors and authorities will board, and give necessary instructions.

Vessels entering after calling at another Spanish port have no problems obtaining pratique.

TUGS: Not available.

STEVEDORES: Available, ETA required 24 hours in advance.

MEDICAL: Civil hospital, military hospital, and 3 private clinics available.

TANKERS: Load/discharge lines 10 in. and 8 in. No facilities for discharging residues. 1 berth. Max. draft of the ship is 21 ft.

FRESH WATER: Available at the quays. 9 m.t.p.h.

FUEL: Available. Notice required 24 hours.

FIRE PRECAUTIONS: Tankers should have a rope over bows, at water level while the ship is berthed.

DEVELOPMENTS: Increasing depths in the port to 7 m. It has also been approved to enlarge berthing quays to 220 m. and 7 m. depth, and build a fishing dock.

GANGWAY/DECK WATCHMEN: Performed by crew.

OPENING/CLOSING HATCHES: There are no fixed rules on this matter: it varies according to the circumstances.

CUSTOMS ALLOWANCE: Quantity permitted for each crew member to be held out of bond: 1,000 cigarettes and 100 cigars. 2 litres of alcohol (whisky, cognac, etc.).

IDENTIFICATION CARDS: Required.

REPAIRS: There are good work shops and engineers but with limited possibilities. There is a shipbuilder's yard where they build and repair yachts and canoes.

REPATRIATION: Facilities for effecting crew changes and arranging any necessary repatriations.

AIRPORT: 8 km. away, served by scheduled flights daily.

TIME: GMT plus 1 hour.

HOLIDAYS: Cargo work can be arranged on the official holidays with an extra charge of 40% to the workmen.

New Year; Epiphany (6th January); Saint Joseph (19th March); Maundy Thursday: half-day (the evening); Good Friday; Ascension of our Lord (40 days after Resurrection); Saint Joseph the Artisan (1st May); The Holy Heart (last Friday of June); Exaltation to work (18th July); Santiago, Lord of Spain (25th July); Our Lady of the Snows, Lord of Ibiza (5th August); Ascent of Blessed Virgin Mary to Heaven (15th August); Feast of the Hispanicism (12th October); All Saint's Day (1st November); Festival of the Immaculate Conception (8th December); Christmas Day (25th December).

Although not yet official there will be introduced as a holiday Easter Monday and 26th December.

POLICE/AMBULANCE/FIRE: Police 301131; Ambulance 301214; Fire telephone call to the Comandancia de Marina, tel. 301190.

SERVICES: Compass adjusting.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Comandante de Marina de Ibiza, Comandancia de Marina.

MAHON: Minorca, 39.52 N. 04.18 E.

DOCUMENTS: *Health Department:*
Health Document.
Crew List.
Passenger List.
Disinfect and Deratisation Certificates.
Port Authorities:
Crew, Passenger List.
Ship characteristics and other details.
Cargo.
Indication of previous Port and destination.
Muster Roll, to be produced.
Customs:
Cargo Manifest.
Bill of Lading.
Crew List and Passenger List.

Also the Captain will produce, if required, Log book and passports of crew.

PILOTAGE: Compulsory to take Pilot in entry, departure and any movements within port. On approaching port, during day, ships will hoist flag corresponding to International Code "I need a Pilot". By night, by means of lights, according to International Code.

During day Pilot's boat is recognised by a square blue flag with letter "P" (painted white) in centre of flag. Pilotage area comprises all the estuary, from inside port to outside Capes of La Mola and San Carlos.

ANCHORAGES: Inside are good anchorages, for instance Cala Llorga and Plana de Cala Figuera.

MAX. SIZE: Unlimited length and width, but draft is limited to commercial port, 25 ft.; and to anchorage, 43 ft.

HEALTH: Hoist correct flags of International Signals Code to indicate health situation of ship. Before pilot boards, he should ask for health situation. If ship suspected, he will lead it to Lazareto anchorage and once anchored Pilot will report by means of Port Authority to Health Department. Port is provided with service of disinfection and means to kill rats.

Ships coming from Middle East and East Africa should carry certificate of anticholeric vaccination, antivariolic, antimarilic and antityphus. Also from North Africa and South America. All others only antivariolic and antityphus.

BERTHING: Allocated in South of port, in front of Naval Station. The commercial berth is 216 m. long, 25 ft. depth. Berth of Cala Figuera only for oil, limit of draft 25 ft.

STEVEDORES: Stevedores available. Loading/discharge rates 200 metric tons per day. They should be notified before 08.00 hrs., those ships that berth first having preference or priority.

MEDICAL: In case of accident or illness of any member of crew medical assistance and hospitalisation will be in civil hospital.

FRESH WATER: 1 supply in Cala Figuera, 2 in Maritime Club and 3 in Commercial berth. The minimum supply is 2 metric tons.

FUEL: Available from Campsa at Cala Figuera.

DEVELOPMENT: Scheme to increase Commercial Quay by another 60 m., towards the West.

OPENING/CLOSING HATCHES: Carried out by crew.

IDENTIFICATION CARDS: Not required.

CONSULS: Italy: Tel. 363393; France: Tel. 363889; Netherlands: Tel. 362703.

REPAIRS: Small repairs available.

DRY DOCKS: Military floating dock of 2,000 metric tons.

AIRPORT: Mahon, 5 km. distance, with daily flights to Peninsula.

TIME: GMT plus 1 hour.

HOLIDAYS: Work can be arranged on holidays, provided workmen are paid extra.

POLICE/AMBULANCE/FIRE: Police 363564; Hospital 360003; Airport firemen 351193.

TELEPHONES: No facilities available.

AUTHORITY: Capitan de Navio, Comandante Militar de Marina de Menorca.

MALAGA: 36.43 N. 04.23 W. (See Plan)

DOCUMENTS:
5 Crew Lists.
5 Passenger Lists or Negative.
1 Cargo Manifest of goods destined to Malaga, as well as of other cargoes in transit.
Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.

Details list in duplicate of all personal effects of the crew and Passengers (tobacco, spirits, cameras, radios, etc.). For vessels bigger than 499 g.r.t., Safety Equipment Certificate.

Note: Tobacco; In case vessel carries more than 3 kilos of tobacco per man, the excess must be declared in a separate manifest, which must be visaed by Spanish Consul. In absence of Consul, said document will have to be visaed by an Authority or Consul of a friendly nation at the former port clearance. Otherwise, vessel may be severely fined.

PILOTAGE: Pilotage is compulsory and service is permanent. Pilots board vessel by cutter in roads, near entrance formed by 2 breakwaters. Pilot cutters are painted white and have letter "P" in black on each bow. Cutters have a blue flag hoisted on mast, with the letter "P" in white, at both sides of flag. At night, cutters have white light, and under this light, red one. Entrance between breakwaters is 320 m. wide and easily accessible. When weather in the roads is bad, which seldom happens, vessels approach as close as possible to entrance in order that Pilot can board easily.

ANCHORAGE: Vessels can anchor outside of breakwaters, in roads in depths of 60 – 70 ft. Anchoring is prohibited in vicinity of tanker moorings, the Pilot will advise best position. Weather is bad occasionally when East wind blows, during Winter.

MAX. SIZE: No restrictions in respect of length or breadth. Max. advisable draft to enter port is 31-32 ft.

The tanker sealine berth can accept vessels up to 300,000 d.w.t.

Largest vessels to enter port: Passenger ship "Oriana" length 245 m. Draft on entering and leaving 9.14 m. Tanker, 49,581 d.w.t. length 225 m. draft 12.48 m.

Largest tanker at buoy mooring 239,786 d.w.t., length 334 m. Draft on entering and leaving 19.81 m.

HEALTH: If vessels proceed directly to berth, pratique can be obtained immediately after berthing. In case of any suspected disease or fever on board, Master must radio to Agents, in order that they can advise Health Office.

RADIO: Nearest important radio station is Cadiz, or Gibraltar and Aranjuez. Master's messages should be received at least 24 hours before arrival.

TUGS: Ship's lines are used, tug-boats are employed according to Pilot's advice, and upon request. 8 tugs available, 450 h.p.–2,250 h.p.

BERTHING: Pilots will advise Masters whether vessel has a free berth or not. Also if she has to anchor in roads. Further particulars can also be obtained from Pilot.

Berth No.	*Length (m.)*	*Depth (m.)*	*Remarks*
1	350	9.4	General cargo, Bulk and Passengers.
	99	8.0	General
2	483	10.5	General Cargo, Bulk and Passengers
3	181	8.0	Passenger Quay
	140	7.0	Passenger Quay
4	477	8.0	General cargo, Bulk and Passengers.
5	101	6.5	Armament
6	215	10.0	Bulk solids and Bulk liquids.
	300	8.0	Petroleum
7	145	9.4	Fish
8	128	5.0	Storage
	135	5.0	Fish

SPECIALISED CARGO-HANDLING FACILITIES: Quay No. 2 includes 15,000 tons silo for grain, loading and discharging capacity 200 t.p.h.

Quay No. 6 can handle all cargo in bulk. Also 3 ton forklifts and a Hyster 620 capable of handling containers up to 26 tons. There are regular car ferries for passengers and cargo, roll-on/roll-off plying daily with Tangiers and weekly with Genoa, Marseilles and Casablanca, all of them direct. For butane gas a special pier built outside the port Westward, along the beach in front of the depot. For LPG and chemicals the inner side of the Western breakwater can be used, though loading and unloading has to be done into tank trucks. 20 ft. containers can be handled with a Hyster forklift with appropriate spreader, eventually 30 ft. containers too.

CRANES: 27 quay cranes with capacity up to 15 tons and 1 mobile crane with capacity of up to 8 tons.

STEVEDORES: It is important that Master sends advance message regarding the vessel's ETA. Agents can inform Shippers or Receivers' stevedores accordingly, to arrange operations properly. Official working hours of port are: Monday/Saturday 0800 – 1200, 1400 – 1800 hrs.

MEDICAL: Any kind of medical service can be arranged. In case a crew member needs medical attendance urgently, it is advisable that the Master radio in advance.

TANKERS: Petroleum handled at Quay Nos. 6 and 7. Depths 8 m. and 9.4 m. respectively. Also at the New Tanker berth, depth alongside 13.50 m. (see "Max. Size").

Quays No. 5, 6 and 7: Operator: Demagrisa. Crude oil discharge pipe-line – 250 t.p.h. Refined oil discharge pipe-line – 300 t.p.h.

Playa Misericordia: Operator: Calvo Sotelo. Sea-line for discharging tankers up to 250,000 d.w.t. Max. discharge rate 6,000 t.p.h. through 2×30 in. pipe-lines.

Operator: Butano. Sea-line for butane which also handles propane. Max. discharge rate 300 t.p.h.

Quays Nos. 6 and 7: Operator: Anomiaco Espanol SA. 4 lines for naphtha discharge. Rate 210 t.p.h.

Operator: Calvo Sotelo. 4 discharge lines for oil. Rate 1,500 t.p.h.

Tanker Quay: Operator: Calvo Sotelo. Crude oil pipe-line, diameter 24 ins. with 2 discharge arms and 1 spare. Discharge capacity 2,000–2,500 t.p.h.

Quay Nos. 6 and 7: Operator: Campsa. 4 pipe-lines available, 2×10 in., 1×12 in. and 1×14 in. maximum pumping rate 800 t.p.h.

DENSITY: 1025.

FRESH WATER: Always available. Deliveries are performed directly from the quay, rate 20–200 t.p.h. or occasionally by tugs. Minimum tonnage, 17 tons, occasionally supplies by tank-barge.

FUEL: Ordinary fuel oil and gas oil are available at local refinery of "Campsa". It is advisable that Shipowners contract bunkers through their own contractors, with anticipation of 48 hours, so that order can be received in time. Delivery can be performed at bunkering pier at a rate of 60 t.p.h. or by car tankers.

FIRE PRECAUTIONS: Tankers perform their operations at the private berths of "Campsa" which have necessary fire precautions.

DEVELOPMENTS: An extensive plan to increase facilities of port, and for building new piers. Other important work being effected at breakwater, to erect new piers for large passenger ships.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: This work effected normally by crew, except in liner vessels, which is contracted by stevedores.

CERTIFICATES: Vessels should have the usual documents on board, but only Safety Wireless, Safety Equipment and Deratisation Certificates are required by authorities.

CUSTOMS ALLOWANCE: Normally, customs permit 200 cigarettes per man out of bond. 1 bottle of spirit for each crew member.

CARGO GEAR: Usually shore cranes of 2-3-6-15 tons lifting power employed in loading or discharging operations, if vessels require any lightening then vessel derricks are employed, as only 1 floating crane is available at the port of 25 tons and 15 m. height.

IDENTIFICATION CARDS: Not required.

CONSULS: Practically all countries have consulates at Malaga.

REPAIRS: Facilities of a limited nature.

DRY DOCKS: There is a floating dock for vessels up to 2,000 tons.

REPATRIATION: Good facilities.

AIRPORT: The airport is about 8 km. from town. Daily services with Madrid, Barcelona, Seville, Valencia, Tangier and Melilla. Also direct flights to London, Paris, Amsterdam, Brussels, Frankfurt, Stockholm, Helsinki, Geneva, Zurich, Nice.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; St. Joseph (19th March); Good Thursday afternoon; Good Friday; Labour Day (1st May); Ascension Day; Corpus Christi; St. Peter and St. Paul (29th June); National Holiday (18th July); 25th July; 15th August; 12th October; 1st November; 8th and 25th December.

POLICE/AMBULANCE/FIRE: Police, Tel. 211302; Ambulance, Tel. 275250; Fire, Tel. 234567.

AUTHORITY: Junta del Puerto de Malaga.

MOTRIL: 36.43 N. 03.30 W. (See Plan)

DOCUMENTS:

Health Certificate.
5 Passenger Manifests (1 Health, 2 Customs, 1 Police, 1 Agent).
4 Crew Manifests (1 Health, 2 Customs, 1 Agent).
2 Store Lists (for Customs).

PILOTAGE: Arranged by Agent basis ETA given 24 hours in advance. Pilot boat distinguished by painted "P". Night pilotage possible approx. 40% extra. Vessels await Pilot just outside port. Pilot compulsory for all foreign vessels and Spanish vessels arriving from abroad. Pilot should be requested when 1 mile from the port by means of international signals.

ANCHORAGE: Area near port. The roads to the East of the port have very little depth. The sea is rough in this area and vessels can run the serious risk of beaching. The best location for anchorage is outside the port 0.25 miles from the port entrance, in 14 to 15 m. of water, mud bottom.

RESTRICTIONS: None, vessels may enter day or night.

MAX. SIZE: Maximum draft 23 ft. Length maximum 150 m.

HEALTH: Free pratique given on board.

RADIO: Telegraph office, no radio.

TUGS: Available. One tug 500 h.p.

CARGO-HANDLING FACILITIES: Berths equipped with shore cranes, 6-ton capacity, for handling bulk cargoes (grain, ore, fertilisers, etc.).

STEVEDORES: No ETA advice necessary. Agents arrange gangs. Work normal hours except holidays.

MEDICAL: No advance notice required. All facilities available.

TANKERS: Vessel about 8,000 tons. No special requirements.

DENSITY: Normal Mediterranean.

FRESH WATER: Available.

FUEL: Available from Malaga.

GANGWAY/DECK WATCHMEN: Agent arranges.

OPENING/CLOSING HATCHES: Crew open and close hatches.

CUSTOMS ALLOWANCE: Tobacco: About 100 cigarettes per man. Wine and or spirit. None.

IDENTIFICATION CARDS: Not necessary.

CONSULS: None in Motril. The nearest Granada or Malaga.

REPAIRS: No repairs possible.

REPATRIATION: Facilities available.

AIRPORT: The nearest airports Malaga 105 km. Granada 75 km.

TIME: Local time GMT plus 1 hour.

HOLIDAYS: see "Malaga."

POLICE/AMBULANCE/FIRE: Police 601221; Ambulance 600200; Fire 600200.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Harbour Master.

AGENT: Munoz Chapuli, Iribane y Garvayo Asociados S.A., Port Avenue, POB 55, Motril (Granada). Tel. 600627. Cables: Muirigar Motril.

PALAMOS: 41.50 N. 03.08 E.

DOCUMENTS:

3 Crew Lists.
1 Passenger List or negative.
Manifest of goods destination Palamos and in transit.

Store List in duplicate, including tobacco, spirits, radios, etc., belonging to vessel.

Detailed list in duplicate of all personal effects of crew and passengers (Tobacco, spirits, camera, radios, etc.).

Tobacco – any excess over 3 kilos per person must be stated on a separate manifest duly visaed by Spanish Consul.

If on inspection differences are found in more or less, articles removed and heavy fine imposed.

PILOTAGE: Pilotage is compulsory and service is permanent. Often no berths available between 2400 and 0600 hrs. owing to port occupied by fishing boats. Pilot is informed by Agent of vessels ETA given 24 hours in advance. When vessels approach the breakwater, Pilot will board. Pilot boat is white with a black "P" painted on the side.

BERTHING: Depth of water in centre of harbour 42-52 ft. Commercial Wharf length: North 689 ft., depth 18-26 ft. South 246 ft., depth 15-24 ft. Pier Wharf or breakwater: not available for commercial traffic. Length 2,100 ft.

RESTRICTIONS: None but for draft. Vessels carrying dangerous cargo should get authorisation for berthing prior to arrival of the ship.

MAX. SIZE: No restrictions in respect of length. The maximum advisable draft for berthing is 24 ft. stern, 20 ft. bow.

HEALTH: Pratique is obtained immediately after berthing. In case of suspected disease or fever on board the Master must radio to Agent in order inform Health Office in time.

RADIO: Radio Costera of Barcelona.

TUGS: None but Barcelona's tugs could be hired should the vessel's size make it necessary.

STEVEDORES: Information about ETA time is advisable to get gangs ready.

MEDICAL: Any kind of medical services can be arranged if information received in time.

FRESH WATER: Plentiful supply of water by means of hoses from the pier to vessel.

FUEL: Can be supplied if required.

DEVELOPMENTS: Steps are being taken to get the breakwater in condition to berth tankers and liners.

GANGWAY/DECK WATCHMEN: It is not compulsory but advisable at night.

OPENING/CLOSING HATCHES: Normally opened/closed by the crew, otherwise according to Charter Party.

CERTIFICATES: Usual documents on board. Safety Wireless, Safety Equipment, Deratisation and Registered Tonnage Certificates are the only ones required by the Authorities.

CUSTOMS ALLOWANCE: Crew : 3 kilos tobacco per person. Passengers: 2 kilos per person. Any excess on this amount must be declared on a separate Manifest as in transit. Wine and/or Spirit: only 1 bottle per man. Any excess, must be declared on a separate Manifest as cargo in transit and stowed apart from the tobacco and spirits carried under the Provisions List. This Manifest must be visaed by the Spanish Consul at the last port of call. Any infringement of this regulation will subject the vessel to the immediate imposition of heavy fines and confiscation of the excess tobacco.

IDENTIFICATION CARDS: Not required.

CONSULS:

France	Tel. 314472	Portugal	Tel. 320148
Denmark	,, 314400	Sweden	,, 320850
Italy	,, 320200		

REPAIRS: Only small ones.

REPATRIATION: Good facilities exist.

AIRPORT: Gerona Airport situated at 40 km. distance and half an hour time by car from Palamos. Regular flight services with Madrid, Barcelona, Palma Mallorca, London, and all over the world with transhipment at Madrid and/or Barcelona.

TIME: Always GMT plus 1 hour.

HOLIDAYS: New Year's Day (1st January); The Three Wise Men (6th January); St. Joseph (19th March); Good Thursday – afternoon only; Good Friday; Easter Monday; Whit Monday; Labour Day (1st May); Ascension Day; Corpus Christi; Main Holiday (24th June); St. Peter and St. Paul (29th June); National Holiday (18th July); St. James (25th July); Our Lady's Assumption (15th August); Columbus Day (12th October); All Saints Day (1st November); Immaculate Conception (8th December); Christmas Day (25th December); Second Christmas Day (26th December).

POLICE/AMBULANCE/FIRE: Police 31 41 87; Ambulance 31 43 50; Fire 31 43 50.

AUTHORITY: Captain of the Port.

PALMA, Majorca: 39.34 N. 02.38 E.

PILOTAGE: Compulsory. Order through Agent.

ANCHORAGE; In outer harbour in depths up to 13 m.

RESTRICTIONS: Depth in harbour entrance up to 15 m.

TUGS: Available if required.

VHF: The Spanish Telephone Company has established a station for ship-to-shore communications.

BERTHING: Quays at Puerto Pi with 12 m. depth alongside. Quays at Puerto de Palma with up to 10 m. depth alongside.

FUEL: Supplied at the quays, rate 150 t.p.h.

FRESH WATER: Available at the quays.

AIRPORT: Palma Airport well connected with the Peninsula (mainland) and with foreign airports.

PASAJES: 43.21 N. 01.54 W. (See Plan)

PORT LIMITS: In this port a vessel is considered to be an "arrived ship" (subject to C/P Terms) when the Pilot leaves the vessel once she is inside the harbour. Can be on the roads awaiting for berth or alongside the quay. The laytime will commence when the Master has delivered in writing the notice of readiness.

DOCUMENTS:

4 Crew Lists.
2 Passenger Lists or negative.
2 Cargo Manifests with an individual copy of each Bill of Lading for parcels to be discharged at port of Pasajes.
Copy of Manifest covering other cargo on board in transit for other ports.
Stores List in duplicate, including tobacco, cigarettes, spirits, radios, etc., belonging to the vessel.
Detailed Crew's Stores List, in duplicate, of all personal effects pertaining to crew and passengers (tobacco, cigarettes, spirits, cameras, radios, arms, etc.).

For vessels exceeding 499 tons g.r.t. Safety Manifest Certificate; Safety Equipment Certificate, Deratisation Certificate should be on board ready for production.

PILOTAGE: Pilot service is compulsory and permanent. Pilots board vessel in an area about 1.5 miles out from leading lights of port entrance. The telegraphic address is: Corporacion Practicos, Pasajes. Notice should be given 24 hours before arrival; generally Agents keep Pilots informed of vessel's time of arrival when they are advised by Masters. VHF service in operation.

Pilots' cutter is painted in naval-grey with letter "P" painted in white on both sides of bridge; flag with letter "P" in white, is hoisted on cutters' mast.

International pilot signals are used by Pilots, by means of Aldis lamps, when approaching vessel at night. International light and sound signals to be made by vessel when requiring Pilot.

In event of bad weather Pilots cannot board vessel at usual 1–1.5 miles location. Then vessel has to wait for instructions (VHF or radio) for entering port.

With respect to boarding and safety measures the international safety regulations are to be carried out.

ANCHORAGES: A limited number of vessels may anchor in roads inside the port, in good shelter. Depth in area of anchorage is 25–30 ft.

RESTRICTIONS: The entrance channel has a length of 1,200 m., breadth 80–120 m. and a depth of 20 m. LWS. Vessels over 130 m. length must enter at high water and in daylight.

MAX. SIZE: 170 m. length and 28 ft. draft. When dredging works are completed in the entrance channel, the port will be able to accept vessels of up to 180 m. length and 30 ft. draft.

HEALTH: If vessels proceed directly to berth pratique can be obtained immediately upon berthing. If vessels anchored in bay, pratique can be obtained after anchoring. In case of any suspected disease or fever on board, the Master must advise the Agents, by radio, in order they inform the Sanitary Authorities in advance.

RADIO: Nearest Radio Station is Cabo Mayor Radio. Messages by radio-telephone can be transmitted via Radio Arcachon (France). Notice of ETA should be sent to Agent 24 hours before arrival.

TUGS: No tug-boats required for vessels of normal steering when entering port. Tug-boats are required for berthing or shifting to and/or from quays Muelle De Ancho, Muelle De Molinao, Muelle De Capuchinos for vessels from 80 m. length on. Ship's lines are used and tug-boats are employed according to Pilot's advice.

11 tugs available, the largest being 800 and 1,250 h.p. respectively.

BERTHING: Berths are appointed by Port Authorities after notice of arrival and information regarding cargo given by Agent. Pilots inform Masters of location of berth appointed, if any. No tidal difficulties for berthing or shifting inside the port.

Berths belonging to Port Authority.

Name	*Length* (m.)	*Depth* (m.)
Ancho	305.40	10.00
Molinao	348.60	10.00
Capuchinos	298.30	10.00
Petroleos	159.50	10.00
Lezo. 1	298.40	10.00
Lezo. 2	163.20	10.00
Transatlantic	234.10	8.00
Avanzado (North)	63.60	6.00
Avanzado (East)	114.60	6.00
Avanzado (West)	120.30	6.00
Petrol Basin	50.00	6.00
Herrera	422.80	5.00
Reloj	240.00	5.00

CARGO HANDLING: Berth equipped for containers with two cranes of 12 tons. A new quay under construction for roll-on/roll-off traffic. There are two berths for discharging through pipe-line; tallow, codfish-oil, etc.

Whenever a vessel arrives with inflammable products, such as gas, propane, etc., the quay where vessel is discharging is fenced off.

CRANES:

No.	*Capacity* (metric)
8	3 tons
13	3.5–6 tons
13	6 tons
1	6–10 tons
7	12 tons
2	30 tons

STEVEDORES: ETA advice should be received by Agent 24 hours before arrival in order arrange loading/unloading operations with stevedores. The official working time in the port is: Monday/Saturday 0800 to 1200 hrs. and 1330 to 1730 hrs.

MEDICAL: Any kind of medical assistance is available. In case urgent surgical or medical assistance required on vessel's arrival, Agent should be informed in plenty of time to make the necessary arrangements.

No particular inoculations required or vaccination/fever certificates to be produced unless epidemic at last or recently visited ports.

TANKERS: Slop discharge to shore possible under agreement. Oil/tallow/asphalt-carriers berth alongside quays with 30 ft. of water. Diameter of discharge shore-lines are 6 in. and 8 in.

FRESH WATER: Fresh water available at all wharves. Rate of delivery 70 cu/m. per hour.

FUEL: Fuel supplied at Ancho, Molinao, Capuchinos and Petroleos Wharves by CAMPSA. Rate 100 t.p.h. Owners should stem the bunkers with CAMPSA 48 hours before delivery.

FIRE PRECUATIONS: No specific precautions required unless the vessel carries inflammable cargo. Special harbour fire-fighting corps.

DEVELOPMENTS: Extensive developments respecting the construction of new quays and amelioration of the entrance channel are actually under way. The works in the entrance channel will permit a draft and length increase.

GANGWAY/DECK WATCHMEN: Not compulsory. Shore watchmen available.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: To be produced if required, specially Safety Wireless, Safety Equipment and Deratisation Certificates.

CUSTOMS ALLOWANCE: In case the vessel carries more than 3 kilos tobacco per crew member and more than 2 kilos per passenger, the excess must be declared in a separate Manifest which must be legalised by the Spanish Consular Authorities. In absence of Spanish Consular Authorities that Manifest will have to be legalised by an Authority of last port of clearance wherefrom the vessel proceeds. Prudent, limited amount of spirits allowed per man.

IDENTIFICATION CARDS: Not required.

CONSULS: Consulates/Vice-Consulates at San Sebastian and/or Pasajes:

Argentina
Belgium
Brazil
Columbia
Costa Rica
Chile
Denmark
El Salvador
Finland
France
Germany
Great Britain
Greece
Italy
Netherlands
Norway
Panama
Paraguay
Peru
Portugal
Sweden

REPAIRS: Repair shops and shipyards available, where repairs or overhauls may be carried out.

DRY DOCKS: One floating dock 66.27 m. long. 23.25 m. wide, 9.125 m. draft. with lifting power of 1,900 tons. 2 slipways (1 for vessels of up to 1,000 tons – one for vessels of up to 300 tons).

REPATRIATION: Good facilities for repatriation.

AIRPORT: Airport of Fuenterrabia is situated at 15 km. from Pasajes. Regular daily services with Madrid and Barcelona.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January; 6th January; 19th March; Maunday Thursday (afternoon); Good Friday; 1st May; Ascension Day; Corpus Christi; 29th June; 7th July; 18th July; 25th July; 31st July; 15th August; 12th October; 1st November; 8th December; 25th December.

POLICE/AMBULANCE/FIRE: Police 351841; Ambulance 414148; Fire from 0800 to 1930 hrs. tel. 351400, from 1930 to 0800 hrs. tel. 352391; Red Cross (local) 351032; Hospital, San Sebastian, 423632.

TELEPHONES: No possibility of placing telephones on board.

SERVICES: Divers, compass adjusting.

SHORE LEAVE: Crew allowed to land immediately upon arrival.

AGENT: Sobrinos De. M. Camara Y Compania, Telegrams "Camara". Tel. 357045, 357046 and 357047. Telex 36241.

(Shipbrokers, Customs/Forwarding Agents, Chartering Agents, Lloyd's Sub-Agents.)

RIBADEO: 43.33 N. 07.05 W.

DOCUMENTS:

Manifest of Cargo, including cargo in transit.
3 Crew Lists.
2 Passenger Lists or negative.
2 Stores Lists.

If vessel carries over 3 kilos tobacco per man, the excess to be declared in a separate manifest which must be visaed by Spanish Consul at last port, otherwise is exposed to heavy fine.

PILOTAGE: Prior advice of ETA required by Pilot, who boards at the mouth of the river at the time advised by Agent. Pilot boat is white-painted motor launch, carrying international pilot signals.

In case of bad weather, Pilot will instruct vessel by signals to proceed to anchorage or to berth.

The Pilot always boards on the lee side, in the latitude of Isla Pancha.

ANCHORAGE: At Ensenada de Arneo, approx. position 43° 33′ N. 7° 01.6′ W. in depth of 9 m. LW.

RESTRICTIONS: Vessels enter night and day, limited only by draft and state of tide.

MAX. SIZE: Length and beam not limited. Max. draft 15 ft.

HEALTH: Pratique given on arrival on production of clean Bill of Health. International quarantine signals to be used. Port Authorities to be advised if any case of suspected disease or fever on board.

RADIO: Messages may be routed through coastal stations at Vigo, La Coruna or Gijon.

TUGS: None available.

STEVEDORES: Stevedores services operated only by Servicio de Trabajadores Portuarios.

BERTHING: Vessels may berth at the mole at any time, or state of tide, according to draft.

MEDICAL: There are 2 clinics and 1 hospital locally. Advance notice not essential.

DENSITY: 1025.

FRESH WATER: Water connections exist along the length of the mole. Rate, 20 t.p.h.

FUEL: There is a gas oil supply for small vessels, rate 5 t.p.h.

GANGWAY/DECK WATCHMEN: None required.

OPENING/CLOSING HATCHES: Performed by crew.

CUSTOMS ALLOWANCE: 200 cigarettes and 1 bottle wine/spirits per man.

CONSULS: Nearest at La Coruna.

REPAIRS: Minor mechanical repairs can be effected. Slipway for vessels up to 200 tons.

AIRPORT: Nearest at La Coruna, 150 km. away, or Aviles, 165 km. away, with regular services to Madrid.

TIME: GMT plus 1 hour all year round.

POLICE/AMBULANCE/FIRE: Tel. Ribadeo 110650.

AUTHORITY: Ayudante Militar de Marina.

ROSAS: 42.14 N. 03.10 E.

DOCUMENTS:

Crew List.
Passenger List.
(1 of each) Ship's Papers.

PILOTAGE: No Pilots in this port.

ANCHORAGE: Bay of Rosas is anchorage area.

MAX. SIZE: Draft in Commercial Port is 4 m., which berths cargo ships of about 1,000 metric tons of net register.

HEALTH: Once ship is anchored in the bay it requires pratique by means of signals, and by raising the yellow health flag. When vessel entering after calling at another port in the same country, this procedure is not required; Health Inspector boards at the quay side.

RADIO: No radio station in the port, but can contact Coastal Radio Station of Barcelona (1730 kc/s. 173.4 m.), power 150 W.

TUGS: None.

BERTHING: Advisable during daylight only.

MEDICAL: Port Health Doctor available. Hospitals 18 km. distance.

FRESH WATER: Available at Commercial Port at rate of 8 to 10 metric t.p.h.

FUEL: None available.

POLICE/AMBULANCE/FIRE: Police Service 25-62-72; Ambulance Service 24-21-20; Fire Service 24-10-00.

AUTHORITY: Ayudante Militar de Marina de Rosas.

SAGUNTO: 39.42 N. 00.14 W. (See Plan)

PORT LIMITS: The East/West line through the point of Cape Escollera de Levante.

DOCUMENTS:

2 copies Entrance Manifest.
4 copies Crew List.
Passenger List disembarking at this port.
Passenger List in transit.

Refer to "Barcelona" for other important information concerning Documentation.

PILOTAGE: Port is privately owned, and Pilots employed by Altos Hornos de Viscaya S.A. As Pilots are employed in Consignees office no separate ETA is necessary. They are sent out to meet vessels as required. Pilot boat is not fitted with radar or VHF. Boat displays signals in accordance with international regulations.

ANCHORAGE: From 155° to 170° from the Cape Canet Lighthouse in 17 m. of water.

RESTRICTIONS: Delays may be caused by berth being occupied. Larger vessels may be delayed by bad weather (the Levante), as dredged channel is narrow.

MAX. SIZE: Draft 29 ft. 5 in. No other limitations.

HEALTH: Pratique can be arranged at any time by Consignees.

RADIO: Cadiz Radio-EAC, Cabo Palos Radio-EAP and Valencia Radio EAV.

TUGS: Normally join vessel either in anchorage or 0.5 mile from entrance. Ship's lines are used. Tugs should be ordered in ETA message also mentioning vessels length and cargo.

BERTHING: Subject to berth occupation and to berthing priority that Altos Hornos gives to different cargoes. Overnight berthing is allowed, in cases of emegency, or for ship safety.

CRANES: 10 at 6 tons on the coal quay, 4 at 20 tons, 4 and 60 tons and a 250 ton winch on the new quay.

STEVEDORES: Employed by consignees.

MEDICAL: Medical assistance should be ordered in advance. All kinds of medical assistance available. One hospital owned by Altos Hornos.

TANKERS: No facilities.

DENSITY: Salt water.

FRESH WATER: Available.

FUEL: None available.

FIRE PRECAUTIONS: Fire service organised by Altos Hornos.

GANGWAY/DECK WATCHMEN: Usually by crew. The Civil Guard keep watch on all ships for contraband.

OPENING/CLOSING HATCHES: Effected by ship's crew.

DEVELOPMENTS: Port to be expanded during the next five years to accommodate 300,000 tonners, at specialised cargo handling facilities.

An ore loading pier is in course of construction for Sierra Menera (approx. 1,700 m. long). Max. draft 48 ft.

CUSTOMS ALLOWANCE: 200 cigarettes only. One bottle spirits per man but bottle should be opened. Spanish spirits allowed; one bottle per man. No control of Spanish wines.

IDENTIFICATION CARDS: Passport only.

CONSULS: Nearest at Valencia.

REPAIRS: Small repairs possible.

REPATRIATION: Facilities for effecting crew changes and arranging repatriation.

AIRPORT: Manises Valencia, 40 km away.

TIME: GMT plus 1 hour.

HOLIDAYS: On religious festivals or Sundays no cargo work can be arranged. These are as follows: Our Lady of the Marine (16th July) no cargo work; National Festivity (18th July) no work; National Festivity (25th July) no work; Hispanic Festivity (12th October) no work; Maunday Thursday, work can be done till 1400 hours; Good Friday, no work.

TELEPHONES: None on board. Telephones placed in Boat house and Pilots' office.

SHORE LEAVE: Crew members allowed ashore.

AUTHORITY: Ayudante Militar de Marina.

SAN FELIU DE GUIXOLS (Gerona): 41.46 N. 03.01 E.

GENERAL: Refer to Palamos for all general information.

PILOTAGE: Pilotage is compulsory. Service between 0700 to 2400 hrs.

ANCHORAGE: Vessels arriving after midnight or due to port congestion are anchored outside the breakwater.

MAX. SIZE: The maximum advisable draft for berthing is 22 ft. and up to 115 m. length.

TUGS: No tugs available.

BERTHING: Due to the fact that a few vessels can work at the same time, it is advisable to know as soon as possible the ETA for berthing arrangements.

Commercial Wharf.	Length 108 m.	Depth 22 ft.
Breakwater	Length 116 m.	Depth 22 ft.

A pier for coasting vessels with a maximum draft of 18 ft.

MEDICAL: Any kind of medical services can be obtained in San Feliu or Gerona hospital.

FRESH WATER: By means of hoses from the pier.

FUEL: Can be supplied in small quantities.

CARGO GEAR: Commercial pier is served by an electric crane able to lift up to 6 tons. Normally vessels derricks are used.

SANTANDER: 43.28 N. 03.49 W.

PORT LIMITS: Between Cabo Menor and Punta Galizano.

DOCUMENTS:

5 crew lists.

7 passenger lists, or 3 negative.

3 cargo manifests of the goods destined to the port of Santander, two sets of manifests for cargoes in transit.

Store list in triplicate, including tobacco, spirits, radios, etc., belonging to the vessel.

Detailed list in triplicate of all personal effects of crew and passengers (tobacco, spirits, cameras, souvenirs, radios, etc.).

For vessels exceeding 499 g.r.t: Safety wireless certificate and Safety equipment certificate.

Legalisation required for manifests covering tobacco and tobacco products. This legalisation to be effected at the port prior to the first Spanish port of call.

Master and each member of crew of vessel can carry for his own consumption up to 3 kilos of tobacco in whatever form, and, if passengers are carried, up to 2 kilos per passenger, all of which must be declared in provisions list (1 kilo of tobacco = 1,000 cigarettes = 100 cigars). If Masters carry greater quantity than stated above, it cannot be manifested as tobacco for consumption on board, but must be included in Consular Manifest as being in transit, and as such must be separated in the holds from other cargo and hatches or lockers will be sealed by Customs until ship leaves Spanish waters. This Consular Manifest has to be legalised by a Spanish Consul. In the absence of Consul, said document will have to be visaed by an Authority of the former port of clearance. Otherwise, vessel would be severely fined.

PILOTAGE: Compulsory and service is permanent. Pilots board vessel by a cutter at the road, near the entrance off Mouro Island. Pilot cutters are painted white and have the letter "P" in black, on each bow. Cutters have blue flag with letter "P" in white, at both sides of flag. At night cutters have a white light, under this a red one. VHF available.

ANCHORAGES: The harbour consists of a large bay which provides good anchorage.

RESTRICTIONS: Entrance is well marked and there is no bar. Depth at entrance is at max. (dependent on tides) 33 ft.

MAX. SIZE: No restriction in respect of length or breadth, the maximum advisable draft to enter port is 33 ft.

HEALTH: If the vessel proceeds directly to berth, pratique can be obtained immediately after berthing. Otherwise, at anchorage at vessel's arrival.

If vessel has sickness on board of a contagious nature Masters should advise Health Authorities by radio, and they will examine patients immediately upon arrival, to enable vessel to be granted free pratique. If vessel has to be fumigated or deratised a charge is made.

RADIO: Nearest important radio station is Cabo Mayor Radio, and it is advisable that messages received at least 24 hours before arrival.

TUGS: No tug-boats required for entering the port, only for berthing or shifting when in port. Ship's lines are used, and tug-boats are employed according to Pilot's advice.

BERTHING:	*Length*	*Depth*
Calderon quay	650 ft.	12 ft.
Maura/Albareda quay	423 ft.	12 ft.
Bloques quay	3,940 ft.	30 ft.
Anaos quay		32 ft.
Maliano quay		27 ft.
Maliano quay North Section	1,500 ft.	32 ft.
Campsa quays	900 ft.	24–28 ft.
Nueva Montana quay	350 ft.	18 ft.

All depths of water quoted above correspond to LWOST and 13–14 ft. should be added for depths at HWOST. Bottom is generally soft.

Calatrava Wharf: for discharge of chemicals. Depth alongside 34 ft. with overall length limitation of 980 ft. Up River, at Astillero, beyond the harbour area, there is one spout called Orconera Tip for loading iron ore. Vessels up to 260–270 ft. length are allowed with a maximum draft, fully loaded, of 19 ft. Loaded vessels can only sail from that place at high water. A modern installation for dismantling and scrapping vessels is operating up river, on the way to Astillero.

CARGO-HANDLING FACILITIES: There are berths for handling bulk cargoes, grain, ore, coal, etc. There are also berths for handling bulk liquids, chemicals. Berth available for roll-on/roll-off traffic.

STEVEDORES: It is very important that Masters send advance notice regarding vessel's ETA. With this notice, Agents can inform Shippers or Receivers' stevedores accordingly. Official working hours of port, are: Monday/Saturday: 0800–1200 hrs.; 1400–1800 hrs.

MEDICAL: Any kind of medical services can be arranged.
